Briefing on How To Use the Federal Register
For information on briefings in San Francisco, CA, and Seattle, WA, see announcement on the inside cover of this issue.

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 54 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

SAN FRANCISCO, CA

WHEN: November 29; at 9:00 a.m.
WHERE: Room 15138,
450 Golden Gate Avenue,
San Francisco, CA.
RESERVATIONS: Call Mary Walters at the San Francisco Federal Information Center,
415–556–6600.

SEATTLE, WA

WHEN: November 30; at 1:00 p.m.
WHERE: South Auditorium, 4th Floor,
915 2nd Avenue,
Seattle, WA.
RESERVATIONS: Call Carmen Meler or Peggy Groff at the Portland Federal Information Center on the following numbers:
Seattle: 206–442–0570,
Tacoma: 206–383–7970,
Portland: 503–328–2222.

Title 3—

The President

Proclamation 6054 of October 25, 1989

Polish American Heritage Month, 1989

By the President of the United States of America

A Proclamation

This month, we Americans honor the millions of men and women of Polish descent who have helped build our Nation and keep it strong and prosperous. Many important chapters in American history—and even the story of hope now unfolding in their ancestral homeland—provide moving testimony to the faith, courage, and hard work of Polish Americans.

During the Revolutionary War, courageous Poles such as General Casimir Pulaski and Tadeusz Kosciuszko helped to win the American struggle for independence. These two men clearly understood that liberty is the God-given right of all men, and the cause of freedom is universal. Like many of their contemporaries, they knew that the hopes of freedom-loving peoples around the world were invested in our Nation's great experiment in self-government.

Today, we pay tribute to the millions of Polish immigrants who—even though they arrived in this country with little more than the clothes on their backs—have built strong families and thriving communities across the United States. With great faith in God and in America's promise of freedom and opportunity for all, they have worked with pride and diligence. All of us have been enriched by their success.

Polish Americans have not only prospered, they have also become responsible citizens and true patriots. Many Polish Americans were among the thousands of men and women who served our Nation with distinction during World Wars I and II. As we gratefully remember their courage and selflessness, we also recall the contributions of our Polish allies in the defeat of Nazi Germany.

Throughout our Nation's history, the people of the United States and Poland have been united not only by cultural and familial ties, but also by our common love for freedom and representative government. Poland's history chronicles the struggles of a people who would not be deterred in their fight for liberty and the right to self-determination. The Polish Constitution of May 3, 1791, drafted only a few years after our Nation's own, was one of the first written national constitutions in the world. Its creation vividly demonstrated the Poles' determination to secure a free and just system of government.

Despite years of repression by ruling officials, military invasion by Nazi Germany and the Soviet Union in 1939, and the declaration of martial law in 1981, that resolve has remained unshaken. Indeed, after years of struggle and sacrifice, the persistence of the Polish people is finally being rewarded. For the first time since World War II, Poland is being led by a non-Communist government.

Today, all Americans join their friends and neighbors of Polish descent in celebrating recent political reforms in Poland, for these changes represent even more than a great victory for the Polish people—they also bear witness to the power of faith and the triumph of democratic ideals.

The Congress, by Public Law 101-84, has designated October 1989 as "Polish American Heritage Month" and has authorized and requested the President to issue a proclamation in observance of this event.

UMI

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 1989 as Polish American Heritage Month. I urge all Americans to join their fellow citizens of Polish descent in observance of this month.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred and eighty-nine, and of the Independence of the United States of America the two hundred and fourteenth.

George Bush

Rules and Regulations

Federal Register
Vol. 54, No. 207
Friday, October 27, 1989

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Regulation 689]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: Regulation 689 establishes the quantity of fresh California-Arizona lemons that may be shipped to market at 310,160 cartons during the period October 29 through November 4, 1989. Such action is needed to balance the supply of fresh lemons with market demand for the period specified, due to the marketing situation confronting the lemon industry.

DATES: Regulation 689 (7 CFR part 910) is effective for the period October 29 through November 4, 1989.

FOR FURTHER INFORMATION CONTACT: Beatriz Rodriguez, Marketing Specialist, Marketing Order Administration Branch, F&V, AMS, USDA, Room 2523, South Building, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 475-3861.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

The purpose of the RFA is to fit regulatory action to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Agricultural Marketing Agreement Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 85 handlers of lemons grown in California and Arizona subject to regulation under the lemon marketing order and approximately 2500 producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose average gross annual receipts are less than $3,500,000. The majority of handlers and producers of California-Arizona lemons may be classified as small entities.

This regulation is issued under Marketing Order No. 910, as amended (7 CFR part 910), regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Marketing Agreement Act (the "Act," 7 U.S.C. 601-674), as amended. This action is based upon the recommendation and information submitted by the Lemon Administrative Committee (Committee) and upon other available information. It is found that this action will tend to effectuate the declared policy of the Act.

This regulation is consistent with the California-Arizona lemon marketing policy for 1989-90. The Committee met publicly on October 24, 1989, in Los Angeles, California, to consider the current and prospective conditions of supply and demand and unanimously recommended a quantity of lemons deemed advisable to be handled during the specified week. The Committee reports that overall demand for lemons is good.

Pursuant to 5 U.S.C. 553, it is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in further public procedure with respect to this action and that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary, in order to effectuate the declare purposes of the Act, to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Arizona, California, Lemons, Marketing agreements and orders.

For the reasons set forth in the preamble, 7 CFR part 910 is amended as follows:

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

1. The authority citation for 7 CFR part 910 continues to read as follows:

Authority: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C 601-674.

§ 910.989 [Amended]

2. Section 910.989 is added to read as follows:

Note: This section will not appear in the Code of Federal Regulations.

§ 910.989 Lemon Regulation 689.

The quantity of lemons grown in California and Arizona which may be handled during the period October 29, 1989, through November 4, 1989, is established at 310,160 cartons.

Dated: October 25, 1989.

William J. Doyle,
Acting Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 89-NM-94-AD; Amendment 39-6374]

Airworthiness Directives; Airbus Industrie Model A300, A310, and A300-600 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

VOL 54 ISS 207 OCT 27 1989 UMI

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Airbus Industrie Model A300, A310, and A300–600 series airplanes, which requires repetitive inspections of the nose landing gear (NLG) barrel for cracks, and repair, if necessary; and requires eventual modification of the NLG barrel, which terminates the need for the repetitive inspections. This amendment is prompted by results of the manufacturer's fatigue testing, which revealed cracks in the lower area of the NLG barrel. This condition, if not corrected, could lead to collapse of the nose landing gear.

EFFECTIVE DATE: December 4, 1989.

ADDRESSES: The applicable service information may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Standardization Branch, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Holt, Standardization Branch, ANM–113; telephone (206) 431–1918. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include a new airworthiness directive, applicable to certain Airbus Industrie Model A300, A310 and A300–600 series airplanes, which requires repetitive inspections of the nose landing gear (NLG) for cracks, and repair, if necessary; and requires eventual modification of the NLG barrel, which terminates the need for the repetitive inspections; was published in the **Federal Register** on July 13, 1989 (54 FR 29577).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Two comments were received in response to the proposal.

One commenter questioned the need for the rule since the referenced service bulletins will become a part of the Significant Structural Inspection Program (SSIP). The FAA acknowledges that the service bulletins may be part of the SSIP; however, the SSIP document is under preparation and its date of issuance is not known. Once the SSIP is finalized and issued, the FAA may consider further, separate rulemaking to address it. Since some operators may currently have airplanes which are approaching the specified number of cycles where the actions described in the service bulletins are necessary, the FAA has determined that it is appropriate to proceed with this rulemaking to require those actions.

One commenter requested that Airbus Service Bulletin A300–32–385, Revision 1, be reflected in the rule, since it describes procedures for the installation of a reinforced nose landing gear and does not require repetitive inspections of the lower section. The FAA agrees that the procedures specified in that service bulletin should be made mandatory, but does not concur that they need to be a part of this AD. That service bulletin, along with Service Bulletins A300–32–6022 and A310–32–2039, is addressed in French Airworthiness Directive 88–185–090, and the FAA has issued a separate proposed AD, Docket Number 89–NM–118–AD, which was published in the **Federal Register** on July 26, 1989 (54 FR 31047), addressing these service bulletins. After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

It is estimated that 90 airplanes of U.S. registry will be affected by this AD, that it will take approximately 5 manhours per airplane to accomplish the required inspections, and that the average labor cost will be $40 per manhour. It will require approximately 11 manhours to accomplish the modification at an average labor charge of $40 per manhour and $2,500 parts cost per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $282,600.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Airbus Industrie: Applies to Model A300, A310, and A300–600 series airplanes, certificated in any category. Compliance is required as indicated, unless previously accomplished.

To prevent collapse of the nose landing gear, accomplish the following:

A. Perform an ultrasonic inspection of the nose landing gear barrel, in accordance with Airbus Industrie Service Bulletin A300–32–388, Revision 1, dated January 24, 1989 (for Model A300 series airplanes); A310–32–2040, dated July 15, 1988 (for Model A310 series airplanes); or A300–32–6023, dated July 15, 1988 (for Model A300–600 series airplanes); as follows:

1. For airplanes with nose landing gears having less than 11,500 cycles accumulated as of the effective date of this AD, perform the inspection prior to the accumulation of 12,000 cycles.

2. For airplanes with nose landing gears with 11,500 or more cycles accumulated as of the effective date of this AD, perform the inspection within 500 cycles or 3 months after the effective date of this AD, whichever occurs first.

B. If no ultrasonic echo is observed, or the echo amplitude is lower than or equal to ten percent (10%) of ultrasonic generator screen height, repeat the inspection required by paragraph A., above, at intervals not to exceed 1,250 cycles.

C. If an echo amplitude higher than ten percent (10%) and below eighty percent (80%) of ultrasonic generator screen height is observed during the inspection required by paragraphs A. and B., above, prior to further flight, perform a visual inspection to determine if the crack is visible, in accordance with Airbus Industrie Service Bulletin A300–32–388, A310–32–2040, or A300–32–6023, as appropriate.

Note: The above-listed service bulletins reference Messier-Hispano-Bugatti (MHB) Service Bulletin No. 470–32–641 for additional inspection instructions.

1. If no crack is visible from the outside of the barrel, repeat the visual inspection prior to each flight. Replace the nose landing gear barrel within 100 cycles after discovery of first echo, in accordance with Airbus Industrie Service Bulletin A300–32–389 (for Model A300 series airplanes), A310–32–2041 (for Model A310 series airplanes), or A300–32–6024 (for Model A300–600 series airplanes), each dated October 15, 1988, as appropriate. (Reference: MHB Service Bulletin 470–32–642.)

2. If a crack is visible from the outside of the barrel, replace the nose landing gear barrel prior to further flight, in accordance with Airbus Industrie Service Bulletin A300–32–389, A310–32–2041, or A300–32–6024, as appropriate. (Reference: MHB Service Bulletin 470–32–642.)

3. After replacement is accomplished, the repetitive inspections required by paragraphs A. and B., above, may be discontinued.

D. If an echo amplitude equal to or higher than eighty percent (80%) of ultrasonic generator screen height is observed during the inspections required by paragraphs A. and B., above, prior to further flight, perform a visual inspection to determine if the crack is visible, in accordance with Airbus Industrie Service Bulletin A300–32–388, A300–32–2040, or A310–32–6023, as appropriate. (Reference: MHB Service Bulletin 470–32–641).

1. If no crack is visible from the outside of the barrel, one ferry flight for return to the main base is allowed before the barrel must be replaced.

2. If a crack is visible from the outside of the barrel, the barrel must be replaced prior to further flight, in accordance with Airbus Industrie Service Bulletin A300–32–389, A310–32–2041, or A300–32–6024, as appropriate. (Reference: MHB Service Bulletin 470–32–642).

3. After replacement is accomplished, the repetitive inspections required by paragraphs A. and B., above, may be discontinued.

E. Within 18 months after the initial inspection for cracks, modify the nose landing gear barrel, in accordance with Airbus Industrie Bulletin A300–32–389, A310–32–2041 or A300–32–6024, as appropriate. (Reference: MHB Service Bulletin 470–32–642.)

F. The inspections required by paragraphs A. and B., above may be terminated following modification of the nose landing gear barrel, in accordance with Airbus Industrie Bulletin A300–32–389, A310–32–2041 or A300–32–6024, as appropriate. (Reference: MHB Service Bulletin 470–32–642.)

G. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM–113, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who may add any comments and then send it to the Manager, Standardization Branch, ANM–113.

H. Special Flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Standardization Branch, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective December 4, 1989.

Issued in Seattle, Washington, on October 18, 1989.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 89–25332 Filed 10–26–89; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 39

[Docket No. 89–NM–63–AD; Amendment 39–6376]

Airworthiness Directives; Boeing Model 747 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Boeing Model 747 series airplanes, which requires visual inspection of certain H–11 steel bolts for cracks or fracture, and replacement, if necessary; and eventual replacement of H–11 steel bolts with bolts made of Inconel 718 material. This amendment is prompted by reports of fracture or cracking of H–11 steel bolts at several critical locations. This condition, if not corrected, could result in severe structural damage.

EFFECTIVE DATES: December 4, 1989.

ADDRESSES: The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Dan R. Bui, Airframe Branch, ANM–120S; telephone (206) 431–1919. Mailing address: FAA Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive, applicable to Boeing Model 747 series airplanes, which would require visual inspection of certain H–11 steel bolts for cracks or fracture, and replacement, if necessary; and eventual replacement of H–11 steel bolts with bolts made of Inconel 718 material; was published in the **Federal Register** on June 6, 1989 (54 FR 24187).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

The commenters requested that the proposed compliance period for bolt replacement be extended from 36 months to 48 or 60 months after the effective date of the final rule. One commenter noted that 60 months is recommended in the referenced Boeing service bulletin. Another commenter pointed out that 240 to 260 manhours per airplane are actually required for bolt replacement and a program of this magnitude should, therefore, only be scheduled during a heavy maintenance check (a period which would be beyond the proposed compliance time). The FAA agrees that the compliance period can be extended somewhat. Taking into account the 14 months that have elapsed since the release date of the service bulletin, the FAA has determined that the compliance period for bolt replacement may be extended to 48 months after the effective date of the AD, and that such an extension will not have a derogatory effect on safety as long as the repetitive inspections are continued. The final rule has been revised accordingly. Additionally, the economic impact information, below, has been revised to reflect 240 manhours as the number of manhours required to accomplish the actions required by this AD. The manufacturer has verified this figure.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the

VOL 54 ISS 207 OCT 27 1989 UMI

adoption of the rule with the change previously described. This change will neither increase the economic burden on any operator, nor will it increase the scope of the rule.

There are approximately 648 Model 747 series airplanes of the affected design in the worldwide fleet. It is estimated that 165 airplanes of U.S. registry will be affected by this AD, that it will take approximately 240 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Parts are estimated at $7,000 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $2,739,000.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Applies to Model 747 series airplanes, listed in Boeing Service Bulletin 747-51-2043, dated June 30, 1988, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent structural damage caused by cracked or fractured H-11 steel bolts, accomplish the following:

A. Prior to the accumulation of 4 years total time-in-service, or within the next 15 months after the effective date of this AD, whichever occurs later, visually inspect H-11 steel bolts for cracks or fractures, in accordance with Boeing Service Bulletin 747-51-2043, dated June 30, 1988, at the following locations:

1. Body landing gear inboard and outboard trunnion vertical support.
2. Wing landing gear beam upper chord to longeron attachment.
3. Wing landing gear beam lower chord to crease beam attachment.
4. Body station (BS) 2598 horizontal stabilizer hinge attachment.
5. BS 2598 longeron splice fitting attachment at stringers 11 and 23.
6. Fin to body attachment.
7. The horizontal stabilizer front spar jack screw attachment.

B. If a cracked or fractured bolt is found, replace with an Inconel 718 bolt, prior to further flight, in accordance with Boeing Service Bulletin 747-51-2043, dated June 30, 1988.

C. If a cracked or fractured bolt is found and if Inconel 718 bolts are unavailable, replace the cracked or fractured bolt with an H-11 steel bolt, prior to further flight, in accordance with Boeing Service Bulletin 747-51-2043, dated June 30, 1988. Repeat the visual inspection required by paragraph A., above, at intervals not to exceed 18 months.

D. If no cracking or fracture is found, repeat the visual inspection required by paragraph A., above, at intervals not to exceed 18 months.

E. Within the next 48 months after the effective date of this AD, replace all affected H-11 steel bolts with Inconel 718 bolts, in accordance with Boeing Service Bulletin 747-51-2043, dated June 30, 1988.

F. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who may add any comments and then send it to the Manager, Seattle Aircraft Certification Office.

G. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective December 4, 1989.

Issued in Seattle, Washington, on October 18, 1989.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 89-25331 Filed 10-26-89; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 88-NM-212-AD; Amendment 39-6375]

Airworthiness Directives; Boeing Model 737-300 and -400 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Boeing Model 737-300 and -400 series airplanes, which requires revision of the engine operation procedures in icing conditions. This amendment is prompted by reports of an ice ingestion incident involving a Model 737-300 that resulted in a marked increase in the vibration levels of both engines. This condition, if not corrected, could jeopardize continued safe flight and landing.

EFFECTIVE DATES: December 4, 1989.

ADDRESSES: The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Richard N. Simonson, Propulsion Branch, ANM-140S; telephone (206) 431-1965. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive, applicable to Boeing Model 737-300 and -400 series airplanes, which requires incorporation

of Boeing Operations Manual Bulletin 737-300-89-1 or 737-400-89-1, as appropriate, into the Airplane Operations Manual, was published in the Federal Register on April 12, 1989 (54 FR 14857).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter questioned the appropriateness of revising the Airplane Operations Manual by AD action, and stated that it would be more appropriate to withdraw the proposed rule and to issue an FAA Action Notice to the various principal operations inspectors (POI). The FAA disagrees. The mechanism that exists to rectify a finding by the FAA that an unsafe condition exists, is an amendment to Federal Aviation Regulations (FAR) part 39. In addition, under existing bilateral airworthiness agreements, the FAA is obligated to advise foreign airworthiness authorities of unsafe conditions relating to products produced in the United States, and the means of doing this is an amendment to FAR part 39. The effect of this AD is to ensure that flightcrews are advised of the potential hazard and of the procedures to address it.

One commenter stated that some of the information about damage to the engine due to ice ingestion in the DISCUSSION portion of the Notice was incorrect and should be revised prior to the issuance of a final rule. The FAA disagrees. A careful review of the preamble to the Notice confirms that the finding of the existence of an unsafe condition was related to a dual engine event which jeopardized continued safe flight and landing within the scope of FAR 25.901(c). The preamble also presented concerns in support of this finding, which remain valid even though they may not have played a part in the incident cited.

The same commenter stated that the wording of the purpose of the proposed AD should be revised to read: "To reduce the risk of jeopardizing continued safe flight and landing due to high indicated engine vibration while operating in icing conditions, or due to engine ice ingestion, accomplish the following." The FAA disagrees in that consideration must be given to the possibility that high engine vibration may not be the only threat to continued safe flight and landing associated with ice ingestion.

One commenter stated that test stand data show that blade shingling and ice accretion do not pose a threat to the engine, and that the statement in the preamble to the Notice which read, "the engines were not exposed to the maximum icing anticipated in service and that such exposure could cause extensive engine damage that would result in power loss in both engines," was not technically correct. The FAA disagrees. The fact that a given engine exhibits acceptable performance on a test stand does not imply that there is not a flight condition that is more severe than the test stand conditions. Whether the engine performance deteriorates or the flightcrew is inhibited from using that performance due to engine/airframe vibration, etc., is immaterial in terms of continued safe flight and landing. The possibility of an ice ingestion incident that results in extensive engine damage and performance deterioration must be considered by the FAA; this AD action accomplishes that.

One commenter noted that revisions to Boeing Operational Bulletins 737-300-89-1 and 737-400-89-1 were being prepared and should be specified in the final rule. As of this date, the FAA has neither received nor approved revisions to the above operations bulletins. If at some future date, revisions to these operations bulletins are generated, the FAA may consider them under the alternate means of compliance provision of paragraph B. of the final rule.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA is currently considering further rulemaking to incorporate the warnings and procedures of Operations Manual Bulletin 737-300-89-1 and 737-400-89-1 into the Airplane Flight Manual (AFM) in order to make these procedures mandatory.

There are approximately 600 Model 737-300 and -400 series airplanes of the affected design in the worldwide fleet. It is estimated that 175 airplanes of U.S. registry will be affected by this AD, that it will take approximately 1 manhour per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $7,000.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Applies to Model 737-300 and -400 series airplanes, certificated in any category. Compliance required within 10 days after the effective date of this AD, unless previously accomplished.

To reduce the risk of jeopardizing continued safe flight and landing due to engine ice ingestion, accomplish the following:

A. Incorporate Boeing Operations Manual Bulletin 737-300-89-1 or 737-400-89-1, both dated February 14, 1989, as appropriate, into the Airplane Operations Manual.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Operations Inspector (POI), who will either concur or comment and then send it to the Manager, Seattle Aircraft Certification Office.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle,

VOL 54 ISS 207 OCT 27 1989 UMI

Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective December 4, 1989.

Issued in Seattle, Washington, on October 18, 1989.

Darrell M. Pederson

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 89-ANE-20; Amendment 39-6345]

Airworthiness Directives; Allison Gas Turbine Division, General Motors Corporation, Allison Model 250-C28 Series Engines.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires modification of the second stage turbine nozzle, P/N 6898852, on certain Allison Model 250-C28 series engines. The AD is needed to prevent failure of the nozzle which causes rubbing contact with the second stage turbine wheel which could result in an uncontained turbine wheel failure.

DATES: *Effective* October 29, 1989.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the **Federal Register** as of October 29, 1989.

Compliance: As indicated in the body of the AD.

ADDRESSES: The applicable Commercial Engine Bulletin (CEB) may be obtained from Allison Gas Turbine Division, General Motors Corporation, P.O. Box 420, Indianapolis, Indiana 46206-0420, or may be examined in the Regional Rules Docket, Room 311, Office of the Assistant Chief Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01830.

FOR FURTHER INFORMATION CONTACT: Mr. Ty Krolicki, Chicago Aircraft Certification Office, Propulsion Branch, ACE-140C, Small Airplane Directorate, Aircraft Certification Service, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018; telephone (312) 694-7032.

SUPPLEMENTARY INFORMATION: The FAA has determined that the second stage turbine nozzle, Part Number (P/N) 6898852, used on certain Allison Model 250-C28 series engines can fail at a brazed joint between the nozzle casting and the periphery of the nozzle diaphragm. Failure of the nozzle at this joint has led to instances of rubbing contact between the diaphragm and the second stage turbine wheel resulting in an uncontained failure of the wheel. Allison Commercial Engine Alert Bulletin CEB-A-72-2044 which corrects this problem by modifying the second stage turbine nozzle was issued as a standard CEB in 1980. A 1988 incident highlighted the fact that some unmodified turbine nozzles are still in service. It also showed that the life limit is not always adhered to. This may be partially attributable to the fact that life limits are somewhat uncommon for non-rotating engine parts.

Since this condition is likely to exist or develop on other engines of the same type design, an AD is being issued which requires modification and reidentification of the second stage turbine nozzle on certain Allison Model 250-C28 series engines. This AD does not address Allison Model 250-C30 series engines with the same design because the affected second stage turbine nozzles in those engines have already been removed from service in connection with other AD actions.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the rules docket (otherwise, an evaluation is not required). A copy of it, if filed, may be obtained from the rules docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety, and Incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration (FAA) amends 14 CFR Part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39 [AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive (AD):

Allison Gas Turbine Division, General Motors Corporation (Allison, formerly Detroit Diesel Allison): Applies to Allison Model 250-C28B and -C28C engines, with P/N 6898952 second stage turbine nozzle assembly, installed in aircraft certificated in any category except those with the following turbine assembly serial numbers:

Engine model	Turbine serial number
250-C28B	CAT 70498, CAT 70499, CAT 70502, CAT 70513 and subsequent
250-C28C	CAT 28010 and subsequent

Compliance is required as indicated, unless already accomplished.

To prevent failure of the second stage turbine nozzle which can lead to rubbing contact between the nozzle diaphragm and the second stage turbine wheel possibly resulting in an uncontained turbine wheel failure, accomplish the following:

(a) Within the next 100 hours time-in-service after the effective date of this AD, or at the next turbine repair or overhaul, whichever occurs first, but not later than November 30, 1989, perform the following:

Modify and reidentify second stage turbine nozzle, P/N 6898852, into P/N 23001942, in accordance with Allison Commercial Engine Alert Bulletin CEB-A-72-2044, Revision 4, dated May 1, 1989.

Note.—Existing Model 250-C28B and -C28C engines which have incorporated Allison Commercial Engine Alert Bulletin CEB-A-72-2044, Revision 4, dated May 1, 1989, or prior issues of CEB-72-2044, or engines which have incorporated P/N 23001942 are already in compliance with this AD.

(b) Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

(c) Upon submission of substantiating data by an owner or operator through an FAA Airworthiness Inspector, an alternate method of compliance with the requirements of this AD or adjustments to the compliance schedule specified in this AD may be approved by the Manager, Chicago Aircraft Certification Office, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The second stage turbine nozzle modification shall be done in accordance with Allison Commercial Engine Alert Bulletin CEB-A-72-2044, Revision 4, dated May 1, 1989. This incorporation by reference was approved by the Director of the **Federal Register** in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Allison Gas Turbine Division, General Motors Corporation, P.O. Box 420, Indianapolis, Indiana 46206-0420. Copies may be inspected at the Regional Rules Docket, Office of the Assistant Chief Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Room 311, Burlington, Massachusetts 01803, or at the Office of the **Federal Register**, 1100 L Street, NW., Room 8301, Washington, DC 20591.

This amendment becomes effective on October 29, 1989.

Issued in Burlington, Massachusetts, on September 18, 1989.

Jay J. Pardee,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 89-NM-89-AD; Amdt. 39-6372]

Airworthiness Directives; Empresa Brasileira de Aeronautica, S.A. (EMBRAER) Model EMB-120 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to EMBRAER Model EMB-120 series airplanes, which requires the modification of the landing gear aural warning system in order to alert the crew on approach that the landing gear is not down. This amendment is prompted by two recent inadvertent gear-up landings, wherein the aural warning device did not sound. This condition, if not corrected, could result in an inadvertent gear-up landing.

EFFECTIVE DATE: December 1, 1989.

ADDRESSES: The applicable service information may be obtained from EMBRAER, 276 SW. 34th Street, Fort Lauderdale, Florida 33315. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Standardization Branch, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. William H. Trammell, Aerospace Engineer, ACE-130A, FAA, Central Region, Atlanta Aircraft Certification Office, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia 30349; telephone (404) 991-3020.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include a new airworthiness directive, applicable to EMBRAER Model EMB-120 series airplanes, which requires modification of the landing gear aural warning system, was published in the **Federal Register** on June 23, 1989 (54 FR 26388).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter fully supported the rule.

One commenter requested that the compliance time be extended from the proposed 50 days to one year because of a parts availability problem. The FAA concurs that the compliance time may be extended somewhat. Upon further investigation, the FAA has determined that modification kits for Service Bulletin 120-032-00-55 are available, but there is a 16-week delivery time for the modification kits for Service Bulletin 120-032-0052. In view of the fact that the accidents that led to this action occurred over two years ago and were training flights involving simulation of aircraft emergencies, the FAA has determined that the compliance time may be extended to 180 days without adversely affecting safety. The final rule has been revised accordingly.

One commenter suggested that Service Bulletin 120-032-0052, which would inhibit warning above 1500 feet above ground level (AGL) may degrade the safety level of the current warning system and may not comply with Federal Aviation Regulations (FAR) 25.729(e)(2). The FAA does not concur, since inhibiting warning above 1,500 AGL is intended to remove nuisance warnings above a flight level which would permit ample time to lower the landing gear. This feature is currently approved on most large transport aircraft.

The manufacturer commented that the modification to the landing gear warning system described in EMBRAER Service Bulletin 120-032-0052 is essentially the same modification described in EMBRAER Service Bulletin 120-032-0055, but was offered as a production enhancement to operators who desire a radio altimeter feature capability. The commenter suggested that the rule be revised to require installation of the modification in accordance with Service Bulletin 120-032-0055, and that the modification in accordance with Service Bulletin 120-032-0052 be considered an equivalent means of compliance at the operators' discretion. After further review, the FAA concurs that both modifications are comparable as far as addressing the unsafe condition. Accordingly, paragraph A of the final rule has been revised to permit operators to modify the landing gear warning system in accordance with either service bulletin.

The manufacturer also noted that the cost for the modification specified in Service Bulletin 120-032-0052 is considerably more than the estimated cost stated in the economic analysis. After further review, the FAA concurs that a revision of the economic impact of this rule, as related to parts and labor costs, is warranted. Since the final rule has been revised to provide operators the option of modifying their airplanes in accordance with one of two different service bulletins, the costs related to each modification have been specified in the economic analysis paragraph, below.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes noted above. The FAA has determined that this change will neither increase the scope of the AD nor impose an additional economic burden on any operator.

It is estimated that 60 airplanes of U.S. registry will be affected by this AD. Accomplishing the modification in accordance with EMBRAER Service Bulletin 120-032-0055 will require approximately 24 manhours at an average labor cost of $40 per manhour, and $480 for required parts. Based on these figures, the total cost impact of the

VOL 54 ISS 207 OCT 27 1989 UMI

AD on U.S. operators selecting this modification is estimated to be $1,440 per airplane. Accomplishing the modification in accordance with EMBRAER Service Bulletin 120–032–0052 will require approximately 50 manhours at an average labor cost of $40 per manhour, and $4,200 for required parts. Based on these figures, the total cost impact of the AD on U.S. operators selecting this modification is estimated to be $6,200 per airplane.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Empresa Brasileira de Aeronautica, S.A. (EMBRAER): Applies to Model EMB–120 series airplanes; Serial numbers 120004, 120008 through 120070, 120072 through 120080, and 120082 through 120099; certificated in any category. Compliance is required within 180 days after the effective date of this AD, unless previously accomplished.

To prevent a gear-up landing due to malfunction of the landing gear aural warning system, accomplish the following:

A. Modify the landing gear aural warning system and calibrate new switches, in accordance with either EMBRAER Service Bulletin No. 120–032–0055 dated March 16, 1989, or EMBRAER Service Bulletin No. 120–032–0052, dated March 15, 1989.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Atlanta Aircraft Certification Office, FAA, Central Region.

Note: The request for an alternate means of compliance or an adjustment of compliance time should be forwarded through an FAA Maintenance Inspector, who will either concur or comment and then send it to the Atlanta Aircraft Certification Office.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to EMBRAER, 276 S.W. 34th Street, Fort Lauderdale, Florida 33315. These documents may be examined at the FAA Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the FAA, Central Region, Atlanta Aircraft Certification Office, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia.

This amendment becomes effective December 1, 1989.

Issued in Seattle, Washington, on October 17, 1989.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–M

DEPARTMENT OF COMMERCE

Bureau of Export Administration

15 CFR Part 799

[Docket No. 90803–9203]

Editorial Corrections to the Commodity Control List: GFW Eligibility Paragraphs

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: A number of recent revisions to the Export Administration Regulations amended certain entries in the Commodity Control List (CCL) by revising or eliminating the Advisory Notes for Country Groups QWY (the Soviet Bloc). These Advisory Notes describe items that are more likely to be approved for export to destinations in the Soviet Bloc. This final rule makes conforming changes related to the eligibility of such items for export to certain free world destinations under General License GFW.

Section 771.23 of the Export Administration Regulations permits exports, under General License GFW, of certain low level commodities to destinations listed in supplement Nos. 2 and 3 to part 773, except Ethiopia, Lebanon, and Nicaragua. Items eligible for export under General License GFW are described in certain Advisory Notes for Country Groups QWY. When a CCL entry contains items that are eligible for export under General License GFW, the "Controls for ECCN" section in that entry will include a "GFW Eligibility" paragraph identifying the Advisory Notes that describe the eligible items.

This rule does not amend any of the Advisory Notes that describe items eligible for export under General License GFW—it merely revises or eliminates a number of "GFW Eligibility" paragraphs to conform with recent revisions to the Advisory Notes. Accordingly, the "GFW Eligibility" paragraphs for Export Control Commodity Numbers (ECCNs) 1501A, 1510A, 1531A, 1533A, 1537A, 1555A, 1558A, 1565A, and 1567A are revised and the "GFW Eligibility" paragraphs for ECCNs 1091A, 1519A, 1548A, 1549A, and 1754A are removed.

EFFECTIVE DATE: This rule is effective October 27, 1989.

FOR FURTHER INFORMATION CONTACT: Willard Fisher, Regulations Branch, Bureau of Export Administration, Telephone: (202) 377–3856.

SUPPLEMENTARY INFORMATION:

Rulemaking Requirements

1. This rule complies with Executive Order 12291 and Executive Order 12661.

2. This rule does not involve a collection of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by section 553 of the Administrative Procedure Act (5 U.S.C. 553), or by any other law, under sections 603(a) and 604(a) of the Regulatory Flexibility Act (5 U.S.C. 603(a) and

604(a)) no initial or final Regulatory Flexibility Analysis has to be or will be prepared.

5. Section 13(a) of the Export Administration Act of 1979 (EAA), as amended (50 U.S.C. app. 2412(a)), exempts this rule from all requirements of section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553), including those requiring publication of a notice of proposed rulemaking an opportunity for public comment, and a delay in effective date. This rule is also exempt from these APA requirements because it involves a foreign and military affairs function of the United States. Section 13(b) of the EAA does not require that this rule be published in proposed form because this rule does not impose a new control. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule.

Therefore, this regulation is being issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Willard Fisher, Office of Technology and Policy Analysis, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

List of Subjects in 15 CFR Part 799

Exports, Reporting and recordkeeping requirements.

Accordingly, part 799 of the Export Administration Regulations (15 CFR parts 730 through 799) is amended as follows:

1. The authority citation for 15 CFR part 799 continues to read as follows:

Authority: Pub. L. 96–72, 93 Stat. 503 (50 U.S.C. app. 2401 *et seq.*), as amended by Pub. L. 97–145 of December 29, 1981, by Pub. L. 99–64 of July 12, 1985, and by Pub. L. 100–418 of August 23, 1988; E.O. 12525 of July 12, 1985 (50 FR 28757, July 16, 1985); Pub. L. 95–223 of December 28, 1977 (50 U.S.C. 1701 *et seq.*); E.O. 12532 of September 9, 1985 (50 FR 36861, September 10, 1985) as affected by notice of September 4, 1986 (51 FR 31925, September 8, 1986); Pub. L. 99–440 of October 2, 1986 (22 U.S.C. 5001 *et seq.*); and E.O. 12571 of October 27, 1986 (51 FR 39505, October 29, 1986).

PART 799—[AMENDED]

Supplement No. 1 to § 799.1 [Amended]

2. In supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group O (Metal-Working Machinery), ECCN 1091A is amended by removing the *GFW Eligibility* paragraph.

Supplement No. 1 to § 799.1 [Amended]

3. In supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1501A is amended by revising the *GFW Eligibility* paragraph, as follows:

1501A Navigation, direction finding, radar and airborne communication equipment.

Supplement No. 1 to § 799.1 [Amended]

15. In supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 7 (Chemicals, Metalloids, Petroleum Products and Related Materials), ECCN 1754A is amended by removing the *GFW Eligibility* paragraph.

Dated: October 23, 1989.

James M. LeMunyon,

Deputy Assistant Secretary for Export Administration.

[FR Doc. 89–25314 Filed 10–26–89; 8:45 am]

BILLING CODE 3510-DT-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD7–89–40]

Temporary Drawbridge Operation Regulations; Okeechobee Waterway, FL

AGENCY: Coast Guard, DOT.

ACTION: Temporary rule.

SUMMARY: The Coast Guard is temporarily changing the regulations governing the Sanibel Causeway drawbridge at Punta Rassa, Florida, by changing the hours of the existing regulation to provide draw openings on 15-minute intervals. This temporary change is being made to ease severe traffic congestion caused by back to back openings and to further evaluate proposed permanent regulations.

DATES: These temporary regulations become effective October 14, 1989 and terminate on December 13, 1989. Comments are solicited during this 60-day temporary regulation period.

ADDRESSES: Comments should be mailed to Commander (oan), Seventh Coast Guard District, Brickell Plaza Federal Building, 909 SE. 1st Avenue, Miami, Florida 33131–3050. The comments and other materials referenced in this notice will be available for inspection and copying on the 8th Floor, of the Brickell Plaza Federal Building, 909 SE. 1st Ave, Miami, Florida. Normal office hours are between 7:30 a.m. and 4 p.m., Monday through Friday, except holidays. Comments also may be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Mr. Ian Mac Cartney (305) 536–4103.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this evaluation by submitting written views, comments, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgement that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

Prompt implementation is necessary to alleviate a severe vehicular traffic problem and to evaluate a proposed permanent rule. The Commander, Seventh Coast Guard District, will evaluate all communications received, the overall effect of this temporary regulation change, and determine if a permanent regulation change is necessary. Because this is a temporary change to normal operations, this amendment will not appear in the Code of Federal Regulations.

Drafting Information

The drafters of this notice are Mr. Ian Mac Cartney, Bridge Administration Specialist, project officer, and Lieutenant Commander D.G. Dickman, project attorney.

Discussion of Temporary Regulations

The Sanibel Causeway drawbridge presently opens on signal, except that, from 3:45 p.m. to 5:15 p.m., Monday through Friday, except Federal holidays, the draw need open only at 4:15 p.m. and 4:45 p.m. On Saturdays, Sundays and federal holidays from 3:45 p.m. to 5:15 p.m., the draw need open only at 4 p.m., 4:30 p.m., 4:45 p.m. and 5 p.m. Exempt vessels shall be passed at any time.

This change to 15 minute scheduled openings from 11 a.m. to 6 p.m., daily, is intended to space draw openings and virtually eliminate "back to back" openings which can contribute significantly to vehicular traffic delays during these periods.

List of Subjects in 33 CFR Part 117

Bridges.

Temporary Regulations

In consideration of the foregoing, part 117 of title 33, Code of Federal Regulations, is temporarily amended as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g); 33 CFR 117.43.

2. For the period October 14, 1989 through December 13, 1989, § 117.317 is amended by revising paragraph (k) to read as follows:

§ 117.317 Okeechobee Waterway.

* * * * *

(k) *Sanibel Causeway bridge, mile 151 at Punta Rassa.* The draw shall open on signal; except that, from 11 a.m. to 6 p.m., daily, the draw need open only on the hour, quarter-hour, half-hour, and three-quarter hour. Exempt vessels shall be passed at any time.

Dated: October 17, 1989.

Martin H. Daniell,

Rear Admiral, U.S. Coast Guard, Commander, Seventh Coast Guard District.

[FR Doc. 89–25301 Filed 10–26–89; 8:45 am]

BILLING CODE 4910-14-M

33 CFR Part 165

[COTP Southeast Alaska Reg. 89–05]

Safety Zone Regulation; Cape Decision Light, Sumner Straits, Alaska

AGENCY: U.S. Coast Guard, Department of Transportation.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone 500 yards in radius centered on Cape Decision Light, Kuiu Island, Alaska. The safety zone is required to protect the public from a safety hazard posed by possible hazardous chemical contamination (polychorinated biphenyl(PCB)/dioxin) in the immediate area of Cape Decision light. Entry into this zone is prohibited unless authorized by the Captain of the Port, Southeast Alaska.

EFFECTIVE DATE: This regulation becomes effective on October 15, 1989. It terminates on November 30, 1989, unless sooner terminated by the Captain of the Port, Southeast Alaska.

FOR FURTHER INFORMATION CONTACT: Lt. Rick Janelle at (907)586–7288, 7:30 a.m. to 4:00 p.m., Monday through Friday.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest due to the limited duration of this safety zone, the limited effect on commerce, and the need to take immediate action to prevent injury to personnel transiting the area.

Drafting Information

The drafters of this regulation are ENS Joan McQueeney, project officer for the Captain of the Port, and Lt. Hollis, project attorney for the Seventeenth Coast Guard District Legal Office.

Discussion of Regulation

The circumstances requiring this regulation resulted from a fire which destroyed the boathouse at Cape Decision Light. Stored inside the boathouse were a number of capacitors possibly containing PCB contaminated oil. Some of this oil may have burned in the fire, possible releasing dioxin, a carcinogenic by-product from the burning of PCB. If PCB/dioxin was released, the surrounding area may be contaminated, posing a substantial health hazard. A safety zone around the area is, therefore, necessary pending assessment and removal of any contamination.

This regulation is issued pursuant to 33 U.S.C. 1225 and 1231 as set out in the authority citation for all of part 165.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Vessels, and Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5, 49 CFR 1.46.

2. A new section is added to read as follows:

§ 165. T 1705 Safety Zone: Cape Decision Light, Sumner Straits, Alaska.

(a) *Location.* The safety zone is an area 500 yards in radius centered on the Cape Decision Light, located at Cape Decision, Kuiu Island in Sumner Straits, Alaska.

(b) *Effective Date.* This regulation became effective on October 15, 1989. It terminates on November 30, 1989, unless sooner terminated by the Captain of the Port, Southeast Alaska.

(c) *Regulations.* In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited unless authorized by the Captain of the Port, Southeast Alaska.

Dated: October 15, 1989.

R.J. Morris,

Lieutenant Commander, U. S. Coast Guard, Captain of the Port, Southeast Alaska.

[FR Doc. 89–25302 Filed 10–26–89; 8:45 am]

BILLING CODE 4910-14-M

VOL 54 ISS 207 OC 27 1989 UMI

33 CFR Part 165

[COTP Phila., Pa Reg. 89-08]

Safety Zone Regulations: Marcus Hook Anchorage, Mantua Creek Anchorage, and Deepwater Point Anchorage

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone on the Delaware River to include the Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), and Deepwater Point Anchorage (Anchorage 6). The safety zone is needed to protect vessels from safety hazards associated with the laying of dredge pipeline in Marcus Hook Anchorage and to minimize temporary port congestion.

The Marcus Hook Anchorage north of Buoy "C" is closed from 8:00 a.m., October 21, 1989 to 8:00 a.m., October 28, 1989, or until completion of the pipelaying. Anchorage restrictions will apply to the Marcus Hook Anchorage south of Buoy "C", Mantua Creek Anchorage, and Deepwater Point Anchorage.

EFFECTIVE DATES: This regulation is effective from 8:00 a.m., October 21, 1989 to 8:00 a.m., October 28, 1989, unless sooner terminated by the Captain of the Port, Philadelphia, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Lt. P. A. Jensen, at the Captain of the Port, Philadelphia, (215) 271-4892.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking (NPRM) was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication.

Publishing an NPRM and delaying its effective date would be contrary to the public interest, since immediate action is needed to respond to potential hazards to vessel traffic.

Drafting Information

The drafters of this regulation are Lt. P. A. Jensen, project officer for the Captain of the Port, Philadelphia, and Capt. M. K. Cain, project attorney, Fifth Coast Guard District Legal Staff.

Discussion of the Regulation

The hazards requiring this regulation result from preparations for maintenance dredging of the Marcus Hook Range ship channel. The Marcus Hook Anchorage must be closed north of Buoy "C" to facilitate the laying of dredge pipeline. The pipeline will be used in dredging operations in Marcus Hook Range ship channel, which is scheduled to commence on or about October 21, 1989. Anchorage restrictions in Mantua Creek Anchorage and Deepwater Point Anchorage are being imposed to accommodate those vessels that may be prevented from anchoring in Marcus Hook Anchorage due to the partial closure.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

1. The authority citation for part 165 continues to read as follows:

PART 165—[AMENDED]

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5, 49 CFR 1.46.

2. A new § 165.T5100 is added to read as follows:

§ 165.T5100 Safety Zone: Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), Deepwater Point Anchorage (Anchorage 6), Delaware River.

(a) *Location.* The following areas are a safety zone: The Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), and Deepwater Point Anchorage (Anchorage 6), located in the Delaware River, as described in § 110.157 of this title.

(b) *Regulations:* (1) With the exception of vessels operated by Norfolk Dredging Company, no person may enter, remain in, or anchor in the Marcus Hook Anchorage north of Anchorage Buoy "C" unless authorized by the Captain of the Port, Philadelphia, or his designated representative.

(2) Before anchoring in the Marcus Hook Anchorage south of Anchorage Buoy "C" a vessel shall obtain permission to anchor from the Captain of the Port, Philadelphia at least 24 hours in advance.

(3) The Captain of the Port will permit only one vessel to anchor at a time. Permission to anchor will be given on a "first come-first served" basis. Permission to anchor will be for a 12 hour period, with consideration given for six hour extensions, depending on the number of vessels waiting to anchor.

(4) In addition to the general regulations contained in § 110.157(b) of this title, before anchoring in the Mantua Creek and Deepwater Point Anchorages (Anchorages 9 and 6) a vessel shall:

(i) If over 700 feet in length, obtain permission to anchor from the Captain of the Port, Philadelphia.

(ii) If 700-750 feet in length, have one tug alongside at all times while in the anchorage.

(iii) If greater than 750 feet in length, have two tugs alongside at all times while in the anchorage.

(5) Each tug required by paragraph (b)(4) of this section shall have a minimum rating of 1000 shaft horsepower.

(6) Any vessel operating within this zone shall comply with the directions of the Captain of the Port, Philadelphia, or his designated representative.

(c) *Effective date.* This regulation is effective from 8:00 a.m., October 21, 1989 to 8:00 a.m., October 28, 1989, unless sooner terminated by the Captain of the Port, Philadelphia.

Dated: October 16, 1989.

L. A. Murdock,

Captain, U.S. Coast Guard, Captain of the Port, Philadelphia.

[FR Doc. 89-25803 Filed 10-26-89; 8:45 am]

BILLING CODE 4910-14-M

33 CFR Part 165

[COTP Phila., PA Reg. 89-09]

Safety Zone Regulations: Marcus Hook Range Ship Channel, Marcus Hook Anchorage Mantua Creek Anchorage and Deepwater Point Anchorage

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone on the Delaware River that includes the Marcus Hook Range ship channel, Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), and Deepwater Point Anchorage (Anchorage 6). The safety zone is needed to protect vessels from safety hazards associated with dredging operations in Marcus Hook Range ship channel and to minimize temporary port congestion while the dredging operations are ongoing.

The Marcus Hook Range ship channel in the vicinity of the dredging operation is closed to vessel traffic. Marcus Hook Anchorage (Anchorage 7) is closed to anchoring to permit vessel traffic to transit the anchorage in lieu of using the Marcus Hook Range ship channel. Vessels over 700 feet in length are subject to anchorage restrictions in Deepwater Point and Mantua Creek Anchorages (Anchorages 6 and 9).

EFFECTIVE DATES: This regulation is effective from 8:00 a.m., October 23, 1989 or upon termination of the safety zone described in the § 165.T5100 of this part, whichever occurs later. This regulation terminates at 8:00 a.m., January 31, 1990, unless sooner terminated by the Captain of the Port, Philadelphia.

FOR FURTHER INFORMATION CONTACT: Lt. P. A. Jensen, at the Captain of the Port, Philadelphia, (215) 271-4892.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking (NPRM) was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. The Coast Guard was not officially informed of the date dredging operations would commence until early October, 1989. Publishing an NPRM and delaying its effective date would be contrary to the public interest, since immediate action is needed to respond to potential hazards to vessel traffic caused by the presence of the dredge in the ship channel.

Drafting Information

The drafters of this regulation are Lt. P.A. Jensen, project officer for the Captain of the Port, Philadelphia, and Capt. M.K. Cain, project attorney, Fifth Coast Guard District Legal Staff.

Discussion of the Regulation

The hazards requiring this regulation result from maintenance dredging of the Marcus Hook Range ship channel. The Marcus Hook Range ship channel must be closed and traffic diverted through Marcus Hook Anchorage (Anchorage 7) to reduce the hazards associated with dredging of the channel. Anchorage restrictions in Mantua Creek Anchorage and Deepwater Point Anchorage are being imposed to accommodate those vessels that will be prevented from anchoring in Marcus Hook Anchorage. This regulation takes effect at 8:00 a.m., October 23, 1989 or upon completion of the preliminary pipelaying operation, whichever occurs later.

List of Subjects in 33 CFR Part 165

Harbors, Marine Safety, Navigation (water), Security Measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5, 49 CFR 1.46.

2. A new § 165.T5101 is added to read as follows:

§ 165.T5101 Safety Zone: Marcus Hook Range ship channel, Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), Deepwater Point Anchorage (Anchorage 6), Delaware River.

(a) *Location.* The following areas are a safety zone: The Marcus Hook Range ship channel, as delineated on National Ocean Survey Chart 12312, within 150 yards of dredging operations, Marcus Hook Anchorage (Anchorage 7), Mantua Creek Anchorage (Anchorage 9), and Deepwater Point Anchorage (Anchorage 6), located in the Delaware River, as described in § 110.157 of this title.

(b) *Regulations.* (1) No vessel may enter or remain in the Marcus Hook Range ship channel within 150 yards of dredging operations. Vessels transiting the area shall pass through the Marcus Hook Anchorage (Anchorage 7).

(2) No vessel may anchor in Marcus Hook Anchorage (Anchorage 7).

(3) In addition to the general regulations contained in § 110.157(b) of this title, before anchoring in the Mantua Creek or Deepwater Point Anchorage (Anchorage 9 and 6):

(i) Vessels over 700 feet in length shall obtain permission from the Captain of the Port to anchor in Deepwater Point or Mantua Creek Anchorage (Anchorage 6 or 9).

(ii) Vessels between 700 and 750 feet long shall have one tug alongside while anchored in either Deepwater Point or Mantua Creek Anchorage (Anchorage 6 or 9).

(iii) Vessels greater than 750 feet long shall have two tugs alongside while anchored in either Deepwater Point Mantua Creek Anchorage (Anchorage 6 or 9).

(4) Each tug alongside a vessel meeting the restrictions in either paragraph (b)(3) (ii) or (iii) of this section must have a minimum rating of 1000 shaft horsepower.

(5) Any vessel operating within this zone shall comply with the directions of the Captain of the Port, Philadelphia, or his designated representative.

(c) *Effective Date.* This regulation is effective from 8:00 a.m., October 23, 1989 or upon termination of the safety zone described in § 165.T5100 of this part, whichever occurs later. This regulation terminates on 8:00 a.m., January 31, 1990, unless sooner terminated by the Captain of the Port, Philadelphia.

Dated: October 16, 1989.

L.A. Murdock,

Captain, U.S. Coast Guard, Captain of the Port, Philadelphia.

BILLING CODE 4910-14-M

DEPARTMENT OF EDUCATION

34 CFR Parts 668 and 682

Student Assistant General Provisions and Guaranteed Student Loan and PLUS Programs; Correction

AGENCY: Department of Education.

ACTION: Final regulation; correction.

SUMMARY: This document corrects final regulations for the Student Assistance General Provisions and Guaranteed Student Loan and PLUS Programs, published in the **Federal Register** on June 5, 1989 (54 FR 24114).

FOR FURTHER INFORMATION CONTACT: Patricia Newcombe or Pamela A. Moran, Policy Section, Guaranteed Student Loan Branch, Division of Policy and Program Development, Department of Education (room 4310, ROB-3), 400 Maryland Avenue, SW., Washington, DC 20202, telephone 202-732-4242.

SUPPLEMENTARY INFORMATION: The following corrections are made in the final regulations published in the June 5, 1989 issue of the **Federal Register:**

§ 682.606 [Corrected]

1. On page 24121, in the third column, in the last line under § 682.606(b)(2), the phrase "withdrawal date" is corrected to read "last recorded day of attendance".

§ 682.607 [Corrected]

2. On page 24122, in the first column, under § 682.607(c)(1)(i), "detreminded" is corrected to read "determined".

Authority: 20 U.S.C. 1071 to 1087-2, unless otherwise noted.

Dated: October 16, 1989.

James B. Williams,

Acting Assistant Secretary for Postsecondary Education.

BILLING CODE 6560-50-M

40 CFR Part 52

[FRL-3675-5]

Approval and Promulgation of Air Quality Implementation Plans, Louisiana; Disapproval of Exemption to Louisiana Air Quality Regulation 22.8 for Sid Richardson & Carbon Gasoline Co., Carbon Black Plant in Addis, LA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This notice disapproves a request to revise the Louisiana State Implementation Plan (SIP) that would exempt the Sid Richardson Carbon and Gasoline Company (Sid Richardson), Addis, West Baton Rouge Parish, Louisiana, carbon black plant from further control of its acetylene emissions as is now required by Louisiana Air Quality Regulation (LAQR) 22.8.[1] EPA disapproves this request for the following reasons:

1. The revision involves a major source of volatile organic compounds (VOC) that must be controlled to meet the standard of reasonably available control technology (RACT), because the source is located in an urban ozone nonattainment area;

2. The request did not adequately support the contention that the emission limitation now in the Louisiana SIP for this source are *not* RACT;

3. The Agency's review of Sid Richardson's RACT analysis report showed that alternative controls are economically and technically feasible; and,

4. EPA considers acetylene to be a reactive compound that has not been excluded from SIP demonstrations and thus, must be controlled.

EFFECTIVE DATE: This final rule becomes effective November 27, 1989.

ADDRESSES: Copies of documents related to today's notice are available for public inspection during normal business hours at the following locations:

Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733;

Louisiana Department of Environmental Quality, 625 N. 4th Street, 8th Floor, Baton Rouge, Louisiana 70804–4096; and,

Please contact the person named below to arrange a time to inspect the documents.

FOR FURTHER INFORMATION CONTACT: Barbara Durso, (214) 655–7214 or FTS 255–7214.

SUPPLEMENTARY INFORMATION: On December 5, 1988, at 53 FR 48939, EPA proposed to disapprove a revision to the Louisiana SIP that would exempt the Sid Richardson carbon black plant at Addis, West Baton Rouge Parish, Louisiana, from further control of its acetylene emissions as is now required under LAQR 22.8. That notice discusses at length the background for today's rule.

To briefly recount the history of this notice, one must note that EPA requires Reasonably Available Control Technology (RACT) for all major sources of VOCs [2] in urban ozone nonattainment areas as part of its policy to reduce ground level ozone formation. The State of Louisiana adopted LAQR 22.8 as RACT for major VOC sources, such as Sid Richardson's carbon black facility in West Baton Rouge Parish, that were not covered by other control methods. In 1986, Sid Richardson requested that the State exempt its West Baton Rouge facility from the requirements of LAQR 22.8 based on its claim that compliance was economically and technically infeasible. The State granted Sid Richardson's request and then in May 1987, the State requested that EPA approve a revision to the Louisiana SIP to exempt Sid Richardson from the requirements of LAQR 22.8.

A. Response to Public Comment

Since the publication of that notice, EPA has received one letter commenting on the issue. This letter, from Sid Richardson, criticized EPA's proposed disapproval on a number of points, and the Agency will respond to those remarks today. The letter also incorporated comments made in regard to the effect on Sid Richardson of another proposed rulemaking, published on September 2, 1987, at 52 FR 33250.

Comment: In both letters, Sid Richardson objects to EPA's not combining the State of Louisiana's request to exempt four other carbon black plants from further control of acetylene emissions with its request to exempt Sid Richardson. Furthermore, Sid Richardson contends that separating the action on its facility from that on the other plant gives the impression that the actions are unrelated.

[1] The State of Louisiana recodified its air quality regulations and 22.8 is now found at LAC:33:III:2115; however, this new codification is not yet approved as part of the SIP. Therefore, this notice will reference LAQR 22.8 rather than LAC:33:III:2115.

[2] Sources that emit 100 tons or more of VOCs per year.

Response: In EPA's opinion, the dissimilarity between Sid Richardson and the other four Louisiana carbon black plants is of greater consequence than the similarities. Although both actions concern carbon black plants seeking exemptions from further control of acetylene emissions under LAQR 22.8, EPA stands by its decision to address Sid Richardson separately because Sid Richardson is in an *urban* ozone nonattainment area and the other four plants are in either a *rural* ozone nonattainment area or a *rural* ozone attainment/unclassified area. As explained in the proposed notice of disapproval, EPA policy [3] requires that a major source of VOCs (i.e., one that has the potential to emit at least 100 tons of VOCs per year) for which the Agency has not issued a Control Techniques Guideline (CTG) document implement Reasonably Available Control Technology (RACT), if that source is located in an *urban* ozone nonattainment area. If the same source were located in a rural area, whether nonattainment or attainment/unclassified, it would not have to implement RACT under EPA policy, since it is not covered by a CTG document. Thus, the Sid Richardson facility in West Baton Rouge Parish, an urban ozone nonattainment area, is required to implement RACT, while the other four plants, located in rural St. Mary and Evangeline parishes, are not required to implement RACT. Given the two sets of requirements, EPA believes it justifiably considered Sid Richardson apart from the other four carbon black plants seeking the same type of exemption.

Comment: Sid Richardson asserts that by not ruling on all five carbon black plants in one notice, EPA fails to provide the public with a critical comparison of Sid Richardson's acetylene emissions to the other four plants' acetylene emissions. Sid Richardson made a similar comment in its other letter that EPA did not give enough consideration to the difference in the volume of emissions among the five carbon black plants and that EPA did not give consideration to the impact of the emissions on air quality in St. Mary.

Response: Below is a table listing all five Louisiana carbon black plants' acetylene emissions:

Facility	Parish	Total acetylene emissions (tons/year)
Cabot	Evangeline	2,151
Cabot	St. Mary	5,481
Columbian	St. Mary	9,139
Ashland	St. Mary	3,900
Sid Richardson	W. Baton Rouge	1,514

This table, based on information provided by the State of Louisiana in its May 1987 amended request to exempt Sid Richardson shows that the acetylene emissions from the four rural plants total 20,070 tons per year (tpy), while the acetylene emissions from Sid Richardson total 1,514 tpy.

What such a simple comparison fails to show is that the air quality in West Baton Rouge Parish does not attain the national ambient air quality standard (NAAQS) for ozone, while the air quality in Evangeline Parish attains that standard and the most recent monitoring data seem to indicate that air quality in St. Mary has improved since it was designated nonattainment in 1978. At the time EPA approved the exemption of the rural carbon black plants, the Agency recognized that the status of attainment was unclear in St. Mary Parish, because the last time the State monitored there was in the summer of 1984. At that time, the State found no violations of the ozone NAAQS. In response to Sid Richardson's earlier comment the Agency decided that it needed to better evaluate the impact of an exemption on the three carbon black plants in St. Mary. At EPA's request, the State of Louisiana resumed monitoring ozone levels there in October 1988. At this time there is not enough data to indicate a trend.

Comment: Sid Richardson complains that the public was further prohibited from comparing the emissions from the four rural plants with the emissions from its Addis facility, because EPA published the two proposed rulemakings "months apart."

Response: The Agency and Congress recognize that there have been unacceptable delays in processing SIP actions in the past, and EPA has initiated reforms to aid the timely processing of such actions.[4] EPA did not deliberately publish the two rulemaking notices months apart; regrettably, personnel turnover caused delays in processing this particular action.

Comment: In both its letters, Sid Richardson implies that EPA improperly applied its rural ozone policy in regard to the carbon black plants. Sid Richardson asserts that the rural ozone policy does not apply to Evangeline and St. Mary parishes, because these parishes do not, in Sid Richardson's opinion, have "negligible hydrocarbon emissions." Furthermore, Sid Richardson hypothesizes that the emissions from these two parishes "probably [contribute] to the ozone nonattainment of the *Baton Rouge area*" (emphasis Sid Richardson's).

Response: EPA counters Sid Richardson's allegation that the Agency is improperly applying the rural ozone policy to the four rural carbon black plants by noting that, although each of these four plants individually emits more acetylene than Sid Richardson, the total amount of VOC emissions in the two affected rural parishes is a fraction of the total amount of VOC emissions in the Baton Rouge area. Again, a simple comparison of the emissions from each of the four plants fails to show the complete picture. According to the inventory conducted in 1985 for the National Acid Precipitation Assessment Program, an extensive and intensive survey of emission sources in the U.S., the total amount of VOC emissions in Evangeline Parish at that time was about one-tenth (11%) of the total amount of VOC emissions in the Baton Rouge Metropolitan Statistical Area (MSA). The total amount of VOC emissions in St. Mary was less than half (45.8%) of the total amount of VOC emissions in the Baton Rouge MSA.

As for Sid Richardson's conjecture that the emissions from St. Mary and Evangeline parishes are responsible for the ozone violations in the Baton Rouge area through the phenomenon of ozone transport, EPA notes that the company offers no evidence or research to support its hypothesis. Furthermore, EPA notes that the State of Louisiana has never offered this hypothesis as a reason for the continuing ozone violations in the Baton Rouge area. This is not to say that EPA does not believe that emissions points from outside the Baton Rouge MSA may affect air quality in the MSA. In fact, in an effort to deal with the problem of ozone transport, EPA's most recently proposed policy [5] for nonattainment areas requires the State to inventory major sources of VOCs, carbon monoxide and nitrogen oxides up to 25 miles from the MSA and to control major sources in nonattainment parishes adjacent to the

VOL 54 ISS 207 OCT 27 1989 UMI

MSA. Neither the carbon black plant in Evangeline Parish nor the three plants in St. Mary Parish are within 25 miles of the Baton Rouge MSA nor are these parishes adjacent to the MSA.

Comment: In its earlier letter, Sid Richardson restated its belief that the State's air quality modeling demonstrated that its emissions "have no adverse impact on reasonable further progress toward attainment of the ozone standard in the Baton Rouge urban area by December 31, 1987."

Response: As stated in the December 5, 1988, proposed rulemaking, EPA was not surprised by the results of the State's efforts, because the State used an EKMA model that is not sufficiently sensitive to small changes in emissions and will not produce significant changes in ambient ozone levels for the resulting control target (i.e., Sid Richardson). EPA notes that Sid Richardson did not reassert its confidence in the modeling results in its second letter, which was written after the December 5, 1988, notice. It is also worthwhile to note that the State never submitted the modeling to support its action; thus it is not part of the official record before EPA.

B. Bases for Action

Neither Sid Richardson nor the State of Louisiana commented on EPA's analysis of the EKMA model used by the State as being insufficiently sensitive to small changes in emissions and thus, not able to produce significant changes in ambient ozone levels for the resulting control target. It is EPA's determination that even if the modeling were before EPA as part of the record, the modeling could not be used to support a position that acetylene emissions from Sid Richardson would have no adverse effect upon attainment of the ozone standard in the Baton Rouge area.

The proposal notice discusses in depth Sid Richardson's RACT analysis and EPA's evaluation of it. The RACT analysis addresses three methods for controlling the waste gases. While Sid Richardson rejected all three methods on economic, social, safety, and environmental grounds, EPA finds no support for technical infeasibility or adverse economic impact. In fact, the cost of control is reasonable and is lower than for many other regulated sources. Furthermore, each of the options for control of acetylene is economically viable and one control option, cogeneration, would result in a net savings. Sid Richardson did not contest EPA's review nor did it submit any new information during the comment period.

EPA finds that the installation of flares will burn more waste gas than what is being combusted now and that flares can be designed and located in such a way as to prevent a safety hazard to plant personnel and process equipment. EPA also finds that the installation of a thermal combustor is technically feasible with proper engineering safeguards and that cogeneration is economically and technically feasible. Cogeneration does not consume as much energey as a combustor and can produce electricity useful to the local power company (given a rate increase) or for the plant itself. There are no potential hazards to plant personnel or process equipment from cogeneration.

Finally, neither Sid Richardson nor the State protested EPA's finding in the proposed notice that acetylene is not an agent exempt from VOC control under current EPA policy. Acetylene is a VOC subject to regulation, and EPA has never exempted it nor proposed to exempt it. Recent studies show acetylene to be more photochemically reactive than originally thought. Neither the company nor the State presented any new or contradictory studies.

Final Action

EPA disapproves the request from the State of Louisiana to revise the Louisiana SIP to exempt Sid Richardson Carbon and Gasoline Company, Addis, West Baton Rouge Parish, Louisiana, from further control of its acetylene emissions as required under LAQR 22.8. The request is denied because major sources in urban ozone nonattainment areas must meet RACT for nonexempt VOC emissions; Sid Richardson is a major source in an urban ozone nonattainment area; the existing SIP requirement for Sid Richardson was determined to be RACT upon approval of the 1979 part D SIP; EPA does not find RACT to be 41% combustion in pellet dryers for the carbon black industry; acetylene is a nonexempt VOC that must be controlled pursuant to the 1979 SIP; and there are economically and technically feasible alternative RACT controls available to Sid Richardson.

Under Executive Order 12291, this action is not "Major." This rule was submitted to the Office of Management and Budget for review pursuant to the requirements of Section 3 of Executive Order 12291.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from date of publication). This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Approval and Promulgation of Air Quality Implementation Plans; Arizona Public Service Variance From New Mexico Regulation 603 for Nitrogen Dioxide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today approves a revision to the New Mexico State Implementation Plan (SIP). The revision grants Arizona Public Service (APS) a variance from Regulation 603 (*Coal Burning Equipment—Nitrogen Dioxide*) for three electric generating units. A variance is granted through September 30, 1989 for Unit 4, September 30, 1990 for Unit 3, and September 30, 1991 for Unit 5. This revision is approved on the basis that it will not interfere with attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) in New Mexico.

DATES: This action will be effective on December 26, 1989, unless notice is received on or before November 27, 1989 that someone wishes to submit adverse or critical comments. If the effective date is delayed, timely notice will be published in the **Federal Register**.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the following locations. Those interested persons wanting to examine these documents should make an appointment with the appropriate office at least twenty-four hours before visiting day.

New Mexico Environmental Improvement Division, Air Quality Bureau, 1190 St. Francis Drive, Harold Runnels Building, Sante Fe, New Mexico 87504–0968.

Comments: Submit comments to Mr. Thomas Diggs, Chief (6T–AN), SIP/NSR Section, Air Programs Branch, U.S. Environmental Protection Agency, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202–2733, on or before November 27, 1989.

FOR FURTHER INFORMATION CONTACT: Mr. Joe Winkler, SIP/NSR Section, Air Programs Branch, U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202–2733, Telephone: (214) 655–7214 or (FTS) 255–7214, Reference Docket File Number NM–88.

SUPPLEMENTARY INFORMATION:

Background

On November 16, 1988, the U.S. EPA received documentation from the Governor of New Mexico which completed a SIP revision submittal that would grant APS a variance from New Mexico Air Quality Control Regulation (NMAQCR) 603.B, *Coal Burning Equipment—Nitrogen Dioxide*, for Units 3, 4 and 5 of the Four Corners Power Plant. NMAQCR 603 is currently an approved regulation of the New Mexico SIP. The variance would expire on September 30, 1989 for Unit 4, September 30, 1990 for Unit 3, and September 30, 1991 for Unit 5. NMAQCR 603.B deals with coal burning equipment which was fully constructed and operational or under construction before September 1, 1971. The emission limitation in NMAQCR 603.B of 0.7 pounds of NO_x per million BTU of heat input is required for coal burning equipment having the power generating capacity/heat input in the size range of the APS units. APS's Four Corners Power Plant is located in an area where air quality is classified as better than the NAAQS for nitrogen dioxide under Section 107 of the Clean Air Act (CAA).

On February 18, 1988, APS filed a petition with the New Mexico Environmental Improvement Division (NMEID) requesting a variance through May 31, 1987, to allow operation of Units 3, 4 and 5 at NO_x emission rates above the level required at NMAQCR 603.B. At the conclusion of a public hearing held before the New Mexico Environmental Improvement Board (NMEIB) on August 7, 1986, the NMEIB granted APS the variance through May 31, 1987 based on its findings which called into question the technical feasibility of controlling these pre-1971 units within the AQCR 603.B limit. The variance was based on an air quality impact analysis submitted by the NMEID which assessed NO_x emissions from the Four Corners Power Plant. As a condition of the variance, APS was required to evaluate technical feasibility by conducting a burner test program.

The Governor of New Mexico formally submitted the NMEIB's variance order to EPA as a revision to New Mexico's SIP on February 4, 1987. Due to delays which were incidental to the burner test program, on March 31, 1987, APS requested an extension to the variance term through October 15, 1987. The extension was granted by the NMEIB at its public meeting on April 10, 1987. The Governor of New Mexico formally submitted the extension to EPA as an amended SIP revision on October 26, 1987.

On October 15, 1987, APS informed the NMEID that burner test program had been completed. Based on the results of the program, APS concluded that a retrofit of Units 3, 4 and 5 with low NO_x burners would achieve compliance with NMAQCR 603.B. On December 18, 1987, the NMEIB approved a variance term for completion of installation of the low NO_x burners extending to September 30, 1991. Specifically, a variance was granted by the NMEIB through September 30, 1989 for Unit 4, September 30, 1990 for Unit 3 and September 30, 1991 for Unit 5. The Governor of New Mexico formally submitted the variance order to EPA as a revision to New Mexico's SIP on February 16, 1988. A retrofit schedule over this variance term was found to be acceptable to the NMEIB because (1) the extent of the modifications required for the retrofit is substantial (2) moving from pilot-scale to full-scale is most effectively accomplished by building on the experience gained in a phased approach, and (3) air quality analysis results showed that neither the NAAQS nor the State ambient air quality standards for NO_x would be threatened in the Four Corners area.

The air quality impact analysis originally submitted to EPA in support of the NMEIB's variance order received by EPA on February 4, 1987, did not satisfy the requirements in EPA's Guideline on Air Quality Models (EPA–450/2–78–027R). Because alternative modeling approaches were applied without the level of evaluation required by EPA's modeling guideline, the air quality impact analysis of February 4, 1987, was considered inadequate. On November 16, 1988, the Governor of New Mexico submitted an air quality impact analysis consisting of an initial screen assuming total conversion of NO_x to NO_2. The modeling demonstrated that the variance would not interfere with attainment or maintenance of the NO_2 NAAQS.

The State also submitted an air quality impact analysis using the ozone limiting method which demonstrated compliance with New Mexico's 24-hour NO_2 ambient air quality standard. There is no 24-hour NO_2 NAAQS.

Final Action

EPA has reviewed this SIP revision and supporting documentation and has determined that no violations of the National Ambient Air Quality Standard for NO_2 will result from this revision. Based on this finding, EPA is today approving the revision to Regulation 603 of the New Mexico SIP.

EPA's review of the materials submitted has shown that they are noncontroversial, nonmajor SIP revisions. Because EPA does not anticipate that this rulemaking will generate adverse public comments, the revisions are being approved today without a prior proposed rulemaking. The public should be advised that these actions will be effective December 26, 1989. However, if notice is received on or before November 27, 1989 that someone wishes to submit adverse or critical comments on this action, it will be withdrawn before the effective date and a new notice of rulemaking announcing a proposal of the action and establishing a comment period will be published in the **Federal Register**.

Pursuant to the provisions of 5 U.S.C. 605(b), I certify that this SIP revisions will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709).

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of Section 3 of Executive Order 12291 for a period of two years.

Under section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of October 27, 1989. Under section 307(b)(2) of the Clean Air Act the requirements which are the subject of today's action may not be

Air pollution control, Nitrogen dioxide, Incorporation by reference.

Note: Incorporation by reference of the State Implementation Plan for the State of New Mexico was approved by the Director of the Federal Register on July 1, 1982.

Dated: September 29, 1989.

Robert E. Layton Jr.,
Regional Administrator.

PART 52—[AMENDED]

40 CFR part 52, subpart GG, is amended as follows:

Subpart GG—New Mexico

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.1620 is amended by adding new paragraph (c)(38) to read as follows:

§ 52.1620 Identification of plan.

* * * * *

(c) * * *

(38) Revisions to the New Mexico SIP for the Arizona Public Service Units 3, 4 and 5 at the Four Corners Generating Station were submitted by the Governor on February 4, 1987, October 28, 1987, and February 16, 1988.

(i) Incorporation by Reference.

(A) An Order dated and effective August 7, 1986, issued by the Chairman of the New Mexico Environmental Improvement Board in the matter of Arizona Public Service Company, Fruitland, New Mexico for Units 3, 4 and 5 of the Four Corners Power Plant granting a variance through May 31, 1987, from Air Quality Control Regulation 603.B.

(B) A Memorandum and Order dated and effective April 10, 1987, issued by the Chairman of the New Mexico Environmental Improvement Board in the matter of Arizona Public Service Company, Fruitland, New Mexico for Units 3, 4 and 5 of the Four Corners Power Plant extending the term of the variance from May 31, 1987 through October 15, 1987.

(C) An Order dated and effective December 16, 1987, issued by the Chairman of the New Mexico Environmental Improvement board in the matter of Arizona Public Service Company, Fruitland, New Mexico for Units 3, 4 and 5 of the Four Corners Power Plant extending the term of the variance through September 30, 1989 for Unit 4, September 30, 1990 for Unit 3, and September 30, 1991 for Unit 5.

(ii) *Additional material.* (A) Modeling Protocol, The Four Corners Power Plant, prepared by Bruce Nicholson of the New Mexico Environmental Improvement Division, November 6, 1987.

(B) Amendment to Modeling Protocol, letter of August 17, 1988, from Bruce Nicholson of the New Mexico Environmental Improvement Division to Gerald Fontenot of EPA Region 6.

(C) Modeling Report, letter of October 27, 1988 to C. V. Mathai (Arizona Public Service Company) and Bruce Nicholson (New Mexico Environmental Improvement Division) from Mark Yocke of Systems Applications Inc.

(D) An air quality impact analysis dated November 16, 1988, submitted by the Governor of New Mexico which demonstrated that the variance would not interfere with attainment or maintenance of the NO_2 NAAQS.

BILLING CODE 6560-50-M

40 CFR Part 52

[SC-0126; FRL-3652-7]

Approval and Promulgation of Implementation Plans for South Carolina; Volatile Organic Compound Emissions

AGENCY: Environmental Protection Agency.

ACTION: Disapproval of State plans.

SUMMARY: EPA is disapproving the May 24, 1985, submittal of revisions made by South Carolina in its Air Pollution Control Regulations and Standards and submitted to EPA on June 5, 1985. These revisions contained deficiencies within the State's Volatile Organic Compound (VOC) regulations. EPA is disapproving the following regulations that have been identified as being deficient: regulation 62.1, section I, 39., regulation 62.5, standard No. 5, section I, parts A.9., A.22., A.39., A.51. and A.75., section II, parts A. through H. and parts N. through T. and section I, parts F. and E. The deficiencies identified within each regulation are discussed in detail in the proposed disapproval notice (54 FR 25592, June 16, 1989). Upon further review, regulation 62.5, standard No. 5, section I, parts A.1. and A.38. do not contain deficiencies and are not a part of this final disapproval notice. These regulations will be approved in a separate notice. Today's disapproval action provides the basis for correcting the deficiencies identified within South Carolina's State Implementation Plan (SIP) as stated in a September 9, 1988, letter from EPA to the State of South Carolina.

DATE: This disapproval is effective on November 27, 1989.

ADDRESSES: Copies of the materials submitted by South Carolina may be examined during normal business hours at the following locations:

Air Programs Branch, Environmental Protection Agency, Region IV, 345 Courland Street NE., Atlanta, Georgia 30365

South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201

FOR FURTHER INFORMATION CONTACT: Brenda Johnson, EPA Region IV, Air Programs Branch, at the Atlanta address above or call 404/347–2864 or FTS/ 257–2864.

SUPPLEMENTARY INFORMATION: On June 5, 1985, the South Carolina Department of Health and Environmental Control submitted to EPA for approval revisions to the volatile organic compound (VOC) provisions of the South Carolina Air Pollution Control Regulations and Standards. These revisions were adopted by the South Carolina Board of Health and Environmental Control on December 20, 1984, and were forwarded to the State Legislature for approval. The revisions became State-effective on May 24, 1985.

Based on the information submitted, EPA disapproved the revisions without prior proposal (54 FR 15161, April 17, 1989) in a direct final notice. In this notice, EPA advised the public that the effective date of the action was deferred for 60 days (until June 16, 1989) so that comments, if any, could be submitted. EPA announced that the final action would be withdrawn if adverse or critical comments were received and a new rulemaking would be proposed with a 30-day comment period. On September 4, 1981 (46 FR 44477), EPA published a general notice explaining this special procedure.

Adverse comments were received on the 54 FR 15161 notice (April 17, 1989). Accordingly, EPA withdrew the direct-final notice (54 FR 25582, June 16, 1989) and simultaneously proposed disapproval of the South Carolina regulations (54 FR 25592, June 16, 1989). This notice represents EPA's final disapproval action and is based on the following considerations. On May 3, 1988, EPA released data on the ozone attainment status of areas throughout

the nation. On May 26, 1988, a letter notified the Honorable Carroll A. Campbell that the South Carolina SIP needed revising to achieve the ozone NAAQS, pursuant to section 110(a)(2)(H) of the Clean Air Act, 42 U.S.C. 7410(a)(2)(H). This SIP call in part required South Carolina to prepare an updated emission inventory and correct regulatory deficiencies and deviations between EPA's federal requirements and the State's SIP or pending SIP submittal. The correction of deviations is necessary for the State to continue progress in achieving attainment for ozone.

On September 9, 1988, EPA requested that South Carolina correct the identified deviations within their SIP. On October 12, 1988, South Carolina notified EPA that regulatory revisions within the SIP could only be accomplished under a State initiative or to comply with federal requirements.

Adverse comments were received on the disapproval notice (54 FR 25592, June 16, 1989). The comments and responses are given below.

Comment: Objections were raised by the South Carolina Chamber of Commerce Technical Committee concerning the proposed regulation disapproval on the basis that EPA is attempting to regulate by policy and guideline, rather than through a rulemaking procedure. They state that most of the cited deficiencies are not deviations from federal laws or regulations but are deviations from federal guidelines and policy.

Response: The proposed disapproval of the May 24, 1985 version of the South Carolina VOC regulations is consistent with section 110(a)(2)(H) of the Clean Air Act since the Administrator may call for such revision when, based on the information available to him, he finds that the SIP is substantially inadequate to achieve the NAAQS or to otherwise comply with any additional requirements established under the Clean Air Act Amendments of 1977. Adequate regulations governing VOC emissions are necessary for the South Carolina SIP since such regulations help assure that the SIP will be adequate to achieve and maintain the NAAQS for ozone in South Carolina. Therefore, the deficient regulations are proposed for disapproval to maintain compliance with federal law.

A May 25, 1988, document ("Issues Relating to VOC Regulation Cutpoints, Deficiences, and Deviations") cited in the proposed disapproval notice (54 FR 25592) is one of the commenter's concerns. This document provides specific information for correcting deficiencies and inconsistencies in VOC regulations. It is an interpretive rule which does not have to be promulgated pursuant to a rulemaking proceeding. *See* Administrative Procedure Act (APA), 5 U.S.C. 553(b). Interpretive rules need not be published in the **Federal Register**. For purposes of the APA, interpretive rules like general statements of policy and rules of organizations, procedures, or practice, are excluded from notice and comment procedures.

Comment: Changes in the VOC definition were questioned, especially, EPA's objection to the use of a 0.1 millimeter of Mercury (mm Hg) vapor pressure cutoff to define a VOC. The commenters state that just because an organic chemical can be volatilized under certain conditions does not mean that it will participate in atmospheric photochemical reactions, even if it possesses a high reactivity index.

Response: The definition of a volatile organic compound (VOC) as given in the May 25, 1988, document includes "any organic compound which participates in atmospheric photochemical reactions" and omits the 0.1 mm Hg vapor pressure cutoff. This has caused concern among some States which previously had incorporated a 0.1 mm Hg vapor pressure cutoff in their definition of VOC. A memorandum ("Definition of VOC: Rationale" by G.T. Helms, June 8, 1989) explains the rationale for revising the VOC definition to make all VOC definitions consistent with EPA's reactivity rationale. This memo is briefly summarized in this notice. For more information, please refer to the Technical Support Document.

The Volume II Control Technique Guideline (CTG), "Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles and Light-Duty Trucks" published in May 1977, uses 0.1 mm in the definition of VOC given in appendix C, "Regulatory guidance." Within a year of the CTG publication, it was recognized that inclusion of any restriction based on vapor pressure presupposed either of two things: (1) That because the vapor pressure of a compound is low the compound can never become airborne to participate in a photochemical reaction or, (2) even if it is airborne, the compound remains a liquid (does not evaporate), or if it does become vaporized it quickly condenses. These two suppositions are not necessarily true at the 0.1 mm Hg vapor pressure level. Vapor pressure would provide some indication of the rate of evaporation of material sitting at room temperature, but would have less meaning if the high boiling material is emitted as part of exhaust stack gases, especially at elevated temperature.

Organic compounds may be volatilized in a variety of industrial processes and emitted with stack gas exhausts. If these compounds remain in the vapor state they will be available to participate in photochemical reactions. Organic compounds with high carbon numbers and low vapor pressure can volatilize under certain conditions and even compounds with very low vapor pressure can have enough molecules in the gas phase to form appreciable quantities of ozone.

The conditions under which an organic material is actually used must be looked at to determine if it is, in fact, emitted to the atmosphere in any appreciable quantity. This will usually be done by applying the test method which is used to determine compliance with the regulation for a particular source category. Recognizing that EPA is attempting to control all VOC that eventually contributes to ozone formation, the test method is the ultimate arbiter of what is or is not a VOC for a particular industrial process.

Final Action: EPA is disapproving regulation 62.1, section I, 39., regulaton 62.5, standard No. 5, section I, parts A.9, A.22, A.39., A.51. and A.75., section II, parts A. through H. and parts N. through T. and section I, parts F. and E.

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 26, 1989. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Final Exclusion

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA or Agency) today is granting a final exclusion from the lists of hazardous wastes contained in 40 CFR 261.31 and 261.32 for specified waste generated by Mason Chamberlain, Incorporated, Bay St. Louis, Mississippi. This action responds to a delisting petition submitted under 40 CFR 260.20, which allows any person to petition the Administrator to modify or revoke any provision of parts 260 through 266, 124, 270, and 271 of title 40 of the Code of Federal Regulations, and under 40 CFR 260.22, which specifically provides generators the opportunity to petition the Administrator to exclude a waste on a "generator-specific" basis from the hazardous waste lists.

ADDRESSES: The public docket for this final rule is located at the U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, and is available for viewing from 9:00 a.m. to 4:00 p.m. in room M2427, Monday through Friday, excluding Federal holidays. Call (202) 475–9327 for appointments. The reference number for this docket is "F–89–MCEF–FFFFF." The public may copy material from any regulatory docket at a cost of $0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline, toll free at (800) 424–9346, or at (202) 382–3000. For technical information concerning this notice, contact Linda Cessar, Office of Solid Waste (OS–343), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 (202) 475–9828.

SUPPLEMENTARY INFORMATION:

I. Background

A. Authority

Under 40 CFR 260.20 and 260.22, facilities may petition the Agency to remove their wastes from hazardous waste control by excluding them from the lists of hazardous wastes contained at 40 CFR 261.31 and 261.32. Petitioners must provide sufficient information to EPA to allow the Agency to determine that (1) the waste to be excluded is not hazardous based upon the criteria for which it was listed, and (2) that no other hazardous constituents are present in the wastes at levels of regulatory concern.

B. History of this Rulemaking

Mason Chamberlain, Incorporated (Mason), located in Bay St. Louis, Mississippi, petitioned the Agency to exclude from hazardous waste control a specific waste that it generates. After evaluating the petition, EPA proposed, on December 13, 1988, to exclude Mason's waste from the lists of hazardous waste under 40 CFR 261.31 and 261.32. See 53 FR 50040.

This rulemaking addresses public comments received on the proposal and finalizes the proposed exclusion.

II. Disposition of Petition

Mason Chamberlain, Incorporated, Bay St. Louis, Mississippi

1. Proposed Exclusion

Mason petitioned the Agency for an exclusion of its wastewater treatment sludge filter cake, presently listed as EPA Hazardous Waste No. F019. Mason based its petition on the claim that the constituents of concern, although present in the waste, were in an essentially immobile form. To support its claim that both the non-listed and listed constituents of concern are not present in the wastewater treatment sludge filter cake above health-based levels of concern, Mason submitted results from total constituent, EP toxicity analyses, and Oily Waste EP (OWEP) toxicity analyes for all the EP toxic metals, nickel and cyanide. Mason also submitted results from priority pollutant analyses. All of the analyses were performed on representative samples of Mason's wastewater treatment sludge filter cake.

The Agency evaluated the information and analytical data provided by Mason in support of its petition and determined that the hazardous constituents found in the petitioned waste would not pose a threat to human health and the environment. Specifically, the Agency used its Vertical and Horizontal Spread (VHS) model and Organic-Leachate Model (OLM) to predict the potential mobility of the hazardous constituents found in the petitioned waste. Based on this evaluation, the Agency determined that the constituents in Mason's waste would not leach and migrate at concentrations above the health-based levels used in delisting decision-making. See 53 FR 50040, December 13, 1988, for a more detailed explanation of why EPA proposed to grant Mason's petition for its wastewater treatment sludge filter cake.

2. Agency Response to Public Comments

The Agency received comments on the proposed rule from one interested party. The commenter opposed the Agency's proposed decision for the reasons discussed below.

Petition-Specific Comments. The commenter stated that the wastewater treatment sludge filter cake still exhibits one of the criteria for which it was listed—the presence of total chromium in excess of the 1,000 ppm level considered significant justification for listing F019 wastes as hazardous. The commenter, therefore, believed that the petition should be denied because Mason did not meet the regulatory requirements of 40 CFR 260.20(d) and 261.11(a)(3)–(iii). Specifically, the commenter asserted that because the waste contains a listed constituent (*i.e.*, chromium), the petitioner must make a demonstration showing that the petitioned waste, under all plausible types of mismanagement scenarios, is non-hazardous.

First, the Agency considered in its analysis of the petitioned waste all of the factors listed in 40 CFR 261.11(a)(3), including all plausible mismanagement scenarios (see 53 FR 50043, December 13, 1988). EPA, therefore, disagrees with the commenter's assertion that granting this petition would be inconsistent with the regulations.

In regards to the presence of a listed constituent in the petitioned waste, the Agency agrees that the presence in F019 wastes of significant concentrations of the inorganic constituents of concern (including total chromium) was one of the reasons for listing F019 wastes as "T" (toxic) waste. See 40 CFR 261.11(a)(3)(ii) and "Background Document, Resource Conservation and Recovery Act, Subtitle C, Hazardous Waste Management, Section 3001, Identification and Listing of Hazardous Waste—Electroplating and Metal Finishing Operations," 1980. The Agency also believes that the data presented in the Background Document broadly characterize the physical/chemical nature of conversion coating wastes (hydroxide sludges). EPA, therefore, used elevated concentrations of constituents as an indicator of potential hazard as it is reasonable to expect that, as the concentration of an unbound or loosely bound metal present in a waste increases, the potential for the metal to leach from the waste also increases. (Generally, the higher the total concentration of an unbound or loosely bound metal, the higher the potential EP leachate concentration.) Thus, wastes having significant concentrations of unbound or loosely bound metals are more likely to impact the underlying ground water than wastes having lower concentrations of unbound or loosely bound metals. However, in this specific case, the metals in Mason's waste are tightly bound within the waste matrix. The Agency's conclusion that chromium is bound in the waste matrix and thus is not available for leaching is supported by the results of the OWEP leachate analyses, which showed that only 0.13 mg/l of chromium would leach from Mason's waste under conditions similar to those found in municipal waste landfills. See 53 FR 50043, December 13, 1988. As a result, the Agency believes that the level of chromium present in Mason's waste, in this specific case, is not an appropriate indicator of hazard to human health and the environment.

Furthermore, EPA evaluated the waste's potential impact on human health using the maximum EP leachate concentration and the vertical and horizontal spread (VHS) model. For the volume of waste generated by Mason (1,262 cubic yards/year), the VHS model predicts a dilution factor of approximately 12.8. The VHS model analysis provides a conservative and reasonable worst-case evaluation of the behavior of the leachate from the waste in an underlying aquifer. The predicted compliance-point concentrations resulting from this conservative analysis were below the levels of concern used for delisting purposes. See 53 FR 50043, December 13, 1988, for a description of the modeling analysis of Mason's waste.

As indicated above, the commenter believed that the Agency failed to consider all plausible mismanagement scenarios in its evaluation of the petitioned waste. Specifically, the commenter asserted that because the Agency based its evaluation exclusively on the "worst-case scenario" of land disposal, the proposed rule provides no basis for determining if the waste would be hazardous under other plausible mismanagement scenarios. The commenter, therefore, believed that EPA only considered the leachable levels of hazardous constituents and did not consider the waterborne dispersal, airborne dispersal, or direct dermal contact with the waste potentially occurring through other plausible mismanagement scenarios.

The Agency does not believe that it is likely for other mismanagement scenarios to occur. Nonetheless, with regard to possible airborne dispersal, the Agency believes that direct contact from airborne exposure to hazardous contaminants from Mason's filter cake is not probable because the waste exhibits an average moisture content of 60 percent. The Agency, therefore, believes that the waste's moisture content is sufficient to prevent dust formation and dispersion.

With regard to waterborne dispersal of the waste, it is important to note that the VHS model analysis described in the proposal shows that leachate from the waste that travels through ground water will not exceed health-based levels. The Agency acknowledges that it may also be possible for surface water runoff to transport contaminants from the waste to a nearby surface water body. However, the Agency does not believe that analysis of such overland transport of contaminants as a reasonable exposure route for the petitioned waste would compel a different result for this petition. As described in the proposed rule, the Agency believes that landfill disposal is a reasonable worst-case management scenario for Mason's waste. Contamination of surface water might occur, therefore, through runoff from the petitioned waste. However, EPA believes that the concentrations of any hazardous constituents in that runoff will tend to be lower than the levels in the EP leachate analyses reported in the proposal, due to the acidic medium of the EP test. Furthermore, any transported constituents would be further diluted in the surface water body.

Finally, the Agency believes that, in general, the leachate derived from this waste will not directly enter a surface water body without first travelling through the saturated (subsurface) zone where dilution and attenuation of hazardous constituents may occur. The VHS model takes this saturated zone into account as it predicts the ultimate fate and transport of hazardous constituents.

EPA's Modeling Approach. The commenter objected to EPA's use of the VHS model in analyzing Mason's wastewater treatment sludge filter cake. The commenter believed that the VHS model could not be assumed to predict a reasonable worst-case when applied to Mason's waste and may result in significant underestimation of actual ground-water concentrations for the reasons discussed below.

The commenter believed that the VHS model cannot accurately predict the behavior of waste volumes in excess of 2,000 cubic yards because the VHS model, above approximately 2,000 cubic yards, predicts virtually no further reduction in the expected dilution. The commenter noted that EPA has previously stated: "Since the quantity of leachate from a larger quantity of waste will be greater, the [VHS] model predicts that a large waste volume will tend to have a greater impact on an underlying aquifer" and "waste in excess of 2,000 cubic yards probably would have a greater than predicted impact at the compliance point." See 50 FR 48886 and 48899, November 27, 1985.

The initial version of the VHS model, presented on February 26, 1985, calculated dilution factors ranging from 10 to 50, with the minimum dilution factor (*i.e.*, 10) resulting at a waste volume approaching approximately 2,000 cubic yards. See 50 FR 7896. On November 27, 1985, the Agency both modified the values used for several of the VHS model variables and responded to public comments regarding the February 26, 1985 model. See 50 FR 48896. The November 27, 1985 version (present version) of the VHS model calculates dilution factors ranging from 6.3 to 32.3. In the present version, the calculated dilution factor steadily falls as the waste volume increases from 475 cubic yards, with the minimum dilution factor resulting at waste volumes equal to or exceeding 8,000 cubic yards.

Unfortunately, the Agency's November 27, 1985, response (cited by the commenter) failed to consistently reflect both the technical modifications made to the VHS model computer code and the resulting change in the range of calculated dilution factors. Due to the technical modifications incorporated into the final version that is now being used, the statement noted by the commenter, that the VHS model predicts virtually no further dilution above a waste volume of 2,000 cubic yards, was an inadvertent error in the text and is not accurate. Specifically, the present version of the model predicts a dilution factor of approximately 8.9 for 2,000 cubic yards and a dilution factor of approximately 6.3 for 8,000 cubic yards. The Agency continues to believe that the VHS model performs a reasonable, worst-case analysis and provides dilution factors that are fully protective of human health and the environment.

The commenter also believed that the VHS model, as applied, considered the impact of only one year of waste disposal, rather than the cumulative impact of continuing disposal of Mason's waste. The commenter noted that after a decade of such generation, the total amount of waste would exceed the VHS model's upper limit by more than six-fold. The commenter also stated that nowhere in the development of the VHS model does EPA justify the use of an annual, rather than cumulative, waste quantity as the appropriate input into the VHS model.

VOL 54 ISS 207 OCT 27 1989 UMI

Nor did the commenter see any possible justification for such an application of the model.

First, the Agency believes that the commenter is incorrect in concluding that a decade of waste generation would yield a waste volume that exceeds the VHS model upper limit by six-fold because the VHS model does not have an "upper limit". Rather, the VHS model incorporates a sliding-scale which allows the Agency to take into account the different impact that various waste volumes would have on ground water. As stated above, the VHS model calculates the maximum and minimum dilution factors at waste volumes of less than or equal to 475 cubic yards, and equal to or greater than 8,000 cubic yards, respectively. Thus, as the waste volume increases above 8,000 cubic yards or even 12,620 cubic yards (*i.e.*, 10 years × Mason's maximum annual waste generation rate of 1,262 cubic yards/year), the dilution factor calculated by the VHS model would be 6.3. The reason that the dilution factor remains constant after the waste volume exceeds 8,000 cubic yards is a function of the assumptions made in the disposal unit dimensions for the VHS model. (For a discussion of the assumptions made in the disposal unit dimensions for the VHS model, see 53 FR 48900, November 27, 1985.) Due to the effects of unit construction/dimensions on dilution/attenuation of the leachable constituents occurring in the underlying aquifer, the dilution factor calculated for 8,000 cubic yards is appropriate for waste volumes exceeding 8,000 cubic yards (*i.e.*, at a specific volume, the length of the disposal trench is sufficiently large that the resultant contaminant plume is not completely intercepted by a downgradient ground-water well). Lastly, the Agency notes that the commenter has not provided any evidence to support its claim that the dilution factor calculated for 8,000 cubic yards is not appropriate for waste volumes in excess of 8,000 cubic yards.

The commenter is also incorrect in stating that the Agency has not justified the use of annual waste volumes, instead of cumulative waste volumes. The Agency considers the use of annual or one-time waste volumes to be sufficiently conservative since it is a reasonable worst-case for a petitioner to dispose of one year's accumulated volume of waste in a single landfill cell at one time. Based on routine landfill management practice, EPA believes that it is unreasonable to assume, even in a worst-case scenario, one-time disposal of waste continuously generated over ten years in the same landfill cell. Specifically, wastes continuously generated are not disposed of in the same landfill cell. Rather, continuously generated wastes (if disposed of at the same landfill) are periodically distributed throughout the entire landfill, as the landfill is filled. See 50 FR 7899, February 26, 1985.

The Agency believes that periodic disposal of a continuously generated waste over the course of time (*e.g.*, ten years) would likely increase mixing (*i.e.*, dilution) of the petitioned waste with other non-hazardous materials and fill materials (*e.g.*, native soils) at the subtitle D landfill, and the waste's effect on the underlying aquifer would be reduced. The Agency, therefore, believes the assumption that the annual waste volume is disposed in the same landfill cell is a reasonable worst-case and is protective of human health and the environment.

The commenter also stated that the Agency did not restrict the coverage of the exclusion to a specific amount of waste. The commenter noted that, although the preamble specified that the proposed exclusion would apply only to the processes covered by the original demonstration, Mason is not prevented from increasing its waste generation. See 53 FR 50044, December 13, 1988.

As stated in the proposal, the Agency believes that it is unlikely for Mason to significantly increase its waste generation without modifying its production processes and thereby trigger a re-evaluation of the exclusion. For this reason, specific volume limitations had not been formally incorporated into the proposed exclusion provision. In consideration of the concerns raised by the commenter, EPA has included an explicit volume limitation in today's final rule. This limitation further clarifies that the exclusion promulgated today is specific to the wastes covered in the petition which included an accurate estimation of its maximum annual waste generation rate.

The commenter further asserted that Mason's waste alone contributes amounts of phenol, bis(2-ethylhexyl)phthalate, chromium, lead, nickel, and silver that are substantial percentages of the regulatory levels of concern (*i.e.*, the predicted compliance-point concentrations for phenol, bis(2-ethylhexyl)phthalate, chromium, lead, nickel, and silver are close to their respective regulatory levels of concern). The commenter, therefore, stated that disposing of this waste with any other contaminant source within the same landfill could readily cause exceedences of the regulatory levels of concern.

The Agency believes that the commenter is implying that wastes should not be delisted unless the predicted at-the-well concentrations of the contaminants are significantly less than their respective regulatory levels of concern (*i.e.*, some unspecified percentage reduction of the regulatory level of concern) in order to safeguard against the impact of other potential contamination sources. Unfortunately, the Agency is not currently able to modify the VHS model to assess the effects of additional contaminant sources on the underlying aquifer within the same disposal site. The Agency, therefore, does not have any technical basis to support a determination of an appropriate percentage reduction and believes that some stipulated percentage reduction would be arbitrary. In light of the conservative nature of the VHS model (*e.g.*, no degradation, infinite source), EPA will continue to allow wastes to exhibit compliance-point concentrations up to 100 percent of the regulatory levels of concern.

Lastly, the commenter was concerned with the compliance-point concentration for lead since EPA is considering lowering the drinking water standard for lead to 0.005 mg/1. The commenter believes that the waste should be considered hazardous since, if the 0.005 mg/1 standard is adopted, the calculated compliance-point concentration would exceed the standard by a factor of four.

In making delisting decisions, the Agency uses the existing health-based levels cited in "Docket Report on Health-Based Levels and Solubilities Used in the Evaluation of Delisting Petitions," June 8, 1989 (located in the RCRA public docket). The Agency has no way of predicting the final drinking water standard until it is actually promulgated (the standard could be less than or greater than the proposed level or the 0.005 mg/1 level cited by the commenter). Neither can the Agency be certain exactly when a new standard might be promulgated. Without a new final drinking water standard, the Agency does not believe it is fair to the petitioner to postpone a final delisting decision until a new drinking water standard for lead is promulgated.

3. Final Agency Decision

For the reasons stated in the proposal, the Agency believes that Mason's wastewater treatment sludge filter cake should be excluded from hazardous waste control. The Agency, therefore, is granting a final exclusion to Mason Chamberlain, Incorporated, located in Bay St. Louis, Mississippi, for its wastewater treatment sludge filter cake, described in its petition as EPA Hazardous Waste No. F019. The exclusion only applies to 1,262 cubic yards of wastewater treatment sludge filter cake generated annually by the processes covered by the original demonstration. The facility would require a new exclusion if its manufacturing or treatment processes are significantly altered such that an adverse change in waste composition occurred. Accordingly, the facility would need to file a new petition for the altered waste. The facility must treat waste generated either in excess of 1,262 cubic yards per year or from changed processes as hazardous until a new exclusion is granted.

Although management of the waste covered by this petition is relieved from subtitle C jurisdiction, the generator of a delisted waste must either treat, store, or dispose of the waste in an on-site facility, or ensure that the waste is delivered to an off-site storage, treatment, or disposal facility, either of which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste. Alternatively, the delisted waste may be delivered to a facility that beneficially uses or reuses, or legitimately recycles or reclaims the waste, or treats the waste prior to such beneficial use, reuse, recycling, or reclamation.

III. Limited Effect of Federal Exclusion

The final exclusion being granted today is being issued under the Federal (RCRA) delisting program. States, however, are allowed to impose their own, non-RCRA regulatory requirements that are more stringent than EPA's, pursuant to section 3009 of RCRA. These more stringent requirements may include a provision which prohibits a Federally-issued exclusion from taking effect in the State. Since a petitioner's waste may be regulated under a dual system (*i.e.*, both Federal (RCRA) and State (non-RCRA) programs), petitioners are urged to contact their State regulatory authority to determine the current status of their wastes under State law.

IV. Effective Date

This rule is effective immediately. The Hazardous and Solid Waste Amendments of 1984 amended section 3010 of RCRA to allow rules to become effective in less than six months when the regulated community does not need the six-month period to come into compliance. That is the case here because this rule reduces, rather than increases, the existing requirements for persons generating hazardous wastes. In light of the unnecessary hardship and expense that would be imposed on this petitioner by an effective date six months after promulgation and the fact that a six-month deadline is not necessary to achieve the purpose of section 3010, EPA believes that this rule should be effective immediately upon promulgation. These reasons also provide a basis for making this rule effective immediately, upon promulgation, under the Administrative Procedures Act, pursuant to 5 U.S.C. 553(d).

V. Regulatory Impact

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This rule to grant an exclusion is not major since its effect is to reduce the overall costs and economic impact of EPA's hazardous waste management regulations. This reduction is achieved by excluding waste generated at a specific facility from EPA's lists of hazardous wastes, thereby enabling the facility to treat its waste as non-hazardous. There is no additional economic impact, therefore, due to today's rule.

VI. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601–612, whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (*i.e.*, small businesses, small organizations, and small governmental jurisdictions). The Administrator or delegated representative may certify, however, that the rule will not have a significant economic impact on a substantial number of small entities.

This amendment will not have an adverse economic impact on small entities since its effect will be to reduce the overall costs of EPA's hazardous waste regulations and is limited to one facility. Accordingly, I hereby certify that this regulation will not have a significant economic impact on a substantial number of small entities. This regulation, therefore, does not require a regulatory flexibility analysis.

VII. Paperwork Reduction Act

Information collection and recordkeeping requirements associated with this final rule have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511, 44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2050–0053.

List of Subjects in 40 CFR Part 261

Hazardous materials, Waste treatment and disposal, Recycling.

Dated: October 17, 1989.

Jeffery D. Denit,

Deputy Director, Office of Solid Waste.

For the reasons set out in the preamble, 40 CFR part 261 is amended as follows:

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

1. The authority citation for part 261 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, and 6922.

2. In Table 1 of Appendix IX, add the following wastestream in alphabetical order:

Appendix IX—Wastes Excluded Under §§ 260.20 and 260.22

TABLE 1.—WASTES EXCLUDED FROM NON-SPECIFIC SOURCES

Facility	Address	Waste description
• • •	• • •	• • •
Mason Chamberlain, Incorporated.	Bay St. Louis, Mississippi.	Wastewater treatment sludge filter cake (EPA Hazardous Waste No. F019) generated (at a maximum annual rate of 1,262 cubic yards) from the chemical conversion coating of aluminum. This exclusion was published on October 27, 1989.

BILLING CODE 6560–50–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 611

[Docket No. 90367–9165]

Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Final notice to reassess fishery specifications.

SUMMARY: NOAA issues this final notice of reassessment of fishery specifications

VOL 54 ISS 207 OCT 27 1989 UMI

and joint venture processing (JVP) amounts in the foreign fishing regulations for the Preliminary Fishery Management Plan for the Hake Fisheries of the Northwestern Atlantic (PMP). This notice addresses new scientific information in the fishery and recent developments that have occurred in the fishery. The intended effect of the new specifications is to allow continued development of the hake fisheries of the Northwestern Atlantic that will be conducted to support joint ventures (JV) involving U.S. hake fishermen to produce net benefit to the United States.

EFFECTIVE DATE: November 27, 1989.

FOR FURTHER INFORMATION CONTACT: E. Martin Jaffe, (Resource Management Specialist), 508–281–9272.

SUPPLEMENTARY INFORMATION: NOAA published a proposed rule to amend fishery specifications on April 5, 1989, to present the optimum yield (OY), domestic annual harvest (DAH), domestic annual processing (DAP), JVP, reserve, and the total allowable level of foreign fishing (TALFF) for the hake fisheries (54 FR 13704) with request for public comment.

A foreign fishing application for a silver hake JV with vessels of the Soviet Union was received after publication of the proposed rule. NOAA published a notice of extension of the comment period on May 2, 1989, (54 FR 18683) extending the comment period through May 15, 1989, to allow sufficient time for comments from industry and the public to address the recent interest in JVP.

The JV application involves silver hake in the N. Georges/Gulf of Maine (GOM) area.

The NMFS reassessment affirms that the DAP for the N. Georges/GOM silver hake is appropriate to satisfy the domestic processing sector and that sufficient U.S. harvest is available to approve a JV. Based on this review, NMFS specifies an appropriate amount of JVP for N. Georges/GOM by transferring 3,000 metric tons of silver hake from reserve. While this specification increases the DAH by 3,000 metric tons, it does not modify the DAP.

The specifications for hake fisheries in the Northeast Region, Northwestern Atlantic Ocean, are revised to read as follows:

NORTHWESTERN ATLANTIC HAKE FISHERIES

[In metric tons (mt)]

Species	Species code	Area	OY	DAH	DAP	JVP	Reserve	TALFF
Hake, Silver	104	S. Georges/MAtl	14,000	12,000	12,000	0	1,750	250
		N. Georges/GOM	13,000	10,000	7,000	3,000	2,750	[1] 250
Hake, Red	105	S. Georges/MAtl	1,000	600	600	0	300	100
		N. Georges/GOM	1,500	800	800	0	600	100

[1] This table is amended to show the change in silver hake in the reserve amount from 5,750 to 2,750 mt in the JVP amount and from 0 to 3,000 mt that was not included in the proposed rule published April 5, 1989, 54 FR 13704.

Comments and Responses

Written comments were submitted by Mayflower International, Ltd., Cape Ann Vessel Association, and the Gloucester Fisheries Association. A group representing Gloucester, MA processors also commented in a meeting with the NMFS Northeast Regional Director. The Gloucester Fisheries Association and the group representing the local processors (the processors) oppose the JV while Mayflower International, Ltd. and the Cape Ann Vessel Association support it.

Comment: The processors asked if the silver hake purchased by the foreign JV partner would be sold in the United States.

Response: The vessels of the Soviet Union expect to process the fish into fillets and fishmeal. The application for JV states that the expected market is the Soviet Union and that the products are not expected to enter the United States.

Comment: The processors asked what will happen to the by-catch.

Response: Their application for JV states that the foreign fishing vessels will not exceed the incidental harvest limits established by the regulations. They further agreed to return any by-catch to the U.S. harvesting vessels if requested.

Comment: The processors and the Gloucester Fisheries Association expressed their concern with the possibility of the JV taking groundfish. The processors were concerned with effects of the JV on groundfishing in 1989, and the Gloucester Fisheries Association asked if there would be a JV next year for groundfish.

Response: As stated in 50 CFR 611.11(c), all species of fish which a foreign fishing vessel has not been allocated or authorized to retain, including fish caught or received in excess of any allocation or authorization, are prohibited species which must be returned promptly to the ocean. Further, it is unlikely that the foreign fishing vessels will encounter groundfish (e.g., cod or haddock) because of the known low concentration of multi-species groundfish in that portion of N. Georges Bank/GOM known as Cultivator Shoals. Also, there is no JVP for groundfish, nor is one expected given the capacity of the domestic processing sector. Thus, a JV for groundfish is not possible.

Comment: Some small boat fishermen fear that U.S. vessels participating in the JV will sell boxed whiting in the New York market.

Response: The Cape Ann Vessel Association and Mayflower, Ltd. have conditioned participation of interested vessels in the JV upon their agreement to refrain from boxing their catch and selling into the New York market.

Classification

The Assistant Administrator for Fisheries, NOAA, determined that this action appears to be necessary for the conservation and management of the hake fisheries governed by the PMP prepared by the Secretary and that it is consistent with the Magnuson Fishery Conservation and Management Act (Magnuson Act) and other applicable law.

This action does not result in a significant change in the original environmental action and is categorically excluded from the requirement to prepare an environmental assessment pursuant to NOAA Directive 02–10.

The Under Secretary for Oceans and Atmosphere, NOAA, determined that this is not a "major rule" requiring a regulatory impact analysis under Executive Order 12291 because it would not have an annual effect on the economy of $100 million or more; would not result in an increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and would not result in significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets. The General Counsel of the Department of Commerce certified to the Small Business Administration that this will not have a significant economic impact on a substantial number of small entities because it does not regulate domestic fishing interests. As a result, a regulatory flexibility analysis was not prepared.

This rule does not contain a collection of information requirement for purposes of the Paperwork Reduction Act.

This rule will be implemented in a manner that does not directly affect the approved coastal zone management programs of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina and South Carolina.

Management measures in the PMP are not likely to affect endangered species or marine mammals.

This rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 12612.

List of Subjects in 50 CFR Part 611

Fisheries, Foreign relations, Reporting and recordkeeping requirements.

BILLING CODE 3510–22–M

---

50 CFR Part 675

[Docket No. 81131–9019]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: NOAA announces the closure of the Bering Sea and Aleutian Islands subareas to retention of Greenland turbot under provisions of the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP). This action is necessary to prevent the total allowable catch (TAC) for Greenland turbot in the Bering Sea and Aleutian Islands subareas from being exceeded before the end of the fishing year. The intent of this action is to assure optimum use of groundfish while conserving Greenland turbot stocks.

DATES: Effective from noon, Alaska Daylight Time (ADT), October 25, 1989, through December 31, 1989. Comments will be accepted through November 8, 1989.

ADDRESS: Comments should be mailed to Steven Pennoyer, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, AK 99802, or be delivered to Room 453, Federal Building, 709 West Ninth Street, Juneau, Alaska.

FOR FURTHER INFORMATION CONTACT: Jessica A. Gharrett, Resource Management Specialist, NMFS, 907–586–7229.

SUPPLEMENTARY INFORMATION: The FMP governs the groundfish fishery in the exclusive economic zone under the Magnuson Fishery Conservation and Management Act. The FMP was developed by the North Pacific Fishery Management Council (Council) and implemented by rules appearing at 50 CFR 611.93 and part 675.

The current TAC for Greenland turbot is set at 6,000 metric tons (mt). Current apportionments of TAC to domestic annual processing (DAP) and joint venture processing (JVP) are 7,800 mt and 200 mt, respectively.

In the Bering Sea and Aleutian Islands subareas, the estimated catch through October 7, 1989, of Greenland turbot for DAP is 7,089 mt, and for JVP is 41 mt, for a total of 7,120 mt. Current daily catch rates are approximately 50 mt. When the Bering Sea and Aleutian Islands subareas Greenland turbot TAC is taken, current regulations require that all domestic vessels operating in those subareas discard Greenland turbot in the same manner as prohibited species, and that all foreign processors in those subareas are prohibited from receiving Greenland turbot. The Regional Director estimates that at current and anticipated catch rates the entire Bering Sea and Aleutian Islands subareas Greenland turbot TAC (6,000 mt) will be taken by DAP and JVP fisheries by October 25, 1989.

Notice of Closure to Retention

Under § 675.20(a)(7), when the Regional Director determines that the entire TAC of any target species is taken, the Secretary will publish a notice in the **Federal Register** prohibiting retention of that species for the remainder of the fishing year. Therefore, in order to prevent exceeding the TAC for Greenland turbot, all retention of Greenland turbot in the Bering Sea and Aleutian Islands subareas must cease effective noon, ADT, October 25, 1989.

Classification

The Assistant Administrator for Fisheries, NOAA, finds for good cause that it is impractical and contrary to the public interest to provide prior notice and comment. Immediate effectiveness of this notice is necessary to prevent the TAC for Greenland turbot from being exceeded. However, interested persons are invited to submit comments in writing to the address above for 15 days after the effective date of this notice.

This action is taken under the authority of 50 CFR 675.20(b) and 675.20(a)(7) and complies with Executive Order 12291.

Proposed Rules

Federal Register
Vol. 54, No. 207
Friday, October 27, 1989

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 89-NM-195-AD]

Airworthiness Directives; Boeing Model 747 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice proposes to adopt a new airworthiness directive (AD), applicable to certain Boeing Model 747 series airplanes, which would require modification of the body station 1241 bulkhead and the wing rear spar kick fitting joint, and repair of the bulkhead splice strap, if necessary. This proposal is prompted by a report of a cracked splice strap at the kick fitting location on one airplane. This condition, if not corrected, could lead to bulkhead forging cracks and result in the inability of the remaining structure to withstand fail-safe loads.

DATE: Comments must be received no later than December 18, 1989.

ADDRESSES: Send comments on the proposal in duplicate to the Federal Aviation Administration, Northwest Mountain Region, Transport Airplane Directorate, ANM-103, Attention: Airworthiness Rules Docket No. 89-NM-195-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Satish Pahuja, Airframe Branch, ANM-120S; telephone (206) 431-1997. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact, concerned with the substance of this proposal, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this Notice must submit a self-addressed, stamped post card on which the following statement is made: "Comments to Docket Number 89-NM-195-AD." The post card will be date/time stamped and returned to the commenter.

Discussion

The manufacturer of Boeing Model 747 series airplanes recently reported that during production a bearing plate was not installed on the splice strap at the kick fitting location on airplanes, line numbers 676, 679, 685, and 690-699. This bearing plate is required to prevent fretting and corrosion, and subsequent splice strap cracking at the kick fitting location. This condition, if not corrected, could lead to bulkhead forging cracks and result in the inability of the remaining structure to withstand fail-safe loads

The FAA has reviewed and approved Boeing Service Bulletin 747-53-2299, Revision 1, dated June 29, 1989, which describes procedures for an interim modification to minimize fretting by reducing kick fitting fastener clamp up torque, and procedures for a permanent modification by installing a bearing plate between the strap and sliding joint bushings.

Since this condition is likely to exist or develop on other airplanes of this same type design an AD is proposed which would require an interim modification of the body station 1241 bulkhead, and an eddy current inspection for cracks of the bulkhead splice strap. If no cracking is found, a permanent modification would be required; if cracking is found repair would be required prior to further flight. Procedures for accomplishing these action would be in accordance with the service bulletin previously described.

There are approximately 13 Model 747 series airplanes of the affected design in the worldwide fleet. It is estimated that 1 airplane of U.S. registry would be affected by this AD, that it would take approximately 91 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $3,640.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Applies to Model 747 series airplanes, line position 676, 679, 685, and 690 through 699, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent cracking of the bulkhead splice strap, accomplish the following:

A. Within the next 1,000 flight cycles after the effective date of this AD, perform an interim modification of the body station 1241 bulkhead in accordance with Boeing Service Bulletin 747-53-2299, Revision 1, dated June 29, 1989.

B. Within the next 5,000 flight cycles after the effective date of this AD, perform an eddy current inspection for cracks of the splice strap in accordance with Boeing Service Bulletin 747-53-2299, Revision 1, dated June 29, 1989.

1. If no cracking is found, prior to further flight, perform a permanent modification in accordance with Boeing Service Bulletin 747-53-2299, Revision 1, dated June 29, 1989.

2. If cracking is found, prior to further flight, repair in accordance with a method approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

C. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment, and then send it to the Manager, Seattle Aircraft Certification Office.

D. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on October 18, 1989.

Darrell M. Pederson,
Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 89-NM-179-AD]

Airworthiness Directives; Airbus Industrie Model A320 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice proposes to adopt a new airworthiness directive (AD), applicable to certain Airbus Industrie Model A320 series airplanes, which would require replacement of the existing standby transformer/rectifier (TR) with a TR identical to the main TR, and its installation in a different location with improved ventilation. This proposal is prompted by reports of false transitory electronic centralized aircraft monitor (ECAM) warnings occurring during cases of Auxiliary Power Unit (APU) shutdown. This condition, if not corrected, could result in unnecessary emergency action, such as an aborted takeoff.

DATE: Comments must be received no later than December 18, 1989.

ADDRESSES: Send comments on the proposal in duplicate to the Federal Aviation Administration, Northwest Mountain Region, Transport Airplane Directorate, ANM-103, Attention: Airworthiness Rules Docket No. 89-NM-179-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Standardization Branch, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Holt, Standardization Branch, ANM-113; telephone (206) 431-1918. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact, concerned with the substance of this proposal, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this Notice must submit a self-addressed, stamped post card on which the following statement is made: "Comments to Docket Number 89-NM-179-AD." The post card will be date/time stamped and returned to the commenter.

Discussion

The Direction Generale de L'Aviation Civile (DGAC), which is the airworthiness authority of France, in accordance with existing provisions of a bilateral airworthiness agreement, has notified the FAA of an unsafe condition which may exist on certain Airbus Industrie Model A320 series airplanes. There have been reports of false electronic centralized aircraft monitor (ECAM) warnings at Auxiliary Power Unit (APU) shutdown due to the susceptibility of the standby transformer/rectifier (TR) to transitory electronic conditions. This condition, if not corrected, could result in unnecessary emergency action, such as an aborted takeoff.

Airbus Industrie has issued Service Bulletin A320-24-1028, dated July 7, 1989, which describes procedures to replace the standby TR with a TR identical to the main TR which is not susceptible to these conditions, and to relocate it to a position with improved ventilation. The relocation of the standby TR is to provide the best

VOL 54 ISS 207 OCT 27 1989 UMI

environment for the proper operation of the standby TR. The DGAC has classified this service bulletin as mandatory.

This airplane model is manufactured in France and type certificated in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement.

Since this condition is likely to exist or develop on other airplanes of the same type design registered in the United States, an AD is proposed which would require replacement and relocation of the TR in accordance with the service bulletin previously described.

It is estimated that 8 airplanes of U.S. registry would be affected by this AD, that it would take approximately 5.5 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. The required parts will be supplied by the manufacturer at no cost to the operator. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $1,760.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Airbus Industrie: Applies to Model A320 series airplanes, Serial Numbers 005 through 039, and 042 through 049, certificated in any category. Compliance is required within 60 days after the effective date of this AD, unless previously accomplished.

To prevent possible false ECAM messages on APU shutdown, accomplish the following:

A. Replace the standby transformer/rectifier (TR) with one identical to the main TR, and relocate it to a position with improved ventilation, in accordance with Airbus Industrie Service Bulletin No. A320-24-1028, dated July 7, 1989.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM-113, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment and then send it to the Manager, Standardization Branch, ANM-113.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or the Standardization Branch, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on October 17, 1989.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 12

The Definition of Switchblade Knives; Extension of Time for Comments

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Proposed rule; extension of time for comments.

SUMMARY: This notice extends the period of time within which interested members of the public may submit comments concerning the proposed amendment to the Customs Regulations relating to the definition of switchblade knives. A notice inviting the public to comment on the proposal was published in the **Federal Register** on August 18, 1989 (54 FR 34186), and comments were to have been received on or before October 17, 1989. A request has been received to extend the period of time for comments for an additional 60 days. The request points out that many individuals who might wish to comment on the proposal are not regular readers of the **Federal Register**. They are members of organizations and would only receive notice of the proposal through membership mailings from the organizations which cannot be accomplished within the original time period allowed for comments. In view of the arguments presented, the request is granted.

DATE: Comments will now be accepted if received on or before December 17, 1989.

ADDRESSES: Comments (preferably in triplicate) should be submitted to and may be inspected at the Regulations and Disclosure Law Branch, U.S. Customs Service, Room 2119, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: Samuel Orandle, Value, Special Programs and Admissability Branch, Commercial Rulings Division, (202) 566-5765.

Dated: October 20, 1989.

Harvey B. Fox,

Director, Office of Regulations and Rulings.

BILLING CODE 4820-02-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL-3674-2]

Approval and Promulgation of State Implementation Plans; PM-10 Plan for Group II and Group III Areas, Wyoming

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the PM-10 State Implementation Plan (SIP) for the Wyoming Group III areas and the PM-10 Committal SIP for the Lander, Wyoming Group II area which were submitted by the State on March 14, 1989. The State has adequately incorporated the federal Group III and Group II area PM-10 requirements into Wyoming's air pollution control program, which merits EPA's proposed approval of these SIP revisions. The Group III SIP makes numerous revisions related to PM-10 to the existing SIP, and the Group II Committal SIP commits the State to continue ambient air monitoring for PM-10 and to submit to EPA a full SIP if, through monitoring, violations of the PM-10 National Ambient Air Quality Standards (NAAQS) are detected. EPA's proposed approval of these SIPs is also based on Wyoming's commitment to adequately address deficiencies in the State's New Source Review (NSR) and Prevention of Significant Deterioration (PSD) regulations so that attainment and maintenance of the PM-10 NAAQS can be assured.

DATE: Comments must be received on or before November 27, 1989.

ADDRESSES: Written comments on this action should be addressed to: Chief, Air Programs Branch, Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, Colorado 80202-2405.

Copies of the applicable documentation are available for public inspection between 8:00 a.m. and 4:00 p.m. Monday through Friday at the following offices:

Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, Suite 500, Denver, Colorado 80202-2405.

Wyoming Department of Environmental Quality, Air Quality Division, Herschler Building, 4th Floor, 122 West 25th Street, Cheyenne, Wyoming 82002.

FOR FURTHER INFORMATION CONTACT: Michael Silverstein, Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, Suite 500, Denver, Colorado 80202-2405, (303) 293-1768, FTS 564-1768.

SUPPLEMENTARY INFORMATION: The 1977 amendments to the Clean Air Act require EPA to review periodically and, if appropriate, revise the criteria on which the NAAQS for each air pollutant are based, as well as review and revise the NAAQS themselves. In response to these requirements, EPA published a notice to promulgate revised NAAQS for particulate matter under ten microns in size (known as PM-10) on July 1, 1987 (52 FR 24634). As a result, states must revise their SIPs to attain and maintain the new NAAQS.

To implement the new SIP requirements, all areas in the country were divided into three groups, based on the probability that each of these areas would violate the PM-10 NAAQS. Group I areas have violated the PM-10 NAAQS or have air quality data showing high (greater than 95%) probabilities of violating the NAAQS. These areas must submit to EPA for approval full SIPs including control strategies and attainment demonstrations. Group II areas are estimated to have a moderate (20%-95%) probability of violating the PM-10 NAAQS, and must commit to monitor for PM-10 and submit a full SIP if a violation occurs. Group III areas are estimated to have a low (less than 20%) probability of violating the PM-10 NAAQS, and no new control strategy requirements apply.

Group III Areas

Most of the State of Wyoming has been classified as Group III for PM-10. On March 14, 1989, the State submitted a Group III SIP for these areas. The requirements for Group III SIPs and the State's response to these requirements are described below.

EPA Requirements for PM-10 Group III SIPs

The following SIP requirements apply to all PM-10 Group III areas, and are also applicable to Group II and Group I areas:

A. All SIPs should provide for the attainment and maintenance of the PM-10 standards, and PM-10 should be regulated as a criteria pollutant.

B. Since the SIP must protect both the PM-10 standard and the total suspended particulates (TSP) increment for PSD, it must trigger preconstruction review for a new or modified source which would emit significant (as defined at 40 part CFR 51.166(b)(23)) amounts of either TSP or PM-10.

C. The significant harm level for particulate matter was revised in 40 CFR 51.151 to 600 ug/m³ measured as PM-10, and the combined sulfur dioxide-particulate matter significant harm level was deleted. In addition, the example alert, warning, and emergency levels of particulate matter in Appendix L of Part 51 were also revised to reflect PM-10 concentrations. Therefore, State emergency episode plans must be revised to reflect these changes.

D. Revisions to 40 CFR part 58 set forth the requirements for design of national, state and local PM-10 air monitoring networks. The revised monitoring networks must be submitted for EPA approval. The required monitoring frequency varies with area grouping; Group I areas are required to monitor daily for at least one site in the area of expected maximum concentration, Group II areas are required to monitor every other day at such a site, and Group III areas are required to monitor every sixth day at such a site. Monitoring frequency in Group I and Group II areas can be reduced if the reduction is supported by at least one year of data.

Wyoming PM-10 Group III Submittal

The State has made revisions to section 2, Definitions, section 3, Ambient Particulate Standards, section 20, Air Pollution Emergency Episodes, section 21, Permit Requirements, and section 24, Prevention of Significant Deterioration of the Wyoming Air Quality Standards and Regulations (WAQSR) for PM-10 which satisfy the requirements of "A.", "B.", and "C.", above. In addition, the State submittal contains the following:

1. The State has adopted the "Wyoming Implementation Plan for PM-10 Ambient Air Quality Standards" which: (1) Outlines Group III requirements, (2) indicates standards and regulation revisions, (3) describes monitoring plans, (4) describes PM-10 monitoring activities in the Trona TSP nonattainment area (the Trona Industrial area was designated a nonattainment area for EPA's former TSP secondary 24-hour standard but was designated as a PM-10 Group III area by EPA), and (5) commits the resources necessary to implement the plan.

2. The State has adopted "The State of Wyoming State Implementation Plan on Air Quality Surveillance for Inhalable Particulate Matter (PM-10)" which describes, in detail, Wyoming's plan for adhering to EPA's requirements (found in 40 CFR part 58) for the monitoring of PM-10 particulate matter. The State-wide PM-10 monitoring network design and coverage have been reviewed, and were approved by EPA Region VIII's Environmental Services Division on

BEST COPY AVAILABLE

VOL 54 ISS 207 OCT 27 1989 UMI

March 30, 1989. This plan satisfies the requirements of "D." above.

3. The State administers a NSR program for all stationary sources and modifications, including PSD sources. By adopting ambient air quality standards for PM–10, the State has triggered the requirement for preconstruction review of all PSD sources of PM–10.

EPA believes that the existing EPA-approved SIP along with the revisions identified above and the commitment to correct deficiencies in the NSR and PSD regulation (discussed below) are adequate to demonstrate and maintain compliance with the PM–10 NAAQS. However, EPA will request that the State re-identify, in detail, any other plans and regulations that are being relied upon by the PM–10 SIP to ensure continued compliance with the PM–10 NAAQS.

Group II Areas

The Lander, Wyoming area has been classified as a Group II area for PM–10. On March 14, 1989, the State submitted a Committal SIP for this area. The requirements for Group II Committal SIPs and the State's response to these requirements are described below.

FPA Requirements for PM–10 Group II Committal SIPs

Committal SIPs for Group II areas must contain enforceable commitments to:

A. Gather ambient PM–10 data, at least to an extent consistent with minimum EPA requirements and guidance.

B. Analyze and verify the ambient PM–10 data and report 24-hour PM–10 NAAQS exceedances to the appropriate Regional Office within 45 days of each exceedance.

C. When an appropriate number of verifiable 24-hour NAAQS exceedances becomes available or when an annual arithmetic mean above the level of the annual PM–10 NAAQS becomes available, acknowledge that a nonattainment problem exists and immediately notify the appropriate Regional Office.

D. Within 30 days of the notification referred to in "C.", above, or within 37 months of promulgation of the PM–10 NAAQS, whichever comes first, determine whether the measures in the existing SIP will assure timely attainment and maintenance of the primary PM–10 standards, and immediately notify the appropriate Regional Office. The following factors should be considered in determining the adequacy of the existing SIP: (1) Air quality data, (2) emissions data, and (3) the present control strategy.

E. Within six months of the notification referred to in "D.", above, adopt and submit to EPA a PM–10 control strategy that assures attainment as expeditiously as practicable but no later than three years from approval of the Committal SIP.

Wyoming's PM–10 Group II Submittal for Lander

The State submittal addresses EPA's requirements by committing Wyoming to the following actions:

A. Gather ambient PM–10 data, at least to an extent consistent with minimum EPA requirements and guidance. The State began to monitor for PM–10 in January 1985, and has committed to continue monitoring in the Committal SIP. There are two PM–10 monitoring sites and one TSP monitoring site operating in Lander. One of the PM–10 monitors is operated on an every-other-day schedule while the other PM–10 monitor is operated every sixth day. The TSP site is operated on an every sixth day schedule. The Lander PM–10 monitoring network design and coverage have been reviewed, and were approved by the Region VIII Environmental Services Division on March 30, 1989.

B. Analyze and verify the ambient PM–10 data and report 24-hour PM–10 NAAQS exceedances to the appropriate Regional Office within 45 days of each exceedance.

C. When an appropriate number of verifiable 24-hour NAAQS exceedances becomes available or when an annual arithmetic mean above the level of the annual PM–10 NAAQS becomes available, acknowledge that a nonattainment problem exists and immediately notify the EPA Regional Office.

D. Within 30 days of the notification referred to in "C." above, or by September 1, 1990, whichever comes first, detemine whether the existing SIP will assure timely attainment and maintenance of PM–10 standards, and immediately notify the EPA Regional Office.

E. Within six months of the notification referred to in "D." above (if necessary), adopt and submit to EPA a PM–10 control strategy that assures timely attainment and maintenance within a period of three years from approval of this committal SIP.

EPA Required Revisions to the Wyoming NSR and PSD Regulations

On August 3, 1988, EPA provided Wyoming with comments, for the public record, on the State's proposed PM–10 SIP revisions. Included were comments concerning the State's NSR and PSD programs found in sections 21 and 24 of the WAQSR. EPA had reviewed the Wyoming NSR and PSD programs in their entirety in order to ensure that the program would adequately protect the PM–10 NAAQS.

The State subsequently submitted to EPA the March 14, 1989, SIP submittal which adequately addressed and incorporated many of EPA's August 3, 1988, comments. However, numerous comments concerning the State's PSD regulations were not addressed in the subject SIP submittal.

On June 20, 1989, EPA informed Wyoming that the State must begin to rectify the PSD deficiencies noted in sections 21 and 24 in order for EPA to fully approve the PM–10 SIP revision. As a minimum, EPA sought a commitment from the State that revisions would be made to these sections which adequately address EPA's concerns. If a commitment were not provided by the State, EPA could not proceed to approve that portion of the PM–10 SIP revision pertaining to PSD. If necessary, EPA would call for a SIP revision, requiring the State to revise sections 21 and 24 to make them consistent with the federal PSD requirements of 40 CFR part 51.

Wyoming responded to EPA on July 27, 1989, stating that the State would commit to revising the PSD regulations in conformance with EPA's comments, with the exception of a few provisions. (The State estimated that it would take approximately nine months for the State to revise the PSD regulations and submit the changes to EPA as a SIP revision.) The State and EPA proceeded to rectify the differences in opinion as to which provisions in sections 21 and 24 must be revised, and on September 20, 1989, Wyoming provided EPA with a commitment to begin the process of revising sections 21 and 24.

Proposed action

EPA is proposing to approve the PM–10 SIP for the Wyoming Group III areas and the PM–10 Committal SIP for the Lander, Wyoming Group II area because these SIPs meet the appropriate EPA requirements. EPA's proposed approval of these SIPs is also based on Wyoming's commitment to adequately address deficiencies in the State's NSR and PSD regulations so that attainment and maintenance of the PM–10 NAAQS can be assured.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to any state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Under 5 U.S.C. 605(b), I certify that this SIP revision will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of Section 3 of Executive Order 12291 for a period of two years.

Designation of Areas for Air Quality Planning Purposes; Oklahoma; Tulsa County Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of public comment deadline.

SUMMARY: On September 7, 1989, at 54 FR 37132, EPA solicited public comment on its proposal to disapprove a request from the Oklahoma State Department of Health (OSDH) to revise the attainment status designation for Tulsa County from nonattainment to attainment for the Ozone National Ambient Air Quality Standard (NAAQS). At the request of the OSDH, McDonnell Douglas-Tulsa, and American Airlines, EPA is extending the deadline from October 10, 1989, to December 11, 1989, for receiving written comments on the Agency's proposed disapproval of the request. The above parties have requested the extension to allow sufficient time to prepare written comments. Interested parties are invited to submit written comments on all aspects of that proposal.

DATE: Written comments must be received on or before December 11, 1989.

ADDRESS: Written comments should be addressed to Mr. Thomas H. Diggs, Air Programs Branch (6T–AN), EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733.

FOR FURTHER INFORMATION CONTACT: Gregg Guthrie, Air Programs Branch, Telephone (214) 655–7214 or (FTS) 255–7214.

Dated: October 16, 1989.

Joe D. Winkle,

Deputy Regional Administrator (6).

[SW-FRL-3675-3]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Exclusion

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule and request for comment.

SUMMARY: The Environmental Protection Agency (EPA or Agency) today is proposing to grant a petition submitted by Philway Products, Incorporated, Ashland, Ohio, to exclude certain solid wastes generated at its facility from the lists of hazardous wastes contained in 40 CFR 261.31 and § 261.32. This action responds to a delisting petition submitted under 40 CFR 260.20, which allows any person to petition the Administrator to modify or revoke any provision of parts 260 through 265, 124, 270, and 271 of title 40 of the Code of Federal Regulations, and under 40 CFR 260.22, which specifically provides generators the opportunity to petition the Administrator to exclude a waste on a "generator-specific" basis from the hazardous waste lists. Today's proposed decision is based on an evaluation of waste-specific information provided by the petitioner.

The Agency is also proposing the use of a fate and transport model and its application in evaluating the waste-specific information provided by the petitioner. This model has been used in evaluating the petition to predict the concentration of hazardous constituents released from the petitioned waste, once it is disposed of.

DATES: EPA is requesting public comments on today's proposed decision and on the applicability of the fate and transport model used to evaluate the petition. Comments will be accepted until December 11, 1989. Comments postmarked after the close of the comment period will be stamped "late".

Any person may request a hearing on this proposed decision and/or the model used in the petition evaluation by filing a request with Joseph Carra, whose address appears below, by November 13, 1989. The request must contain the information prescribed in 40 CFR 260.20(d).

ADDRESSES: Send three copies of your comments to EPA. Two copies should be sent to the Docket Clerk, Office of Solid Waste (OS–305), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. A third copy should be sent to Jim Kent, Variances Section, Assistance Branch, PSPD/OSW (OS–343), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Identify your comments at the top with this regulatory docket number: "F–89–PHEP–FFFFF".

Requests for a hearing should be addressed to Joseph Carra, Director, Permits and State Programs Division, Office of Solid Waste (OS–340), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

The RCRA regulatory docket for this proposed rule is located at the U.S. Environmental Protection Agency, 401 M Street SW. (Room M2427), Washington, DC 20460, and is available for viewing from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding Federal holidays. Call (202) 475–9327 for appointments. The public may copy material from any regulatory docket at a cost of $0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline, toll free at (800) 424–9346, or at (202) 382–3000. For technical information concerning this notice, contact Chichang Chen, Office of Solid Waste (OS–343), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460, (202) 382–4671.

SUPPLEMENTARY INFORMATION:

I. Background

A. Authority

On January 16, 1981, as part of its final and interim final regulations implementing section 3001 of RCRA, EPA published an amended list of hazardous wastes from non-specific and specific sources. This list has been amended several times, and is published in 40 CFR 261.31 and 261.32. These wastes are listed as hazardous because they typically and frequently exhibit one or more of the characteristics of hazardous wastes identified in subpart C of part 261 (i.e., ignitability, corrosivity, reactivity, and extraction procedure (EP) toxicity) or meet the criteria for listing contained in 40 CFR 261.11(a)(2) or (a)(3).

VOL 54 ISS 207 OCT 27 1989 UMI

Individual waste streams may vary, however, depending on raw materials, industrial processes, and other factors. Thus, while a waste that is described in these regulations generally is hazardous, a specific waste from an individual facility meeting the listing description may not be. For this reason, 40 CFR 260.20 and 260.22 provide an exclusion procedure, allowing persons to demonstrate that a specific waste from a particular generating facility should not be regulated as a hazardous waste.

To have their wastes excluded, petitioners must show that wastes generated at their facilities do not meet any of the criteria for which the wastes were listed. See 40 CFR 260.22(a) and the background documents for the listed wastes. In addition, the Hazardous and Solid Waste Amendments (HSWA) of 1984 require the Agency to consider any factors (including additional constituents) other than those for which the waste was listed, if there is a reasonable basis to believe that such additional factors could cause the waste to be hazardous. Accordingly, a petitioner also must demonstrate that the waste does not exhibit any of the hazardous waste characteristics (*i.e.*, ignitability, reactivity, corrosivity, and EP toxicity), and must present sufficient information for the Agency to determine whether the waste contains any other toxicants at hazardous levels. See 40 CFR 260.22(a), 42 U.S.C. 6921(f), and the background documents for the listed wastes. Although wastes which are "delisted" (*i.e.*, excluded) have been evaluated to determine whether or not they exhibit any of the characteristics of hazardous waste, generators remain obligated under RCRA to determine whether or not their waste remains non-hazardous based on the hazardous waste characteristics.

In addition to wastes listed as hazardous in 40 CFR 261.31 and 261.32, residues from the treatment, storage, or disposal of listed hazardous wastes and mixtures containing hazardous wastes are also considered hazardous wastes. Such wastes are also eligible for exclusion and remain hazardous wastes until excluded. See 40 CFR 261.3(c) and (d)(2). The substantive standards for "delisting" a treatment residue or a mixture are the same as previously described for listed wastes.

B. Approach Used to Evaluate This Petition

This petition requests a delisting for a listed hazardous waste. In making the initial delisting determination, the Agency evaluated the petitioned waste against the listing criteria and factors cited in 40 CFR 261.11 (a)(2) and (a)(3). Based on this review, the Agency agreed with the petitioner that the waste is non-hazardous with respect to the original listing criteria. (If the Agency found, based on this review, that the waste remains hazardous based on the factors for which the waste was originally listed, EPA would have proposed to deny the petition.) EPA then evaluated the waste with respect to other factors or criteria to assess whether there is a reasonable basis to believe that such additional factors could cause the waste to be hazardous. The Agency considered whether the waste is acutely toxic, and considered the toxicity of the constituents, the concentration of the constituents in the waste, their tendency to migrate and to bioaccumulate, their persistence in the environment once released from the waste, plausible and specific types of management of the petitioned waste, the quantities of waste generated, and any other additional factors which may characterize the petitioned waste.

For this delisting determination, the Agency used this information to identify plausible exposure routes for hazardous constituents present in the waste, and is proposing to use a particular fate and transport model to predict the concentration of hazardous constituents that may be released from the petitioned waste after disposal and to determine the potential impact of the unregulated disposal of Philway's petitioned waste on human health and the environment. Specifically, the model was used to predict compliance-point concentrations which will be compared directly to the levels of regulatory concern for particular hazardous constituents.

EPA believes that this fate and transport model represents a reasonable worst-case waste disposal scenario for the petitioned waste, and that a reasonable worst-case scenario is appropriate when evaluating whether a waste should be relieved of the protective management constraints of RCRA subtitle C. Because a delisted waste is no longer subject to hazardous waste control, the Agency is generally unable to predict and does not control how a waste will be managed after delisting. Therefore, EPA currently believes that it is inappropriate to consider extensive site-specific factors. For example, a generator may petition the Agency for delisting of a metal hydroxide sludge which is currently being managed in an on-site landfill and provide data on the nearest drinking water well, permeability of the aquifer, dispersivities, etc. If the Agency were to base its evaluation solely on these site-specific factors, the Agency might conclude that the waste, at that specific location, cannot affect the closest well, and the Agency might grant the petition. Upon promulgation of the exclusion, however, the generator is under no obligation to continue to manage the waste at the on-site landfill. In fact, it is likely that the generator will either choose to send the delisted waste off site immediately, or will eventually reach the capacity of the on-site facility and subsequently send the waste off site to a facility which may have very different hydrogeological and exposure conditions.

The Agency also considers the applicability of ground-water monitoring data during the evaluation of delisting petitions. In this case, the Agency determined that it would be inappropriate to request ground-water monitoring data because Philway sends the petitioned waste off site for disposal. For petitioners using off-site management, the Agency believes that, in most cases, the ground-water monitoring data collected would not be meaningful. Most commercial land disposal facilities accept wastes from numerous generators. Any ground-water contamination or leachate would be characteristic of the total volume of waste disposed of at the site. In most cases, the Agency believes that it would be impossible to isolate ground-water impacts associated with any one waste disposed of in a commercial landfill. Therefore, the Agency did not request ground-water monitoring data.

Finally, the Hazardous and Solid Waste Amendments of 1984 specifically require the Agency to provide notice and an opportunity for comment before granting or denying a final exclusion. Thus, a final decision will not be made until all public comments (including those at requested hearings, if any) on today's proposal are addressed.

II. Disposition of Delisting Petition

A. Philway Products, Incorporated, Ashland, Ohio

1. Petition for Exclusion

Philway Products, Incorporated (Philway) located in Ashland, Ohio manufactures printed circuit (PC) boards. Philway petitioned the Agency to exclude its filter press sludge, presently listed as EPA Hazardous Waste No. F006—"Wastewater treatment sludges from electroplating operations except from the following processes: (1) Sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5)

cleaning/stripping associated with tin, zinc, and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum". The listed constituents for EPA Hazardous Waste No. F006 are cadmium, hexavalent chromium, nickel, and complexed cyanide (see 40 CFR part 261, appendix VII).

Philway petitioned to exclude its waste because it does not believe that the waste meets the criteria of the listing. Philway also believes that the waste does not contain appreciable amounts of the listed constituents. Philway further asserts that no other constituents are present or, if present, are in essentially immobile forms. Philway further believes that the waste is not hazardous for any other reason (*i.e.*, there are no additional hazardous constituents or factors that could cause the waste to be hazardous). Review of this petition included consideration of the original listing criteria, as well as the additional factors required by the Hazardous and Solid Waste Amendments of 1984. See section 222 of the Amendments, 42 U.S.C. 6921(f), and 40 CFR 260.22(d) (2)–(4). Today's proposal to grant this petition for delisting is the result of the Agency's evaluation of Philway's petition.

2. Background

Philway petitioned the Agency to exclude its filter press sludge on November 12, 1985 and subsequently provided additional information to complete its petition. In support of its petition, Philway submitted (1) a detailed description of the manufacturing and treatment processes used in the fabrication of printed circuit boards; (2) a list of raw materials and material safety data sheets (MSDSs) for tradename materials used in its manufacturing and treatment processes; (3) results from total constituent and EP leachate analyses for the EP toxic metals and nickel on representative samples of the waste; (4) results from total constituent analyses for cyanide on representative samples of the waste; (5) results from total constituent analyses for acetone, acrylamide, formaldehyde, methylene chloride, thiourea, toluene, 1,1,1-trichloroethane, trichloroethylene, and xylene on representative samples of the waste; (6) results from total oil and grease analyses; and (7) test data and explanations regarding the characteristics of ignitability, corrosivity, and reactivity.

Philway manufactures PC boards. Philway's manufacturing procedure includes a number of electroplating and related process steps. Initially, the unilayer PC boards are sheared to proper size, sanded, and deburred. The boards then sequentially undergo electroless copper plating, dry film application, copper and tin/lead plating, photo resist strip application, copper etching, tin/lead fusing, tin/lead strip application, and nickel and gold plating. The boards are degreased and cleaned in the last step. For multilayer circuit boards, an additional oxide treatment sequence follows the shearing step in the manufacturing schematic. All except four process baths and rinses from these steps are discharged to the wastewater treatment system on a routine basis; minor bath dumps occur daily and major bath dumps occur every 7 days. The remaining four process baths (*i.e.*, baths utilizing Dynachem Electroless Copper 835, Dynachem Alkastrip SQ, Electrochemical 808A, and Electrochemical 808B) are treated prior to discharge to the wastewater treatment system. Solids generated from the treatment of these four baths are disposed of in an off-site solid waste landfill.

The water rinses and spent process fluids resulting from the manufacturing processes flow into two polypropylene-lined, concrete holding containers, referred to as pit 1 and pit 2. Wastewaters from these pits are combined in a 2,500 gallon neutralization tank and maintained at a pH between 8.2 and 9.0 using lime, sodium hydroxide, and ferric chloride. Metal hydroxides are formed during this neutralization stage.

From the neutralization tank, the wastewater flows into a clarifier where a polymer and flocculant are added to aid in precipitating the metal hydroxides. Sludge from the clarifier is pumped to a holding tank; the clarifier supernatant is dispensed to a publicly-owned treatment works (POTW). Twice a day the sludge is pumped from the holding tank to a filter press for dewatering. This generates a filter press sludge that is temporarily stored in a 12 cubic yard hopper prior to off-site disposal in a hazardous waste landfill. The wastewater treatment filter press sludge is the subject of today's proposed exclusion.

To collect representative samples from filter presses like Philway's, petitioners are normally requested to collect a minimum of four composite samples composed of independent grab samples collected over time (*e.g.*, grab samples collected every hour and composited by shift). See "Test Methods for Evaluating Solid Wastes: Physical/Chemical Methods," U.S. EPA, Office of Solid Waste and Emergency Response, Publication SW–846 (third edition), November 1986, and "Petitions to Delist Hazardous Wastes—A Guidance Manual," U.S. EPA, Office of Solid Waste, (EPA/530–SW–85–003), April 1985.

Philway presented analytical data on 17 samples collected from the filter press over four sampling events: September 1985, September 1986, June 1987, and August/September 1988. The samples collected during the September 1985 and 1986 sampling events were collected on four separate days during two separate seven-day periods. The samples collected during the June 1987 and August/September 1988 sampling events were collected on four separate days during an 18-day and a 22-day period, respectively. Each of the daily samples were composites composed of surface grabs from three sections of the filter press. Philway claims that the sampling events were designed such that samples collected represent filter press sludge generated during times when both minor and major bath dumps were impacting the wastewater treatment system (*i.e.*, pits 1 and 2 and subsequent treatment steps). Philway also claims that all samples collected are representative of any variation of the listed and non-listed constituent concentrations in the waste. Philway further claims that the manufacturing processes used at the facility are operated in a consistent manner and that the use of raw materials does not vary significantly over time.

The four 1985 filter press sludge samples were analyzed for total constituent concentrations (*i.e.*, mass of a particular constituent per mass of waste) of arsenic, cadmium, chromium, lead, mercury, nickel, selenium, and cyanide. In addition, these four samples were analyzed for the extraction procedure (EP) leachate concentrations (*i.e.*, mass of particular constituent per unit volume of extract) of the EP toxic metals and nickel; total oil and grease; and pH.

The four 1986 filter press sludge samples were analyzed for total concentrations of barium and silver; whereas, the five 1987 samples were analyzed for total concentrations of acrylamide, formaldehyde, and thiourea. The four 1988 filter press sludge samples were analyzed for total constituent concentrations of acetone, methylene chloride, toluene, 1,1,1-trichloroethane, trichloroethylene, and xylene.

3. Agency Analysis

Philway used EPA Publication SW–846 Methods 7061, 7080, 7130, 7190, 7420, 7471, 7520, 7741, and 7760, respectively, to quantify the total constituent

VOL 54 ISS 207 OCT 27 1989 UMI

concentrations of arsenic, barium, cadmium, total chromium, lead, mercury, nickel, selenium, and silver. Philway used "Standard Methods for the Examination of Water and Wastewater" ("Standard Methods") Method 412D to quantify the total constituent concentration of total cyanide. SW–846 Method 1310 was used to determine the leachable concentrations of the EP toxic metals and nickel. "Standard Methods" Method 423 was used to obtain pH values of the filter sludge samples.

Philway utilized SW–846 Methods 8010 and 8015 to quantify total levels of acetone, methylene chloride, toluene, 1,1,1-trichloroethane, trichloroethylene, and xylene. Philway used SW–846 Method 8630 to quantify total acrylamide and formaldehyde levels. For total thiourea concentrations, SW–846 Method 8330 was employed.

Total constituent and EP leachate analyses for the EP toxic metals, nickel, and cyanide in the filter press sludge revealed the maximum concentrations reported in Table 1. The maximum total constituent concentrations for the hazardous organic compounds potentially (or suspected to be) present in the petitioned waste are presented in Table 2.

TABLE 1.—MAXIMUM TOTAL CONSTITUENT AND EP LEACHATE CONCENTRATIONS (PPM) FILTER PRESS SLUDGE

Constituents	Total constituent concentrations	EP Leachate concentrations
Arsenic	0.05	<0.01
Barium	105	0.72
Cadmium	0.24	0.03
Chromium	36.8	0.04
Lead	3,200	0.20
Mercury	<1	<0.002
Nickel	240	0.15
Selenium	<2	<0.01
Silver	4.9	0.01
Cyanide	4.44	[1]0.22

<: Denotes that the constituent was not detected at the detection limit specified in the table.
[1] Calculated by assuming a dilution factor of twenty times (based on 100 grams of sample and dilution with 2 liters of water) and a theoretical worst-case leaching of 100 percent.

TABLE 2.—MAXIMUM TOTAL CONSTITUENT CONCENTRATIONS OF HAZARDOUS ORGANICS (PPM) FILTER PRESS SLUDGE

Constituents	Total constituent concentrations
Acetone	<0.1
Acrylamide	<1.0
Formaldehyde	<1.0
Methylene chloride	<0.1
Thiourea	<1.0
Toluene	<0.1
1,1,1-Trichloroethane	<0.1
Trichloroethylene	<0.1
Xylene	<0.1

<: Denotes that the constituent was not detected at the detection limit specified in the table.

The detection limits in Tables l and 2 represent the lowest concentrations quantifiable by Philway, when using the appropriate analytical methods to analyze the petitioned waste. (Detection limits may vary according to the waste and waste matrix being analyzed, i.e., the "cleanliness" of waste matrices varies and "dirty" waste matrices may cause interferences, thus raising the detection limits.)

Using SW–846 Method 9070, Philway determined that its waste had a maximum oil and grease content of 0.096 percent; therefore, the EP analysis did not have to be modified in accordance with the Oily Waste EP methodology (i.e., wastes having more than one percent total oil and grease may either have significant concentrations of constituents of concern in the oil phase, which may not be assessed using the standard EP leachate procedure, or the concentration of oil and grease may be sufficient to coat the solid phase of the sample and interfere with the leaching of metals from the sample).

While the Agency requires petitioners to quantify concentrations of the EP toxic metals, nickel, and cyanide in the petitioned waste using analytical procedures, the Agency allows facilities to demonstrate that other hazardous constituents (*e.g.*, those listed in 40 CFR part 261, appendix VIII) are not present in the petitioned waste at hazardous levels through a variety of mechanisms. Philway made its demonstration regarding the presence of other hazardous constituents by reviewing the Material Safety Data Sheets (MSDSs) for all of the raw materials used in their process which could enter the petitioned waste. In addition, Philway contacted the material suppliers to determine whether any appendix VIII constituents are present in the raw materials but not identified on the MSDSs. Through this review of their processes and in conjunction with guidance from the Agency, Philway identified nine hazardous organic constituents that are potentially present in the petitioned waste. Philway subsequently provided analytical data for these nine hazardous organic constituents (see Table 2).

Philway provided test data indicating that the petitioned waste is not corrosive. The waste also was determined not to be ignitable or reactive. Philway substantiated its determination that the petitioned waste is not ignitable or reactive by explaining that the waste is composed of lime, metal hydroxides, and water. Furthermore, information presented in the petition indicates that sulfides are not used in the manufacturing or treatment processes generating the petitioned filter press sludge. See 40 CFR 261.21, 261.22, and 261.33.

Philway submitted a signed certification stating that, based on current annual waste generation, their maximum annual generation rate of filter press sludge is 96 cubic yards. The Agency reviews a petitioner's estimates and, on occasion, has requested a petitioner to re-evaluate estimated waste volume. EPA accepts Philway's certified estimate of 96 cubic yards of filter press sludge.

The Agency conducts a spot-check sampling and analysis program to verify the representative nature of the data for some percentage of the submitted petitions. As part of this program, the Agency conducted a spot-check sampling visit to Philway. The results of this visit are discussed later in this notice.

4. Agency Evaluation

The Agency considered the appropriateness of alternative disposal scenarios for filter press sludges and decided that disposal in a landfill is the most reasonable, worst-case scenario for this waste. Under a landfill disposal scenario, the major exposure route of concern for any hazardous constituents would be ingestion of contaminated ground water. The Agency, therefore, evaluated the petitioned waste using its vertical and horizontal spread (VHS) landfill model which predicts the potential for ground-water contamination from wastes that are landfilled. See 50 FR 7882 (February 26, 1985), 50 FR 48896 (November 27, 1985), and the RCRA public docket for these notices for a detailed description of the VHS model and its parameters. This modeling approach, which includes a ground-water transport scenario, was used with conservative, generic parameters to predict reasonable worst-case contaminant levels in ground water at a hypothetical receptor well or compliance point (*i.e.*, the model estimates the dilution of a toxicant within the aquifer for a specific volume of waste). The Agency requests comments on the use of the VHS model as applied to the evaluation of Philway's waste.

Specifically, the Agency used the VHS model to evaluate the mobility of the hazardous inorganic constituents detected in the EP extract of Philway's filter press sludge. The Agency's evaluation, using Philway's estimate of 96 cubic yards per year and the maximum reported EP leachate concentrations, generated the compliance-point concentrations shown in Table 3. The Agency did not evaluate the mobility of the remaining inorganic constituents (*i.e.*, arsenic, mercury, and selenium) from Philway's waste because they were not detected in the EP extract using the appropriate SW–846 analytical test methods (see Table 1). The Agency believes that it is inappropriate to evaluate non-detectable concentrations of a constituent of concern in its modeling efforts if the non-detectable value was obtained using the appropriate analytical method. Specifically, if a constituent cannot be detected (when using the appropriate analytical method), the Agency assumes that the constituent is not present and therefore does not present a threat to either human health or the environment.

TABLE 3.—VHS MODEL COMPLIANCE-POINT CONCENTRATIONS (PPM) FILTER PRESS SLUDGE

Constituents	Compliance-point concentrations	Levels of regulatory concern[1]
Barium	0.022	1.0
Cadmium	.0009	0.01
Chromium	.0012	.05
Lead	.0062	.05
Nickel	.0046	.7
Silver	.0003	.05
Cyanide	.0069	.7

[1] See "Docket Report on Health-based Regulatory Levels and Solubilities Used in the Evaluation of Delisting Petitions," June 6, 1988, located in the RCRA public docket.

As seen in Table 3, the petitioned waste exhibited barium, cadmium, chromium, lead, nickel, silver, and cyanide levels at the compliance-point below the health-based levels used in delisting decision-making. As reported in Table 1, the maximum concentration of total cyanide in Philway's waste is 4.44 ppm. Because reactive cyanide is a specific subcategory of the general class of cyanide compounds, the Agency believes that the maximum level of reactive cyanide in the petitioned waste also will not exceed 4.4 ppm. Thus, the Agency concludes that the concentration of reactive cyanide will be below the Agency's interim standard of 250 ppm. See "Interim Agency Thresholds for Toxic Gas Generation," July 12, 1985, Internal Agency Memorandum in the RCRA public docket.

The Agency did not evaluate the mobility of the hazardous organic constituents listed in Table 2 because they were not detected in samples analyzed using appropriate analytical test methods. As discussed above in conjunction with Table 3, the Agency believes that it is inappropriate to evaluate non-detectable concentrations of a constituent of concern in its modeling efforts if the non-detectable value was obtained using the appropriate analytical method. Specifically, if a constituent cannot be detected (when using the appropriate analytical method), the Agency assumes that the constituent is not present and therefore does not present a threat to either human health or the environment.

The Agency concluded, after reviewing Philway's processes and raw materials list, that no other hazardous constituents of concern other than those tested for are being used by Philway, and that no other constituents of concern are likely to be present or formed as reaction products or by-products in Philway's waste. On the basis of test results and information submitted by the petitioner, pursuant to 40 CFR 260.22, the Agency concludes that the filter press sludge does not exhibit any of the characteristics of ignitability, corrosivity, or reactivity. See 40 CFR 261.21, 261.22, and 261.23, respectively.

On March 9, 1987, staff under contract to the Agency conducted a site visit to Philway as part of the Agency's spot-check sampling and analysis program. On October 14, 1987, Philway notified the Agency that their chemist had instituted a process change without direction or approval from the management personnel in charge of Philway's delisting efforts. (The process change entailed the substitution of caustic soda for lime as a neutralizing agent and precipitant. The filter press sludge generated using caustic soda proved to be two-thirds lower in volume than the lime-treated waste.) Philway has since resumed the use of lime during wastewater treatment because it did not wish to modify its process. Philway further noted in the October 14, 1987 letter that the samples collected during the Agency's spot-check visit were samples of the caustic-treated waste. Thus, because neither Philway management nor EPA personnel were aware of the change at the time of the spot-check visit, the Agency chose to invalidate the spot-check data and the results of the Agency's site visit were not used in the evaluation of Philway's waste. The Agency believes that Philway's management was unaware of the process change until its discovery and that Philway has taken sufficient action to return the process operations to those described in the petition. As such, the Agency believes that Philway acted in good faith even though the spot-check data had to be disregarded. To ensure there is no misunderstanding however, the proposed exclusion has been written to specify that the delisting refers only to the lime treated wastewaters. (See the RCRA public docket for today's notice for a copy of the Agency's draft report on the spot-check visit.)

5. Conclusion

The Agency believes that Philway has successfully demonstrated that its filter press sludge is not hazardous. Philway's manufacturing and waste treatment processes are believed to be consistent because the facility does not perform as a job shop or have seasonal product variations. Furthermore, the Agency believes that the samples collected by Philway over three years adequately reflect the temporal variations in manufacturing and treatment processes intended to be used thereafter. The Agency, therefore, is proposing that Philway's waste be considered non-hazardous, as it should not present a hazard to either human health or the environment. The Agency proposes to grant an exclusion to Philway Products, Incorporated, located in Ashland, Ohio, for its wastewater treatment filter press sludge described in its petition as EPA Hazardous Waste No. F006. If the proposed rule becomes effective, the filter press sludge would no longer be subject to regulation under 40 CFR Parts 262 through 268 and the permitting standards of 40 CFR Part 270.

If made final, the exclusion will apply only to the processes and waste volume covered by the original demonstration. The exclusion is only valid for lime treated waste and does not cover any wastes produced by the substitution of caustic soda for lime as a neutralizing agent and precipitant. The facility would require a new exclusion if either its manufacturing or treatment processes are significantly altered such that an adverse change in waste composition or increase in waste volume occurred. The facility would need to file a new petition

VOL 54 ISS 207 OC 27 1989 UMI

for the altered waste. The facility must treat waste generated from changed processes as hazardous until a new exclusion is granted.

Although management of the waste covered by this petition would be relieved from Subtitle C jurisdiction upon final promulgation of an exclusion, the generator of a delisted waste must either treat, store, or dispose of the waste in an on-site facility, or ensure that the waste is delivered to an off-site storage, treatment, or disposal facility, either of which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste. Alternatively, the delisted waste may be delivered to a facility that beneficially uses or reuses, or legitimately recycles or reclaims the waste, or treats the waste prior to such beneficial use, reuse, recycling, or reclamation.

III. Effective Date

This rule, if finally promulgated, will become effective immediately upon such final promulgation. The Hazardous and Solid Waste Amendments of 1984 amended section 3010 of RCRA to allow rules to become effective in less than six months when the regulated community does not need the six-month period to come into compliance. That is the case here, because this rule, if finalized, would reduce the existing requirements for persons generating hazardous wastes. In light of the unnecessary hardship and expense that would be imposed on this petitioner by an effective date six months after promulgation and the fact that a six-month deadline is not necessary to achieve the purpose of Section 3010, EPA believes that this exclusion should be effective immediately upon final promulgation. These reasons also provide a basis for making this rule effective immediately, upon promulgation, under the Administrative Procedure Act, pursuant to 5 U.S.C. 553(d).

IV. Regulatory Impact

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This proposal to grant an exclusion is not major, since its effect, if promulgated, would be to reduce the overall costs and economic impact of EPA's hazardous waste management regulations. This reduction would be achieved by excluding waste generated at a specific facility from EPA's lists of hazardous wastes, thereby enabling this facility to treat its waste as non-hazardous. There is no additional impact, therefore, due to today's rule. This proposal is not a major regulation, therefore, no Regulatory Impact Analysis is required.

V. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 USC §§ 601–612, whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (*i.e.*, small businesses, small organizations, and small governmental jurisdictions). The Administrator or delegated representative may certify, however, that the rule will not have a significant economic impact on a substantial number of small entities.

This amendment, if promulgated, will not have an adverse economic impact on small entities since its effect would be to reduce the overall costs of EPA's hazardous waste regulations and would be limited to one facility. Accordingly, I hereby certify that this proposed regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. This regulation, therefore, does not require a regulatory flexibility analysis.

VI. Paperwork Reduction Act

Information collection and recordkeeping requirements associated with this proposed rule have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (P.L. 96–511, 44 USC § 3501 *et. seq.*) and have been assigned OMB Control Number 2050–0053.

List of Subjects in 40 CFR Part 261

Hazardous materials, Waste treatment and disposal, Recycling.

Dated: October 6, 1989.

Jeffery D. Denit,

Deputy Director, Office of Solid Waste.

For the reasons set out in the preamble, 40 CFR part 261 is proposed to be amended as follows:

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

1. The authority citation for part 261 continues to read as follows:

Authority: Secs. 1006, 2002(a), 3001, and 3002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6905, 6912(a), 6921, and 6922).

2. In Table 1 of Appendix IX, add the following wastestream in alphabetical order:

Appendix IX—Wastes Excluded Under §§ 260.20 and 260.22.

TABLE 1.—WASTES EXCLUDED FROM NON-SPECIFIC SOURCES

Facility	Address	Waste description
•	•	•
Philway Products, Incorporated.	Ashland, Ohio.	Filter press sludge generated (at a maximum annual rate of 96 cubic yards) during the treatment of electroplating wastewaters using lime (EPA Hazardous Waste No. F006). This exclusion was published on [insert date of final rule's publication in the Federal Register.]

BILLING CODE 6560–50–M

FEDERAL MARITIME COMMISSION

46 CFR Parts 580 and 581

[Docket No. 89–20]

Definition of Shipper and Availability of Mixed Commodity Rates

AGENCY: Federal Maritime Commission.

ACTION: Availability of finding of no significant impact.

SUMMARY: The Commission has completed an environmental assessment of a proposed rule in Docket No. 89–20 and found that its resolution of this proceeding will not have a significant impact on the quality of the human environment.

DATE: Petitions for review are due November 6, 1989.

ADDRESS: Petitions for review (Original and 15 copies) to: Joseph C. Polking, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573–0001.

FOR FURTHER INFORMATION CONTACT: Edward R. Meyer, Office of Special Studies, 1100 L Street, NW., Washington, DC 20573–0001.

SUPPLEMENTARY INFORMATION: Upon completion of an environmental assessment, the Federal Maritime Commission's Office of Special Studies has determined that Docket No. 89–20 will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq., and that preparation of an environmental impact statement is not required.

In Docket No. 89–20, 54 FR 40891 (October 4, 1989), the Commission proposes to amend its tariff and service contract rules in 46 CFR parts 580 and 581 to: (1) Amend the definition of "shipper" to clarify the scope of the term, and (2) require that mixed commodity rates be made available only to a "shipper," as proposed, and to "shippers' associations" as presently defined in the Commission rules. A shipper using a mixed commodity rate would be required to furnish the ocean common carrier a listing of commodities. If the shipper is a non-vessel-operating common carrier ("NVOCC"), it would also have to indicate its FMC tariff number on the ocean carrier's bill of lading and on any service contracts to which it is a party. The proposed rule is intended to preclude untariffed NVOCC operations and to otherwise ensure that persons acting as shippers pursuant to the 1984 Act qualify to do so.

This Finding of No Significant Impact ("FONSI") will become final within 10 days of publication of this notice in the **Federal Register** unless a petition for review is filed pursuant to 46 CFR 504.6 (b).

The FONSI and related environmental assessment are available for inspection on request from the Office of the Secretary, room 11101, Federal Maritime Commission, Washington, DC 20573–0001, telephone (202) 523–5725.

By the Commission.

Joseph C. Polking,

Secretary.

BILLING CODE 6730–01–M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 23

[OST Docket No. 64; Notice 89–21]

RIN Number 2105–AA03

Minority Business Enterprise Program

AGENCY: Office of the Secretary, Department of Transportation.

ACTION: Notice of proposed rulemaking; withdrawal.

SUMMARY: This notice withdraws a regulatory proposal concerning direct Department of Transportation (DOT) contracting in regard to programs for minority business enterprises (MBEs). The rulemaking proposal has become unnecessary in view of other programs to assist small and disadvantaged firms in Federal procurement.

EFFECTIVE DATE: October 27, 1989.

FOR FURTHER INFORMATION CONTACT: Robert C. Ashby, Office of the General Counsel, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590, (202) 366–9306.

SUPPLEMENTARY INFORMATION: On May 17, 1979, the Office of the Secretary of the Department of Trasnportation (DOT) published a Notice of Proposed Rulemaking (44 FR 28928) proposing to establish a uniform Departmental program for participation by firms owned and controlled by minorities and women (MBEs) in contracts and programs funded by the Department. The proposal would have applied to any direct or DOT-assisted contract or program where funds are made available for accomplishing the mission of DOT. "Direct contract" meant a contract or any modification thereof between the Department and a contractor or lessee.

The final rule resulting from this proposal (49 CFR part 23) covers only financial assistance programs. When the final rule became effective in 1980, the Department contemplated the addition of a direct contracts subpart (subpart B) to the rule at a later date. This subpart was to implement amendments to the Small Business Act, as amended (Pub. L. 95–507). This subpart was not implemented and this final rule does not address direct DOT procurement activities.

The Department has decided that an MBE program based on the 1979 proposal for direct contracting is not necessary in view of the developments in the small and disadvantaged business programs during the interim period. Some examples of DOT programs that help minority-owned, women-owned and disadvantaged enterprises are the Short Term Lending Program, the Bonding Assistance Program, the Women-Owned Business Enterprise Program, and the Public Information Program. These are in addition to provisions in Federal government and DOT procurement rules and procedures that carry out small and disadvantaged business subcontracting plan requirements of Public Law 95–507.

For these reasons, those portions of the 1979 proposal relating to direct contracts are withdrawn.

Issued this 17th day of October 1989, at Washington, DC.

Samuel K. Skinner,

Secretary.

[FR Doc. 89–25322 Filed 10–26–89; 8:45 am]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018–AB36

Endangered and Threatened Wildlife and Plants; Proposed Threatened Status for the Inflated Heelsplitter, Potamilus inflatus

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Service proposes the inflated heelsplitter mussel, *Potamilus inflatus*, to be a threatened species under the authority of the Endangered Species Act of 1973, as amended (Act). This freshwater mussel is currently known from only the Amite River, Louisiana, and the Tombigbee and Black Warrior Rivers, Alabama. Habitat modification by gravel dredging and for flood control and navigation represent major threats to this species. This proposal, if made final, would implement the protection of the Act for the inflated heelsplitter. The Service seeks relevant data and comments from the public.

DATES: Comments from all interested parties must be received by December 26, 1989. Public hearing requests must be received by December 11, 1989.

ADDRESSES: Comments and materials concerning this proposal should be sent to Complex Field Supervisor, U.S. Fish and Wildlife Service, Jackson Mall Office Center, 300 Woodrow Wilson Avenue, Suite 316, Jackson, MS 39213. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: James H. Stewart at the above address, (telephone 601/965–4900 or FTS 490–4900).

SUPPLEMENTARY INFORMATION:

Background

The inflated heelsplitter was first described as *Symphynota inflata* by Lea in 1831. While the taxonomic status of this species has not been questioned in the literature, there has been considerable discussion of the genus. It has been placed in *Unio, Lampsilis, Metaptera, Margarita, Margaron,* and *Proptera,* in addition to the other names discussed here (Simpson 1914, Clarke 1986, Hartfield 1988). *Potamilus* is accepted as the correct generic name by numerous authors (Morrison 1969,

VOL 54 ISS 207 OCT 27 1989 UMI

Valentine and Stansbery 1971, Clark 1986, Tergeon *et al.* 1988). The common name in general usage for this species has been the Alabama heelsplitter. This rule follows the common names as used in Turgeon *et al.* (1988) in support of the effort to standardize nomenclature of mussels.

The inflated heelsplitter was known historically from the Amite and Tangipahoa Rivers, Louisiana; the Pearl River, Mississippi; and the Tombigbee, Black Warrior, Alabama, and Coosa Rivers, Alabama (Hurd 1974, Stern 1976, Hartfield 1988). The presently known distribution is limited to the Amite River, Louisiana, and the Tombigbee and Black Warrior Rivers, Alabama (Stern 1976, Hartfield 1988). The collection of this species from the Pearl River by Hinckley was reported by Frierson (1911) and a single valve collected by Parker is curated in the National Museum of Natural History (Dr. James Williams, U.S. Fish and Wildlife Service, pers. comm. 1988). There are no other reported collections from the Pearl River (Hartfield 1988). A single specimen was collected from the Tangipahoa River, Louisiana, in 1964 by Stein and Stansbery (Dr. David Stansbery, Ohio State University, pers. comm. 1985). Hartfield (1988) did not find the species in the Tangipahoa River during his survey. Hurd (1974) doubted the occurrence of this species in the Coosa River based upon the single lot available in museums. The species has not been reported from the Coosa or Alabama Rivers in over 20 years (Hurd 1974, Hartfield 1988).

The inflated heelsplitter has an oval, compressed to moderately inflated, thin shell. The valves may gape anteriorly, the umbos are low, and there is a prominent posterior wing that may extend anterior to the beaks in young individuals. The shell is brown to black and may have green rays in young individuals. The umbonal cavity is very shallow and the nacre is pink to purple. Shell length reaches 140 millimeters (5½ inches) in adults (Stern 1976). It is most similar to the pink papershell (*Potamilus ohioensis*), yet is easily distinguished by shell morphology (Hartfield 1988). The shell and teeth of the inflated heelsplitter are more delicate, and the shell is darker and has a pointed posterior, whereas the pink papershell has a rounded posterior. The inflated heelsplitter appears more inflated due to a more developed and rounded posterior ridge. The posterior wing of the inflated heelsplitter is more pronounced and abruptly rounded over the dorsum. The pink papershell may lack much of a wing, and when pronounced, it may be only slightly rounded and extend scarcely above the dorsum (Hartfield 1988). Lending further taxonomic strength to this species distinction is the occurrence of the pink papershell in lakes and sloughs, while the inflated heelsplitter has not been found in this habitat.

The preferred habitat of this species is soft, stable substrates in slow to moderate currents (Stern 1976). It has been found in sand, mud, silt and sandy-gravel, but not in large gravel or armored gravel (Hartfield 1988). It is usually collected on the protected side of bars and may occur in depths over 20 feet. The occurrence of this species in silt may not indicate that the life cycle can be successful in that substrate (Hartfield 1988). Adult mussels may survive limited amounts of silt where juveniles would suffocate. The occurrence of this species in silt may be because it was established prior to deposition of the silt.

The inflated heelsplitter, *Potamilus inflatus*, was listed as a category 2 candidate (a taxon for which data in the Service's possession indicate listing is possibly appropriate) in the notice of review published in the **Federal Register** on May 22, 1984 (49 FR 21664) and January 6, 1989 (54 FR 554).

Summary of Factors Affecting the Species

Section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act set forth the procedures for adding species to the Federal lists. A species may be determined to be endangered or threatened due to one or more of the five factors described in section 4(a)(1). These factors and their application to the inflated heelsplitter (*Potamilus inflatus*) are as follows:

A. *The present or threatened destruction, modification, or curtailment of its habitat or range.* The inflated heelsplitter historically occurred in the Amite and Tangipahoa Rivers, Louisiana; the Pearl River, Mississippi; and the Tombigbee, Black Warrior, Alabama, and Coosa Rivers, Alabama (Hurd 1974, Stern 1976, Hartfield 1988, 1989). It is currently known from only the Amite, Tombigbee and Black Warriors Rivers. Only one specimen has been collected from the Tangipahoa River, and in a recent survey by Hartfield (1988) no additional specimens were found. Hartfield found the upper Tangipahoa River to be much smaller than areas where this species occurs in other rivers. The stretch of the Tangipahoa River where the one specimen was collected has been severely eroded in recent years, presumably by gravel mining (Hartfield 1988).

The inflated heelsplitter has been reported from two areas on the Pearl River, Mississippi. One site was in the lower Pearl downstream of Bogalusa, Louisiana (Williams pers. comm. 1988) and the other site was near Jackson, Mississippi (Frierson 1911). The exact collecting site is unknown for both of these records. The Pearl River near Jackson has been impacted by pollution, channelization, and flood control levees and by an impoundment for recreation and a municipal water supply. The lower Pearl River near Bogalusa has been impacted by channel erosion, habitat modification for navigation, and industrial and urban pollution (Hartfield 1988). Based upon the scarcity of records from the Coosa River, Hurd (1974) doubted the historic occurrence of this species in that system. It has not been reported from that system since the construction of impoundments for flood control and hydropower.

The type specimen was reported from the Alabama River by Lea (1831) and has been reported from this same river by others (Conrad 1834, Simpson 1914). However, it has not been collected from the Alabama River in many years, presumably due to the impoundment of that system for navigation, flood control, and hydropower (Hartfield 1989).

The only known site for this species in the Black Warrior River is below Warrior Dam near Eutaw, Alabama. A single specimen was collected by Grace in the mid-1970's (Williams, pers. comm. 1985). A survey by Service divers in 1989 found two fresh dead shells but no live individuals. The species undoubtedly continues to survive in the Black Warrior River below Warrior Dam. The remainder of the Black Warrior River has been impacted by impoundment for navigation sedimentation from surface mining.

The species continues to survive in the Tombigbee River in at least two localities, Gainesville Bendway and downstream of Jackson Dam. Most of the Tombigbee River was modified by construction of the Tennessee-Tombigbee Waterway. This resulted in the loss of riverine habitat by impoundment, channelization, and flow diversion. Habitat that was originally believed would continue to support mussel populations has been destroyed by heavy accumulations of sediment. The only known population of the inflated heelsplitter in the Waterway is below Gainesville Spillway where the normal river flow, with the exception of navigation lockages, is released from this impoundment (Paul Hartfield, Mississippi Department of Wildlife Conservation, pers. comm. 1989). This has maintained a relatively clean and stable habitat suitable to this species.

The only other known population in the Tombigbee River occurs downstream of Jackson Dam. In this stretch, the species has been collected by Service and Mississippi Department of Wildlife Conservation biologists at four sites over a 12-river-mile area. Below the lowermost of these collection sites, no mussels were found by surveys in 1985 and 1986 by Service and Department biologists, possibly due to impacts from industrial effluents. The entire Tombigbee River has been modified for navigation by impoundment and channelization, and frequent dredging is required to maintain the navigation channel. Navigation dredging threatens this population by the deposition of spoil on bars along the sides of the river channel (Hartfield 1988). This material washes onto mussel habitat below the bars and may suffocate mussels and make conditions unfavorable for recruitment.

This species continues to exist in the Amite River with major threats being gravel mining and proposed channel modification for flood control. Hartfield (1989) concluded that 30 percent of the range of this species in the Amite River had been lost since 1976, primarily due to gravel mining. Without protection, this loss is expected to continue with the intensive gravel mining and resulting headcutting that is ongoing. The Corps of Engineers and Louisiana Department of Transportation and Development are studying methods of flood control on the Amite River. The proposed Darlington Reservoir would be constructed upstream of existing inflated heelsplitter habitat, and the actual impoundment of the stream may not impact this population of the species. The impact of this reservoir will likely be determined by the type and method of water releases incorporated. A deep water release would result in colder water temperatures, which may interrupt the life cycle of this mussel. The control of water flows, especially during low water levels, could strand mussels on dry bars and may reduce the capacity of the river to flush sediments from mussel habitat. An alternative flood control measure under consideration is the widening and channelization of the Amite River. This potential action would likely eliminate the inflated heelsplitter from the Amite River, leaving the only population in the Tombigbee and Black Warrior system.

B. *Overutilization for commercial, recreational, scientific, or educational purposes.* The species is not of commercial value at this time and any collecting is likely to be for scientific purposes. Over collection is not considered a threat.

C. *Disease or predation.* Diseases are not known for mussels, although unexplained dieoffs have occurred. Predation may exist to a limited extent when muskrats and raccoons prey on mussels. This would have a minimal effect since this species seems to prefer deeper water.

D. *The inadequacy of existing regulatory mechanisms.* Existing laws are inadequate to protect this species. It is not recognized by Alabama or Louisiana as needing any special protection, although both States require a scientific collector's permit. Collection, however, is likely to go undetected due to the limited enforcement personnel available and higher priority demands on their time. The species is not given any special consideration under other environmental laws when project impacts are reviewed.

E. *Other natural or manmade factors affecting its continued existence.* The known populations are isolated from each other and apparently are limited in extent. This could result in low genetic variation and make these populations more susceptible to environmental disturbance due to loss of adaptability.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to propose this rule. Based on this evaluation, the preferred action is to list the inflated heelsplitter as threatened. Threatened status was chosen because the species still exists in three rivers, and the range within two of these rivers consists of reproducing populations that are widely distributed and not subject to single event impacts.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that, to the maximum extent prudent and determinable, the Secretary propose critical habitat at the time the species is proposed to be endangered or threatened. The Service finds that designation of critical habitat is not presently prudent for this species due to the lack of benefit from such designation. All Federal and State agencies likely to be involved have been notified of the location and importance of protecting this species' habitat. No additional benefits would accrue from a critical habitat designation that would not accrue from the listing. Precise locality data are available to appropriate agencies through the Service office described in the ADDRESSES section. Protection of this species' habitat will be addressed through the recovery process and through the Section 7 jeopardy standard. Therefore, it would not now be prudent to determine critical habitat for the inflated heelsplitter.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. The protection required of Federal agencies and the prohibitions against taking and harm are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(4) requires Federal agencies to confer informally with the Service on any action that is likely to jeopardize the continued existence of a proposed species, or result in destruction or adverse modification of proposed critical habitat. If a species is listed subsequently, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of such a species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Federal involvement is expected to include the Environmental Protection Agency in consideration of the Clean Water Act, pesticide registration, and waste management actions. The Corps of Engineers will include this species in project planning and operation and during the permit review process. The Federal Highway Administration will consider impacts of bridge and road

VOL 54 ISS 207 OCT 27 1989 UMI

construction at points where known habitat is crossed. Continuing urban development within the drainage basins may involve the Farmers Home Administration and their loan programs.

The Act and implementing regulations found at 50 CFR 17.21 and 17.31 set forth a series of general prohibitions and exceptions that apply to all threatened wildlife. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to take (includes harass, harm, pursue, hunt, shoot, wound, kill, trap, or collect; or to attempt any of these), import or export, ship in interstate commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any listed species. It also is illegal to possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. Certain exceptions apply to agents of the Service and State conservation agencies.

Permits may be issued to carry out otherwise prohibited activities involving threatened wildlife species under certain circumstances. Regulations governing permits are at 50 CFR 17.22, 17.23, and 17.32. Such permits are available for scientific purposes, to enhance the propagation or survival of the species, and/or for incidental take in connection with otherwise lawful activities. For threatened species, there are also permits for zoological exhibition, educational purposes, or special purposes consistent with the purposes of the Act.

Public Comments Solicited

The Service intends that any final action resulting from this proposal will be as accurate and as effective as possible. Therefore, comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning this proposed rule are hereby solicited. Comments particularly are sought concerning:

(1) Biological, commercial trade, or other relevant data concerning any threat (or lack thereof) to this species;

(2) The location of any additional populations of this species and the reasons why any habitat should or should not be determined to be critical habitat as provided by section 4 of the Act;

(3) Additional information concerning the range, distribution, and population size of this species; and

(4) Current or planned activities in the subject area and their possible impacts on this species.

Final promulgation of the regulation on this species will take into consideration the comments and any additional information received by the Service, and such communications may lead to a final regulation that differs from this proposal.

The Endangered Species Act provides for a public hearing on this proposal, if requested. Requests must be received within 45 days of the date of publication of the proposal. Such requests must be made in writing and addressed to Complex Field Supervisor (see ADDRESSES section).

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

Proposed Regulation Promulgation

Accordingly, it is hereby proposed to amend Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations, as set forth below:

PART 17—[AMENDED]

1. The authority citation for Part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1543; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500; unless otherwise noted.

2. It is proposed to amend § 17.11(h) for animals by adding the following, in alphabetical order under "CLAMS", to the List of Endangered and Threatened Wildlife:

§ 17.11 Endangered and threatened wildlife.

* * * * *

(h) * * *

Species		Historic range	Vertebrate population where endangered or threatened	Status	When listed	Critical habitat	Special rules
Common name	Scientific name						
Clams:							
Heelsplitter, inflated (=Alabama)	*Potamilus inflatus*	U.S.A. (AL, LA, MS)	NA	T	NA	NA	

Dated: October 3, 1989.

Richard N. Smith,

Acting Director, Fish and Wildlife Service.

Notices

Federal Register
Vol. 54, No. 207
Friday, October 27, 1989

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

Limitation to the Redelegation of Authority To Approve Debt Settlements and Releases of Liability in Connection With Voluntary Liquidations

AGENCY: Farmers Home Administration, USDA.

ACTION: Notice of redelegation of authority.

SUMMARY: On October 6, 1988, The Farmers Home Administration (FmHA) Administrator redelegated certain authorities to all State Directors dealing with the settlement of and/or release of liability on FmHA debts, owed by borrowers, who made application to settle their FmHA debts or request release of liability. Notice of this redelegation was published in 53 FR 40247 (October 14, 1988). The redelegation authority granted on October 6, 1988, expires on September 30, 1989, and the Acting Administrator now gives notice to extend that redelegation through September 30, 1990, but reduces the State Directors approval authority not to exceed $1,000,000 (including principal, interest and other charges). All debt settlements/release of liability cases in excess of $1,000,000 must be submitted to the National Office for approval by the Administrator. This action is taken to expedite the processing of debt settlement applications/requests, of borrowers who are unable to repay all of their FmHA debts. The effect of the extension of the redelegation of the Administrator's authority is the continued expediting of the administrative review process for debt settlements and releases of liability permitting more timely debt relief to FmHA borrowers, and to correspondingly reduce the Agency's portfolio of inactive uncollectable accounts.

EFFECTIVE DATES: October 1, 1989, through September 30, 1990.

FOR FURTHER INFORMATION CONTACT: Thomas B. Baden, Senior Loan Officer, Farmer Programs Loan Servicing Division, Farmers Home Administration, USDA, Room 5437, South Agriculture Building, 14th and Independence Avenue, SW., Washington, DC 20250, Telephone 202–475–4008.

SUPPLEMENTARY INFORMATION: The Catalog of Federal Domestic Assistance programs affected by this notice are:

10.404 Emergency Loans
10.406 Farm Operating Loans
10.407 Farm Ownership Loans
10.410 Very Low and Low Income Housing Loans
10.416 Soil and Water Loans
10.417 Very Low-Income Housing Repair Loans and Grants
10.428 Economic Emergency Loans

Notice

The notice of the delegation of authority for approving debt settlement/release of liability cases reads as follows:

This extends the authority given under the unnumbered memorandum dated October 6, 1988, entitled "Delegation of Authority for Approving Debt Settlement/Release of Liability Cases" but reduces the approval authority not to exceed $1,000,000 (including principal, interest and other charges). All debt settlement/release of liability cases in excess of $1,000,000 must be submitted to the National Office for approval by the Administrator.

Pursuant to authority delegated to me as Acting Administrator, Farmers Home Administration, I hereby redelegate to State Directors approval authority not to exceed $1,000,000 (including principal, interest and other charges) for the following:

1. Debt settlement cases in accordance with section 1956.58(a) of FmHA Instruction 1956–B, "Debt Settlement—Farmer Programs and Single Family Housing," (Revised 7–29–87, PN 59).

2. Release of liability cases in accordance with sections 1955.10(f)(2), and 1955.20(b)(2) of FmHA Instruction 1955–A, "Liquidation of Loans Secured by Real Estate and Acquisition of Real and Chattel Property."

3. Release of liability cases in accordance with section 1962.34(h) of FmHA Instruction 1962–A, "Servicing and Liquidation of Chattel Security," and sections 1965.26(f)(5)(ii) and 1965.27(f) of FmHA Instruction 1965–A, "Servicing of Real Estate Security for Farmer Programs Loans and Certain Note-Only Cases."

This authority does not extend to debt settlement of Non-Program loans, Economic Opportunity loans, and claims against third party converters.

This extension of the redelegation shall be effective through September 30, 1990, unless revoked or otherwise modified, in writing. The authority delegated to the State Director cannot be further delegated.

Dated: October 20, 1989.

Neal Sox Johnson,

Acting Administrator, Farmers Home Administration.

[FR Doc. 89–25299 Filed 10–26–89; 8:45 am]

BILLING CODE 3410–07–M

Food and Nutrition Service

State Processing Program Meeting

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: A meeting to discuss proposed changes to the State Processing Program regulations is scheduled for Wednesday, December 13, 1989. The meeting will serve as an open forum to solicit recommendations from the general public for changes to be proposed in the State processing regulations.

DATE: The meeting will take place on Wednesday, December 13 from 9:00 a.m. to 5:00 p.m.

ADDRESS: The meeting will be held in the Park Office Center, 3101 Park Center Drive, Alexandria, Virginia 22302 in the fourth floor conference room.

FOR FURTHER INFORMATION CONTACT: Susan E. Proden, Chief, Program Administration Branch, Food Distribution Division, Food and Nutrition Service, U.S. Department of Agriculture, Alexandria, Virginia 22302, (703) 756–3660.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to give the U.S. Department of Agriculture the opportunity to seek the advice of State, local and industry representatives as well as the general public prior to formulating proposed regulations to amend the current State processing regulations found at 7 CFR 250.30. The National Association of State Agencies for Food Distribution and the National Advisory Council on Commodity Distribution have recommended that the Food and Nutrition Service (FNS), through a joint "partnership" effort, discuss potential improvements to the regulations prior to issuing proposed regulations. Although this is not always possible, FNS agrees that in this case public involvement would be very helpful. Topics to be discussed during the meeting include: (1) Timeframes for processors to pay refunds; (2) The requirement that distributors be required to state the amount of the rebate due on sales invoices to recipient agencies; (3) Clarification of the definition of a Food Service Management Company; (4) Fee-for-Service processing policy; (5) Agreement renewal versus annual approval; (6) Use of alternative value return systems; and (7) Additional substitution for donated foods.

The agenda will be available 15 days prior to the meeting. Requests for the agenda should be sent to Susan E. Proden, Chief, Program Administration Branch, Food Distribution Division, 3101 Park Center Drive, Room 506, Alexandria, Virginia 22302. Comments may be sent to Susan E. Proden before or within 30 days after the meeting.

Dated: October 17, 1989.

G. Scott Dunn,

Acting Administrator.

[FR Doc. 89–25294 Filed 10–26–89; 8:45 am]

BILLING CODE 3410–30–M

Forest Service

Revision of Black Hills National Forest Land and Resource Management Plan (Forest Plan); Black Hills National Forest; Custer, Fall River, Meade, Lawrence, Pennington Counties, SD; Crook and Weston Counties, WY

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare environmental impact statement.

SUMMARY: Pursuant to 36 CFR 219.10(g), the Forest Supervisor of the Black Hills National Forest gives notice of the agency's intent to prepare an environmental impact statement for the revision of the Black Hills National Forest Land and Resource Management Plan (Forest Plan).

DATE: Comments concerning the scope of the analysis should be in writing and received by February 15, 1990.

ADDRESS: Send written comments to Forest Supervisor, Black Hills National Forest, RR 2, Box 200, Custer, SD 57730.

FOR FURTHER INFORMATION CONTACT: John Rupe, Forest Plan Interdisciplinary Team Leader, 605–673–2251.

SUPPLEMENTARY INFORMATION: According to 36 CFR 219.10(g), Forest Plans are ordinarily revised on a 10-year cycle. The current Black Hills National Forest Land and Resource Management Plan was approved on August 19, 1983. The Black Hills National Forest is scheduled to issue its revised Forest Plan and FEIS in August, 1993.

The Forest Plan revision will focus on changed conditions or demands in the area covered by the Plan. Those sections of the Forest Plan which continue to be responsive to issues and demands, and which meet requirements for resource protection, will not be revised.

Through monitoring and evaluation of the Forest Plan, the Forest Supervisor of the Black Hills National Forest has determined that the following topics should be reexamined during Forest Plan revision:

1. The mix of vegetation types and ages and the management practices needed to achieve the desired mix.

2. The demand for increased water yield.

3. Management requirements for mineral exploration and mining.

4. Management and protection of caves in coordination with other agencies.

5. Determination of lands not suitable for timber production and the allowable sale quantity of timber.

6. Management of the approximately 5,000 acre Beaver Park area located south of Sturgis, South Dakota.

7. Management of National Forest land near private land.

Federal, state, and local agencies, Native American tribes, individuals and organizations are invited to submit comments on these and other topics which are relevant to management of the Black Hills National Forest. Comments should be sent in writing to the address above by February 15, 1990.

Public involvement in the Plan revision process will be sought by: (1) Sending newsletters and requests for comment to agencies, organizations and individuals, and (2) holding open houses in Black Hills communities. Dates, locations, and times for the open houses will be announced in local news media and in newsletters.

The responsible official for approving the Forest Plan revision is the Regional Forester, Rocky Mountain Region, USDA Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Lakewood, CO 80225. The Forest Supervisor, Black Hills National Forest, is delegated responsibility for preparing the revision.

Revision of the Forest Plan is expected to take 3 years; the draft environmental impact statement and proposed Forest Plan revision should be available for public review in August 1992. The final environmental impact statement, Record of Decision, and Forest Plan revision are scheduled to be completed by August 1993.

The comment period on the draft environmental impact statement will be a minimum of 90 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register.**

Two recent court rulings related to public participation in the environmental review process are pertinent to those interested in participating in the revision of the Black Hills National Forest Land and Resource Management Plan. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978). Also environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts *Wisconsin Heritages, Inc.* v. *Harris*, 490 F.Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the comment period on the draft environmental impact statement so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality regulations for implementing the

VOL 54 ISS 207 OCT 27 1989 UMI

procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

Dated: October 16, 1989.

Darrel L. Keaope,

Forest Supervisor.

[FR Doc. 89-25306 Filed 10-26-89; 8:45 am]

BILLING CODE 3410-11-M

Bagdad Mine; Lolo National Forest; Granite County, MT

AGENCY: Forest Service, USDA.

ACTION: Notice; cancellation of notice of intent to prepare an environmental impact statement.

SUMMARY: On March 31, 1988, notice was published in the **Federal Register** (53 FR 10413) that an environmental impact statement would be prepared to identify the specific operating stipulations under which the Bagdad Mine would be developed. That notice is hereby cancelled.

Mark V. Mines, owner, has suspended its plan to develop the Bagdad Mine, located in Williams Gulch, a tributary of Rock Creek and located in Granite County, Montana.

EFFECTIVE DATE: This action is effective October 27, 1989.

FOR FURTHER INFORMATION CONTACT: Dave Stack, District Ranger, Missoula Ranger District, Lolo National Forest, Building 24–A, Fort Missoula, Missoula, MT 59801; telephone (406) 329–3814 or (406) 329–3948.

Dated: October 16, 1989.

Orville L. Daniels,

Forest Supervisor.

[FR Doc. 89-25317 Filed 10-26-89; 8:45 am]

BILLING CODE 3410-11-M

Bender/ReTie Timber Sale

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service will prepare an Environmental Impact Statement (EIS) to analyze and disclose the environmental impacts of a proposal to harvest and regenerate timber stands, reconstruct existing roads and construct new roads in portions of the Bender, Johnson and Tie Creek drainages on the Wisdom Ranger District, Beaverhead National Forest, Beaverhead County, Montana. The proposed action is located within portions of the Beaver Lake Roadless Area 1–003B and the North Big Hole Roadless Areas A1–001 and C1–001. This EIS will tier to the Beaverhead National Forest Land and Resource Management Plan EIS of April 1986, which provides overall guidance in achieving the desired future condition for the area. The purpose and goal of the proposed action is to help satisfy the short-term demands for timber, maintain a continuous supply of timber for the future, and produce a distribution of size and age classes of timber stands that more fully realize site potential, are healthier, and are more resistant to disease and insect infestations. The Forest Service is seeking additional information and comments from Federal, State, and local agencies and other individuals or organizations who may be interested in and or affected by the proposed action. This input will be used in preparing the Draft Environmental Impact Statement (DEIS). This process will include:

1. Identification of Potential Issues.
2. Identification of issues to be analyzed in depth.
3. Elimination of insignificant issues or those which have been covered by a relevant previous environmental analysis.
4. Identification of additional reasonable alternatives.
5. Identification of potential environmental effects of the alternatives.

The agency invites written comments and suggestions on the issues and management opportunities in the area being analyzed.

DATE: Comments should be received by December 1, 1989 to receive timely consideration in preparation of the Draft EIS.

ADDRESS: Submit written comments to the District Ranger, Wisdom Ranger District, Box 238, Wisdom, Montana 59761.

FOR FURTHER INFORMATION CONTACT: Dennis Havig, District Ranger, Wisdom Ranger District, Beaverhead National Forest, telephone (406) 869–3243.

SUPPLEMENTARY INFORMATION: The proposed action is designed to fulfill the goals and objectives of the Land and Resource Management Plan for the Beaverhead National Forest which provides the overall guidance for management activities in the potentially affected area.

The areas of proposed timber harvest, regeneration, and associated road reconstruction and construction activities within the Bender, Johnson and Tie Creek drainages are located in Forest Plan Management Areas, 13, 16, 19, 20 and 21.

Management Area Descriptions

Management Area 13: Areas suitable for timber management on moist sites characterized by springs, seeps and wet areas. Usually requires selection systems and cable yarding.

Management Area 16: Areas that are available and suitable for timber management.

Management Area 18: Areas with high wildlife values such as summer range, security cover, elk calving areas, or limited winter range; generally on slopes less than 45 percent on existing livestock grazing allotments. Classified as suitable for timber management at low intensity levels with no planned cultural treatments.

Management Area 20: Same as Management Area 19 except that timber management will be at moderate levels permitting cultural treatments.

Management Area 21: A variety of forested lands with high wildlife values such as summer range, elk calving areas, security cover or limited winter range; outside of existing range allotments; classified as suitable for timber management.

The analysis will consider a range of alternatives. One of these will be the "no action" alternative, in which none of the proposed harvest, regeneration, road reconstruction and road construction activities would be implemented. Other alternatives will examine varying levels and locations for the proposal in response to issues and objectives.

Three RARE II roadless areas are located within the Bender, Johnson, and Tie Creek area and could be affected by the proposed timber harvest, regeneration, and road construction. The Beaver Lake Roadless Area 1–003B totals 5548 acres. The North Big Hole Roadless Area is comprised of several parcels of which two, A1–001 and C1–001 could be affected. Parcel A1–001 totals 24,332 acres and parcel C1–001 totals 1521 acres.

The EIS will analyze and document the direct, indirect and cumulative environmental effects of the alternatives. Past, present and projected activities on both private and National Forest Lands will be considered. In addition, the EIS will disclose the analysis of site-specific mitigation measures and their effectiveness.

The DEIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review by February 1, 1990. At that time, the EPA will publish a Notice of Availability of the DEIS in the **Federal Register**. After a 45-day public comment period, the comments received will be analyzed and considered by the Forest Service in the Final Environmental Impact Statement (FEIS). The FEIS is scheduled to be completed by June 1, 1990. The Forest Service will respond in the FEIS to the comments received on the DEIS.

Public participation will be important in the analysis and in the review of the DEIS. People are invited and encouraged to contract and or visit with Forest Service officials at any time during the analysis and prior to the decision.

The Forest Supervisor for the Beaverhead National Forest, Ronald Prichard, who is the responsible official for the EIS, will make a decision regarding this proposal considering the comments, responses, environmental consequcnes discussed in the FEIS and applicable laws, regulations and policies. The decision and reasons for the decision will be documented in a Record of Decision.

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency published the notice of availability in the **Federal Register**. The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of the draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement may be waived or dismissed by the courts. *Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that administrative comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Dated: October 19, 1989.

Ronald Prichard,

Forest Supervisor, Beaverhead National Forest.

[FR Doc. 89-25291 Filed 10-26-89; 8:45 am]

BILLING CODE 3410-11-M

Snowbasin Land Exchange/Snowbasin Ski Area Master Plan, Wasatch-Cache National Forest, Weber County Utah

AGENCY: Forest Service, USDA.

ACTION: Amendment to the notice of intent to prepare an environmental impact statment.

SUMMARY: A notice of Intent to prepare an environmental impact statement for a proposal to exchange acquired private land for 1320 acres of National Forest land adjacent to the Snowbasin Ski Area was published in the **Federal Register** July 21, 1989 (54 FR 30583).

The scoping process and the environmental analysis have progressed to the point where it was determined that the proper decision is the approval of the Master Plan for the ski area development. The Master Plan approval will determine if, and how much, National Forest lands should be made available for exchange. A subsequent analysis and decision will be made on any site specific land exchange proposal.

The responsible official is changed from Stan Tixier, Regional Forester, Intermountain Region to Dale N. Bosworth, Forest Supervisor, Wasatch-Cache National Forest.

Dated: October 18, 1989.

Susan Giannettino,

Deputy Forest Supervisor.

[FR Doc. 89-25289 Filed 10-26-89; 8:45 am]

BILLING CODE 3410-11-M

Soil Conservation Service

Honey Creek Watershed, Indiana

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Honey Creek Watershed, Vigo and Clay Counties, Indiana.

FOR FURTHER INFORMATION CONTACT: Robert L. Eddleman, State Conservationist, Soil Conservation Service, 6013 Lakeside Boulevard, Indianapolis, Indiana 46278, telephone 317–290–3200.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Robert L. Eddleman, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for flood protection. The planned works of improvement include 12.0 miles of dikes, a storage basin, and relocation of the outlet (1,000 feet) of a small (370 acre drainage area) intermittent tributary.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Robert L. Eddleman. No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Dated: October 18, 1989.

Robert L. Eddleman,

State Conservationist.

[FR Doc. 89-25292 Filed 10-26-89; 8:45 am]

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Coastal Zone Management: Federal Consistency Appeal by José R. Pérez-Villamil from Objections by the Puerto Rico Planning Board

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

VOL 54 ISS 207 OCT 27 1989 UMI

ACTION: Notice of appeal and request for comments.

On August 16, 1989, the Secretary of Commerce received a notice of appeal from José R. Pérez-Vllamil (Villamil). Villamil is appealing to the Secretary under section 307(c)(3)(B) of the Coastal Zone Management Act (CZMA) and the Department's implementing regulations, 15 CFR part 930, subpart H. The appeal is taken from an objection by the Puerto Rico Planning Board (PRPB) to Villamil's consistency certification for a U.S. Army Corps of Engineers permit to construct in Tamarindo Bay on Culebra Island, Puerto Rico, a 125-foot-long and 6-foot-wide wooden pier with a "T" end that is 25 feet long and 6 feet wide.

The CZMA provides that a timely objection by a state to a consistency certification precludes any Federal agency from issuing licenses or permits for the activity unless the Secretary of Commerce finds that the activity is either "consistent with the objectives" of the CZMA (Ground I) or "necessary in the interest of national security" (Ground II). Section 307(c)(3)(B). To make such a determination, the Secretary must find that the proposed project satisfies the requirements of 15 CFR 930.121 or 930.122.

Villamil requests that the Secretary override the PRPB's consistency objections based on Ground I. To make the determination that the proposed activity is "consistent with the objectives" of the CZMA, the Secretary must find that (1) the proposed activity furthers one or more of the national objectives or purposes contained in sections 302 or 303 of the CZMA; (2) the adverse effects of the proposed activity do not outweigh its contribution to the national interest; (3) the proposed activity will not violate the Clean Air Act or the Federal Water Pollution Control Act; and (4) no reasonable alternative is available that would permit the activity to be conducted in a manner consistent with Puerto Rico's coastal management program. *See* 15 CFR 930.121.

Public comments are invited on the findings that the Secretary must make as set forth in the regulations at 15 CFR 930.121. Comments are due within thirty days of the publication of this notice and should be sent to Susan K. Auer, Attorney-Advisor, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, 1825 Connecticut Avenue, NW., Suite 603, Washington DC 20235. Copies of comments should also be sent to Linda M. Dueño, Puerto Rico Planning Board, Minillas Governmental Center, North Building, De Diego Ave., Stop 22, P.O. Box 41119, San Juan, P.R. 000940–9985.

All nonconfidential documents submitted or received in this appeal are available for public inspection during business hours at the offices of the PRPB and the Office of the Assistant General Counsel for Ocean Services. NOAA.

FOR ADDITIONAL INFORMATION CONTACT: Susan K. Auer, Attorney-Advisor, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, 1825 Connecticut Avenue, NW., Suite 603, Washington, DC 20235, (202) 673–5200.

Dated: October 19, 1989.

John A. Knauss,

Under Secretary for Oceans and Atmosphere.

BILLING CODE 3510-08-M

Western Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The Western Pacific Fishery Management Council's Plan Monitoring Teams (PMTS) for the Bottomfish/Seamount Groundfish, Crustaceans, and Pelagic fisheries, will hold separate public meetings on November 1, 2, and 3, 1989, at the National Marine Fisheries Service, Honolulu Laboratory, conference room, 2570 Dole Street, Honolulu, HI.

The *Bottomfish and Seamount Groundfish fisheries PMT* will meet at 8:30 a.m., on November 2 to discuss development of a fishery management plan (FMP) which complies with the new 50 CFR part 602 guidelines on National Standards 1 and 2.

The *Crustaceans PMT* will meet at 10 a.m., on November 1 to discuss compliance of the FMP with the new 50 CFR part 602 guidelines.

The *Pelagic PMT* will meet on November 3 at 9 a.m., to: (1) Approve the May 31, 1989, PMT meeting minutes; (2) finalize the second annual report; (3) redefine the FMP monitoring process as to: (a) overfishing (apply for exemption or rewrite the FMP), (b) fishery interaction and managing the fishery, and (c) the Stock Assessment and Fishery Evaluation (SAFE) requirement and the third annual report; and (4) discuss pelagic fishery data.

For more information contact Kitty Simonds, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop Street, Suite 1405, Honolulu, HI 96813; telephone: (803) 523–1368.

Dated: October 23, 1989.

David S. Crestin,

Deputy Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Issuance of Permit; Center for Coastal Studies (P444)

On March 27, 1989, notice was published in the **Federal Register** (54 FR 12470) that an application had been filed by Center for Coastal Studies, Box 826, Provincetown, MA 02657, for a permit to take three hundred (300) humpback whales (*Megaptera novaeangliae*), eighty (80) fin whales (*Balaenoptera physalus*), and fifty (50) right whales (*Eubalaena glacialis*) for scientific purposes.

Notice is hereby given that on October 19, 1989, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and Endangered Species Act of 1973 (16 U.S.C. 1531–1543), the National Marine Fisheries Service issued a Permit for the above taking, subject to certain conditions set forth therein.

Issuance of this Permit, as required by the Endangered Species Act of 1973, is based on the finding that such Permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of the Permit; and (3) will be consistent with the purposes and policies set forth in section 2 of the Act. This Permit was also issued in accordance with and is subject to parts 220–222 of the National Marine Fisheries Service regulations governing endangered fish and wildlife permits.

Documents submitted in connection with this permit are available in the following offices:

Office of Protected Resources, Permits Division, National Marine Fisheries Service, 1335 East West Highway, Suite 7324, Silver Spring, Maryland 20910; and

Director, Northeast Region, National Marine Fisheries Service, One Blackburn Drive, Gloucester, Massachusetts 01930.

Dated: October 19, 1989.

Nancy Foster,

Director, Office of Protected Resources, National Marine Fisheries Service.

[FR Doc. 89–25327 Filed 10–26–89; 8:45 am]

BILLING CODE 3510-22-M

Marine Mammals; Issuance of Permit; The Cetacean Research Unit P418

On April 5, 1988, notice was published in the **Federal Register** (53 FR 11110) that an application had been filed by The Cetacean Research Unit, P.O. Box 159, Gloucester, Massachusetts 01930, to take humpback whales (*Megaptera novaeangliae*), fin whales (*Balaenoptera physalus*), right whales (*Eubalaena glacialis*), and sei whales (*Balaenoptera borealis*), for scientific research.

Notice is hereby given that on October 19, 1989 as authorized by the provisions of the Marine Mammal Protection Act (16 U.S.C. 1361–1407) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), the National Marine Fisheries Service issued a Permit for the above taking subject to certain conditions set forth therein.

Issuance of this Permit as required by the Endangered Species Act of 1973 is based on a finding that such Permit; (1) was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which are the subject of this Permit; (3) and will be consistent with the purposes and policies set forth in section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with and is subject to parts 220–222 of title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits.

The Permit is available for review by interested persons in the following offices:

Permit Division, Office of Protected Resources, National Marine Fisheries Service, 1335 East West Highway, Suite 7324, Silver Spring, Maryland 20910; and

Director, Northeast Region, National Marine Fisheries Service, One Blackburn Drive, Gloucester, Massachusetts, 01930.

Dated: October 19, 1989.

Nancy Foster,

Director, Office of Protected Resources and Habitat Programs.

BILLING CODE 6330-01-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1989; Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to procurement list.

SUMMARY: This action adds to Procurement List 1989 commodities and a military resale commodity to be produced and services to be provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: November 27, 1989.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: On July 28, August 11, September 1 and 8, 1989, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (54 FR 31357, 33051, 36369 and 37356) of proposed additions to Procurement List 1989, which was published on November 15, 1988 (53 FR 46018).

After consideration of the material presented to it concerning capability of qualified workshops to produce the commodities and military resale commodity and provide the services at a fair market price and impact of the addition on the current or most recent contractors, the Committee has determined that the commodities, military resale commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The actions will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The actions will not have a serious economic impact on any contractors for the commodities, military resale commodity and services listed.

c. The actions will result in authorizing small entities to produce the commodities, military resale commodity and provide the services procured by the Government.

Accordingly, the following commodities, military resale commodity and services are hereby added to Procurement List 1989:

Commodities

Cap, Utility, Camouflage
8405–01–246–4176
8405–01–246–4177
8405–01–246–4178
8405–01–246–4179
8405–01–246–4180
(50 percent of Government's Requirement)

Military Resale Item No. and Name

M.R. 929 Mop, Stick, Foam/Nonwoven

Services

Janitorial/Custodial, Naval Air-Facility, El Centro, California
Janitorial/Custodial, Kirkwood U.S. Army Reserve Center, Wilmington, Delaware
New Castle U.S. Army Reserve Center, New Castle, Delaware
Janitorial/Custodial, 910 Tactical Airlift Group (AFRES), Except Building 540, Youngstown Municipal Airport, Vienna, Ohio
Packaging of Solicitations, Little Rock District, U.S. Army Corps of Engineers, Little Rock, Arkansas.

Beverly L. Milkman,

Executive Director.

[FR Doc. 89–25397 Filed 10–26–89; 8:45 am]

BILLING CODE 6820-33-M

Procurement List 1989; Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed addition to procurement list.

SUMMARY: The Committee has received a proposal to add to Procurement List 1989 a service to be provided by workshops for the blind or other severely handicapped.

VOL 54 ISS 207 OCT 27 1989 UMI

DATE: Comments must be received on or before November 27, 1989.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following service to Procurement List 1989, which was published on November 15, 1988 (53 FR 46018):

Janitorial/Custodial, Boston National Historical Park Building, 15 State Street, Boston, Massachusetts.

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820-33-M

COMMODITY FUTURES TRADING COMMISSION

Advisory Committee on CFTC–State Cooperation; Meeting

This is to give notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I, 10(a), that the Commodity Futures Trading Commission's Advisory Committee on CFTC–State Cooperation will conduct a public meeting in the Fifth Floor Hearing Room at the Commission's Washington, DC, headquarters located at Room 532, 2033 K Street, NW., Washington, DC 20581, November 14, 1989, beginning at 9:30 a.m. and lasting until 3:00 p.m. The agenda will consist of:

Agenda

1. Opening remarks—Wendy L. Gramm, Chairman, CFTC; Fowler C. West, Commissioner, CFTC and Chairman, Advisory Committee on CFTC–State Cooperation;
2. Discussion about potentially misleading investment advertising carried by broadcast media;
3. Discussion of ways to enhance the education of public school children on the dangers of securities and commodities fraud, and the possibility of a joint education effort with other organizations;
4. Report from the CFTC Division of Enforcement regarding cooperative enforcement activities and the exchange of information between state and federal enforcement entities;
5. Report on the current activities of the Department of Justice's Securities and Commodities Fraud Working Group; and
6. Discussion of other questions of concern to Advisory Committee members.

The Advisory Committee was created by the Commodity Futures Trading Commission for the purpose of receiving advice and recommendations on matters of joint concern to the States and the Commission arising under the Commodity Exchange Act, as amended. The purposes and objectives of the Advisory Committee on CFTC–State Cooperation are more fully set forth in the March 31, 1988 Sixth Renewal Charter of the Advisory Committee.

The meeting is open to the public. The Chairman of the Advisory Committee, Commissioner Fowler C. West, is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Advisory Committee should mail a copy of the statement to the attention of: The Advisory Committee on CFTC–State Cooperation c/o Commission Fowler C. West, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, before the meeting. Members of the public who wish to make oral statements should also inform Commissioner West in writing at the foregoing address at least three business days before the meeting. Reasonable provision will be made, if time permits, for an oral presentation of no more than five minutes each in duration.

Issued by the Commission in Washington, DC, on October 23, 1989.

Jean A. Webb,

Secretary of the Commission.

[FR Doc. 89–25295 Filed 10–26–89; 8:45 am]

BILLING CODE 6351-01-M

Chicago Mercantile Exchange Proposed Option Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of Availability of the Terms and Conditions of Proposed Commodity Option Contract.

SUMMARY: The Chicago Mercantile Exchange ("CME" or "Exchange") has applied for designation as a contract market in options on physical gold, with a European exercise provision. The Director of the Division of Economic Analysis ("Division") of the Commission, acting pursuant to the authority delegated by Commission Regulation 140.96, has determined that publication of the proposal for comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before November 27, 1989.

ADDRESS: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Reference should be made to the CME physical gold option.

FOR FURTHER INFORMATION CONTACT: Richard Shilts, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, (202) 254–7303.

SUPPLEMENTARY INFORMATION: Copies of the terms and conditions of the proposed contract will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the CME in support of the application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552 (1987)), except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Act Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed option contract, or with respect to other materials submitted by the CME in support of the application, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, by the specified date.

Issued in Washington, DC, on October 23, 1989.

Steven Manaster,

Director, Division of Economic Analysis.

BILLING CODE 6351-01-M

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Prepare a Draft Environmental Impact Statement on Relocation, Upgrade and Operation of Certain Electromagnetic Pulse Simulators (EMP), Woodbridge Research Facility, Woodbridge, VA, and Construction and Operation of New EMP Simulator, Vertical Electromagnetic Pulse Simulator (VEMPS) II

AGENCY: Department of the Army, DoD.

ACTION: Notice of intent to prepare an environmental impact statement to relocate, upgrade and operate certain electromagnetic pulse simulators now located at the Woodbridge Research Facility, Woodbridge, VA, and the construction and operation of a new EMP simulator, VEMPS II.

1. The U.S. Army Laboratory Command, Harry Diamond Laboratories intends to prepare an Environmental Impact Statement (EIS) for the relocation, upgrade and operation of certain electromagnetic pulse (EMP) simulators from the Woodbridge Research Facility, Woodbridge, VA, and the construction and operation of a new EMP simulator, VEMPS II. The U.S. Army Laboratory Command has terminated EMP simulator operations at the Woodbridge Research Facility, Woodbridge, VA. This notice supercedes the Notice of Intent to Prepare an Environmental Impact Statement (EIS) for the operation of Electromagnetic Pulse Simulators (EMP) at the Harry Diamond Laboratories, Woodbridge Research Facility, Woodbridge, VA, published by the Department of the Army on January 12, 1989, in 54 FR 994.

The U.S. Army Laboratory Command, Department of the Army, is responsible for research, test, and evaluation of the effects of EMP on Army equipment. EMP is generated by the employment of nuclear weapons at high altitude and can render equipment inoperative because of its effect on electrical circuits and electronic components. EMP simulators produce only the EMP portion of a nuclear detonation without the use of any nuclear weapons, nuclear material, or nuclear radiation. Possible alternatives include:

a. Cease this type of testing, or

b. Conduct such testing by other means of simulation, or

c. Have other military, Federal departments or contractors conduct such testing, or

d. Relocate and operate those simulators at a number of undetermined, reasonable sites.

It is anticipated that the Army's EIS effort will be augmented by the services of contractors, consultants, and advisors with demonstrated expertise and experience to accumulate the necessary information to make the appropriate analysis.

2. The environmental impact analysis process will be in accordance with the National Environmental Policy Act of 1969, Army Regulation 220–2, 32 CFR part 651 and the regulations of the Council on Environmental Quality, 40 CFR part 1500. The purpose of this analysis is to determine the extent of any significant impacts, and in the event significant impacts exist, to analyze those impacts under the terms of the National Environmental Policy Act of 1969 and to explore mitigation for any significant impacts.

3. The Army will initiate a scoping process to discuss reasonable siting alternatives and to determine the significant issues related to the proposed action. Following the development of a list of alternate sites, the EIS process will begin with public scoping meetings, which will be announced in the **FEDERAL REGISTER** at least two weeks in advance of the meetings. Public as well as Federal, State, and local agency participation and input are desired. To provide an opportunity for public input to the scoping process, interested individuals, governmental agencies and private organizations are invited to submit information and comments for consideration by the Army and possible incorporation into the EIS. Particularly solicited is information on other environmental studies, issues and alternatives which the EIS should consider, major impacts and recommended mitigating measures associated with the proposed action.

4. Individuals or agencies may offer information relevant to the environmental impacts or aspects of the environment that should be considered by writing to or participating in public scoping meetings which will be held in January 1990. Notice will also be mailed to groups and individuals, agencies and anyone responding to this Notice of Intent desiring to be informed on the details of the upcoming public participating meetings. Questions and comments regarding the scope of the environmental analysis and documentation should be submitted to the Harry Diamond Laboratories Public Affairs Officer: Director, U.S. Army Laboratory Command, Harry Diamond Laboratories, ATTN: Public Affairs Officer, 2800 Powder Mill Road, Adelphi, MD 20783–1145; Area Code (202) 39402208.

Comments and suggestions should be received no later than 15 days following the public scoping meetings to be considered in the Draft EIS (DEIS).

Dated: October 24, 1989.

Lewis D. Walker,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health) OASA (I&L).

[FR Doc. 89–25402 Filed 10–26–89; 8:45 am]

BILLING CODE 3710-08-M

Corps of Engineers

Intent To Prepare a Draft Supplemental Environmental Impact Statement (DSEIS) for the Western Long Island Sound Dredged Material Disposal Site

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: In 1982 the New England Division (NED) of the U.S. Army Corps of Engineers prepared a Final Environmental Impact Statement (FEIS) and Record of Decision for a dredged material disposal site in Western Long Island Sound named WLIS III. Disposal began at the site in 1982. Pursuant to the lawsuit Town of Huntington, et al. v. Marsh, the United States District Court, Eastern District of New York found the 1982 FEIS deficient in its discussion of the nature, quantities, and cumulative effects of disposal from site use. The Court also found that in accordance with a 1980 amendment (33 U.S.C. Sec. 1416(f)) to the Ocean Dumping Act (ODA) the FEIS should have specifically applied the site selection criteria of the ODA (33 U.S.C. Sec. 1412) and Ocean Dumping Regulations (40 CFR part 228) to this Clean Water Act site selection. the Court has ordered NED to Supplement the 1982 FEIS to remedy these deficiencies.

FOR FURTHER INFORMATION CONTACT: Dr. Thomas J. Fredette, Regulatory Branch, New England Division, U.S. Army Corps of Engineers, 424 Trapelo

BEST COPY AVAILABLE

VOL 54 ISS 207 OCT 27 1989 UMI

Road, Waltham, MA 02254–9149. Telephone: 617/647–8563.

SUPPLEMENTARY INFORMATION: The DSEIS will address the deficiencies identified by the Court by analyzing (1) sediment testing and volume data from permitted and Federally managed disposal projects that have used the site since 1982 and (2) results from over six years of environmental monitoring conducted by NED in and around the site. The Final Environmental Impact Statement for Western Long Island Sound was published in February 1982 and a Notice of Availability was published in the **Federal Register** in Vol. 47, No. 30, page 6483.

Copies of the DSEIS will be sent to recipients listed on the mailing list for the FEIS and any other interested parties providing requests.

The Draft Supplemental Environmental Impact Statement will be available on or after 16 October 1989.

Dated: October 6, 1989.

Daniel M. Wilson,

Colonel, Corps of Engineers, Division Engineer.

BILLING CODE 3710-24-M

DEPARTMENT OF ENERGY

Assistant Secretary for International Affairs and Energy Emergencies

Proposed Subsequent Arrangement With Australia

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the agreement for Cooperation between the Government of the United States of America and the Government of Australia concerning Peaceful Uses of Nuclear Energy, and the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) concerning Peaceful Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above-mentioned agreements involves approval of the following retransfer: RTD/EU(AU)–7, for the return of a damaged unirradiated fuel element to the United Kingdom from Australia for repair and eventual return to Australia. The element contains 280.32 grams of uranium enriched to approximately 60 percent in the isotope uranium-235.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: October 24, 1989.

Richard H. Williamson,

Deputy Assistant Secretary for International Affairs.

[FR Doc. 89–25391 Filed 10–26–89; 8:45 am]

BILLING CODE 6450-01-M

Proposed Subsequent Arrangement With Taiwan

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" to be carried out in Taiwan under the Agreement for Cooperation Concerning Civil Uses of Atomic Energy, signed April 4, 1972, as amended.

The subsequent arrangement to be carried out under the above-mentioned agreement involves the joint determination that safeguards may be effectively applied to the Hot Laboratory at the Institute of Nuclear Energy Research in Taiwan and approval of the alteration in form or content of irradiated fuel elements from the Chinshan, Kuosheng, and Maanshan reactors. The aforementioned determination will be made, and the approval for the post-irradiation examination for the agreed upon program from the Chinshan, Kuosheng, and Maanshan reactors will be granted, for the period ending December 31, 1992.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: October 24, 1989.

Richard H. Williamson,

Deputy Assistant Secretary for International Affairs.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. QF90–4–000, et al.]

The City and County of Honolulu, et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

October 20, 1989.

Take notice that the following filings have been made with the Commission:

1. The City and County of Honolulu

[Docket No. QF90–4–000]

On October 5, 1989, The City and County of Honolulu (Applicant), of 650 South King Street, Honolulu, Hawaii 96285, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Oahu, Hawaii and will consist of two traveling grate waterwall boilers and a steam turbine generator. the net electric power production capacity of the facility will be 50 MW. The primary source of energy will be biomass in the form of municipal solid waste.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

2. Commonwealth Cogeneration Partners, L.P.

[Docket No. QF90–10–000]

On October 12, 1989, Commonwealth Cogeneration Partners, L.P. (applicant), of 2800 Post Oak Blvd., P.O. Box 1396, Houston, Texas 77251–1396, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in Hurt, Virginia. The facility will consist of two units each consisting of a boiler and an extraction/condensing steam turbine generator. Thermal energy recovered from the facility will be utilized by the Klopman Fabrics Divsion plant of the Burlington Industries, Inc. for process use such as fabric preparation, dying and cleaning, and for space heating and humidifcation. The maximum net electric power production capacity of the facility will be 123.6 MW. The primary source of energy will be coal.

Construction of the facility is scheduled to begin during the last quarter of 1990.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph:

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP89–86–000]

Chandeleur Pipe Line Co.; Informal Settlement Conference

October 23, 1989.

Take notice that an informal settlement conference will be convened in the above-proceeding on Tuesday, November 7, 1989, at 10:00 a.m. in a hearing room of the Federal Energy Regulatory Commission, 810 First Street, N.E., Washington, DC 20426.

Any party, as defined by 18 CFR 285.102(c), is invited to attend. Persons wishing to become a party must move to intervene and receive intervenor status pursuant to the Commission's regulations (18 CFR 385.214).

For additional information, please contact John J. Keating (202) 357–5762.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP90–14–000]

National Fuel Gas Supply Corp.; Proposed Tariff Changes

October 20, 1989.

Take notice that on October 19, 1989, National Fuel Gas Supply Corporation (National) tendered for filing Twenty-Third Revised sheet No. 4 to its FERC Gas Tariff, First Revised Volume No. 1, with a proposed effective date of November 1, 1989, subject to refund.

National states that the purpose of its filing is to revise National's FERC Gas Tariff, to the limited extent necessary, to reflect in National's base rates the costs which result from converting firm sales service provided by its pipeline-suppliers to firm transportation service.

Further, National tendered for filing this rate change and requested that this proceeding be consolidated with Docket No. RP89–49–000, since the test period in Docket No. RP89–49–000 closed on July 1, 1989, and these costs will commence on November 1, 1989.

National states that copies of this filing were served on National's jurisdictional customers and on interested state commissions.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 27, 1989, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motions to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP90–76–000]

United Gas Pipe Line Co.; Request Under Blanket Authorization

October 23, 1989.

Take notice that on October 18, 1989, United Gas Pipeline Company (United), P.O. Box 1478, Houston, Texas 77251, filed in Docket No. CP90–76–000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas under the blanket certificate issued in Docket No. CP88–6–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

United proposes to transport natural gas on an interruptible basis for Transco Energy Marketing Company (TEMCO). United explains that service commenced September 5, 1989, under § 284.223(a) of the Commission's Regulations, as reported in Docket No. ST89–4859. United explains that the peak day quantity would be 360,500 MMBtu, the average daily quantity would be 360,500 MMBtu, and that the annual quantity would be 131,582,500 MMBtu. United explains that it would receive natural gas for TEMCO's account at various receipt points located in Offshore Texas. United states that it would redeliver the gas at existing interconnections in Offshore Texas.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. CP90–71–000, et al]

Southern Natural Gas Co., et al.; Natural Gas Certificate Filings

October 20, 1989.

Take notice that the following filings have been made with the Commission:

1. Southern Natural Gas Company

[Docket No. CP90–71–000]

Take notice that on October 17, 1989, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202–2563, filed in Docket No. CP90–71–000 a request pursuant to §§ 157.205 and 284.223(b) of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service for Texican Natural Gas Company (Texican), a marketer, under its blanket certificate issued in Docket No. CP88–316–000 pursuant to section 7

VOL 54 ISS 207 OCT 27 1989 UMI

of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Southern states that the maximum daily, average daily and annual quantities that it would transport for Texican would be 1,000 MMBtu equivalent of natural gas, 100 MMBtu equivalent of natural gas and 36,500 MMBtu equivalent of natural gas, respectively.

Southern states that it would transport natural gas for Texican from various receipt points in Louisiana, offshore Louisiana, Texas, offshore Texas, Mississippi and Alabama to various delivery points in Mississippi.

Southern indicates that in a filing made with the Commission in Docket ST89-4742, it reported that transportation service for Texican commenced on September 1, 1989 under the 120-day automatic authorization provisions of § 284.223(a).

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

2. United Gas Pipe Line Company

[Docket No. CP90-74-000]

Take notice that on October 18, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-74-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Phoenix Gas Pipeline Company (Phoenix), an intrastate pipeline company, under the blanket certificate issued in Docket No. CP88-6-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

United states that pursuant to a transportation agreement dated December 6, 1988, as amended on July 20, 1989, under its Rate Schedule ITS, it proposes to transport up to 103,000 MMBtu per day equivalent of natural gas for Phoenix. United states that it would transport the gas from multiple receipt points as shown in Exhibit "A" of the transportation agreement and would deliver the gas to multiple delivery points shown in Exhibit "B" of the agreement.

United advises that service under § 284.223(a) commenced August 14, 1989, as reported in Docket No. ST90-32-000 (filed October 3, 1989). United further advises that it would transport 103,000 MMBtu on an average day and 37,595,000 MMBtu annually.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

3. Transcontinental Gas Pipe Line Corporation

[Docket No. CP90-54-000]

Take notice that on October 13, 1989, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP90-54-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide transportation service for South Energy Company (Shipper) under the blanket certificate issued in Docket No. CP88-328-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Transco states that it proposes to transport up to 200,000 dekatherms (dt) per day equivalent of natural gas for Shipper. Transco states that it would transport the gas from receipt points located offshore and onshore Louisiana, onshore and offshore Texas, and onshore Mississippi and would deliver the gas at a delivery point in New Jersey.

Transco advises that service under § 284.223(a) commenced September 8, 1989, as reported in Docket No. ST90-25. Transco further advises that it would transport 50,000 dt on an average day and 18,250,000 dt annually.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

4. United Gas Pipe Line Company

[Docket No. CP90-77-000]

Take notice that on October 18, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-77-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations for authorization to provide interruptible transportation service on behalf of Texaco Inc., a producer of natural gas, under United's blanket certificate issued in Docket No. CP88-6-000, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

United states that the interruptible gas transportation agreement, dated May 11, 1988, as amended on July 26, 1989, proposes to transport a maximum daily quantity of 51,500 MMBtu, an average day quantity of 51,500, and an annual quantity of 18,797,500, and that service commenced on August 22, 1989, as reported in Docket No. ST89-4839-000, pursuant to section 284.223(a) of the Commission's Regulations. United would receive gas from various points of receipt in Texas, and redeliver at various points of delivery in Texas. United further states that existing facilities would be used to provide this transportation service.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

5. United Gas Pipe Line Company

[Docket No. CP90-75-000]

Take notice that on October 18, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-75-000, a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) and Natural Gas Policy Act (18 CFR 284.223) for authorization to provide a transportation service for Ames Financial Incorporated (Ames), a marketer of natural gas, under United's blanket certificate issued in Docket No. CP88-6-000 pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

United proposes to transport, on an interruptible basis, up to 2,060 MMBtu of natural gas equivalent per day for Ames pursuant to a transportation agreement dated July 14, 1989, between United and Ames. United would receive natural gas at an existing receipt point in Louisiana and redeliver equivalent volumes of gas at an existing delivery point in Louisiana.

United further states that the estimated average daily and annual quantities would be 2,060 MMBtu and 751,900 MMBtu respectively. Service under § 284.223(a) commenced August 25, 1989, as reported in Docket No. ST90-90-000, it is stated.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

6. Columbia Gas Transmission Corporation

[Docket No. CP90-60-000]

Take notice that on October 16, 1989, Columbia Gas Transmission Corporation (Columbia Gas), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP90-60-000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon sales service to Pendelton County Water District (Pendelton) Kentucky, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Columbia Gas states that Pendelton, a wholesale customer, has been acquired by Union Light Heat and Power Company (Union) also an existing customer of Columbia Gas. It is indicated by Columbia Gas that Pendelton and Union requested that Columbia Gas abandon the existing sales service of 1,600 Dth of gas per day being rendered to Pendelton under Columbia Gas' Rate Schedule SGS.

Upon receipt of the requested abandonment authorization, Columbia Gas proposes to terminate its existing service agreement with Pendelton and add to Union's service agreement the Wesley Chapel delivery point at which gas service is presently being rendered by Columbia Gas to Pendelton. The application states that Columbia Gas has entered into an agreement dated May 14, 1987, with Pendelton and Union whereby Pendelton's existing service will be absorbed under Union's existing service agreement with no increase in volumes under Columbia Gas' Rate Schedule CDS.

Comment date: November 13, 1989, in accordance with Standard Paragraph F at the end of this notice.

7. Great Lakes Gas Transmission Company

[Docket No. CP89-55-000]

Take notice that on October 13, 1989, Great Lakes Gas Transmission Company (Great Lakes), 2100 Buhl Building, Detroit, Michigan 48226, file in Docket No. CP90-55-000 an application pursuant to section 7(b) of the Natural Gas Act (NGA) for permission and approval authority to abandon natural gas transportation service for Michigan Consolidated Gas Company (MichCon), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Great Lakes states that by order issued May 6, 1967 in Docket No. CP66-696-000, 39 FERC ¶62,147 (1987), the Commission authorized Great Lakes to provide firm transportation service under Rate Schedule T-15 for MichCon from the Emerson Interconnection to the following measuring stations located within Michigan on Great Lakes' system: Crystal Falls, Rapid River, Rudyard, Sault Ste. Marie, Mackinaw City, Pellston, Boyne City/Petoskey, Gaylord, and Belle River Mills. Great Lakes states that this transportation service replaced prior sales service authorized in Dockets Nos. CP66-110, 37 FPC 1070 (1976), and CP70-19, 43 FPC 635 (1970).

Great Lakes states that the underlying Transportation Service Agreement provides for up to 59,576 Mcf per day of firm transportation until October 31, 1990, and for up to 57,000 Mcf of firm transportation from November 1, 1990 through November 1, 1991. Great Lakes states that by its terms, the Transportation Service Agreement terminates on November 1, 1991, and that the agreement does not provide for continuation after the termination date.

Great Lakes states that the daily volumes transported by MichCon vary from extensive overrun interruptible volumes to daily usage of less than 1,000 Mcf, and that MichCon's contracted Rate Schedule T-15 volumes represent only four percent of Great Lakes' total firm contracted system volumes. Further, Great Lakes states that Great Lakes-transported volumes represent only 1.6% of the projected system-supply mix included within MichCon's 1990 Gas Cost Recovery Plan filed with the Michigan Public Service Commission, Docket No. U-9434, and that MichCon's projected utilization of Great Lakes' system during the period of 1990 through 1994 reflects less than 15% of MichCon's contracted capacity on Great Lakes' system.

Great Lakes states that in two Commission proceedings, Docket Nos. CP89-892-000 and CP89-1898-000, it is presently proposing to expand its system to permit the movement of Western Canadian natural gas to serve the Northeast United States markets; and that MichCon has intervened in and protested those proceedings, arguing that incremental costs should be used to set rates. Great Lakes states that, in its intervention in Docket No. CP89-892-000, MichCon requested the Commission to permit it to reduce its Rate Schedule T-15 contract entitlements because of Great Lakes' expansion proposals. In MichCon's view, any relinquished capacity could be used to reduce the proposed expansion.

Given MichCon's stated desire to reduce or to eliminate its firm contracted capacity on Great Lakes' system and the small percentage of MichCon's system supply that the Great Lakes-transported volumes represent, Great Lakes states that it is hereby offering to abandon MichCon's firm transportation service prior to the existing Transportation Service Agreement's November 1, 1991 termination date.

Great Lakes agrees with MichCon that any relinquished firm capacity may be used to reduce the planned system expansion. Further, Great Lakes states that the public convenience and necessity will be served by releasing existing capacity that will permit either a reduction in planned system capacity additions, or increased firm capacity availability under Great Lakes' recently-filed open access tariff, Docket No. CP89-2198-000, for those shippers needing firm transportation service through Great Lakes' system. Great Lakes request that the Commission grant it authority to abandon Rate Schedule T-15 firm transportation service for MichCon effective November 1, 1990. Great Lakes request the Commission to issue its order authorizing the abandonment on or before May 1, 1990 to provide MichCon, if necessary, the opportunity to arrange for alternatives, and to also allow Great Lakes some lead time to determine an appropriate utilization of the released capacity. Great Lakes states that, if MichCon desires, it will establish a new maximum daily contract level to provide service to certain small communities served by MichCon that physically rely upon Great Lakes for transportation of a natural gas supply. Great Lakes states that only a transportation service obligation will be abandoned and that facilities will not be abandoned.

Comment date: November 13, 1989 in accordance with Standard Paragraph F at the end of the notice.

8. ANR Pipeline Company

[Docket No. CP90-58-000]

Take notice that on October 13, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90-58-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Entrade Corporation, under the blanket certificate issued in Docket No. CP88-532-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission.

ANR states that pursuant to a Transportation Agreement dated October 21, 1988, it proposes to transport, on an interruptible basis, up to a maximum of 10,000 dth of natural gas for Entrade under Rate Schedule ITS. ANR states that it would receive the gas at ANR's existing points of receipt located in Oklahoma, Texas, Louisiana, Kansas, Kentucky, Ohio, Wisconsin, Michigan, and Illinois and offshore Louisiana and Texas gathering areas and redeliver the gas for the account of Entrade at existing interconnections located in Ohio.

ANR states that it will transport approximately 100,000 dth on an average

VOL 54 ISS 207 OCT 27 1989 UMI

day and approximately 36,500,000 dth on an annual basis.

ANR further states it commenced this service on August 19, 1989, as reported in Docket No. ST90-46-000.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

9. Southern Natural Gas Company

[Docket No. CP90-72-000]

Take notice that on October 17, 1989, Southern Natural Gas Company (Southern) P.O. Box 2563, Birmingham, Alabama 35303-2563, filed in Docket No. CP90-72-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Centran Corporation (Centran) under the authorization issued in Docket No. CP88-316-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Southern would perform the proposed transportation service for Centran, a marketer of natural gas, pursuant to a service agreement dated August 25, 1989, under Southern's Rate Schedule IT (Service Agreement No. 851960). It is stated that the term of the service agreement is effective from August 25, 1989, and shall be in full force and effect for a primary term of one month and shall continue and remain in force and effect for successive terms of one month thereafter until cancelled by either party giving five days written notice to the other party. Southern proposes to transport on a peak day up to 1,500 MMBtu; on an average day 1,000 MMBtu; and on an annual basis 365,000 MMBtu of natural gas for Centran. Southern proposes to receive the gas at various receipt points in offshore Texas, offshore Louisiana, Texas, Louisiana, Mississippi, and Alabama for delivery to various points in Alabama. Southern asserts that no new facilities are required to implement the proposed service.

Southern states that it would perform such transportation service for Centran pursuant to its Rate Schedule IT. It is explained that the proposed service is currently being performed pursuant to the 120-day self implementing provision of § 284.223(a)(1) of the Regulations. Southern commenced such self-implementing service on September 1, 1989, as reported in Docket No. ST89-4743-000.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

10. United Gas Pipeline Company

[Docket No. CP90-64-000]

Take notice that on October 10, 1989, United Gas Pipeline Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-64-000 a request pursuant to §§ 157.205 and 284.223 (18 CFR 157.205 and 284.223) of the Commission's Regulations under the Natural Gas Act for authority to provide interruptible transportation service for American Central Gas Companies, Inc. (American) a marketer of natural gas, under United's blanket transportation certificate which was issued by Commission order on January 15, 1988, in Docket No. CP88-6-000, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

United indicates that it will receive the gas from American at various existing interconnections in the States of Louisiana, Texas and Mississippi and deliver the gas for the account of American at various interconnections in the States of Louisiana, Texas, Mississippi and Alabama. United will transport the gas pursuant to its Rate Schedule ITS.

United proposes to transport up to 185,000 MMBtu of gas per peak and average day and approximately 67,671,000 MMBtu of gas annually. United indicates that the transportation service commenced under the 120-day automatic authorization of § 284.223(a) of the Commission's Regulations on September 5, 1989, pursuant to a transportation agreement dated November 9, 1988. United notified the Commission of the commencement of the transporation service in Docket No. ST89-4861-000 on September 29, 1989.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TM90-2-7-000]

South Georgia Natural Gas Co.; Proposed Changes in FERC Gas Tariff

October 20, 1989.

Take notice that South Georgia Natural Gas Company (South Georgia) on October 13, 1989, tendered for filing Thirteenth Revised Sheet Nos. 76 and 106 to the First Revised Volume No. 2 of its FERC Gas Tariff. The proposed revised tariff sheets would flow through to South Georgia's two gas storage customers reduced storage transportation charges billed to South Georgia by Southern Natural Gas Company (Southern).

South Georgia states that the Commission's August 22, 1980 order in the captioned proceeding permits South Georgia to flow through to its two storage customers any changes in the amounts which the Commission authorizes Southern to charge South Georgia for storage transportation services. South Georgia further states that the Commission recently accepted for filing to be effective September 1, 1989, subject to refund, revised tariff sheets filed by Southern which reduced Southern's storage transportation charges to South Georgia.

South Georgia requests waivers of § 154.51 of the Commission's Regulations and any other waivers necessary to make the revised tariff sheets effective as of September 1, 1989, the date of the decrease in Southern's charges to South Georgia.

Copies of this filing were served on the two jurisdictional customers affected by the filing, interested state commissions and all parties in the captioned proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such petitions or protests should be filed on or before October 30, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Office of Fossil Energy

[ERA Docket No. 81-04-NG]

Boundary Gas, Inc.

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of final order to import natural gas from Canada.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice that it has issued a final order to Boundary Gas, Inc. (Boundary) removing a condition imposed on Boundary's authorization to import natural gas from Canada. On August 9, 1982, Boundary was conditionally authorized in DOE/ERA Opinion and Order No. 45 (Order 45), 1 ERA Para. 70,539, to import up to 185,000 Mcf of Canadian natural gas per day. The authorization was conditioned upon completion of an environmental review of Boundary's import arrangements. Boundary subsequently reduced the scope of its import project and divided it into two phases. The first phase, Boundary Phase I, involved importing 40,000 Mcf per day commencing November 1, 1984, and continuing until facilities were available for Phase II, at which time 92,500 Mcf per day would be imported. The DOE, after reviewing the environmental impact of Phase I, reaffirmed its decision in Order 45 and removed the condition for the Phase I volumes on February 8, 1984, in DOE/ERA Opinion and Order No. 45-B, 1 ERA Para. 70,560. After reviewing the entire record of the Boundary proceedings, including an environmental analysis of the Phase II project, the DOE determined that the Boundary Phase II import arrangement is not inconsistent with the public interest and, therefore, removed the condition from Order 45 for the Phase II volumes.

A copy of the order is available for inspection and copying in the Office of Fuels Programs Docket Room, Room 3F-056, Forrestal Building, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, October 19, 1989.

Clifford P. Tomaszewski,

Acting Director, Natural Gas Office, Office of Fuels Programs, Office of Fossil Energy.

BILLING CODE 6450-01-M

[FE Docket No. 89-51-NG]

Harbert Energy Corp.; Order Granting Blanket Authorization To Import and Export Natural Gas

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of order granting blanket authorization to import natural gas from Canada and Mexico, and to export natural gas to Mexico and Canada.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that it has issued an order granting Harbert Energy Corporation (Harbert) blanket authorization in FE Docket No. 89-51-NG to import up to 100 Bcf of Canadian and Mexican natural gas and to export to Canada and Mexico up to 100 Bcf of domestically-produced natural gas for a term of two-years beginning on the dates of first deliveries.

A copy of this order is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F-056, Forrestal Building, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, October 13, 1989.

Constance L. Buckley,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 89-25383 Filed 10-26-89; 8:45 am]

BILLING CODE 6450-01-M

[FE Docket No. 89-53-NG]

Valero Industrial Gas, L.P.; Order Amending and Extending Blanket Authorization To Export Natural Gas to Mexico

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of order amending and extending blanket authorization to export natural gas to Mexico.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy gives notice that it has issued an order amending and extending Valero Industrial Gas, L.P.'s (Vigas) existing blanket authorization to export natural gas to Mexico. The order authorizes Vigas to export up to 150 Bcf of natural gas for a two-year period beginning November 1, 1989, through November 1, 1991.

A copy of this order is available for inspection and copying in the Office of Fuels Programs' Docket Room, 3F-056,

VOL 54 ISS 207 OCT 27 1989 UMI

Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, October 23, 1989.

Constance L. Buckley,

Deputy Assistan: Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 89–25394 Filed 10–26–89; 8:45 am]

BILLING CODE 6450–01–M

[Docket No. FE C&E 90–02; Certification Notice—50]

Filing Certification of Compliance: Coal Capability of New Electric Powerplant

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of filing.

SUMMARY: Title II of the Powerplant and Industrial Fuel Use Act of 1978, as amended ("FUA" or "the Act") (42 U.S.C. 8301 *et seq.*) provides that no new electric powerplant may be constructed or operated as a base load powerplant without the capability to use coal or another alternate fuel as a primary energy source (section 201(a), 42 U.S.C. 8311 (a), Supp. V. 1987). In order to meet the requirement of coal capability, the owner or operator of any new electric powerplant to be operated as a base load powerplant proposing to use natural gas or petroleum as its primary energy source may certify, pursuant to section 201(d), to the Secretary of Energy prior to construction, or prior to operation as a base load powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with section 201(a) as of the date it is filed with the Secretary. The Secretary is required to publish in the **Federal Register** a notice reciting that the certification has been filed. Two owners and operators of proposed new electric base load powerplants have filed self certifications in accordance with section 201(d).

Further information is provided in the **SUPPLEMENTARY INFORMATION** section below.

SUPPLEMENTARY INFORMATION: The following companies have filed self certifications:

Name	Date received	Type of facility	Megawatt capacity	Location
Megan-Racine Associates Inc., Tampa, FL	10–11–89	Combined cycle	49	Canton, NY
Lee Mass Cogeneration Co., Omaha, NE	10–16–89	Combined cycle	108	Lee, MA.

Amendments to the FUA on May 21, 1987, (Pub. L. 100–42) altered the general prohibitions to include only new electric base load powerplants and to provide for the self certification procedure.

Copies of this self certification may be reviewed in the Office of Fuels Programs, Fossil Energy, Room 3F–056, FE–52, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, phone number (202) 586–6769.

Issued in Washington, DC, on October 23, 1989.

Constance L. Buckley,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 89–25395 Filed 10–26–89; 8:45 am]

BILLING CODE 6450–01–M

Office of Hearings and Appeals

Issuance of Decisions and Orders, Week of June 26 Through June 30, 1989

During the week of June 26 through June 30, 1989, the decisions and orders summarized below were issued with respect to applications for relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeal

Benedetto Enterprises, Inc., 06/30/89, KFA–0288

Benedetto Enterprises, Inc., (Benedetto) filed an Appeal from a determination issued by the Manager of the Chicago Operations Office of the Department of Energy (DOE). The determination denied, in part, a Request for Information which Benedetto had filed with the DOE's Brookhaven National Laboratory (BNL) under the Freedom of Information Act. Benedetto requested from the BNL the reasons why a solicitation for proposals for the operation of an on-site gas station at BNL was cancelled copies of the submitted proposals and copies of documents relating to the decision to cancel the solicitation. In considering the Appeal, the DOE found that the Director had properly applied Exemption 5 to the majority of the documents in question, because they were predecisional. However, the DOE released redacted copies of two documents that contained non-deliberative and segregable factual material.

Request for Exception

North Georgia Petroleum, Company, 06/29/89, KEE–0172

The North Georgia Petroleum Company (NGPC) filed an Application for Exception from the Energy Information Administration (EIA) reporting requirements in which the firm sought relief from filing Form EIA–782B, entitled "Reseller/Retailers' Monthly Petroleum Product Sales Report." In considering the request, the DOE found that the firm was not adversely affected by the reporting burden in a way that is significantly different from the burden borne by similar reporting firms. Accordingly, exception relief was denied.

Motion for Discovery

Southwestern Refining Co., Inc., the Crude Company Economic Regulatory Administration, 06/30/89, KRD–0490, KRD–0491, KRZ–0490

The Economic Regulatory Administration (ERA) filed a motion to amend the Proposed Remedial Order (PRO) issued to the Southwestern Refining Co., Inc. (SRCI) and The Crude Company (TCC) on December 15, 1986. The DOE granted the ERA's motion to add the legal finding that TCC was liable for the alleged overcharges on the basis of its tortuous conduct as an animating force in the alleged regulatory violations. Both SRCI and TCC filed Motions for Discovery in connection with their Statements of Objections to the PRO. The DOE denied SRCI's and TCC's requests for contemporaneous construction discovery of Section 211.67(e), finding that the firms had not demonstrated that the regulation was ambiguous with respect to prohibiting the receipt of Smaller Refiner Bias (SRB) Entitlements for crude oil refined pursuant to certain types of processing agreements. Similarly, the DOE denied TCC's requests for contemporaneous construction discovery of key terms in the processing agreement definition and concerning the application of 10 CFR 205.202 to entitlements violations. The DOE also denied TCC discovery regading the ERA's legal positions that small refiners must direct the flow of crude oil in order to have been eligible for SRB benefits, (ii) TCC was liable as an animating force in the entitlements violations of SRCI, and (iii) certain amounts of interest should be added to the firms' refund obligation. Accordingly, the SRCI and TCC discovery requests were denied.

Interlocatory Order

Economic Regulatory Administration/ Kern Oil & Refining Company, 06/30/89, KRZ–0527

The Office of Hearings and Appeals considered a Motion filed by the Economic Regulatory Administration to formally amend a Proposed Remedial Order (PRO) issued to Kern Oil & Refining Company to include an additional theory of liability. The OHA found first that it had authority to consider additional theories irrespective of whether the PRO is formally amended to include them. It is also rejected the firm's arguments that the proposed amendment was prejudicial and barred by the statute of limitations contained in the Petroleum Overcharge Distribution and Restitution Act of 1986. Accordingly, the ERA's Motion was granted.

Refund Applications

Andalex Resources et al., 06/29/89, RF272–32550, et al.

The DOE issued a Decision and Order granting refunds from crude oil coverage funds to five applicants based on their respective purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. Each applicant was an end-user of the products involved and was therefore presumed injured by the alleged crude oil overcharge. The sum of the refunds granted in this Decision is $18,231.

Atlantic Richfield Company/Hassel Oil Company, Inc. et al., 06/29/89, RF304–993 et al.

The DOE issued a Decision and Order concerning eight Applications for Refund filed in the Atlantic Richfield Company special refund proceeding. Each of the applications was a reseller that requested a refund in excess of $5,000. Rather than attempt to demonstrate injury, each applicant elected to limit its refund to the 41% mid-range injury presumption. The refunds granted in this Decision totaled $131,839 including interest.

Atlantic Richfield Company/Stem Mar Arco et al., 06/27/89, RF304–693 et al.

The DOE issued a Decision and Order concerning twelve applications for refund filed in the Atlantic Richfield Company (ARCO) special refund proceeding. All of the applicants were reseller/retailers requesting refunds of less than $5,000. Therefore, each applicant was presumed injured. The refunds granted in this Decision totaled $7,283 including interest.

City of Seattle, 06/28/89, RF272–14539

The DOE issued a Decision and Order determining that the City of Seattle was ineligible for a Subpart V crude oil refund because it waived its rights and those of its affiliates to such a refund by participating in the Stripper Well agreement, as a claimant in the Refiners' Escrow.

Crown Central Petroleum Corporation/ Adams Resources & Energy, Inc., 06/27/89, RF313–147

The DOE issued a Decision and Order containing an Application for Refund filed in the Crown Central Petroleum Corporation special refund proceeding by Adams Resources & Energy, Inc. (Adams), a purchaser of Crown refined petroleum products. The DOE found that Adams experienced a competitive disadvantage in all of its purchases of Crown gasoline during the refund period and granted Adams a refund of $93,247 including interest.

Crown Central Petroleum Corporation/ Davis Oil Company, Inc. et al., 06/29/89, RF313–6 et al.

The DOE issued a Decision and Order considering six Applications for Refund filed in the Crown Central Petroleum Corporation special refund proceeding. Each applicant was found to be eligible for a refund based on a presumption of injury. The total refund approved in this Decision was $48,651, including interest.

Crown Central Petroleum Corporation/ North Georgia Petroleum Co. et al., 06/28/89, RF313–22 et al.

The DOE issued a Decision and Order considering six Applications for Refund filed in the Crown Central Petroleum Corporation special refund proceeding. Each applicant was found to be eligible for a refund based on the applicable presumption of injury. The total refund approved in this Decision was $48,416, representing $41,100 in principal plus $7,316 in accrued interest.

Davis & Davis Farms et al., 06/27/89, RF272–27030 et al.

The DOE issued a Decision and Order granting 10 Applications for Refund filed in the crude oil overcharge refund processing. The applicants were found to be end-users of the refined petroleum products upon which their claims were based. They were therefore presumed injured by the alleged crude oil overcharges. The sum of the refunds granted in this Decision is $41,836.

Dorchester Gas Company/National Coop. Refinery Assoc., 06/26/89, RF253–62

The DOE considered an Application for Refund in the Dorchester Gas Corporation refund proceeding. The applicant, National Cooperative Refinery Association (National) is an agricultural cooperative which purchased Dorchester butane through Liquid Petroleum Corporation (Liquid). Since Liquid apparently absorbed 44% of the alleged Dorchester overcharges, Liquid's downstream customer, National, was eligible to receive 56% of its allocable share. National certified that it would pass through, on a dollar-for-dollar, basis any refund received. The total refund granted in this Decision is $71,691 including interest.

Exxon Corporation/Carter & Hensley Oil Co., Herman J. Hensley, 06/27/89, RF307–2781, RF307–9980

The DOE issued a Decision and Order concerning an Application for Refund filed in the Exxon Corporation special refund proceeding by Carter & Carter Petro., Inc. (Carter), a successor to Carter & Hensley Oil Co. (C & H). C & H, a partnership owned by Arnold Carter and Herman J. Hensley during the Exxon consent order period, purchased directly from Exxon and was a reseller of Exxon products whose allocable share is less than $5,000. Carter, a corporation formed in 1982 and owned by Arnold Carter and Charles A. Carter, submitted an Application based on purchases made by C & H during the entire Exxon consent order period, although Carter did not purchase Mr. Hensley's 50 percent partnership interest in C & H until after the end of that period. Because the contract transferring Mr. Hensley's 50 percent partnership interest in C & H to Carter did not specify potential refunds as an asset being transferred, the DOE determined that partners Arnold Carter and Herman J. Hensley, were each entitled to receive a refund equal to half of the total volumetric amount.

VOL 54 ISS 207 OCT 27 1989 UMI

Therefore, each refund recipient received a refund of $1,201, half of the total refund of $2,402.

Exxon Corporation/Thoro Service Center et al., 06/29/89, RF307–4625 et al.

The DOE issued a Decision and Order concerning seven Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the Applicants was either an Exxon reseller whose allocable share is less that $5,000 or an end-user of Exxon products. The DOE determined that each applicant was eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $7,090 ($5,912 in principal plus $1,178 in interest).

Getty Oil Company/Smallwood Gas Company, 06/27/89, RR285–2

The DOE issued a Decision and Order granting a supplemental refund to Smallwood Gas Company in the Getty Oil Company refund proceeding. Based on documentation of further purchases of Getty propane, the DOE approved an additional $4,403 in principal plus accrued interest of $4,697 for Smallwood.

Gulf Oil Corporation/Butler's Gulf Service et al., 06/26/89, RF300–58 et al.

The DOE issued a Decision and Order concerning five Applications for Refund submitted in Gulf Oil Corporation special refund proceeding. Each applicant established that it purchased some or all of its Gulf products indirectly from a Gulf jobber. The jobbers that supplied these five applicants either have not applied in the Gulf proceeding, have not attempted to prove injury, or have already received a refund in the Gulf proceeding under an injury presumption. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including accrued in interest, is $11,765.

Gulf Oil Corporation/Francis Ryan, Inc., Bob Yeiser Gulf, 06/29/89, RF300–4271, RF300–4572

The DOE issued a Decision and Order concerning two Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. The Applications were approved using a presumption of injury. The sum of the refunds granted in this Decision, including accrued interest, is $13,282.

Gulf Oil Corporation/Riverfront Gulf Service, Inc. et al., 06/30/89, RF300–10638 et al.

The DOE issued a Supplemental Order correcting the appendix to Gulf Oil Corporation/Riverfront Gulf Service, Inc., *et al.*, 19 DOE ¶ 85,088, (1989). The total correct volume approved in that Decision and Order was 16,639,953 gallons and the correct total refund approved was $14,145.

Gulf Oil Corporation/L.C. Livingston et al., 06/28/89, RF300 et al.

The DOE issued a Decision and Order concerning five Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. The Applications were approved using a presumption of injury. The sum of the refunds granted in this Decision including accrued interest is $8,476.

H. Keith Crook et al., 06/27/89, RF272–22212 et al.

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to nine claimants based on their respective purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. Each applicant demonstrated the volume of its claim either by consulting actual records or by using a reasonable estimate of its purchases. Each applicant was an end-user of the products it claimed and was therefore presumed injured by the alleged crude oil overcharges. The sum of the refunds granted in this Decision is $34,399.

J. H. Alexander et al., 06/27/89, RF272–4642 et al.

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to four applicants based on their respective purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. Each applicant used actual records and/or estimates to report its gallonage claim. Each applicant was an end-user of the products it claimed and was therefore presumed to be injured by the alleged crude oil overcharges. The sum of the refunds granted in this Decision is $1,079.

Joe's Exxon Service et al., 06/28/89, RF272–54188 et al.

The DOE issued a Decision and Order, denying forty Applications for Refund filed in the Subpart V crude oil refund proceeding. Each applicant was either a reseller or a retailer during the period August 19, 1973 through January 27, 1981. Because none of the applicants demonstrated that it was injured due to the crude oil overcharges, they were ineligible for a crude oil refund.

Key Oil Company/Gallatin Oil Company, Allen Oil Company, Inc., 06/29/89, RF282–01, RF282–02

The DOE issued a Decision and Order concerning two Applications for Refund filed by resellers of diesel fuel covered by a Consent Order that the DOE entered into with Key Oil Company, Inc. Each of the applicants submitted a statement indicating that it purchased diesel fuel from Key during the Consent Order period and that it was willing to accept the portion of the Key settlement fund which was assigned to it during the audit of Key's records by the Economic Regulatory Administration. Each applicant was eligible for a refund below the $5,000 small claims threshold and was therefore not required to prove injury. The total refund approved in this Decision is $4,511, representing $3,014 in principal and $1,497 in accrued interest.

Mobil Oil Corporation/M. L. & D. C. Murray, Vernon H. Gauthier, 06/30/89, RF225–7421, RF225–9812, RF225–9813

The DOE issued a Decision and Order concerning refund applications filed by two consignee agents in the Mobil Oil Corporation special refund proceeding. The DOE found that both applicants had experienced a decline in their market shares as a result of Mobil's alleged overcharges. The DOE further determined that each was therefore injured by the amount of its lost sales volume of motor gasoline times the Mobil volumetric amount. Accordingly, M.L. & D.C. Murray was granted a refund of $216 ($171 in principal plus $45 in interest), and Vernon H. Gauthier was granted a refund of $1,195 ($948 in principal plus $247 in interest).

Mobil Oil Corporation/Noco Energy Corporation, 06/26/89, RF225–4188, RF225–4189, RF225–4190

The DOE issued a Decision and Order granting an Application for Refund filed by Noco Energy Corporation, a purchaser of motor gasoline, middle distillates and residual fuel oil from Mobil Oil Corporation. After examining the firm's cost banks for each product and applying a three-part competitive disadvantage test to each product, the DOE granted Noco a full volumetric refund of $57,789, including interest.

Murphy Oil Corporation/BP Oil Inc., 06/28/89, RF309–624

The DOE issued a Decision and Order concerning an Application for Refund filed by BP Oil Inc. in the Murphy Oil Corporation special refund proceeding. The DOE determined that BP was not eligible to receive a refund from the Murphy Consent Order fund because it was a spot pruchaser and did not rebut the spot purchaser presumption of no injury. Accordingly, BP's application was denied.

Murphy Oil Corporation/Mrs. Marvin Tindall & Lawrence McMillian et al., 06/28/89, RF309–705 et al.

The DOE issued a Decision and Order granting Applications for Refund filed by four purchasers of refined petroleum products sold by Murphy Oil Corporation. Each applicant was found to be eligible for refund of $5,000 or 40% of its full allocable share, whichever was greater. The total refund approved in this Decision was $57,122 including interest.

O'Connell Oil Company/Denny's Service Station, Bill's Auto Sales, 06/27/89, RF280–01, RF280–02

The DOE issued a Decision and Order concerning two Applications for Refund filed by retailers of motor gasoline covered by a consent Order that the DOE entered into with O'Connell Oil Compnay. The applicants submitted information indicating the volumes of their O'Connell motor gasoline purchases and were eligible for a refund below the $5,000 small claims threshold. The total refund approved in this Decision is $3,647 including interest.

Pine Bluff Sand & Gravel Co. et al., 06/27/89, RF272–14906 et al.

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to twenty-one applicants based on their respective purchases of refined petroleum products during the period August 19, 1973, through January 27, 1981. Each applicant was an end-user of the products it claimed and was therefore presumed injured by the alleged crude oil overcharges. The sum of the refunds granted in this Decision is $50,031.

Plaquemines Oil Sales Corp./Delta Marina, 06/30/89, RR305–1

The DOE issued a Decision and Order ganting in part a Motion for Reconsideration filed by Delta Marina (Delta) from a Decision partially granting the firm's Application for Refund in the Plaquemines Oil Sales Corp. (POSC) special refund proceeding. Using new data obtained from the firm, the DOE computed a larger cost bank for Delta and thus found that it was entitled to a principal refund of $19,689 based on those unrecouped product costs. The DOE also found merit in Delta's position that the prepayment interest on the POSC settlement fund could not be correlated to any overcharges incurred by Delta and that the firm should receive a pro rata share of that interest without being required to establish banked costs in that amount. Accordingly, the DOE determined that Delta was entitled to a total additional refund of $35,250 ($23,314 principal and $11,936 in accrued interest).

Standard Oil Co. (Indiana)/Indiana, 06/27/89, RM251–153

The DOE issued a Decision and Order approving a Motion for Modification filed by the State of Indiana in the Standard Oil Co. (Indiana) (Amoco II) refund proceeding. Indiana sought to transfer $77,928 in Amoco II refund proceeding. Indiana sought to transfer $77,928 in Amoco II monies from a previously approved program to its Fuel Saver Van Program. The program involves the outfitting of a van with a computer that, when attached to a car's engine, prints a list of adjustments needed to make the engine more efficient. The van travels to public places throughout the State, providing free car engine analyses to Indiana residents. The OHA determined that the program was restitutionary in nature and approved the State's motion.

Standard Oil Co. (Indiana)/Wisconsin, 06/27/89, RQ251–514

The DOE issued a Decision and Order granting a second-stage refund application filed by the State of Wisconsin in the *Standard Oil Co. (Indiana)* special refund proceeding on behalf of nine Wisconsin native American tribal organizations. The State proposed to use these funds for the weatherization of tribal homes. The OHA determined that this program would provide restitution to injured native American consumers of petroleum products and approval the State's plan.

Total Petroleum/Crawford Oil Company, 06/29/89, RF310–224

The DOE issued a Decision and Order concerning an Application for Refund filed in the Total Petroleum special refund preceeding by Crawford Oil Company, a retailer of Total motor gasoline. Using the small claims injury presumption, the DOE granted Crawford a refund of $5,914 ($5,000 principal and $914 interest).

Walker-Williams Lumber Co. Inc., 06/30/89, RF272–14529, RD272–14529

The DOE issued a Decision and Order concerning an Application for Refund filed in the Subpart V crude oil refund proceeding by Walker-Williams Lumber Co., Inc. (Walker), a manufacturer of pressure-treated lumber. A group of States and Territories (the States) objected to Walker's application on the ground that certain studies suggested that the lumber and forest products industry in general was able to pass through increased petroleum costs to consumers during the petroleum price controls period. In rejecting that argument and the States' Motion for Discovery, the DOE determined that the States had failed to show that Walker itself has passed through increased fuel costs. Accordingly, Walker's application was approved and the firm was granted a refund of $5,632.

Weyerhauser Company, Champion International Corporation, Federal Paper Board Company, Inc., 06/27/89, RF272–279, RF272–280, RF272–281, RF272–279, RF272–280, RF272–281

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to Weyerhauser Company (Weyerhauser), Champion International Corporation (Champion), and Federal Paper Board Company, Inc. (Federal), three pulp, paper and lumber manufacturers. In reaching its determination, the DOE rejected the objections to the applicants' claims submitted by a group of States and denied the States' Motions for Discovery. Specifically, the DOE stated that industry-wide data in general is insufficient to rebut the presumption that end-users outside of the petroleum industry were injured by crude oil overcharges. The DOE also determined that the States' showing of sustained growth and profitability of a particular industry or firm does not rebut the end-user presumption. The total refund granted to Weyerhauser was $1,330,335, the refund granted to Champion was $1,031,329 and the refund granted to Federal was $574,941.

The Office of Hearings and Appeals granted crude oil overcharge refunds to end-user applicants in the following Decisions and Orders:

CRUDE OIL END-USERS

Name	Case No.	Date	No. of applicants	Total refund
Bill Stone *et al*	FR272-70000	06/30/89	133	$16,658

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared October 9, 1989 through October 13, 1989 pursuant to the Environmental Review Process (ERP).

under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 7, 1989 (54 FR 15006).

Draft EISs

ERP No. D-AFS-D61034-PA, Rating LO, Allegheny Reservoir Motel-Restaurant Complex, Site Selection and Construction, Allegheny National Forest, Warren County, PA.

Summary: EPA has no objections to the proposed project.

ERP No. DS-AFS-J65105-CO, Rating EC1, Grand Mesa, Uncompahgre and Gunnison National Forests, Land and Resource Management Plan, Timber Management Amendment, Implementation, Delta, Garfield, Gunnison, Hinsdale, Mesa, Montrose, Ouray, Saguache, San Juan and San Miguel Counties, CO.

Summary: EPA's main issues concerning this project is the treatment of water as a "product" of vegetative management and the failure of the document to consider and incorporate impacts to this plan resulting from global climate change.

ERP NO. DS-COE-A30030-FL, Rating LO, Brevard County Beach Erosion Control Project, Updated Information, Implementation, Brevard County, FL.

Summary: EPA has no environmental objections to this project as described.

Final EISs

ERP No. F-BLM-J65149-UT, San Rafael Resource Area, Sevier River Resource Area, Forest Planning Unit and Henry Mountain Resource Area, Management Plan, Implementation, Emery, Sevier and Wayne Counties, UT.

Summary: EPA has no environmental concerns with the final EIS.

ERP No. F-BPO-J81006-CO, Florence Federal Correctional Institution Complex, Construction and Operation, Fremont County, CO.

Summary: EPA has environmental concerns that the waste generated by this facility not overtax the local capacity. EPA encourages BPO to reflect water conservation and waste management in the final design of this facility.

Dated: October 24, 1989.

William D. Dickerson,

Deputy Director, Office of Federal Activities.

BILLING CODE 6560-50-M

[OPTS-59279B; FRL 3663-4]

Certain Chemical Approval of a Test Marketing Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of an application for test marketing exemption (TME) under section 5(h)(1) of the Toxic Substances Control Act (TSCA) and 40 CFR 720.38. EPA has designated this application as TME-89-25. The test marketing conditions are described below.

EFFECTIVE DATE: October 18, 1989.

FOR FURTHER INFORMATION CONTACT: Heidi A. Siegelbaum, New Chemicals Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-611, 401 M St. SW., Washington, DC 20460, (202) 475-8262.

SUPPLEMENTARY INFORMATION: Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present any unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present any unreasonable risk of injury.

EPA hereby approves TME-89-25. EPA has determined that test marketing of the new chemical substance described below, under the conditions set out in the TME application, and for the time period and restrictions specified below, will not present any unreasonable risk of injury to health or the environment. Production volume, use, and the number of customers must not exceed that specified in the application. All other conditions and restrictions described in the application and in this notice must be met.

The following additional restrictions apply to TME-89-25. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME. In addition, the applicant shall maintain the following records until 5 years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.

2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.

3. Copies of the bill of lading that accompanies each shipment of the TME substance.

TME-89-25

Date of Receipt: August 25, 1989.

Notice of Receipt: September 25, 1989 (54 FR 39230).

Applicant: Confidential.

Chemical: (G) Substituted heterocycle.

Use: (G) Resin additive.

Production Volume: Confidential.

Number of Customers: Confidential.

Test Marketing Period: Confidential.

Risk Assessment: EPA identified concerns for kidney, liver, developmental toxicity, and mild eye and skin irritation. However, no significant inhalation exposure is expected during manufacturing, processing, or use, and the substance is not expected to be dermally absorbed. EPA identified no significant environmental concerns for, or releases of, the test market substance. Therefore, the test market substance will not present an unreasonable risk of injury to human health or the environment.

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention which casts significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to health or the environment.

Dated: October 16, 1989.

John W. Melone,

Director, Chemical Control Division, Office of Toxic Substances.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SES Performance Review Board Members

AGENCY: Equal Employment Opportunity Commission (EEOC).

ACTION: Notice.

SUMMARY: Notice is hereby given of the names of the members of the SES Performance Review Board of EEOC.

FOR FURTHER INFORMATION CONTACT: Jo-Ann Henry, Director, Personnel

VOL 54 ISS 207 OCT 27 1989 UMI

Management Services, Equal Employment Opportunity Commission, 1801 L Street, NW., Washington, DC, 20507, 202/663-4306.

SUPPLEMENTARY INFORMATION: Pursuant to the requirement of section 4314(c)(1), chapter 43 title 5 U.S.C., membership of the SES Performance Review Board is as follows: Elizabeth Thornton, Associate Legal Counsel, Equal Employment Opportunity Commission (Chairperson); Mr. Ernest Russell, Director of Administration, National Labor Relations Board; Mr. Louis Enoff, Deputy Commissioner for Programs, Social Security Administration; Evangeline Swift (Alternate), Director, Office of Policy and Evaluation, Merit Systems Protection Board. Signed at Washington, DC on this 20th day of October, 1989.

For the Commission.

Clarence Thomas,

Chairman.

BILLING CODE 6575-35-M

FEDERAL MARITIME COMMISSION

Notice of Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC. Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested Parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC. 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 202-009238-021.
Title: Greece Westbound Conference.
Parties:
Farrell Lines, Inc.
Lykes Bros. Steamship Co., Inc.
Sea-Land Service, Inc.
Zim Israel Navigation Company, Ltd.

Synopsis: The proposed amendment would reduce from $50,000 to $15,000 the amount of the financial guarantee each party is required to furnish and maintain as a condition of conference membership.

Agreement No.: 203-010999-004
Title: Ecuador Discussion Agreement.
Parties:
United States Atlantic and Gulf/Ecuador Freight Association
Transportes Navieros Equatorianos
Compania Chilena de Navigacion
Gran Golfo Express

Synopsis: The proposed modification would add Empresa Naviera Santa, S.A. as an independent carrier party, and delete Transportes Navieros Equatorianos, now a member of the United States Atlantic and Gulf/Ecuador Freight Association, as an independent carrier party. The parties have requested a shortened review period.

By Order of the Federal Maritime Commission.

Dated: October 23, 1989.

Joseph C. Polking,

Secretary.

FEDERAL RESERVE SYSTEM

Daniel De Lange; Correction

This notice corrects a previous **Federal Register** notice (FR Doc. 89-16287) published at page 29387 of the issue for Wednesday, July 12, 1989.

Under the Federal Reserve Bank of Atlanta, the entry for Daniel De Lange is amended to read as follows:

1. Daniel De Lange, Miami, Florida; to retain 24.38 percent and to acquire an additional 15.94 percent of the voting shares of Imperial Bank, Coral Gables, Florida, for a total of 40.32 percent.

Comments on this application must be received by November 10, 1989.

Board of Governors of the Federal Reserve System, October 23, 1989.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Reestablishment of the Injury Research Grant Review Committee

ACTION: Notice of Reestablishment of the Injury Research Grant Review Committee.

Pursuant to Federal Advisory Committee Act, 5 U.S.C. appendix 2, the Centers the Disease Control announces the reestablishment of the following Federal advisory committee by the Secretary of Health and Human Services:

Designation: Injury Research Grant Review Committee.

Purpose: This committee will provide advice and guidance to the Secretary, the Assistant Secretary for Health, and the Director, CDC, concerning the scientific merit of grant applications received from academic institutions and other public and private profit and nonprofit organizations, including State and local government agencies, to conduct specific injury research and demonstrations that focus on prevention and control and to support injury prevention research centers. The members of this review committee shall survey, as scientific leaders, the status of research in their field.

Authority for this committee will expire August 20, 1991, unless the Secretary for Health and Human Services, with the concurrence of the Committee Management Secretariat, General Services Administration, formally determines that continuance is in the public interest.

Dated October 23, 1989.

Elvin Hilyer,

Associate Director for Policy Coodination Centers for Disease Control.

[FR Doc. 89-25338 Filed 10-26-89; 8:45 am]

BILLING CODE 4160-18-M

National Institute for Occupational Safety and Health; Request for Comments and Secondary Data on Silica Flour Exposures and Use

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control (CDC), Public Health Service (PHS), Department of Health and Human Services (HHS).

ACTION: Notice of request for comments and secondary data.

SUMMARY: NIOSH is requesting comments and secondary data from all interested parties concerning silica flour exposures, including production levels at specific plants, usage levels within specific plants and industries, numbers of workers associated with specific plants and industries which produce or use silica flour, and levels of exposure to free silica at worksites where silica flour is present. Interested parties may submit data related to any industry in which silica flour is produced or used. These data will be used by NIOSH to identify populations potentially at risk and determine whether adequate environmental monitoring has been performed for those populations.

DATE: Comments and secondary data concerning this notice should be submitted by December 26, 1989.

ADDRESS: Any information, comments, suggestions, or recommendations should be submitted in writing to: Dr. Richard W. Niemeier, Acting Director, Division of Standards Development and Technology Transfer, NIOSH, 4676 Columbia Parkway, Cincinnati, Ohio 45226.

FOR FURTHER INFORMATION CONTACT: Mr. Alwin L. Dieffenbach, Environmental Investigations Branch, Division of Respiratory Disease Studies, NIOSH, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505, (304) 291-4496 or FTS 923-4496.

SUPPLEMENTARY INFORMATION: Under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.) and the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 957 et seq.), NIOSH is directed to gather information for improving occupational safety and health. NIOSH has found in past studies that overexposure to silica flour (also known as ground silica) can lead to acute silicosis, with ". . . irreversible harm and shortened life expectancy" (Current Intelligence Bulletin #36, *Silica Flour: Silicosis,* June 30, 1981). Exposures to free silica at silica flour producing facilities have been documented by the Mine Safety and Health Administration, (MSHA) but NIOSH has not, as yet, identified all populations of workers involved in the use of silica flour.

NIOSH, through data gathered by MSHA, has been able to identify producers of silica flour. However, Occupational Safety and Health Administration (OSHA) data have not enabled NIOSH to identify significant numbers of specific users of silica flour.

Therefore, NIOSH is interested in obtaining existing and available information, e.g., industrial hygiene sampling data, production levels, usage levels, and employment levels for specific facilities and industries which use silica flour, excluding the data gathered by federal MSHA and OSHA inspectors.

All information received in response to this notice, except that designated as trade secret and protected by section 15 of the Occupational Safety and Health Act or exempt from disclosure under the Freedom of Information Act, will be available for public examination and copying at the above address.

Dated: October 23, 1989.

Larry W. Sparks,

Acting Director National Institute for Occupational Safety and Health.

BILLING CODE 4160-19-M

Food and Drug Administration

[Docket No. 89F-0410]

Betz Laboratories, Inc.; Withdrawal of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the withdrawal without prejudice of a petition (FAP 4H2995) proposing that the food additive regulations be amended to provide for the safe use of *N*-(2-nitrobutyl) morpholine as a slimicide in the manufacture of paper and paperboard that contact food.

FOR FURTHER INFORMATION CONTACT: Marvin D. Mack, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of February 6, 1975 (40 FR 5553), FDA published a notice that it had filed a petition (FAP 4H2995) from Life and Materials Science Division, Syracuse University Research Corp., Merrill Lane, University Heights, Syracuse, NY 13210, on behalf of Betz Laboratories, Inc., Somerton Rd., Trevose, PA 19047, that proposed to amend the food additive regulations to provide for the safe use of *N*-(2-nitrobutyl) morpholine as a slimicide in the manufacture of paper and paperboard that contact food. Betz Laboratories, Inc., has now withdrawn the petition without prejudice to a future filing (21 CFR 171.7).

Dated: October 19, 1989.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 89-25347 Filed 10-26-89; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 85F-0394]

Edwards-Councilor Co., Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Edwards-Councilor, Co., Inc., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of a sanitizing solution containing *n*-alkyl (C_{12}-C_{16}) benzyl-dimethylammonium chloride, calcium stearate, sodium bicarbonate, starch and/or dextrine, and for use of methylene blue as a colorant on food-processing equipment, utensils, and other food-contact articles.

FOR FURTHER INFORMATION CONTACT: Hortense S. Macon, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5) (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 9B4159) has been filed by Edwards-Councilor Co., Inc., 427 Baker Rd., Airport Industrial Park, Virginia Beach, VA 23455, proposing that § 178.1010 *Sanitizing solutions* (21 CFR 178.1010) of the food additive regulations be amended to provide for the safe use of a sanitizing solution containing *n*-alky (C_{12}-C_{16}) benzyl-dimethylammonium chloride, calcium stearate, sodium bicarbonate, starch and/or dextrine, and methylene blue as a colorant for use on food-processing equipment, utensils, and other food-contact articles.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: October 18, 1989.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 89-25348 Filed 10-26-89; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 89G-0393]

SPA-Societa Prodotti Antibiotici S.P.A.; Filing of Petition for Affirmation of Gras Status

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that SPA-Societa Prodotti Antibiotici S.P.A. has filed a petition (GRASP 9G0355), proposing to affirm that lysozyme used to inhibit *Clostridium tyrobutyricum* to prevent late blowing

VOL 54 ISS 207 OCT 27 1989 UMI

in cheese production is generally recognized as safe (GRAS) as a direct human food ingredient.

DATE: Comments by December 26, 1989.

ADDRESSES: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Carl L. Giannetta, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–426–5487.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 201(s), 409 (21 U.S.C. 321(s), 348)) and the regulations for affirmation of GRAS status in § 170.35 (21 CFR 170.35), notice is given that SPA-Societa Prodotti Antibiotici S.p.A. Milan, Italy, has filed a petition (GRASP 9G0355) proposing that lysozyme used to inhibit *Clostridium tyrobutyricum* to prevent late blowing in cheese production be affirmed as GRAS for use as a direct human food ingredient.

The petition has been placed on display at the Dockets Management Branch (address above).

Any petition that meets the requirements outlined in §§ 170.30 and 170.35 (21 CFR 170.30 and 170.35) is filed by the agency. There is no prefiling review of the adequacy of data to support a GRAS conclusion. Thus, the filing of a petition for GRAS affirmation should not be interpreted as a preliminary indication of suitability for GRAS affirmation.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Interested persons may, on or before December 26, 1989, review the petition and/or file comments (two copies, identified with the docket number found in brackets in the heading of this document) with the dockets Management Branch (address above). Comments should include any available information that would be helpful in determining whether the substance is, or is not, GRAS for the proposed use. A copy of the petition and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: October 17, 1989.

Richard J. Ronk

Acting Director, Center for Food Safety and applied Nutrition.

[Docket No. 86N–0499]

Advisory List of Critical Devices—1988; Update

AGENCY: Food and Drug Administration.

ACTION: Notice; update.

SUMMARY: The Food and Drug Administration (FDA) is updating its "Advisory List of Critical Devices—1988" prepared by FDA's Center for Devices and Radiological Health (CDRH) that published in the **Federal Register** of March 17, 1988 (53 FR 8854). In the "Advisory List of Critical Devices—1988," the agency inadvertently omitted the high permeability hemodialysis system. This document is updating the list to include that device.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Sharon Kalokerinos, Center for Devices and Radiological Health (HFZ–332), Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, 301–427–1131.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of July 21, 1978 (43 FR 31508), FDA published the current good manufacturing practices regulation (CGMP) for devices. The preamble to the CGMP regulations provided a "Guideline List of Critical Devices" (43 FR 31508 at 31511). This was an illustrative list of 75 devices provided to give examples of devices that FDA concluded met the definition of critical device as found in the final CGMP regulations (21 CFR 820.3(f)). The definition reads "a device that is intended for surgical implant into the body or to support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in a significant injury to the user." In developing this list, FDA used the recommendations received from the Device Good Manufacturing Practices Advisory Committee (21 CFR 14.100(d)(2)) and the device advisory panels (21 CFR 14.100(d)(1)). The agency announced that the list was not exhaustive and that it was based on the most current information available to FDA. The agency also stated that the list would be updated periodically as additional information became available and after consultation with the committee (43 FR 31508 at 31511).

In the **Federal Register** of March 17, 1988 (53 FR 8854), FDA published an updated and expanded "Advisory List of Critical Devices—1988" prepared by CDRH. In the 1988 list, FDA listed (No. 70) § 876.5820 *Hemodialysis system and accessories.* The agency should have also included § 876.5820 *High permeability hemodialysis system* in the list. This device was included in the 1978 list (No. 36).

Interested persons may submit comments to the Dockets Management Branch (address above). Comments will be considered in determining if further changes to the "Advisory List of Critical Devices—1988" are warranted. Two copies of any comments should be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The list and any comments received may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: October 19, 1989.

Ronald G. Chesemore,

Acting Associate Commissioner for Regulatory Affairs.

Health Care Financing Administration

[OACT–025–N]

Medicare Program; Monthly Actuarial Rates, Supplementary Medical Insurance Premium Rate, and Catastrophic Coverage Premium Beginning January 1, 1990

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice.

SUMMARY: This notice announces the monthly actuarial rates for aged (age 65 or over) and disabled (under age 65) enrollees in the Medicare supplementary medical insurance (SMI) program for calendar year 1990, and the monthly SMI premium rate based on these actuarial rates to be paid by all enrollees during calendar year 1990. The 1990 monthly SMI premium will be increased from $27.90 to $29.00.

This notice also announces the catastrophic coverage monthly premium for 1990 imposed by the Medicare Catastrophic Coverage Act of 1988 (Pub. L. 100–360).

EFFECTIVE DATE: January 1, 1990.

FOR FURTHER INFORMATION CONTACT: Carter S. Warfield, (301) 966–6396.

SUPPLEMENTARY INFORMATION:

I. Background

The Medicare supplementary medical insurance (SMI) program is the voluntary Medicare part B program that pays all or part of the costs for physician services, outpatient hospital services, home health services, services furnished by rural health clinics, ambulatory surgical centers, and comprehensive outpatient rehabilitation facilities, and certain other medical and health services not covered by hospital insurance (Medicare part A). The SMI program is available to individuals who are entitled to hospital insurance and to U.S. residents who have attained age 65 and are citizens or aliens who were lawfully admitted for permanent residence and have resided in the United States for five consecutive years. This program requires enrollment and payment of monthly premiums as provided in 42 CFR part 405, subpart B, and part 408, respectively. (Part 408 was published at 52 FR 46112, December 17, 1987, and redesignated regulations formerly at subpart I of 42 CFR part 405.) The difference between the premiums paid by all enrollees and total incurred costs is met from the general revenues of the Federal Government.

The Secretary of Health and Human Services is required by section 1839 of the Social Security Act (the Act) (42 U.S.C. 1395r) to issue annual notices relating to the SMI program. These notices contain monthly actuarial rates, the monthly SMI premium rate paid by enrollees, and adjustments in the premium to insure against catastrophic expenses.

As required by section 1839 of the Act, we have determined the amounts contained in this notice based on the law in effect at the time we were required to make the determinations, September of each year. We recognize that Congress is considering amendments to the Medicare provisions and that, if enacted, some of these may affect the estimated costs or other amounts on which the determinations were made.

II. Monthly Actuarial Rates

One notice required by section 1839 of the Act announces two amounts that, according to actuarial estimates, will equal, respectively, one-half the expected average monthly cost (excluding costs relating to the amendments made by the Medicare Catastrophic Coverage Act of 1988, Public Law 100–360) of SMI for each aged enrollee (age 65 or over) and one-half the expected average monthly cost (excluding catastrophic costs) of SMI for each disabled enrollee (under age 65) during the calendar year beginning the following January. These amounts are called "monthly actuarial rates."

As required by sections 1839(a) (1) and (4) of the Act (42 U.S.C. 139r(a) (1) and (4)), as amended, I have determined that the monthly actuarial rates applicable for calendar year 1990 are $57.20 for enrollees age 65 and over and $44.10 for disabled enrollees under age 65. The accompanying statement (section V.) gives the actuarial assumptions and bases from which these rates are derived.

III. Monthly SMI Premium Rates

The second notice required by section 1839 of the Act announces the monthly SMI premium rate to be paid by aged and disabled enrollees for the calendar year beginning the following January. (Although the costs to the program per disabled enrollee are different than for the aged, the law provides that they pay the same premium amount.) Beginning with the passage of section 203 of Public Law 92–603, (the Social Security Amendments of 1972) and until the passage of section 124 of Public Law 97–248 (the Tax Equity and Fiscal Responsibility Act of 1982), the premium rate was limited by section 1839 of the Act to the lesser of the monthly actuarial rate for aged enrollees, or the current monthly premium rate increased by the same pecentage as the most recent general increase in monthly title II (cash payments) social security benefits.

Section 124 of Public Law 97–248 changed the premium basis to 25 percent of program costs. Section 606 of Public Law 98–21, section 2302 of Public Law 98–369, section 9313 of Public Law 99–272 and section 4080 of Public Law 100–203 extended through 1989 the provision that the premium be based on 25 percent of program costs. This extension will expire at the end of 1989.

Beginning with calendar year 1990, the premium rate will once again be limited by section 1839 of the Act to the lesser of the monthly actuarial rate for aged enrollees, or the current monthly premium rate increased by the same percentage as the most recent general increase in monthly title II (cash payments) social security benefits.

A further provision affecting the calculation of the SMI premium is section 1839(f) of the Act as amended by section 211 of the Medicare Catastrophic Coverage Act of 1988. Section 1839(f) now provides that if an individual is entitled to benefits under sectin 202 or 223 of the Act (the Old-Age and Survivors Insurance Benefit and the Disability Insurance Benefit, respectively) and has the SMI premiums (including the part B catastrophic and prescription drug premiums) deducted from these benefit payments, the total premium increase will be reduced to avoid causing a decrease in the individual's net monthly payment. This occurs if the increase in the individual's social security benefit due to the cost-of-living adjustment under section 215(i) of the Act is less than the increase in the premium. Specifically, the reduction in the premium amount applies if the individual is entitled to benefits under section 202 or 223 of the Act for November and December of a particular year and the individual's SMI premiums for December and the following January are deducted from the respective month's section 202 or 223 benefits.[1] (This change in effect perpetuates former amendments that prohibited SMI premium increases from reducing an individual's benefits in years in which the dollar amount of the individual's cost-of-living increase in benefits was not at least as great as the dollar amount of the individual's SMI premium increase.)

Generally, if a beneficiary qualifies for this protection (in order to qualify, a beneficiary must have been in a current payment status for November and December of the previous year), the reduced premium for the individual for that January and for each of the succeeding 11 months for which he or she is entitled to benefits under section 202 or 223 of the Act is the greater of the following:

(1) The monthly premium (including the catastrophic Part B premium) for January reduced as necessary to make the December monthly benefits, after the deduction of the SMI premium for January, at least equal to the preceding November's monthly benefits, after the deduction of the SMI premium for December; or

(2) The monthly premium for that individual for that December.

In determining the premium limitations under section 1839(f) of the Act, the monthly benefits to which an

[1] Note:—A check for benefits under section 202 or 223 is received in the month following the month for which the benefits are due. The SMI premium that is deducted from a particular check is the SMI payment for the month in which the check is received. Therefore, a benefit check for November is not received until December and has December's SMI premium deducted from it.

VOL 54 ISS 207 OCT 27 1989 UMI

individual is entitled under section 202 or 223 do not include retroactive adjustments or payments and deductions on account of work. Also, once the monthly premium amount has been established under section 1839(f) of the Act, it will not be changed during the calendar year even if there are retroactive adjustments or payments and deductions on account of work that apply to the individual's monthly benefits.

Individuals who have enrolled in the SMI program late or have reenrolled after the termination of a coverage period are subject to an increased premium under section 1839(b) of the Act. That increase is a precentage of the premium and would be based on the new premium rate before any reductions under section 1839(f) are made or any rounding off under section 1839(g)(6) of the Act are made (See section IV. of this notice concerning additions to premiums for catastrophic coverage.)

As required by section 1839(a)(3), (e)(1) and (f) of the Act as amended (42 U.S.C. 1395(a)(3), (e)(1) and (f)), I have determined that the standard monthly premium amount will be $29.00 during calendar year 1990. However, for individuals whose monthly premium is deducted from his or her monthly social security benefit under sections 1840(a)(1) or 1840(b)(1) of the Act, the premium will remain at $27.90 if monthly Social Security benefits are not increased for 1990. Also, if an individual's cost-of-living increase for 1990 to his or her monthly Social Security benefit is not as much as his or her increase in Part B premiums, including the catastrophic Part B premium, the individual's Social Security benefits will not be decreased below his or her level of benefits for December 1989.

A new enrollee and any individual who does not have the monthly premium deducted from his or her monthly Social Security benefit under section 1840(a)(1) or 1840(b)(1) of the Act will be required to pay the new premium amount regardless of whether monthly Social Security benefits are increased, or the individual's cost-of-living increase for 1990 is less than his or her increase in Part B premiums.

The accompanying statement in section V. of this notice shows how the standard premium amount was derived.

IV. Catastrophic Coverage Premium

On July 1, 1988, Congress enacted Public Law 100-360, the Medicare Catastrophic Coverage Act of 1988. It provides protection to Medicare beneficiaries whose SMI expenses exceed certain limits. It also adds certain services not previously covered under SMI, including payment of mammograms, respite care, and home IV drug therapy. To pay for this additional coverage for Part B, the law provides for new premiums beneficiaries will pay in addition to the SMI premium. This section of this notice addresses only the catastrophic coverage monthly premium for 1990.

As required by section 1839(g)(1)(A) of the Act, the catastrophic coverage premium for calendar year 1990 is $4.90. There are two exceptions to this amount, as required by section 1839(g)(4) and (5), respectively:

1. The monthly catastrophic coverage premium for calendar year 1990 is $3.56 for residents of Puerto Rico and $5.78 for residents of other U.S. territories and commonwealths; and

2. The monthly catastrophic coverage premium for calendar year 1990 for other individuals enrolled in part B only is $8.75.

V. Statement of Actuarial Assumptions and Bases Employed in Determining the Monthly Actuarial Rates and the Standard Monthly Premium Rate for the Supplementary Medical Insurance Program Beginning January 1990

A. Actuarial Status of the Supplementary Medical Insurance Trust Fund

Under the law, the starting point for determining the monthly premium is the amount that would be necessary to finance the SMI program for non-catastrophic expenses on an incurred basis; i.e., the amount of income that would be sufficient to pay for non-catastrophic services furnished during that year (including associated administrative costs) even though payment for some of these services will not be made until after the close of the year. The portion of income required to cover benefits not paid until after the close of the calendar year is added to the trust fund and used when needed.

The rates are established prospectively and are therefore subject to projection error. Additionally, legislation enacted after the financing has been established, but effective for the period for which the financing has been set, my affect program costs. As a result, the income to the program may not equal incurred costs. Therefore, trust fund assets should be maintained at a level that is adequate to cover a moderate degree of variation between actual and projected costs in addition to the amount of incurred but unpaid expenses. Table 1 summarizes the estimated actuarial status of the trust fund as of the end of the financing period for 1988 through 1989.

TABLE 1.—ESTIMATED ACTUARIAL STATUS OF THE SMI TRUST FUND AS OF THE END OF THE FINANCING PERIODS, JAN. 1, 1988–DEC. 31, 1989

[In millions of dollars]

Financing period ending	Assets	Liabilities	Assets less liabilities
Dec. 31, 1988	$8,990	$4,905	$4,085
Dec. 31, 1989	12,401	6,045	6,356

B. Monthly Actuarial Rate for Enrollees Age 65 and Older

The monthly actuarial rate is one-half of the monthly projected non-catastrophic cost of benefits and administrative expenses for each enrollee age 65 and older, adjusted to allow for interest earnings on non-catastrophic assets in the trust fund and a contingency margin. The contingency margin is an amount appropriate to provide for a moderate degree of variation between actual and projected costs and to amortize unfunded liabilities.

The monthly actuarial rate for enrollees age 65 and older for calendar year 1990 was determined by projecting per-enrollee non-catastrophic cost for the 12-month periods ending June 30, 1990 and June 30, 1991 by type of service. Although the actuarial rates are now applicable for calendar years, projections of per-enrollee costs were determined on a July to June period, consistent with the July 1 annual fee screen update used for benefits before the passage of section 2306(b) of Public Law 98-369. The values for the 12-month period ending June 30, 1987 were established from program data. Subsequent periods were projected using a combination of program data and data from external sources. The projection factors used are shown in Table 2. Those per-enrollee values are then adjusted to apply to a calendar year period. The projected values for financing periods from January 1, 1987, through December 31, 1990, are shown in Table 3.

TABLE 2.—PROJECTION FACTORS [1] 12-MONTH PERIODS ENDING JUNE 30 OF 1987–91

[In percent]

12-month period ending June 30	Physicians' services		Outpatient hospital services	Home health agency services [4]	Group practice prepayment plans	Independent lab services
	Fees [2]	Residual [3]				
Aged:						
1987	4.4	7.0	22.2	−17.6	34.0	20.4
1988	3.7	6.6	12.8	65.4	44.4	18.9
1989	2.5	4.7	10.2	15.0	17.1	10.5
1990	3.2	6.2	16.2	15.0	20.7	24.1
1991	4.1	6.9	19.6	16.0	21.5	25.0
Disabled:						
1987	4.4	5.0	10.8	0	26.7	19.0
1988	3.7	5.9	17.2	0	44.9	15.3
1989	2.5	4.2	6.0	0	22.9	5.9
1990	3.2	5.9	15.5	0	20.1	22.4
1991	4.1	6.8	17.1	0	21.0	23.7

[1] All values are per enrollee.
[2] As recognized for payment under the program.
[3] Increase in the number of services received per enrollee and greater relative use of more expensive services.
[4] Since July 1, 1981, home health agency services have been almost exclusively provided by the Medicare hospital insurance (HI) program. However, for those SMI enrollees not entitled to HI, the coverage of these services is provided by the SMI program. Since all SMI disabled enrollees are entitled to HI, their coverage of these services is provided by the HI program.

TABLE 3.—DERIVATION OF MONTHLY ACTUARIAL RATE FOR ENROLLEES AGE 65 AND OVER FINANCING PERIODS ENDING DECEMBER 31, 1987 THROUGH DECEMBER 31, 1990

	Financing periods (calendar year)			
	1987	1988	1989	1990
Covered services (at level recognized):				
Physicians' reasonable charges	$36.35	$41.74	$45.32	$50.10
Outpatient hospital and other institutions	9.81	10.93	12.51	14.66
Home health agencies	0.05	0.07	0.08	0.10
Group practice prepayment plans	2.85	3.66	4.36	5.26
Independent lab	1.20	1.37	1.61	2.01
Total services	52.26	57.77	63.88	72.37
Cost-sharing:				
Deductible	−2.70	−2.71	−2.72	−2.73
Coinsurance	−9.13	−10.12	−11.22	−12.75
Total benefits	40.43	44.94	49.94	56.89
Administrative expenses	1.32	1.36	1.41	1.47
Incurred expenditures	41.75	46.30	51.35	58.36
Value of interest	−0.42	−0.54	−0.98	−1.32
Contingency margin for projection error and to amortize the surplus or deficit	−5.53	3.84	5.43	.16
Monthly actuarial rate	35.80	49.60	55.80	57.20

The projected monthly rate required to pay for one-half of the total of non-catastrophic benefits and administrative costs for enrollees age 65 and over for calendar year 1990 is $58.36. The monthly actuarial rate of $57.20 provides an adjustment of −$1.32 for interest earnings and $0.16 for a contingency margin. Based on current estimates, it appears that with respect to enrollees age 65 and over the assets are sufficient to cover the amount of incurred but unpaid expenses and to provide for a moderate degree of variation between actual and projected costs. Thus, only a small positive contingency margin is needed to maintain assets at an appropriate level.

An appropriate level for assets depends on numerous factors. The most important of these factors are: (1) The difference from prior years in the actual performance of the program and estimates made at the time financing was established and (2) the expected relationship between incurred and cash expenditures. Ongoing analysis is made of the former as the trends in the differences vary over time.

C. Monthly Actuarial Rate for Disabled Enrollees

Disabled enrollees are those persons enrolled in SMI because of entitlement (before age 65) to disability benefits for more than 24 months or because of entitlement to Medicare under the end-stage renal disease program. Projected monthly non-catastrophic costs for disabled enrollees (other than those suffering from end-stage renal disease) are prepared in a fashion exactly parallel to projection for the aged, using appropriate actuarial assumptions (see Table 2). Non-catastrophic costs for the end-stage renal disease program are projected differently because of the complex demographic problems involved. The combined results for all disabled enrollees are shown in Table 4.

VOL 54 ISS 207 OCT 27 1989 UMI

TABLE 4.—DERIVATION OF MONTHLY ACTUARIAL RATE FOR DISABLED ENROLLEES FINANCING PERIODS ENDING DECEMBER 31, 1987 THROUGH DECEMBER 31, 1990

	Financing periods (calendar year)			
	1987	1988	1989	1990
Covered services (at level recognized):				
Physicians' reasonable charges	$41.12	$44.71	48.26	$53.00
Outpatient hospital and other institutions	22.93	24.81	26.07	28.07
Home health agencies	0	0	0	0
Total services	1.05	1.39	1.69	2.03
Independent lab	1.24	1.37	1.56	1.87
Total services	86.34	72.28	77.56	84.97
Cost-sharing:				
Deductible	−2.42	−2.43	−2.44	−2.45
Coinsurance	−12.09	−13.19	−14.15	−15.59
Total benefits	51.83	56.66	60.99	67.03
Administrative expenses	1.69	1.72	1.73	1.73
Incurred expenditures	53.52	58.38	62.72	68.76
Value of interest	−6.84	−7.09	−6.19	−3.43
Contigency margin for projection error and to amortize the surplus or deficit	6.32	−2.69	−22.23	−21.23
Monthly actuarial rate	53.00	48.60	34.30	44.10

The projected monthly rate required to pay for one-half of the total of benefits and administrative costs for disabled enrollees for calendar year 1990 is $68.76. The monthly actuarial rate of $44.10 provides an adjustment of −$3.43 for interest earnings and −$21.23 for a contingency margin. Based on current estimates, it appears that the disabled assets are more than sufficient to cover the amount of disabled incurred but unpaid expenses and to provide for a moderate degree of variation between actual and projected costs. Thus, a negative contingency margin is needed to reduce disabled assets to more appropriate levels.

D. Sensitivity Testing

Several factors contribute to uncertainty about future trends in medical care costs. In view of this, it seems appropriate to test the adequacy of the rates announced here using alternative assumptions. The most unpredictable factors that contribute significantly to future costs are outpatient hospital costs, physician residual (as defined in Table 2), and increases in physician fees as constrained by the program's reasonable charge screens and economic index. Two alternative sets of assumptions and the results of those assumptions are shown in Table 5. One set represents increases that are lower and is, therefore, more optimistic than the current estimate. The other set represents increases that are higher and is, therefore, more pessimistic than the current version. The values for the alternative assumptions were determined from a study on the average historical variation between actual and projected increases in the respective increase factors. All assumptions not shown in Table 5 are the same as in Table 2.

Table 5 indicates that, under the assumptions used in preparing this report, the monthly actuarial rates will result in an excess of non-catastrophic assets over liabilities of $4,922 million by the end of December 1990. This amounts to 9.1 percent of the estimated total incurred non-catastrophic expenditures for the following year. Assumptions which are somewhat more pessimistic (and, therefore, test the adequacy of the assets to accommodate projection errors) produce a non-catastrophic deficit of $7,277 million by the end of December 1990, which amounts to 11.6 percent of the estimated total non-catastrophic incurred expenditures for the following year. Under these more pessimistic assumptions, assets will be insufficient to cover outstanding liabilities. However, the cash balances in the Trust Fund should remain positive, allowing claims to be paid. Under fairly optimistic assumptions, the monthly actuarial rates will result in a non-catastrophic surplus of $15,997 million by the end of December, 1990, which amounts to 33.9 percent of the estimated total incurred non-catastrophic expenditures for the following year.

TABLE 5.—ACTUARIAL STATUS OF THE SMI TRUST FUND UNDER THREE ASSUMPTIONS FOR FINANCING PERIODS THROUGH DECEMBER 31, 1990

[1] As recognized for payment under the program.
[2] Increase in the number of services received per enrollee and greater relative use of more expensive services.
[3] Ratio of assets less liabilities at the end of the year to total incurred expenditures during the following year, expressed as a percent.

E. Standard Premium Rate

Beginning with calendar year 1990, section 1839(a)(3) of the Act provides that the standard monthly premium rate, for both aged and disabled enrollees, is the lesser of:

1. The actuarial rate for enrollees aged 65 and older; or

2. The current standard monthly premium, increased by the same percentage that the level of old-age, survivors, and disability insurance (OASDI) benefits has been increased since the November preceding the promulgation (and rounded to the nearer multiple of ten cents).

The standard monthly premium rate for calendar year 1989 is $27.90. The OASDI benefit table increased 4.0 percent in December 1988. The $27.90 rate, increased by 4.0 percent and rounded to the nearer ten-cent multiple, is $29.00. Since this is less than the aged actuarial rate, the standard premium rate is $29.00 for calendar year 1990.

VI. Regulatory Impact Statement

The standard monthly SMI premium rate of $29.00 for all enrollees during calendar year 1990 is 3.9 percent higher than the $27.90 monthly premium amount for the previous financing period. The estimated cost of this increase over the current premium to the approximately 33.0 million SMI enrollees will be about $435 million for calendar year 1990. The catastrophic coverage premium, which affects most Part B beneficiaries, is $4.90 ($3.56 for residents of Puerto Rico, $5.78 for residents of other territories and commonwealths, and $8.57 for Part B-only enrollees). The estimated cost of this increase to Medicare beneficiaries will be about $458 million for calendar year 1990.

This notice merely announces amounts required by section 1839 of the Act. This notice is not a proposed rule or a final rule issued after a proposal, and does not alter any regulations. Therefore, we have determined, and the Secretary certifies, that no analyses are required under Executive Order 12291, the Regulatory Flexibility Act (5 U.S.C. 601 through 612) or section 1102(b) of the Act.

(Section 1839 of the Social Security Act; 42 U.S.C. 1395r) (Catalog of Federal Domestic Assistance Program No. 13.774, Medicare—Supplementary Medical Insurance.)

Dated: September 21, 1989.

Louis B. Hays,
Acting Administrator, Health Care Financing Administration.

Approved: October 23, 1989.

Louis W. Sullivan,
Secretary.

Public Health Service

Centers for Disease Control; Statement of Organization, Functions, and Delegations of Authority

Part H, chapter HC (Centers for Disease Control) of the Statement of Organizations, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772–67776, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 54 FR 40911–13, October 4, 1989) is amended to reflect the transfer of the travel policy functions from the Management Analysis and Services Office to the Financial Management Office within the Office of Program Support.

Section HC-B, Organization and Functions, is hereby amended as follows:

Under the heading *Financial Management Office (HCA53),* insert the following as item (10): "(10) serves as the focal point for domestic and international travel policy, procedures, and interpretation;" and renumber items (10) and (11) as (11) and (12) respectively.

Under the heading *Management Analysis and Services Office (HCA59),* delete the statement in its entirety and substitute the following:

(1) Plans, coordinates, and provides CDC-wide administrative, technical, management, and information services in the following areas: studies and surveys, delegations of authorities, organization and functions, Privacy Act, policy and procedures, records management, printing procurement and reproduction, correspondence, forms design, publications distribution, issuances, mail services, public inquiries, Freedom of Information Act Index, and reports management; (2) develops and implements policies and procedures in these areas; (3) maintains liaison with HHS, PHS, General Services Administration, the Government Printing Office, and other government and private agencies.

Effective date: October 18, 1989.

Wilford J. Forbush,
Director, Office of Management, PHS.

The Health Omnibus Programs Extension of 1988, Public Law, 100-607; Delegation of Authority, Centers for Disease Control

Notice is hereby given that in furtherance of the January 27, 1989, delegation to the Assistant Secretary for Health of authorities under the Health Omnibus Programs Extension of 1988 (Pub. L. 100-607) by the Secretary of

BEST COPY AVAILABLE

VOL 54 ISS 207 OCT 27 1989 UMI

Health and Human Services (54 FR 5679), the Assistant Secretary for Health has delegated to the Director, Centers for Disease Control, with authority to redelegate, these authorities, insofar as the autorities pertain to the functions assigned to the Centers for Disease Control.

1. Under Title XXIII of the Public Health Service Act, "Research With Respect to Acquired Immune Deficiency Syndrome" (42 U.S.C. 300cc *et seq.*), as amended hereafter (section 201 of Pub. L. 100-607), the following authorities:

Section 2315, Support of International Efforts.
Section 2317, Information Services.
Section 2320, Additional Authority with Respect to Research.
Section 2341, Fellowships and Training.

2. Under Title XXIV of the Public Health Service Act, "Health Services With Respect to Acquired Immune Deficiency Syndrome" (42 U.S.C. 300dd *et seq.*), as amended hereafter (section 211 of Pub. L. 100-607), the following authorities:

Section 2431, Grants for Anonymous Testing.
Section 2432, Requirement of Provision of Certain Counseling Services.
Section 2433. Funding.

3. Under Title XXV of the Public Health Service Act, "Prevention of Acquired Immune Deficiency Syndrome" (42 U.S.C. 300ee *et seq.*), as amended hereafter (section 221 of Pub. L. 100-607), the following authorities:

Section 2501-2511, Formula Grants.
Section 2521, Availability of Information to the General Public.
Section 2522, Public Information Campaigns.
Section 2523, Provision of Information to Underserved Populations.

4. Under Title II, "Programs With Respect to Acquired Immune Deficiency Syndrome," of Pub. L. 100-607 (42 U.S.C. 300cc note), as amended hereafter, the following authority:

Section 203(a), Requirement of Certain Research Studies.

5. Under Subtitle E of Title II, "Programs With Respect to Acquired Immune Deficiency Syndrome," of Pub. L. 100-607 (42 U.S.C. 300cc-1-4), as amended hereafter, the following authorities:

Section 252, Establishment of Office With Respect to Minority Health and AIDS.
Section 253, Information for Health and Public Safety Workers.
Section 255, Technical Assistance.

The delegation excluded the authorities to promulgate regulations, to submit reports to the Congress, to establish advisory committees or national commissions, and to appoint members to such committees or commissions.

These delegations became effective on October 11, 1989.

James O. Mason,
Assistant Secretary for Health.

BILLING CODE 4160-16-M

Social Security Administration

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Social Security Administration publishes a list of information collection packages that have been submitted to the Office of Management and Budget (OMB) for clearance in compliance with Public Law 96-511, The Paperwork Reduction Act. The following clearance packages have been submitted to OMB since the last list was published in the **Federal Register** on September 15, 1989.

(Call Reports Clearance Officer on (301) 965-4149 for copies of package)

1. Statement of Marriage—0960-0017—The information collected on the form SSA-753 is used by the Social Security Administration to make determinations regarding entitlement to spouse's benefits when a common law marriage is alleged. The affected public is comprised of third parties who can supply evidence concerning the existence of a common-law marriage.
Number of Respondents: 40,000
Frequency of Response: 1
Average Burden Per Response: 9 minutes
Estimated Annual Burden: 6,000 hours

2. SSA initiated Personal Earnings and Benefit Estimate Statement Questionnaire and Interview Guides (Project 2)—0960-xxxx—The information collected on the form SSA-7006 will be used by the Social Security Administration to determine the value and best procedure of providing unsolicited Social Security information to the public. The affected public is comprised of non-beneficiaries age 19 through 64 selected to participate in this survey.
Number of Respondents: 5,450
Frequency of Response: 1
Average Burden Per Response: 10 minutes
Estimated Annual Burden: 906 hours

3. Employee Work Activity Questionnaire—00960-xxxx—The information collected on the form SSA-3033 is used by the Social Security Administration to determine if a disability claimant has or has not either engaged in substantial gainful activity or received a nonspecific subsidy. Such a determination is necessary in evaluating claimant's eligibility for disability benefits.
Number of Respondents: 12,500
Frequency of Response: 1
Average Burden Per Response: 10 minutes
Estimated Annual Burden: 2,083 hours

4. Request for Workers' Compensation/Public Disability Benefit Information—0960-0098—The information collected on the form SSA-1709 is used by the Social Security Administration to verify information about workers' compensation or other disability benefits made to Social Security disability insurance beneficiaries so that appropriate adjustments are made to their monthly Social Security benefits.
Number of Respondents: 32,500
Frequency of Response: 1
Average Burden Per Response: 15 minutes
Estimated Annual Burden: 8,125 hours

OMB Desk Officer: Justin Kopca.

Written comments and recommendations regarding these information collections should be sent directly to the appropriate OMB Desk Officer designated above at the following address: OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, DC 20503.

Dated: October 20, 1989.
Ron Compston,
Social Security Administration, Reports Clearance Officer.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N-89-1917; FR-2606-N-43]

Unutilized and Underutilized Federal Buildings and Real Property Determined To Be Suitable for Use for Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized and underutilized Federal property determined by HUD to be suitable for possible use for facilities to assist the homeless.

EFFECTIVE DATE: October 27, 1989.

ADDRESS: For further information, contact James Forsberg, Department of Housing and Urban Development, Room 7228, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 755-6300; TDD number for the hearing- and speech-impaired (202) 426-0015. (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless* v. *Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized and underutilized Federal buildings and real property determined by HUD to be suitable for use for facilities to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable this week.

Dated: October 20, 1989.
Stephen A. Glaude,
Deputy Assistant, Secretary for Program Management.

BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[9-00152-ILM; UT-047-4410-06]

Draft Resource Management Plan/ Environmental Impact Statement; Cedar City, UT

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of availability of draft resource management plan/ environmental impact statement and proposed areas of critical environmental concern for the Dixie Resource Area, Cedar City District, Utah.

SUMMARY: The Draft Resource Management Plan/Environmental Impact Statement (RMP/EIS) for the Dixie Resource Area, Cedar City District, Washington County, Utah, is available for review and comment. The RMP/EIS presents three alternative land use plans for management of approximately 628,000 acres of public land in Washington County, Utah. These alternatives present an array of land disposals, acquisitions, Areas of Critical Environmental Concern (ACECs), Special Recreation Management Areas (SRMAs), and other resource management decisions designed to guide management of the public lands within the Dixie Resource Area.

An open house will be held on November 15, 1989, at the Dixie Resource Area office, 225 North Bluff Street, St. George, Utah, from 3:00 to 8:00 p.m. The public is invited to present written comments and questions concerning the draft RMP/EIS. To be considered in the final RMP/EIS, comments must be received in the Dixie Resource Area office within 90 days after publication of EPA's notice in the **Federal Register**.

This action is announced pursuant to section 102(2)(c) of the National Environmental Policy Act of 1970, section 202(a) of the Federal Land Policy and Management Act of 1976, and 43 CFR part 1610.

FOR FURTHER INFORMATION CONTACT: David Brine, RMP Team Leader, Bureau of Land Management, 225 North Bluff Street, St. George, Utah 84770: (801) 673-4654.

SUPPLEMENTARY INFORMATION: The Dixie Draft RMP/EIS analyzes three alternative multiple-use management plans. Each plan provides management guidance for all relevant resource management programs administered by the Bureau of Land Management in the planning area. Various combinations of special designations are analyzed under the alternatives.

Alternatives Analyzed

1. Alternative A (no action) presents the continuation of current management under the Virgin River Management Framework Plan (MFP) completed in 1981. Nonconforming actions would continue to be dealt with through plan amendments. MFP decisions would be analyzed for NEPA compliance.

2. Alternative B emphasizes land tenure adjustment to maximize opportunities for exchanging tracts of public land (identified as desired by State and local planning interests) for State and private lands (which would be resource enhancing for public purposes).

3. Alternative C (the preferred alternative) emphasizes the long-term retention, protection, and special management of public lands identified as having important resource values. It also directs priority in land tenure changes toward acquisition of identified lands to benefit public resource management program.

Proposed ACECs

Ten areas of critical environmental concern (ACEC) are proposed for designation. The acreage of these units varies among alternatives and is displayed in the following table.

Dated: September 26, 1989.
James M. Parker,
State Director.

TABLE 1.—NOMINATED AREAS OF CRITICAL ENVIRONMENTAL CONCERN DESIGNATION, BY ALTERNATIVE

Area name	Critical concerns	Acres by alternative		
		A	B	C
Red Bluff	Endangered plant species (dwarf bearclaw poppy); Colorado River Salinity control (saline soils).	0	4,750	6,010
Warner Ridge	Endangered plant species (dwarf bearclaw poppy, siler cactus) Colorado River salinity control (saline soils); riparian system; sensitive wildlife habitat (spotted bat, gila monster).	0	3,690	3,690
Santa Clara River Gunlock Section	Riparian system; cultural resources (Virgin Anasazi and Paiute riverine sites); wildlife habitat; sensitive fish species (Virgin River spinedace).	0	1,790	1,790
Santa Clara River Landhill Section	Riparian system; cultural resources (Virgin Anasazi and Paiute riverine sites); wildlife habitat; sensitive fish species (Virgin River spinedace); petroglyphs.	0	1,550	1,770
Lower Virgin River	Riparian systems; endangered fish (woundfin minnow); sensitive fish (Virgin River chub); cultural resources (Virgin Anasazi riverine sites); wildlife habitat.	0	965	1,460
Little Creek Mountain	Cultural resources (Virgin Anasazi upland sites)	0	15,455	15,455
Canaan Mountain	National Scenic Resource (geologic)	0	3,390	31,870
Red Mountain	National Scenic Resource (geologic)	0	5,480	5,480

VOL 54 ISS 207 OCT 27 1989 UMI

Arizona Strip District Grazing Advisory Board; Field Tour Date Change

AGENCY: Bureau of Land Management, Arizona Strip District, Interior.

ACTION: Notice of Field Tour—Date Change.

SUMMARY: The Arizona Strip District Grazing Advisory Board will tour the Eastern portion of the Vermillion Resource Area to view and discuss grazing management practices.

DATE: Tuesday, November 28, 1989 leaving from the district office at 8 a.m. and returning about 5 p.m.

FOR FURTHER INFORMATION CONTACT: G. William Lamb, District Manager, Arizona Strip District, 390 North 3050 East, St. George, UT 84770 (Phone 801/673-3545).

SUPPLEMENTARY INFORMATION: Interested publics may accompany the tour; however, they must provide their own transportation and food. The Board will consider written and oral statements anytime during the tour. Arrangements to comment or attend should be made at least 5 days in advance.

Dated: October 19, 1989.

G. William Lamb,

Arizona Strip District Manager.

[WY-030-00-4351-02]

Meeting; Rawlins District Advisory Council

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of meeting of the Rawlins District Advisory Council.

SUMMARY: Notice is hereby given of a meeting of the Rawlins District Advisory Council, in accordance with Public Law 94-597.

DATE: November 30, 1989.

ADDRESS: Bureau of Land Management, 1300 Third Street, Rawlins, WY 82301.

FOR FURTHER INFORMATION CONTACT: Grant Petersen, Public Affairs Specialist, or Richard Bastin, District Manager, Rawlins District, Bureau of Land Management, P.O. Box 670, Rawlins, WY 82301, (307) 324-7171.

SUPPLEMENTARY INFORMATION: The meeting will be held at 1 p.m. at the Bel Air Inn, 23rd and Spruce Street, Rawlins, WY. A public comment period will be held at 1 p.m. The agenda items include: Welcome, Public Session; Rawlins District Programs/Summary of FY 89 Accomplishments and FY 90 Goals; Black-footed Ferret Reintroductions; North Platte National Recreation Area Proposal Status; Volunteer Programs; and Advisory Council Resolutions and Adjournment.

Dated: October 20, 1989.

BILLING CODE 4310-22-M

[NV-930-90-4212-22]

Filing of Plats of Survey; Nevada

October 17, 1989.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform the public and interested State and local government officials of the latest filing of Plats of Survey in Nevada.

EFFECTIVE DATES: Filing was effective at 10:00 a.m. on October 11, 1989.

FOR FURTHER INFORMATION CONTACT: James R. Munson, Acting Chief, Branch of Cadastral Survey, Bureau of Land Management (BLM), Nevada State Office, 850 Harvard Way, P.O. Box 12000, Reno, NV 89520, 702-328-6345.

SUPPLEMENTARY INFORMATION: The Plats of Survey of lands described below were officially filed at the Nevada State Office, Reno, NV, on October 11, 1989.

Mount Diablo Meridian, Nevada

T. 19 N., R. 30 E.—Dependent Resurvey and Tract Surveys
T. 14 N., R. 25 E.—Dependent Resurvey and Subdivision of Sections
T. 14 N., R. 27 E.—Dependent Resurvey and Subdivision of Section 5
T. 15 N., R. 27 E.—Dependent Resurvey
T. 13 N., R. 28 E.—Dependent Resurvey and Subdivision of Sections
T. 12 N., R. 29 E.—Dependent Resurvey and Subdivision of Section 26

All the surveys were accepted on September 27, 1989 and were executed to meet certain administrative needs of the Bureau of Indian Affairs. All of the above-listed surveys are now the basic record for describing the lands for all authorized purposes. The surveys will be placed in the open files in the BLM Nevada State Office and will be available to the public as a matter of information. Copies of the surveys and related field notes may be furnished to the public upon payment of the appropriate fee.

Edward F. Spang,

State Director, Nevada.

BILLING CODE 4310-HC-M

Bureau of Reclamation

Analysis of the Operating Criteria and Alternatives of Glen Canyon Dam, AZ, Colorado River Storage Project

AGENCY: Bureau of Reclamation (USBR).

ACTION: Notice of intent to prepare a draft environmental impact statement.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), as amended, the Bureau of Reclamation (Reclamation) proposes to prepare a draft environmental impact statement (DEIS) to analyze the existing operating criteria of Glen Canyon Dam, Arizona, Colorado River Storage Project, and to develop a set of environmental criteria that will be used by the Department of the Interior during the development of the Annual Operating Plan for the operation of Glen Canyon Dam. This information is necessary to determine specific options to the operation of Glen Canyon Dam that could be enacted to minimize, consistent with law, the impact of operation on the natural resources of the Grand Canyon. The statement will discuss: the requirements of the Colorado River Compact, Colorado River Storage Project Act, Endangered Species Act, National Park Service mandates, recreation issues, and requirements of the Department of Energy.

The DEIS will present an analysis of the impacts of various alternative management practices, including existing ones, as affected by changes in the operating criteria for Glen Canyon Dam.

Reclamation will conduct scoping meetings in several locations to obtain information on which to base management options to be analyzed in the NEPA process. Reclamation will be the lead agency in the development of the DEIS. The U.S. Fish and Wildlife Service, the National Park Service, and Western Area Power Administration of the Department of Energy will be cooperating agencies.

DATE: The formal public involvement process and scoping efforts will begin in January 1990.

ADDRESSES: The scoping meetings will be held in several locations and will be published when the specific locations are selected.

FOR FURTHER INFORMATION CONTACT: Mr. Steve Robinson, Director, Colorado River Studies and Initiatives Office, U.S. Bureau of Reclamation, 125 South State Street, P.O. Box 11568, Salt Lake City, Utah 84147, telephone: (801) 524-3595.

SUPPLEMENTARY INFORMATION: Glen Canyon Dam was authorized and constructed prior to the enactment of NEPA. Consequently, no NEPA documentation on the overall operations of the facility has ever been completed. Reclamation completed an Environmental Assessment/Finding of No Significant Impact on the uprating and the rewinding of the generators at Glen Canyon Dam in 1982. The Department of the Interior initiated the Glen Canyon Environmental Studies in 1982 with the objective of collecting the technical information required to assess the impact of operations on the natural and recreation resources in Glen Canyon and Grand Canyon. The Glen Canyon Environmental Studies have produced multiple technical reports on the impacts of high and steady flow operations, and studies have recently been initiated on the impacts of fluctuating and minimum flows.

Anyone interested in more information concerning the studies or who has suggestions as to significant environmental issues should contact Mr. Robinson at the above address.

The DEIS is expected to be completed and available for review and comment by the end of 1991.

Joe D. Hall,

Deputy Commissioner.

[FR Doc. 89-25337 Filed 10-26-89; 8:45 am]
BILLING CODE 4310-09-M

Proposed City of Santa Rosa Public Law 84-984 Loan Project, Santa Rosa, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare a draft environmental impact statement/environmental impact report (EIS/EIR).

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), as amended, the Council on Environmental Quality Guidelines (40 CFR Part 1500), section 21002 of the California Environmental Quality Act, the Bureau of Reclamation (Reclamation), and the City of Santa Rosa intend to prepare a joint EIS/EIR. The city is in the process of applying for a Public Law 84-984 loan from Reclamation to finance construction of a reservoir as part of a multipurpose wastewater reclamation and reuse project. A grant for wildlife enhancement is also being considered.

The purposes of the project are to provide: Increased capacity for the city's tertiary sewage treatment plant, enhancement of wildlife resources, and irrigation of 7,500 acres of presently unirrigated land. Its major features would include: Expansion of the city's existing tertiary wastewater treatment plant, installation of 6 miles of buried pipeline, construction of a 15,000 acre-foot reservoir, installation of a pipeline irrigation distribution system, and provision of tertiary treated water for enhancement of wildlife habitats.

A meeting has been scheduled to solicit public input, determine alternatives to the proposed project to determine the scope of the EIS/EIR, and identify significant issues related to the proposes action.

DATE: The meeting will be held on November 16, 1989, at 7:00 p.m., in Santa Rosa, California.

ADDRESS: The meeting will be held at the following location. Dohn Room, Santa Rosa Recreation Center, 415 Steele Lane, Santa Rosa, California 95401.

FOR FURTHER INFORMATION CONTACT: Mr. Chip Bruss, Environmental Specialist, Bureau of Reclamation (Code: MP-750), Mid-Pacific Region, 2800 Cottage Way, Sacramento, California 95825-1898; Telephone: (916) 978-5130; or Ms. Marie Meredith, Associate Planner, Department of Community Development, City of Santa Rosa, 100 Santa Rosa Avenue, Santa Rosa, California 95402-1678; Telephone: (707) 576-5295.

SUPPLEMENTARY INFORMATION: The proposed project is located south and east of Santa Rosa, California, in the Americano Creek and Stemple Creek watersheds. The primary land use in these areas is dairy farming.

Tertiary treated waste water would be pumped to the reservoir and stored for use in irrigating 7,500 acres of land and for wetland development and riparian habitat enhancement. These improvements would be done in cooperation with the U.S. Fish and Wildlife Service and the California Department of Fish and Game.

Anyone interested in more information concerning the proposed exchange or who has suggestions about significant environmental, issues should contact with the people listed above.

Joe D. Hall,

Deputy Commissioner.

BILLING CODE 4310-09-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Overseas Private Investment Corporation

Public Hearing

AGENCY: Overseas Private Investment Corporation, IDCA.

ACTION: Notice of public hearing.

SUMMARY: This notice sets forth the schedule and requirements for participation in an annual public hearing to be conducted by the Board of Directors of the Overseas Private Investment Corporation (OPIC) on November 28, 1989. This hearing is required by the OPIC Amendments Act of 1985, and this notice is being published to facilitate public participation. The notice also describes OPIC and the subject matter of the hearing.

DATE: The hearing will be held on November 28, 1989, and will begin promptly at 1 p.m. Prospective participants must submit to OPIC on or

VOL 54 ISS 207 OCT 27 1989 UMI

before November 7, 1989, notice of their intent to participate.

ADDRESS: The location of the hearing will be: Interstate Commerce Commission, Hearing Room A, 12th Street and Constitution Avenue NW., Washington, DC.

Notices and prepared statements should be sent to James R. Offutt, Office of General Counsel, Overseas Private Investment Corporation, 1615 M Street, NW., Washington, DC 20527.

(1) Procedure

(a) *Attendance; Participation.* The hearing will be open to the public. However, a person wishing to present his or her views at the hearing must provide OPIC with advance notice on or before November 7, 1989. The notice must include the name, address and telephone number of the person who will make the presentation, the name and address of the organization which the person represents (if any) and a concise summary of the subject matter of the presentation.

(b) *Prepared Statements.* Any participant wishing to submit a prepared statement for the record must submit it to OPIC with the notice or, in any event, not later than 5:00 p.m. on November 17, 1989. Prepared statements must be typewriten, double spaced and may not exceed twenty-five (25) pages.

(c) *Duration of Presentations.* Oral presentations will in no event exceed ten (10) minutes, and the time for individual presentations may be reduced proportionately, if necessary, to afford all prospective participants on a particular subject an opportunity to be heard or to permit all subjects to be covered.

(d) *Agenda.* Upon receipt of the required notices, OPIC will draw up an agenda for the hearing setting forth the subject or subjects on which each participant will speak and the time allotted for each presentation. OPIC will provide each prospective participant with a copy of the agenda.

(e) *Publication of Proceedings.* A verbatim transcript of the hearing will be compiled and published. The transcript will be available to members of the public at the cost of reproduction.

(2) Supplementary Information: OPIC is a U.S. Government agency which provides, on a commercial basis, political risk insurance and financing in friendly developing countries for projects which confer positive developmental benefits upon the project country while avoiding negative effects on the U.S. economy. OPIC's Board of Directors is required by section 231A(b) of the Foreign Assistance Act of 1961, as amended ("the Act") to hold at least one public hearing each year.

Among other issues, OPIC's annual public hearing has, in previous years, provided a forum for testimony concerning section 231A(a) of the Act. This section provides that OPIC may operate its programs only in those countries that are determined to be "taking steps to adopt and implement laws that extend internationally recognized worker rights to workers in that country (including any designated zone in that country)."

By prior agreement with Congress, OPIC complies with annual determinations made by the Exceutive Branch with respect to worker rights for countries that are eligible for the Generalized System of Preferences (GSP). Any country for which GSP eligibility is revoked on account of its failure to take steps to adopt and implement internationally recognzied worker rights is subject concurrently to the suspension of OPIC programs.

For non-GSP countries in which OPIC operates its programs, OPIC has agreed to provide a report to the Congress for any country which is the subject of a formal challenge at its annual public hearing. To qualify as a formal challenge, testimony must pertain directly to the woker rights requirements of the law as defined in OPIC's 1985 reauthorizing legislation (Pub. L. 99-204) with reference to the Trade Act of 1974, as amended, and be supported by factual information.

FOR FURTHER INFORMATION ABOUT THE PUBLIC HEARING CONTACT: James R. Offutt, Office of General Counsel, Overseas Private Investment Corporation, 1615 M Street, NW., Washington, DC 20527 (202) 457-7038.

Dated: October 23, 1989.

Margaret A. Kole,

Corporate Secretary.

BILLING CODE 3210-01-M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31485]

Indiana Rail Road Co.; Trackage Rights Exemption; Illinois Central Railroad Co. and Indiana Hi-Rail Corp.

Illinois Central Railroad Company (IC) has agreed to grant overhead trackage rights to Indiana Rail Road Company (IRRC) between milepost X-155 at Newton, IL and the Wye connecting tracks to the Central Illinois Public Service Company facility at milepost X-100 at Lis, IL, a distance of 5 miles. IC has also agreed to assign to IRRC its existing trackage rights over a line owned by Indiana Hi-Rail Corporation (IHR) between milepost B-204.3 at Browns, IL and milepost B-215.5 at Grayville, IL, a distance of 11.2 miles.[1] These trackage rights will become effective on the date the transaction proposed for exemption is consummated. The trackage rights in this proceeding connect with two lines that are the subject of a related proceeding, F.D. 31472, *Indiana Rail Road Company—Acquisition and Operation Exemption-Illinois Central Railroad Company*, filed concurrently with this notice.[2]

This notice is filed under CFR 1180.2(d)(7). Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Comments must be filed with the Commission and served on: John H. Broadley (IRRC), Jenner & Block, 21 Dupont Circle, NW., Washington, DC 20036; and William C. Sippel (IC), Oppenheimer, Wolff & Donnelly, Two Illinois Center, 233 N. Michigan Avenue, Suite 2400, Chicago, IL 60601.

As a condition to the use of this exemption, any employees affected by the trackage rights will be protected pursuant to *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978). *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Dated: October 18, 1989.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

[FR Doc. 89-25117 Filed 10-26-89; 8:45 am]

BILLING CODE 7035-01-M

[1] The acquisition of trackage rights by IRRC through assignment from IC falls within the class exemption which applies to trackage rights "over lines owned or operated" by other rail carriers. 49 CFR 1180.2(d)(7). There is no representation that IHR agrees to the assignments. It is assumed the IHR agrees or that its agreement is not required.

[2] In that proceeding, IRRC seeks exemption authority under 49 U.S.C. 10505 from the provisions of 49 U.S.C. 11343 to acquire IC's 99.3-mile line: (1) between milepost X-109 at Sullivan, IN, and milepost X-155 at Newton, IL; and (2) between milepost B-109 at Newton, IL, and milepost B-204.3 near Browns, IL.

DEPARTMENT OF JUSTICE

Lodging of Consent Decree; Gardner Asphalt Corp.

In accordance with the policy of the Department of Justice, 28 CFR 50.7, notice is hereby given that a complaint styled *United States* v. *Gardner Asphalt Corporation*, Civil Action No. 89-2946-S, was filed in the United States District Court for the District of Kansas on October 5, 1989, and, simultaneously, a consent decree was lodged with the Court in settlement of the allegations in the complaint. This consent decree settles the government's claims in the complaint pursuant to sections 112 and 113 of the Clean Air Act, 42 U.S.C. 7412 and 7413, for civil penalties and for injunctive relief to require compliance with all provisions of the Clean Air Act and with the National Emission Standard for Hazardous Air Pollutant (NESHAP) for Asbestos, codified at 40 CFR part 61, subpart M, by Gardner Asphalt Corporation of Kansas City, Kansas. The complaint alleged, among other things, that the defendant's Kansas City facility is subject to the NESHAP for asbestos, 40 CFR part 61, subpart M. The complaint further alleged that defendant failed to obtain written approval from the Administrator of EPA prior to commencing construction of its Kansas City, Kansas, facility, and failed to notify the Administrator of EPA prior to and after start up of its Kansas City, Kansas, facility.

Under the terms of the proposed consent decree, the defendants agree to pay civil penalties of thirteen thousand seven hundred fifty dollars ($13,750.00) and to comply with all provisions of the Clean Air Act, 42 U.S.C. 7401 *et seq.* and with the National Emission Standard for Hazardous Air Pollutant for Asbestos, codified at 40 CFR part 61, subpart M. The Department of Justice will receive comments relating to the proposed consent decree for a period of 30 days from the date of this publication. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, 10th and Pennsylvania Avenue NW., Washington, DC 20530. All comments should refer to *United States* v. *Gardner Asphalt Corporation*, D.J. Ref. 90-5-2-1-1254. The proposed consent decree may be examined at the following offices of the Unites States Attorney and the Environmental Protection Agency ("EPA"):

United States Attorney's Office

Contact: Chief, Civil Division, Office of the United States Attorney, 412 Federal Building, 812 North Seventh Street, Kansas City, Kansas 66101; (913) 236-3730.

EPA Region VII

Contact: Becky Ingrum Dolph, Office of Regional Counsel, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101; (913) 236-2853.

Copies of the proposed consent decree may also be examined at the Environmental Enforcement Section, Land and Natural Resources Division, United States Department of Justice, Room 1515, 10th and Pennsylvania Avenue NW., Washington, DC 20530. A copy of the proposed consent decree may be obtained by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044. In requesting a copy of the decree, please enclose a check for copying costs in the amount of $7.10 payable to Treasurer of the United States.

Richard B. Steward,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under title II, chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 6, 1989.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 6, 1989.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street NW., Washington, DC 20213.

Signed at Washington, DC, this 16th day of October 1989.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Cactus Drilling Co; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of: TA-W-21,807, Midland, Texas; TA-W-21,807A, All Other Locations in Texas; TA-W-21,807B, All Locations in Louisiana; TA-W-21,807C, All Locations in New Mexico; TA-W-21,807D, All Locations in Oklahoma; TA-W-21,807E, All Locations in Michigan.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on February 9, 1989 applicable to all workers of Cactus Drilling Company.

Based on new information from the company, additional workers were layed off at other locations in the State of Texas and in the States of Louisiana, New Mexico, Oklahoma and Michigan. The amended notice applicable to TA-W-21,807 is hereby issued as follows:

All workers of Cactus Drilling Company, Midland, Texas and in other locations in the State of Texas and in all locations in the States of Louisiana, New Mexico, Michigan and Oklahoma who became totally or partially separated from employment on or after October 1, 1985 are eligible to apply for adjustment assistance under Section 222 of the Trade Act of 1974.

Signed at Washington, DC, this 16th day of October 1989.

Robert O. Deslongchamps,

Director, Office of Legislation and Actuarial Services, UIS.

BILLING CODE 4510-30-M

Core Laboratories, Inc.; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of: TA-W-21,406, Dallas, Texas; TA-W-21,406A, Magnolia, Arkansas; TA-W-21,406B, Irving, Texas; TA-W-21,406C, All Other Locations in Texas; TA-W-21,406D, All Other Locations in Arkansas.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on December 19, 1988 applicable to all workers of Core Laboratories, Dallas, Texas and Magnolia, Arkansas. The certification notice was amended on August 31, 1989 to include all workers of Core Laboratories in Irving, Texas. The amended notice was published in the Federal Register on September 13, 1989 (54 FR 37841).

Based on new information from the company additional workers of Core Laboratories, a subsidiary of Western Atlas International, were separated at other locations in Texas and Arkansas. The amended notice applicable to TA-W-21,406 is hereby issued as follows:

All workers of Core Laboratories, Inc., Dallas, Texas; Irving, Texas; Magnolia, Arkansas and all other locations in Texas and Arkansas who became totally or partially separated from employment on or after October 1, 1985 are eligible to apply for adjustment assistance under Section 222 of the Trade Act of 1974.

Signed at Washington, DC, this 16th day of October 1989.

Eaton Corporation-Controls Division, Fremont, OH; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on September 15, 1989 applicable to all workers of Eaton Corporation-Controls Division, Fremont, Ohio.

Based on new information from the company, additional workers engaged in employment related to the production of automotive switches were retained beyond the September 15, 1989 termination date. All production of automotive switches is scheduled to be transferred to Mexico by mid-1990. Therefore, the Department is deleting the termination date. The amended notice applicable to TA-W-23,176 is hereby issued as follows:

All workers engaged in employment related to the production of automotive switches at Eaton Corporation, Controls Division, Fremont, Ohio who became totally or partially separated from employment on or after June 29, 1988 are eligible to apply for adjustment assistance under Section 222 of the Trade Act of 1974.

I further determine that all workers engaged in employment related to the production of appliance switches at Eaton Corporation, Controls, Division, Fremont, Ohio are denied eligibility to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed at Washington, DC, this 16th day of October 1989.

Levi Straus & Co., Inc.; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on April 26, 1989 applicable to all workers of Levi Straus and Company, Inc., McArthur Road and Jackson Avenue, Maryville, Tennessee. The notice was published in the Federal Register on May 23, 1989 (54 FR 22381).

Based on new information from the company, a few workers whose separations were affected by the closing of the plant were retained beyond the November 30, 1988 termination date. Accordingly, the Department is changing the termination date to December 15, 1988. The amended notice applicable to TA-W-22,535 and TA-W-22,536 is hereby issued as follows:

All workers of Levi Straus and Company, Inc., McArthur Road and Jackson Avenue, Maryville, Tennessee who became totally or partially separated from employment on or after February 2, 1988 and before December 15, 1988 are eligible to apply for adjustment assistance under Section 222 of the Trade Act of 1974.

Signed at Washington, DC, this 16th day of October 1989.

Meriden-Steinhour Press, Inc.; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on August 10, 1989 applicable to all workers of Meriden-Steinhour Press, Inc. in Meriden, Connecticut. The notice was published in the Federal Register on September 6, 1989 (54 FR 37033).

Based on new information from the company, a few workers were retained for close down operations beyond the July 1, 1989 termination date. The amended notice applicable to TA-W-23,041 is hereby issued as follows:

All workers of Meriden-Steinhour Press, Inc., Meriden, Connecticut who became totally or partially separated from employment on or after January 1, 1989 and before October 1, 1989 are eligible to apply for adjustment assistance under Section 222 of the Trade Act of 1974.

BILLING CODE 4510-30-M

[TA-W-22,163]

Micro Energy International, Inc.; Affirmed Termination of Investigation on Remand

Pursuant to a summons and complaint at the U.S. Court of International Trade, in *Former Employees of Micro Energy International Inc.* v. *Secretary of Labor* (USCIT 89-05-00279) the Department requested a remand to support its termination of investigation for workers at Micro Energy International, Inc., Roswell, New Mexico.

The Department terminated the investigation because the findings show that MEI never produced a marketable product or service in the short time it was in operation. MEI was incorporated in August 1985 to engage in the business of manufacturing an uninterruptable power source. The company was dissolved in November 1985. MEI was a start-up corporation that experienced a 4-month research and development period before ceasing operations for lack of capital.

Further, the retroactive provisions of the 1988 amendments contained in the Omnibus Trade and Competitiveness Act do not apply to workers engaged in the production of an article if such workers were eligible to be certified for benefits under the Trade Act prior to the implementation of the retroactive provisions.

Other findings show that all workers were separated from MEI more than one year prior to the date of the petition. Section 223 of the Trade Act specifies that no certification may apply to any worker whose last separation occurred more than one year before the date of the petition. Consequently, further investigation in this case would serve no purpose and the investigation was terminated.

Conclusion

After review of the investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the notice of termination of investigation is affirmed.

Signed at Washington, DC, this 16th day of October 1989.

Robert O. Deslongchamps,

Director, Office of Legislation and Actuarial Services, UIS.

BILLING CODE 4510–30–M

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S–3504, Washington, DC 20210.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783–3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 20th day of October 1989.

Ethel P. Miller,
Acting Director, Division of Wage Determinations.

BILLING CODE 4510–27–M

Mine Safety and Health Administration

[Docket No. M–89–19–M]

Bunker Hill Mining Co. (U.S.) Inc.; Petition for Modification of Application of Mandatory Safety Standard

Bunker Hill Mining Company (U.S.) Inc., P.O. Box 29, Kellogg, Idaho 83837 has filed a petition to modify the application of 30 CFR 49.8(b) (training for mine rescue teams) to its Bunker Hill Mine (I.D. No. 10–00083) and its Crescent Mine (I.D. No. 10–00085) both located in Shoshone County, Idaho. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirements that upon completion of the initial training, all team members are required to receive at least 40 hours of refresher training annually. This training is required to be given at least 4 hours each month, or for a period of 8 hours every two months.

2. Petitioner states that requiring at least 4 hours of refresher training each month or 8 hours every two months would result in a diminution of safety for the underground personnel because most of the experienced mine rescue personnel would resign.

3. In support of this request, petitioner states that—

(a) Most of the rescue team personnel are veterans; and

(b) Adequacy of training cannot be measured in hours spent in training. Performance and knowledge are the only valid criteria.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before November 27, 1989. Copies of the petition are available for inspection at that address.

Dated: October 18, 1989.

Patricia W. Silvey,
Director, Office of Standards, Regulations and Variances.

Fausett International, Inc.; Petition for Modification of Application of Mandatory Safety Standard

Fausett International, Inc., P.O. Box 968, Osburn, Idaho 83849 has filed a petition to modify the application of 30 CFR 49.8(b) (training for mine rescue teams) to the Bunker Hill Mine (I.D. No. 10–00083) located in Shoshone County, Idaho. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statement follows:

1. The petition concerns the requirement that upon completion of the initial training, all team members are required to receive at least 40 hours of refresher training annually. This training is required to be given at least 4 hours each month, or for a period of 8 hours every two months.

2. Petitioner states that requiring at least 4 hours of refresher training each month or 8 hours every two months would result in a diminution of safety for the underground personnel because most of the experienced mine rescue personnel would resign.

3. In support of this request, petitioner states that—

(a) Most of the rescue team personnel are veterans; and

(b) Adequacy of training cannot be measured in hours spent in training. Performance and knowledge are the only valid criteria.

4. For these reasons, petitioner requests a modification of the standard.

BILLING CODE 4510–43–M

[Docket No. M–89–155–C]

Sea "B" Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Sea "B" Mining Company, P.O. Box 26, Jewell Ridge, Virginia 24622 has filed a petition to modify the application of 30 CFR 75.305 to its Seaboard No. 1 Mine (I.D. No. 44–02253) located in Tazewell County, Virginia. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that the main return be examined in its entirety on a weekly basis.

2. Due to several roof falls, and an extremely weak roof certain areas of the return cannot be safety traveled.

3. As an alternate method, petitioner proposes to establish checkpoints in specific areas where air readings and gas checks would be made and a date board would be signed in lieu of traveling the affected areas.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before November 27, 1989. Copies of the petition are avilable for inspection at that address.

Patricia W. Silvey,

[FR Doc. 89-25372 Filed 10-26-89; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-89-154-C]

Southern Light Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Southern Light Coal Co., P.O. Box 1185, Barbourville, Kentucky 40906 has filed a petition to modify the application of 30 CFR 75.313 (methane monitor) to its Mine No. 1 (I.D. No. 15-15872) located in Whitley County, Kentucky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that a methane monitor be installed on electric face cutting equipment, continuous mining machines, longwall face equipment and loading machines. The monitor is required to be properly maintained and frequently tested.

2. No methane has been detected in the mine.

3. The three-wheel tractors are permissible DC-powered machines, without hydraulics. Approximately 30-40% of the coal is hand loaded into a drag-type bucket. Approximately 20% of the time that the tractor is in use, it is used as a mantrip and supply vehicle.

4. As an alternate method, petitioner proposes to use hand-held continuous oxygen and methane monitors instead of methane monitors on three-wheel tractors. In further support of this request, petitioner states that:

(a) Each three-wheel tractor would be equipped with a hand-held continuous monitoring methane and oxygen detector and all persons would be trained in the use of the detector;

(b) Prior to allowing the coal loading tractor in the face area, a gas test would be performed to determine the methane concentration in the atmosphere. When the elapsed time between trips does not exceed 20 minutes, the air quality would be monitored continuously after each trip. This would provide continuous monitoring of the mine atmosphere for methane to assure the detection of any methane buildup between trips;

(c) If one percent methane is detected, the operator would manually deenergize the battery tractor immediately. Production would cease and would not resume until the methane level is lower than one percent;

(d) A spare continuous monitor would be available to assure that all coal hauling tractors would be equipped with a continuous monitor;

(e) Each monitor would be removed from the mine at the end of the shift, and would be inspected and charged by a qualified person. The monitor would also be calibrated monthly; and

(f) No alterations or modifications would be made in addition to the manufacturer's specifications.

5. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before November 27, 1989. Copies of the petition are available for inspection at that address.

Dated: October 10, 1989.

BILLING CODE 4510-43-M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Nixon Presidential Historical Materials; Opening of Materials

AGENCY: National Archives and Records Administration.

ACTION: Notice of opening of materials.

SUMMARY: This notice announces the opening of selected subject categories and staff member files from the Nixon White House Central Files (WHCF).

Notice is hereby given that, in accordance with section 104 of title I of the Presidential Recordings and Materials Preservation Act (88 Stat. 1695; 44 U.S.C. 2111 note) and § 1275.42(b) of the Public Access Regulations implementing the Act (36 CFR part 1275), the agency has identified, inventoried, and prepared for public access integral file segments of materials among the Nixon Presidential materials.

DATES: The National Archives intends to make the integral file segments described in this notice available to the public beginning December 15, 1989. Any person who believes it necessary to file a claim of legal right or privilege concerning access to these materials should notify the Archivist of the United States in writing of the claimed right, privilege, or defense before December 6, 1989.

ADDRESSES: The materials will be made available to the public at the National Archives' facility located at 845 South Pickett Street, Alexandria, Virginia.

Petitions concerning access must be sent to the Archivist of the United States, National Archives and Records Administration, Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT: Clarence F. Lyons, Jr., Acting Director, Nixon Presidential Materials Staff, 703-756-6498.

SUPPLEMENTARY INFORMATION: The integral file segments of textual materials to be opened consist of 120.9 cubic feet. This is the fifth of a series of openings of Central Files; the previous openings were on December 1, 1986; March 22, 1988; December 9, 1988; and July 17, 1989.

The White House Central Files Unit is a permanent organization within the White House complex that maintains a central filing and retrieval system for the records of the President and his staff. Some of the materials designated for opening on December 15, 1989, were selected from the Subject Files of the Central Files. The Subject Files are based on an alphanumeric file scheme of 61 primary subject categories. Listed below are the primary subject categories of the Subject Files that will be made available to the public on December 15, 1989.

Subject Category	Volume (cubic feet)
Federal Government (FG):	
Council for Urban Affairs (FG 6-12)	1.3
The Judicial Branch (FG 50)	0.2
United States Courts of Appeals (FG 52)	0.5

Subject Category	Volume (cubic feet)
American Revolution Bicentennial Commission (FG 75)	0.9
Civil Aeronautics Board (FG 88)	0.8
Commission on Obscenity and Pornography (FG 95)	0.3
Federal Communications Commission (FG 118)	0.5
Interdepartmental Committee on the Status of Women (FG 147)	0.1
Smithsonian Institution (FG 218)	0.8
Cabinet Committee on the Environment/Citizens Advisory Committee on Environmental Quality (FG 251)	0.3
National Industrial Pollution Control Council (FG 278)	0.2
Environmental Protection Agency (FG 298)	0.7
Publications (PU)	9.6
Social Affairs (SO)	10.0

In addition to the subject categories, four file groups from the Staff Member and Office Files will be made available to the public. These consist of materials that were transferred to Central Files but were not incorporated into the Subject Files. Listed below are the Staff Member and Office Files that will be made available to the public on December 15, 1989.

File group	Volume (cubic feet)
Nils A. Boe	15.0
James H. Cavanaugh	18.3
Paul W. McCracken	44.6
White House Gift Unit	17.0

Public access to some of the items in the file segments will be restricted as outlined in 36 CFR 1275.50 or 1275.52 (Public Access Regulations).

Dated: October 23, 1989.

Don W. Wilson,

Archivist of the United States.

BILLING CODE 7515-01-M

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Meeting of Museum Advisory Panel

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Museum Advisory Panel (Care of Collections Section) to the National Council on the Arts will be held on November 14-16, 1989, from 9:15 a.m.-5:30 p.m. in Room 730 of the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the Agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and (9)(B) of section 552b of title 5, United States Code.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682-5433.

Dated: October 23, 1989.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537-01-M

NATIONAL SCIENCE FOUNDATION

Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act of 1978 at title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATE: Interested parties are invited to submit written data, comments, or views with respect to these permit applications by November 29, 1989. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESS: Comments should be addressed to Permit Office, Room 627, Division of Polar Programs, National Science Foundation, Washington, DC 20550.

FOR FURTHER INFORMATION CONTACT: Charles E. Myers at the above address or (202) 357-7934.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Public Law 95-541), has developed regulations that implement the "Agreed Measures for the Conservation of Antarctic Fauna and Flora" for all United States citizens. The Agreed Measures, developed in 1964 by the Antarctic Treaty Consultative Parties, recommended establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Specially Protected Areas and Sites of Special Scientific Interest. Additional information was published in the **Federal Register** on July 17, 1989.

The applications received are as follows:

1. Applicant

Stephen L. Burns, National Geographic Society, 1600 M Street, NW., Washington, DC 20036.

Activity for Which Permit Requested

Enter Specially Protected Area. Enter Sites of Special Scientific Interest. The applicant is working on a television special about the Antarctic Peninsula and requests permission to enter protected areas to record scientists collecting data.

Location

Antarctic Peninsula. Specially protected area #17, Litchfield Island. Sites of Special Scientific Interest #6, Byers Peninsula; #8 western shore of Admiralty Bay.

Dates

December 1989—February 1990.

Charles E. Myers,

Permit Office.

BILLING CODE 7590-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. 301-49]

Termination of Section 302 Investigation: Policies and Practices of the Government of Brazil With Respect to Informatics

AGENCY: Office of the United States Trade Representative.

ACTION: Notice of termination of investigation under section 302 of the Trade Act of 1974, as amended.

SUMMARY: The United States Trade Representative (USTR) has decided to terminate and investigation initiated under section 302 of the Trade Act of 1974, as amended (Trade Act) with respect to acts, policies, and practices of the Government of Brazil with respect to informatics (computer and other electronics hardware and software) products.

DATE: This investigation is terminated effective October 6, 1989.

FOR FURTHER INFORMATION CONTACT: Jon Huenemann, Director, Brazil and Southern Cone Affairs, USTR, (202) 395-5190.

SUPPLEMENTARY INFORMATION: On September 16, 1985, pursuant to his authority under section 302(c) of the Trade Act, the USTR initiated an investigation into Brazil's informatics policy [Docket No. 301-49, 50 FR 37606].

On October 6, 1986, President Reagan determined pursuant to section 301 of the Trade Act of 1974, as amended, that the Government of Brazil had engaged in acts, policies and practices with respect to informatics products that were unreasonable and burdened or restricted U.S. Commerce. The President directed the USTR to pursue negotiations to address U.S. concerns regarding barriers to U.S. trade and investment and the lack of adequate and effective intellectual property protection [51 FR 35993].

While a number of restrictions to foreign access remain, significant progress has been achieved since the October 1986 determination. Brazil has extended explicit copyright protection to computer software, provided increased market access for foreign computer software following implementation of the software law, and improved the responsiveness and clarity of its administrative functions regarding the implementation of its informatics policies that affect foreign trade. In addition, in September 1989, Brazil lifted restrictions on remittances from sales of foreign software, and the government of Brazil indicated its willingness to work constructively with the U.S. on informatics investment issues.

In response to this progress, the following steps were taken over the course of this investigation: on December 30, 1986, President Reagan determined to suspend that part of the investigation dealing with Brazilian administrative procedures (52 FR 1619); on June 30, 1987, President Reagan determined to suspend the intellectual property portion of the investigation (52 FR 24971); and on October 5, 1989, the USTR determined that the investigation of Brazil's acts, policies and practices with respect to informatics would be terminated.

Joshua B. Bolten,

General Counsel.

BILLING CODE 3190-01-M

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

AGENCY: Railroad Retirement Board.

ACTION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s):

(1) *Collection title:* Financial Disclosure Statement.

(2) *Form(s) submitted:* G-423.

(3) *OMB Number:* 3220-0127.

(4) *Expiration date of current OMB clearance:* 12-31-89.

(5) *Type of request:* Revision of a currently approved collection.

(6) *Frequency of response:* ON occasion.

(7) *Respondents:* Individuals or households.

(8) *Estimated annual number of respondents:* 1,550.

(9) *Total annual responses:* 1,550.

(10) *Average time per response:* 1.3335 hours.

(11) *Total annual reporting hours:* 2,067.

(12) *Collection description:* Under the Railroad Retirement and Railroad Unemployment and Insurance Acts, the Railroad Retirement Board has authority to secure from an overpaid beneficiary a statement of the indivdual's assets and liabilities if waiver of the overpayment is requested.

Additional Information or Comments: Copies of the proposed forms and supporting documents can be obtained from Ronald J. Hodapp, the agency clearance officer (312-751-4692). Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 and the OMB reviewer, Justin Kopca (202-395-7316), Office of Management and Budget, Room 3002, New Executive Office Building, Washington, DC 20503.

Ronald J. Hodapp,

Director of Information Resources Management.

SECURITIES AND EXCHANGE COMMISSION

Forms Under Review by Office of Management and Budget

Agency Clearance Officer: Kenneth Fogash, (202) 272-2142.

Upon written request copy available from: Securities and Exchange Commission, Public Reference Branch, Washington, DC 20549-1002.

Extension

Form BDW, File No. 270-17
Rule 17a-7, File No. 270-147
Rule 17a-5, File No. 270-199
Rule 17a-2, File No. 270-189
Rule 19d-3, File No. 270-245
Rule 17a-1, File No. 270-244
Rule 19h-1, File No. 270-247
Rule 17f-1(g), File No. 270-30

Notice is hereby given pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*), that the Securities and Exchange Commission (Commission) has submitted for extension of OMB approval the following forms/rules under the Securities Exchange Act of 1934 (1934 Act):

3235-0018 Form BDW [Rule 15b-6(a)]—Notice of withdrawal from registration as a broker-dealer; 847 broker-dealers incur an estimated average of one-half burden hour to comply with this requirement.

3235-0131 Rule 17a-7—Records of non-resident brokers and dealers; three broker-dealers incur an estimated average of one burden hour to comply with this requirement.

3235-0199 Rule 17a-5—Customer statements re financial condition of broker-dealer; 1,500 broker-dealers incur an estimated average of one minute to comply with this requirement.

3235-0201 Rule 17a-2—Recordkeeping requirements relating to stabilizing activities; 500 underwriting managers incur an estimated average of seven and one-half minutes to comply with this requirement.

3235-0204 Rule 19d-3—Application for review of final disciplinary sanctions, denials of membership participation or limitations of access to services imposed by self-regulatory organizations; thirteen members incur an estimated average of 18 burden hours to comply with this requirement.

3235-0206 Rule 17a-1—Recordkeeping rule for national securities exchanges and national securities association; thirty recordkeepers incur an estimated average of 50 burden hours to comply with this requirement.

3235-0259 Rule 19(h)-1—Notice by self-regulatory organizations of proposed admissions to or continuance in membership or participation or association with a member of any person subject to a statutory disqualification and applications to the relief therefrom; three organizations incur an estimated average of four and one-half burden hours to comply with this requirement.

3235-0290 Rule 17f-1(g)—Recordkeeping requirements for the lost and stolen securities program; 19,602 recordkeepers incur an estimated average of thirty-five minutes to comply with this requirement.

The estimated average burden hours are made solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms.

General comments regarding the estimated burden hours should be directed to Gary Waxman at the address below. Any comments concerning the accuracy of the estimated average burden hours for compliance with Commission rules and forms should be directed to Kenneth A. Kogash, Deputy Executive Director, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549-6004 and Gary Waxman, Clearance Officer, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 20, 1989.

Jonathan G. Katz,

Secretary.

Self-Regulatory Organization; Philadelphia Stock Exchange, Inc., et al.; Notice of Filing and Order Granting Accelerated Approval to Proposed Rule Changes Relating to Market Circuit Breaker Proposals

In the matter of Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; New York Stock Exchange, Inc.; American Stock Exchange, Inc.; Boston Stock Exchange, Inc.; Midwest Stock Exchange Inc.; and National Association of Securities Dealers, Inc.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b-4 thereunder[2] the New York Stock Exchange Inc., ("NYSE"); the Philadelphia Stock Exchange Inc., ("PHLX"); the American Stock Exchange, Inc. ("Amex"); the Boston Stock Exchange, Inc. ("BSE"); the Midwest Stock Exchange, Inc. ("Midwest") and the National Association of Securities Dealers ("NASD") [collectively, the self-regulatory organizations ("SROs")] have filed with the Securities and Exchange Commission ("Commission") proposed rule changes to extend rule changes that implement certain procedures that will be activated during volatile market conditions.

The Commission approved in 1988 circuit breaker proposals by the SROs. In general, the circuit breaker proposals provide that trading in all markets would halt for one hour if the Dow Jones Industrial Average ("DJIA") declines 250 or more points from its previous day's closing level; once trading has been reopened, trading would halt for an additional two hours if the DJIA declines 400 points from the previous day's close. Such circuit breaker proposals were an important part of the measures adopted by the SROs to address volatility concerns in wake of the October 1987 Market Break.

The Commission approved the NYSE, the Amex, the BSE, the MSE, the PHLX, and the NASD circuit breaker proposals on a pilot program basis and these SROs have filed with the Commission proposals to extend their respective pilot programs.[3] The circuit breaker proposals of the Chicago Board Options, Inc. ("CBOE"),[4] the Pacific Stock Exchange, Inc. ("PSE");[5] and the Cincinnati Stock Exchange, Inc. ("CSE")[6] were proposed by these exchanges, and approved by the Commission, on a permanent basis rather than as a pilot program.

I. Description of the Proposals

A. NYSE

The NYSE circuit breaker proposal was approved by the Commission in October 1988 for a one year pilot program,[7] the NYSE proposes to extend

[1] 15 U.S.C. 78s(b) (1982)

[2] 17 CFR 240.19b-4 (1989).

[3] The NYSE proposal (SR-NYSE-89-31) was filed with the Commission on October 6, 1989. The Amex proposal (SR-Amex-89-24) was filed with the Commission on October 16, 1989. The NASD proposal (SR-NASD-89-46) was filed with the Commission on October 12, 1989. The PHLX proposal (SR-PHLX-89-47) was filed with the Commission on September 28, 1989. The MSE proposal (SR-MSE-89-9) was filed with the Commission on October 17, 1989. The BSE proposal (SR-BSE-89-7) was filed with the Commission on October 19, 1989.

[4] CBOE Rule 6.3A provides that the CBOE would halt trading in all stock options and stock index options when trading in all stocks on the NYSE has been halted as a result of activation of circuit breakers pursuant to NYSE Rule 80B. CBOE Rule 6.3A also provides procedures for reopening options after such a halt. Additionally, the CBOE amended its Rule 24.7 to establish procedures for the opening, halting, and reopening of the trading in stock index options linked to the halting and reopening of futures on the same or a related index. See Securities Exchange Act Release No. 26198 (October 19, 1988), 53 FR 41637.

[5] The PSE, similar to the NASD, filed a rule in the form of an official policy that stated it would cooperate with a request from the SEC to halt trading in all equity and equity-related products traded at the PSE in conjunction with halted trading at other U.S. markets. See Securities Exchange Act Release No. 26366 (December 10, 1988) 53 FR 51942. The Commission, in approving the PSE's proposed rule change, requested that the PSE implement its policy statement by imposing a trading halt as quickly as practicable whenever the NYSE and other equity markets have suspended trading.

[6] The CSE adopted a policy statement, similar to the NASD and PSE proposals, that requires the CSE to participate in a uniform trading halt by all exchanges. The CSE policy was approved by the Commission on a permanent basis rather than as a pilot program. See Securities Exchange Act Release No. 26440 (January 10, 1989) 54 FR 1630.

[7] See Securities Exchange Act Release No. 26198, supra note four. The NYSE circuit breaker proposal also included (1) special procedures (so-called "sidecar" procedures) if the Standard and Poor's 500 index futures declined 12 points, see NYSE Rule

Continued

VOL 54 ISS 207 OCT 27 1989 UMI

its circuit breaker rule, NYSE Rule 80B, for an additional year. NYSE Rule 80B provides for a temporary halt in the trading of all stocks, stock options, and stock index options on the NYSE if the DJIA reaches certain trigger values. Specifically, trading would halt for one hour if the DJIA declines 250 or more points from its previous day's closing level; once trading has been reopened, trading would halt for an additional two hours if the DJIA declines 400 points from the previous day's close. Trading would resume following a halt pursuant to procedures similar to those used by the NYSE to open trading on "Expiration Fridays", the days that stock options, stock index options, and stock index futures expire simultaneously.[8]

B. Amex

The Amex's circuit breaker rule is substantially identical to the NYSE's Rule 80B.[9] The Amex proposes to extend its circuit breaker provision for an additional year. Under the Amex's pilot program, trading in all stocks and options will halt for one hour if the DJIA declines 250 or more points from its previous day's closing level; once trading has been reopened, trading will halt for an additional two hours if the DJIA declines 400 points from the previous day's close. The Amex proposal contains provisions for halting trading for the remainder of the day and using abbreviated reopening procedures that are substantially identical to the NYSE procedures.

The Amex pilot program also provides that index options are subject to a trading halt within ten minutes of a determination that the primary Standard and Poor's 500 Index futures contract traded on the Chicago Mercantile Exchange has reached a price limit due to a decline of 30 index points from the closing value of the previous day.

C. PHLX, BSE, and MSE

The PHLX, BSE, and MSE circuit breaker rules are substantially identical to the NYSE's circuit breaker rule. The PHLX and MSE propose to extend their pilot periods to correspond with the NYSE's proposed extended pilot and the BSE proposes to extend its pilot until October 31, 1991.[10]

D. NASD

The NASD filed with the Commission a Policy Statement on Market Closing ("Policy Statement"), that states that at times when other major securities markets initiate market-wide trading halts in response to extraordinary market conditions, the NASD will, upon request from the Commission, act to halt domestic trading in all securities quoted on the National Association of Securities Dealers Automatic Quotation ("NASDAQ") system and domestic trading in equity or equity-related securities in the over-the-counter ("OTC") market.[11] The NASD's Policy Statement is effective until December 31, 1989, and the NASD proposes to extend the Policy Statement until December 31, 1990 unless modified or extended prior to that date.

II. Discussion

The circuit breaker mechanisms were enacted in the wake of the October 1987 Market Break. Both the *Report of the Presidential Task Force on Market Mechanisms* ("Brady Report") and the Working Group's Interim Report recommended that coordinated trading halts and reopening procedures be developed that would be implemented in all U.S. markets for equity and equity related products during large rapid market declines.[12] In response, the SROs submitted proposals to implement circuit breaker procedures that are designed to substitute planned trading halts for unplanned and destabilizing market closings. In addition, the stock index futures exchanges have parallel circuit breakers that have been approved by the Commodity Futures Trading Commission on a permanent basis.[13]

Since the Commission approved these proposals in October 1988, the DJIA has not experienced a one day 250 point decline that would trigger a market halt.[14] The Commission continues to believe that circuit breaker procedures are desirable to deal with potential strains that may develop during periods of extreme market volatility, and, accordingly, the Commission believes that the pilot programs should be extended. The Commission also believes that circuit breakers represent a reasonable means to retard rapid market declines that can have a destabilizing effect on the nation's financial markets and participants.[15]

Accordingly, the Commission finds that the proposed rule changes filed by the NYSE, the PHLX, the Amex, the BSE, the Midwest and the NASD are consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and/or to a national securities association, and, in particular, the requirements of section 6 [16] and section 15A [17] and the rules and regulations thereunder.[18]

The Commission finds good cause for approving the SRO proposed rule changes prior to the thirtieth day after the date of publication of the proposals in the **Federal Register** because there are no changes being made to the current provisions and accelerated approval would enable the pilots to continue on an uninterrupted basis.

Interested persons are invited to submit written data, views, and

---

80A, and (2) special routing of certain small orders from public investors over the Designated Order Turnaround system if the DJIA moves 25 points from the previous day's close (so-called Individual Investor Express Delivery System). These were approved on a permanent basis.

[8] See Securities Exchange Act Release No. 25804 (June 15, 1988), 58 FR 23474.

[9] The Amex circuit breaker proposal was approved by the Commission in Securities Exchange Act Release No. 26198, supra note four. Subsequently the proposal was amended, among other things, to clarify its application to options transactions. See Securities Exchange Act Release No. 26382 (December 21, 1988), 53 FR 52539

[10] See Securities Exchange Act Release No. 26386 (December 22, 1988), 53 FR 52804; Securities Exchange Act Release No. 26357 (December 14, 1988), 53 FR 51182; and Securities Exchange Act Release No. 26218 (October 26, 1988) 53 FR 44137.

[11] See Securities Exchange Act Release No. 26198, *supra* note four. In approving the NASD proposal, the Commission requested that the NASD implement its Policy Statement by imposing a trading halt as quickly as practicable whenever the NYSE and other equity markets have suspended trading (*i.e.*, whenever the DJIA declines 250 or 400 points).

[12] In particular, the Working Group recommended a one-hour trading halt if the DJIA declined 250 points from its previous day's closing level, and a subsequent two-hour trading halt if the DJIA declined 400 points below its previous day's closing level. The Working Group also recommended that the NYSE use reopening procedures, similar to those used on Expiration Fridays, that are designed to enhance the information made public about market conditions.

[13] For example, the Chicago Mercantile Exchange's circuit breaker provides for a downward price limit of 30 points from the previous day's settlement price for its Standard & Poor's 500 future. When trading halts on the NYSE due to a drop in the DJIA of 250 points and the 30 point price limit has been reached, then trading in the future halts on the Chicago Mercantile Exchange.

[14] The sidecar procedures were triggered once, during the last hour of trading on October 13, 1989, as was the 30 point price limit on the Standard & Poor's stock index future. Preliminary indications are that the procedures worked operationally well that day. Finally, the Individual Investor Express Delivery Service has been triggered over 20 times since implementation without operational problems.

[15] The Commission, of course, will review the operation of these procedures during October 1989 and consider modifications to these procedures, if necessary, in light of that experience. During the interim, however, the Commission believes that market continuity and stability warrants extension of the pilot procedures.

[16] 15 U.S.C. 78f (1982).

[17] 15 U.S.C. 78o-3 (1982).

[18] The Commission reaffirms its request that the NASD and PSE implement their policy statements by imposing a trading halt as quickly as practicable whenever the NYSE and other equity markets have suspended trading.

arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the NYSE, Amex, PHLX, BSE, Midwest, or NASD. All submission should refer to file number SR–NYSE–89–31, SR–PHLX–89–47, SR–NASD–89–40, SR–MSE–89–8, SR–BSE–89–7, or SR–Amex–89–24, and should be submitted by November 17, 1989.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act,[19] that the proposed rule changes are approved until October 31, 1990 for the NYSE, PHLX, Amex, and MSE, until October 31, 1991 for the BSE, and until December 31, 1990 for the NASD.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[20]

Dated: October 23, 1989.

Jonathan G. Katz,

Secretary.

[Rel. No. IC–17190; 812–7411]

Dean Witter American Value Fund, et al.; Temporary Order

October 23, 1989.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Temporary order under the Investment Company Act of 1940 (the "1940 Act").

Applicants: Dean Witter American Value Fund, Dean Witter California Tax-Free Income Fund, Dean Witter Convertible Securities Trust, Dean Witter Developing Growth Securities Trust, Dean Witter Dividend Growth Securities Inc., Dean Witter Government Securities Plus, Dean Witter High Yield Securities Inc., Dean Witter Intermediate Income Securities, Dean Witter Managed Assets Trust, Dean Witter Natural Resource Development Securities, Inc., Dean Witter New York Tax-Free Income Fund, Dean Witter Option Income Trust, Dean Witter Strategist Fund, Dean Witter Tax Exempt Securities Trust, Dean Witter U.S. Government Securities Trust, Dean Witter Utilities Fund, Dean Witter World Wide Income Trust, Dean Witter World Wide Investment Trust, Dean Witter Value -Added Market Series, Dean Witter/Sears California Tax-Free Daily Income Trust, Dean Witter/Sears Liquid Asset Fund Inc., Dean Witter/Sears Tax-Free Daily Income Trust and Dean Witter/Sears U.S. Government Money Market Trust ("Applicant Funds") and Dean Witter Reynolds Inc. ("DWR") (DWR and Applicant Funds are collectively referred to as "Applicants").

Relevant 1940 Act Section: Order requested pursuant to section 11(a) of the 1940 Act.

SUMMARY: Applicants (1) have requested an order, pursuant to section 11(a) of the 1940 Act, permitting Applicants and any other registered, open-end management investment company as to which DWR may subsequently serve as investment adviser (collectively, with Applicant Funds, the "DWR Funds") to make certain offers of exchange, until April 23, 1990, without complying with the provisions of paragraph (b)(5) of rule 11a–3 under the 1940 Act; and (2) have requested that such order be made effective on a temporary basis upon the approval, by the SEC, of the issuance of this notice of application.

FILING DATE: The application was filed on October 13, 1989.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicans, Two World Trade Center, New York, New York 10048.

FOR FURTHER INFORMATION CONTACT: Stuart Horwich, Staff Attorney (202) 272–3035 or Karen L. Skidmore, Branch Chief, (202) 272–3023 (Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: Following is a summary of the application; the complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier (800) 231–3282 (in Maryland (301) 258–4300).

Applicant's Representations

1. Applicant Funds are registered under the 1940 Act as open-end, management investment companies. DWR is a registered broker-dealer and, through its InterCapital Division, provides services to Applicant Funds. It is an investment adviser registered under the Investment Advisers Act of 1940. DWR is the principal underwriter for shares of Applicant Funds other than Dean Witter/Sears California Tax-Free Daily Income Trust, Dean Witter/Sears Liquid Asset Fund Inc., Dean Witter/Sears Tax-Free Daily Income Trust and Dean Witter/Sears U.S. Government Money Market Trust. Those funds are self-distributed.

2. Certain of the DWR Funds may impose a contingent deferred sales charge ("CDSL") on shares redeemed within six years of purchase (the "CDSL Funds"). The rate of the applicable CDSL declines over time, with a 5% CDSL applicable for redemptions within the first year of purchase, and 1% for shares redeemed during the sixth year. DWR receives the proceeds of the CDSL and also receives payments pursuant to plans of distribution adopted by the CDSL Funds pursuant to rule 12b–1 under the 1940 Act ("12–1 plans"). The DWR Funds received orders of the Commission granting certain exemptions with respect to the imposition of the CDSL.

3. Shares of other DWR Funds sold with a front-end sales load (the "FESL Funds"). In addition, shares of other DWR Funds are sold without a sales load; however, those which are money market funds (the "Money Market Funds") have adopted 12b–1 plans under which they may bear distribution expenses in amounts up to a maximum of .15% per annum of their respective average net assets. Currently, DWR collects a 12b–1 fee of .10%W per annum from the Money Market Funds.

4. In 1984, the Commission issued an order pursuant to section 11(a) of the 1940 Act, permitting exchanges of shares between the CDSL Funds and the Money Market Funds (the "Prior Order"). As described in the application that requested the Prior Order, when shares of a CDSL Fund are exchanged for shares of one of the Money Market Funds, and during the period the Money Market Fund shares so acquired are held, there is a tolling of the holding period used in determining the CDSL to be applied upon redemption of those shares. The Prior Order was amended upon an application in 1987 to expand the types of permitted offers of exchange so as to enable exchanges of shares between the CDSL Funds and the FESL Funds. Under a condition agreed to in obtaining the 1987 amendment to the Prior Order, the DWR Funds agreed to comply with rule 11a–3 under the 1940 Act "when and if adopted".

5. The Commission's release adopting rule 11a–3 under the 1940 Act (Investment Company Act Release No.

---

[19] 15 U.S.C. 78s(b) (2) (1982).

[20] 17 CFR 200.30–3(a) (12) (1988).

VOL 54 ISS 207 OCT 27 1989 UMI

17097) (August 3, 1989) provided that holders of orders pursuant to section 11(a) of the 1940 Act that were conditioned specifically upon compliance with rule 11a–3, if and when adopted, have until 60 days after the date of the rule's publication in the **Federal Register** (October 23, 1989) to conform fees and sales loads to the requirements set forth in the rule. Accordingly, the DWR Funds must comply with all provisions of rule 11a–3 by October 23, 1989. Other holders of orders pursuant to section 11(a) that were not so conditioned need not conform their fees and sales loads to rule 11a–3 until October 23, 1990.

6. In connection with offers of exchanges between the CDSL Funds and the Money Market Funds, paragraph (b)(5) of rule 11a–3 requires that the holding period used to determine the CDSL percentage rate applicable upon a redemption of shares include any period of time during which the shares (or the shares exchanged to acquire the redeemed shares) were held as Money Market Fund shares, unless, upon a redemption of shares which result in a CDSL being imposed, a credit is given in an amount equal to the Money Market Fund 12b–1 fees attributable to such shares (or attributable to Money Market Fund shares previously exchanged to acquire the redeemed shares) (the "12b–1 Credit"). Applicant Funds wish to continue to toll the holding period used in determining the applicable CDSL when shares of a CDSL Fund are exchanged for shares of a Money Market Fund. However, to do so under the terms of paragraph (b)(5) of rule 11a–3, it is necessary to provide the 12b–1 Credit because the Money Market Funds bear distribution expenses pursuant to 12b–1 plans. The decision to provide the credit rather than to cease tolling is based on the view of Applicants that use of the 12b–1 Credit is fairer to shareholders of CDSL Funds who have not exchanged shares than is "tacking" of holding periods which paragraph (b)(5) of rule 11a–3 otherwise requires.

7. Applicants assert that implementation of the 12b–1 Credit requires Applicant Funds' transfer agent to develop a variety of new systems. Those systems cannot be written, tested and implemented prior to the October 23, 1989 effective date of rule 11a–3. Thus, absent additional time to comply, Applicant Funds would be forced to suspend exchange privileges between the CDSL Funds and the Money Market Funds on October 23, 1989 in order not to be in violation of rule 11a–3. In addition, any newly organized DWR Funds which are CDSL Funds, and DWR Funds which are now FESL Funds but which become CDSL Funds, would not be able to offer exchanges for shares of Money Market Funds until the systems necessary to provide the 12b–1 Credit are implemented. A suspension of exchange privileges between the CDSL Funds and the Money Market Funds would be disadvantageous to shareholders of the DWR Funds.

8. Based upon the foregoing, Applicants (1) seek an order of the Commission, pursuant to section 11(a) of the 1940 Act, permitting the DWR Funds and DWR to make certain offers of exchange, until April 23, 1990, without complying with the provisions of paragraphs (b)(5) of rule 11a–3 under the 1940 Act; and (2) have requested that an order be issued pursuant to section 11(a) on a temporary basis effective upon the Commission's approval of the issuance of this notice. In making the application, Applicants acknowledge, understand and agree that any order granting the application on a temporary basis shall be without prejudice to, and shall not limit the Commission's rights in any manner with respect to, further consideration by the Commission of and action upon the application.

Applicants' Justification For Requested Order

1. Applicants assert that extensive systems modifications are needed to implement the 12b–1 Credit. In essence, the transfer agent systems used for the DWR Funds must be enhanced to permit a calculation of, and to retain information regarding, 12b–1 fees of the Money Market Funds attributable to the account of each investor who exchanges a CDSL Fund's shares for shares of a Money Market Fund. The system must track this information as to each investor's account through subsequent exchanges, if any, and apply the 12b–1 Credit in the event that a CDSL is determined to be applicable upon redemption of the shares.

2. The system changes involved in implementing the 12b–1 Credit require modification of over 60 separate computer programs. This means that numerous programs must each be written and tested. Although the Applicant Funds' transfer agent has committed to make available substantial personnel resources to design and to implement the new systems, it is nevertheless estimated that the scope of required systems modifications is so extensive that it may take a number of months before the systems are operational.

3. Applicants note that by postponing the date by which the DWR Funds become subject to paragraph (b)(5) of rule 11a–3, investors exchanging shares of the CDSL Funds for shares of the Money Market Funds on or after October 23, 1989, but before April 23, 1990, will not be eligible for the 12b–1 Credit. To provide such a credit would require the development of extensive systems to enable retroactive computation of the 12b–1 Credit. Applicants do not believe it cost-effective to their shareholders to develop such systems. In the estimate of DWR, the cost to Applicant Funds of developing these systems could exceed the aggregate benefits that shareholders could reasonably be expected to receive.

4. Applicants submit that the requested orders under section 11(a) are appropriate and in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act. They submit that the granting of the requested temporary order is appropriate and justified because, although Applicants began the process of developing the necessary systems modifications required to comply with paragraph (b)(5) of rule 11a–3 promptly upon the publication of the rule, implementation of those modifications by October 23, 1989 is not possible. Absent the requested temporary order being issued prior to that date and the granting of the other requested order, Applicants will be forced to suspend exchange privileges between the CDSL Funds and the Money Market Funds; a result which Applicants believe would be disadvantageous to shareholders of the DWR Funds.

Applicants' Undertakings

Applicants have agreed that the following may be imposed as conditions to the requested order:

1. Except to the extent as may otherwise be permitted under the terms of the requested orderss, the DWR Funds will comply with all requirements of rule 11a–3 as of October 23, 1989.

2. Applicants will monitor and supervise the efforts of their transfer agfent in developing the required systems modifications in an effort to enable implementation of those modifications, if possible, on or before April 23, 1990.

3. The Money Market Funds will not increase the current levels of their 12b–1 payments during the period they are relying upon the order.

Temporary Order

Based on the foregoing, the Commission has considered the matter and pursuant to section 11(a) of the 1940 Act, has approved for a 14-day period Applicants' request to continue making offers of exchange offers that do not comply with paragraph (b)(5) of Rule 11a–3.

Accordingly, *it is ordered*, Pursuant to section 11(a) of the 1940 Act and subject to the conditions set forth in the application, that the DWR Funds and DWR are hereby permitted to make offers of exchange between CDSL Funds and Money Market Funds without complying with paragraph (b)(5) of rule 11a–3 under the 1940 Act for 14 days from the date of this order.

By the Commission.

Jonathan G. Katz,

Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #2387]

California; Declaration of Disaster Loan Area

As a result of the President's major disaster declaration on October 18, 1989, I find that the City and County of San Francisco, and the Counties of Alameda, Monterey, San Benito, San Mateo, Santa Clara, and Santa Cruz, in the State of California, constitute a disaster area as a result of damages caused by an earthquake and aftershocks which began on October 17, 1989. Applications for loans for physical damage may be filed until the close of business on December 18, 1989, and for economic injury until the close of business on July 18, 1990, at the address listed below:

Disaster Area 4 Office, Small Business Administration, 1825 Bell Street, Suite 208, Sacramento, California 95825,

or other locally announced locations. In addition, applications for economic injury from small businesses located in the contiguous counties of Contra Costa, Fresno, Kern, Kings, Marin, Merced, San Luis Obispo, San Joaquin and Stanislaus in the State of California may be filed until the specified date at the above location.

The interest rates are:

For physical Damage	Percent
Homeowners with credit available elsewhere	8.000
Homeowners without credit available elsewhere	4.000
Businesses with credit available elsewhere	8.000
Businesses and non-profit organizations without credit available elsewhere	4.000
Others (including non-profit organizations) with credit available elsewhere	9.250
For economic injury:	
Businesses and small agricultural cooperatives without credit available elsewhere	4.000

The number assigned to this disaster for physical damage for the State of California is 238702, and for economic injury the number is 666700.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. IP89–03; Notice 2]

Volvo Cars of North America; Mootness of Petition for Determination of Inconsequential Noncompliance

Earlier this year, Volvo Cars of North America of Rockleigh, New Jersey, petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.110, Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims*. The basis of the petition was that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of receipt of the petition was published on May 30, 1989, and an opportunity afforded for comment (54 FR 23009).

Paragraphs S4.3 (c) and (d) of Standard No. 110, require that:

A placard be permanently affixed to the glove compartment door or an equally accessible location which displays the vehicle manufacturer's recommended cold tire inflation pressure for maximum loaded vehicle weight and subject to the limitations of S4.3.1, for any other manufacturer specified vehicle loading condition; and the vehicle manufacturer's recommended tire size designation.

Volvo stated that the tire placards on the Volvo 764 (Sedan) and 765 (Wagon) specified the cold tire inflation pressure as 40 PSI for a "Special Spare" tire, which comes on a 4.5"x15" size wheel. However, due to equipment availability difficulties, the spare tires used in 285 of these vehicles were normal road tires that come on 6"x15" alloy road wheels. The cold inflation pressure specified for these tires is 36 PSI. Therefore, Volvo is in noncompliance with Standard No. 110 because the cold inflation pressure and the tire size designation specified for the special spare tires on the tire placards does not correspond with the spare tires used in the 285 Volvos.

Subsequent to publication of its petition notice, Volvo agreed to notify owners of vehicles concerned of the noncompliance, and to provide them with labels that could be placed over the erroneous placards containing the correct inflation pressure for the spare tires. It has informed the agency that this corrective action should be completed by October 20, 1989. It further informed the agency that the number of vehicles covered had been determined

VOL 54 ISS 207 OCT 27 1989 UMI

to be 475, not the 285 previously reported.

Inasmuch as Volvo has conducted a notification and remedial campaign as required by the National Traffic and Motor Vehicle Safety Act, its petition for an inconsequential determination, discussed above, is moot, and no further action will be taken on it.

No comments were received on Volvo's petition.

(15 U.S.C. 1417; delegations of authority at 49 CFR 1.50 and 501.8)

Issued: October 23, 1989.

Barry Felrice,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-M

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

Date: October 23, 1989.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2409, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Departmental Offices

OMB Number: 1505-0104
Form Number: None
Type of Review: Reinstatement
Title: Amendment to the Bank Secrecy Act Regarding Disclosure of Bank Secrecy Act Data
Description: Treasury needs reports of currency transactions exceeding $10,000 at financial institutions to identify persons who may be involved in drug trafficking, tax evasion, or other illegal activity. The information will be made available to Treasury law enforcement agencies, other Federal, State, and local law enforcement agencies, and Congressional committees
Respondents: State or local governments, Federal agencies or employees
Estimated Number of Respondents: 450
Estimated Burden Hours Per Response: 12 minutes
Frequency of Response: On occasion
Estimated Total Reporting Burden: 90 hours
Clearance Officer: Dale A. Morgan, (202) 566-2693, Departmental Offices, Room 2409, Main Treasury Building, 1500 Pennsylvania Avenue, NW., Washington, DC 20220
OMB Reviewer: Milo Sunderhauf, (202) 395-6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

Lois K. Holland,

Departmental Reports Management Officer.

Public Information Collection Requirements Submitted to OMB for Review

Date: October 23, 1989.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2224, 1500 Pensylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: New
Form Number: 990EZ
Type of Review: New Collection
Title: Short Form Return of Organization Exempt From Income Tax Under section 501(c) (except black lung benefit trust or private foundation) of the Internal Revenue Code or section 4947(a)(1) trust
Description: Form 99EZ is needed to determine that Internal Revenue Code section 501(a) tax-exempt organizations fulfill the operating conditions of their tax exemption. IRS uses the information from this form to determine if the filers are operating within the rules of their exemption.
Respondents: Non-profit institutions
Estimated Number of Respondents: 100,000
Estimated Burden Hours Per Response/ Recordkeeping:
Recordkeeping: 26 hours, 4 minutes
Learning about the law or the form: 4 hours, 20 minutes
Preparing the form; copying, assembling, and sending the form to IRS: 5 hours, 53 minutes 16 minutes
Frequency of Response: Annually
Estimated Total Recordkeeping/ Reporting Burden: 3,657,000 hours
OMB Number: 1545-0044
Form Number: 973
Type of Review: Extension
Title: Corporation Claim for Deduction for Consent Dividends
Description: Form 973 is filed by corporations to claim a deduction for dividends paid. If shareholders consent and IRS approves, the corporation may claim a deduction for dividends paid, which reduces the corporation's tax liability. IRS uses Form 973 to determine if the shareholders of the corporation have included the dividends in gross income
Respondents: Businesses or other for-profit
Estimated Number of Respondents: 500
Estimated Burden Hours Per Response/ Recordkeeping:
Recordkeeping: 4 hours, 4 minutes
Learning about the law or the form: 24 minutes
Preparing, copying, assembling, and sending the form to IRS: 29 minutes
Frequency of Response: On occasion
Estimated Total Recordkeeping/ Reporting Burden: 2,475 hours
OMB Number: 1545-0119
Form Number: 1099-R
Type of Review: Revision
Title: Statement for Recipients of Total Distributions From Profit-Sharing, Retirement Plans, Individual Retirement Arrangements, Insurance Contracts, Etc.
Description: Form 1099-R is used to report total distributions from profit-sharing or retirement plans, IRAs, and the surrender of insurance contracts. This information is used by IRS to verify that income has been properly reported by the recipient.
Respondents: State or local governments, Businesses or other for-profit, Federal agencies or employees, Non-profit institutions, Small businesses or organizations
Estimated Number of Respondents: 216,311
Estimated Burden Hours Per Response: 18 minutes
Frequency of Response: Annually
Estimated Total Reporting Burden: 3,512,106 hours
OMB Number: 1545-0143
Form Number: 2290
Type of Review: Extension
Title: Heavy Vehicle Use Tax Return
Description: Form 2290 is used to compute and report the tax imposed by section 4481 on the highway use of certain motor vehicles. The information is used to determine whether the taxpayer has paid the correct amount of tax.
Respondents: Individuals or households, Farms, Businesses or other for-profit, Non-profit institutions, Small businesses or organizations
Estimated Number of Respondents: 488,000
Estimated Burden Hours Per Response Recordkeeping:
Recordkeeping: 35 hours, 10 minutes
Learning about the law or the form: 12 minutes
Preparing, copying, and sending the form to IRS: 47 minutes
Frequency of Response: Annually
Estimated Total Recordkeeping/ Reporting Burden: 17,559,180 hours
Clearance Officer: Garrick Shear (202) 535-4297, Internal Revenue Service, Room 5571, 1111 Constitution Avenue NW., Washington, DC 20224
OMB Reviewer: Milo Sunderhauf (202) 395-6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

BILLING CODE 4810-25-M

Internal Revenue Service

Tax on Certain Imported Substances; Filing of Petition

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice.

SUMMARY: This notice announces the acceptance under Notice 89-61, 1989-21 I.R.B. 25, of petitions requesting that *perchloroethylene, methyl chloroform,* and *trichloroethylene* be added to the list of taxable substances in section 4672(a)(3) of the Internal Revenue Code. Publication of this notice is in compliance with Notice 89-61. This is not a determination that the list of taxable substances should be modified.

DATE: Written comments and requests for a public hearing relating to these petitions must be delivered or mailed by December 26, 1989.

ADDRESS: Send comments and requests for a public hearing to the Internal Revenue Service, Attention: CC:CORP:T:R (Petition), Room 4429, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Ruth Hoffman, Office of Assistant Chief Counsel (Passthroughs and Special Industries). Telephone 202-566-4475 (not a toll-free number).

SUPPLEMENTARY INFORMATION: The petitions were received on August 28, 1989. The petitioner is Vulcan Chemicals, a manufacturer who exports perchloroethylene and methyl chloroform and imports trichloroethylene. The following is a summary of the information contained in the petitions. The complete petitions are available in the Internal Revenue Service Freedom of Information Reading Room.

Perchloroethylene

Harmonized Tariff System number: 2903.23.0000
Schedule B number: 2903.23.0000
Chemical Abstract Service number: 127-18-4

This substance is derived from the taxable chemicals *ethylene* and *chlorine*. Perchloroethylene is produced by the high temperature chlorination of ethylene.

The stoichiometric material consumption formula for this substance is:

C_2H_4 ethylene + Cl_2 chlorine ▶ C_2Cl_4 perchloroethylene + 4 HCl hydrogen chloride

According to the petition, taxable chemicals constitute 100 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $5.44 per ton. This is based upon a conversion factor for ethylene of 0.17 and a conversion factor for chlorine of 1.71.

Methyl Chloroform

Harmonized Tariff System number: 2903.19.5010
Schedule B number: 2903.19.5010
Chemical Abstract Service number: 71-55-6

This substance is derived from the taxable chemicals *ethylene* and *chlorine*. Methyl chloroform is produced from vinyl chloride. Vinyl chloride is produced from ethylene dichloride. Ethylene dichloride is produced by the chlorination of ethylene.

The stoichiometric material consumption formula for this substance is

C_2H_4 ethylene + 1.5 Cl_2 chlorine + 0.25 O_2 oxygen ▶ CH_3CCl_3 methyl chloroform + 0.5 H_2O water

According to the petition, taxable chemicals constitute 94.4 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $3.18 per ton. This is based upon a conversion factor for ethylene of 0.21 and a conversion factor for chlorine of 0.60.

Trichloroethylene

Harmonized Tariff System number: 2903.22.0000
Schedule B number: 2903.22.0000
Chemical Abstract Service number: 79-01-6

This substance is derived from the taxable chemicals *ethylene* and *chlorine*. Trichloroethylene is produced by the oxychlorination of ethylene dichloride. Ethylene dichloride is produced by the chlorination of ethylene.

The stoichiometric material consumption formula for this substance is:

C_2H_4 + 1.5 Cl_2 chlorine + 0.75 O_2 oxygen ▶ C_2HCl_3 trichloroethylene + 1.5 H_2O water

According to the petition, taxable chemicals constitute 84.67 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $3.16 per ton. This is based upon a conversion factor for ethylene of 0.21 and a conversion factor for chlorine of 0.60.

Sunshine Act Meetings

Federal Register
Vol. 54, No. 207
Friday, October 27, 1989

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

PAROLE COMMISSION

Record of Vote of Meeting Closure

Pub. L. 94-409; 5 U.S.C. 552b)

I, Benjamin F. Baer, Chairman of the United States Parole Commission, presided at a meeting of said Commission which started at nine o'clock a.m. on Tuesday, October 24, 1989 at the Commission's Central Office, 5550 Friendship Boulevard, Chevy Chase, Maryland 20815. The meeting ended at or about 12:30 p.m. The purpose of the meeting was to decide approximately 11 appeals from National Commissioners' decisions pursuant to 28 C.F.R. Sec. 2.27. Eight Commissioners were present, constituting a quorum when the vote to close the meeting was submitted.

Public announcements further describing the subject matter of the meeting and certifications of General Counsel that this meeting may be closed by vote of the Commissioners present were submitted to the Commissioners prior to the conduct of any other business. Upon motion duly made, seconded, and carried, the following Commissioners voted that the meeting be closed: Benjamin F. Baer, Cameron M. Batjer, Jasper Clay, Jr., Vincent Fechtel, Jr., Carol Pavilack Getty, Victor M.F. Reyes, Daniel R. Lopez, and G. MacKenzie Rust.

In witness whereof, I make this official record of the vote taken to close this meeting and authorize this record to be made available to the public.

Dated: October 24, 1989.

Benjamin F. Baer,

Chairman, U.S. Parole Commission.

Part II

Department of Defense

Department of the Army

32 CFR Part 536

Claims Against the United States; Final Rule

VOL 54 ISS 207 OCT 27 1989 UMI

DEPARTMENT OF DEFENSE

Department of the Army

32 CFR Part 536

Claims Against the United States

AGENCY: Department of the Army, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Army announces a change of the regulatory provisions controlling the processing and settlement of administrative claims filed against the Army. This change will inform third parties of the procedures currently controlling the processing and settlement of these administrative claims by the Army.

EFFECTIVE DATE: November 27, 1989.

FOR FURTHER INFORMATION CONTACT: Mr. James A. Mounts, Jr., Deputy Director, U.S. Army Claims Service, Office of The Judge Advocate General, Fort Meade, Maryland 20755–5360, (301) 677–7822.

SUPPLEMENTARY INFORMATION: This change implements a statutory change concerning advance payments for claims arising under the Military Claims Act, National Guard Claims Act, and Foreign Claims Act. It clarifies documentation required and the measure of damages for personal injury and wrongful death claims arising overseas. The change adds guidance concerning the need for claimants to cooperate in substantiating a claim under the Military Claims Act.

Executive Order 12291

This final rule has been reviewed under Executive Order 12291 and the Secretary of the Army has classified this action as non-major. The effect of the final rule on the economy will be less than $100 million.

Regulatory Flexibility Act

This final rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 and the Secretary of the Army has certified that this action does not have a significant impact on a substantial number of small entities.

Paperwork Reduction Act

This final rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget under the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

List of Subjects in 32 CFR Part 536

Claims, Foreign claims, Tort claims.

Dated: October 11, 1989.

Jack F. Lane, Jr.,

Commanding, United States Army Claims Service, Office of The Judge Advocate General, Department of Defense.

32 CFR part 536 is revised as follows:

PART 536—CLAIMS AGAINST THE UNITED STATES

Subpart A—General Provisions

Sec.
536.1 Purpose and scope.
536.2 Information and assistance.
536.3 Definitions and explanations.
536.4 Treaties and international agreements.
536.5 Claims.
536.6 Determination of liability.
536.7 Incident to service exclusionary rule.
536.8 Use of appraisers and independent medical examinations.
536.9 Effect on award of other payments to claimant.
536.10 Settlement agreement.
536.11 Appeals and notification to claimant as to denial of claims.
536.12 Effect of payment.
536.13 Advance payments.

Subpart B—Claims Arising From Activities of Military or Civilian Personnel or Incident to Noncombat Activities

536.20 Statutory authority.
536.21 Definitions.
536.22 Scope.
536.23 Claims payable.
536.24 Claims not payable.
536.25 Claims also cognizable under other statutes.
536.26 Presentation of claims.
536.27 Procedures.
536.28 Law applicable.
536.29 Compensation for property damage, personal injury, or death.
536.30 Structured settlements.
536.31 Claims over $100,000.
536.32 Settlement procedures.
536.33 Attorney fees.
536.34 Payment of costs, settlements, and judgments related to certain medical and legal malpractice claims.
536.40 Claims under Article 139, Uniform Code of Military Justice.
536.50 Claims based on negligence of military personnel or civilian employees under the Federal Tort Claims Act.
536.60 Maritime claims.

Subpart C—Claims Arising From Activities of National Guard Personnel While Engaged in Duty or Training

536.70 Statutory authority.
536.71 Definitions.
536.72 Scope.
536.73 Claims payable.
536.74 Claims not payable.
536.75 Notification of incident.
536.76 Claims in which there is a State source of recovery.
536.77 Claims against the ARNG tortfeasor individually.
536.78 When claim must be presented.
536.79 Where claim must be presented.
536.80 Procedures.
536.81 Settlement agreement.

Subpart D—Claims Incident to Use of Government Vehicles and Other Property of the United States not Cognizable Under Other Law

536.90 Statutory authority.
536.91 Scope.
536.92 Claims payable.
536.93 Claims not payable.
536.94 When claim must be presented.
536.95 Procedures.
536.96 Settlement agreement.
536.97 Reconsideration.

Authority: 10 U.S.C. 939, 2733, 2734, 2734a, 2736, 2737, 3012, 4801 through 4804, and 4806; 28 U.S.C. 1346(b), 2401(b), 2402, 2671 through 2680; and 32 U.S.C. 715.

Subpart A—General Provisions

§ 536.1 Purpose and scope.

(a) *Purpose.* Part 536 prescribes policies and procedures to be followed in the filing, investigation, processing and administrative settlement of Department of Army (DA) generated noncontractual claims. Sections 536.1 through 536.13 contain general instructions and guidance for the investigation and processing of claims and apply to all claims unless other laws or regulations specify other procedures. They are intended to ensure that incidents that may result in claims are promptly and efficiently investigated under supervision adequate to ensure a sound basis for official action and that all claims resulting from such incidents are expeditiously settled. The Secretary of the Army has delegated authority to The Judge Advocate General (TJAG) to assign areas of responsibility and designate functional responsibility for claims purposes. TJAG has delegated authority to the Commander, U.S. Army Claims Service (USARCS) to carry out these responsibilities. USARCS is the agency through which the Secretary of the Army and TJAG discharge their responsibilities for claims administration. The proper mailing address of USARCS is Commander, U.S. Army Claims Service, Office of The Judge Advocate General, Fort George G. Meade, Maryland 20755–5360.

(b) *Scope*—(1) *Applicability.* (i) Sections 536.20 through 536.35 apply in the settlement of claims under the Military Claims Act (MCA) (10 U.S.C. 2733) for personal injury, death or property damage that was either caused by members or employees of the DA acting within the scope of their employment or otherwise incident to noncombat activities of the DA.

(ii) Section 536.40 sets forth the procedures to be followed and the standards to be applied in the processing of claims cognizable under Article 139, Uniform Code of Military Justice (UCMJ) (10 U.S.C. 939) for property willfully damaged or wrongfully taken or withheld by members of the DA.

(iii) Section 536.50 governs the administrative settlement of claims under the Federal Tort Claims Act (FTCA) (28 U.S.C. 1346(b), 2671–2680) for personal injury, death or property damage caused by the negligent act or omissions of members or employees of the DA while acting within the scope of their employment.

(iv) Section 536.60 provides the procedures to be followed in the settlement of claims under the Army Maritime Claims Settlement Act (10 U.S.C. 4801–4804, 4806) for damage caused by a vessel of or in the service of the Army.

(v) Sections 536.70 through 536.81 provide instructions for settlement of claims under the National Guard Claims Act (NGCA) (32 U.S.C. 715) for personal injury, death or property damage that was either caused by a member or employee of the Army National Guard (ARNG) while in training or duty under Federal law, and acting within the scope of their employment; or otherwise incident to noncombat activities of the ARNG not in active Federal service.

(vi) Sections 536.90 through 536.97 provide instructions for settlement of claims under 10 U.S.C. 2737 for personal injury, death or property damage (not cognizable under any other law) incident to the use of Government property by members or employees of the DA.

(2) *Nonappropriated fund activities.* Claims arising from acts or omissions of employees of nonappropriated fund activities within the United States, its Territories, and possessions, are processed in the manner prescribed by applicable regulations. In oversea areas, such claims will be processed in accordance with treaties or agreements between the United States and foreign countries with respect to the settlement of claims arising from acts or omissions of military and civilian personnel of the United States in such countries, or in accordance with applicable regulations as appropriate.

(3) *Nonapplicability.* Sections 536.1 through 536.13 do not apply to:

(i) Contractual claims which are under the provisions of Public Law 85–804, 28 August 1958 (72 Stat. 972) and AR 37–103, AR 37–103 and other Army Regulations referenced herein are available thru: National Technical Information Services, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161, or other regulations including acquisition regulations.

(ii) Maritime claims (§ 536.60).

§ 536.2 Information and assistance.

(a) Government personnel may not represent any claimant or receive any payment or gratuity for services rendered. They may not accept any share or interest in a claim or assist in its presentation, under penalty of Federal criminal law (18 U.S.C. 203, 205). They are prohibited from disclosing information which may be the basis of a claim, or any evidence of record in any claims matter, except as prescribed in §§ 518.1 through 518.4 of this chapter or other pertinent regulations. A person lacking authority to approve or disapprove a claim may not advise a claimant or his representative as to the disposition recommended.

(b) The prohibitions against furnishing information and assistance do not apply to the performance of official duty. Any person who indicates a desire to file a claim against the United States will be instructed concerning the procedure to follow. He will be furnished claim forms, and, when necessary, will be assisted in completing the forms and assembling evidence. He will not be assisted in determining what amount to claim. In the vicinity of a field exercise, maneuver, or disaster, information may be disseminated concerning the right to present claims, the procedure to be followed, and the names and locations of claims officers, and engineer repair teams. When the government of a foreign country in which the U.S. Armed Forces are stationed has assumed responsibility for the settlement of certain claims against the United States, officials of that country will be furnished pertinent information and evidence so far as security considerations permit.

§ 536.3 Definitions and explanations.

The following terms as used in §§ 536.1 through 536.13 and the matters referred to in § 536.1(b) will have the meanings here indicated:

(a) *Affirmative Claims.* The government's statutory right to recover money, property, or repayment in kind incurred as a result of property loss, damage, or destruction by any individual, partnership, association or other legal entity, foreign or domestic, except an instrumentality of the United States. Also, the Government's statutory right to recover the reasonable medical costs expended for hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) incurred under circumstances creating tort liability upon some third person.

(b) *Civilian Employees.* Civilian employee means a person whose activities the Government has the right to direct and control, not only as to the result to be accomplished but also as to the means used; this includes, but is not limited to, full-time Federal civilian officers and employees. The term should be distinguished from the term "independent contractor" for whose actions the Government generally is not liable. The determination of who is a civilian employee is a Federal question determined under Federal law and not under local law.

(c) *Claim.* A demand for payment of a specified sum of money (other than the ordinary obligations incurred for services, supplies or equipment) and, unless otherwise specified in this regulation, in writing and signed by the claimant or a properly designated representative.

(d) *Claim file.* The claim, report of the claims officer or other report of investigation, supporting documentation, and pertinent correspondence.

(e) *Claim approval authority.* Except for claims under 10 U.S.C. 939, 31 U.S.C. 3721, and treaties or international agreements such as the North Atlantic Treaty Organization (NATO), Status of Forces Agreement (SOFA), and subject to any limitations found in specific provisions of these regulations, the authority to approve and pay a claim in the amount presented or in a lesser amount upon the execution of a settlement agreement by the claimant. A person with approval authority may not disapprove a claim in its entirety nor make a final offer, subject to any limitations found in specific provisions of this regulation.

(f) *Claim settlement authority.* The authority to approve a claim, to deny a claim in its entirety, or to make a final offer subject to any limitations found in specific provisions of this regulation.

(g) *Claims attorney.* DA or DOD civilian attorney assigned to a judge advocate or legal office, who has been designated by the Commander, USARCS.

(h) *Claims judge advocate.* An officer of the Judge Advocate General's Corps designated by a command or staff judge advocate (SJA) to be in immediate charge of claims activities of the command.

(i) *Claims Officer.* A commissioned officer, warrant officer, or qualified civilian employee detailed by the commander of an installation or unit who is trained or experienced in the investigation of claims.

(j) *Claimant.* An individual, partnership, association, corporation,

VOL 54 ISS 207 OCT 27 1989 UMI

country, state, territory, or other political subdivision of such country; does not include the U.S. Government or any of its instrumentalities, except as prescribed by statute. Indian tribes are not proper party claimants but individual Indians can be claimants.

(k) *Combat activities.* Activities resulting directly or indirectly from action by the enemy, or by U.S. Armed Forces engaged in, or in immediate preparation for, impending armed conflict.

(l) *Disaster.* A sudden and extraordinary calamity occasioned by activities of the Army, other than combat, resulting in extensive civilian property damage or personal injuries and creating a large number of potential claims.

(m) *Federal agency.* A federal agency includes the executive departments and independent establishments of the United States and corporations acting as instrumentalities or agencies of the United States but does not include any contractor with the United States.

(n) *Final offer.* An offer of payment by a settlement authority in full and final settlement of a claim which, if not accepted, constitutes a final action for purposes of filing suit under § 536.50 or filing an appeal under §§ 536.30 through 536.35 and 536.70 through 536.81, provided such offer is made in writing and meets the other requirements of a final action as set forth in this regulation.

(o) *Government vehicle.* A vehicle owned or on loan to any agency of the Government of the United States or privately owned, and operated by members or civilian employees of the DA in the scope of their office or employment with the Government of the United States including vehicles being operated on joint operations of the U.S. Armed Forces.

(p) *Medical claims judge advocate.* A judge advocate (JA) assigned to an Army Medical Center, under an agreement between TJAG and The Surgeon General, to perform the primary duty of investigating and processing medical malpractice claims.

(q) *Medical claims investigator.* A senior legal specialist or qualified civilian assigned to assist a medical claims JA on a full-time basis. A medical claims investigator is authorized to administer oaths under the provisions of Article 136(b)(6), UCMJ, 10 U.S.C. 936(b)(6) when performing investigative duties.

(r) *Medical malpractice claim.* A claim arising out of substandard or inadequate care of an Army patient.

(s) *Military personnel.* Military personnel means members of the DA on active duty for training, or inactive duty training as defined in AR 310–25 and 10 U.S.C. 101(22), 101(23), and 101(30). This includes members of the District of Columbia ARNG while performing active duty or training under 32 U.S.C. 316, 502, 503, 504 or 505.

(t) *Noncombat activities.* A noncombat activity arises from authorized activities essentially military in nature, having little parallel in civilian pursuits and which historically have been considered as furnishing a proper basis for payment of claims, such as practice firing of missiles and weapons, training and field exercises, and maneuvers, including, in connection therewith, the operation of aircraft and vehicles, and use and occupancy of real estate, and movement of combat or other vehicles designed especially for military use. Activities incident to combat, whether in time of war or not, and use of military personnel and civilian employees in connection with civil disturbances, are excluded.

(u) *Personal property.* Property consisting solely of corporeal personal property, that is, tangible things. Personal property does not consist of the loss or forfeiture of a security deposit or a contingent financial benefit.

§ 536.4 Treaties and international agreements.

(a) The governments of some foreign countries have by treaty or agreement waived or assumed, or may hereafter waive or assume, certain claims against the United States. In such instances claims will not be settled under laws or regulations of the United States.

(b) The prohibition stated in paragraph (a) of this section is not applicable to claims within the purview of Article VIII of the Agreement Regarding the Status of Forces of Parties to the North Atlantic Treaty or similar type agreements which normally will be investigated and settled as therein provided.

§ 536.5 Claims.

(a) *Who may present.* (1) A claim may be presented by the owner of the property, or in his name by a duly authorized agent or legal representative. As used in this regulation an owner includes the following:

(i) *For real property.* The mortgagor, or the mortgagee, if he or she can maintain a cause of action in the local courts involving a tort to that specific property. When notice of divided interests in real property is received, the claim should, if feasible, be treated as a single claim or a release from all interests must be obtained.

(ii) *For personal property.* A bailee, leasee, mortgagee, and conditional vendor, or others having title for purposes of security only, are not proper claimants unless specifically authorized by the statute and implementing regulations in question. If more than one party has a real interest in the property, all must join in the claim or a release from all interests must be obtained.

(2) A claim for personal injury may be presented by the injured person or duly authorized agent or legal representative.

(3) A claim based on death may be presented by the executor or administrator of the deceased's estate, or by any person determined to be legally or beneficially entitled. The amount allowed will, to the extent practicable, be apportioned among the beneficiaries in accordance with the law applicable to the incident.

(4) A claim for medical, hospital, or burial expenses may be presented by any person who by reason of family relationship has in fact incurred the expenses for which the claim is made. However, for claims cognizable under the provisions of the FTCA, see § 536.50, and for claims cognizable under the provisions of the Nonscope of Employment Claims Act, see §§ 536.90 through 536.97.

(5) A claim presented by an agent or legal representative will be made in the name of the claimant and signed by the agent or legal representative showing the title or capacity. Written evidence of the authority of such person to act is mandatory except when controlling law does not require such evidence.

(6) A claim normally will include all damages that accrue by reason of the incident. Where the same claimant has a claim for damage to or loss of property and a claim for personal injury or a claim based on death arising out of the same incident, each of the foregoing or any combination of them ordinarily represent only an integral part or parts of a single claim or cause of action. Under §§ 536.20 through 536.35 and the Foreign Claims Act (FCA) (10 U.S.C. 2734), a single claimant is entitled to be compensated only one time for all damages or injuries arising out of an incident.

(b) *Subrogation.* A claim may be presented by a subrogee in his own name if authorized by the law of the place where the incident giving rise to the claim occurred, provided subrogation is not barred by the regulation applicable to the type of claim involved.

(1) The claims of the subrogor (insured) and subrogee (insurer) for damages arising out of the same incident constitute separate claims, and it is permissible for the aggregate of such claims to exceed the monetary jurisdiction of the approving or settlement authority.

(2) A subrogor and a subrogee may file a claim jointly or individually. A fully subrogated claim will be paid only to the subrogee. Whether a claim is fully subrogated is a matter to be determined by local law. Some jurisdictions permit the property owner to file for property damage even though the owner has been compensated for the repairs by an insurer. In such instances a release should be obtained from both parties in interest or be released by both of them. The approved payment in a joint claim will be by joint check which will be sent to the subrogee unless both parties specify otherwise. If separate claims are filed, payment will be by check issued to each claimant to the extent of his undisputed interest.

(3) Where a claimant has made an election and accepted workmen's compensation benefits, both statutory and case law of the jurisdiction should be scrutinized to determine to what extent the claim of the injured party against third parties has been extinguished by acceptance of compensation benefits. While it is infrequent that the claim is fully extinguished, it is true in some jurisdictions, and the only proper party claimant is the workmen's compensation carrier. Even where the injured party's claim has not been fully extinguished, most jurisdictions provide that the compensation insurance carrier has a lien on any recovery from the third party, and no settlement should be reached without approval by the carrier where required by local law. Additionally, claims from the workmen's compensation carrier as subrogee or otherwise will not be considered payable where the United States has paid the premiums, directly or indirectly, for the workmen's compensation insurance. Applicable contract provisions holding the United States harmless should be utilized.

(4) Whether medical payments paid by an insurer to its insured can be subrogated depends on local law. Some jurisdictions prohibit these claims to be submitted by the insurer notwithstanding a contractual provision providing for subrogation. Therefore, local law should be researched prior to deciding the issue, and claims forwarded to higher headquarters for adjudication should contain the results of said research. Such claims, where prohibited by state law, will also be barred by the Antiassignment Act.

(5) Care will be exercised to require insurance disclosure consistent with the type of incident generating the claim. Every claimant will, as a part of his claim, make a written disclosure concerning insurance coverage as to:

(i) The name and address of every insurer;

(ii) The kind and amount of insurance;

(iii) Policy number;

(iv) Whether a claim has been or will be presented to an insurer, and, if so, the amount of such claims; and

(v) Whether the insurer has paid the claim in whole or in part, or has indicated payment will be made.

(6) Each subrogee must substantiate his interest or right to file a claim by appropriate documentary evidence and should support the claim as to liability and measure of damages in the same manner as required of any other claimant. Documentary evidence of payment to a subroger does not constitute evidence either of liability of the Government or of the amount of damages. Approving and settlement authorities will make independent determinations upon the evidence of record and the law.

(7) Subrogated claims are not cognizable under §§ 536.90 through 536.97 and the FCA (10 U.S.C. 2734).

(c) *Transfer and assignments.* (1) Except as they occur by operation of law or after a voucher for the payment has been issued, unless within the exceptions set forth by statute (see 31 U.S.C. 3727 and AR 37–107), the following are null and void—

(i) Every purported transfer or assignment of a claim against the United States, or of any part of or interest in a claim, whether absolute or conditional.

(ii) Every power of attorney or other purported authority to receive payment of all or part of any such claim.

(2) The purposes of the Antiassignment Act are to eliminate multiple payment of claims, to cause the United States to deal only with original parties, and to prevent persons of influence from purchasing claims against the United States.

(3) In general, this statute prohibits voluntary assignments of claims with the exception of transfers or assignments made by operation of law. The operation of law exception has been held to apply to claims passing to assignees because of bankruptcy proceedings, assignments for the benefit of creditors, corporate liquidations, consolidations or reorganizations, and where title passes by operation of law to heirs or legatees. Subrogated claims which arise under a statute are not barred by the Antiassignment Act. For example, subrogated worker's compensation claims are cognizable when presented by the insurer.

(4) Subrogated claims which arise pursuant to contractual provisions may be paid to the subrogee if the subrogated claim is recognized by state statute or decision. For example, an insurer under an automobile insurance policy becomes subrogated to the rights of a claimant upon payment of a property damage claim. Generally, such subrogated claims are authorized by state law and are therefore not barred by the Antiassignment Act.

(5) Before claims are paid, it is necessary to determine whether there may be a valid subrogated claim under Federal or State statute or subrogation contract held valid by State law. If there may be a valid subrogated claim forthcoming, payment should be withheld for this portion of the claim. If it is determined that claimant is the only proper party, full settlement is authorized.

(d) *Action by claimant—*(1) *Form of claim.* The claimant will submit his claim using authorized official forms whenever practicable. A claim is filed only when the elements indicated in § 536.3(c) have been supplied in writing by a person authorized to present a claim, unless the claim is cognizable under a regulation that specifies otherwise. A claim may be amended by the claimant at any time prior to final agency action or prior to the exercise of the claimant's option under 28 U.S.C. 2675(a).

(2) *Signatures.* (i) The claim and all other papers will be signed in ink by the claimant or by his duly authorized agent. Such signature will include the first name, middle initial, and surname. A married woman must sign her claim in her given name, for example, "Mary A. Doe," rather than "Mrs. John Doe."

(ii) Where the claimant is represented, the supporting evidence required by paragraph (a)(5) of this section will be required only if the claim is signed by the agent or legal representative. However, in all cases in which a claimant is represented, the name and address of the representative will be included in the file together with copies of all correspondence and records of conversations and other contacts maintained and included in the file. Frequently, these records are determinative as to whether the statute of limitations has been tolled.

(3) *Presentation.* The claim should be presented to the commanding officer of the unit involved, or to the legal office of the nearest Army post, camp, or station, or other military establishment

VOL 54 ISS 207 OC 27 1989 UMI

convenient to the claimant. In a foreign country where no appropriate commander is stationed, the claim should be submitted to any attache of the U.S. Armed Forces. Claims cognizable under Article VIII of the Agreement Regarding the Status of Forces of Parties to the North Atlantic Treaty, Article XVIII of the Treaty of Mutual Cooperation and Security between the United States and Japan regarding facilities and areas and the Status of United States Armed Forces in Japan (Japan SOFA) or other similar treaty or agreement are filed with designated claims officials of the receiving State.

(e) *Evidence to be submitted by claimant.* The claimant should submit the evidence necessary to substantiate his claim. It is essential that independent evidence be submitted which will substantiate the correctness of the amount claimed.

(f) *Statute of limitations*—(1) *General.* Each statute available to the Department of the Army for the administrative settlement of claims, except the Maritime Claims Settlement Act (10 U.S.C. 4802), specifies the time during which the right to file a claim must be exercised. These statutes of limitations, which are jurisdictional in nature, are not subject to waiver unless the statute expressly provides for waiver. Specific information concerning the period for filing under each statute is contained in the appropriate implementing sections of this regulation.

(2) *When a claim accrues.* A claim accrues on the date on which the alleged wrongful act or omission results in an actionable injury or damage to the claimant or his decedent. Exceptions to this general rule may exist where the claimant does not know the cause of injury or death; that is, the claim accrues when the injured party, or someone acting on his or her behalf, knows both the existence and the cause of his or her injury. However, this exception does not apply when, at a later time, he or she discovers that the acts inflicting the injury may constitute medical malpractice. (See *United States* v. *Kubrick*, 444 U.S. 111, 100 S. Ct. 352 (1979).) The discovery rule is not limited to medical malpractice claims; it has been applied to diverse situations involving violent death, chemical and atomic testing, and erosion and hazardous work environment. In claims for indemnity or contribution against the United States, the accrual date is the time of the payment for which indemnity is sought or on which contribution is based.

(3) *Effect of infancy, incompetency or the filing of suit.* The statute of limitations for administrative claims is not tolled by infancy or incompetency. Likewise, the statute of limitations is not tolled for purposes of filing an administrative claim by the filing of a suit based upon the same incident in a Federal, State, or local court against the United States or other parties.

(4) *Amendment of Claims.* A claim may be amended by the claimant at any time prior to final agency action or prior to the exercise of the claimant's option under 28 U.S.C. 2675(a). A claim may be amended by changing the amount, the bases of liability, or elements of damages concerning the same incident. Parties may be added only if the additional party could have filed a joint claim initially. If the additional party had a separate cause of action, his claim may not be treated as an amendment but only as a separate claim and is thus barred if the statute of limitations has run. For example, if a claim is timely filed on behalf of a minor for personal injuries, a subsequent claim by a parent for loss of services is considered a separate claim and is barred if it is not filed prior to the running of the statute of limitations. Another example is where a separate claim is filed for loss of services or consortium by a spouse arising out of injuries to the husband or wife of the claimant. On the other hand, if a claim is timely filed by an insured for the deductible portion of the property damage, a subsequent claim by the insurer based on payment of property damage to its insured may be filed as an amendment even though the statute of limitations has run, unless final action has been taken on the insured's claim.

(5) *Date of receipt stops the running of the statute.* In computing the time to determine whether the period of limitations has expired, exclude the first day and include the last day, except when it falls on a nonworkday such as Saturday, Sunday, or a legal holiday, in which case it is to be extended to the next workday.

(g) *By the command concerned*—(1) *General.* If the claim is of a type and amount within the jurisdiction of the claims office of the command concerned and the claim is meritorious in the amount claimed, it will be approved and paid. If a claim in an amount in excess of the monetary jurisdiction of the claims office is meritorious in a lesser amount within its jurisdiction, the claim may be approved for payment provided the amount offered is accepted by the claimant in settlement of the claim. If the claim is not of a type within the jurisdiction of the claims office, or if the claimant will not accept an amount within its jurisdiction, the claim with supporting papers and a recommendation for appropriate action will be forwarded to the next higher claims authority. If the claim is determined to be not meritorious, it will be disapproved provided the claims office has settlement authority for claims of the type and amount involved. Prior to the disapproval of a claim under a particular statute, a careful review should be made to ensure that the claim is not properly payable under a different statute or on another basis.

(2) *Claims within settlement authority of USARCS or the Attorney General.* A copy of each of the following types of claims will be forwarded immediately to the Commander, USARCS:

(i) One that appears to be of a type that must be brought to the attention of the Attorney General in accordance with his or her regulations;

(ii) One in which the demand exceeds $15,000; or

(iii) One which is a claim under the FTCA (§ 536.50) where the total of all claims, arising from a single incident, actual or potential, exceeds $25,000. USARCS is responsible for the monitoring and settlement of such claims and will be kept informed on the status of the investigation and processing thereof. Direct liaison and correspondence between the USARCS and the field claims authority or investigator is authorized on all claims matters, and assistance will be furnished as required. The field claims office will provide USARCS duplicates of all documentation as it is added to the field file. This will include all correspondence, memoranda, medical reports, reports, evaluations, and any other material relevant to the investigation and processing of the claim.

(3) *Claims involving privately owned vehicles.* In areas where the FTCA (§ 536.50) is applicable, any claim except those under 31 U.S.C. 3721, arising out of an accident involving a privately owned vehicle driven by a member of the DA, or by ARNG personnel as defined in § 536.71, based on an allegation that the privately owned vehicle travel was within the scope of employment, should be forwarded without adjudication directly to the Commander, USARCS. Additional information is provided in §§ 536.20 through 536.35, 536.90 through 536.97.

(4) *Claims within the exclusive jurisdiction of USARCS.* Authority to settle the following claims has been delegated to the Commander, USARCS, only:

(i) Claims of under Article VIII of the Agreement Regarding the Status of Forces Parties to the North Atlantic Treaty and other treaties or international agreements where the United States is the Receiving State;

(ii) Claims under § 536.60 (Maritime claims not arising out of civil works activities) except as delegated to overseas command claims services;

(iii) Industrial security claims, DoD Directive 5220.6, 12 August 1985; and

(iv) Claims of the U.S. Postal Service. Files of these claims will be forwarded directly to the Commander, USARCS, with the report of investigation and supporting papers, including a memorandum of opinion.

(5) *Maritime claims.* (i) A copy of a claim arising out of damage, loss, injury, or death which originates on navigable waters and is not considered cognizable under the Army Maritime Claims Settlement Act (10 U.S.C. 4802–4804) will be forwarded immediately to the Commander, USARCS or appropriate overseas command claims service. A determination will be made as to whether the claim must be processed under the Suits in Admiralty Act or the Public Vessels Act or may be considered administratively.

(ii) If a maritime claim cannot be settled administratively, the claimant will be advised that he must file a suit.

(iii) If it is determined that both administrative and judicial remedies are available, the claim may be processed administratively and the claimant advised of the need to file a suit within 2 years of the date of occurrence if he chooses his judicial remedy.

(iv) If the claim is for damage to property, or injury to person, consummated on land, a claimant who makes an oral inquiry or demand will be advised that no suit can be filed until a period of six months has expired after a claim in writing is submitted.

(v) If it is determined by the Commander, USARCS, that a claim, apparently maritime in nature, is not within the maritime jurisdiction, the claimant will be so advised, and the claim will be returned for processing under the appropriate section of this regulation.

(h) *By district or division engineer.* The district or division engineer area claims office will take the action of an initial claims authority. Files of unpaid claims should be forwarded directly to USARCS. An information copy will be sent to the next higher engineer authority unless such requirement is waived.

(i) *By higher settlement authority.* A higher claims settlement authority may take action with respect to a claim in the same manner as the initial claims office. However, if it is determined that any further attempt to settle the claim would be unwarranted, the claim will be forwarded to the Commander, USARCS, with recommendations.

§ 536.5 Determination of liability.

(a) In the adjudication of tort claims, the liability of the United States generally is determined in accordance with the law of the State or country where the act or omission occurred, except that any conflict between local law and the applicable United States statute will be resolved in favor of the latter. However, in claims by inhabitants of the United States arising in foreign countries, liability is determined in accordance with general principles of tort law common to the majority of American jurisdictions as evidenced by Federal case law and standard legal publications, except as it applies to absolute liability. Where liability is not clear or other issues exist, settlements should truly reflect the uncertainties in the adjudication of such issues. Compromise settlements are encouraged provided agreement can be reached that reflects the reduced value of the damages as measured against the full value or range of value if such uncertainties or issues did not exist and were it possible for the claimant to successfully litigate the claim.

(b) *Quantum exclusion.* The costs of filing a claim and similar costs, for example, court costs, bail, interest, inconvenience expenses, or costs of long distance telephone calls or transportation in connection with the preparation of a claim, are not proper quantum elements and will not be allowed.

§ 536.7 Incident to service exclusionary rule.

(a) *General.* A claim for personal injury or death of a member of the Armed Forces of the United States or a civilian employee of the United States that accrued incident to his service is not payable under this regulation. A claim for property damage that accrued incident to the service of a member of the Armed Forces may be payable under 31 U.S.C. 3721 or §§ 536.20 through 536.35 depending on the facts.

(b) *Property damage claims.* A claim for damage to or loss of personal property of a claimant who is within one of the categories of proper party claimants under 31 U.S.C. 3721, which is otherwise cognizable under 31 U.S.C. 3721, must first be considered thereunder. If a claim is not clearly compensable under 31 U.S.C. 3721, and it arises incident to a noncombat activity of the DA or was caused by a negligent or wrongful act or omission of military personnel or civilian employees of the Department of Defense (DOD), it may be cognizable under either §§ 536.20 through 536.35 or § 536.50. The claim, if meritorious in fact, will probably be payable under one authorization or another regardless of whether the claim accrued incident to the service of the claimant.

(c) *Personal injury and death claims.* (1) Only after the death or personal injury (which is the subject of the claim) has been determined to have not been incurred incident to the member's service should §§ 536.20 through 536.35 and § 536.50 be studied to determine which, if either, provides a proper basis for settlement of the claim. In any event, the rule in *U.S.* v. *Brooks*, 176 F.2d 482 (4th Cir. 1949) requiring setoff of amounts obtained through military or veterans' compensation systems against amounts otherwise recoverable will be followed. Other Government benefits, funded by general treasury revenues and not by the claimant's contributions, may also be used as a setoff against the settlement. (See, *Overton* v. *United States*, 619 F.2d 1299 (8th Cir. 1980)).

(2) As the incident to service issue is determinative as to whether this type of claim may be processed administratively at all, the applicable law and facts should be carefully considered before deciding that injury or death was not incident to service. Such claims also are often difficult to settle on the issue of quantum and thus more likely to end in litigation. Moreover, the United States may well elect to defend the lawsuit on the basis of the incident to service exclusion, and this defense could be prejudiced by a contrary administrative determination that a service member's personal injuries or death were not incident to service. Doubtful cases will be forwarded to the Commander, USARCS without action along with sufficient factual information to permit a determination of the incident to service question.

§ 536.8 Use of Appraisers and Independent Medical Examinations.

(a) *Appraisers.* Appraisers should be used in all claims where an appraisal is reasonably necessary and useful in effectuating the administrative settlement of the claims. The decision to use an appraiser is at the discretion of DA.

(b) *Independent medical examinations.* In claims involving serious personal injuries, for example, normally those cases in which there is an allegation of temporary or permanent disability, the claimant should be examined by an independent physician,

VOL 54 ISS 207 OCT 27 1989 UMI

or other medical specialist, depending upon the nature and extent of the injuries. The decision to conduct an independent medical examination is at the discretion of DA.

§ 536.9 Effect on Award of Other Payments to Claimant.

The total award to which the claimant (and subrogee) may be entitled normally will be computed as follows:

(a) Determine the total of the loss or damage suffered.

(b) Deduct from the total loss or damage suffered any payment, compensation, or benefit the claimant has received from the following sources:

(1) The U.S. or ARNG employee/member who caused the damage.

(2) The U.S. or ARNG employee's/member's insurer.

(3) Any person or agency in a surety relationship with the U.S. employee; or

(4) Any joint tortfeasor or insurer, to include Government contractors under contracts or in jurisdictions where it is permissible to obtain contribution or indemnity from the contractor in settlement of claims by contractor employees and third parties.

(5) Any advance payment made pursuant to § 536.13.

(6) Any benefit or compensation based directly or indirectly on an employer-employee relationship with the United States or Government contractor and received at the expense of the United States including but not limited to medical or hospital services, burial expenses, death gratuities, disability payment, or pensions.

(7) The State (Commonwealth, etc.) whose employee or ARNG member caused or generated an incident that was a proximate cause of the resulting damages.

(8) Value of Federal medical care.

(9) Benefits paid by the Veterans Administration (VA) that are intended to compensate the same elements of damage. When the claimant is receiving money benefits from the VA under 38 U.S.C. 351 for a non-service connected disability or death based on the injury that is the subject of the claim, acceptance of a settlement or an award under the FTCA (§ 536.50) will discontinue the VA monetary benefits until the amount that would have otherwise been received in VA monetary benefits is equal to the total amount of the agreement or award including attorney fees. While monetary benefits received under 38 U.S.C. 351 must be discontinued as above, medical benefits, that is, VA medical care may continue provided the settlement or award expressly provides for such continuance and the appropriate VA official is informed of such continuance.

(10) When the claimant is receiving money benefits under 38 U.S.C. 410(b) for non-service connected death, arising from the injury that is the subject of the claim, acceptance of a settlement or award under the FTCA (§ 536.50) or under any other tort procedure will discontinue the VA benefits until the amount that would have otherwise been received in VA benefits is equal to the amount of the total settlement or award including attorney fees. The discontinuation of monetary benefits under 38 U.S.C. 410(b) has no effect on the receipt of other VA benefits. The claimant should be informed of the foregoing prior to the conclusion of any settlement and thus afforded an opportunity to make appropriate adjustment in the amount being negotiated.

(11) Value of other Federal benefits to which the claimant did not contribute, or at least to the extent they are funded from general revenue appropriation.

(12) Collateral sources where permitted by State law (for example, State or Federal workers' compensation, social security, private health, accident, and disability benefits paid as a result of injuries caused by a health care provider).

(c) No deduction will be made for any payment the claimant has received by way of voluntary contributions, such as donations of charitable organizations.

(d) Where a payment has been made to the claimant by his insurer or other subrogee, or under workmen's compensation insurance coverage, as to which subrogated interests are allowable, the award based on total damages will be apportioned as their separate interests are indicated (see § 536.5(b)).

(e) After deduction of permissible collateral and non-collateral sources, also deduct that portion of the loss or damage believed to have been caused by the negligence of the claimant, third parties whose negligence can be imputed to the claimant, or joint tortfeasors who are liable for their share of the negligence (for example, where some form of the Uniform Contribution Among Joint Tortfeasors Act has been passed).

(f) Claims with more than one potential source of recovery. (1) The Government seeks to avoid multiple recovery, that is, claimants seeking recovery from more than one potential source, and to minimize the award it must make. The claims investigation should therefore identify other parties potentially liable to the claimant and/or their insurance carriers; indicate the status of any claims made or include a statement that none has been made so that it can be assured there is only one recovery and the Government does not pay a disproportionate share. Where no claim has been made by the claimant against others potentially liable, if applicable State law grants the Government the right to indemnity or contribution, and it is felt the Government may be entitled to either under the facts developed by the claims investigation, the claims officer or attorney should formally notify the other parties of their potential liability, the Government's willingness to share information, and its expectation of shared responsibility for any settlement. Furthermore, the claimant may be receiving or entitled to receive benefits from collateral and non-collateral sources, which can be deducted from the total loss or damage. Accordingly, a careful review must be made of applicable State laws regarding joint and several liability, indemnity, contribution, comparative negligence, and the collateral source doctrine.

(2) If a demand by a claimant or an inquiry by a potential claimant is directed solely to the Army, in a situation where it appears that the responsible Army employee may have applicable insurance coverage, inquiry should be made of the employee as to whether he has liability insurance.

(i) If so, determine if the insurer has made or will make any payment to claimant. Under applicable State law, the United States may be an additional named insured entitled to coverage under the employee's liability policy. (See 16 ALR3d 1411; *United States* v. *State Farm Mutual Ins. Co.*, 245 F. Supp. 58 (D. Ore. 1965.)) Therefore, where there may be applicable insurance coverage, there should be a review of the policy language together with the rules and regulations of the State insurance regulatory body to determine whether the United States comes within the definition of "insured," and whether the exclusion of the United States from policy coverage conforms with state law and policy.

(ii) If the employee refuses to cooperate in providing this information, he or she should be advised to comply with the notice requirements of the insurance policy and to request the insurance carrier contact the claims officer or attorney. In addition, other sources of information, such as vehicle registration records, will be checked to ascertain the employee's insurer. The case should be followed to ascertain whether the employee's insurer has made or will make any payment to the

claimant before deciding whether to settle the claim against the Government. Normally, the award, if any, to the claimant will be reduced by the amount of the payment of the employee's insurance carrier.

(3) If the employee is the sole target of the claim and Army claims authorities arrange to have the claim made against the Government, the member or employee should be required to notify his or her insurance carrier according to the policy and inform DA claims authorities as to the details of the insurance coverage, including the name of the insurance carrier. Except when the "Drivers Act" is applicable, the insurance carrier is expected to participate in the negotiation of the claims settlement and to pay its fair share of any award to the claimant.

(4) Where the responsible Army employee is "on loan" to another employer other than the United States, for example, civilian institution for ROTC instructor, or performing duties for a foreign government, inquiry should be made to determine whether there is applicable statutory or insurance coverage concerning the acts of the responsible employee and contribution or indemnification sought, as appropriate. In the case of foreign governments, applicable treaties or agreements are considered controlling.

(5) A great many claims cognizable under the FTCA (§ 536.50) are now settled on a compromise basis. A major consideration in many such settlements is the identification of other sources of recovery. This is true in a variety of factual situations where there is a potential joint tortfeasor; for example, multi-vehicle accidents with multiple drivers and guest passengers, State or local government involvement, contractors performing non-routine tasks for the Government, medical treatment rendered to a claimant by non-Government employees, or incidents caused by a member or employee of the military department of a State or Commonwealth with whom the DA does not have a cost-sharing agreement. The law of the jurisdiction regarding joint and several liability, indemnity and contribution may permit shared financial responsibility, but even in jurisdictions which do not permit contribution, a compromise settlement can often be reached with the other tortfeasor's insurance company paying a portion of the total amount of the claim against the Government. For these reasons, every effort should be made to identify the insurance of all potential tortfeasors involved and the status of any claims made, and to demand contribution or indemnity where there is a substantial reason to believe that liability for the loss or damage should be shared.

(6) Whenever a claim is filed against the Government under a statute which does not permit the payment of a subrogated interest, it is important to ensure that full information is obtained from the claimant regarding insurance coverage, if any, since it is the clear legislative intent of such statutes that insurance coverage be fully utilized before using appropriated funds to pay the claims.

§ 536.10 Settlement agreement.

(a) *General.* Except under 31 U.S.C. 3721, if a claim is determined to be meritorious in an amount less than claimed, or if a claim involving personal injuries or death is approved in full, a settlement agreement will be obtained prior to payment. Acceptance by a claimant of an award constitutes a full and final settlement and release of any and all claims against the United States and against the military or civilian personnel whose act or omission gave rise to the claim.

(b) *Claims involving workmen's compensation carriers.* The settlement of a claim involving a claimant who has elected to receive workmen's compensation benefits under local law may require the consent of the workmen's compensation carrier and in certain jurisdictions the State agency with authority over workmen's compensation awards. Accordingly, claims approval and settlement authorities should be aware of local requirements.

§ 536.11 Appeals and notification to claimant as to denial of claims.

(a) *General.* The nature and extent of the written notification to the claimant as to the denial of his claim should be based on whether the claimant has a judicial remedy following denial or whether he has an administrative recourse to appeal.

(b) *Final Actions under the Federal Tort Claims Act (28 U.S.C. 2671–2680) § 536.50.* If the settlement authority has information available which could possibly be a persuasive factor in the decision of the claimant as to whether to resort to litigation, such information may be orally transmitted to the claimant and, in appropriate cases, released under normal procedures in accordance with AR 340–17. However, the written notification of the denial should be general in nature; for example, denial on the weaker ground of contributory negligence should be avoided, and the inclination should be to deny on the basis that the claimant was solely responsible for the incident. The claimant will be informed in writing of his right to bring an action in the appropriate United States District Court not later than 6 months after the date of mailing of the notification.

(c) *Denials under the MCA (10 U.S.C. 2733) §§ 536.20 through 536.35 and the NGCA (32 U.S.C. 715) §§ 536.70 through 536.81.* Claims disapproved under these statutes are subject to appeal and the claimant will be so informed. Also, the notice of disapproval will be sufficiently detailed to provide the claimant with an opportunity to know and attempt to overcome the basis for the disapproval. The claimant should not be afforded a valid basis for claiming surprise when an issue adverse to him is asserted as a basis for denying his appeal.

(d) *Denials on jurisdictional grounds.* Regardless of the nature of the claim presented or the statute under which it may be considered, claims denied on jurisdictional grounds which are valid, certain, and not easily overcome and in which for this reason no detailed investigation as to the merits of the claim is conducted, should contain in the denial letter a general statement to the effect that the denial on such grounds is not to be construed as an expression of opinion on the merits of the claim or an admission of liability. If sufficient factual information is available to make a tentative ruling on the merits of the claim, liability may be expressly denied.

(e) *Where claim may be considered under more than one statute.* In cases in which it is doubtful as to whether the MCA (§§ 536.20 through 536.35) or the NGCA (§§ 536.70 through 536.81) or the FTCA (§ 536.50) is the appropriate statute under which to consider the claim, the claimant will be advised of the alternatives, for example, the right to sue or the right to appeal. Similarly, a claimant may be advised of his alternative remedies when the claimant is a military member and the issue of "incident to service" is not clear.

§ 536.12 Effect of payment.

Acceptance of an award by the claimant, except for an advance payment, constitutes for the United States, and for the military member or civilian employee whose act or omission gave rise to the claim, a release from all liability to the claimant based on the act or omission.

§ 536.13 Advance payments.

(a) *Purpose.* This section implements the Act of 8 September 1961 (75 Stat. 488, 10 U.S.C. 2736), as amended by

VOL 54 ISS 207 OCT 27 1989 UMI

Public Law 93-521 (52 Stat. 874), Public Law 98-564 (98 Stat. 2918) and Public Law 100-456. No new liability is created by 10 U.S.C. 2736, which merely permits partial advance payments on meritorious claims as specified in this section.

(b) *Conditions for advance payment.* An advance payment not in excess of $100,000 is authorized in the limited category of claims resulting in immediate hardship arising from incidents that are payable under the provisions of §§ 536.20 through 536.35, 536.70 through 536.81, or the FCA (10 U.S.C. 2734). An advance payment is authorized only under the following circumstances:

(1) The claim must be determined to be cognizable and meritorious under the provisions of either §§ 536.20 through 536.35, and 536.70 through 536.81, or the FCA (10 U.S.C. 2734).

(2) There exists an immediate need of the person who suffered the injury, damage, or loss, or of the family of a person who was killed, for food, clothing, shelter, medical or burial expenses, or other necessities, and other resources for such expenses are not reasonably available.

(3) The payee, so far as can be determined, would be a proper claimant, as is the spouse or next of kin of a claimant who is incapacitated.

(4) The total damage sustained must exceed the amount of the advance payment.

(5) A properly executed advance payment acceptance agreement has been obtained.

Subpart B—Claims Arising From Activities of Military or Civilian Personnel or Incident to Noncombat Activities

§ 536.20 Statutory authority.

The statutory authority for §§ 536.20 through 536.35 is contained in the Act of 10 August 1956 (70A Stat. 153, 10 U.S.C. 2733) commonly referred to as the Military Claims Act (MCA), as amended by Public Law 90-522, 26 September 1968 (82 Stat. 875), Public Law 90-525, 26 September 1968 (82 Stat. 877), Public Law 91-312, 8 July 1970 (84 Stat. 412) and Public Law 93-336, 8 July 1974 (88 Stat. 291); and the Act of 8 September 1961 (75 Stat. 488, 10 U.S.C. 2736), as amended by Public Law 90-521, 26 September 1968 (82 Stat. 874) and Public Law 98-564, 30 October 1984 (98 Stat. 2916).

§ 536.21 Definitions.

The definitions of terms set forth in § 536.3 are applicable to §§ 536.20 through 536.35.

§ 536.22 Scope.

Sections 536.20 through 536.35 are applicable in all places and prescribe the substantive bases and special procedural requirements for the settlement of claims against the United States for death, personal injury, or damage to or loss or destruction of property caused by military personnel or civilian employees of the DA acting within the scope of their employment, or otherwise incident to the noncombat activities of the DA, provided such claim is not for personal injury or death of a member of the Armed Forces or Coast Guard or a civilian officer or employee whose injury or death is incident to service.

§ 536.23 Claims payable.

(a) *General.* Unless otherwise prescribed, a claim for personal injury, death, or damage to or loss of real or personal property is payable under §§ 536.20 through 536.35 when—

(1) Caused by an act or omission determined to be negligent, wrongful, or otherwise involving fault of military personnel or civilian officers or employees of the Army acting within the scope of their employment, or

(2) Incident to the noncombat activities of the Army.

(b) *Property.* The loss or damage to property which may be the subject of claims under §§ 536.20 through 536.35 includes—

(1) Real property used and occupied under a lease, express or implied, or otherwise (for example, in connection with training, field exercises, or maneuvers). An allowance may be made for the use and occupancy of real property arising out of trespass or other tort, even though claimed as rent.

(2) Personal property bailed to the Government under an agreement, express or implied, unless the owner has expressly assumed the risk of damage or loss. Some losses may be payable using Operations and Maintenance, Army funds. Clothing damage or loss claims arising out of the operation of an Army Quartermaster laundry are considered to be incident to service and are payable only if claimant is not a proper claimant under 31 U.S.C. 3721.

(3) Registered or insured mail in the possession of the Army, even though the loss was caused by a criminal act.

(c) *Effect of FTCA.* A claim arising in the United States may be settled under §§ 536.20 through 536.35 only if the FTCA (28 U.S.C. 2671–2680), § 536.50, has been judicially determined not to be applicable to claims of this nature, or if the claim arose incident to noncombat activities.

(d) *Advance payments.* Advance payments under 10 U.S.C. 2736, as amended, in partial payment of meritorious claims to alleviate immediate hardship are authorized.

§ 536.24 Claims not payable.

A claim is not payable under §§ 536.20 through 536.35 which—

(a) Results wholly from the negligent or wrongful act of the claimant or agent.

(b) Is for reimbursement for medical, hospital, or burial expenses furnished at the expense of the United States.

(c) Is purely contractual in nature.

(d) Arises from private as distinguished from Government transactions.

(e) Is based solely on compassionate grounds.

(f) Is for war trophies or articles intended directly or indirectly for persons other than the claimant or members of his or her immediate family, such as articles acquired to be disposed of as gifts or for sale to another, voluntarily bailed to the Army, or is for precious jewels or other articles of extraordinary value voluntarily bailed to the Army. The preceding sentence is not applicable to claims involving registered or insured mail. No allowances will be made for any item when the evidence indicates that the acquisition, possession, or transportation thereof was in violation of DA directives.

(g) Is for rent, damage, or other payments involving the acquisition, use, possession, or disposition of real property or interests therein by and for the DA, except as authorized by § 536.23(b)(1). Real estate claims founded upon contract are generally processed under AR 405-15.

(h) Is not in the best interests of the United States, is contrary to public policy, or is otherwise contrary to the basic intent of the governing statute (10 U.S.C. 2733); for example, claims by inhabitants of unfriendly foreign countries or by or based on injury or death of individuals considered to be unfriendly to the United States. When a claim is considered to be not payable for the reasons stated in this paragraph, it will be forwarded for appropriate action to the Commander, USARCS, together with the recommendations of the responsible claims office.

(i) If presented by a national, or a corporation controlled by a national, or a country at war or engaged in armed conflict with the United States, or of any country allied with such enemy country unless the settlement authority having jurisdiction over the claim determines that the claimant is and, at the time of the incident, was friendly to the United States. A prisoner of war or an interned enemy alien is not excluded as to a claim for damage, loss, or destruction of personal property in the custody of the Government otherwise payable.

(j) Is for personal injury or death of a member of the Armed Forces or Coast Guard or a civilian employee thereof which is incident to his or her service (10 U.S.C. 2733(b)(3)).

(k) The types of claims not payable under the FTCA (see § 536.50(j)) are also not payable under §§ 536.20 through 536.35 with the following exceptions:

(1) The foreign country exclusion in 28 U.S.C. 2680(k) does not apply to claims under §§ 536.20 through 536.35.

(2) The *Feres* bar in § 536.50(j)(1) does not apply to claims under §§ 536.20 through 536.35, but see the exclusion in paragraph (j) of this section.

§ 536.25 Claims also cognizable under other statutes.

(a) *General.* Claims based upon a single act or incident cognizable under §§ 536.20 through 536.35, which are also cognizable under the FTCA (28 U.S.C. 2671–2680) § 536.50, the Army Maritime Claims Settlement Act (10 U.S.C. 4801–04, 4806) § 536.60, the FCA (10 U.S.C. 2734), or title 31, U.S.C. section 3721 (Personnel Claims), will be considered first under the latter statutes. If not payable under any of those latter statutes, the claim will be considered under §§ 536.20 through 536.35.

(b) *Claims in litigation.* Disposition under §§ 536.20 through 536.35 of any claim of the type covered by this section that goes into litigation in any State or Federal court under any State or Federal statute or ordinance will be suspended pending disposition of such litigation and the claim file will be forwarded to the Commander, USARCS. The Commander, USARCS, in coordination with the U.S. Department of Justice, may determine that final disposition under §§ 536.20 through 536.35 during pendency of the litigation is in the best interests of the United States. This section will also apply to any litigation brought against any agent of the United States in his or her individual capacity which is based upon the same acts or incidents upon which a claim under §§ 536.20 through 536.35 is based.

§ 536.26 Presentation of claims.

(a) *When claim must be presented.* A claim may be settled under §§ 536.20 through 536.35 only if presented in writing within 2 years after it accrues, except that if it accrues in time of war or armed conflict, or if war or armed conflict intervenes within 2 years after it accrues, and if good cause is shown, the claim may be presented not later than 2 years after war or armed conflict is terminated. As used in this section, a war or armed conflict is one in which any Armed Force of the United States is engaged. The dates of commencement and termination of an armed conflict must be as established by concurrent resolution of Congress or by determination of the President.

(b) *Where claim must be presented.* A claim must be presented to an agency or instrumentality of the DA. However, the statute of limitations is tolled if a claim is filed with another agency of the Government and is forwarded to the DA within 6 months, or if the claimant makes inquiry of the DA concerning his or her claim within 6 months after it was filed with another agency of the Government. If a claim is received by an official of the DA who is not a claims approval or settlement authority under §§ 536.20 through 536.35, the claim will be transmitted without delay to the nearest claims office or JA office for delivery to such an authority.

§ 536.27 Procedures.

So far as not inconsistent with §§ 536.20 through 536.35, the procedures set forth in §§ 536.1 through 536.13 will be followed. Subrogated claims will be processed as prescribed in § 536.5(b).

§ 536.28 Law applicable.

(a) As to claims arising in the United States, its territories, commonwealths, and possessions, the law of the place where the act or omission occurred will be applied in determining liability and the effect of contributory negligence on claimant's right to recover damages.

(b) In claims arising in a foreign country, liability of the United States will be assessed by reference to general principles of tort law common to the majority of United States jurisdictions. Absolute liability and similar theories are not a basis for liability under this section. Damages will be determined under § 536.29. If the negligence of the claimant was a partial cause of the injury, loss or damage, recovery will be barred if the negligence of the claimant is greater than that of the United States. In traffic accident cases, questions of negligence, and the degree of the claimant's comparative negligence, will be evaluated based on the traffic and vehicle safety laws and regulations of the country in which the accident occurred, but only to the extent they are not specifically superseded or preempted by the United States military traffic regulations.

§ 536.29 Compensation for property damage, personal injury, or death.

(a) *Measure of damages for property claims*—(1) *General.* The measure of damages in property claims arising in the United States or its possessions will be determined in accordance with the law of the place where the incident occurred. The measure of damages in property claims arising overseas will be determined in accordance with general principles of United States tort law.

(2) *Proof of damage.* The information listed below (similar to that required by 28 CFR 14.4(c)) will be submitted by a claimant to substantiate a claim.

(i) Proof of ownership.

(ii) Detailed statement of amount claimed for each item of property.

(iii) Itemized receipt of estimate for all repairs.

(iv) Statement giving date of purchase, price and, where not economically repairable, the salvage value.

(3) *Appraisals.* The assistance of appraisers should be used in all claims where, in the opinion of the claims officer, an appraisal is reasonably necessary and useful in reaching an administrative settlement of claims.

(b) *Measure of damages in injury or death claims arising in the United States or its possessions.* Where an injury or an injury resulting in death arises within the United States or its possessions, the measure of damages will be determined in accordance with the law of the State or possession wherein the injury arises.

(1) The information listed below (similar to that required by 28 CFR 14.4(a)) will be submitted by a claimant to substantiate a wrongful death claim.

(i) Authenticated death certificate or other competent evidence showing date and cause of death and age of decedent.

(ii) Decedent's employment and occupation at time of death, including salary or earnings and duration of last employment or occupation.

(iii) Names, addresses, birthdates, kinship and marital status of survivors.

(iv) Identification of persons dependent on decedent for support at time of death and the degree of support provided.

(v) Decedent's general physical and mental condition at time of death.

(vi) Itemized bills or receipt for medical and burial expenses.

(vii) If damages for pain and suffering are claimed, a physician's statement specifying the injuries suffered, duration of pain and suffering, drugs administered and decedent's physical condition between time of injury and time of death.

VOL 54 ISS 207 OCT 27 1989 UMI

(2) The information listed below (similar to that required by 28 CFR 14.4(b)) will be submitted by a claimant to substantiate a personal injury claim.

(i) Written report by attending the physician or dentist setting forth the:

(A) Nature and extent of injury;

(B) Nature and extent of treatment;

(C) Degree of temporary or permanent disability;

(D) Prognosis;

(E) Period of hospitalization; and

(F) Diminished earning capacity.

(ii) Itemized bills or receipts for medical, dental and hospital expenses.

(iii) If the prognosis includes future treatment, a statement of expected expenses for such treatment.

(iv) If the claim includes lost time from employment, a statement by the employer showing the actual time lost and wages and/or salary lost.

(v) If the claim includes lost income by a self-employed claimant, documentary evidence of such loss.

(c) *Measure of damages in injury or death claims arising in foreign countries.* (1) Subject to the limitations in § 536.29e, where an injury, or injury resulting in death arises in a foreign country, the measure of damages will be determined in accordance with established principles of general maritime law (see generally, Moragne v. United States Lines, Inc., 398 U.S. 375 (1970), as interpreted by Federal Court decisions). Where general maritime law provides no interpretation of allowable damages under a particular theory of liability (e.g., wrongful birth), damages will be determined in accordance with general principles of United States tort law.

(2) The information listed in § 536.29(b) (1) and (2), as appropriate, will be submitted by the claimant to substantiate a claim.

(3) A claimant who suffers serious personal injury, resulting in temporary or permanent disability should be examined by an independent physician or other medical specialist (See § 536.8(b)).

(d) *Failure to substantiate a claim.* (1) The government is not obligated to take final action on a claim until it has been supported by the claimant with specific facts substantiated by appropriate documentary evidence, reports of investigation, medical records or witness statements. Upon request, the claimant must:

(i) Provide the documentation required by paragraphs (a), (b) and (c) of this section;

(ii) Undergo necessary medical examinations;

(iii) Permit questioning of the claimant, his or her witness, and treating medical personnel;

(iv) Submit an expert opinion in a professional negligence action.

(2) Failure to comply with these requirements may provide a basis for denial of a claim, in full or in part.

(e) *Damages not payable.* The following damages are not payable in any claim arising under the Military Claims Act:

(1) Punitive or exemplary damages, including damages punitive in nature under 28 U.S.C. 2674.

(2) Interest on any claim settlement.

§ 536.30 Structured settlements.

(a) The use of the structured settlement device by approval and settlement authorities is encouraged in all appropriate cases. A structured settlement should not be used when contrary to the desires of the claimant.

(b) Notwithstanding the above, the Commander, USARCS may require or recommend to higher authority that an acceptable structured settlement be made a condition of award notwithstanding objection by the claimant or his or her representative where—

(1) Necessary to ensure adequate and secure care and compensation to a minor or otherwise incompetent claimant over a period of years;

(2) Where a trust device is necessary to ensure the long-term availability of funds for anticipated further medical care;

(3) Where the injured party's life expectancy cannot be reasonably determined.

§ 536.31 Claims over $100,000.

Claims cognizable under 10 U.S.C. 2733 and §§ 536.20 through 536.35, which are meritorious in amounts in excess of $100,000, will be forwarded to the Commander, USARCS who will negotiate a settlement subject to approval by the Secretary of the Army or designee, or require the claimant to state the lowest amount that will be acceptable and provide appropriate justification. Tender of a final offer by the Commander, USARCS constitutes an action subject to appeal. The Commander, USARCS will prepare a memorandum of law with recommendations and forward the claim to the Secretary of the Army, or designee, for final action. The Secretary or designee will either disapprove the claim or approve it in whole or in part.

§ 536.32 Settlement procedures.

(a) *Procedures.* Approval and settlement authorities will follow the procedures set forth in §§ 536.1 through 536.13 in paying, denying or making final offers on claims. A copy of the notification will be forwarded to Commander, USARCS. The settlement authority will notify the claimant by certified mail (return receipt registered) of a denial or final action and the reason therefore. The letter of notification will inform the claimant of the following:

(1) He or she may appeal, and that no form is prescribed for the appeal.

(2) The title of the authority who will act on the appeal and that the appeal will be addressed to the settlement authority who last acted on the claim.

(3) The claimant must fully set forth the grounds for appeal, or state that he or she appeals on the basis of the record as it exists at the time of denial or final offer.

(4) The appeal must be postmarked not later than 60 days after receipt of notice of action on the claim. If the 60th day falls on a day on which the post office is closed, the next day on which it is open for business will be considered the final day of the appeal period. The 60 day appeal period starts on the day following claimant's receipt of the letter from the settlement authority informing the claimant of the action taken and of the appellant rights. For good cause shown, the Commander, USARCS, or designee, or the chief of a command claims service (if the appellate authority), may extend the time for appeal, but normally such extension will not exceed 90 days.

(5) Where a claim for the same injury has been filed under the FTCA and the denial or final offer applies equally to such claim, the letter of notification must advise the claimant that any suit brought as to any portion of the claim under the FTCA must be brought not later than 6 months from the date of mailing of the notice of denial or final offer. Further, the claimant must be advised that if suit is brought, action on any appeal will be held in abeyance pending final determination of such suit.

(b) *Action on appeal.* (1) The appeal will be examined by the settlement authority who last acted on the claim, or his or her successor, to determine if the appeal complies with the requirements of this section. The settlement authority will also examine the claims investigative file and decide whether additional investigation is required; ensure all allegations or evidence presented by the claimant, agent or attorney are documented in the file; and that all pertinent evidence is included in the file. If the claimant states that he or she appeals but does not submit supporting materials within the 60 day

appeal period or an approved extension thereof, the appeal will be treated as being on the record as it existed at the time of denial or final offer. Unless action under paragraph (b)(2) of this section is taken; the claim with complete investigative file including any additional investigation required and a memorandum of opinion will be forwarded to the appropriate appellate authority for necessary action on the appeal.

(2) If the evidence in the file, including information submitted by the claimant with the appeal and any necessary additional investigation, indicates that the appeal should be granted, in whole or in part, the settlement authority who last acted on the claim or his or her successor will attempt to settle the claim. If settlement cannot be reached, the appeal will be forwarded in accordance with paragraph (b)(1) of this section.

(3) As to an appeal that requires action by TJAG, The Assistant Judge Advocate General (TAJAG), or the Secretary of the Army, or designee, the Commander, USARCS may take the action in paragraph (b)(2) of this section or forward the claim together with a recommendation for action. All matters submitted by the claimant will be forwarded and considered.

(4) Since an appeal under this authority is not an adversary proceeding, no form of hearing is authorized. A request by the claimant for access to documentary evidence in the claims file to be used in considering the appeal should be granted unless access is not permitted by law or regulation.

§ 536.33 Attorney fees.

In the settlement of any claim under §§ 536.20 through 536.35, attorney fees shall not exceed 20 percent of the final cost to the United States of the award.

§ 536.34 Payment of costs, settlements, and judgments related to certain medical and legal malpractice claims.

(a) Costs, settlements, or judgments cognizable under 10 U.S.C. 1089(f) for personal injury or death caused by any physician, dentist, nurse, pharmacist, or paramedical, or other supporting personnel (including medical and dental technicians, nurse assistants, and therapists) of DA should be forwarded to Commander, USARCS, for action and will be paid, provided:

(1) The alleged negligent or wrongful actions or omissions arose in performance of medical, dental or related health care functions (including clinical studies and investigations) within the scope of employment; and

(2) Such personnel provide prompt notification and delivery of all process served or received, provide such other documents, information, and assistance as requested, and cooperate in the defense of the action on the merits. (See DoD Directive 6000.8.)

(b) Costs, settlements, and judgments cognizable under 10 U.S.C. 1054(f) for damages for injury of loss of property caused by any attorney, paralegal, or other member of a legal staff within the DA should be forwarded to Commander, USARCS, for action and will be paid, provided:

(1) The alleged negligent or wrongful actions or omissions arose in connection with providing legal services while acting within the scope of the person's duties or employment, and

(2) Such personnel provide prompt notification and delivery of all process served or received, provide such other documents, information and assistance as requested, and cooperate in the defense of the action on the merits. (See DoD Directive 6000.8.)

§ 536.40 Claims under Article 139, Uniform Code of Military Justice.

(a) *Statutory authority.* The authority for this section is Article 139, Uniform Code of Military Justice (10 U.S.C. 939) which provides for redress of damage to property willfully damaged or destroyed, or wrongfully taken, by members of the armed forces of the United States.

(b) *Purpose.* This section sets forth the standards to be applied and the procedures to be followed in the processing of claims for damage, loss or destruction of property owned by or in the lawful possession of an individual, whether civilian or military, a business, a charity, or a State or local government, where the property was wrongfully taken or willfully damaged by military members of DA. Claims cognizable under other claims statutes may be processed under this section.

(c) *Effect of disciplinary action.* Administrative action under Article 139 and this section is entirely separate and distinct from disciplinary action taken under other articles of the UCMJ or other administrative actions. Because action under Article 139 and this section requires independent findings on issues other than guilt or innocence, the mere fact that a soldier was convicted or acquitted of charges is not dispositive of a claim under Article 139.

(d) *Claims cognizable.* Claims cognizable under Article 139, UCMJ are limited to—

(1) *Claims for property willfully damaged.* Willful damage is damage which is inflicted intentionally, knowingly, and purposefully without justifiable excuse, as distinguished from damage caused inadvertently or thoughtlessly through simple or gross negligence. Damage, loss, or destruction of property caused by riotous, violent, or disorderly acts, or by acts of depredation, or through conduct showing reckless or wanton disregard of the property rights of others may be considered willful damage.

(2) *Claims for property wrongfully taken.* A wrongful taking is any unauthorized taking or withholding of property, not involving the breach of a fiduciary or contractual relationship, with the intent to temporarily or permanently deprive the owner or person lawfully in possession of the property. Damage, loss, or destruction of property through larceny, forgery, embezzlement, fraud, misappropriation, or similar offense may be considered wrongful taking.

(e) *Claims not cognizable.* Claims not cognizable under this section and Article 139 include—

(1) Claims resulting from negligent acts.

(2) Claims for personal injury or death.

(3) Claims resulting from acts or omissions of military personnel acting within the scope of their employment.

(4) Claims resulting from the conduct of reserve component personnel who are not subject to the UCMJ at the time of the offense.

(5) Subrogated claims, including claims by insurers.

(f) *Limitations on assessments*—(1) *Time Limitations.* To be considered, a claim must be submitted within 90 days of the incident out of which the claim arose, unless the special court-martial convening authority (SPCMCA) acting on the claim determines that good cause has been shown for the delay.

(2) *Limitations on amount.* No soldier's pay may be assessed more than $5,000 on a single claim without the approval of the Commander, USARCS, or designee. If the commander acting on the claim determines that an assessment against a soldier in excess of $5,000 is meritorious, he or she will assess the pay of that soldier in the amount of $5,000 and forward the claim to the Commander, USARCS, with his or her recommendation as to the additional amount which should be assessed.

(3) *Direct damages.* Assessments are limited to direct damages for the loss of or damage to property. Indirect, remote, or consequential damages may not be considered under this section.

(g) *Procedure.* Area claims offices and claims processing offices with approval

VOL 54 ISS 207 OCT 27 1989 UMI

authority are responsible for publicizing the Article 139 program and maintaining a log for Article 139 claims presented in their areas (see Personnel Claims Adjudication appendix G, Claims Manual). Area claims offices and claims processing offices with approval authority are required to monitor action taken on Article 139 claims and ensure that time requirements are met. If assessment action on a particular claim will be unduly delayed, the office may consider the claim under 31 USC 3721 and chapter 11 of this regulation if it is otherwise cognizable under the authority. The office will counsel the claimant to repay any overpayment if the Article 139 claim is later successful (see para 11–2e).

(1) *Form of a claim and presentment.* A claim must be presented by the claimant or his or her authorized agent orally or in writing. The claim must be reduced to writing, signed, and for a definite sum in U.S. dollars within 10 days after oral presentment.

(2) *Action upon receipt of a claim.* Any officer receiving a claim will forward it within 2 working days to the SPCMCA over the soldier or soldiers against whom the claim is made. If the claim is made against soldiers under the jurisdiction of more than one such convening authority who are under the same general court-martial convening authority, the claim will be forwarded to that general court-martial convening authority, who will designate one SPCMCA to investigate and act on the claim as to all soldiers involved. If the claim is made against soldiers under the jurisdiction of more than one SPCMCA at different locations and not under the same general court-martial convening authority, the claim will be forwarded to the SPCMCA whose headquarters is closest to the situs of the incident, who will investigate and act on the claim as to all soldiers involved. If a claim is made against a member of one of the other military Services, the claim will be forwarded to the commander of the nearest major Army command (MACOM) of that Service.

(3) *Action by the SPCMCA.* Within 4 working days of receipt of a claim, the SPCMCA will appoint an investigating officer to investigate the claim, using the procedures of this section supplemented by the procedures of AR 15–6. The claims officer of a command, if he or she is a commissioned officer, may be appointed as the investigating officer.

(4) *Action by the investigating officer.* The investigating officer will provide notification to the soldier against whom the claim is made.

(i) If the soldier indicates a desire to make voluntary restitution, the investigating officer may, with the convening authority's concurrence, delay proceedings until the end of the next pay period to accomplish this. If the soldier makes payment to the claimant's full satisfaction, the claim will be dismissed.

(ii) In the absence of full restitution, the investigating officer will determine whether the claim is cognizable and meritorious under the provisions of Article 139 and this chapter and the amount to be assessed each offender. This amount will be reduced by any restitution accepted by the claimant from an offender in partial satisfaction. Within 10 working days or such time as the SPCMCA may provide, the investigating officer will make findings and recommendations and submit these to the SPCMCA. The investigating officer will also provide a copy of his or her findings and recommendations to any soldier against whom an assessment is recommended.

(iii) If the soldier is absent without leave so that he or she cannot be provided with notification, the Article 139 claim may be processed in the soldier's absence. If an assessment is approved, a copy of the claim and SPCMCA approval will be forwarded by transmittal letter to the servicing finance and accounting office (FAO) for offset input against the soldier's pay account. In the event the soldier is dropped from the rolls, the servicing FAO will forward the assessment documents to Commander, U.S. Army Finance and Accounting Center, attn: Department 40, Indianapolis, Indiana 46249.

(5) *Legal review.* After completion of the investigating officer's report, the SPCMCA will refer the claim to the area claims office or claims processing office servicing his or her command to review for legal sufficiency and advice. That office will furnish within 5 working days or such time as the SPCMCA will provide a written opinion as to—

(i) Whether the claim is cognizable under the provisions of Article 139 and this chapter.

(ii) Whether the findings and recommendations are supported by evidence.

(iii) Whether there has been substantial compliance with the procedural requirements of Article 139, this chapter, and AR 15–6.

(6) *Final action.* After considering the advice of the claims office, the SPCMCA will disapprove the claim or approve the claim in an amount equal to or less than the amount recommended by the investigating officer. The SPCMCA will notify the claimant, and any soldier subject to his or her jurisdiction, of the determination and the right to request reconsideration. The SPCMCA will then suspend action on the claim for 10 working days pending receipt of a request for reconsideration unless he or she determines that this delay will result in substantial injustice. The SPCMCA will direct the servicing finance officer for the soldier or soldiers against whom assessments are approved to withhold such amount from the soldier or soldiers up to $5000. For any soldier not subject to the SPCMCA's jurisdiction, the SPCMCA will forward the claim to that commander who does exercise special court-martial jurisdiction over the soldier for collection action.

(7) *Assessment.* Subject to any limitations provided in appropriate regulations, the servicing finance officer will withhold the amount directed by the SPCMCA and pay it to the claimant. The SPCMCA's assessment is not subject to appeal and is conclusive on any finance officer. If the servicing finance officer finds that the required amount cannot be withheld because he or she does not have custody of the soldier's pay record or because the soldier is in a no pay due status, the servicing finance officer will promptly notify the SPCMCA of this in writing.

(8) *Post settlement action.* After action on the claim is completed, the claims office servicing the command which took final action will forward one copy of the claim together with a cover sheet and all attachments, to include information that money has or has not been withheld and paid to the claimant by the servicing finance officer, through any command claims service, to the Commander, USARCS.

(9) *Remission of indebtedness.* Title 10, United States Code, section 4837(d), which authorizes the remission and cancellation of indebtedness of an enlisted person to the United States or its instrumentalities, is not applicable and may not be used to remit and cancel indebtedness determined as a result of action under Article 139.

(h) *Reconsideration*—(1) *General.* Although Article 139 does not provide for a right of appeal, either the claimant or a soldier whose pay is assessed may request the SPCMCA or a successor in command to reconsider the action. A request for reconsideration will be submitted in writing and will clearly state the factual or legal basis for the relief requested. The SPCMCA may direct that the matter be reinvestigated.

(2) *Reconsideration by the original SPCMCA.* The original SPCMCA may reconsider the action so long as he occupies that position, regardless of whether a soldier whose pay was assessed has been transferred. If the original SPCMCA determines that the action was incorrect, he or she may modify it subject to paragraph (h)(4) of this section. If a request for reconsideration is submitted more than 15 days after notification was provided, however, the SPCMCA should only modify the action on the basis of fraud, substantial new evidence, errors in calculation, or mistake of law.

(3) *Reconsideration by a successor in command.* Subject to paragraph (h)(4) of this section, a successor in command may only modify an action on the basis of fraud, substantial new evidence, errors in calculation or mistake of law apparent on the face of the record.

(4) *Legal review and action.* Prior to modifying the original action, the SPCMCA will have the claims office render a legal opinion and fully explain his or her basis for modification as part of the file. If a return of assessed pay is deemed appropriate, the SPCMCA should request the claimant to return the money, setting forth the basis for the request. There is no authority for repayment from appropriated funds.

(5) *Disposition of files.* After completing action on reconsideration, the SPCMCA will forward a copy of the reconsideration action to the Commander, USARCS, and retain one or more additional copies with the claim file.

§ 536.50 Claims based on negligence of military personnel or civilian employees under the Federal Tort Claims Act.

(a) *Authority.* The statutory authority for this chapter is the FTCA (60 Stat. 842, 28 U.S.C. 2671–2680), as amended by the Act of 18 July 1966 (Pub. L. 89–506; 80 Stat. 306), the Act of 16 March 1974 (Pub. L. 93–253; 88 Stat. 50), and the Act of 29 December 1981 (Pub. L. 97–124), and as implemented by the Attorney General's Regulations (28 CFR 14.1–14.11).

(b) *Scope.* This section prescribes the substantive basis and special procedural requirements for the administrative settlement of claims against the United States under the FTCA and the implementing Attorney General's Regulations based on death, personal injury, or damage to or loss of property which accrue on or after 18 January 1967. If a conflict exists between the provisions of this section and the provisions of the Attorney General's Regulations, the latter govern.

(c) *Claims payable.* Unless otherwise prescribed, claims for death, personal injury, or damage to or loss of property (real or personal) are payable under this section when the injury or damage is caused by negligent or wrongful acts or omissions of military personnel or civilian employees of the DA or the DoD while acting within the scope of their employment under circumstances in which the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred. The FTCA is a limited consent to liability without which the United States is immune. Similarly, there is no Federal cause of action created by the Constitution which would permit a damage recovery because of the Fifth Amendment or any other constitutional provision. Immunity must be expressly waived, as by the FTCA.

(d) "Employee of the Government" (28 U.S.C. 2671) includes the following categories of tortfeasors for which the DA is responsible:

(1) Military personnel (members of the Army), including but not limited to:

(i) Members on full-time active duty in a pay status, including—

(A) Members assigned to units performing active service.

(B) Members serving as ROTC instructors. (Does not include Junior ROTC instructors unless on active duty.)

(C) Members serving as National Guard instructors or advisors.

(D) Members on duty or in training with other Federal agencies, for example, Nuclear Regulatory Commission, National Aeronautics and Space Administration, Departments of Defense, State, Navy, or Air Force.

(E) Members assigned as students or ordered into training at a non-Federal civilian educational institution, hospital, factory, or other industry. This does not include members on excess leave.

(F) Members on full-time duty at nonappropriated fund activities.

(G) Members of the ARNG of the United States on active duty.

(ii) Members of reserve units during periods of inactive duty training and active duty training, including ROTC cadets who are reservists while they are at summer camp.

(iii) Members of the ARNG while engaged in training or duty under 32 U.S.C. 316, 502, 503, 504, or 505 for claims arising on or after 29 December 1981.

(2) Civilian officials and employees of both the DOD and the DA (there is no practical significance to the distinction between the terms "official" and "employee") including but not limited to—

(i) Civil Service and other full-time employees of both DOD and DA paid from appropriated funds.

(ii) Contract surgeons (10 U.S.C. 1091, 4022) and consultants (10 U.S.C. 1091) where "control" is exercised over physician's day to day practice.

(iii) Employees of nonappropriated funds if the particular fund is an instrumentality of the United States and thus a Federal agency. In determining whether or not a particular fund is a "Federal agency," consider whether the fund is an integral part of the DA charged with an essential DA operational function and the degree of control and supervision exercised by DA personnel. Members or users, as distinguished from employees of nonappropriated funds, are not considered Government employees. The same is true of family child care providers. However, claims arising out of the use of certain nonappropriated fund property or the acts or omissions of family child care providers, may be payable from such funds under chapter 12, AR 27–20, as a matter of policy, even when the user is not within the scope of employment and the claim is not otherwise cognizable under any other claims authorization.

(iv) Prisoners of war and interned enemy aliens.

(v) Civilian employees of the District of Columbia National Guard, including those paid under "service contracts" from District of Columbia funds.

(vi) Civilians serving as ROTC instructors paid from Federal funds.

(vii) National Guard technicians employed under 32 U.S.C. 709(a) for claims accruing on or after 1 January 1969 (Pub. L. 90–486, 13 August 1968; 82 Stat. 755).

(3) Persons acting in an official capacity for the DOD or the DA whether temporarily or permanently in the service of the United States with or without compensation including but not limited to—

(i) "Dollar a year" personnel.

(ii) Members of advisory committees, commissions, boards or the like.

(iii) Volunteer workers in an official capacity acting in furtherance of the business of the United States. The general rule with respect to volunteers is set forth in 31 U.S.C. 665(b), which provides that, "No officer or employee of the United States shall accept voluntary service for the United States or employ personal service in excess of that authorized by law, except in cases of emergency involving the safety of human life or the protection of property." (5 U.S.C. 3111(c) specifically provides that student volunteers employed thereunder shall be considered Federal employees for purposes of claims under the FTCA. The same classification is applied by 10 U.S.C. 1588 to museum and family support program volunteers.) The DA is permitted to accept and use certain

VOL 54 ISS 207 OCT 27 1989 UMI

volunteer services in Army family support programs. (10 U.S.C. 1588).

(iv) *Loaned servants.* Employees who are permitted to serve another employer may be considered "loaned servants," provided the borrowing employer has the power to discharge the employee, to control and direct the employee, and to decide how he will perform his tasks. Whoever has retained those powers is liable for the employee's torts under the principle of respondeat superior. Where those elements of direction and control have been found, the United States has been liable, for example, for the torts of Government employees loaned for medical training and emergency assistance, and county and state employees discharging Federal programs.

(e) "Scope of employment" means acting in "line of [military] duty" (28 U.S.C. 2671) and is determined in accordance with principles of respondeat superior under the law of the jurisdiction in which the act or omission occurred. Determination as to whether a person is within a category listed in paragraph (d)(3) of this section will usually be made together with the scope determination. Local law should always be researched, but the novel aspects of the military relationship should be kept in mind in making a scope determination.

(f) "Line of duty" determinations under AR 600–8–1 are not determinative of scope of employment. "Joint venture" situations are likely to be frequent where the Federal employee is performing federally assigned duties but is under actual direction and control of a non-Federal entity, for example, a Federal employee in training at a non-Federal entity or ROTC instructors at civilian institutions. This could also occur where the employee is working for another Federal agency. Furthermore, dual purpose situations are commonplace where benefits to the Government and the member or employee may or may not be concurrent, for example, use of privately owned vehicles at or away from assigned duty station, or permanent change of station with delay en route. (See §§ 536.90 through 536.97 for the handling of certain claims arising out of nonscope activities of members of the Army.)

(g) *Law applicable.* The whole law of the place where the act or omission occurred, including choice of law rules, will be applied in the determination of liability and quantum. Where there is a conflict between the local law and an express provision of the FTCA, the latter governs.

(h) *Subrogation.* Claims involving subrogation will be processed as prescribed in § 536.5(b), except where inconsistent with the provisions of this section or the Attorney General's regulations.

(i) *Indemnity or contribution*— (1) *Sought by the United States.* If the claim arises under circumstances in which the Government is entitled to contribution or indemnity under a contract of insurance or the applicable law governing joint tortfeasors, the third party will be notified of the claim, and will be requested to honor its obligation to the United States or to accept its share of joint liability. If the issue of indemnity or contribution is not satisfactorily adjusted, the claim will be compromised or settled only after consultation with the Department of Justice as provided in 28 CFR 14.6.

(2) *Claims for indemnity or contribution.* Claims for indemnity or contribution from the United States will be compromised or settled under this section, if liability exists under the applicable law, provided the incident giving rise to such claim is otherwise cognizable under this section. As to such claims where the exclusivity of the FECA may be applicable, see 5 U.S.C. 8101–8150.

(3) *ARNG vehicular claims.* When a vehicle used by the ARNG, or a privately owned vehicle operated by a member or employee of the ARNG, is involved in an incident under circumstances which make this section applicable to the disposition of administrative claims against the United States and results in personal injury, death, or property damage, and a remedy against the State or its insurer is indicated, the responsible area claims authority will monitor the action against the State or its insurer and encourage direct settlement between the claimant and the State or its insurer. Where the State is insured, direct contact with State or ARNG officials rather than the insurer is desirable. Regular procedures will be established and followed wherever possible. Such procedures should be agreed on by both local authorities and the appropriate claims authorities subject to concurrence by Commander, USARCS. Such procedures will be designed to ensure that local authorities and United States authorities do not issue conflicting instructions for processing claims and that whenever possible and in accordance with governing local and Federal law, a mutual arrangement for disposition of such claims as in paragraph (i)(4) of this section is worked out. Amounts recovered or recoverable by claimant from any insurer (other than claimant's insurer who has obtained no subrogated interest against the United States) will be deducted from the amount otherwise payable.

(4) *Claims arising out of training activities of ARNG personnel.* Contribution may be sought from the state involved where it has waived sovereign immunity or has private insurance which would cover the incident giving rise to the particular claim. Where the state involved rejects the request for contribution, the file will be forwarded to the Commander, USARCS. The Commander, USARCS, is authorized to enter into an agreement with a State, territory, or commonwealth to share settlement costs of claims generated by the ARNG personnel or activities of that political entity.

(j) *Claims not payable.* The exclusions contained in 28 U.S.C. 2680 are applicable to claims herein. Other types of claims are excluded by statute or court decisions, including, but not limited to, the following:

(1) Claims for the personal injury or death of a member of the Armed Forces of the United States incurred incident to service, or for damage to a member's property incurred incident to service. *Feres* v. *United States*, 340 U.S. 135 (1950). Currently the most significant justification for the incident to service doctrine is the availability of alternative compensation systems, and the fear of disrupting the military command relationship. Other supportive factors often cited by the courts are the service member's duty status, location, and receipt of military benefits at the time of the incident.

(i) The exception applies to members of the Army, Navy, Air Force, Marine Corps, and Coast Guard, including the Reserve Components of the Armed Forces. (See 10 U.S.C. 261.) The exception also applies to service members on the Temporary Disability Retired List, and on convalescent leave, to service academy cadets, to members of visiting forces in the United States under the SOFA between the parties to the North Atlantic Treaty Organization or similar international agreements, and to service members on the extended enlistment program.

(ii) The incident to service doctrine has been extended to derivative claims where the directly injured party is a service member. Third party indemnity claims are barred.

(2) Claims for the personal injury or death of a Government employee for whom benefits are provided by the Federal Employees Compensation Act (5 U.S.C. 8101–8150). Who is a government employee under the Act is defined in the Act itself (5 U.S.C. 8101), but is not limited to Federal Civil Service employees. The term "government employee" can include certain ROTC cadets (5 U.S.C. 8140) and state or local law enforcement officers engaged in apprehending a person for committing a crime against the United States (5 U.S.C. 8191), certain nurses, interns or other health care personnel, e.g., student nurses, etc. (5 U.S.C. 5351, 8144) and certain Army Community Service Volunteers (10 U.S.C. 1588). This Act provides that benefits paid under the Act are exclusive and instead of all other liability of the United States, including that under a Federal tort liability statute (5 U.S.C. 8116(c)). It extends to derivative claims, to subsequent malpractice for treatment of a covered injury, to injuries for which there is no scheduled compensation, and to employee harassment claims for which other remedies are available (42 U.S.C. 2000e). The exception does not bar third party indemnity claims. When there is doubt as to whether or not this exception applies, the claim should be forwarded through claims channels to the Commander, USARCS, for an opinion.

(3) Claims for the personal injury or death of an employee, including nonappropriated fund employees, for whom benefits are provided by the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901–950). An employee of a nonappropriated fund instrumentality is covered by that Act (5 U.S.C. 8171). This is the exclusive remedy for covered employees, similar to the exclusivity of the FECA.

(4) Claims for the personal injury or death of any employee for whom benefits are provided under any workmen's compensation law, if the premiums of the workmen's compensation insurance are retrospectively rated and charged as an allowable, allocable expense to a cost-type contract. If, in the opinion of an approval or settlement authority, the claim should be considered payable, for example, the injuries did not result from a normal risk of employment or adequate compensation is not payable under workmen's compensation laws, the file will be forwarded with recommendations through claims channels to the Commander, USARCS, who may authorize payment of an appropriate award.

(5) Claims for damage from or by flood or flood waters at any place. 33 U.S.C. 702c. This exception is broadly construed and includes multi-purpose projects and all phases of construction and operation.

(6) Claims based solely upon a theory of absolute liability or liability without fault. Either a "negligent" or "wrongful" act is required by the FTCA, and some type of malfeasance or nonfeasance is required. *Dalehite* v. *United States*, 346 U.S. 15 (1953); *Laird* v. *Nelms*, 406 U.S. 797 (1972). Thus, liability does not arise by virtue either of United States ownership of an inherently dangerous commodity or of engaging in extra-hazardous activity.

(k) *Procedures*—(1) *General.* Unless inconsistent with the provisions of this section, the procedures for the investigation and processing of claims set forth in §§ 536.1 through 536.13 will be followed.

(2) *Claims arising out of tortious conduct by ARNG personnel as defined in paragraph (d)(1)(iii) of this section*— (i) *Notification.* The procedures prescribed in § 536.75, will be followed in ARNG claims arising under the FTCA.

(ii) Claims against the U.S. Government received by agencies of the State. These claims will be expeditiously forwarded through the State adjutant general to the appropriate U.S. Army area claims office in whose geographic area the incident occurred.

(3) *Statute of Limitations.* (i) To be settled under this section, a claim against the United States must be presented in writing to the appropriate Federal agency within 2 years of its accrual.

(ii) For statute of limitations purposes, a claim will be deemed to have been presented when the appropriate Federal agency as defined in § 536.3(m) receives from a claimant, his or her duly authorized agent, or legal representative an executed SF 95 or written notification of an incident, together with a claim for money damages, in a sum certain, for damage to or loss of property or personal injury or death. For Federal tort claims arising out of activities of the ARNG, receipt of a written claim by any fulltime officer or employee of the ARNG will be considered proper receipt.

(iii) A claim received by an official of the DOD will be transmitted without delay to the nearest Army claims processing office or area claims office. Inquiries concerning applicability of the statute of limitations to claims filed with the wrong Federal agency will be referred to USARCS for resolution.

(4) *Claims within settlement authority of USARCS or the Attorney General.* A copy of each claim which must be brought to the attention of the Attorney General in accordance with his or her regulations (28 CFR 14.6), or one in which the demand exceeds $15,000 or the total amount of all claims, actual or potential, from a single incident exceeds $25,000, will be forwarded immediately to the Commander, USARCS. Subsequent documents should be forwarded or added in accordance with § 536.5(h)(2). USARCS is responsible for the monitoring and settlement of such claims and will be kept informed of the status of the investigation and processing thereof. Direct liaison and correspondence between USARCS and the field claims authority or investigator is authorized on all claims matters, and assistance will be furnished as required.

(5) *Non-Army claims.* Claims based on acts or omissions of employees of the United States, other than military and civilian personnel of the DA, civilian personnel of the DOD, and employees of nonappropriated fund activities of the DA, will be transmitted forthwith to the nearest official of the employing agency, and the claimant will be advised of the referral.

(6) *Acknowledgment of claim.* (i) The claimant and his or her attorney will be kept informed by personal contact, telephonic contact, or mail of the receipt of his or her claim and the status of the claim. Formal acknowledgment of the claim in writing is required only where the claim is likely to result in litigation or is presented in an amount exceeding $15,000. In this event, the letter of acknowledgment will state the date of receipt of the claim by the first agency of the Army receiving the claim.

(ii) If it is reasonably clear to the office acknowledging receipt that a claim filed under the FTCA is not cognizable thereunder; for example, it is a maritime claim under § 536.60, or it falls under §§ 536.20 through 536.35 or 536.70 through 536.81, the acknowledgment will contain a statement advising the claimant of the statute under which his or her claim will be processed. If it is not clear which statute applies, a statement to that effect will be made, and the claimant will be promptly advised on his or her remedy when a decision is made. However, all potential maritime claims will be handled in accordance with § 536.5(h)(5).

(iii) When a claim has been amended as set forth in § 536.5(f)(4), the amendment will be acknowledged in all cases. Additionally, the claimant will be informed that the amendment constitutes a new claim insofar as concerns the 6 months in which the DA is granted the authority to make a final disposition under 28 U.S.C. 2675(a) and the claimant's option thereunder will not accrue until 6 months after the filing of the amendment.

(iv) When a claim is improperly presented, is incomplete or otherwise does not meet the requirements set forth in § 536.5(d), the claimant or his or her

BEST COPY AVAILABLE

VOL 54 ISS 207 OCT 27 1989 UMI

representative will be promptly informed in writing of the deficiencies and advised that a proper claim must be filed within the 2 year statute of limitations.

(7) *Investigation.* Claims cognizable under this section will be investigated and processed on a priority basis in order that settlement if indicated may be accomplished within the 6 months prescribed by statute.

(8) *Advice to claimant.* (i) A full explanation of claims procedures and of the rights of the claimant will be made to the extent necessitated by the amount and nature of the claim.

(ii) In a case where litigation is likely, or where this course of action is preferred by the claimant, and it appears to be a proper case for administrative settlement, the claimant will be advised as to the advantages of administrative settlement. If the claim is within the jurisdiction of a higher settlement authority, the claim will be discussed with such authority prior to the furnishing of such advice. The claimant should be familiarized with all aspects of administrative settlement procedures including the administrative channels through which his claim must be processed for approval. He or she may be advised that administrative processing can result in more expeditious processing, whereas litigation may take considerable time, particularly in jurisdictions with crowded dockets.

(iii) If appropriate, he or she may be informed that a tentative settlement can be reached for any amount above $25,000, subject to approval by the Attorney General. He or she should be advised that administrative filing of the claim protects him under the statute of limitations for purpose of litigation; suit can be filed within 6 months after the date of mailing of notice of final denial by the DA, thus potentially allowing negotiations to continue indefinitely. An attorney representing a claimant should be advised of the limitations on fees for purposes of administrative settlement (20 percent) and litigation (25 percent). The attorney may also be advised that there is no jury trial under the FTCA.

(9) *Notification to claimant of action on claim.* (i) The filing of an administrative claim and its denial are prerequisite to filing suit. Any suit must be filed not later than 6 months after notification by certified or registered mail of the denial of the administrative claim. Failure of a settlement authority to take final action on a properly filed claim within 6 months may be treated by the claimant as a final denial for the purposes of filing suit. If the claimant has provided insufficient documentation to permit evaluation of the claim, written notice should be given to this effect. Since administrative settlements are a voluntary process, the preferred method of negotiating is to attempt to exchange information on an open basis.

(ii) Upon final denial of a claim, or upon rejection by the claimant of a partial allowance, and further efforts to reach a settlement are not considered feasible (§ 536.5(h)(1)), the settlement authority will inform the claimant of the action on his claim by certified or registered mail. Notification will be made as set forth in § 536.11(b).

(iii) If a claim has been presented to the DA and, also, to other Federal agencies, without any notification to the DA of this fact, final action taken by the DA prior to that of any other agency is conclusive on a claim presented to other agencies, unless another agency decides to take further action to settle the claim. Such agency may treat the matter as a reconsideration under 28 CFR 14.9(b), unless suit has been filed. The foregoing applies likewise to DA claims in which another Federal Agency has already taken final action.

(iv) If, after final denial by another agency, a claim is filed with the DA, the new submission will not toll the 6 months limitation for filing suit, unless the DA treats the second submission as a request for reconsideration under paragraph (k)(9)(iv)(A) of this section.

(A) *Reconsideration.* (*1*) While there is no appeal from the action of an approving or settlement authority under the FTCA and this section, an approving or settlement authority may reconsider a claim upon request of the claimant or someone acting in his behalf. Even in the absence of such a request, an approving or settlement authority may on his own initiative reconsider a claim. He may reconsider a claim which he previously disapproved in whole or in part (even where a settlement agreement has been executed) when it appears that his original action was incorrect in law or fact based on the evidence of record at the time of the action or subsequently received. If he determines that his original action was incorrect, he will modify the action and, if appropriate, make a supplemental payment. The basis for a change in action will be stated in a memorandum included in the file.

(*2*) A successor approving or settlement authority may also reconsider the original action on a claim but only on the basis of fraud, substantial new evidence, errors in calculation or mistake (misinterpretation) of law.

(*3*) A request for reconsideration must be submitted prior to the commencement of suit and prior to the expiration of the 6-month period provided in 28 U.S.C. 2401(b). Upon timely filing, the appropriate authority shall have 6 months from the date of filing in which to make a final disposition of the request, and the claimant's option under 28 U.S.C. 2675(a) shall not accrue until 6 months after the filing of the request.

(*4*) A request for reconsideration should indicate fully the legal or factual basis asserted as grounds for relief. Following completion of any investigation or other action deemed necessary for an informed disposition of the request, the approving or settlement authority will reconsider the claim and attempt to settle it by granting such relief as may appear warranted. When further settlement efforts appear unwarranted, the entire file with a memorandum of opinion will be referred through claims channels to the Commander, USARCS, and the claimant informed of such referral.

§ 536.60 Maritime claims.

(a) *Statutory authority.* Administrative settlement or compromise of admiralty and maritime claims in favor of and against the United States by the Secretary of the Army or his designee is authorized by the Army Maritime Claims Settlement Act (10 U.S.C. 4801–04, 4806, as amended).

(b) *Related statutes.* The Army Maritime Claims Settlement Act is supplemented by the following statutes under which suits in admiralty may be brought: the Suits in Admiralty Act of 1920 (41 Stat. 525, 46 U.S.C. 741–752); the Public Vessels Act of 1925 (43 Stat. 1112, 46 U.S.C. 781–790); the Act of 1948 Extending the Admiralty and Maritime Jurisdiction (62 Stat. 496, 46 U.S.C. 740). Similar maritime claims settlement authority is exercised by the Department of the Navy under 10 U.S.C. 7365, 7621–23 and by the Department of the Air Force under 10 U.S.C. 9801–9804, 9806.

(c) *Scope.* 10 U.S.C. 4802 provides for the settlement or compromise of claims for—

(1) Damage caused by a vessel of, or in the service of, the DA or by other property under the jurisdiction of the DA;

(2) Compensation for towage and salvage service, including contract salvage, rendered to a vessel of, or in the service of, the DA or to other property under the jurisdiction of the DA; or

(3) Damage caused by a maritime tort committed by any agent or employee of the DA or by property under the jurisdiction of the DA.

(d) *Claims exceeding $500,000.* Claims against the United States settled or compromised in a net amount exceeding $500,000 are not payable hereunder, but will be investigated and processed under this section, and, if approved by the Secretary of the Army, will be certified by him to Congress.

(e) *Claims not payable.* A claim is not allowable under this section which:

(1) Is for damage to, or loss or destruction of, property, or for personal injury or death, resulting directly or indirectly from action by the enemy, or by U.S. Armed Forces engaged in armed combat, or in immediate preparation for impending armed combat.

(2) Is for personal injury or death of a member of the Armed Forces of the United States or a civilian employee incurred incident to his service.

(3) Is for personal injury or death of a Government employee for whom benefits are provided by the FECA (5 U.S.C. 8101–8150).

(4) Is for personal injury or death of an employee, including nonappropriated fund employees, for whom benefits are provided by the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1424, 33 U.S.C. 901).

(5) Has been made the subject of a suit by or against the United States, except as provided in subparagraph (h)(2) of this section.

(6) Arises in a foreign country and was considered by the authorities of a foreign country and final action taken thereon under Article VIII of the NATO Status of Forces Agreement, Article XVIII of the Treaty of Mutual Cooperation and Security between the United States and Japan regarding facilities and areas and the Status of United States Armed Forces in Japan, or other similar treaty or agreement, if reasonable disposition was made of the claim.

(f) *Claims under other laws and regulations.* (1) Claims of military personnel and civilian employees of the DOD and the Army, including military and civilian officers and crews of Army vessels, for damage to or loss of personal property occurring incident to their service will be processed under the provisions of the Military Personnel and Civilian Employees' Claims Act (31 U.S.C. 3721).

(2) Claims which are within the scope of this section and also within the scope of the FCA (10 U.S.C. 2734) may be processed under that statute when specific authority to do so has been obtained from the Commander, USARCS. The request for such authority should be accompanied by a copy of the report of the incident by the Marine Casualty Investigating Officer, or other claims investigator.

(g) *Subrogation.* (1) An assurer will be recognized as a claimant under this section to the extent that it has become subrogated by payment to, or on behalf of, its assured, pursuant to a contract of insurance in force at the time of the incident from which the claim arose. An assurer and its assured may file a claim either jointly or separately. Joint claims must be asserted in the names of, and must be signed by, or on behalf of, all parties; payment then will be made jointly. If separate claims are filed, payment to each party will be limited to the extent of such party's undisputed interest.

(2) For the purpose of determining authority to settle or compromise a claim, the payable interests of an assurer (or assurers) and the assured represent merely separable interests, which interests in the aggregate must not exceed the amount authorized for administrative settlement or compromise.

(3) The policies set forth in paragraphs (g) (1) and (2) of this section with respect to subrogation arising from insurance contracts are applicable to all other types of subrogation.

(h) *Limitation of settlement.* (1) The period for effecting an administrative settlement under the Army Maritime Claims Settlement Act is subject to the same limitation as that for beginning an action under the Suits in Admiralty Act; that is, a 2-year period from the date of the origin of the cause of action. The claimant must have agreed to accept the settlement, and it must be approved for payment by the Secretary of the Army or his designee prior to the end of such period; otherwise, thereafter the cause of action ceases to exist, except under the circumstances set forth in paragraph (h)(2) of this section. The presentation of a claim, or its consideration by the DA, neither waives nor extends the 2-year limitation period.

(2) In the event that an action has been filed in a U.S. district court before the end of the 2-year statutory period, an administrative settlement may be negotiated by the Commander, USARCS, with the claimant, even though the 2-year period has elapsed since the cause of action accrued, provided the claimant obtains the written consent of the appropriate office of the Department of Justice charged with the defense of the complaint. Payment may be made upon dismissal of the complaint.

(3) When a claim under this section, notice of damage, invitation to a damage survey, or other written notice of an intention to hold the United States liable is received, the receiving installation, office, or person immediately will forward such document to the Commander, USARCS. USARCS will promptly advise the claimant or potential claimant in writing of the comprehensive application of the time limit.

(4) When a claim under this section for less than $10,000 is presented to a Corps of Engineers office and thus may be appropriate for action by the Corps of Engineers pursuant to the delegation of authority set forth in paragraph (i)(2) of this section, the receiving Corps of Engineers office will promptly advise the claimant in writing of the comprehensive application of the time limit (unless such has already been done by USARCS).

(i) *Delegation of authority.* (1) Where the amount to be paid is not more than $10,000, claims under this section may be settled or compromised by the Commander, USARCS, chief of overseas command claims service, or his designee.

(2) When a claim under this section arises from a civil works activity of the Corps of Engineers, engineer area claims offices are delegated authority to approve and pay in full, or in part, subject to the execution of an appropriate settlement agreement, claims presented for $10,000 or less, and compromise and pay claims regardless of the amount claimed, provided an award of $10,000 or less is accepted by the claimant in full satisfaction and final settlement of the claim, subject to such limitations as may be imposed by the Chief of Engineers. Meritorious claims arising from civil works activities of the Corps of Engineers will be paid from Corps of Engineers funds.

Subpart C—Claims Arising From Activities of National Guard Personnel While Engaged in Duty or Training

§ 536.70 Statutory authority.

The statutory authority for this chapter is contained in the Act of 13 September 1960 (74 Stat. 878, 32 U.S.C. 715), commonly referred to as the National Guard Claims Act (NGCA), as amended by Public Law 90–486, 13 August 1968 (82 Stat. 756), Public Law 90–525, 26 September 1968 (82 Stat. 877), Public Law 91–312, 8 July 1970 (84 Stat. 412), and Public Law 93–336, 8 July 1974, (88 Stat. 291); and the Act of 8 September 1961 (75 Stat. 488, 10 U.S.C. 2738) as amended by Public Law 90–521, 26 September 1968 (82 Stat. 874), Public Law 97–124, 29 December 1981 (95 Stat.

VOL 54 ISS 207 OCT 27 1989 UMI

1666), and Public Law 98–564, 30 October 1984 (98 Stat. 2918).

§ 536.71 Definitions.

For purposes of §§ 536.70 to 536.81 the following terminology applies:

(a) *ARNG personnel.* A member of the ARNG engaged in training or duty under 32 U.S.C. 316, 502, 503, 504, 505, or 709.

(b) *Claimant.* An individual, partnership, association, corporation, country, State, Commonwealth, territory or a political subdivision thereof, or the District of Columbia, presenting a claim and meeting the conditions set forth in § 536.5. The term does not include the U.S. Government, any of its instrumentalities, except as prescribed by statute, or a State, commonwealth, territory or the District of Columbia which maintains the unit to which the ARNG personnel causing the injury or damage are assigned. This exclusion does not ordinarily apply to a unit of local government which does not control the ARNG organization involved. As a general rule, a claim by a unit of local government other than a State, commonwealth or territory will be entertained unless the item claimed to be damaged or lost was procured or maintained by State, commonwealth, or territorial funds.

§ 536.72 Scope.

(a) Sections 536.70 through 536.81 apply in all places and set forth the procedures to be followed in the settlement and payment of claims for death, personal injury, or damage to or loss or destruction of property caused by members or employees of the ARNG, or arising out of the noncombat activities of the ARNG when engaged in training or duty under 32 U.S.C. 316, 502, 503, 504, 505, or 709, provided such claim is not for personal injury or death of a member of the Armed Forces or Coast Guard, or a civilian officer or employee whose injury or death is incident to service.

(b) A claimant dissatisfied with an administrative settlement under §§ 536.70 through 536.81 as the result of activities of the ARNG of a State, Commonwealth, or territory is not entitled to judicial relief in an action against the United States. Whether he or she has a legal cause of action or may file an administrative claim against such a political entity depends upon controlling local law.

(c) Claims arising out of activities of the ARNG when performing duties at the call of the governor of a State maintaining the unit are not cognizable under §§ 536.70 through 536.81 or any other law, regulation or appropriation available to the Army for the payment of claims. Such claims should be returned or referred to the authorities of the State for whatever action they choose to take, and claimants should be informed of the return or referral. Care should be taken to determine the status of the unit and members at the time the claims incident occurred, particularly in civil emergencies as units called by the governor are sometimes "federalized" during the call-up. If the unit was "federalized" at the time the claim incident occurred, the claim will be cognizable under §§ 536.20 through 536.35, 536.50, or 536.90 through 536.97 or other sections pertaining to the Active Army.

§ 536.73 Claims payable.

(a) *Tort claims.* All claims for personal injuries, death, or damage to or loss of real or personal property, arising out of incidents occurring on or after 29 December 1981, based on negligent or wrongful acts or omissions of ARNG personnel acting within the scope of employment, within the United States while engaged in training or duty under 32 U.S.C. 316, 502, 503, 504, 505, or 709 will be processed under the FTCA, § 536.50. Such claims arising before 29 December 1981 will, except as modified herein, be processed and settled in accordance with the provisions of §§ 536.20 through 536.35.

(b) *Noncombat activities.* A claim incident to the noncombat activities of the ARNG while engaged in duty or training under 32 U.S.C. 316, 502, 503, 504, 505, or 709 may be settled under §§ 536.70 through 536.81. "Noncombat activities" are defined in § 536.3.

(c) *Subrogated claims.* Subrogated claims will be processed as prescribed in § 536.5(b).

(d) *Advance payments.* Advance payments in partial settlement of meritorious claims to alleviate immediate hardship are authorized as provided in § 536.13.

§ 536.74 Claims not payable.

The type of claims listed in § 536.24 as not payable are also not payable under §§ 536.70 through 536.81.

§ 536.75 Notification of incident.

Except where claims are regularly paid from State sources, for example, insurance, court of claims, legislative committee, etc., the appropriate adjutant general will ensure that each incident which may give rise to a claim cognizable under §§ 536.70 through 536.81 is reported immediately by the most expeditious means to the area claims office in whose geographic area the incident occurs or to a claims processing office designated by the area claims office. The report will contain the following information:

(a) Date of incident.

(b) Place of incident.

(c) Nature of incident.

(d) Names and organizations of ARNG personnel involved.

(e) Names of potential claimant(s).

(f) A brief description of any damage, loss, or destruction of private property, and any injuries or death of potential claimants.

§ 536.76 Claims in which there is a State source of recovery.

Where there is a remedy against the State, as a result of either waiver of sovereign immunity or where there is liability insurance coverage, the following procedures apply:

(a) Where the State is insured, direct contact with State or ARNG officials rather than the insurer is desirable. Regular procedures will be established and followed wherever possible. Such procedures should be agreed on by both local authorities and the appropriate claims authorities subject to concurrence by the Commander, USARCS. Such procedures will be designed to ensure that local authorities and U.S. authorities do not issue conflicting instructions for processing claims, and whenever possible and in accordance with governing local and Federal law, a mutual arrangement for disposition of such claims as in paragraph (c) of this section is worked out. Amounts recovered or recoverable by claimant from any insurer (other than claimant's insurer who has obtained no subrogated interest against the United States) will be deducted from the amount otherwise payable.

(b) If there is a remedy against the State or its insurer, the claimant may be advised of that remedy. If the payment by the State or its insurer does not fully compensate claimant, an additional payment may be made under §§ 536.70 through 536.81. If liability is clear and claimant settles with the State or its insurer for less than the maximum amount recoverable, the difference between the maximum amount recoverable from the State or its insurer and the settlement normally will be also deducted from the payment by the United States.

(c) If the State or its insurer desires to pay less than their maximum jurisdiction or policy limit on a basis of 50 percent or more of the actual value of the entire claim, any payment made by the United States must be made directly to the claimant. This can be accomplished by either having the United States pay the entire claim and have the State or its insurer reimburse its portion to the United States, or by having each party pay its agreed share directly to the claimant. If the State or its insurer desires to pay less than 50 percent of the actual value of the claim, the procedure set forth in paragraph (d) of this section will be followed.

(d) If there is a remedy against the State and the State refuses to make payment, or there is insurance coverage and the claimant has filed an administrative claim against the United States, forward file with a memorandum of opinion to the Commander, USARCS, including information as to the status of any judicial or administrative action the claimant has taken against the State or its insurer. The Commander, USARCS, will determine whether the claimant will be required to exhaust his remedy against the State or its insurer, or whether the claim against the United States can be settled without such requirement. If the Commander, USARCS, determines to follow the latter course of action, he will also determine whether an assignment of the claim against the State or its insurer will be obtained and whether recovery action will be taken. The State or its insurer will be given appropriate notification in accordance with State law necessary to obtain contribution of indemnification.

§ 536.77 Claims against the ARNG tortfeasor individually.

The procedures set forth in § 536.9(f) are applicable. With respect to claims arising before 29 December 1981, an ARNG driver acting pursuant to the authorities cited in § 536.73(a) is not protected by the provisions of the Drivers Act (28 U.S.C. 2670(b)) and the driver may be sued individually in State court. When this situation occurs, it should be monitored closely by ARNG authorities. If possible an early determination will be made as to whether any private insurance of the ARNG tortfeasor is applicable. Where such insurance is applicable and the claim against the United States is of doubtful validity, final actions will be withheld pending resolution of the demand against the ARNG tortfeasor. If, in the opinion of the claims approving or settlement authority, such insurance is applicable and the claim against the United States is payable in full or in a reduced amount, settlement efforts will be made either together with the insurer or singly by the United States. Any settlement will not include amounts recovered or recoverable as in § 536.9. If the insurance is not applicable, settlement or disapproval action will proceed without further delay.

§ 536.78 When claim must be presented.

A claim may be settled under §§ 536.70 through 536.81 only if presented in writing within 2 years after it accrues, except that if it accrues in time of war or armed conflict, or if war or armed conflict intervenes within 2 years after it accrues, and if good cause is shown, the claim may be presented not later than 2 years after war or armed conflict is terminated. As used in this section, a war or armed conflict is one in which any Armed Force of the United States is engaged. The dates of commencement and termination of an armed conflict must be established by concurrent resolution of Congress or by determination of the President.

§ 536.79 Where claim must be presented.

A claim must be presented to the appropriate Federal agency. Receipt of a written claim by any full time officer or employee of the National Guard will be considered receipt. However, the statute of limitations is tolled if a claim is filed with a State agency, the claim purports to be under the NGCA and it is forwarded to the Army within 6 months, or the claimant makes inquiry of the Army concerning the claim within 6 months. If a claim is received by a DA official who is not a claims approval or settlement authority, the claim will be transmitted without delay to the nearest approval or settlement authority.

§ 536.80 Procedures.

(a) The form of a claim under §§ 536.70 through 536.81 will be as described in § 536.5 (d) and (e).

(b) So far as they are not inconsistent with §§ 536.70 through 536.81, the guidance set forth in §§ 536.10 through 536.12 will be followed in processing a claim under §§ 536.70 through 536.81.

(c) The following provisions are applicable to claims under §§ 536.70 through 536.81 and are hereby incorporated by reference:

(1) § 536.28 (applicable law);

(2) § 536.29 (determination of quantum);

(3) § 536.31 (claims over $100,000);

(4) § 536.32 (settlement procedures);

(5) § 536.33 (attorney fees).

§ 536.81 Settlement agreement.

Procedures concerning settlement agreements will be in accordance with § 536.10, except that the agreement will be modified to include a State and its National Guard in most cases. A copy of the agreement will be furnished to State authorities and the individual tortfeasor.

Subpart D—Claims Incident to Use of Government Vehicles and Other Property of the United States Not Cognizable Under Other Law

§ 536.90 Statutory authority.

The statutory authority for §§ 536.90 through 536.97 is contained in the act of 9 October 1962 (76 Stat. 767, 10 U.S.C. 2737). This statute is commonly called the "Nonscope Claims Act." For the purposes of §§ 536.90 through 536.97, a Government installation is a facility having fixed boundaries owned or controlled by the Government, and a vehicle includes every description of carriage or other artificial contrivance used, or capable of being used, as a means of transportation on land (1 U.S.C. 4).

§ 536.91 Scope.

(a) Sections 536.90 through 536.97 prescribe the substantive bases and special procedural requirements for the administrative settlement and payment, in an amount not more than $1,000, of any claim against the United States not cognizable under any other provision of law for damage to or loss of property, or for personal injury or death, caused by military personnel or civilian employees of the DA or by civilian employees of the DoD incident to the use of a United States vehicle at any place or incident to the use of other United States property on a Government installation.

(b) Any claim in which there appears to be a disputed issue relating to whether the employee was acting within the scope of employment will be considered under §§ 536.20 through 536.35, 536.50, or 536.70 through 536.81 as applicable. Only when all parties, to include an insurer, agree that there is no "in scope" issue will §§ 536.90 through 536.97 be used.

§ 536.92 Claims payable.

(a) *General.* A claim for personal injury, death, or damage to or loss of property, real or personal, is payable under §§ 536.90 through 536.97 when

(1) Caused by the act or omission, negligent, wrongful, or otherwise involving fault, of military personnel of the DA or the ARNG, or civilian employees of the DA or the ARNG—

(i) Incident to the use of a vehicle of the United States at any place.

(ii) Incident to the use of any other property of the United States on a Government installation.

(2) The claim may not be settled under any other claims statute and claims regulation available to the DA for the administrative settlement of claims.

VOL 54 ISS 207 OCT 27 1989 UMI

(a) The claim has been determined to be meritorious, and the approval or settlement authority has obtained a settlement agreement in an amount not in excess of $1,000 in full satisfaction of the claim prior to approval of the claim for payment.

(b) *Personal injury or death.* A claim for personal injury or death is allowable only for the cost of reasonable medical, hospital, or burial expenses actually incurred and not otherwise furnished or paid by the United States.

(c) *Property loss or damage.* A claim for damage to or loss of property is allowable only for the cost of reasonable repairs or value at time of loss, whichever is less.

§ 536.93 Claims not payable.

A claim is not allowable under §§ 536.90 through 536.97 that—

(a) Results wholly or partly from the negligent or wrongful act of the claimant, his or her agent or employee. The doctrine of comparative negligence is not applicable.

(b) Is for medical, hospital, and burial expenses furnished or paid by the United States.

(c) Is for any element of damage pertaining to personal injuries or death other than provided in § 536.92(b). All other items of damage, for example, compensation for loss of earnings and services, diminution of earning capacity, anticipated medical expenses, physical disfigurement, and pain and suffering, are not payable.

(d) Is for loss of use of property or for the cost of a substitute property, for example, a rental.

(e) Is legally recoverable by the claimant under an indemnifying law or indemnity contract. If the claim is legally recoverable in part, that part recoverable by the claimant is not payable.

(f) Is a subrogated claim.

§ 536.94 When claim must be presented.

A claim may be settled under §§ 536.90 through 536.97 only if it is presented in writing within 2 years after it accrues.

§ 536.95 Procedures.

So far as not inconsistent with §§ 536.90 through 536.97, the procedures for the investigation and processing of claims contained in §§ 536.1 through 536.13 will be followed.

§ 536.96 Settlement agreement.

A claim may not be paid under §§ 536.90 through 536.97 unless the amount tendered is accepted by the claimant in full satisfaction. A settlement agreement (§ 536.10) is required before payment.

§ 536.97 Reconsideration.

(a) An approval or settlement authority may reconsider the quantum of a claim upon request of the claimant or someone acting in his behalf. In the absence of such a request, an approval or settlement authority may on his own initiative reconsider the quantum of a claim. Reconsideration may occur even in a claim which was previously disapproved in whole or in part (even though a settlement agreement has been executed) when it appears that his or her original action was incorrect in law or fact based on the evidence of record at the time of the action or subsequently received. If he or she determines that the original action was incorrect, he or she will modify the action and, if appropriate, make a supplemental payment. If the original action is determined correct, the claimant will be so notified. The basis for either action will be stated in a memorandum included in the file.

(b) An approval or settlement authority may reconsider the applicability of §§ 536.90 through 536.97 to a claim upon request of the claimant or someone acting in his behalf, or on his own initiative. Such reconsideration may occur even though all parties had previously agreed per § 536.91(b) when it appears that this agreement was incorrect in law or fact based on the evidence of record at the time of the agreement or subsequently received. If he or she determines the agreement to be incorrect, the claim will be reprocessed under the applicable sections of this regulation. If he or she determines the agreement to have been correct, that is, that §§ 536.90 through 536.97 are applicable, he or she will so advise the claimant. This advice will include reference to any appeal or judicial remedies available under the section which the claimant alleges the claim should be processed under.

(c) A successor or higher approval or settlement authority may also reconsider the original action on a claim as in paragraph (a) or (b) of this section, but only on the basis of fraud substantial new evidence, errors in calculation or mistake (misinterpretation) of law.

(d) A request for reconsideration should indicate fully the legal or factual basis asserted as grounds for relief.

Part III

Department of Defense

Department of the Army

32 CFR Part 537

Claims on Behalf of the United States; Final Rule

VOL 54 ISS 207 OCT 27 1989 UMI

DEPARTMENT OF DEFENSE

Department of the Army

32 CFR Part 537

Claims on Behalf of the United States

AGENCY: Department of the Army, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Army announces a change of the regulatory provisions controlling the processing and settlement of administrative claims filed in behalf of the Army. This change will inform third parties of the procedures controlling the processing and settlement of these administrative claims by the Army.

EFFECTIVE DATE: November 27, 1989.

FOR FURTHER INFORMATION CONTACT: Mr. James A. Mounts, Jr., Deputy Director, U.S. Army Claims Service, Office of The Judge Advocate General, Fort Meade, Maryland 20755–5360, (301) 677–7622.

SUPPLEMENTARY INFORMATION: The change to Part 537 reflects some procedural changes in the management of affirmative claims.

Executive Order 12291

This final rule has been reviewed under Executive Order 12291 and the Secretary of the Army has classified this action as non-major. The effect of the final rule on the economy will be less than $100 million.

Regulatory Flexibility Act

This final rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 and the Secretary of the Army has certified that this action does not have a significant impact on a substantial number of small entities.

Paperwork Reduction Act

This final rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget under the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

List of Subjects in 32 CFR Part 537

Claims, Foreign claims, Tort claims.

Dated: October 11, 1989.

Jack F. Lane, Jr.,

Commanding, United States Army Claims Service, Office of The Judge Advocate General.

Part 537 is revised to read as follows:

PART 537—CLAIMS ON BEHALF OF THE UNITED STATES

Subpart A—Claims for Damage to or Loss or Destruction of Army (DA) Property

Sec.

537.1 General.
537.2 Recovery of property unlawfully detained by civilians.
537.6 Maritime casualties; claims in favor of the United States.
537.7 Maritime claims.

Subpart B—Claims for the Reasonable Value of Medical Care Furnished by the Army

537.21 General.
537.22 Basic considerations.
537.23 Predemand procedures.
537.24 Post demand procedures.

Authority: 10 U.S.C. 3012; sections 537.21 through 537.24 issued under 42 U.S.C. 2651–2653;

Subpart A—Claims for Damage to or Loss or Destruction of Army (DA) Property

§ 537.1 General.

(a) *Purpose.* This section prescribes, within the limitations indicated in AR 27–20 (AR 27–20 and other Army Regulations referenced herein are available thru: National Technical Information Services, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161), and in paragraph (b) of this section, the procedures for the investigation, determination, assertion, and collection, including compromise and termination of collection action, of claims in favor of the United States for damage to or loss or destruction of Department of the Army (DA) property.

(b) *Applicability and scope.* (1) Other regulations establish systems of property accountability and responsibility; prescribe procedures for the investigation of loss, damage, or destruction by causes other than fair wear and tear in the service; and provide for the administrative collection of charges against military and civilian personnel of the United States, contractors and common carriers, and other individuals and legal entities from whom collection may be made without litigation. When the investigation so prescribed results in preliminary indication of pecuniary liability, and no other method of collection is provided, the matter is referred for action under this section. This relationship exists with regard to—

(i) Property under the control of the DA.

(ii) Property of the Defense Logistics Agency in the custody of the DA.

(iii) Property of nonappropriated funds of the DA (except Army and Air Force Exchange Service property unless a special agreement exists). See AR 215–1 and AR 215–2.

(iv) Federal property made available to the Army National Guard (ARNG).

(2) This section does not apply to—

(i) Claims arising from marine casualties.

(ii) Claims for damage to property funded by civil functions appropriations.

(iii) Claims for damage to property of the DA and Air Force Exchange Service.

(iv) Reimbursements from agencies and instrumentalities of the United States for damage to property.

(v) Collection for damage to property by offset against the pay of employees of the United States, or against amounts owed by the United States to common carriers, contractors, and States.

(vi) Claims by the United States against carriers, warehousemen, insurers, and other third parties for amounts paid in settlement of claims by members and employees of the Army, or the Department of Defense (DOD), for loss, damage, or destruction of personal property while in transit or storage at Government expense.

(3) The commander of a major overseas command, as defined in paragraph (c)(5) of this section, is authorized to establish procedures for the processing of claims in favor of the United States for loss, damage, or destruction of property which may, to the extent deemed necessary, modify the procedures prescribed herein. Two copies of all implementing directives will be furnished Commander, U.S. Army Claims Service (USARCS). Procedures will be prescribed—

(i) To carry out the provisions of DOD Directive No. 5515.8, assigning single service claims responsibility.

(ii) To carry out provisions of treaties and other international agreements which limit or provide special methods for the recovery of claims in favor of the United States.

(c) *Definitions.* For the purpose of this section only, the following terms have the meaning indicated:

(1) *Claim.* The Government's right to compensation for damage caused to Army property.

(2) *Prospective defendant.* An individual, partnership, association, corporation, governmental body, or other legal entity, foreign or domestic, except an instrumentality of the United States, against whom the United States has a claim.

(3) *Damage.* A comprehensive term, including not only damage to, but also loss or destruction of Army property.

(4) *DA property.* Real or personal property of the United States or its instrumentalities and, if the United States is responsible therefor, real or personal property of a foreign government, which is in the possession or under the control of the DA, one of its instrumentalities, or the ARNG, including that property of an activity for which the Army has been designated the administrative agency, and that property located in an area in which the Army has been assigned single service claims responsibility by appropriate DOD directive.

(5) *Major overseas command.* U.S. Army Europe; U.S. Army Forces Southern Command; Eighth U.S. Army, Korea; Western Command; and any command outside the continental limits of the contiguous States specially designated by The Judge Advocate General (TJAG) under the provisions of AR 27–20.

(6) *Area Claims Office.* The principal office for the investigation, assertion, adjudication and settlement of claims, staffed with qualified legal personnel under the supervision of a Staff Judge Advocate (SJA) or Command Judge Advocate or Corps of Engineers district or Command Legal Counsel under provisions of AR 27–20.

(7) *Recovery judge advocate (RJA).* A JAGC officer or legal adviser responsible for assertion and collection of claims in favor of the United States for medical expenses and property damage.

(d) *Limitation of time.* The Act of July 18, 1966 (80 Stat. 304, 28 U.S.C. 2415) established a 3-year statute of limitations, effective July 19, 1966, upon actions in favor of the United States for money damages founded upon a tort. In computing periods of time excluded under 28 U.S.C. 2416, the RJA concerned shall be deemed the official charged with responsibility and will ensure that action may be brought in the name of the United States within the limitation period.

(e) *Foreign prospective defendants.* Except as indicated below, claims within the scope of this section against foreign prospective defendants will be investigated, processed, and asserted without regard to the nationality of the prospective defendant. Claims against an international organization, a foreign government or a political subdivision, agency, or instrumentality thereof, or against a member of the armed forces or an official or civilian employee of such international organization or foreign government, will not be asserted without prior approval of TJAG. Investigation and report thereof, together with recommendations regarding assertion and enforcement, will be forwarded through command channels to Commander, USARCS, unless the provisions of applicable agreements, or regulations in implementation thereof, negate the requirement for such investigation and report.

(f) *Standards of liability.* (1) The Government's right to compensation for damage caused to Army property will be determined in accordance with the law of the place in which the damage occurred, unless other law may properly be applied under conflict of law rules.

(2) To the extent that the prospective defendant's liability is covered by insurance, liability will be determined without regard to standards of pecuniary liability set forth in other regulations. If no insurance is available, claims will be asserted under this section against military and civilian employees of the United States and of host foreign governments only where necessary to complete the collection of charges imposed upon such persons under the standards established by other regulations.

(g) *Concurrent claims under other regulations.* (1) Claims for damage to DA property and claims for medical care cognizable under §§ 537.21 through 537.24 arising from the same incident will be processed under the sections applicable to each.

(2) If the incident giving rise to a claim in favor of the United States also gives rise to a potential claim or suit against the United States, the claim in favor of the Government will be asserted and otherwise processed only by an RJA who has apparent authority to take final action on the claim against the Government.

(h) *Repayment in kind.* The RJA who asserts a claim under this section may accept, in lieu of full payment of the claim, the restoration of the property to its condition prior to the incident causing the damage, or the replacement thereof. Acceptability of these methods of repayment is conditioned upon the certification of the appropriate staff officer responsible for maintenance, such as is described for motor vehicles in AR 735–5, before a release may be executed. The authority conferred by this paragraph is not limited to incidents involving motor vehicles.

(i) *Delegation of authority.* Subject to the provisions of paragraph (k) of this section, the authority conferred by AR 27–20, to compromise claims and to terminate collection action, with respect to claims that do not exceed $20,000, exclusive of interest, penalties and administrative fees, is further delegated as follows:

(1) An Area Claims Office, as defined in paragraph (c)(6) of this section, is authorized to:

(i) Compromise claims, provided the compromise does not reduce the claim by more than $10,000.

(ii) Terminate collection action, provided the uncollected amount of claim does not exceed $10,000.

(2) The SJA, or if so designated, the chief of the Command Claims Service of a major overseas command, as defined in paragraph (c)(5) of this section, is authorized to:

(i) Compromise claims, not over $20,000 without monetary limitations.

(ii) Terminate collection action, provided the uncollected amount of the claim does not exceed $20,000.

(j) *Compromise and termination of collection action.* (1) The authority delegated in paragraph (j) of this section to compromise claims will be exercised in accordance with the standards set forth in 4 CFR part 104.

(2) The authority delegated in paragraph (j) of this section to terminate collection action will be exercised in accordance with the standards set forth in 4 CFR part 104.

(3) A debtor's liability to the United States arising from a particular incident shall be considered as a single claim in determining whether the claim is not more than $20,000, exclusive of interest, penalties and administrative fees for the purpose of compromise, or termination of collection action.

(4) Only the Department of Justice may approve claims involving:

(i) Compromise or waiver of a claim asserted for more than $20,000 exclusive of interest, penalties and administrative fees.

(ii) Settlement actions previously referred to the Department.

(iii) Settlement where a third party files suit against the United States or the individual federal tortfeaser arising but of the same incident.

(k) *Releases.* The RJA who receives payment of the claim in full, or who receives full satisfaction of an approved compromise settlement, is authorized to execute a release. A standard form furnished by the prospective defendant or his insurer may be executed, provided no indemnity agreement is included.

(1) *Receipts.* The RJA may execute and deliver to a prospective defendant a receipt for payment in full, installment payment or an offered compromise payment, subject to approval of the SJA. DA Form 2135–R (Receipt for Payment for Damage to or Loss of Government Property) be used.

VOL 54 ISS 207 OCT 27 1989 UMI

§ 537.2 Recovery of property unlawfully detained by civilians.

Whenever information is received that any property belonging to the military service of the United States is unlawfully in the possession of any person not in the military service, the procedures contained in AR 735–11, Para. 3–15, Unit Supply UPDATE 10, should be followed.

§ 537.6 Maritime casualties; claims in favor of the United States.

See 32 CFR 536.60, which covers claims on behalf of the United States as well as claims against the United States.

§ 537.7 Maritime claims.

(a) *Statutory authority.* Administrative settlement or compromise of admiralty and maritime claims in favor of and against the United States by the Secretary of the Army or his designee, under the direction of the Secretary of Defense, is authorized by Army Maritime Claims Settlement Act of 1956 (70A Stat. 270), as amended (10 U.S.C. 4801–4804, 4806).

(b) *Related statutes.* This statute authorizes the administrative settlement or compromise of maritime claims and supplements the following statutes under which suits in admiralty may be brought; the Suits in Admiralty Act of 1920 (41 Stat. 525, 46 U.S.C. 741–752); the Public Vessels Act of 1925 (43 Stat. 1112, 46 U.S.C. 781–790); the Extention of the Admiralty Act of 1948 (62 Stat. 496, 46 U.S.C. 740). Similar maritime claims settlement authority is exercised by the Department of the Navy under title 10, United States Code (U.S.C.), sections 7365, 7621–7623, and by the Department of the Air Force under 10 U.S.C. 9801 through 9804, 9806.

(c) *Scope.* (1) Section 4803 of title 10, U.S.C., provides for the settlement or compromise of claims of a kind that are within the admiralty jurisdiction of a district court of the United States and of claims for damage caused by a vessel or floating object to property under the jurisdiction of the DA or property for which the Department has assumed an obligation to respond in damages, where the net amount payable to the United States does not exceed $500,000.

(2) Section 4804 of title 10, U.S.C., for the settlement or compromise of claims in any amount for salvage services (including contract salvage and towage) performed by the DA for any vessel. The amounts of claims for salvage services are based upon per diem rates for the use of salvage vessels and other equipment; and materials and equipment damaged or lost during the salvage operation. The sum claimed is intended to compensate the United States for operational costs only, reserving, however, the right of the Government to assert a claim on a salvage bonus basis, in accordance with commercial practice, in an appropriate case.

(d) *Amounts exceeding $500,000.* Maritime claims in favor of the United States, except claims for salvage services, may not be settled or compromised under this section at a net amount exceeding $500,000 payable to the United States. However, all such claims otherwise within the scope of this section will be investigated and reported to the Commander, USARCS.

(e) *Civil works activities.* Rights of the United States to fines, penalties, forfeitures, or other special remedies in connection with the protection of navigable waters, the control and improvement of rivers and harbors, flood control, and other functions of the Corps of Engineers involving civil works activities, are not dealt with in this section. However, claims for money damages which are civil in nature, arising out of civil works activities of the Corps of Engineers and otherwise under this section, for which an adequate remedy is not available to the Chief of Engineers, may be processed under this section.

(f) *Delegation of authority.* Where the amount to be received by the United States is not more than $10,000, claims under this section, except claims for salvage services, paragraph (c)(2) of this section, may be settled or compromised by the Commander, USARCS, or designee, subject to such limitations as may be imposed by the Commander, USARCS and by engineer area claims offices, subject to such limitations as may be imposed by the Chief of Engineers.

(g) *Demands.* Demand for the payment of claims in favor of the United States under this section may be made by the Commander, USARCS, or designee.

Subpart B—Claims for the Reasonable Value of Medical Care Furnished by the Army

§ 537.21 General.

(a) *Authority.* The regulations in §§ 537.21 through 537.24 are in implementation of the Act of September 25, 1962 (76 Stat. 593, 42 U.S.C. 2651–3), Executive Order Number 11060 (27 FR 10925), and Attorney General's Order Number 289–62, as amended (28 CFR part 43), providing for the recovery of the reasonable value of medical care furnished or to be furnished by the United States to a person on account of injury or disease incurred after December 31, 1962, under circumstances creating a tort liability upon some third person.

(b) *Applicability and scope.* (1) Sections 537.21 through 537.24 apply to all claims for the reasonable value of medical services furnished by or at the expense of the Army which result from incidents occurring on or after March 1, 1969. Cases which arise from incidents occurring prior to that date:

(i) And which are the responsibility of an SJA or JA who is designated an RJA will be processed under §§ 537.21 through 537.24;

(ii) And which are the responsibility of an SJA or JA not so designated will be processed under the predecessor regulation until either completed or transferred.

(2) The procedures prescribed herein are to be employed within the DA for the investigation, determination, assertion, and collection, including compromise and waiver, in whole or in part, of claims in favor of the United States for the reasonable value of medical services furnished by or at the expense of DA. TJAG provides general supervision and control of the investigation and assertion of claims arising under the Federal Medical Care Recovery Act.

(3) In Continental U.S., Army SJA's and RJA's will be assigned responsibility under §§ 537.21 through 537.24 on a geographical area basis.

(4) The commander of any major overseas command specified in paragraph (c)(5) of this section is authorized to modify the procedures prescribed herein to accommodate any special circumstances which may exist in the command.

(5) Claims for medical care furnished by the DA on a reimbursable basis (see table 1, AR 40–3) ordinarily will be forwarded for processing directly to the Federal department or agency responsible for reimbursement.

(c) *Definitions.* For the purpose of §§ 537.21 through 537.24 only, the following terms have the meaning indicated.

(1) *Claim.* The Government's right to recover from a prospective defendant the reasonable value of medical care furnished to each injured party.

(2) *Medical care.* Includes hospitalization, out-patient treatment, dental care, nursing service, drugs, and other adjuncts such as prostheses and medical appliances furnished by or at the expense of the United States.

(3) *Injured party.* The person who received an injury or contracted a disease which resulted in the medical care. Such person may be an active duty or retired member, a dependent, or any other person who is eligible for medical care at DA expense. See section III, AR 40–3, and §§ 577.60 through 577.71 of this chapter.

(4) *Prospective defendant.* A person other than the injured party. An individual partnership, association, corporation, governmental body, or other legal entity, foreign or domestic, against whom the United States has a claim.

(5) *Major overseas command.* U.S. Army Forces Southern Command; the U.S. Army, Europe; Eighth U.S. Army, Korea; Western Command; and any command outside the continental limits of the contiguous states specially designated by TJAG under the provisions of AR 27–20.

(6) *Recovery judge advocate.* A JAGC officer or legal adviser responsible for assertion and collection of claims in favor of the United States for medical expenses.

§ 537.22 Basic considerations.

(a) *The right of recovery—(1) Applicable law.* The right of the United States to recover the reasonable value of medical care furnished or to be furnished an injured party is based on the Federal Medical Care Recovery Act. It accrues simultaneously with the accrual of the injured party's right to recover damages from the prospective defendant but is independent of any claim which the injured person may have against the prospective defendant. Recovery is allowed only if the injury or diseases resulted from circumstances creating a tort liability under the law of the place where the injury occurred.

(2) *Time limitation.* The Act of 18 July 1966 (28 U.S.C. 2415 et seq.) establishes a 3-year statute of limitation upon actions in favor of the United States for money damages founded upon a tort. The RJA will take appropriate steps within the limitation period to assure that necessary legal action is not barred by the statute.

(3) *Amount.* The Government's right of recovery is limited to amounts expended or to be expended by the United States for medical care from other than Federal sources, and to amounts determined by the rates established by the Office of Management and Budget for medical care from Federal sources, less any amounts reimbursed by the injured party.

(b) *Certain prospective defendants—(1) U.S. Government agencies.* No claim will be asserted against any department, agency, or instrumentality of the United States.

(2) *U.S. personnel.* Claims against a member of the uniformed services; or an employee of the United States, its agencies or instrumentalities; or a dependent of a service member or an employee will not be asserted unless the prospective defendant has the benefit of liability insurance coverage or was guilty of gross negligence or willful misconduct. If simple negligence occurring in the scope of a member's or employee's employment is the basis of the claim, no claim will be asserted if such claim is excluded from the coverage of the liability insurance policy involved. No claim, in the absence of specific statutory authorization, will be made directly against a member or employee, or his or her dependents for injuries sustained to himself or herself through acts of simple negligence, gross negligence, or willful misconduct.

(3) *Government contractors.* Claims, the cost or expense of which may be reimbursable by the United States under the terms of a contract, will not be asserted against a contractor without the prior approval of USARCS. Such claims will be investigated and the report thereof, which will include citation to the specific contract clauses involved and recommendations regarding assertion will be forwarded through command channels to Commander, USARCS.

(4) *Foreign persons.* Claims within the scope of §§ 537.21 through 537.24 against foreign prospective defendants will be investigated, processed, and asserted without regard to the nationality of the prospective defendant, unless such action is precluded by treaty or international agreement. Claims against an international organization, or foreign government, will be investigated and reports thereof, together with recommendations regarding assertion and enforcement, will be forwarded through command channels to Commander, USARCS.

(5) *National Guard Members.* Claims arising from the tortious conduct of NG members will be investigated and if assertion appears appropriate, a recommendation shall be made to Commander, USARCS.

(c) *Concurrent claims under other regulations—(1) Section 537.1.* Claims for medical care and claims for damage to DA property arising from the same incident will be processed by the RJA in accordance with § 537.1(g). If an RJA lacks settlement authority sufficient to settle a concurrent claim under § 537.1, he may request additional authority under that section from the appropriate major overseas command SJA or area claims authority, who may delegate such additional authority in an amount not exceeding his own settlement authority. Where time is of the essence, telephonic delegations of authority are encouraged, provided they are confirmed in a writing which will be made a part of the case file.

(2) *Counterclaims.* Claims for medical care and claims against the United States which arise from the same incident will be processed by the RJA in accordance with § 537.1(g)(2). If an RJA lacks authority sufficient to settle the claim against the Government, he will coordinate his action with that claims echelon which has the necessary authority to settle the particular claim against the United States.

§ 537.23 Predemand procedures.

(a) *Relations with the injured party—(1) Advice.* The injured party, or, in appropriate cases, his guardian, next-of-kin, personal representative, or the executor or administrator of his estate, will be advised of the following:

(i) That under the Act of September 25, 1962 (76 Stat. 593, 42 U.S.C. 2651–3, the United States may be entitled to recover the reasonable value of medical care furnished or to be furnished him in the future from the person or persons who injured him, or who were otherwise responsible for his injury or disease; and

(ii) That if he is otherwise entitled to legal assistance under AR 27–3, he should seek guidance from a legal assistance officer regarding any claim he may have for personal injury; and

(iii) That he is required to cooperate in the prosecution of all actions of the United States against the person or persons who injured him; and

(iv) That he is required to furnish a complete statement regarding the facts and circumstances surrounding the incident which resulted in the injury or disease; and

(v) That he is required to furnish information concerning any legal action brought or to be brought by or against the prospective defendant, or to furnish the name and address of the attorney representing him; and

(vi) That he should not execute a release or settle any claim which he may have as a result of his injury without first notifying the RJA.

(2) *Statement.* A written statement will be obtained from the injured party, or his representative, in which he acknowledges receipt of the advice in paragraph (a)(1) of this section, and provides the information required by paragraphs (a)(1) (iv) and (v) of this section. If the injured party or representative fails or refuses to furnish necessary information or cooperation, the originator of the notification of potential claims may be requested to withhold records as to medical history, diagnoses, findings, and treatment, from

VOL 54 ISS 207 OCT 27 1989 UMI

the injured party or anyone acting on his behalf pending compliance with the requirements in paragraph (a)(1) of this section. Mere refusal by the injured party or his representative to include the Government's claim in his claim is not sufficient basis, by itself, for this action.

(b) *Determination and assertion*—(1) *Liability.* The RJA will review all the evidence including any claims officer's report of investigation and, after assuring completeness of the file, will make a written determination as to the liability of the prospective defendant and note his reasons for such determination.

(2) *Value.* If the RJA determines that the prospective defendant is liable, he will also ascertain the reasonable value of medical care furnished or to be furnished to the injured party, in accordance with § 537.22(a)(3) and rates established by the Office of Management and Budget. When a military member has been retained in a military hospital for administrative reasons, or where the patient was absent from the hospital or was in a purely convalescent status, the amount of the claim will be recomputed to apply the outpatient rate, if under circumstances warranting only outpatient treatment in a civilian hospital or eliminate such periods altogether if the injured party received no treatment during those periods. In making these determinations the RJA will coordinate with the registrar or other responsible official of the hospital or medical unit in his area of responsibility.

(3) *Amount.* In the event of doubt concerning the extent of medical care furnished or to be furnished an injured party, the RJA will assert the claim in an indefinite amount. Demand will be made in a definite amount at the earliest possible date, based on an estimate of a reasonable value of medical care to be furnished, if appropriate. The RJA will assure that the file contains complete statements of the value of medical care furnished, including all charges by civilian physicians, medical technicians and civilian hospitals.

§ 537.24 Post demand procedures.

(a) *Coordination with the injured party's claim.* (1) Every effort will be made to coordinate action to collect the claim of the United States with the injured party's action to collect his own claim for damages, in order that the injured party's recovery for his damages, other than the reasonable value of medical care furnished or to be furnished by the United States, is not prejudiced by the Government's claim.

(2) Attorneys representing an injured party may be authorized to assert the claim on behalf of the government as an item of special damages with the injured party's claim or suit except where prohibited by law. Any agreement to this effect will be in writing, and the agreement should expressly recognize the fact that counsel fees may be neither paid by the Government (5 U.S.C. 3106) nor computed on the basis of the Government's portion of the recovery. The agreement must also require the Government's permission to settle its claim.

(3) If the injured party, denies or his attorney or legal representative, fails or refuses to cooperate in the prosecution of the claim of the United States, independent collection action will be vigorously pursued.

(b) *Independent collection action.* Unless suit between the injured party and the prospective defendant is pending, all available administrative collection procedures will be followed prior to reference of the claim to the Department of Justice under paragraph (e) of this section. Direct contact with the prospective defendant's insurer, if known, is desirable. If the prospective defendant is an uninsured motorist, timely and appropriate action will be taken to collect the claim, or to request suspension of driving and registration privileges under the applicable uninsured motorist fund statute, or to seek compensation from the victim's insurer, or otherwise under financial responsibility laws.

(c) *Delegation of authority.* Subject to the provisions of paragraphs (d) and (e) of this section, authority to compromise or waive, in whole or in part, claims of the United States not in excess of $40,000 exclusive of interest penalties and administrative fees is delegated as follows. The Area Claims Office as defined in paragraph (c)(6) of section 537.1 is authorized to:

(1) Compromise claims, provided the compromise does not reduce the claim by more than $15,000 in any claim not asserted for more than $25,000; and

(2) Waive claims for the convenience of the Government (but not on account of undue hardship upon the injured party) provided the uncollected amount of the claim does not exceed $15,000 in any claim not asserted for more than $25,000; and

(3) Redelegation in an amount not to exceed $5,000 compromise authority to any claim processing office with approval authority is permitted.

(d) *Compromise and waiver of claims*—(1) *General.* A debtor's liability to the United States arising from a particular incident will be considered as a single claim in determining whether the claim is not more than $40,000, for the purpose of compromise or waiver. Claims not resolved within the delegation of authority stated in this section or referred to the Department of Justice, will be forwarded to Commander, USARCS. A claim file forwarded to higher authority will contain a memorandum of opinion supported by necessary exhibits.

(2) *Compromise.* (i) The authority delegated in paragraph (c) of this section to compromise claims will be exercised in accordance with standards set forth in 4 CFR 103. When available funds are insufficient to satisfy both the claim of the United States and that of the injured party, the claim of the United States will be compromised to the extent required to achieve an equitable apportionment of the available funds.

(ii) If appropriate, a request by the injured party or his attorney for waiver on the ground of undue hardship may be treated initially as a suggestion for compromise with the tortfeasor, and the compromised amount of the claim of the United States will be determined. In such cases, RJA's may make offers of compromise within their delegated authority. RJA's may also make counteroffers within their delegated authority to offers of compromise beyond their delegated authority. If settlement within the limits of delegated authority is not achieved, the claim will be referred to higher authority.

(iii) When time is a factor, SJA or major overseas command staff JA's may make telephonic delegation within their compromise authority on a case by case basis. When such verbal delegations are made, they will be confirmed in writing and the writing included in the case file.

(3) *Waiver.* (i) The authority delegated in paragraph (c) of this section to waive claims for the convenience of the Government will be exercised in accordance with standards set forth in 4 CFR part 103.

(ii) If the injured party or his attorney requests waiver of the full or any compromised amount of the claim on the ground of undue hardship, and the request may not be appropriately treated under paragraph (d)(2)(ii) of this section, the file will be forwarded to appropriate major overseas command claims authority or Commander, USARCS. For the purpose of evaluation of the request for waiver, the file will include detailed information concerning the reasonable value of the injured party's claim for permanent injury, pain and suffering, decreasing earning power, and other items of special damages,

pension rights, and other Government benefits accruing to the injured party; and the present and prospective assets, income, and obligations of the injured party, and those dependent on him.

(iii) In the event an affirmative determination is made by TJAG that, as a result of the collection of the Government's claim the injured party has suffered an undue hardship, the RJA will be authorized to direct issuance of the amount waived to the injured party.

(4) A file forwarded to higher authority for waiver of compromise consideration will contain a memorandum by the RJA giving his assessment of the case and his recommendation with regard to the approval or denial of the requested compromise or waiver.

(e) *Only the Department of Justice may approve claims involving.* (1) compromise or waiver of a claim asserted for more than $40,000 exclusive of interest, penalties or administrative fees,

(2) Settlement actions previously referred to the Department,

(3) Settlement where a third party files suit against the United States on the injured party arising out of the same incident.

[Docket No. 24995; Amdt. Nos. 25-70, 121-209, 135-34]

RIN 2120-AB77

Independent Power Source for Public Address System in Transport Category Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments to the airworthiness standards for transport category airplanes and the operating rules for air carrier and air taxi operators of such airplanes ensure the availability of the public address (PA) system during emergency conditions by requiring an independent PA system power source. They are intended to increase airplane safety by facilitating the rapid evacuation of passengers under such conditions. These amendments are applicable to airplanes that are required to have a PA system for use in air carrier, air taxi, or commercial service and that are manufactured on or after a specified date, regardless of the date of application for type certificate. These amendments do not apply to airplanes operated by persons other than air carriers, air taxis, and commercial operators.

EFFECTIVE DATE: November 27, 1989.

FOR FURTHER INFORMATION CONTACT: Robert F. Hall, FAA, Flight Test and Systems Branch, ANM-111, Transport Airplane Directorate, Aircraft Certification Service, 17900 Pacific Highway South, C-68966, Seattle, WA. 98168; telephone: (206) 431-2143.

SUPPLEMENTARY INFORMATION:

Background

These amendments are based on Notice of Proposed Rulemaking (NPRM) No. 86-5 (51 FR 19140; May 27, 1986), and a correction notice published June 13, 1986 (51 FR 21563). Notice 86-5 proposed, in part, an amendment to part 25 to specify that any public address (PA) system which is required for use in air carrier or air taxi service must be powered by a source that is: (1) Independent of engine and auxiliary power unit (APU) operation, the forward motion of the airplane, and all normal means used by the flightcrew for power source disconnection; and (2) capable of powering the PA system for at least 10 minutes, including an aggregate time duration of at least 5 minutes of announcements made by flight and cabin crewmembers. In determining this capability, all loads which may remain powered by the same source when all other power sources become inoperative would have to be considered. In addition, if the same source is required for emergency power for loads essential to safety of flight or required during emergency conditions, it would also have to be capable of powering the added PA system load for an additional time duration that is appropriate or required for those essential or emergency loads. The proposed rule provided that in all cases the PA system load would be considered as that which exists during its standby state, except for an aggregate time duration of at least 5 minutes of announcements.

Notice 86-5 also proposed to amend § 25.1411(a)(2) to clarify that the PA system microphone accessibility requirement is applicable only when a PA system is required by this chapter.

In addition, Notice 86-5 proposed an amendment to § 121.318 which would incorporate the provisions of the proposed amendment to part 25 by reference and thereby require certain airplanes used in air carrier service to comply with the new standards of part 25 if they are manufactured a year or more after the effective date of the amendment. Because § 135.149(d) incorporates the provisions of § 121.318 by reference, the proposed new standards would be applicable to certain airplanes used in air taxi service as well, if they are manufactured on or after the same date.

The proposed new § 25.1423, in which the new standards would be contained, would allow innovation in providing an acceptable power source; however, as a matter of practicality, the normal airplane battery or another battery would most likely be used.

In regard to the new § 25.1423, as proposed, the notice explained that: (1) The expression "all normal means used by the flightcrew for power source disconnection" means all switches or like devices provided for that purpose, including, but not necessarily limited to, the generator, APU, and battery switches; (2) the use of this expression does not establish any requirements pertaining to the disconnection or connection of loads, however accomplished; (3) the deactivation of circuit breakers is not considered to be a normal means used for power source disconnection; and (4) the expression "standby state" means that condition during which power for making announcements is provided to the PA system but announcements are not being made.

The notice further explained that: (1) Power dependent on engine or APU operation would not be acceptable because the engines and APU would not be operating on the ground during many emergency conditions; (2) power dependent on the forward motion of the airplane, which might be provided by a ram air turbine, would not be acceptable because it would not be available on the ground during either normal or emergency conditions; (3) the proposal would not affect the capability of the flightcrew to disconnect the PA system by using its electrical switch or circuit breaker(s) either to clear electrical faults and protect the airplane and occupants against smoke or fires in the PA system (or its wiring) or to conserve the PA system's power source capacity for other loads powered by the same source that are essential to safety of flight or of higher priority during emergency conditions; and (4) the megaphones presently required by § 121.309(f) could not serve as an adequate means of communication. Sections 121.318(b)(1) and 135.149(d), by reference, require the means of communication to be accessible for immediate use from each of two flight crewmember stations in the pilot compartment. As further explained in the notice, such use of the megaphones by the flightcrew is not considered feasible in view of the high workload during emergency conditions, the directionality of megaphone output relative to the flightcrew's forward location and forward-facing position, and the fact that the flight compartment door is normally locked.

The notice expressly requested comments on the proposed time duration for announcements of at least 5 minutes, and on the possible need for operational procedures or flight or cabin crew training to prevent undisciplined use of the PA system during emergency conditions which could result in a hazardous, premature depletion of its power source capacity.

Discussion of Comments

One commenter states that these proposed amendments should be considered as part of a total package of proposals involving crashworthiness that the FAA has under study, which includes a proposal to require "push-to-talk" switches for PA system handset microphones and a possible draft advisory circular pertaining to PA system training and the use of megaphones. The FAA disagrees. Because those other proposals are wholly or largely unrelated to the PA

system power source, there would be no significant cost advantage in complying with those proposed standards, should they be adopted, at the same time. Furthermore, combining these proposed amendments with other proposals currently under consideration would unduly delay the safety benefits expected to result from this proposal.

Several commenters question whether or not the proposed amendments would actually result in an increase in emergency cabin evacuation safety. One commenter states that the FAA had provided no quantitative measure of safety improvement, based on demonstrated service experience showing that fatalities or injuries had occurred specifically because a required PA system was not operable during an emergency condition, and that the qualitative justification "lacks persuasiveness." In contrast, other commenters, including the National Transportation Safety Board (NTSB), support the FAA's position that an operable PA system would provide a definite increase in safety. The FAA concurs that the available quantitative data are limited; however, none of the commenters provided convincing reasons as to why this increase in safety would not be realized.

Several commenters state that the portable megaphones required by § 121.309(f) are the primary means for directing emergency evacuations in airplanes operated in air carrier service, and that the proposed amendments are, therefore, unnecessary. The FAA does not concur that megaphones are the primary means for directing evacuations nor that, for reasons stated above in the Background Section, they could serve as adequate means of communication in the event the PA system is disabled. The FAA also notes that portable megaphones may not even be aboard some airplanes operated in air taxi service, because they are not required for those airplanes.

Several commenters express a desire for this proposal to be applied retroactively to existing airplanes. Conversely, other commenters express their concern that the adoption of the proposed amendments would lead to later proposals to apply them retroactively. While a retroactive requirement would be beyond the scope of Notice 86-5 and could not be considered at this time, it must be noted that the FAA did propose a retroactive requirement in Notice 61-1 (46 FR 5457; January 19, 1961). That proposal was later withdrawn because comments showed that it would not be cost-effective. In the absence of any recent information to the contrary, the FAA currently has no plans to again propose a retroactive requirement.

Several commenters object to the proposed amendments, stating that their adoption would result in a mixed fleet, with some airplanes having an independent PA system power source and some not, and that this would cause confusion among flight and cabin crewmembers. They further state that such confusion could cause a hazard if crewmembers were to assume that their announcements would be heard by the passengers, in the mistaken belief that the airplane had an independent power source when, in fact, it did not. The FAA does not concur that such confusion would occur. It is noted that operation with a mixed fleet began around 1965 when a major manufacturer began providing battery power capability to the PA systems in all its large transport airplanes in production at that time, and continued providing it in all such airplanes produced later under amended or new type certificates. The FAA is not aware that any problems occurred during or after the introduction of airplanes with independent power sources for the PA systems.

Several commenters state that if a battery required for emergency power for loads essential to safety of flight or required during emergency conditions were also used as the PA system power source, then discipline must be ensured over the use of the PA system by including appropriate information in the crew operations manual and providing appropriate training to crewmembers. The FAA concurs that such information and training are necessary; however, each operator is required under §§ 121.135(a)(1), 121.417, 135.63(a)(2), and 135.331 to ensure that the crew operations manuals or checklists do include necessary information on the PA system power source, and that flight and cabin crewmembers are adequately trained in emergency procedures. Furthermore, FAA personnel ensure that all affected air carrier and air taxi operators provide all the necessary crew information and training.

In the situation where a battery required for emergency power for loads essential to safety of flight or required during emergency conditions would also be used as the PA system power source, one commenter states that the likelihood that a larger battery capacity would be needed for certain airplanes would be reduced by flight and cabin crew operational procedures and training on disciplined use of the PA system. The FAA concurs; however, the FAA estimates that the proposed amendment would result in a relatively small increase in battery "energy" depletion of approximately 3 ampere-hours. Therefore, the FAA considers that batteries of larger capacity would be required for few, if any, airplanes.

Several commenters state that if a battery required for emergency power for loads essential to safety of flight or required during emergency conditions were also used as the PA system power source, the PA system should not be required to remain operative after disconnecting the battery with its switch, because this design could result in partial or complete battery discharge while the airplane is parked and possibly at other times. According to the commenters, this would be a hazard in itself and would cause unnecessary and expensive battery maintenance. Two commenters state that one possible means to prevent such discharge, an additional switch connecting the PA system to the unswitched or "hot" battery bus, would increase system complexity and therefore decrease reliability, and also add to crew workload. Another commenter states that there must be a means to disconnect power from the PA system during emergency conditions such as electrically caused smoke, but that the proposed rule does not ensure it. The FAA agrees with these comments. After further consideration, the FAA has determined that the regulation should not require the PA system to have a higher priority for power than loads essential to safety of flight or other loads required during emergency conditions, and that it should not, in effect, prohibit providing the flightcrew with a ready means to disconnect the PA system concurrently with other loads after, or in anticipation of, the occurrence of electrical faults or electrically caused smoke or fires. For these reasons, § 25.1423, as adopted, specifies that a required PA system must be powerable, in flight or stopped on the ground, after the shutdown or failure of all engines and auxiliary power units, or the disconnection or failure of all power sources dependent on their continued operation. This language does not preclude loss of power to the PA system as a consequence of disconnecting the battery with its switch. The final rule will not result in unnecessary battery discharges and associated hazards, and will not increase battery maintenance costs above present levels.

One commenter states that the proposed new § 25.1423 is ambiguous as to whether it would require automatic switching. Another commenter states that any switching required to connect

VOL 54 ISS 207 OCT 27 1989 UMI

the PA system to the independent power source should be automatic, so as not to increase crew workload. The notice was very specific in stating that the proposed § 25.1423 would not establish any requirements pertaining to the disconnection or connection of loads, however accomplished. Furthermore, although not stated in the notice, the proposed new § 25.1423 was not intended to establish any requirements pertaining to the connection of power sources, such as by using emergency power switches. Because these comments go beyond the scope of the notice, they cannot be considered at this time. In addition, the FAA considers that the capability to restore power to the PA system by a manual switching operation is a considerable improvement over having no means at all to restore it. Furthermore, requiring automatic switching for the PA system would be inconsistent with other emergency operations, such as loadshedding, which are not required to be automatic.

One commenter asks whether the amendments would apply only to airplanes that are newly manufactured after the specified date, or if they would also apply to earlier airplanes that are modified or remanufactured after that date to seat more than 19 passengers. Airplanes manufactured prior to the specified date and later modified to seat more than 19 passengers would not have to comply, regardless of when they are modified. It must be noted, however, that airplanes manufactured after the specified date with 19 or fewer passenger seats would have to comply if they are modified later to seat more than 19 passengers.

One commenter suggests that the language in § 135.149(d), "* * * a passenger seating configuration * * * of more than 19 * * *" be changed to read identically to that in § 121.318(a), "* * * a passenger seating capacity of more than 19 * * *" so as to base the requirements for air taxi operators, as well as for air carrier operators, on the capacity for installing seats, rather than on the actual seating configuration as required by § 135.149(d). The suggested change would have to be the subject of future rulemaking because it goes beyond the scope of Notice 86–5.

One commenter states that certain language in the proposed amendment to § 25.1411(a)(2) would differ from the corresponding language in the proposed amendment to § 121.318(b)(2). The commenter appears to suggest that the language should be identical. Actually, there are minor editorial differences which existed previously between those sections and are not part of the proposed amendments. Nevertheless, it has been brought to the attention of the FAA that both sections are ambiguous in regard to the number of microphones required for adjacent exits. Since there has been considerable confusion as to the number of microphones intended by those sections, editorial changes have been made to each section to clarify that one microphone may serve two adjacent exits. These are nonsubstantive changes which place no additional burden on any person because they reflect the actual intent and are consistent with past FAA interpretation of the two sections.

In regard to the proposed compliance time of 1 year for newly manufactured airplanes, one commenter states that additional time might be needed in order for the Airlines Electronic Engineering Committee (AEEC) to revise PA system equipment characteristics. The FAA disagrees that compliance is dependent on such a revision because a large part of the present fleet has already been equipped with PA system installations that would comply with § 25.1423 without benefit of the revision.

Comments are divided on the proposed requirement for a time duration of at least 10 minutes of PA system operation (which includes at least 5 minutes of announcements). In this regard, one commenter suggests that 30 minutes should be required. The FAA considers that 10 minutes would be sufficient for most emergency conditions. Additional duration would, in most cases, be provided inherently because the same source that provides emergency power to instrument displays and other equipment essential to safety of flight during instrument meteorological conditions would also usually be used to power the PA system. Accepted design practice for compliance with §§ 25.1333(b) and 25.1309(b) for these instruments and equipment would usually ensure at least 30 minutes of PA system power availability, including at least 5 minutes of announcements.

In regard to the proposed requirement for a time duration of at least 5 minutes of announcements made by flight and cabin crewmembers, two commenters state that they do not consider this amount of time to be adequate. Since the two commenters did not provide compelling reasons as to why 5 minutes would not be sufficient, the FAA concurs with the other commenters who believe that 5 minutes is sufficient.

As noted above, the requirements of § 121.318 are presently incorporated by reference in § 135.149. Since the time Notice 86–5 was prepared, it has come to the attention of the FAA that the practice of incorporating certain provisions of part 121 in part 135 by reference may cause confusion. In order to preclude any confusion in this regard, part 135 is amended to include the requirements of § 121.318 and related § 121.319 explicitly rather than by reference. This is a nonsubstantive editorial change that places no additional burden on any person.

Except as discussed above, the amendments are adopted as proposed in Notice 86–5.

Regulatory Evaluation

This document summarizes the final cost-benefit assessment of a rule requiring an independent power source for the public address (PA) system in newly manufactured transport category airplanes that are required to have such systems by existing operating rules. The objective of this rulemaking is to ensure that the PA system is available to initiate and direct emergency evacuations and provide instructions to passengers during emergency conditions.

In response to several public comments solicited by the FAA in the Notice of Proposed Rulemaking (NPRM), the FAA has revised this final rule to ensure that disconnection of the airplane battery with its switch would not preclude shutting off power to the PA system. This revision is intended to allow the PA system to be shut off as the battery is disconnected with its switch, in order to prevent the possibility of battery discharges while the airplane is parked. The revised rule also responds to concerns in several of the comments about potential additional costs, by effectively eliminating the need for additional maintenance checks and costs resulting from depleted batteries.

The FAA has updated the economic analysis of this rule from the analysis performed for the NPRM issued in May 1986, based on new information and data received since then. On the basis of the information that is currently available, the FAA concludes that this rule is cost-effective.

Costs

This amendment should have some cost impact on one of the two major U.S. manufacturers of transport category airplanes with more than 19 seats. The airplanes produced by the other manufacturer already meet the new standards. The other manufacturer will therefore not incur any additional costs.

The manufacturer not currently in compliance had indicated that the most cost-effective method of complying with this rule would be to change the type design to locate the PA system circuit breaker at the battery bus. For the affected airplanes, the existing battery system would be sufficient to provide an independent power source for the PA system.

After consultation with industry and other sources, the FAA has determined that approximately 400 design and engineering hours would be necessary for such a redesign. The FAA has adopted the conservative assumption that all of the design and engineering costs will be incurred in the year after this rule is issued, rather than spread out over future years; design and engineering costs therefore are not discounted in this analysis. The estimate of required engineering time has been adjusted upward to 437 hours to account for leave and other absences.

An appropriate rate for valuing engineering hours is $54.58 per hour, after overhead multipliers and fringe benefit factors have been applied to the current average hourly salary figure for aerospace engineers. Total cost for design and engineering is therefore $23,850, incurred in the first year after issuance of this rule.

The FAA estimates that the redesign of the circuit connecting the public address system to the airplane's main battery would add at most $500 in wiring and additional equipment to the production cost of each airplane. Additional labor required for installation is expected to be negligible.

The present value of the total cost of compliance with this regulation between 1988 and the year 2000 is expected to be $192,744, based on a 1987 production forecast of the affected types of airplanes.

Benefits

There have been several accidents over the last two decades in which injuries or fatalities may have resulted from a malfunction or disconnection of the public address system on U.S.-operated transport category airplanes. The National Transportation Safety Board recommended in 1974, 1979, and 1981 that the FAA mandate an independent power source for the public address system in such airplanes, stressing that the availability of the PA system is vital for directing emergency evacuations and providing pre-impact instruction.

The extent to which the safety of passengers would be enhanced by compliance with this rule cannot be quantified. Nonetheless, the $192,744 total cost of this regulation would be more than offset if as few as 16 minor injuries, each valued at $21,000, 7 serious injuries, each valued at $54,000, or one fatality, valued at $1 million, were prevented between the date of enactment of this rule and the year 2000. Potential benefits, as well as costs, have been discounted over time in this determination.

It is reasonable to conclude that such a small number of injuries or fatalities could be prevented in a single accident, particularly if the circumstances involve the possibility of fire on the ground. In such emergency situations, the ability of the flight and cabin crew to brief the passengers on emergency procedures just before and once the airplane has landed could well save lives and prevent injuries, if the time required for egress from the airplane were consequently reduced.

Trade Impact Assessment and Regulatory Flexibility Analysis

This rule will have little or no impact on trade for both U.S. firms doing business in foreign countries and foreign firms doing business in the U.S. Furthermore, this rulemaking is expected to cause no significant impact on small entities, since the manufacturer of the transport category airplanes affected by this regulation is a large manufacturer according to the FAA's size threshold criterion.

Federalism Implications

The regulations adopted herein do not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Thus, in accordance with Executive Order 12612, it is determined that such a regulation does not have sufficient federalism implications warranting the preparation of a Federalism Assessment.

Conclusion

For the reasons discussed earlier in the preamble, the FAA has determined that this is not a major regulation as defined in Executive Order 12291. In addition, the amendment will have little or no impact on trade opportunities for U.S. firms doing business overseas and foreign firms doing business in the U.S. Since the amendment concerns a matter on which there is substantial public interest, the FAA has determined that this action is significant under Department of Transportation Regulatory Policies and Procedures. In addition, the FAA certifies that under the criteria of the Regulatory Flexibility Act, this amendment will not have a significant economic impact, positive or negative, on a substantial number of small entities. A regulatory evaluation of this action, including a Regulatory Flexibility Determination and a Trade Impact Assessment, has been placed in the regulatory docket. A copy of this evaluation may be obtained by contacting the person identified under "FOR FURTHER INFORMATION CONTACT."

List of Subjects:

14 CFR Part 25

Air transportation, Aircraft, Aviation safety, Safety.

14 CFR Part 121

Air carriers, Air transportation, Aircraft, Airplanes, Aviation safety, Common carriers, Safety, Transportation.

14 CFR Part 135

Air carriers, Air taxi, Air transportation, Aircraft, Airplanes, Aviation safety, Safety, Transportation.

Adoption of the Amendments

Accordingly, parts 25, 121 and 135 of the Federal Aviation Regulations (FAR), 14 CFR parts 25, 121, and 135, are amended as follows:

PART 25—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES

1. The authority citation for part 25 continues to read as follows:

Authority: 49 U.S.C. 1344, 1354(a), 1355, 1421, 1423, 1424, 1425, 1428, 1429, 1430; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 49 CFR 1.47(a).

2. By amending § 25.1411 by revising the paragraph heading for (a) and paragraph (a)(3) to read as follows:

§ 25.1411 General.

(a) *Accessibility requirements.* * * *

(2) If a public address system is required by this chapter—

(i) For each required floor-level passenger emergency exit which has an adjacent flight attendant seat, there must be a public address system microphone which is readily accessible to the seated flight attendant, except that—

(ii) One microphone may serve more than one exit, provided the proximity of the exits allows unassisted verbal communication between seated flight attendants.

* * * * *

3. By adding a new § 25.1423 to read as follows:

§ 25.1423 Public address system.

A public address system required by this chapter must be powerable, in flight

VOL
54

UMI

or stopped on the ground, after the shutdown or failure of all engines and auxiliary power units, or the disconnection or failure of all power sources dependent on their continued operation, for—

(a) A time duration of at least 10 minutes, including an aggregate time duration of at least 5 minutes of announcements made by flight and cabin crewmembers, considering all other loads which may remain powered by the same source when all other power sources are inoperative; and

(b) An additional time duration in its standby state appropriate or required for any other loads that are powered by the same source and that are essential to safety of flight or required during emergency conditions.

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

4. The authority citation for part 121 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1355, 1356, 1357, 1401, 1421 through 1430, 1472, 1485, and 1502; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 49 CFR 1.47(a).

5. By revising § 121.318 to read as follows:

§ 121.318 Public address system.

No person may operate an airplane with a seating capacity of more than 19 passengers unless it is equipped with a public address system which—

(a) Is capable of operation independent of the crewmember interphone system required by § 121.319, except for handsets, headsets, microphones, selector switches, and signaling devices;

(b) Is approved in accordance with § 21.305 of this chapter;

(c) Is accessible for immediate use from each of two flight crewmember stations in the pilot compartment;

(d) For each required floor-level passenger emergency exit which has an adjacent flight attendant seat, has a microphone which is readily accessible to the seated flight attendant, except that one microphone may serve more than one exit, provided the proximity of the exits allows unassisted verbal communication between seated flight attendants;

(e) Is capable of operation within 10 seconds by a flight attendant at each of those stations in the passenger compartment from which its use is accessible;

(f) Is audible at all passenger seats, lavatories, and flight attendant seats and work stations; and

(g) For transport category airplanes manufactured on or after November 27, 1990, meets the requirements of § 25.1423 of this chapter.

PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS

6. The authority citation for Part 135 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1355, 1356, 1357, 1401, 1421–1431, and 1502; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 49 CFR 1.47(a).

7. By amending § 135.149 by removing paragraph (d) and marking it [Reserved].

§ 135.149 Equipment requirements: General.

* * * * *

(d) [Reserved]

* * * * *

8. By adding a new § 135.150 to read as follows:

§ 135.150 Public address and crewmember interphone systems.

No person may operate an aircraft having a passenger seating configuration, excluding any pilot seat, of more than 19 unless it is equipped with—

(a) A public address system which—

(1) Is capable of operation independent of the the crewmember interphone system required by paragraph (b) of this section, except for handsets, headsets, microphones, selector switches, and signaling devices;

(2) Is approved in accordance with § 21.305 of this chapter;

(3) Is accessible for immediate use from each of two flight crewmember stations in the pilot compartment;

(4) For each required floor-level passenger emergency exit which has an adjacent flight attendant seat, has a microphone which is readily accessible to the seated flight attendant, except that one microphone may serve more than one exit, provided the proximity of the exits allows unassisted verbal communication between seated flight attendants;

(5) Is capable of operation within 10 seconds by a flight attendant at each of those stations in the passenger compartment from which its use is accessible;

(6) Is audible at all passenger seats, lavatories, and flight attendant seats and work stations; and

(7) For transport category airplanes manufactured on or after [insert a date one year after the effective date of this amendment], meets the requirements of § 25.1423 of this chapter.

(b) A crewmember interphone system which—

(1) Is capable of operation independent of the public address system required by paragraph (a) of this section, except for handsets, headsets, microphones, selector switches, and signaling devices;

(2) Is approved in accordance with § 21.305 of this chapter;

(3) Provides a means of two-way communication between the pilot compartment and—

(i) Each passenger compartment; and

(ii) Each galley located on other than the main passenger deck level;

(4) Is accessible for immediate use from each of two flight crewmember stations in the pilot compartment;

(5) Is accessible for use from at least one normal flight attendant station in each passenger compartment;

(6) Is capable of operation within 10 seconds by a flight attendant at each of those stations in each passenger compartment from which its use is accessible; and

(7) For large turbojet-powered airplanes—

(i) Is accessible for use at enough flight attendant stations so that all floor-level emergency exits (or entryways to those exits in the case of exits located within galleys) in each passenger compartment are observable from one or more of those stations so equipped;

(ii) Has an alerting system incorporating aural or visual signals for use by flight crewmembers to alert flight attendants and for use by flight attendants to alert flight crewmembers;

(iii) For the alerting system required by paragraph (b)(7)(ii) of this section, has a means for the recipient of a call to determine whether it is a normal call or an emergency call; and

(iv) When the airplane is on the ground, provides a means of two-way communication between ground personnel and either of at least two flight crewmembers in the pilot compartment. The interphone system station for use by ground personnel must be so located that personnel using the system may avoid visible detection from within the airplane.

Issued in Washington DC, on October 20, 1989.

DEPARTMENT OF TRANSPORTATION

14 CFR Part 29

[Docket No. 23485; Amdt. 29-28]

RIN 2120-AA84

Airworthiness Standards; Transport Category Rotorcraft Structural Fatigue Evaluation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The rule amends the type certification standards for transport category rotorcraft by adding flaw tolerance requirements to the requirements for fatigue evaluation of structures. The amendment also extends the requirements for fatigue evaluations from flight structures only to all critical structures, including landing gear, and requires consideration of operations having a high number of power cycles per hour. This amendment is intended to avoid or reduce catastrophic fatigue failures in transport category rotorcraft.

EFFECTIVE DATE: November 27, 1989.

FOR FURTHER INFORMATION CONTACT: Robert T. Weaver, Manager, Regulations Group (ASW-111), Aircraft Certification Service, Rotorcraft Directorate, Federal Aviation Administration, Forth Worth, Texas 76193-0111, telephone (817) 624-5111.

SUPPLEMENTARY INFORMATION:

Background

Flaw tolerance is the capability of rotorcraft structure to continue functioning without catastrophic failure after being subjected to intrinsic/discrete flaws, environmental effects, and accidental damage expected during fabrication and operation of the rotorcraft. The term "flaw tolerance" is used rather than the term "damage tolerance" which appeared in the NPRM since flaw tolerance more clearly describes the factors to be considered (such as intrinsic/discrete flaws during manufacture). This change in terms introduces no substantive change.

The addition of flaw tolerance to the fatigue evaluation of transport category rotorcraft regulations results from an assessment of the potential for preventing crashes and saving lives by the use of redundant structure and other flaw tolerant design features. The addition of the requirements to evaluate other critical structures, including landing gear, and to consider operations having a high number of power cycles per hour in the fatigue evaluation results from the ongoing Rotorcraft Regulatory Review Program. These additions are based on two proposals submitted for consideration at the Rotorcraft Regulatory Review Conference held in New Orleans, Louisiana, in December 1979. Since landing gear requirements are being added to the evaluation in § 29.571, the section title is revised to read "Fatigue evaluation of structure."

As a result of these proposals, the FAA issued Advance Notice of Proposed Rulemaking (ANPRM) No. 83-1 on December 16, 1982 (48 FR 772; January 6, 1983), and Notice of Proposed Rulemaking (NPRM) No. 86-13 on September 12, 1986 (51 FR 33704; September 22, 1986). The comment period for Notice No. 86-13 was reopened until May 4, 1987 (52 FR 11997; April 14, 1987). Public meetings were held in Fort Worth, Texas, on February 8, 1983 (48 FR 772; January 6, 1983), and March 5, 1987 (51 FR 45343; December 18, 1986). All interested persons have been given an opportunity to participate in the making of this amendment and due consideration has been given to all matter presented.

A few changes of an editorial and clarifying nature have been made to the proposals based upon relevant comments received and upon further review by the FAA. Except for the editorial and clarifying changes discussed below, the proposals contained in Notice No. 86-13 are adopted without change.

Discussions of Comments

Although all commenters basically support the proposals to amend § 29.571 to add a requirement for flaw tolerance, several recommend editorial and clarifying changes.

One commenter recommends that in paragraph (a) the phrase "considering the effects of" be added between the words "fatigue" and "environmental." This change clarifies that paragraph (a) concerns fatigue and avoiding catastrophic failure due to fatigue and not to the environment. The FAA agrees, and this change has been made.

A commenter recommends that the phrase "and detail design points" be removed from paragraph (a)(1)(i). The commenter points out that the evaluation of detail design points is already required by the first sentence in paragraph (a), and it is unnecessary in paragraph (a)(1)(i). The FAA agrees, and the phrase has been removed.

Two commenters recommend that the words "temperature effects" be added to paragraph (a)(1)(ii) after "altitude effects." The FAA disagrees since temperature effects are already included in paragraph (a) under the general term "effects of environment."

A commenter recommends that the word "prevent" in paragraph (a)(2) be changed to "avoid" to be consistent with the wording of paragraph (a). The FAA agrees, and the change has been made.

One commenter recommends that the words "replacement times, or combination thereof" be inserted after "These inspections" in the last sentence of paragraph (a)(2) for a more complete listing of airworthiness limitations section items. The FAA agrees, and for internal consistency the change also has been made to the first sentence.

Two commenters recommend changes to paragraph (b) to clarify the use of crack initiation techniques (safe-life or flaw tolerant safe-life) in conjunction with flaw growth techniques (fail-safe or residual strength evaluation after flaw growth). Another commenter recommends a reorganization of paragraph (b) to list the three fatigue tolerance evaluation methods more explicitly. The FAA agrees with these comments, and paragraph (b) has been reorganized to list: (1) Flaw tolerant safe-life evaluation; (2) fail-safe (residual strength after flaw growth) evaluation; and (3) safe-life evaluation.

A commenter recommends that the clause "unless the applicant establishes that damage tolerance design for a particular structure is impractical" in paragraph (b)(2)(v) be changed to "unless the applicant establishes that these fatigue (flaw) tolerant methods for a particular structure cannot be achieved within the limitations of geometry, inspectability, or good design practice." The commenter emphasizes that the word "impractical" is subject to wide interpretations and more explicit limitations are necessary. The FAA agrees, and the more explicit wording is used in the reorganized paragraph (b). In addition, the heading of paragraph (b), "Fatigue tolerance evaluation (safe-life supplemented by damage tolerance)," has been changed to "Fatigue tolerance evaluation (including tolerance to flaws)" for clarity and imposes no additional burden. The use of the word "flaws" is considered more appropriate than the word "damage" in the heading of paragraph (b) since this amendment requires fatigue tolerance to intrinsic/discrete flaws resulting from manufacturing as well as damage accidentally resulting from manufacturing, maintenance, or operational activities.

One commenter recommends the addition of "wear" to the damage to be included in the fatigue tolerance evaluation of paragraph (b)(2)(i) of the proposal. The commenter also recommends that information on wear limits be included in advisory circular material. The FAA agrees that information on wear limits is appropriate for advisory circular material but does not agree that mandating consideration of wear effects in the rule is appropriate given state-of-the-art technology. Design practice has been to prevent wear in airframe structure and to prevent or minimize it in mechanisms. This recommended change is, therefore, not adopted.

Another commenter recommends that proposed paragraph (b)(2)(i) be changed by adding the words "including the possibility of concurrent damage at multiple sites" to be more in accord with the requirements of § 25.571(b) for airplanes. This requirement as applied to airplanes basically addresses small concurrent cracks in stiffened shell construction such as in adjacent fastener holes in sheet metal joints. The critical structural elements in helicopters tend to be complex forgings or other shapes which may have fewer fastener holes. The application of multiple site damage to typical helicopter structure needs additional evaluation before it is mandated by rulemaking action. This additional evaluation should also determine the necessity for, as well as feasibility of, multiple site damage assessment and is beyond the scope of this rulemaking action. This recommended change is, therefore, not adopted.

One commenter recommends that the clause "An inspection interval and method should be established" be added to paragraph (b)(2)(iii) of the proposal. The FAA agrees, and the substance of this change has been incorporated as a requirement in new paragraph (b)(2)(ii).

Regulatory Evaluation Summary

The following is a summary of the final industry cost impact and benefit assessment of a proposed rulemaking to amend Federal Aviation Regulations (FAR) Part 29—Airworthiness Standards: Transport Category Rotorcraft. The primary objective of the proposal is to avoid or reduce catastrophic fatigue failures in transport category helicopters.

The rule adopts a new airworthiness standard to add flaw tolerance to the fatigue evaluation of rotorcraft structures; extends fatigue evaluation from flight structure to all critical structures, including landing gear; and explicitly requires the consideration of operations having a high number of ground-air-ground or power cycles per hours.

Of special note is the use in the rule of the terminology "flaws" rather than the term "damage" used in the notice stage of rulemaking. The objective of this change is to enhance understanding by adopting a more generic term that includes intrinsic "flaws" as well as service or other damage.

The decision to add flaw tolerance requirements to the fatigue evaluation of rotorcraft structure results from an assessment of the potential for avoiding crashes and saving lives by use of redundant structure and other flaw tolerant design features and from an assessment of the current rotorcraft design "state-of-the-art." The decision to add landing gear and increased frequency of ground-air-ground and other power cycles to the fatigue evaluation is based on proposals submitted for consideration at the Rotorcraft Regulatory Review Conference held in New Orleans, Louisiana, in 1979.

The estimates of economic impacts for the amendment to § 29.571 are based on the best information currently available to the FAA. The estimates of the cost of compliance with the additional requirements of § 29.571 rely to a considerable extent on a report prepared for the FAA by Logical Technical Services Corporation entitled "Estimates of the Cost Difference Resulting from the Introduction of Damage Tolerance to Rotorcraft Structural Fatigue Requirements" (herein referred to as the LTS study). A report on the LTS study is available in the docket of this rulemaking. Information for analysis of benefit was obtained from the safety records of the NTSB and the FAA. The conclusions regarding economic consequences, however, reflect the final judgment of FAA personnel.

Comments on the proposal were submitted by domestic and foreign trade associations representing manufacturers and operators. Although all commenters basically support the proposals to add requirements for flaw tolerance, several recommended editorial changes and clarifications. The FAA has evaluated the public comments and made final determinations regarding their impact. The FAA finds that the costs and benefits estimates for the proposals at the NPRM stage of rulemaking have not significantly changed, but they have been updated to reflect recent accident data and current prices.

At present, the FAA has not determined whether flaw tolerant components will typically experience a longer service life than safe-life components. To allow for the uncertainty inherent in predicting future flaw tolerant component service life, the potential life cycle cost increases or decreases of replacing safe-life components with flaw tolerant components for a fleet of 600 typical transport rotorcraft were analyzed for 3 different service life scenarios: Where flaw tolerant components have the same life as safe-life components, twice the lifetime of safe-life components, and an indefinite lifetime. For any service life scenario, the economic benefit of the proposal is the sum of the safety benefit (i.e., the net present value of the preventable loss, consisting of the costs of mortality, morbidity, hull damage, and investigation) and the life cycle cost impact. Table 1 illustrates the relationship between life cycle costs and various accident prevention scenarios for a fleet of 600 typical transport category rotorcraft. As shown in this table, if the flaw tolerant components can be made to have a lifetime that is twice the life of safe-life components and four accidents per year are avoided, the total net present value of the benefit resulting from the change will be approximately $31 million. In the extreme end, if flaw tolerant components can be made with indefinite life and if ten accidents per year can be avoided by the use of these flaw tolerant parts, the present value of the net benefit is estimated to be about $98 million.

TABLE 1.—THE RELATIONSHIP BETWEEN LIFE CYCLE COSTS AND SAFETY BENEFIT FOR A FLEET OF 600 S-76 CLASS ROTORCRAFT (1987)

Service life scenario	Present value of life cycle costs savings	Annual number of accidents avoided	Present value of expected value of preventable loss	Present value of net benefits
Same as Safe Life	($25,939,750)	1	$4,893,063	($22,046,687)
	(26,939,750)	4	19,572,273	(7,367,477)

VOL 54 ISS 207 OCT 27 1989 UMI

TABLE 1.—THE RELATIONSHIP BETWEEN LIFE CYCLE COSTS AND SAFETY BENEFIT FOR A FLEET OF 600 S-76 CLASS ROTORCRAFT (1987)—Continued

Service life scenario	Present value of life cycle costs savings	Annual number of accidents avoided	Present value of expected value of preventable loss	Present value of net benefits
Twice Safe Life	(26,939,750)	10	48,930,684	21,990,934
	11,117,228	1	4,893,063	16,010,291
	11,117,228	4	19,572,273	30,689,501
	11,117,228	10	48,930,684	60,047,912
Indefinite Life	49,508,970	1	4,893,063	54,402,033
	49,508,970	4	19,572,273	69,081,243
	49,508,970	10	48,930,684	98,439,654

The FAA believes that in most cases the service life of flaw tolerant components will be at least a factor of two or three times greater than current safe-life components as a result of advances in the use of new high strength-to-weight materials and improved design data. Similarly, the number of accidents that will be avoided annually will exceed the average of four accidents per year experienced in the period between 1971 through 1986 because of the increasing size of the transport category rotorcraft fleet. On the basis of the above, the FAA calculates that the midrange of benefits associated with the introduction of flaw tolerance criteria will exceed costs by approximately $18.0 to $60.0 million over the 10-year period following promulgation of this regulation.

Regulatory Flexibility Determination

The FAA has determined that under the criteria of the Regulatory Flexibility Act (RFA) of 1980, this amendment will not have a significant economic impact on a substantial number of small entities. The RFA requires agencies to specifically review rules which may have a "significant economic impact on a substantial number of small entities." The FAA has developed guidance for conducting regulatory flexibility analyses and reviews, including criteria and guidelines for determining if a proposed or existing rule has a significant economic impact on a substantial number of small entities. The FAA small entity size standards criteria define a small helicopter manufacturer as an independently owned and managed firm having fewer than 75 emloyees. Presently, no manufacturer subject to the changes to § 29.571 has fewer than 75 employees. Accordingly, this amendment to § 29.571 will not have an economic impact on a substantial number of small entities.

International Trade Impact Analysis

The FAA believes that the certification cost which may be imposed by this amendment will not result in a competitive trade disadvantage or advantage for American manufacturers in domestic or foreign markets. This assumption is based on the fact that foreign manufacturers must comply with the certification standards of Federal Aviation Regulations, Part 29, as a condition to entry into U.S. markets. Considering the size of the U.S. market, foreign manufacturers are likely to comply with U.S. certification standards which is the largest segment of their export market. Further, foreign and American manufacturers are expected to pass the new certification costs on to consumers in their respective domestic and foreign markets.

Federalism Implications

The regulations adopted herein will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Conclusion

In the context of these analyses, the FAA has determined that the benefits of this amendment, in providing an increased level of safety to passengers traveling in rotorcraft while at the same time recognizing and providing for the unique qualities and capabilities of rotorcraft, far outweigh the burdens. This action: (1) Involves a regulation that is not a major rule under Executive Order 12291; and (2) is a significant rule under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). In addition, for the reasons discussed above, I certify that under the criteria of the Regulatory Flexibility Act these amendments will not have a significant economic impact on a substantial number of small entities. Also, these amendments would have little or no impact on trade opportunities for U.S. firms doing business overseas or for foreign firms doing business in the United States. A final regulatory evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

List of Subjects 14 CFR Part 29

Air transportation, Aircraft, Aviation safety, Safety, Rotorcraft.

Adoption of the Amendment

Accordingly, part 29 of the Federal Aviation Regulations (14 CFR Part 29) is amended as follows:

PART 29—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY ROTORCRAFT

1. The authority citation for part 29 continues to read as follows:

Authority: 49 U.S.C. 1344, 1354(a), 1355, 1421, 1423, 1424, 1425, 1428, 1429, 1430; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983).

2. By revising § 29.571 to read as follows:

§ 29.571 Fatigue evaluation of structure.

(a) *General.* An evaluation of the strength of principal elements, detail design points, and fabrication techniques must show that catastrophic failure due to fatigue, considering the effects of environment, intrinsic/discrete flaws, or accidental damage will be avoided. Parts to be evaluated include, but are not limited to, rotors, rotor drive systems between the engines and rotor hubs, controls, fuselage, fixed and movable control surfaces, engine and transmission mountings, landing gear, and their related primary attachments. In addition, the following apply:

(1) Each evaluation required by this section must include—

(i) The identification of principal structural elements, the failure of which could result in catastrophic failure of the rotorcraft;

(ii) In-flight measurement in determining the loads or stresses for items in paragraph (a)(1)(i) of this section in all critical conditions throughout the range of limitations in § 29.309 (including altitude effects), except that maneuvering load factors need not exceed the maximum values expected in operations; and

(iii) Loading spectra as severe as those expected in operation based on loads or stresses determined under paragraph (a)(1)(ii) of this section, including external load operations, if applicable, and other high frequency power cycle operations.

(2) Based on the evaluations required by this section, inspections, replacement times, combinations thereof, or other procedures must be established as necessary to avoid catastrophic failure. These inspections, replacement times, combinations thereof, or other procedures must be included in the airworthiness limitations section of the Instructions for Continued Airworthiness required by § 29.1529 and section A29.4 of Appendix A of this part.

(b) *Fatigue tolerance evaluation (including tolerance to flaws).* The structure must be shown by analysis supported by test evidence and, if available, service experience to be of fatigue tolerant design. The fatigue tolerance evaluation must include the requirements of either paragraph (b) (1), (2), or (3) of this section, or a combination thereof, and also must include a determination of the probable locations and modes of damage caused by fatigue, considering environmental effects, intrinsic/discrete flaws, or accidental damage. Compliance with the flaw tolerance requirements of paragraph (b) (1) or (2) of this section is required unless the applicant establishes that these fatigue flaw tolerant methods for a particular structure cannot be achieved within the limitations of geometry, inspectability, or good design practice. Under these circumstances, the safe-life evaluation of paragraph (b)(3) of this section is required.

(1) *Flaw tolerant safe-life evaluation.* It must be shown that the structure, with flaws present, is able to withstand repeated loads of variable magnitude without detectable flaw growth for the following time intervals—

(i) Life of the rotorcraft; or

(ii) Within a replacement time furnished under section A29.4 of appendix A to this part.

(2) *Fail-safe (residual strength after flaw growth) evaluation.* It must be shown that the structure remaining after a partial failure is able to withstand design limit loads without failure within an inspection period furnished under section A29.4 of appendix A to this part. Limit loads are defined in § 29.301(a).

(i) The residual strength evaluation must show that the remaining structure after flaw growth is able to withstand design limit loads without failure within its operational life.

(ii) Inspection intervals and methods must be established as necessary to ensure that failures are detected prior to residual strength conditions being reached.

(iii) If significant changes in structural stiffness or geometry, or both, follow from a structural failure or partial failure, the effect on flaw tolerance must be further investigated.

(3) *Safe-life evaluation.* It must be shown that the structure is able to withstand repeated loads of variable magnitude without detectable cracks for the following time intervals—

(i) Life of the rotorcraft; or

(ii) Within a replacement time furnished under section A29.4 of appendix A to this part.

Issued in Washington DC on October 23, 1989.

James B. Busey,

Administrator.

[Docket No. 25965]

RIN 2120-AC36

Repair Station and Repairmen Certification Rules; Regulatory Review; Meetings

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public meetings.

SUMMARY: By notice of July 14, 1989 (54 FR 30866; July 24, 1989), the Federal Aviation Administration (FAA) announced four public meetings in which the FAA will solicit information from the public concerning revision of the repair station rules, repairmen certification rules, and sections of the maintenance, preventive maintenance, rebuilding, and alteration rules as applicable to repair stations.

DATES: The public meetings will be held on October 24 and 25, 1989, in Washington, DC; on November 7 and 8, 1989, in Fort Lauderdale, Florida; on November 28 and 29, 1989, in Dallas, Texas; and on December 12 and 13, 1989, in San Francisco, California.

ADDRESSES: The public meetings will be held at the following locations:

(1) On October 24 and 25, 1989, at the Federal Aviation Administration Building, Third Floor Auditorium, 800 Independence Avenue SW., Washington, DC.

(2) On November 7 and 8, 1989, at Fort Lauderdale Airport Hilton, 1870 Griffin Road, Dania, Florida.

(3) On November 28 and 29, 1989, at Holiday Inn D/FW Airport North, 4441 Highway 114 and Esters Boulevard, Irving, Texas.

(4) On December 12 and 13, 1989, at Amfac Hotel, San Francisco International Airport, 1380 Old Bayshore Highway, Burlingame, California. Due to earthquake damage, this location may be changed. In such event, a further notice will be issued.

FOR FURTHER INFORMATION CONTACT: Questions concerning the logistics of the meeting should be directed to Barbara Crawford, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-3780. For questions concerning the subject matter of the meetings, contact Leo Weston, Aircraft Maintenance Division (AFS-320), Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8283.

SUPPLEMENTARY INFORMATION: To enhance the effectiveness of public rulemaking hearings and meetings, the FAA is modifying its public hearing and meeting procedures by providing time before the formal opening of the hearing or meeting for informal discussion of proposed rules or issues by FAA representatives and the participating public. This time period will be an opportunity for the participants to clarify and discuss their understanding of pertinent issues before oral statements are presented. Accordingly, although the public meetings on repair station issues will formally commence each day at 9:00 a.m., FAA members of the panel on repair stations will be available each day at the meeting location at 8:00 a.m. for such informal discussions.

Issued in Washington, DC on October 24, 1989.

Daniel C. Beaudette,

Acting Director, Flight Standards Service.

LIST OF PUBLIC LAWS

Last List October 26, 1989

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

S.J. Res. 213/Pub. L. 101–124
To designate October 22 through October 29, 1989, as "National Red Ribbon Week for a Drug-Free America". (Oct. 24, 1989; 103 Stat. 761; 2 pages) Price: $1.00

H.R. 2067/Pub. L. 101–125
To name the Department of Veterans Affairs medical center in Leavenworth, Kansas, as the "Dwight D. Eisenhower Department of Veterans Affairs Medical Center". (Oct. 24, 1989; 103 Stat. 763; 1 page) Price: $1.00

H.R. 2087/Pub. L. 101–126
Child Abuse Prevention Challenge Grants Reauthorization Act of 1989. (Oct. 25, 1989; 103 Stat. 764; 6 pages) Price: $1.00

H.R. 2068/Pub. L. 101–127
Children With Disabilities Temporary Care Reauthorization Act of 1989. (Oct. 25, 1989; 103 Stat. 770; 3 pages) Price: $1.00

In the list of Public Laws printed in the **Federal Register** on October 25, 1989, Public Laws 101–120 through 101–122 were inadvertently omitted. They are as follows:

H.R. 1300/Pub. L. 101–120
Head Start Supplemental Authorization Act of 1989. (Oct. 23, 1989; 103 Stat. 700; 1 page) Price: $1.00

H.R. 2788/Pub. L. 101–121
Making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1990, and for other purposes. (Oct. 23, 1989; 103 Stat. 701; 56 pages) Price: $1.50

H.J. Res. 400/Pub. L. 101–122
Designating October 27, 1989, as "National Hostage Awareness Day". (Oct. 23, 1989; 103 Stat. 757; 2 pages) Price: $1.00

Briefing on How To Use the Federal Register
For information on briefings in San Francisco, CA, and Seattle, WA, see announcement on the inside cover of this issue.

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the Federal Register.

How To Cite This Publication: Use the volume number and the page number. Example: 54 FR 12345.

SUBSCRIPTIONS AND COPIES

PUBLIC

Subscriptions:

Paper or fiche	202-783-3238
Magnetic tapes	275-3328

Subscriptions:

Paper or fiche	523-5240
Magnetic tapes	275-3328
Problems with Federal agency subscriptions	523-5240

For other telephone numbers, see the Reader Aids section at the end of this issue.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

SAN FRANCISCO, CA

WHEN: November 29; at 9:00 a.m.
WHERE: Room 15136,
450 Golden Gate Avenue,
San Francisco, CA.
RESERVATIONS: Call Mary Walters at the San Francisco Federal Information Center,
415-556-6600.

SEATTLE, WA

WHEN: November 30; at 1:00 p.m.
WHERE: South Auditorium, 4th Floor,
915 2nd Avenue,
Seattle, WA.
RESERVATIONS: Call Carmen Meler or Peggy Groff at the Portland Federal Information Center on the following numbers:
Seattle: 206-442-0570,
Tacoma: 206-383-7970,
Portland: 503-326-2222.

Title 3—

The President

Proclamation 6055 of October 25, 1989

Country Music Month, 1989

By the President of the United States of America

A Proclamation

With its origins in the folk songs of immigrants and workers, country music boasts a rich heritage as well as a wide audience. During Country Music Month, as we celebrate this uniquely American art form and salute the musicians and audiences who give it life, we recall a proud portion of our history and culture.

Over the years, country music has given eloquent expression to the American spirit. In its simple strains, we hear the voices of a people united by their faith, their love of freedom, and their appreciation for honesty and hard work. Yet, as varied as each of the men and women who compose it, country music also captures our Nation's ethnic and cultural diversity.

Today, country music is thriving not only in the United States, but around the world as well. Its popularity is a tribute to the generations of Americans who have graced it with their talent and vision.

The Congress, by House Joint Resolution 401, has designated October 1989 as "Country Music Month" and has authorized and requested the President to issue a proclamation in observance of this month.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 1989 as Country Music Month. I call on all the people of the United States to observe the month with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred and eighty-nine, and of the Independence of the United States of America the two hundred and fourteenth.

Proclamation 6056 of October 25, 1989

National Arab-American Day, 1989

By the President of the United States of America

A Proclamation

For decades, Arab-Americans have made valuable contributions to virtually every aspect of American life: in science, medicine, education, business, culture and government. The works of many talented Arab-American artists and writers grace our museums and libraries throughout the United States. Since the first Arab immigrant came to these shores more than a century ago, men and women of Arab descent have shared with us the rich history and traditions of Arab culture.

With pride in their ethnic heritage and with great faith in the principles upon which this country was founded, Arab-Americans have added to the strength and diversity of American society. Arab-Americans occupy positions of leadership and responsibility throughout our system of government, setting a fine example of public service at the local, State, and national level.

Arab-Americans have also enriched our Nation with the quiet power of strong families and close-knit communities. Many have come to the United States in search of the blessings of peace and freedom. They have quickly seized the opportunities life in this free and democratic country affords, yet they have not forgotten their ancestral homelands. They join all Americans in the desire to bring peace and security to that troubled region. Industrious and determined, they have helped give us a more profound understanding of the rights and responsibilities we have as citizens of a free and prosperous Nation.

In recognition of the contributions of Arab-Americans, the Congress, by House Joint Resolution 241, has designated October 25, 1989, as "National Arab-American Day" and has authorized and requested the President to issue a proclamation in observance of this day.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 25, 1989, as National Arab-American Day. I call upon the people of the United States to observe this day with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred and eighty-nine, and of the Independence of the United States of America the two hundred and fourteenth.

George Bush

Rules and Regulations

Federal Register
Vol. 54, No. 208
Monday, October 30, 1989

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 890

Debarments, Civil Monetary Penalties and Assessments Imposed on Health Care Practitioners and Providers of Services or Supplies for Cited Offenses

AGENCY: Office of Personnel Management.

ACTION: Interim regulations with comments requested.

SUMMARY: The Office of Personnel Management (OPM) is publishing interim regulations to implement title I of Pub. L. 100–654, the "Federal Employees Health Benefits Amendments Act of 1988." Title I of Pub. L. 100–654 permits OPM to exclude from further participation in the Federal Employees Health Benefits (FEHB) Program any health care provider (1) convicted of fraud or various other cited examples of unethical professional conduct, or (2) determined by OPM to have committed various cited offenses against the FEHB Program, including the submission of false claims or excessive charges. In addition to debarment sanctions, OPM may also impose civil monetary penalties and assessments it deems appropriate for offenses under item (2). OPM has the responsibility to impose the sanctions noted above for offenses committed on or after January 1, 1989.

DATES: *Effective Date:* January 1, 1989.
Comment Date: November 29, 1989.

ADDRESSES: Written comments may be sent to Reginald M. Jones, Jr., Assistant Director, Office of Retirement and Insurance Policy, Retirement and Insurance Group, Office of Personnel Management, P.O. Box 57, Washington, DC 20044, or delivered to OPM, Room 4351, 1900 E Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: John Ray, (202) 632–4634.

SUPPLEMENTARY INFORMATION: Title I of Pub. L. 100–654, enacted on November 14, 1988, permits OPM to bar a "provider of health care services or supplies," defined as a physician, hospital, or other individual or entity which furnishes health care services or supplies, from further participation in the FEHB Program if that provider has been convicted under Federal or State law:

(1) Of a criminal offense relating to fraud, corruption, breach of fiduciary responsibility, or other financial misconduct in connection with the delivery of a health care service or supply;

(2) Of a criminal offense relating to neglect or abuse of patients in connection with the delivery of a health care service or supply;

(3) In connection with the interference with or obstruction of an investigation or prosecution of a criminal offense described in (1) or (2) above; or

(4) Of a criminal offense relating to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance.

OPM may also bar a provider from further participation in the FEHB Program:

(1) Whose license to provide health care services or supplies has been revoked, suspended, restricted, or not renewed, by a State licensing authority for reasons relating to the provider's professional competence, professional performance, or financial integrity; or

(2) That surrendered such a license while a formal disciplinary proceeding was pending before such an authority, if the proceeding concerned the provider's professional competence, professional performance, or financial integrity.

OPM may also bar a provider for "FEHB Program-related offenses" when OPM determines that the provider:

(1) Charged for health care services or supplies that the provider knew or should have known were not provided as claimed;

(2) Charged for health care services or supplies in an amount substantially in excess of such provider's customary charge for such services or supplies, or charged for health care services or supplies which were substantially in excess of the needs of the covered individual or which were of a quality that failed to meet professionally recognized standards for such services or supplies;

(3) Knowingly made, or caused to be made, any false statement or misrepresentation of a material fact which was reflected in a claim; or

(4) Knowingly failed to provide any information required by a carrier or by OPM to determine whether a payment or reimbursement should be made or the correct amount of the payment or reimbursement.

In addition to a period of debarment for "FEHB Program-related offenses", OPM may also impose a civil monetary penalty of not more than $10,000 for any item or service involved and/or an assessment in lieu of damages of not more than twice the amount claimed for each such item or service. However, no debarment, civil monetary penalty, or assessment may be imposed based on any criminal or other conduct occurring before January 1, 1989.

In analyzing the various provisions of title I of Pub. L. 100–654, we recognized the need for a new Subpart to be added to Part 890, Federal Employees Health Benefits Program, to fully address such administrative matters as the manner in which debarred providers might apply to OPM after the expiration of the minimum period of debarment required by Pub. L. 100–654, the exceptions that might be made to the general rule that individuals covered by the FEHB Program can not use the services of debarred providers, the mechanics of the hearing process, etc. However, of necessity, we have concentrated our initial efforts on those areas of administration that needed to be formalized and in place at the earliest date possible. These appear to encompass (1) those relatively subjective areas of OPM determinations to impose sanctions for FEHB-related offenses and (2) the severity of the sanctions in general, i.e., debarments, civil monetary penalties, or assessments, be they imposed for criminal offenses or for FEHB-related offenses.

We do not believe it is necessary to publish the equivalent of standards for taking debarment actions against providers convicted of the numerous offenses cited in Pub. L. 100–654 or for those providers who have suffered the loss of their professional licenses. Nor do we believe it is necessary for us to elaborate on the language found in Pub.

L. 100-654 concerning the submission of fraudulent claims and the resultant debarment for these FEHB-related offenses. However, we do deem it appropriate to establish in our regulations the equivalent of standards that OPM will use in the more subjective areas of debarments, civil monetary penalties, and assessments for FEHB Program-related offenses related to excessive charges, over-prescribing, and the poor quality of care. In the following interim regulations we will also address the criteria for establishing the length(s) of debarment, the amount of civil monetary penalties and assessments in lieu of damages.

Waiver of Notice of Proposed Rulemaking

Under 5 U.S.C. 553 (b)(3)(B) and (d)(3), I find that good cause exists for waiving the general notice of proposed rulemaking and for making these regulations effective in less than 30 days. Publication of proposed rulemaking would be impractical. The authority to debar and/or impose civil monetary penalties and assessments is granted OPM by recently enacted legislation and is tied to infractions committed on or after January 1, 1989. These regulations are needed immediately in order to effectively administer and enforce the new legislation.

E.O. 12291, Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that within the scope of the Regulatory Flexibility Act, these regulations will not have a significant economic impact on a substantial number of small entities. These regulations merely conform to the standards already in place for providers under the health care programs administered by the Department of Health and Human Services, such as Medicare and Medicaid.

List of Subjects in 5 CFR Part 890

Administrative practice and procedure, Government employees, Health benefits, Retirees, Worker's compensation.

U.S. Office of Personnel Management.

Constance Berry Newman,

Director.

Accordingly, OPM is amending part 890 of title 5 of the Code of Federal Regulations as follows:

PART 890—FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

1. The authority citation for part 890 is revised to read as follows:

Authority: 5 U.S.C. 8913; § 890.102 also issued under 5 U.S.C. 1104 and Pub. L. 100-654; § 890.803 also issued under sec. 303 of Pub. L. 99-569, 100 Stat. 3190, sec. 188 of Pub. L. 100-204, 101 Stat. 1331, and sec. 204 of Pub. L. 100-238, 101 Stat. 1744; Subpart J also issued under title I of Pub. L. 100-654.

2. Subpart J is added to part 890 to read as follows:

Subpart J—Debarments, Civil Monetary Penalties and Assessments Imposed Against Providers

Sec.

890.1001 [Reserved]
890.1002 Definitions
890.1003 Standards for OPM determinations of excessive charges, overprescribing, and services or supplies of a poor quality in connection with claims presented under this chapter.
890.1004 Standards for determining either the period of debarment or the amount of civil monetary penalties or assessments.
890.1005 Effective dates and notices
890.1006-890.1009 [Reserved]

Subpart J—Debarments, Civil Monetary Penalties and Assessments Imposed Against Providers

§ 890.1001 [Reserved]

§ 890.1002 Definitions.

(a) For the purposes of this subpart, the terms *convicted* and *provider* have the meanings set forth in section 8902a of title 5, United States Code.

(b) *Debarment* means that services or supplies furnished by a specific provider will no longer be reimbursed by the various carriers or health plans under title 5, United States Code, or this Part.

(c) *Sanction* means any of the three penalties provided by section 8902a of title 5, United States Code, for the offenses cited therein. The three penalties are debarment, civil monetary penalties of not more than $10,000 for any item or service involved, and assessments of not more than twice the amount claimed for each such item or service.

§ 890.1003 Standards for OPM determinations of excessive charges, overprescribing, and services or supplies of a poor quality in connection with claims presented under this chapter.

(a) *Basis for sanctions.* Section 8902a(c) of title 5, United States Code, provides OPM the authority to impose sanctions against health care providers for cited offenses against the FEHB Program.

(b) *Standards.* (1) In making a determination that a provider has charged for health care services or supplies in an amount substantially in excess of such provider's customary charges for such services or supplies, OPM may rely, in part, upon a statistical sampling of previous claims and requests for payment filed by that provider and obtained either from FEHB carrier files, other Government programs, private sector insurance sources or from the provider's own records. OPM shall take into consideration whether such charges deemed to be excessive are justified by unusual circumstances or medical complications requiring additional time, effort, or expense in localities in which it is acceptable medical practice to make an extra charge in such case.

(2) In making a determination that a provider has charged for health care services or supplies which are substantially in excess of the needs of the insured or which are of a quality that fails to meet professionally recognized standards for such services or supplies, OPM may rely, in part, upon reports, including sanction reports, from the following sources:

(i) The Professional Standards Review Organization or the Peer Review Organization for the area served by the provider;

(ii) State or local licensing or certification authorities;

(iii) Peer review committees of health plan carriers;

(iv) State or local professional societies; or

(v) Other sources deemed appropriate by OPM.

§ 890.1004 Standards for determining either the period of debarment or the amount of civil monetary penalties or assessments.

(a) In determining either the period of debarment or the amount of any civil monetary penalty or assessment, OPM shall take into account the specifics of section 8902a(e) of title 5, United States Code; i.e., the nature of any claims involved and the circumstances under which they were presented; the degree of culpability, history of prior offenses or improper conduct of the provider involved, and such other matters as justice may require.

(b) The following standards will be used when taking into account the factors listed in paragraph (a) of this section:

(1) *Criminal convictions.* The nature of the offense, the severity and magnitude of the crime, the extent of the provider's involvement and the provider's previous record, if any, will be of paramount importance in determining the period of debarment under 8902a(b) of title 5, United States Code.

(2) *Nature and circumstances of claims.* It shall be considered a mitigating circumstance if all the items or services subject to a determination under 8902a(c) of title 5, United States Code, included in the action brought under this part were of the same type and occurred within a short period of time, or were few in number and the total amount claimed was less than $1,000. It shall be considered an aggravating circumstance if such items or services were of several types, occurred over a lengthy period of time, were numerous (or the nature and circumstances indicate a pattern of claims for such items or services), or the amount claimed for such items or services was substantial.

(3) *Degree of culpability.* It shall be considered a mitigating circumstance if the claim was the result of an unintentional and unrecognized error in the process the provider followed in presenting claims, and corrective steps were taken promptly after the error was discovered. It shall be considered an aggravating circumstance if, for example, the provider knew or should have known he or she had previously been suspended from participation and such suspension was still in effect.

(4) *Prior offenses.* It shall be considered an aggravating circumstance if at any time prior to the presentation of the claim at issue in the debarment deliberations the provider was held liable for criminal, civil, or administrative sanctions in connection with the program covered by this part or any other public or private program of reimbursement for medical services.

(5) If there are substantial or several mitigating circumstances, OPM shall set any period of debarment at a minimum period of at least two years. If there are substantial or several mitigating circumstances, OPM shall set the aggregate amount of any civil monetary penalty and assessment at an amount equivalent to at least 25% of the maximums allowed by 8902a(c) of title 5, United States Code. However, unless there are extraordinary mitigating circumstances, the aggregate amount of the civil monetary penalty and assessment must be at least double the estimated amount of damages sustained by the FEHB Program as a result of the claim(s) in question.

(6) If there are substantial or several aggravating circumstances, OPM shall set a period of debarment at a minimum period of at least 4 years. If there are substantial or several aggravating circumstances, OPM shall set the aggregate amount of any civil monetary penalty and assessment at an amount equivalent to at least 75% of the maximum allowed by 8902a(c) of title 5, United States Code.

§ 890.1005 Effective dates and notices.

(a) If OPM proposes to invoke any sanctions under section 8902a (b) or (c) of title 5, United States Code, OPM will send written notice of its intent, including the reasons for the proposed sanction(s), the proposed duration of the debarment, if any, and the proposed amount of any civil monetary penalty or assessment to the provider and advise the provider of the right to a reconsideration within OPM.

(b) Within 30 days of the date of the notice, the provider may submit:

(1) Documentary evidence and written argument against the proposed sanction; or

(2) A written request to present evidence or argument orally to an OPM official.

(c) For good cause shown by the provider, OPM may extend the 30-day period.

(d) If, after the provider has exhausted the reconsideration rights within OPM or failed to exercise his or her right to reconsideration within OPM, OPM decides to invoke any sanctions, it will send written notice of its decision to the provider at least 30 days before the proposed effective date of the sanction(s). The written notice will set forth:

(1) The basis for the sanction;

(2) The duration of the debarment, if any, and the factors used in determining the duration;

(3) The requirements and procedures for reinstatement, if applicable;

(4) The amount of the civil monetary penalty or assessment, if any, and how such penalty and/or assessment was determined;

(5) The right to a hearing.

(e) If the right to a hearing is waived, OPM will implement the effective date of the sanction(s) as provided in the notice required by paragraph (d) of this section. If the right to a hearing is exhausted and OPM is upheld by the hearing officer, OPM shall set the date of the sanction(s) to become effective within 31 days of the final decision of the hearing officer.

§§ 890.1006-890.1009 [Reserved]

[FR Doc. 89-25460 Filed 10-27-89; 8:45 am]

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

7 CFR Part 1475

Emergency Livestock Assistance

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: An interim rule was published in the **Federal Register** on October 14, 1988 (53 FR 40206), which amended the regulations at 7 CFR part 1475, to implement the livestock emergency programs authorized by the Agricultural Act of 1949 (the 1949 Act) as amended by the Disaster Assistance Act of 1988, Public Law 100-387 (the 1988 Act). The interim rule provided that under these programs the Commodity Credit Corporation (CCC) may make assistance available to eligible owners of livestock who do not have adequate supplies of feed due to certain natural disasters.

The interim rule also deleted the then current regulations set forth at this part. This final rule adopts the interim rule with certain changes which will enhance the effectiveness of these programs. The final rule also amends 7 CFR part 1475 to set forth the regulations which relate to the use of price support loan collateral as assistance under title VI of the 1949 Act as amended by the Disaster Assistance Act of 1988.

EFFECTIVE DATE: October 30, 1989.

FOR FURTHER INFORMATION CONTACT: Harry D. Millner, Program Specialist, Emergency Operations and Livestock Programs Division, Agricultural Stabilization and Conservation Service, Department of Agriculture, P.O. Box 2415, Washington, DC 20013. Telephone: (202) 475-3605.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Department of Agriculture (USDA) procedures established in accordance with provisions of Departmental Regulations 1512-1 and Executive Order 12291 and has been classified "major." It has been determined that these program provisions will result in an annual effect on the economy of $100 million or more.

The title and number of the Federal Assistance Program to which this final rule applies are: Title—Commodity Loans and Purchases; Number 10.051 as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule since the CCC is not required by 5 U.S.C. 553 or

VOL 54 ISS 208 OCT 30 1989 UMI

any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

An Environmental Evaluation with respect to the livestock feed programs has been completed. It has been determined that this action is not expected to have any significant impact on the quality of human environment. In addition, it has been determined that this action will not adversely effect environmental factors such as wildlife habitat, water quality, and land use and appearance. Accordingly, neither an Environmental Assessment nor an Environment Impact Statement is needed.

This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

Comments Received

There were 23 letters submitted to CCC pertaining to the interim rule, with a total of 33 comments. These comments were submitted by farm associations, members of Congress, State departments of agriculture, farm bureaus, producer councils, and individuals.

1. There were a total of 5 comments expressing concern that producers who purchased Federal Crop Insurance Corporation (FCIC) crop insurance as a risk management tool are ineligible for full disaster assistance. The comments expressed concern that this would discourage the purchase of crop insurance and perpetuate government assistance to farmers in emergency situations. One of the comments suggested that provisions be made to reduce the livestock assistance to a producer only by the amount by which the sum of assistance and the net crop insurance indemnity payment exceeds 100 percent of the expected proceeds had there not been a disaster. These suggestions have been adopted in part.

In order to assure that sufficient assistance is provided to all livestock producers, it has been determined that beginning with the 1989 crop disaster, if a producer purchases crop insurance, the indemnity payment which is made to the producer will not be converted to feed grain equivalent (FGE) and considered as feed on hand or reduce the amount of loss suffered by the producer provided that the producer elects to take the appropriate option as provided in this part. Thus, the producer who purchases FCIC crop insurance for 1989 and subsequent years may also be eligible for full livestock feed assistance.

2. There were a total of 8 comments expressing concern that certain game birds, such as pheasants and other game birds, were not included in the definition of poultry. The 1949 Act defines livestock to mean cattle, sheep, goats, swine, poultry (including egg-producing poultry), equine animals used for food or in the production of food, fish used for food, and other animals designated by the Secretary of Agriculture (at the Secretary's sole discretion). Pheasants and other game birds are not normally kept in a domestic environment. These avian animals, unlike other eligible livestock species, are normally released for hunting and gaming purposes or otherwise kept for sporting or other purposes. Therefore, it has been determined that pheasants and other gaming birds will not be included as eligible livestock or poultry.

3. There were a total of 2 comments expressing concern about the daily feed allowance which was established by CCC for use in determining whether a producer has suffered a loss of production. One comment stated that the feed allowance should be adjusted according to weather conditions and submitted data showing that beef cattle need more total digestive nutrients for maintenance in colder climates than in warmer climates. Under the provisions of the interim rule, no adjustments in daily feed allowances are permitted relative to the section of the country or climatic conditions applicable to the producer.

While it is not feasible to base feed allowance adjustments according to weather conditions in certain parts of the country, it has been determined that there should be an upward adjustment made in the daily allowance per animal unit. Previous studies and evaluations done by USDA personnel concluded that 10 pounds of feed per day per animal unit was sufficient to maintain livestock through a disaster period, taking into consideration that the purpose of the livestock feed program is to maintain the affected livestock and not provide a tool for the livestock to be prepared for market by the producer through benefits derived from this program. However, because of improved techniques developed by industry and farmers in breeding, animal husbandry, identification of daily nutritional requirements, better analysis of energy contained in feeds, and related matters it has been determined that the 10 pounds feed grain equivalent FGE per day per animal unit shall be increased to 12.5 pounds (FGE) per day per animal unit or such lesser amount as determined by the State or county Agricultural Stabilization and Conservation (ASC) committee effective beginning with the 1989 crop disaster provided the producer elects to take the appropriate option provided in this part.

Another comment stated that livestock producers with both swine and cattle should not be put in the position where surplus hay restricts eligibility for emergency assistance for swine. Under the provisions of the interim rule, CCC reduces a swine producer's total feed allowance by taking into consideration any hay or pasture on hand if the producer has one or more animals that will consume the type of feed available. However, it has been determined that beginning with the 1989 crop disaster the producer with swine and/or poultry and grazing livestock will be given the option to designate whether the grazing livestock shall be included on the application for assistance in accordance with this part.

4. There were 2 comments expressing concern that transportation charges are not included as part of cost share when the charge is shown as a separate item on the producer's bill presented to the county Agricultural Stabilization and Conservation Service (ASCS) office for cost-share assistance. Under the provisions of the interim rule, the transportation cost is included as a cost-share item based on the point of delivery of the eligible feed. If the transportation cost is included as part of the bill submitted for cost share, then transportation is included. If the transportation cost is listed separately, it is not a cost-share item. Under the provisions of the 1949 Act, a producer is not reimbursed for the cost of the transportation of grain under the cost-share provisions, hence, it has been determined that it would not be consistent to provide for transportation cost to be included as a cost-share item as requested by these two commentors. For these reasons, it has been determined not to change these provisions of the interim rule.

5. There were 2 comments expressing concern that the transportation of livestock should be included as part of the livestock feed programs. Under the provisions of the 1949 Act, the Secretary of Agriculture determined not to implement this discretionary livestock transportation program. The 1949 Act provides in part that the Secretary of Agriculture may make available a livestock transportation program to producers not to exceed 50 percent of the cost of transporting livestock to and from grazing locations. It has been determined that with the present emergency livestock assistance programs, implementation of such a transportation program is not needed. Therefore, it has been determined not to include a livestock transportation program as a part of this final rule at this time but, rather, CCC will develop regulations which set forth the terms and conditions of such a program at such time as it is determined a livestock emergency exists which would warrant the implementation of such a program.

6. There were 3 comments expressing concerns that water projects were not included as part of the emergency livestock feed assistance programs. The comments stated that a program should be implemented because the current cost-share program on water projects have limited funding and time constraints. The comments include the statement that current water cost-share projects must be approved before construction can take place. They also stated that without cost share for water projects, water availability will be a much greater threat to next year's growing season. Under the provisions of the 1949 Act, the Secretary of Agriculture determined not to implement this discretionary provisions.

As noted above with respect to the implementation of the cattle transportation assistance provision of the 1949 Act, regulations regarding this special water project provision will be published at such time as it is determined that a livestock emergency exists which necessitates the implementation of such a program. The current emergency conservation program provides assistance to the producer for livestock water projects.

7. There were 5 comments stating that bees should be included as eligible livestock. These comments express concern that clover, alfalfa, and sunflower that normally produce the major honey crop were severely drought affected, and that there is an average number of pounds of honey per hive that would provide the basis for loss determination related to a bee producer's eligibility. They also stated that bees are a vital part of many facets of agriculture and without pollination by bees many crops would be nonexistent. The 1949 Act defines livestock to mean cattle, sheep, goats, swine, poultry (including egg-producing poultry), equine animals used for food or in the production of food, fish used for food, and other animals designated by the Secretary of Agriculture (at the Secretary's sole discretion). Bees are not considered as eligible livestock. In addition, generally beekespers do not produce feed on their farms for their bees. Therefore, they do not have the qualifying losses of production required for eligibility under the 1949 Act. For this reason, it has been determined not to include bees as eligible livestock.

8. There was 1 comment expressing concern that the definition of "premix" and "supplemental feed" as defined in the interim rule should be expanded. The comment stated that the current definition of "premix" limits the scope of the term and excludes certain practical, recognized uses of premix feed products. The comment suggested that the term "premix" be defined as a specialized mixture of vitamins, minerals, and other nutrients (which can be) included in complete feeds and dry and liquid supplemental feeds. The comment suggested that the term "supplemental feed" be defined as a feed used with another to improve the nutritive balance of performance of the total and intended to be: (1) Fed undiluted as a supplement to other feeds; (2) offered free choice with other parts of the ration separately available; or (3) further diluted and mixed to produce a complete feed. These comments have been adopted in part.

This final rule amends the interim rule to change the current definition of "premix" to be a formulation of one or more microingredients, such as vitamins, minerals, drugs, or other ingredients when one type of ingredient is evenly mixed with one or more other ingredients or a carrier. This final rule also amends the interim rule to change the definition of dry supplemental feed to be a dry feed ingredient, or combination of dry feed ingredients, derived as by-products from processing food and feed grains, oil seeds, meat, fish, citrus, sugar beets, and dairy products that are needed to balance or improve performance of the total feed ration.

Certain antibiotics, emulsifiers, hormones, minerals, and vitamins may be included. As a result of these changes producers can receive cost share on the kinds and types of feeds that best suit the producer's needs.

9. There were 2 comments expressing concern about the gross revenue limitation in the livestock feed programs. One comment strongly opposed this provision and believes it should not serve as the precedent for program eligibility for any program. Another comment, while not opposing a gross income threshold, suggested that the cost of purchased livestock should be subtracted from gross income before applying the $2.5 million test. Secondly, this person suggested that many farmers, feeders, and cattlemen made sound business and management decisions during the early summer of 1988 by enrolling in the existing feed assistance programs. At that time, the law did not provide for the limitation. The comment asked that these persons not be subject to the limitation. The 1949 Act provides that a person that has qualifying gross revenues in excess of $2,500,000 annually, as determined by the Secretary of Agriculture, shall not be eligible to receive any livestock feed program benefits. The 1949 Act also provides that the term "qualifying gross revenues" means: (1) If a majority of the person's annual income is received from farming and ranching operations, the gross revenue from the farming and ranching operations; and (2) if less than a majority of the person's annual gross revenue is received from all sources. It has been determined that there is no discretion in adopting this provision, accordingly the recommendation of these commentors cannot be adopted. This provision of the interim rule is amended, however, to clarify the manner in which 7 CFR parts 795 and 1497 are applicable to the provisions of 7 CFR part 1475 when the gross income determination is made for a person.

Since CCC has determined to make changes in these regulations, for the 1989 and subsequent crop disasters, CCC has determined to allow producers the option to receive assistance under one of two options. The first option is the program set forth in the interim rule, while the second option sets forth the program which contains the changes made in response to comments to the interim rule. These provisions, generally, are set forth at 7 CFR 1475.6(c), accordingly, the two options are as follows:

Option 1

A. Any loss of production otherwise computed will be reduced and feed on hand increased due to the receipt of other government benefits, including FCIC crop insurance indemnity payments with respect to feed normally grown by the owner.

B. The daily feed allowance will be 10 pounds of FGE per day per animal unit.

C. The cost-share rate will be 50 percent of the cost of purchased eligible feed not to exceed five cents per pound FGE.

D. All eligible livestock of the producer shall be taken into consideration in the application for assistance under this part.

Option 2

A. Any loss of production otherwise computed will be reduced and feed on hand increased due to the receipt of other government benefits, except FCIC

VOL 54 ISS 208 OCT 30 1989 UMI

crop insurance indemnity payments with respect to feed normally grown by the owner.

B. The daily feed allowance will be 12.5 pounds of FGE per day per animal unit.

C. The cost-share rate will be 42.5 percent of the cost of purchased eligible feed not to exceed five cents per pound FGE. If the producer elects to purchase CCC-owned grain the remaining allowance will be reduced by the result of multiplying the pounds of feed grain purchased times 1.176.

D. With respect to the producers with grazing livestock and any one or more of the following types of animals: Swine, poultry or fish, eligible livestock that do not normally graze or use forage will be considered separately in the application for assistance under this part.

Those producers electing this option will qualify for an increase in daily allowance per eligible animal unit from 10 pounds FGE to 12.5 pounds FGE at a reduced cost-share rate. This increase in daily allowance will increase the number of producers who are eligible for assistance and may increase the amount of assistance for those producers who are already eligible to receive assistance under this part. If the producer elects to use this option, reducing the cost share percentage to 42.5 percent, not to exceed 5 cents per pound, should not substantially affect the payments received by producers for purchased feed if the producer's assistance is based on feed needs.

This final rule provides at 7 CFR 1475.6(c) that for all applications filed for 1988 livestock crop year losses, the livestock producer's application must be computed using the criteria as originally set forth in this part.

This final rule provides at 7 CFR 1475.6(c) that for new and existing applications filed for the livestock feed programs for 1989 and subsequent years' livestock feed crop losses, the livestock producer shall have the option to select one, and only one, of the two options made available under this part.

This final rule also incorporates the provisions in the 1949 Act, as amended by the Disaster Assistance Act of 1989, which provide, at the option of the livestock producer, that a producer who is eligible to receive donated CCC-owned grain or to purchase CCC-owned grain may receive this assistance through the use of feed grain stored on the farm of the livestock producer that has been pledged as collateral for a price support loan made under the provisions of the 1949 Act. Accordingly, 7 CFR 1475.103 and 1475.202 are amended to reflect this change.

Based upon a review of the comments received and other changes, it has been determined that the interim rule should be adopted as a final rule with these changes. In addition, other changes are also made for clarity.

The information collection requirements of this subpart has been approved by the Office of Management and Budget (OMB) for the purposes of the Paperwork Reduction Act and OMB Number 0560-0029 has been assigned to 7 CFR part 1475.

Final Rule

Accordingly, the interim rule published on October 14, 1988, is adopted as a final rule with the following changes:

PART 7—EMERGENCY LIVESTOCK ASSISTANCE

1. The authority citation for 7 CFR part 1475 is revised to read as follows:

Authority: 7 U.S.C. 1421, 1427 and 1471–1471j; 15 U.S.C. 714b and 714c.

2. Section 1475.1 amended by revising the third sentence to read as follows:

§ 1475.1 General statement.

* * * These programs also provide feed assistance to eligible livestock owners for the preservation and maintenance of livestock in any county contiguous to a county that has implemented the livestock feed programs until the last day of the eighth month following the month that the livestock feed programs were implemented in the other county. * * *

3. Section 1475.3 Definitions is amended as follows:

a "Animal unit" is amended by revising paragraphs (3), (4), (6), (7), and (9);

b. "Dairy cow" is revised;

c. "Daily allowance" is revised;

d. "Dry supplemental feed" is added;

e. "Eligible livestock" is revised;

f. "Equine animals" is amended by revising paragraph (1);

g. "Feeding period" is revised;

h. "Liquid supplemental feed" is added;

i. "Owner" is amended by revising the first three sentences;

j. "Premix" is revised;

k. "Substantial loss of production" is amended by revising paragraph (2);

§ 1474.3 Definitions.

* * * * *

Animal unit * * *

(3) 1.00 unit-cattle, beefalo, buffalo, horses, or mules 1 year old or older;

(4) .50 unit-cattle, beefalo, buffalo, horses, or mules, six months old to 1 year old, donkeys 6 months old or older, and swine 1 year old or older;

* * * * *

(6) .20 unit-swine less than 6 months old and sheep and goats 1 year old or older;

(7) .14 unit-lambs or kids under 1 year old;

* * * * *

(9) .02 unit-turkeys, geese, chickens and ducks weighing less than 6 pounds.

Dairy Cow means a bovine animal which is owned or leased for the purpose of producing milk and has produced at least 1 calf.

* * * * *

Daily allowance means for all livestock, except fish for food, 10 pounds or 12.5 pounds of FGE per day per animal unit as provided in § 1475.6 of this subpart, or lesser amount as determined by the State or county ASC committee, except that for the 1989 and subsequent years' livestock feed crop losses due to a natural disaster, the producer may elect to take one and only one of the options available.

* * * * *

Dry supplemental feed means a dry feed ingredient, or combination or dry feed ingredients, derived as by-products from processing feed and feed grains, oil seeds, meat, fish, citrus, sugar beets, and dairy products that are added to other dry feed materials to improve the nutritional balance or performance or the total feed ration. Antibiotics, emulsifiers, hormones, minerals, and vitamins, as determined and announced by CCC are also included.

* * * * *

Eligible livestock means beef and dairy cattle, sheep, goats, swine, poultry (including egg producing poultry), equine animals used for food or in the production of food, and fish used for food. * * *

* * * * *

Equine animals * * *

(1) Used commercially for human food, or

* * * * *

Feeding Period Means

(1) For all livestock, except fish for food, the period beginning on the later of the date of application for assistance or the authorization of the implementation of the program and ending on the earlier date of when feed becomes available, or the end of the livestock feed program crop year, or the end of the grazing period if pasture (including wheat pasture) is the only crop produced.

(2) For fish for food the feeding period means beginning on the later of the date of the application for assistance, or the authorization for implementation of the program and ending on the earlier of the estimated date the producer intends to harvest the fish, or the anticipated date when water temperature in the pond is expected to be 54 degrees Fahrenheit or less, and or the current feeding period established for other eligible livestock if other livestock are included on the application, or the end of the livestock program crop year.

* * * * *

Liquid supplemental feed means that which contains protein urea or other non-protein nitrogen, minerals, and vitamins that are added to molasses or other liquids resulting in a product that is mixed, handled, and fed in a liquid form. They may also include such products as emulsifiers for fat, certain antibiotics, and hormones.

* * * * *

Owner means the person who is actively engaged in farming as determined in accordance with part 1497 of this chapter, who receives 10 percent or more of the owner's total gross income from the production of grain or livestock or the person who jointly owns the eligible livestock to be fed with the eligible feed which is to be purchased or acquired through donation in accordance with this part or with respect to which cost-share assistance is provided in accordance with this part. A person who pledges livestock as security for a loan shall be considered as the owner for the purpose of this part if all other requirements of this part are met. Notwithstanding any other provisions of this section, livestock leased under a contractual agreement which has been in effect at least three months for poultry or fish and six months for other livestock on the date of application for assistance under this part requires the lessee to furnish the feed for such livestock and provides for a beneficial interest in such livestock such as the right to market a share of the increase shall be considered as being owned by the lessee. * * *

* * * * *

Premix means a formulation of one or more microingredients, such as vitamins, minerals, drugs, or other ingredients when one type of ingredient is evenly mixed with one or more other types of ingredients or with a carrier. One vitamin mixed together solely with another kind of vitamin, or one mineral mixed together solely with another kind of mineral is not considered a premix.

* * * * *

Substantial Loss of Production * * *

(2) Farming practices not recognized as being normal in the area shall not be included in determining a substantial loss of production. Loss of feed production on crop land leased by the producer, under a new lease, after the beginning of the livestock feed program crop year shall not be included in determining a substantial loss of production unless otherwise allowed by CCC. Loss of feed production on pasture land leased by the producer, under a new lease, less than 90 days before filing of the CCC–642 by the producer shall not be included in determining a substantial loss of production unless otherwise allowed by CCC.

* * * * *

4. Section 1475.4 is amended by revising the introductory text of paragraph (a) and revising paragraphs (a)(4) and (d) to read as follows:

§ 1475.4 Program availability.

(a) Whenever the Governor of a State determines that a livestock emergency due to a natural disaster exists in a State, or an area of the State, or a County ASC committee determines that such an emergency exists in the county or area within the county the Governor or the county ASC committee may submit a request for a determination by the Secretary of Agriculture, of a livestock emergency in the State, county, or area thereof and for emergency livestock feed assistance under this part. A determination that a livestock emergency exists due to natural disaster may also be made for a State, county, or area thereof by the Secretary of Agriculture whether or not a request for assistance is submitted. The request of a Governor or county ASC committee for a livestock emergency determination and for emergency livestock feed assistance may include recommendations to the Secretary of Agriculture those options that will fully use feed available through local sources. The request submitted by the county committee for a livestock emergency determination must be submitted to the State committee and must contain:

* * * * *

(4) A report by the county committee and a State committee representative stating existing production conditions;

* * * * *

(d) Owners in any county contiguous to a county that has been designated as a livestock emergency county and has implemented the livestock feed programs shall have until the last day of the eighth month following the month that the other county implemented the livestock feed programs to be eligible to apply for emergency livestock assistance under this part.

5. Section 1475.6 is amended by revising paragraphs (c)(2) and (3)(i); adding paragraph (c)(3)(iii), revising paragraph (d)(5); revising paragraphs (e)(12) and (14); revising paragraphs (g)(1)(i)(A) and (ii); revising paragraphs (g)(2)(i) and (ii); revising paragraph (h)(4) to read as follows:

§ 1475.6 Application and approval.

* * * * *

(c) * * *

(2) All applications for assistance due to production losses because of a livestock emergency determined to exist prior to January 1, 1989, shall be filed for payment or benefit on or before March 31, 1989. Any determination of eligibility and assistance for applications filed for 1988 crop year production losses because of a livestock emergency shall be based on the following:

(i) Any loss of production computed shall be reduced and feed on hand increased due to the receipt of other government benefits, including FCIC crop insurance indemnity payments less premiums with respect to feed normally grown by the owner;

(ii) A daily feed allowance of 10 pounds of FGE per day per animal unit;

(iii) A cost-share rate of 50 percent of the cost of purchased eligible feed not to exceed five cents per pound FGE;

(iv) All eligible livestock in the application for assistance under this part.

(3) * * *

(i) Applications must be filed prior to January 1, of the calendar year following the year in which the livestock emergency occurred; and

* * * * *

(iii) All 1989 and subsequent crop years' applications may be computed at the producer's option by using the provision in paragraph (c)(2) of this section or the following provisions:

(A) Any loss of production otherwise computed shall be reduced and feed on hand increased due to the receipt of other government benefits, except FCIC crop insurance indemnity payments with respect to feed normally grown by the owner;

(B) A daily feed allowance of 12.5 pounds of FGE per day per animal unit;

(C) A cost-share rate of 42.5 percent of the cost of purchased eligible feed not to exceed five cents per pound FGE;

(D) The producer with swine, poultry or fish and grazing livestock shall have the option to include only eligible livestock that do not normally graze or

VOL 54 ISS 208 OCT 30 1989 UMI

use forage, in the application for assistance under this part; and

(E) A producer who elects to purchase CCC-owned feed grain will have the remaining allowance on the application reduced by the result of multiplying the amount of CCC-owned grain purchased times 1.176.

(d) * * *

(5) Any loss of production otherwise computed shall be reduced due to the receipt of other government benefits, except as provided in paragraph (c)(3)(iii)(A)–(E) of this section for FCIC crop insurance indemnity payments and 1988 and 1989 crop disaster payments which are paid the owner with respect to livestock feed normally grown by the owner provided.

(e) * * *

(12) Any prior or current year feed sold or delivered for sale during the current crop year including any current year grain pledged as collateral for a CCC price support loan;

* * * * *

(14) Except as otherwise provided in this section, any other feed that may be determined by approving officials in accordance with instructions issued by DASCO including adjustments based upon other government benefits such as crop disaster payments except for 1988 and 1989 crop years which are paid to the owner.

(i) FCIC indemnity payments less the premium, if applicable in accordance with the election made by the producer under paragraph (c) of this section; and

(ii) Crop disaster payments which are paid to the owner except for 1988 and 1989 crop years, if applicable in accordance with the election made by the producer under paragraph (c) of this section; and paragraph (c)(3)(iii)(A)–(E) of this section.

* * * * *

(g)(1)(i) * * *

(A) The smaller of 12.5 or 10 pounds per day per animal unit, as applicable in accordance with paragraph (c) of this section, or a lesser quantity determined to be adequate by the State or county committee, times

* * * * *

(ii) The net feed allowance determined with respect to an owner shall be the gross feed allowance less the total quantity of feed available including feed grain, hay, silage, pasture and range converted to FGE and any other source of feed determined by the appproving official to be available to the owner for feeding eligible livestock during the feeding period.

* * * * *

(2) * * *

(i) Determining the estimated average weight of the fish at the time of application;

(ii) Determining the estimated average weight of the fish on the ending date of the feeding period.

* * * * *

(h) * * *

(4) All applications forwarded to a higher authority for consideration shall be accomplished by county and State committee recommendations, as may be applicable. No application shall be approved unless the owner meets all eligibility requirements. Information furnished by the applicant and any other information, including knowledge of the county and State committee members concerning the owner's normal operations, shall be taken into consideration in making recommendations and approvals. If information furnished by the owner is incomplete or ambiguous and sufficient information is not otherwise available with respect to the owner's farming operations in order to make a determination as to the owner's eligibility, the owner's application shall not be approved until sufficient additional information is provided by the owner.

* * * * *

6. Section 1475.7 is amended by revising paragraphs (a)(2) and (3) to read as follows:

§ 1475.7 Adjustment of total allowance.

(a) * * *

(2) If there is an increase or a reduction in the number of the owner's eligible livestock, this fact shall be promptly reported to the approving official and such official shall make an adjustment in the owner's net allowance. This increase or reduction shall be made by revising the net allowance on the application by the result of multiplying the amount of the change in animal units, times the number of days remaining in the feeding period, times the daily allowance. This adjusted net allowance may be further adjusted by the approving official in order to establish a total allowance which the approving official determines to be adequate. After adjusting the net allowance and recomputing the total allowance, the county ASCS office shall notify the owner of the current total allowance.

(3) If, due to a change in total allowance, an excess amount of assistance was provided to the owner, the owner must refund such excess including applicable interest as determined in accordance with § 1475.16 of this subpart.

* * * * *

7. Section 1475.8 is amended by revising (d)(1)(i) to read as follows:

§ 1475.8 Disposition of feed.

* * * * *

(d)(1) * * *

(i) With respect to purchased CCC-owned feed grain, the difference between the price paid for such feed grain and the posted county price thereof, on the date the payment was received, or such other value as determined by CCC, based on the price of such type of feed grain sold in the county where the application was made; and

* * * * *

8. Section 1475.9 is revised to read as follows:

§ 1475.9 Termination and suspension of program.

The county committee may at any time during the operation of the program recommend suspension or termination of the program. The State committee may at any time during the operation of the program suspend or terminate the program with the concurrence of DASCO. DASCO may suspend or terminate the program at any time. The suspension or termination of the program in a county shall not apply to any assistance approved prior to the effective date of the suspension or termination of the program. Producers who filed an initial application prior to the termination of the program shall be eligible to file subsequent applications.

§§ 1475.12 through 1475.20 [Redesignated]

9a. Sections 1475.12 through 1475.20 are redesignated as follows:

Old section	New section
1475.12	1475.13
1475.13	1475.14
1475.14	1475.15
1475.15	1475.17
1475.16	1475.18
1475.17	1475.19
1475.18	1475.20
1475.19	1475.21
1475.20	1475.22

9b. New § 1475.12 is added to read as follows:

§ 1475.12 Assignments of payments

Payments which are earned by a producer under the livestock feed programs may be assigned in accordance with the provisions of 7 CFR part 709.

10. New § 1475.16 is added to read as follows:

§ 1475.16 Refunds to CCC.

(a) In the event there is a failure to comply with any term, requirement, or condition for payment arising under this part, and if any refund of a payment of CCC shall otherwise become due in connection with this part, all payments made under this part to any person shall be refunded to CCC, together with interest and late payment charges as provided for in this paragraph.

(b) Any person who receives benefits in accordance with this part, who has been determined to be ineligible to receive such payments shall be jointly and severally liable for any refund, including related charges, which is determined to be due CCC for any reason under the terms and conditions of this part.

(c) Interest shall be charged with respect to any refund which is determined to be due CCC because of actions on the part of the producer as provided in part 1403 of this chapter, at the interest rate applicable to CCC Commodity loans on the date the payment or benefit was received until such time as late-payment charges become applicable, shall accrue from the date of the disbursement by CCC or with respect to benefits made in accordance with this part, the date payment was received for the grain shall accrue from the date of such disbursement or payment was received. Late-payment charges shall be assessed in accordance with the provisions of part 1403 of this chapter.

11. Newly designated § 1475.20(b) is revised to read as follows:

§ 1475.20 Benefits limitation.

* * * * *

(b) (1) Notwithstanding paragraph (a) of this section, for the 1988 calendar year only, the amount of assistance received by a person, as defined in part 1497 of this title, shall be determined based on the date of sale as shown on the sales receipt for such assistance.

(2) For persons who applied for assistance under this part prior to August 26, 1988:

(i) All receipts with a date of sale between August 26, 1988, and January 1, 1989, which is paid during calendar year 1988 shall be subject to the $50,000 limitation for calendar year 1988;

(ii) All receipts with a date of sale on or after August 26, 1988, which is paid after January 1, 1989, shall be subject to the $50,000 payment limitation for the calendar year in which the payment is made; and

(iii) All receipts with a date of sale prior to August 26, 1988, shall not be subject to payment limitation regardless of when the payment is made.

(3) For persons who applied for assistance under this part on or after August 26, 1988, for the purposes of applying the maximum payment limitation provision for a calendar year, all assistance made on the basis of submitted sales receipts shall be deemed to have been paid in the calendar year in which the cost-share payment is processed.

* * * * *

12. Newly designated § 1475.22 is revised to read as follows:

§ 1475.22 Paperwork Reduction Act assign numbers.

The information collection requirements contained in these regulations (7 CFR part 1475) have been approved by OMB under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB Number 0560–0029.

Subpart—Livestock Preservation Donation Program

13. Section 1475.101 is amended by revising paragraph (b) to read as follows:

§ 1475.101 General statement.

* * * * *

(b) In order to be eligible to participate in the program, an owner of livestock must have suffered a substantial loss of current year production of feed and of any purchased feed. The objective of the program is to provide CCC-owned feed grains to livestock owners who are financially unable to purchase feed, or to otherwise participate in any other program authorized under this part. The owner must establish to the satisfaction of the approving official that:

(1) Without assistance the owner's livestock would perish or be sold at distress prices; and

(2) The owner has insufficient cash or credit to buy feed for eligible livestock.

14. Section 1475.102 is amended by renumbering paragraphs (a)(1) through (a)(5), as (a)(2) through (a)(6), respectively and adding a new paragraph (a)(1) to read as follows:

§ 1475.102 Eligibility.

(a) * * *

(1) The livestock owners whose need for replacing and repairing losses of buildings, equipment, supplies, and other related matters will leave insufficient cash or credit to buy feed for livestock.

* * * * *

15. Section 1475.103 amended by revising paragraph (a) and adding paragraph (e) to read as follows:

§ 1475.103 Assistance.

(a) The livestock owner shall establish that the livestock operation and the owner's operation have been so damaged by the disaster that sufficient cash or credit does not exist which may be used to purchase necessary feed grain at present market prices. The owner shall not sell or dispose of in any way, except for feed for the owner's livestock, CCC-donated feed grain. If all donated grain has not been fed by the owner by the end of the emergency period, the owner shall reimburse CCC at a rate equal to the value of the feed grain, as determined by CCC, on the date the feed grain was made available to the livestock owner for any CCC-donated grain which is on hand after the end of the emergency period that exceeds a 10-day supply.

* * * * *

(e) An owner may elect to receive eligible feed grain under the provisions of this subpart from feed grain stored on the livestock owner's farm if such grain has been pledged as collateral for a price support loan. Payment for such feed grain shall be made at the county ASCS office where the loan application was filed. Feed grain purchased by the owner shall not be exchanged for any ingredient, service, cash, credit, or any other thing of value.

Subpart—Emergency Feed Assistance Program

16. Section 1475.202 is amended by renumbering paragraphs (e)(1) and (e)(2) as (e)(2) and (e)(3), respectively; adding a new paragraph (e)(1); revising the third sentence in paragraph (g) and; revising paragraph (h) to read as follows:

§ 1475.202 Sale of CCC-owned grain.

* * * * *

(e)(1) An owner may elect to receive eligible feed grain under the provisions of this subpart from feed grain stored on the livestock owner's farm if such grain has been pledged as collateral for a price support loan. Payment for such feed grain shall be made at the county ASCS office where the loan application was filed. Feed grain purchased by the owner shall not be exchanged for any ingredient, service, cash, credit, or any other thing of value.

* * * * *

(g) * * * With respect to such assistance provided for any livestock emergency determined to occur on or

BEST COPY AVAILABLE

VOL 54 ISS 208 OCT 30 1989 UMI

after January 1, 1989, the sales price of eligible feed grain shall be 50 percent of the posted county price determined by CCC in the county in which the feed grain is stored.

(h) The quantity of feed grain delivered to an owner shall not exceed the total quantity approved for sale by CCC by more than 5 percent. Differences in quantity between the grain delivered to the owner and the quantity of grain described in the delivery order issued to the warehouseman or handler that was removed from the delivery point in excess of 105 percent shall be considered open stocks and shall be settled between the livestock owner and the warehouseman. For any livestock emergency determined to exist prior to January 1, 1989, any excess in quantity of grain delivered to the livestock owner over the quantity of feed grain described in the delivery order issued to the warehouseman or handler between 100 and 105 percent shall be paid by the owner to CCC at 75 percent of the current basic county loan rate established for the commodity in the county in which the feed grain was stored on the date the DF–17 was issued. For any livestock emergency determined to occur on or after January 1, 1989, the differences in quantity between the grain delivered by the livestock owner and the quantity of feed grain described in the delivery order issued to the warehouseman or handler between 100 and 105 percent should be paid by the owner to CCC at 50 percent of the posted county price determined by CCC for the commodity in the county in which the feed grain was stored.

* * * * *

Subpart—Emergency Feed Program

17. Section 1475.302 is amended by revising the first sentence of paragraph (b); revising paragraph (d) (3)(i) and (4)(i) to read as follows:

§ 1475.302 Cost-share assistance.

* * * * *

(b) The rate of cost-share assistance shall be 50 percent or, if applicable, 42.5 percent of the cost of eligible feed not to exceed five cents per pound FGE dependent upon the appropriate option elected by the producer that best suits his livestock operation as provided in § 1475.6(c)(3) of this part. * * *

* * * * *

(d) * * *

(3) * * *

(i) 50 percent or, if applicable, 42.5 percent of the cost of grazing per eligible animal unit per day dependent upon the appropriate option elected by the producer that best suits his livestock operation as provided in § 1475.6 (c)(3) of this part, or

* * * * *

(4) * * *

(i) 50 percent or, if applicable, 42.5 percent of the cost per eligible animal unit per day dependent upon the appropriate option elected by the producer that best suits his livestock operation as provided in § 1475.6 (c)(3) of this part, or

* * * * *

Subpart—Prickly Pear Cactus Burning Program

18. Section 1475.501 is revised to read as follows:

§ 1475.501 General statement.

This subpart sets forth the terms and conditions of the Prickly Pear Cactus Burning Program. This program shall be in effect only upon a determination that a livestock emergency exists in a State, county, or area and it has been announced that this program is in effect. Information regarding the availability of the program in a county may be obtained from State, and county ASCS offices. The objective of the program is to provide cost-share assistance not to exceed 50 percent of the cost of propane, butane, or kerosene used to burn the spines from prickly pear cactus to make it suitable for livestock feed.

19. Section 1475.502 is amended by adding the definition "Kerosene".

§ 1475.502 Definitions.

* * * * *

Kerosene means a flammable hydrocarbon oil obtained by distillation of petroleum and used as a fuel.

* * * * *

20. Section 1475.503 is revised to read as follows:

§ 1475.503 Eligibility

A livestock owner may be approved to participate in the program if the livestock owner has prickly pear cactus on his or her normal holdings, eligible livestock to use the burned prickly pear cactus and executes the certification contained in form CCC–640.

21. Section 1475.504 is amended by revising paragraph (a) to read as follows:

§ 1475.504 Assistance.

(a) The maximum amount of cost-share assistance under this program shall be limited to 50 percent of the cost of butane, propane, or kerosene used to burn the prickly pear not to exceed 14 cents per day per animal unit.

* * * * *

Signed at Washington, DC on October 24, 1989.

Keith D. Bjerke,

Executive Vice President, Commodity Credit Corporation.

BILLING CODE 3410–05–M

Food Safety and Inspection Service

9 CFR Part 381

[Docket No. 88–011F]

RIN 0583–AA52

Requirements for Imported Poultry Products

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This rule implements the provisions of the Food Security Act of 1985, Public Law 99–198, that amended the Poultry Products Inspection Act (PPIA). The rule amends the poultry products inspection regulations to specifically require foreign countries to implement a residue sampling and testing program at the point of slaughter for poultry and poultry products offered for importation into the United States. The rule also amends the regulations to make clear that all inspection, sanitation, quality, species verification, and residue standards that are applied to imported poultry products must meet the same standards as those applied to poultry and poultry products produced in the United States.

EFFECTIVE DATE: November 29, 1989.

FOR FURTHER INFORMATION CONTACT: Dr. Lawrence Skinner, Director, Foreign Programs Division, International Programs, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250 (202) 447–8933.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

The Administrator has determined in accordance with Executive Order 12291 that this rule is not a "major rule." It will not result in an annual effect on the economy of $100 million or more. There will be no major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and it will not have a significant effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The rule affects countries

eligible to export poultry or poultry products to the United States. Currently, only Canada, France, Hong Kong, Great Britain, and Israel are eligible to export poultry or poultry products to the United States. Each of the five eligible countries has implemented the requirements for residue control and species identity programs for poultry products. On-going review activities by Agency technical experts have confirmed that these programs are in place and operating. Since the requirements are already in place and operating, no economic impacts are contemplated for exporting countries, domestic producers, or importers.

Effect on Small Entities

The Administrator has determined that this rule will not have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601), because the requirements have already been implemented by the affected foreign entities.

Background

Section 17 of the Poultry Products Inspection Act (PPIA) (21 U.S.C. 466) prohibits the importation into the United States of slaughtered poultry, or parts thereof, unless they are healthful, wholesome, fit for human food, not adulterated, and contain no dye, chemical, preservative, or ingredient which renders them unhealthful, unwholesome, adulterated, or unfit for human food, and unless they also comply with rules and regulations made by the Secretary to assure that imported poultry and poultry products comply with the standards provided for in the Act. The regulations addressing imported poultry or poultry products are contained in 9 CFR part 381, subpart T (9 CFR part 381 *et seq*). In these regulations the Administrator has established procedures by which foreign countries desiring to export poultry or poultry products to the United States may become eligible to do so.

Section 381.196 of the poultry products inspection regulations (9 CFR 381.196) provides that a poultry inspection system maintained by a foreign country, with respect to establishments preparing products in that country for export to the United States, must ensure compliance of such establishments and their poultry products with requirements at least equal to all of the provisions of the PPIA and the regulations that are applied to official establishments in the United States and their poultry products. In addition, these regulations provide for certain other system requirements as a means for FSIS to assure that eligible foreign countries are complying with on-going conditions of eligibility. FSIS has also implemented internal Agency programs to assure that products being offered for importation into this country meet the same standards as products produced and marketed domestically. These programs are described under the section entitled "Continuing Oversight of Eligible Countries."

Export Eligibility Requirements

The Foreign Programs Division, International Programs, of FSIS has primary responsibility for determining that countries producing poultry or poultry products for export to the United States have inspection programs that are designed to assure that all such exports are safe, wholesome, unadulterated and not misbranded and comply with all other provisions of the PPIA and regulations thereunder (9 CFR part 381 *et seq*.).

To determine eligibility, FSIS conducts a complete evaluation of the country's inspection system. The evaluation consists of two major parts: A review of foreign system documents, and an on-site review of the country's inspection system operations. As part of the document review process, a country's laws are evaluated to assure, among other things, that they provide for inspection and certification of the wholesomeness of products intended for export to the United States; that there are adequate controls over ineligible product to prevent its export; and that the country has adequate controls to prevent a person convicted of wrongdoing from being connected with a firm exporting product to the United States. Documents describing the country's poultry inspection program are also reviewed to ensure that it has the legal authority to impose requirements at least equal to those of the United States with respect to the following: (1) Ante-mortem inspection of poultry for slaughter; (2) post-mortem inspection of poultry carcasses and parts thereof at the time of slaughter; (3) official controls by the national government over establishment construction, facilities, and equipment; (4) direct and continuous supervision of slaughter activities and product preparation by the assignment of inspectors to establishments to assure that adulterated or misbranded poultry products are not processed for export to the United States; (5) maintenance of a single standard of inspection and sanitation throughout all certified establishments and complete separation of certified and non-certified establishments; (6) official controls over condemned product; and (7) other matters for which requirements are contained in the Act or regulations thereunder.

If the document review is satisfactory, an on-site review is conducted using a multi-disciplinary team composed, typically, of a review team leader, veterinarian, chemist, engineer and food technologist, to evaluate all aspects of the country's program. The review is designed to fully explore areas determined to require more detailed evaluation and also to allow FSIS to observe the inspection system in its daily operation.

Continuing Oversight of Eligible Countries

Once the poultry inspection system of a foreign country has been certified by the Agency as eligible to export products to the United States, the individual establishments operating within that country desiring to export products to the United States must apply to their national inspection authorities for certification. The chief inspection official of the foreign country must in turn certify to FSIS that each establishment authorized to export products to the United States meets all the applicable standards. This certification is valid for a period of 1 year or less if standards are not maintained. At the beginning of each year, a responsible official of the foreign country must recertify each establishment (9 CFR 381.196(a)(3)).

The daily operation of a certified foreign establishment is similar to the operation of a U.S. domestic establishment. There is routine daily inspection conducted by inspectors authorized by the foreign inspection program. These inspectors conduct inspection of the operations at the foreign establishment including slaughter, sanitation, processing, labeling, and the disposition of inedible and condemned products.

FSIS personnel conduct periodic on-site reviews of foreign inspection systems. The reviews focus on the full spectrum of risks to the production and processing of acceptable poultry products and how the foreign inspection system controls these risks. The on-site system review provides FSIS with continued assurance that the foreign country is maintaining an inspection system that is at least equal to the inspection system of the United States.

The system review includes visits to certified processing and slaughter establishments, and the foreign inspection system's analytical laboratories. Reviewers observe the operations at each site and document

VOL 54 ISS 208 OCT 30 1989 UMI

findings regarding the degree of risk of product wholesomeness associated with the activities and practices observed. All poultry and poultry products being exported to the United States are certified by a responsible official of the exporting country's inspection program as safe, wholesome, unadulterated, and properly labeled. The certification is an additional assurance that the products have been prepared under a system that is at least equal to the U.S. domestic system.

FSIS import inspectors reinspect shipments of poultry and poultry products on a sample basis on arrival in the United States to assure that the poultry or poultry products meet the same standards applied to domestic poultry and poultry products. Reinspection of product is directed by FSIS's computerized Automated Import Information System (AIIS) which stores daily reinspection results from all FSIS port of entry (POE) inspection locations, residue and species laboratory sampling histories for each exporting country, and product compliance histories for each exporting plant. The AIIS uses this information to determine the amount of poultry or poultry products to be examined and the specific reinspection procedures to be applied to a particular shipment. POE reinspection can include testing or examination for any combination of the following: species verification, residue levels, mishandling of product, condition of product, appropriate labeling, and compliance with USDA standards of identity or composition.

The POE reinspection is an additional means to assure that the inspection system of a foreign country exporting poultry or poultry products to the United States is functioning properly. Any shipment of poultry or poultry products found unacceptable is refused entry and must be reexported within a prescribed time period or destroyed for human food purposes.

The Food Security Act of 1985

On December 23, 1985, Public Law 99-198, The Food Security Act of 1985, was enacted (hereinafter referred to as the 1985 Farm Bill). Section 1701 of Public Law 99-198 amended section 17 of the Poultry Products Inspection Act (PPIA) (21 U.S.C. 466) to require residue testing and species verification of imported poultry or parts or products. This legislation is comparable to an amendment to the Federal Meat Inspection Act (FMIA) provided by the Agriculture and Food Act of 1981 (Pub. L. 97-98) that mandated residue and species verification for imported meat products.

Section 1701 of the 1985 Farm Bill adds a new subparagraph (d) to section 17 of the PPIA as follows:

(d) (1) Notwithstanding any other provision of law, all poultry, or parts or products thereof, capable of use as human food offered for importation into the United States shall:

(A) be subject to the same inspection, sanitary, quality, species verification, and residue standards applied to products produced in the United States; and

(B) have been processed in facilities and under conditions that are the same as those under which similar products are processed in the United States.

(2) Any such imported poultry article that does not meet such standards shall not be permitted entry into the United States.

(3) The Secretary shall enforce this subsection through:

(A) random inspection for such species verification and for residues; and

(B) random sampling and testing of internal organs and fat of carcasses for residues at the point of slaughter by the exporting country, in accordance with methods approved by the Secretary.

The primary purpose of the legislation was to add a provision to the PPIA that would require foreign countries currently exporting or desiring to export poultry or poultry products to the United States to develop and implement a program for the sampling and testing of residues. This new requirement would apply the requirements for residue testing that were specified in the Food and Agriculture Act of 1981 for imported meat products to imported poultry products.

Comments on the Proposed Rule

Therefore, on May 1, 1987, FSIS published a proposed rule (52 FR 15060) to implement the provisions of the 1985 Farm Bill with regard to requirements for poultry products intended for export to the United States. FSIS received 31 comments in response to the proposed rule: 7 in favor and 24 not in favor. Those commenters in support of the proposed rule included 2 industry members, 3 trade associations, 1 government agency and 1 foreign government agency. Those commmenters not in support of the proposed rule included 14 industry members, 8 Members of Congress, on behalf of one or more of the 14 industry members, and 2 trade associations. The following are the issues raised by the commenters and FSIS's response to each.

Comment: All of the opposing commenters objected to FSIS's interpretation of the language in the Farm Bill which states that a foreign inspection system be "the same as" the United States inspection system before product can be imported. These commenters felt that the phrase should be distinguished from "at least equal to" because the latter phrase would allow for subjective evaluation of foreign country requirements, would permit standards less than those of the United States, would create an unfair competitive advantage for foreign poultry products and would result in inferior products entering the United States.

Response: As a result of the legislation, the PPIA does provide that imported poultry and poultry products must comply with certain standards which are "the same as" those applicable to products produced in the United States. However, this does not mean that all the regulations of a foreign country must be precisely, word for word, "the same as" those in the United States. In our view, the Act does not prohibit a foreign country from having requirements more stringent than those applicable to products produced in the United States. If a requirement is narrow and specific (e.g., a product standard, maximum water intake level), it can be relatively easy to determine whether the foreign country's requirement is "the same as" ours. However, if our requirement is general and is applied on a case-by-case basis (e.g., facility requirements to preclude adulteration), the requirement can be met by a similarly general requirement. A general requirement permits variations within an established framework. FSIS applies "the same as" requirement by assessing whether the alternative procedures, even if they employ different inspectional techniques, are at least equal to the requirements applicable to domestically produced product. That is, the means of achieving products the same as ours in a foreign country will, in some respects, vary from the means employed in the United States. Interpretation of the law in this way provides the only reasonable basis for comparing inspection systems, since literal application of the term "the same as" would prohibit all imports of poultry products from foreign countries and would be nothing more than a non-tariff trade barrier. The USDA presently recognizes the poultry inspection systems in five countries (Canada, France, Israel, Great Britain and Hong Kong). Again, literal application of the term "the same as" would require the USDA to withdraw its recognition of those countries' eligibility to ship poultry and poultry products to the United States. USDA does not believe it was the intent of Congress that such action be taken.

These foreign inspection systems have evolved in widely varying cultural and political environments under various animal health, public health and food production circumstances. This has resulted in a variety of specific procedures and processes used in maintaining national inspection controls. The quality of the finished product is what is important and decisive. Nonetheless, there are certain features that any system must have to be considered "the same as" ours. These basic requirements are currently in FSIS regulations (9 CFR 381.196).

Comment: One commenter stated that the language in the proposed § 381.196(a)(2)(iv)(*c*) was not as comprehensive as the wording contained in the preamble. As such, the commenter felt that foreign countries could choose not to "identify" substances for testing in their annual residue testing plan.

Response: Each country is required to provide comprehensive details of its poultry production practices, including the drugs and compounds used. FSIS technical experts review this information and each country's annual residue testing plan. If FSIS identifies a compound that should be included in the testing plan, but is not, FSIS will request that the country include the compound in its residue testing plan.

Final Rule

For the reasons discussed in the preamble, FSIS is amending § 381.196 of the poultry products inspection regulations (9 CFR part 381) to clarify that the inspection, sanitation, quality, species verification, and residue standards applied to foreign poultry or parts or products offered for importation into the United States must meet the same standards applied to domestic poultry products. Section 381.196 is further amended to require each foreign country desiring to establish or maintain eligibility for the importation of poultry or poultry products into the United States to implement a residue program. Such program must provide for the point-of-slaughter random sampling of carcasses, including the internal organs and fat, of poultry intended to be offered for importation into the United States and the testing of such carcasses, internal organs, and fat, for the presence of residues of substances known to be in use in the production of poultry and poultry products in the particular exporting country or otherwise known to be present in the environment of such country. Identification of such substances is the responsibility primarily of the authorities of the exporting country. However, FSIS, as part of its obligation to assure that imported poultry and poultry products meet the same standards applied to such domestic products, may request testing for residues of additional specific substances. Residue testing would be conducted in accordance with methods approved by the Administrator.

FSIS currently has regulations which prohibit the importation of product that is adulterated, misbranded, or does not comply with the require ents applicable to domestically produced products (9 CFR 381.195 and 381.196). Further, as stated earlier, FSIS has established programs to assure that poultry or poultry products being offered for importation meet the same standards as such products produced and marketed domestically. These programs now include the random sampling of imported poultry and poultry products at the point of entry to check for species identity and residue tolerance levels. Authority to take samples for laboratory examinations from poultry or poultry products offered for importation is provided in 9 CFR 381.199(b).

FSIS did not propose additional regulations under the 1985 Farm Bill concerning the provisions of the Act that would: prohibit imported poultry or poultry products not meeting U.S. standards from entering the United States; and impose mandatory random inspection for species verification on products offered for importation, because any such additional regulations would be a duplication of existing provisions.

List of Subjects in 9 CFR Part 381

Food labeling, Imports, Poultry and poultry products.

Accordingly, FSIS is amending the poultry products inspection regulations in 9 CFR chapter III as set forth below:

PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

1. The authority citation for part 381 continues to read as follows:

Authority: 71 Stat. 441, 82 Stat. 791, as amended (21 U.S.C. 451 *et seq.*), 76 Stat. 663 (7 U.S.C. 450 *et seq.*), 99 Stat. 1633, unless otherwise noted.

2. Section 381.196(a)(2)(i) is amended by redesignating the present paragraph (a)(2)(i)(*f*) as paragraph (a)(2)(i)(*g*) and by adding a new paragraph (a)(2)(i)(*f*) to read as follows:

§ 381.196 Eligibility of foreign countries for importation of poultry products into the United States.

(a) * * *
(2) * * *
(i) * * *

(*f*) The inspection, sanitation, quality, species verification, and residue standards applied to products produced in the United States.

* * * * *

3. Section 381.196 is amended, for the sake of clarity, by revising paragraph (a)(2)(iv) to read as follows:

§ 381.196 Eligibility of foreign countries for importation of products into the United States.

(a) * * *
(2) * * *

(iv) The foreign inspection system must maintain a program to assure that the requirements referred to in this section, at least equal to those applicable to the Federal system in the United States, are being met. The program as implemented must provide for the following:

(*a*) Periodic supervisory visits by a representative of the foreign inspection system not less frequently than one such visit per month to each establishment certified in accordance with paragraph (a)(3) of this section to assure that requirements referred to in paragraphs (a)(2)(ii)(*a*) through (a)(2)(ii)(*h*) of this section are being met: *Provided,* that such visits are not required with respect to any establishment during a period when the establishment is not operating or is not engaged in producing products for exportation to the United States;

(*b*) Written reports prepared by the representative of the foreign inspection system who has conducted a supervisory visit, documenting his or her findings with respect to the requirements referred to in paragraphs (a)(2)(ii)(*a*) through (a)(2)(ii)(*h*) of this section, copies of which shall be made available to the representative of the Department at the time of the representative's review upon request by that representative to a responsible foreign inspection official: *Provided,* that such reports are not required during a period when the establishment is not operating or not engaged in producing products for exportation to the United States.

(*c*) Random sampling and testing at the point of slaughter of carcasses, including internal organs and fat, for residues identified by the exporting country's inspection authorities or by this Agency as potential contaminants, in accordance with sampling and analytical techniques approved by the Administrator: *Provided,* that such testing is required only on samples taken of carcasses from which poultry or poultry products intended for

importation into the United States are produced.

* * * * *

Done at Washington, DC, on October 25, 1989.

Lester M. Crawford,

Administrator, Food Safety and Inspection Service.

BILLING CODE 3410-DM-M

FEDERAL RESERVE SYSTEM

12 CFR Parts 207, 220, 221 and 224

Regulations G, T, U and X; Securities Credit Transactions; List of Marginable Over-the-Counter Stocks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule; determination of applicability of regulations.

SUMMARY: The List of Marginable OTC Stocks is comprised of stocks traded over-the-counter (OTC) that have been determined by the Board of Governors of the Federal Reserve System to be subject to the margin requirements under certain Federal Reserve regulations. The List is published four times a year by the Board as a guide for lenders subject to the regulations and the general public. This document sets forth additions to or deletions from the previously published List which was effective August 14, 1989, and will serve to give notice to the public about the changed status of certain stocks.

EFFECTIVE DATE: November 13, 1989.

FOR FURTHER INFORMATION CONTACT: Peggy Wolffrum, Securities Regulation Analyst, Division of Banking Supervision and Regulation, (202)452-2781. For the hearing impaired only, Earnestine Hill or Dorothea Thompson, Telecommunications Device for the Deaf (TDD) (202)452-3544, Board of Governors of the Federal Reserve System, Washington, DC 20551.

SUPPLEMENTARY INFORMATION: Set forth below are stocks representing additions to or deletions from the Board's List of Marginable OTC Stocks. This supersedes the last List which was effective August 14, 1989. Additions and deletions for that List were published on August 1, 1989 (54 FR 31646). A copy of the complete List incorporating these additions and deletions is available from the Federal Reserve Banks.

The List of Marginable OTC Stocks includes those stocks that meet the criteria in Regulations G, T and U (12 CFR parts 207, 220 and 221, respectively). This determination also affects the applicability of Regulation X (12 CFR part 224). These stocks have the degree of national investor interest, the depth and breadth of market, and the availability of information respecting the stock and its issuer to warrant regulation in the same fashion as exchange-traded securities. The List also includes any stock designated under a Securities and Exchange Commission (SEC) rule as qualified for trading in the national market system (NMS security). Additional OTC stocks may be designated as NMS securities in the interim between the Board's quarterly publications. They will become automatically marginable at broker-dealers upon the effective date of their NMS designation. The names of these stocks are available at the Board and the SEC and will be incorporated into the Board's next quarterly List.

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this amendment due to the objective character of the criteria for inclusion and continued inclusion on the List specified in 12 CFR 207.6(a) and (b), 220.17(a) and (b), and 221.7(a) and (b). No additional useful information would be gained by public participation. The full requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with the issuance of this amendment because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of this List as soon as possible. The Board has responded to a request by the public and allowed a 2-week delay before the List is effective.

List of Subjects

12 CFR Part 207

Banks, Banking, Credit, Federal Reserve System, Margin, Margin requirements, National Market System (NMS Security), Reporting and recordkeeping requirements, Securities.

12 CFR Part 220

Banks, Banking, Brokers, Credit, Federal Reserve System, Margin, Margin requirements, Investments, National Market System (NMS Security), Reporting and recordkeeping requirements, Securities.

12 CFR Part 221

Banks, Banking, Credit, Federal Reserve System, Margin, Margin requirements, National Market System (NMS Security), Reporting and recordkeeping requirements, Securities.

12 CFR Part 224

Banks, Banking, Borrowers, Credit, Federal Reserve System, Margin, Margin requirements, Reporting and recordkeeping requirements, Securities.

Accordingly, pursuant to the authority of sections 7 and 23 of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78g and 78w), and in accordance with 12 CFR 207.2(k) and 207.6(c) (Regulation G), 12 CFR 220.2(s) and 220.17(c) (Regulation T), and 12 CFR 221.2(j) and 221.7(c) (Regulation U), there is set forth below a listing of deletions from and additions to the Board's List of Marginable OTC Stocks:

By order of the Board of Governors of the Federal Reserve System, acting by its Staff Director of the Division of Banking Supervision and Regulation pursuant to delegated authority (12 CFR 265.2(c)(18)), October 27, 1989.

William W. Wiles,

Secretary of the Board.

[FR Doc. 89-25453 Filed 10-27-89; 8:45 am]

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 79-ANE-18; Amdt. 39-6359]

Airworthiness Directives; Pratt & Whitney (PW) JT8D-1, -1A, -1B, -7, -7A, -7B, -9, -9A, -11, -15, and -17 Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends Airworthiness Directive (AD) 87-14-01, which requires repetitive ultrasonic inspections of second stage fan blades. The amendment requires an additional inspection of the second stage fan blade root attachment straps to detect cracks which have been found by operators in areas of the strap not covered by ultrasonic inspections. The AD is needed to detect cracks in the second stage fan blade root attachment straps which could result in fracture of the blade and subsequent cowl penetration, fire, and aircraft damage.

DATE: Effective—December 11, 1989.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of December 11, 1989.

Compliance: As indicated in the body of the AD.

ADDRESSES: The applicable alert service bulletin (ASB) may be obtained from Pratt & Whitney, Publication Department, P.O. Box 611, Middletown, Connecticut 06457, or may be examined in the Regional Rules Docket, Room 311, Office of the Assistant Chief Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Thomas Boudreau, Engine Certification Branch, ANE-141, Engine Certification Office, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273-7121.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (FAR) to include an AD which amends AD 87-14-01 to require an additional inspection of the second stage fan blade root attachment straps on certain PW JT8D turbofan engines was published in the Federal Register on April 12, 1989, (54 FR 14660).

The proposal was prompted after the FAA received reports of fan blade root attachment strap cracks at the six o'clock (inboard) position on the inside diameter (ID) of the pin hole. These cracks were detected by using a fluorescent penetrant inspection (FPI) and certain eddy current inspection techniques which are not required by AD 87-14-01. The immersion ultrasonic inspection method as required by the AD was not designed to detect cracks at the six o'clock ID pin hole location. Undetected root attachment strap cracks can lead to fan blade fracture and subsequent cowl penetration, fire, and aircraft damage.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Five comments were received concerning the proposed rule.

One commenter has requested the AD state that PW Service Process Operation Procedure (SPOP) 84 is an acceptable FPI alternative to SPOP 82. The FPI procedure stated in PW ASB 5729, Revision 2, dated July 8, 1988, is SPOP 82 and, consequently, is the only FPI procedure allowed by the notice of proposed rulemaking (NPRM).

The FAA disagrees and will not include a provision in the AD to allow SPOP 84 to be used as an alternative to SPOP 82 in the FPI of the ID pin hole surfaces. It has been determined that SPOP 82 is the appropriate FPI procedure. The more sensitive procedure of SPOP 84 would require special surface treatments, such as removal of the antigalling coating. The FAA will review, as stated in paragraph (f) of this AD, any individual request to use SPOP 84. The substantiating data provided must assure that actual crack indications will not be overlooked as false indications.

Two commenters stated an eddy current inspection of the ID pin hole surfaces should be included in the AD as an alternative inspection to the FPI. Both commenters referenced eddy current inspection techniques which have been approved by the FAA as an alternate method of compliance with AD 87-14-01.

The FAA disagrees since PW ASB 5729, Revision 2, dated July 8, 1988, does not contain accomplishment instructions to perform an acceptable eddy current inspection. The FAA cannot reference a detailed inspection procedure in an AD without providing the necessary data to perform the inspection procedure. Therefore, until the necessary data to perform an eddy current inspection becomes available to the FAA for publication in an AD, operators who desire to use an eddy current inspection must obtain specific FAA approval as stated in paragraph (f) of this AD.

One comment was received stating six o'clock inner surface cracking is not expected to result in fracture. The commenter further stated that this is a low stressed area and the crack should not propagate through the root strap.

The FAA disagrees. Data has not been submitted which substantiates that six o'clock inner surface cracking will not result in root fracture. Two reports have been submitted showing crack propagation through the root strap at the 6 o'clock position.

Accordingly, the proposal is adopted without change.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation involves approximately 4,100 engines (domestic fleet) with a maximum annual cost increase of three hundred thousand dollars beyond the current AD 87-14-01 inspection cost. It has also been determined that few, if any, small entities within the meaning of the Regulatory Flexibility Act will be affected since the proposed rule affects only operators using aircraft in which JT8D engines are installed, none of which are believed to be small entities. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

A copy of the final evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained from the Regional Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety, Incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration (FAA) amends part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by amending Amendment 39-5641 (52 FR 24138; June 29, 1987), Airworthiness Directive (AD) 87-14-01.

The AD is restated in its entirety for clarity as follows:

Pratt & Whitney: Applies to Pratt & Whitney (PW) JT8D-1, -1A, -1B, -7, -7A, -7B, -9, -9A, -11, -15, and -17 turbofan engines.

Compliance is required as indicated, unless already accomplished.

To prevent uncontained second stage fan blade failure, ultrasonically inspect and fluorescent penetrant inspect (FPI) for cracks, and remove as required, second stage fan blades, Part Numbers (P/N) 433802, 645902, 759902, 695932, 678102, and 746402, in accordance with PW Alert Service Bulletin (ASB) 5729, Revision 2, dated July 8, 1988, as follows:

(a) Inspect at the first engine shop visit after July 27, 1987.

(b) Reinspect at each second stage fan rotor disassembly from the low pressure compressor (LPC) after accumulation of 3,000 cycles in service (CIS) since last inspection (SLI), but not to exceed 10,000 CIS SLI.

(c) Remove from service, prior to further flight, second stage fan blades that exhibit crack indications as defined in the requirements of PW ASB 5729, Revision 2, dated July 8, 1988, and replace with serviceable blades.

(d) Report the following information in writing, if a blade is found to be cracked, within 30 days of the inspection to the Manager, Engine Certification Office, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; Telex Number 949301 FAANE BURL:

(1) Engine serial number (S/N)
(2) Inspection date
(3) Blade P/N and S/N
(4) Blade total time and cycles (if estimate, so note)
(5) Blade time and cycles SLI
(6) Crack location and size

Information collection requirements contained in this regulation (Section 39.13) have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96-511) and have been assigned OMB Control Number 2120-0056.

Notes: (1) Shop visit is defined as the input of an engine to a repair shop with LPC rotor overhaul capability where the subsequent engine maintenance entails the following:

(a) Separation of a major engine flange (lettered or numbered) other than flanges mating with major sections of the nacelle or reverser. Separation of flanges purely for purposes of shipment, without subsequent internal maintenance, is not a "shop visit."

(b) Removal of a disk, hub, or spool.

(2) The ultrasonic inspections accomplished in accordance with AD 87-14-01 and PW ASB 5729, dated January 29, 1987, at the last inspection prior to the effective date of this AD, are considered to be in compliance with the dual inspection requirements of this AD. However, after the effective date of this AD, an FPI must be performed in addition to the ultrasonic inspection, unless otherwise approved by the FAA as stated below.

(e) Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

(f) Upon submission of substantiating data by an owner or operator through an FAA Airworthiness Inspector, an alternate method of compliance with the requirements of this AD or adjustments to the compliance times specified in this AD may be approved by the Manager, Engine Certification Office, ANE-140, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

The inspection procedures shall be done in accordance with PW ASB 5729, Revision 2, dated July 8, 1988. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552 (a) and 1 CFR Part 51. Copies may be obtained from Pratt & Whitney, Publication Department, P.O. Box 611, Middletown, Connecticut 06457. Copies may be inspected at the Regional Rules Docket, Office of the Assistant Chief Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Room 311, Burlington, Massachusetts 01803, or at the Office of the Federal Register, 1100 L Street, NW., Room 8301, Washington, DC 20591.

This amendment becomes effective on December 11, 1989.

VOL 54 ISS 208 OCT 30 1989 UMI

This amendment amends Amendment 39-5641 (52 FR 24138; June 29, 1987), AD 87-14-01.

Issued in Burlington, Massachusetts, on September 29, 1989.

Ronald L. Vavruska,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

[FR Doc. 89-25441 Filed 10-27-89; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 89-AWP-16]

Revision of Transition Area; Santa Rosa, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises and extends the Santa Rosa, California Transition Area. This action provides controlled airspace for the conduct of instrument approach and departure procedures at Lampson Airport.

EFFECTIVE DATE: 0901 u.t.c, December 14, 1989.

FOR FURTHER INFORMATION CONTACT: Daniel K. Martin, System Management Specialist, System Management Branch, AWP-530, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (213) 297-0166.

SUPPLEMENTARY INFORMATION:

History

On July 24, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations to revise the Santa Rosa, California Transition Area to provide controlled airspace for the conduct of instrument approach procedures (54 FR 30760).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises the Santa Rosa, California Transition Area to provide controlled airspace for the conduct of instrument approach procedures to Lampson Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition Areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended, as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Santa Rosa, California [Revised]

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 38°51'30" N/longitude 123°02'00" W; to latitude 39°15'00" N/ longitude 123°02'00" W; to latitude 39°15'00" N/longitude 122°39'00" W; to latitude 38°47'30" N/ longitude 122°39'00"; to latitude 38°27'00" N/longitude 122°39'05" W; to latitude 38°22'45" N/longitude 122°52'22" W; to latitude 38°49'30" N/longitude 123°08'28" W; thence to the point of beginning.

Issued in Los Angeles, California on October 11, 1989.

Robert G. Brekke,

Acting Manager, Air Traffic Division, Western-Pacific Region.

[FR Doc. 89-25446 Filed 10-27-89; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 89-ASW-18]

Removal of Transition Area; Farmerville, LA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will remove the transition area located at Farmerville, LA. The cancellation of the VOR/DME-A standard instrument approach procedure (SIAP) to the Farmerville Airport, which utilized the Monroe Very High Frequency Omnidirectional Radio Range/Tactical Air Navigation (VORTAC), has made this amendment necessary. The intended effect of this amendment is to return that controlled airspace no longer required due to the cancellation of the VOR/DME-A SIAP. Coincident with this action is the changing of the status of the Farmerville Airport from instrument flight rules (IFR) to visual flight rules (VFR).

EFFECTIVE DATE: 0901 u.t.c., January 11, 1990.

FOR FURTHER INFORMATION CONTACT: Bruce C. Beard, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone (817) 624-5561.

SUPPLEMENTARY INFORMATION:

History

On June 19, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by removing the transition area located at Farmerville, LA (54 FR 29058).

Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6E, dated January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations will remove the transition area located at Farmerville, LA. The cancellation of the VOR/DME-A SIAP to the Farmerville Airport, which utilized the Monroe VORTAC, has necessitated this amendment. The VOR/DME-A SIAP was the only instrument approach serving the Farmerville Airport. The intended effect of this amendment is to return that controlled airspace no longer required due to the cancellation of the VOR/DME-A SIAP. Coincident with this action is the changing of the status of the Farmerville Airport from instrument flight rules (IFR) to visual flight rules (VFR).

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Farmerville, LA [Removed]

Issued in Fort Worth, TX, on October 17, 1989.

Larry L. Craig,

Manager, Air Traffic Division, Southwest Region.

14 CFR Part 71

[Airspace Docket No. 89-AEA-15]

Proposed Establishment of Transition Area; Farmington, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This notice establishes a new transition area for the Nemacolin Airport, Farmington, PA. This area is necessary to accommodate a new Runway 23 Standard Instrument Approach Procedure (SIAP) to the airport. This action establishes a 700 foot transition area which consists of controlled airspace which will be reflected on appropriate aeronautical charts.

EFFECTIVE DATE: 0901 u.t.c. January 11, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis L. Brewington, Airspace Specialist, System Management Branch, AEA-530, Federal Aviation Administration, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 917-0857.

SUPPLEMENTARY INFORMATION:

History

On July 18, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish a 700 foot transition area for the Nemacolin Airport, Farmington, PA (54 FR 31701). The proposed action would separate aircraft executing the SIAP under instrument meteorological conditions on an instrument flight plan from aircraft operating under visual flight rules (VFR). The SIAP was the subject of a separate study with no objections to the proposal received. In addition, the area would be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in FAA Handbook 7400.6E, January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes a 700 feet transition area at Farmington, PA for the Nemacolin Airport to accommodate a new Runway 23 SIAP for the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Farmington, PA [New]

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Nemacolin Airport, Farmington, PA (lat. 39°48'20" N., long. 79°32'57" W.) and within 4.5 miles each side of the Indian Head VORTAC 221° radial extending from the 7-mile radius area to the VORTAC.

Issued in Jamaica, New York, on October 4, 1989.

Billy E. Commander,

Acting Manager, Air Traffic Division.

14 CFR Part 71

[Airspace Docket No. 89-AEA-11]

Proposed Alteration of Transition Area; Winchester, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This notice amends the Winchester, VA 700 foot Transition Area. This action reflects the amount of controlled airspace needed to contain instrument operations when aircraft are executing operations during instrument meteorological conditions.

EFFECTIVE DATE: 0901 u.t.c. January 11, 1990.

VOL 54 ISS 208 OCT 30 1989 UMI

FOR FURTHER INFORMATION CONTACT: Mr. Curtis L. Brewington, Airspace Specialist, System Management Branch, AEA-530, Federal Aviation Administration, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 917-0857.

SUPPLEMENTARY INFORMATION:

History

On August 3, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the 700 foot Transition Area at Winchester, VA (54 FR 35198). The proposed action was due to the decommissioning of the Shawnee, Virginia VHF Omnidirectional Range/Tactical Air Navigation (VORTAC) aid to navigation. The associated Standard Instrument Approach Procedures, which were based on this VORTAC, have been cancelled.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in FAA Handbook 7400.6E, January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations amends the 700 foot Transition Area to reflect that amount of controlled airspace which is needed to accommodate arriving and departing aircraft during instrument meteorological conditions.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; E.O. 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Winchester, VA [Revised]

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the center, lat. 39°08'30" N., long. 78°08'30" W., of Winchester Municipal Airport; within a 9.5-mile radius of the center of the airport extending clockwise from a 187° bearing to a 008° bearing from the airport; within 4 miles either side of the 043° bearing extending from the 6.5-mile radius to 10 miles northeast of the airport; within 5 miles each side of a 134° bearing from a point at lat. 39°08'17" N., long. 78°06'16" W., extending from said point to 14 miles southeast of said point.

Issued in Jamaica, New York, on September 30, 1989.

Billy E. Commander,

Acting Manager, Air Traffic Division.

14 CFR Part 71

[Airspace Docket No. 89-ASW-25]

Revision of Transition Area; Lake Charles, LA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will revise the transition area located at Lake Charles, LA. The development of a new standard instrument approach procedure (SIAP) to the Southland Field Airport, Sulphur, LA, utilizing the Lake Charles Very High Frequency Omnidirectional Radio Range/Tactical Air Navigation (VORTAC), has made this amendment necessary. The intended effect of this amendment is to provide adequate controlled airspace for aircraft executing this new SIAP to the Southland Field Airport. Coincident with this amendment will be the changing of the status of the Southland Field Airport from visual flight rules (VFR) to instrument flight rules (IFR).

EFFECTIVE DATE: 0901 u.t.c., January 11, 1990.

FOR FURTHER INFORMATION CONTACT: Bruce C. Beard, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone (817) 624-5561.

SUPPLEMENTARY INFORMATION:

History

On July 11, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by revising the transition area located at Lake Charles, LA (54 FR 31346).

Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6E, dated January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations will revise the transition area located at Lake Charles, LA. The development of a new SIAP to the Southland Field Airport, Sulphur, LA, utilizing the Lake Charles VORTAC, has made this amendment necessary. This amendment will expand the existing Lake Charles, LA, Transition Area to include the Southland Field Airport, Sulphur, LA. The intended effect of this amendment is to provide adequate controlled airspace for aircraft executing this new SIAP to the Southland Field Airport. Coincident with this amendment will be the changing of the status of the Southland Field Airport from visual flight rules VFR to instrument flight rules IFR.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

14 CFR Part 71

[Airspace Docket No. 89-AEA-13]

Proposed Alteration of Control Zone; Trenton, NJ

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This notice amends the control zone for the Mercer County Airport, Trenton, NJ. In addition, editorial changes have been made in the description of the control zone to simplify charting and other requirements. The editorial changes have not changed the intent of the original proposal. This action amends the amount of controlled airspace at the Mercer County Airport, Trenton, NJ, by removing all references to an airport which has been closed, and for which an exclusion zone (cutout) has been provided.

EFFECTIVE DATE: 0001 u.t.c., January 11, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis L. Brewington, Airspace Specialist, System Management Branch, AEA-530, Federal Aviation Administration, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone (718) 917-0857.

SUPPLEMENTARY INFORMATION:

History

On July 7, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the control zone for the Mercer County Airport, Trenton, NJ (54 FR 31698). The proposed action would eliminate the cutout provided for the Morrisville, PA, airport. That airport has been closed and all charted references to it have been deleted.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.171 of part 71 of the Federal Aviation Regulations was republished in FAA Handbook 7400.6E, January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations amends the Trenton, NJ, Control Zone by removing the cutout provided for the Morrisville, PA, airport. This airport has been closed and is no longer a charted reference.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Trenton, NJ [Amended]

Change "within 2.5 miles N and 2 miles S of the Yardley, PA, VOR 071° and 085° radials". to read "within 2.5 miles N. of the Yardley, PA VOR 085° radial and 2 miles S. of the Yardley 071° radial".

Delete that portion of the description which reads as follows:

"excluding the portion within a 1-mile radius of the Morrisville, PA, Airport (lat. 40°12'00" N., long. 74°48'55" W.)"

Issued in Jamaica, New York, on October 4, 1989.

Billy E. Commander,

Acting Manager, Air Traffic Division.

14 CFR Part 71

[Airspace Docket No. 89-ASW-15]

Revision of Control Zone; Midland, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will revise the control zone located at Midland, TX. The current legal description contains the old name of the airport, that being the Midland Regional Air Terminal. The correct name is the Midland International Airport. Additionally, the coordinates of the airport have been slightly revised. The need to correct the name of the airport, as well as revise its coordinates, has made this amendment necessary. The current layout of the Midland, TX, Control Zone will not be altered. The intended effect of this amendment is to only change the legal description of the Midland, TX, Control Zone by correcting the name of the primary airport and revising its coordinates.

EFFECTIVE DATE: 0901 u.t.c., January 11, 1990.

FOR FURTHER INFORMATION CONTACT: Bruce C. Beard, Airspace and Procedures Branch, Air Traffic Division,

VOL 54 ISS 208 OCT 30 1989 UMI

Southwest Region, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193–0530, telephone (817) 624–5561.

SUPPLEMENTARY INFORMATION:

History

On June 19, 1989, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by revising the control zone located at Midland, TX (54 FR 29057).

Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.171 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6E, dated January 3, 1989.

The Rule

This amendment to part 71 of the Federal Aviation Regulations will revise the control zone located at Midland, TX. The correct legal description of the Midland, TX, Control Zone states that the primary airport of the control zone is the Midland Regional Air Terminal. The name of the primary airport has been changed to the Midland International Airport, and the legal description is being changed to reflect this. Also, the coordinates of the airport have been slightly revised, and this is also being changed. Both of these required corrections have necessitated this amendment. The present layout of the control zone is not being altered. The intended effect of this amendment is to revise the legal description of the Midland, TX, Control Zone to reflect the correct name of the primary airport and its coordinates, not to change or alter the control zone itself.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Midland, TX [Revised]

Within a 5-mile radius of the Midland and International Airport (latitude 31°56'33" N., longitude 102°12'06" W.), and within 2 miles each side of the Midland ILS localizer NW course, extending from the 5-mile radius area to 7 miles northwest of the airport.

Issued in Fort Worth, TX, on October 16, 1989.

Larry L. Craig,

Manager, Air Traffic Division Southwest Region.

BILLING CODE 4910-13-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR PART 5

Delegations of Authority and Organization; Center for Biologics Evaluation and Research

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the regulations for delegations of authority relating to certification of true copies and use of the department seal in order to delegate authority to additional Center for Biologics Evaluation and Research (CBER) officials in the Office of Compliance and to remove such authority where it is no longer applicable. In addition, an amendment to 21 CFR 5.22(a)(7) (iv) is being made to revise "The Chiefs" to read "The Directors".

EFFECTIVE DATE: October 30, 1989.

FOR FURTHER INFORMATION CONTACT: Ellen Rawlings, Office of Management and Operations (HFA–340), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4976.

SUPPLEMENTARY INFORMATION: FDA is amending the delegations of authority under § 5.22 Certification of true copies and use of Department seal (21 CFR 5.22) by revising paragraph (a)(7) (iv) and (v) in order to delegate authority to additional CBER officials in the Office of Compliance and remove such authority from officials in the Office of Compliance where it is no longer applicable. The revisions are in conformance with organizational changes within CBER in which the Biologics Information Staff was moved from the Office of Biological Product Review to the Office of Compliance. The amendment deletes from the list the Chief, Biologics Information Staff, Office of Biological Product Review, and adds to the list the Director, the Special Projects Officer, the Chief of the Freedom of Information Section, and Freedom of Information Officers, of the Congressional and Public Affairs Staff, Office of Compliance. Also, FDA is amending 21 CFR 5.22(a)(7)(iv) by revising the words "The Chiefs" to read "The Directors".

Further redelegation of the authority delegated is not authorized. Authority delegated to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis.

List of Subjects in 21 CFR part 5

Authority delegations (Government agencies), Imports, Organization and functions (Government agencies).

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR Part 5 is amended as follows:

PART 5—DELEGATIONS OF AUTHORITY AND ORGANIZATION

1. The authority citation for 21 CFR part 5 continues to read as follows:

Authority: 5 U.S.C. 504, 552, App. 2; 7 U.S.C. 2271; 15 U.S.C. 638, 1261–1282, 3701–3711a; secs. 2–12 of the Fair Packaging and Labeling Act (15 U.S.C. 1451–1461); 21 U.S.C. 41–50, 61–63, 141–149, 467f, 679(b), 801–886, 1031–1309; secs. 201–902 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321–392); 35 U.S.C. 156; secs. 301, 302, 303, 307, 310, 311, 351, 352, 354–360F, 361, 362, 1701–1706, 2101 of the Public Health Service Act (42 U.S.C. 241, 242, 242a, 242l, 242n, 243, 262, 263, 263b–263n, 264, 265, 300u–300u–5, 300aa–1); 42 U.S.C. 1395y, 3246b, 4332, 4831(a), 10007–10008; E.O. 11490, 11921, and 12591.

2. Section 5.22 is amended by revising paragraphs (a)(7) (iv) and (v) to read as follows:

§ 5.22 Certification of true copies and use of Department seal.

(a) * * *

(7)(iv) The Directors of the Case Management Staff, the Inspections and Surveillance Staff, Regulations and Bioresearch Monitoring Staff, and the Congressional and Public Affairs Staff, Office of Compliance, CBER.

21 CFR Part 81

[Docket No. 76N–0366]

Provisional Listings of FD&C Red No. 3 in Cosmetics and Externally Applied Drugs and of its Lakes in Food, Drugs, and Cosmetics; Postponement of Closing Date

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is postponing the closing date for the provisional listings of FD&C Red No. 3 for use in coloring cosmetics and externally applied drugs and of the lakes of this color additive for use in coloring food, drugs, and cosmetics. The new closing date for the provisional listings of this color additive will be January 29, 1990. This postponement will permit the uninterrupted use of this color additive and its lakes while FDA continues to evaluate the results of the agency's review of the FD&C Red No. 3 data and prepares appropriate Federal Register documents to announce the agency's decision on the regulatory status of this color additive and its lakes.

DATES: Effective October 30, 1989. The new closing date for FD&C Red No. 3 and its lakes will be January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Gerad L. McCowin, Center for Food Safety and Applied Nutrition (HFF–330), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202–472–5876.

SUPPLEMENTARY INFORMATION: FDA established the current closing date of October 30, 1989, for the provisional listing of FD&C Red No. 3 for use in cosmetics and externally applied drugs and for the provisional listing of the lakes of the color additive for all uses by a rule published in the Federal Register of August 29, 1989 (54 FR 35860). This extension was necessitated by the complexity of the issues to be addressed by the agency in resolving the regulatory status of the provisionally listed uses of FD&C Red No. 3 and its lakes.

Title II of the Color Additive Amendments of 1960 (the transitional provisions) (Pub. L. 86–618, section 203 of the Federal Food, Drug, and Cosmetic Act (the Act) (21 U.S.C. 376 note)) authorizes FDA from time to time to postpone the closing date of the provisional listing for a color additive. "Such postponements must be consistent with the public health, and the Commissioner must judge that the scientific investigations are going forward in good faith and will be completed as soon as reasonably practicable." *McIlwain* v. *Hayes*, 690 F.2d 1041, 1047 (D.C. Cir. 1982) and *Public Citizen* v. *Young*, 831 F.2d 1108, 1122 (D.C. Cir. 1987).

FDA is continuing to evaluate the results of its review of the data submitted by the various proponents of FD&C Red No. 3, and is preparing the Federal Register documents necessary to announce the agency's decision on the regulatory status of the provisionally listed uses of FD&C Red No. 3 and its lakes. Due to the complexity of the issues in this matter, the volume of data and information to be evaluated, and the length of the Federal Register documents, FDA needs additional time to complete its task. Accordingly, FDA is now postponing the closing date for the provisionally listed uses of FD&C Red No. 3 to January 29, 1990.

The agency believes that this postponement of the closing date for the provisionally listed uses of FD&C Red No. 3 and its lakes is consistent with the standard for issuing such postponements. In particular, FDA believes that the continued use of these color additives for an additional period not to exceed 90 days will not pose a hazard to the public health. To the extent that there are risks from the continued use of FD&C Red No. 3 and its lakes, these risks result from chronic exposure to the color additive. Thus, the agency concludes that the continued use of FD&C Red No. 3 in cosmetics and externally applied drugs and of the lakes of this color additive for an additional period of only 90 days will not have any significant effect on the public health. Further, this extension is being granted to allow the agency to evaluate the existing data and to prepare the necessary Federal Register documents. The Court in *Public Citizen* recognized that the statutory scheme for regulating color additives "allows for the time necessary * * * for careful review of data" and expressly stated that it is permissible to extend a closing date to allow further evaluation of completed tests. 831 F.2d at n.19 and 1123. FDA will complete this process as soon as is reasonably practicable. Accordingly, FDA concludes that a brief postponement is consistent with the standard for extensions articulated in *McIlwain* and *Public Citizen, supra.*

Because of the shortness of time until the closing date of October 30, 1989, FDA concludes that notice and public comment on this regulation are impracticable, and that good cause exists for issuing the postponement as a final rule and for an effective date of October 30, 1989. This regulation will permit the uninterrupted use of this color additive until further action is taken. In accordance with 5 U.S.C. 553(b), (d)(1) and (3), this postponement is issued as a final regulation, effective October 30, 1989.

The agency has determined under 21 CFR 25.24(a)(8) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA has determined that extending the provisional listing of these color additives requires no change in the current industry practice concerning the manufacture or use of these ingredients.

Therefore, FDA certifies, in accordance with section 605(b) of the Regulatory Flexibility Act, that no significant economic impact on a substantial number of small entities would derive from this action. Further, the economic effects of this final rule have been analyzed and it has been determined that it is not a major rule as defined in Executive Order 12291.

List of Subjects in 21 CFR Part 81

Color additives, Cosmetics, Drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 81 is amended as follows:

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

1. The authority citation for 21 CFR part 81 continues to read as follows:

Authority: Secs. 701, 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371, 376, 376 note).

§ 81.1 [Amended]

2. Section 81.1 *Provisional lists of color additives* is amended in the table of paragraph (a) by removing the closing date "October 30, 1989", both places it appears, for the entry "FD&C Red No. 3" and inserting in its place "January 29, 1990".

§ 81.27 [Amended]

3. Section 81.27 *Conditions of provisional listing* is amended in the table, appearing in the introductory text of paragraph (d), by removing the closing date "October 30, 1989" for the entry "FD&C Red No. 3" and inserting in its place "January 29, 1990".

Dated: October 24, 1989.

Frank E. Young,

Commissioner of Food and Drugs.

[FR Doc. 89-25406 Filed 10-25-89; 10:57 am]

BILLING CODE 4160-01-M

PANAMA CANAL COMMISSION

35 CFR Parts 103 and 133

RIN 3207-AA24

Requirements of Transiting Vessels and Their Measurement

AGENCY: Panama Canal Commission.

ACTION: Final rule.

SUMMARY: The Panama Canal Commission is today amending its regulations in title 35, Code of Federal Regulations, parts 103 "General Provisions Governing Vessels" and 133 "Tolls for Use of Canal": (1) To more accurately reflect treaty-mandated changes concerning authority over transiting vessels; (2) to require new pilot shelter platforms; and (3) to clearly identify those officials who are authorized to measure and certify the tonnage of vessels. These latter two changes are being made to provide shelter from weather for pilots aboard transiting vessels and for clarification.

EFFECTIVE DATE: November 29, 1989.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street NW., Suite 550, Washington, DC 20036-4996, Telephone: (202) 643-6441, or John L. Haines, Jr., General Counsel, Panama Canal Commission, telephone in Balboa Heights, Republic of Panama, (011)-507-52-7511.

SUPPLEMENTARY INFORMATION: On July 13, 1989, a notice of proposed rulemaking was published in the **Federal Register** (54 FR 29584), setting forth the revised rules amending §§ 103.7, 103.19, and 133.32. Interested parties were given the opportunity to submit comments by August 14, 1989. Comments were received by the agency regarding § 103.19 and 133.32. As regards §§ 103.19, the writer expressed the view that the proposed shelters were not warranted as practicable, suggesting a raincoat to be sufficient to protect the pilot and his radio during rain squalls. The Panama Canal Commission responded that pilots are required to remain on the bridge wing during the critical locks entries and departures and that raincoats are not sufficient to provide adequate protection for the pilot or his radios during Panama's frequent torrential rains. Further, bridge wing shelters also serve to insure the pilots' visibility during rain storms and to protect them against the tropical sun.

Comment was also received from the United States Coast Guard requesting that an additional clause be added to § 133.32, which identifies that the United States Coast Guard will assign some of it measurement tasks to delegates identified in 46 CFR 69.15. The requested change is included in the final rule.

Section 103.7 concerns the temporary holding of vessels for the purpose of investigation into a marine accident. Inasmuch as the agency's legal authority to hold vessels was abolished by the Panama Canal Treaty of 1977 and its related agreements, reference to holding a vessel is being removed; however, a vessel may still be denied transit until its tenderness, trim, list, draft, cargo, hull, machinery and equipment have been put into such condition as to make the vessel safe for its transit through the Panama Canal.

Second, § 103.19 is changed by revising paragraphs (a) and (d) and adding two new paragraphs to require vessels whose extreme beam is 24.40 meters (80 feet) or more to provide shelters for pilots on the bridge wings of these medium-size and large vessels. The purpose of the shelters is to provide pilots protection from the elements and enhance safety. The shelters shall be in place and ready for use no later than six months from the effective date of publication of this rule in the **Federal Register**.

The last change corrects § 133.32 to specify that measurements of Canal tonnage may be taken and associated certificates may be issued by the United States Coast Guard or its delegate, as well as Canal admeasurers and certain properly designated officials abroad.

These rules are not major rules for the purposes of Executive Order 12291 of February 17, 1981. In accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), it is hereby certified that these proposed rules will not have a significant impact on small business entities.

Lists of Subjects

35 CFR Part 103

Vessels, General provisions.

35 CFR Part 133

Tolls for use of Canal.

For the reasons set forth in the preamble, the Panama Canal Commission amends 35 CFR parts 103 and 133 as follows:

PART 103—GENERAL PROVISIONS GOVERNING VESSELS

1. The authority citation for part 103 continues to read as follows:

Authority: 22 U.S.C. 3811, E.O. 12215, 45 FR 36043, and 44 U.S.C. 3501.

2. Section 103.7 is revised to read as follows:

§ 103.7 Authority to deny transit.

A vessel's transit may be denied until, in the opinion of the Canal authorities, its tenderness, trim, list, draft, cargo, hull, machinery, and equipment have been put into such condition as will make the vessel safe for her passage through the Canal. No claim shall be allowed or considered because of any such delay.

3. Section 103.19 is amended by revising the heading and paragraphs (a) and (d) and by adding new paragraphs (e) and (f) to read as follows:

§ 103.19 Requirement for pilot shelter platforms.

(a) Any vessel that, in accordance with Panama Canal operation standards, is required to have three or more pilots aboard, shall provide suitable pilot shelter platforms for the assisting pilots. The purpose for the pilot platforms is to provide shelters from sun and rain for pilots working near the bow or the stern of a vessel and to provide adequate visibility around the locks in order to reduce the danger of damage. In general, this bow/stern pilot shelter platforms are required on ships of 190.5 meters (625 feet) or more in length and a beam of 30.5 meters (100 feet) or greater.

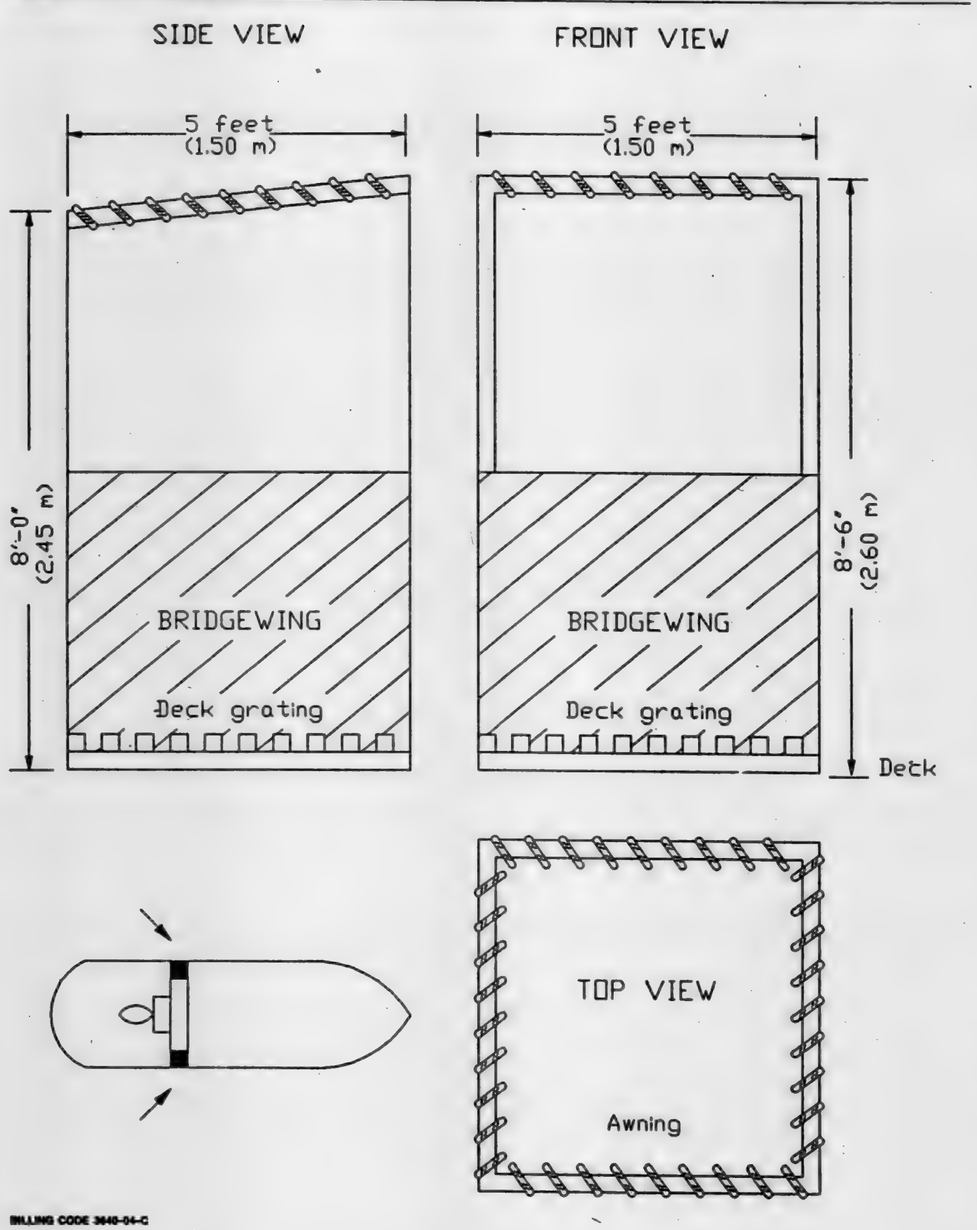
They may also be required on certain smaller ships that the Marine Director or his designated representative determine require three or more pilots. Those vessels requiring shelters shall provide them for use no later than six months from the effective date of the final rule.

* * * * *

(d) In addition to the pilot shelter platforms required by paragraph (a) of this section for assisting pilots, all vessels whose extreme beam is 24.4 meters (80 feet) or more, are required to provide bridge wing shelters for the protection of control pilots. The following is a sketch of a bridge wing shelter that is acceptable to the Panama Canal Commission. Alternate arrangements, including portable shelters, which provide equivalent or better protection and visibility may be acceptable.

BILLING CODE 3640-04-M

VOL 54 ISS 208 OCT 30 1989 UMI



BILLING CODE 3640-04-C

(e) The purpose of the bridge wing shelter is to provide protection for pilots from sun and rain, while allowing maximum visibility around the locks. On vessels that have a raised conning station at the edge of the bridge wing more than 30 centimeters (1 foot) above the deck level, the height of the awning should be raised accordingly. Awnings are to extend at least 1.52 meters (5 feet) inboard from the outboard edge of the bridge wing. Similarly, their fore-and-aft dimension is to be at least 1.52 meters (5 feet), extending aft from the forward part of the bridge wing. If ship control equipment (engine, rudder or thruster controls, etc.) are located on the bridge wings, these shelters must also extend at least one foot beyond such equipment but must not extend beyond the outboard edge of the bridge wing.

(f) The awnings indicated in the sketches in paragraphs (b) and (d) of this section are to be made of suitable material to provide shelter from sun and rain. The decks of the pilot shelter platforms are to be made of wood or other material with a non-skid surface.

PART 133—TOLLS FOR USE OF CANAL

4. The authority citation for part 133 continues to read as follows:

Authority: Issued under authority of the President by 22 U.S.C. 3791; E.O. 12215, 45 FR 36043.

5. Section 133.32 is revised to read as follows:

§ 133.32 Measurement of vessels; making and correction of measurement; plans and copies.

Measurement may be made and the required certificate issued by the admeasurers of the Canal, by the United States Coast Guard or by its delegates as identified in 46 CFR 69.15, and by certain other officials worldwide as designated by the Director of Admeasurement of the Panama Canal Commission. Each transiting vessel should be provided with a full set of plans and a copy of the measurements which were made at the time of issue of its national tonnage certificate, as well as the tonnage certificate itself. The Canal authorities shall have the right to check and correct any measurement made or certificate issued elsewhere.

Dated: September 28, 1989.

Fernando Manfredo, Jr.,

Acting Administrator, Panama Canal Commission.

BILLING CODE 3640-04-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

48 CFR Parts 302, 304, 309, 315, 332, 342, and 352

Acquisition Regulation; Miscellaneous Amendments

AGENCY: Department of Health and Human Services (HHS).

ACTION: Final rule.

SUMMARY: The Department of Health and Human Services is amending its acquisition regulation (HHSAR), title 48 Code of Federal Regulations chapter 3, to make several administrative changes.

EFFECTIVE DATE: October 30, 1989.

FOR FURTHER INFORMATION CONTACT: Ed Lanham, Senior Procurement Analyst, Division of Acquisition Policy, telephone (202) 245-6890.

SUPPLEMENTARY INFORMATION: The Department is amending its acquisition regulation to make several administrative changes in parts 309, 315, and 332 as a result of recent changes made in corresponding parts of the Federal Acquisition Regulation, title 48 Code of Federal Regulations chapter 1.

The amendments being made in parts 302, 304, 342, and 352 reflect administrative and procedural changes determined necessary by the Department.

The Department of Health and Human Services adheres to the policy that the public, or certain elements comprising it, should have the opportunity to provide comments on regulations which may have an impact on them. The Department has determined, however, that this rule contains no amendments that would have a significant cost or administrative impact on contractors or offerors, or a significant effect beyond the internal operating procedures of the Department. As a result, the Department is not requesting comments on these acquisition regulations and is publishing them as a final rule.

The Department of Health and Human Services certifies this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et. seq.*); therefore, no regulatory flexibility statement has been prepared. This document does not contain information collection requirements needing approval by the Office of Management and Budget under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et. seq.*).

The provisions of this regulation are issued under 5 U.S.C. 301; 40 U.S.C. 486(c).

List of Subjects in 48 CFR Parts 302, 304, 309, 315, 332, 342, and 352

Government procurement.

Accordingly, the Department amends 48 CFR chapter 3 as set forth below.

Dated: October 18, 1989.

James F. Trickett,

Deputy Assistant Secretary for Management and Acquisition.

As indicated in the preamble, chapter 3 of title 48 Code of Federal Regulations is amended as shown.

1. The authority citation for parts 302, 304, 309, 315, 332, 342, and 352 continues to read as follows:

Authority: 5 U.S.C. 301; 40 U.S.C. 486(c).

PART 302—[AMENDED]

302.100 [Amended]

2. The term "Principal official responsible for acquisition" in § 302.100 is amended by replacing the title following the designation "IHS" with "Director, Division of Acquisition and Grant Operations, Office of Administration and Management."

PART 304—[AMENDED]

304.870 [Amended]

3. Paragraph (c)(5) of § 304.870 is amended by removing, in the third sentence, the wording "or Form HHS 646, Financial Report of Individual Project/Contract," and by correcting the reference to the Standard Form number to read "1034".

PART 309—[AMENDED]

309.403 [Amended]

4. Section 309.403 is amended as follows:

a. Add, in alphabetical order, the following definition:

Acquiring agency's head or a designee, as used in the FAR, shall mean, unless otherwise stated in this subpart, the head of the contracting activity. Acting in the capacity of the acquiring agency's head, the head of the contracting activity may make the required justifications or determinations, and take the necessary actions, specified in FAR §§ 9.405, 9.406, and 9.407 for his or her respective activity, but only after obtaining the approval of the debarring or suspending official, as the case may be.

b. In the definition of the term "Debarring official", add "his/her" after the word "or" and before the word "designee."

VOL 54 ISS 208 OCT 30 1989 UMI

c. In the definition of the term "Initiating official", add the word "either" after the word "means" and before the word "the", remove the "or" after the word "officer," and before the word "the", and remove the "or" after the word "activity," and before the word "the".

d. In the definition of the term "Suspending official", add "his/her" after the word "or" and before the word "designee".

309.404 [Amended]

5. Section 309.404 is amended by revising the title to read "Parties excluded from procurement programs.", and by revising the FAR reference in paragraph (c) to read "FAR 9.404(c)."

PART 315—[AMENDED]

315.406–5 [Amended]

6. Paragraph (a)(2) of § 315.406–5 is amended by adding the following FAR provisions in numerical order, and by renumbering the existing list of FAR references: "FAR 52.209–5, Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters;", "FAR 52.223–5, Certification Regarding a Drug-Free Workplace;", and "FAR 52.225–12, Notice of Restrictions on Contracting With Sanctioned Persons;".

315.407 [Amended]

7. Section 315.407 is amended by adding a new paragraph (i) to read as follows:

(i) The contracting officer shall insert the provision at FAR § 52.233–2, Service of Protest, in solicitations as required by FAR 33.106(a).

PART 332—[AMENDED]

8. Section 332.905 is revised to read as follows:

332.905 Invoice payments.

(a)(1)(ii), (b)(4), (c)(5). In most instances, the contracting officer will use the seven (7) day constructive acceptance period (specified in paragraph (a)(6)(i) of the Prompt Payment clause at FAR 52.232–25, paragraph (a)(5)(i) of the Prompt Payment clause at FAR 52.232–26, and paragraph (a)(4)(i) of the Prompt Payment clause at FAR 52.232–27) for solicitations and resultant contracts as the basis for the fiscal office's computation of interest penalties. However, where the contracting officer extends the constructive acceptance period, under the conditions described in FAR 32.905, the extension shall be coordinated with the fiscal office. A constructive acceptance period of less than seven (7) days is not authorized.

(j) When the contracting officer mistakenly receives an invoice first, or is specified in the contract as the first recipient of the invoice, and the contract requires payment with thirty (30) days from receipt of a "proper invoice" (as defined by FAR 32.902), the contracting officer shall review the invoice to determine whether or not it is proper; and, if so, shall approve the invoice and submit it to the fiscal office within sixteen (16) days from the date of receipt. When the contracting officer is the first recipient of the invoice and the contract establishes a payment due date of more than thirty (30) days after receipt, the contracting officer shall review, approve, and submit the "proper invoice" to the fiscal office at least fourteen (14) days prior to the payment due date (unless the contracting officer and fiscal office agree, prior to contract award, to a longer period).

PART 342—[AMENDED]

342.7002 [Amended]

9. Section 342.7002 is amended by adding the following as paragraph (e):

(e) Contract cost and manpower reporting shall be required on all cost-reimbursement type contracts financed under letter of credit or Departmental Federal Assistance financing System (DFAFS) methods of payment regardless of dollar value, and on all other cost-reimbursement type contracts of $100,000 or more. Financial reporting may be required on cost-reimbursement contracts under $100,000, when financed by other than the letter of credit of DFAFS methods, but only if it is necessary for effective contract administration. Financial and manpower information may be submitted either as a separate contract financial report or as an addendum to a public voucher, as prescribed by the contracting officer. Frequency, format (including instructions), extent, structure (including cost elements and labor categories), and distribution of reporting fall within the discretion of the contracting officer. The contracting officer shall set forth financial reporting requirements in all applicable RFPs and contracts, shall limit the requirements to those necessary for effectual cost and manpower management of the contract, and shall avoid the use of reporting requirements that are unduly burdensome on the contractor.

PART 352—[AMENDED]

352.242–80 [Removed]

10. Section 352.242–80 is removed.

[FR Doc. 89–25427 Filed 10–27–89; 8:45 am]
BILLING CODE 4150–04–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018–AB26

Endangered and Threatened Wildlife and Plants; Determination of Experimental Population Status for an Introduced Population of Guam Rails on Rota in the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The U.S. Fish and Wildlife Service (Service) determines that the Rota population of the Guam rail (*Rallus owstoni*), an endangered species endemic to Guam, be designated a nonessential experimental population according to section 10(j) of the Endangered Species Act of 1973, as amended (Act). The introduction is being made on the island of Rota, which is outside the probable historical range of the species, because its primary habitat on Guam has been "indefinitely altered" through establishment of the introduced, predatory brown tree snake (*Boiga irregularis*). Extirpation of virtually the entire avifauna of Guam has been attributed to predation by the brown tree snake. No effective control methods have been developed as yet; none are anticipated in the foreseeable future. "Indefinitely altered" is thus tantamount to the "unsuitable and irreversible alteration or destruction" of the primary habitat of the Guam rail. The releases on Rota will be made in suitable habitat types identical to that formerly occupied by the rail on Guam. Since captive-held rails are known to become tame over time and lose their ability to survive in the wild, establishment and maintenance of a free-roaming, self-sustaining population on Rota can be expected to provide a source of "wild" rails for future re-establishment on Guam. Analysis of experimental release programs indicates that the most successful examples used "wild" (wild-caught) birds rather than animals propagated in captivity specifically for release purposes. There is no alternative to the establishment of the proposed experimental population on Rota which would be as effective for promoting conservation of the Guam rail. This population would be treated as a threatened species, rather than an endangered species for the purposes of sections 4(d) and 9 of the Act. The species is currently protected at 13 different captive propagation facilities, and release of progeny excess to the needs of the captive flock would not be detrimental to the long term survival of this species. The nonessential status will provide flexibility in managing the Rota population.

EFFECTIVE DATE: October 30, 1989.

ADDRESSES: The complete file for this final rule is available for inspection, by appointment, during normal business hours at the Pacific Islands Office (Environmental Services), U.S. Fish and Wildlife Service, 300 Ala Moana Boulevard, Room 6307, Honolulu, HI 96813.

FOR FURTHER INFORMATION CONTACT: Ernest Kosaka, Field Office Supervisor, at the above address. Telephone: (808) 541–2749 or FTS 551–2749.

SUPPLEMENTARY INFORMATION:

Background

Guam, with an area of approximately 550 square km (212 square miles), is the largest and most developed island in Micronesia. It is generally divided into a northern, fairly level limestone plateau, and a southern, mountainous area of volcanic origin. Vegetation on the island has been vastly altered by humans and much of the original forest has been removed.

The endemic flightless Guam rail was formerly abundant and occurred island-wide. The population declined drastically between 1963 and 1973, and by the mid-1970's had disappeared from southern Guam. A 1981 survey indicated that about 2,000 rails still persisted in northern Guam. By 1986, however, the species was considered virtually extirpated from the wild.

Although several inimical factors were believed to have caused the demise of the Guam rail, the most important was predation on eggs and young by the introduced brown tree snake. This exotic predator has caused virtual extinction of the entire avifauna of Guam. Individual rails and kingfishers were all that remained by the early to mid-1980's.

When it was evident that the rail faced imminent extinction, a consortium of zoos under the auspices of the American Association of Zoological Parks and Aquariums (AAZPA) in cooperation with the Guam Division of Aquatic and Wildlife Resources (GDAWR) embarked on a captive propagation program by capturing as many rails as possible. Agreements were entered into whereby cooperating zoos agreed to develop techniques for propagating the rail in captivity as well as maintaining a viable population with maximum genetic diversity. In fact, the rail has demonstrated extraordinary fecundity in captivity, making it necessary to curtail breeding to avoid production of excessive progeny. The cooperating agencies proposing this project have been assured by knowledgeable geneticists and breeders of the AAZPA that it is possible to attempt to establish a nonessential experimental population of the Guam rail with progeny excess to the needs of the captive propagation program, and without harm to the captive flock.

Because existing habitat on Guam had been rendered unsuitable by the presence of the brown tree snake, it was necessary to look at alternative sites for establishing an experimental population of this species. After evaluating habitats on Guam and other islands in the Marianas Archipelago, and consulting with knowledgeable scientists and individuals, analysis of all the data available indicated that the island of Rota, Commonwealth of the Northern Mariana Islands (Commonwealth) was the best alternative release site. Although Rota is outside the known historical range of the Guam rail, it has suitable habitat identical to that formerly occupied by the rail. Most important, the brown tree snake is not known to occur on Rota.

Prior to the establishment of an experimental population outside of its probable historic range, the Service must determine that the primary habitat of the species has been unsuitably and irreversibly altered or destroyed. Although the basic habitat components required by the rail on Guam have not been "irreversibly" altered or destroyed in the strict sense, they have essentially been made unavailable to the rail for the indefinite future due to the pervasive threat of the brown tree snake. There is hope that it will eventually be possible to control or eradicate the brown tree snake on Guam, but there is no assurance that this will be possible in the foreseeable future. This indefinite alteration of the rail's primary habitat is tantamount to the unsuitable and irreversible alteration or destruction of its primary habitat.

There are reasons to believe that an experimental population of the Guam rail will become established on Rota in the foreseeable future. Rails will be released in habitats similar or identical to that in which the species thrived on Guam before introduction and establishment of the brown tree snake. Birds destined for release comprise individuals with maximum genetic diversity. There is a comprehensive release and follow-up plan to be implemented by personnel from the University of Tennessee and also monitored by biologists from cooperating agencies. The Commonwealth has indicated that it will utilize its resources (Conservation Officer, Wildlife Technician, and Wildlife Biologists) to enhance protection for the rails released. The Mayor of Rota has also given his assurances that he will use the municipality's resources to promote protection of the experimental population.

Establishment of Guam rails on Rota should provide a source of "wild" rails for reestablishment on Guam when the brown tree snake can be eliminated or controlled. For this reason the Service finds that the release and establishment of an experimental population of Guam rails on Rota will further the conservation of this species. (See section 10(j)(2)(A) of the Act; 50 CFR 17.81(b). Analysis of release programs by scientists from the University of Idaho has shown that those releases using "wild" (wild-caught) birds have been significantly more successful in establishing a population than releases comprised of captive propagated birds. This difference has been attributed to a loss of ability to survive in the wild over time by captive-held birds. Their managed environment diminishes their ability to survive the rigors of the wild. This project is believed to be the most effective means for promoting long-term conservation and recovery of the rail.

The introduced population is not expected to be affected by existing or anticipated Federal, Commonwealth, or private actions within or adjacent to the experimental population area. Scrubby, second-growth habitats away from urban development and human activities have been selected as release sites.

The Service has consulted extensively with appropriate Commonwealth, Territorial, and Municipal (Rota) agencies in developing and implementing the experimental population project and rules. Local public participation was conducted by the Mayor of Rota, the Commonwealth, and Guam in their respective jurisdictions. A Memorandum of Agreement was developed and executed among the Service, the Commonwealth, and Guam to enhance this project.

BEST COPY AVAILABLE

VOL 54 ISS 208 OCT 30 1989 UMI

Designating the Rota population as a nonessential experimental population will enable the Service to promulgate a special rule that will authorize considerable discretion in managing the population. The protective regulations are necessary and advisable to provide for the conservation of the rail, particularly during the initial stages of the translocation program. The special rule will stipulate that agents of the Commonwealth Division of Fish and Wildlife, the Guam Division, and the Service will be authorized to take animals that need special care or that are causing depredation problems. No taking of "problem" rails would be countenanced except as a last resort. Live capture and release into other suitable, remote habitats will be the preferred course of action whenever possible.

The special rule also has a provision to allow for special take by private individuals if the nonessential experimental population becomes well established on Rota. This special take would be allowed under regulations promulgated by the Commonwealth of the Northern Mariana Islands once the Service has determined that the rail has become well established and occupies all suitable habitat on Rota. These flexible rules will help gain and maintain public support for the project.

The nonessential status is appropriate for the following reasons: (1) Although the Guam rail is virtually extinct in the wild, robust captive propagation flocks have been established on Guam and in twelve cooperating zoos and aviaries on the mainland (this captive flock presently consists of some 112 rails); (2) care and maintenance of the captive flocks are of the highest order (consequently, the Service does not believe that disease or any other natural phenomenon is likely to eliminate this flock and threaten the survival of the species); and (3) the Guam rail breeds readily in captivity, resulting in the availability of rails that can be made available for release and that are excess to the needs of the captive flock. The taking of approximately 500 rails over the 5-year duration of this project from these sources of captive propagated progeny would not threaten the survival of this species even if all of the animals released into the wild were to succumb to natural or man-caused mortality.

The Commonwealth Division has the statutory authority to protect and conserve listed species. It has agreed to protect the Guam rails proposed for establishment on Rota by promulgating its own regulations to prohibit the taking of rails in the Commonwealth. It also has two staff members, a Conservation Officer and a Wildlife Technician, residing on Rota who can enforce those regulations. The Service is satisfied that the Commonwealth's regulatory mechanisms and staff presence are sufficient to provide for conservation of the rail.

Since the Service proposes that the Rota population of Guam rails be designated as a nonessential experimental population, no critical habitat will be proposed or designated.

Pursuant to 5 U.S.C. 553(d)(3), the Service finds that good cause exists to have this rule take effect upon publication. It is essential to the success of this year's translocation that it commence during the rainy season, when habitat conditions are most favorable for survival of the rails that are released.

Summary of Comments and Recommendations

The proposed rule was published in the **Federal Register** on June 19, 1989 (54 FR 25744), at which time all interested parties were invited to comment on the proposal during the comment period, which extended through July 19, 1989. Many newspaper articles were published in the Pacific Daily News, the newspaper of general circulation in the Mariana Islands, immediately after the proposed rule was published. Publication of the proposed rule for this translocation project was a long-awaited event by many residents of Guam and the Commonwealth.

Written comments were received from a total of 41 persons representing a wide gamut of interests ranging from local governments (2), private organizations (23), universities (8), companies (3), and individuals (5). A partial listing of commenters includes: GDAWR, Commonwealth Division of Fish and Wildlife, Marianas Audubon Society, International Crane Foundation, Los Angeles Zoo, Houston Zoological Society, Zoological Society of Philadelphia, International Council for Bird Preservation—U.S. Section, National Zoological Park, University of Minnesota, Edison Electric Institute, Peregrine Fund, Inc., and the Guam Board of Realtors. All commenters supported the translocation project.

While supporting the establishment of an experimental population, several commenters also made recommendations concerning various aspects of the undertaking. Service response to these recommendations are presented below.

Comment 1: Expeditious implementation of the release program is needed.

Response: The Service concurs with the 14 commenters who expressed this opinion. The two primary reasons given for this comment were: (1) To prevent abundance of the captive rail flock from becoming a hindrance to propagation efforts (14 commenters), and (2) to alleviate the problem of limited space in captive propagation facilities due to the unique requirements of the Guam rail (11 comments). Service concurrence is also based on the necessity of releasing rails on Rota during the rainy season, when environmental conditions are most favorable for survival of the birds.

Comment 2: While supporting introduction of the rail to Rota, one person expressed concern that the introduced rails may adversely affect relict native reptile, arthropod, and snail populations on Rota. Notwithstanding the surveys conducted by entomologists from the University of Guam, this commenter believed it likely that there are relict native arthropods on Rota that may be affected by an aggressive predator like the rail. This commenter recommended continuing assessment of the effects of the experimental population on native fauna. Another expressed the opinion that the rail would not be a serious competitor or problem on Rota. Two commenters noted that the fauna and flora of Rota have been extensively altered and thought that the release of rails would not pose a problem.

Response: The Service recognizes the potential threats to native species posed by the introduction of Guam rails to Rota, but believes the potential negative consequences in this instance to be minimal and greatly outweighed by the probable benefits to conservation of the rail. Nevertheless, due attention will be paid to any evidence of adverse effects on native species, and the project will be re-evaluated if such evidence arises.

Comment 3: Rigorous disease screening of all birds to be released on Rota is essential.

Response: The Service agrees and shares the concern expressed by 12 commenters. Veterinarians have been consulted on this matter and the release plan provides for—(1) screening for hematozoans and viral diseases, (2) screening of birds shipped from mainland zoos to Guam; and (3) disease screening of all birds prior to their shipment to Rota. In consideration of the strict disease surveillance at all participating captive propagation facilities, and the disease screening of all birds before they are released on Rota, the Service believes that this concern will not become a problem.

Comment 4: While supporting the establishment of an experimental population, two commenters noted that translocation of Guam rails to Rota would be a falsification of the fauna on that island.

Response: The Service concurs with the 2 commenters who expressed this sentiment. It should be noted, however, that one commenter expressed the opinion that there was most likely a species of Rallidae on Rota in the past, citing fossil evidence from other tropical islands. He also stated that translocations outside a species' historical range may be essential to prevent extinction. The other commenter favored introduction of the rail, in spite of falsification of the fauna, because many other domesticated and wild species have already been introduced on Rota and he thought it would probably have little additional negative impact.

National Environmental Policy Act

A Final Environmental Assessment and a Finding of No Significant Impact pertaining to this proposal have been prepared and are available for inspection at the Office of Environmental Services (see **ADDRESSES** above). It has been determined that this is not a major Federal action significantly affecting the quality of the human environment within the meaning of Section 1022) of the National Environmental Policy Act of 1969.

Author

The primary author of this final rule is Ernest Kosaka, Office of Environmental Services (see **ADDRESSES**, above).

List of Subjects in 50 CFR Part 17

Endangered and threatened wildlife, Fish, Marine mammals, Plants (agriculture).

Final Regulation Promulgation

PART 17—[AMENDED]

Accordingly, part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations is amended as set forth below:

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1543; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500; unless otherwise noted.

2. Amend § 17.11(h) by revising the existing entry for "Rail, Guam," under BIRDS as shown below:

§ 17.11 Endangered and threatened wildlife.

* * * * *

(h) * * *

Species			Historic range	Vertebrate population where endangered or threatened	Status	When listed	Critical habitat	Special rules
Common name	Scientific name							
BIRDS								
Rail, Guam	*Rallus owstoni*	Western (Guam).	Pacific Ocean, USA	Entire, except Rota	E	146E, 156	NA	NA
Do	do	do	do	Rota	XN	146E, 156, 371.	NA	§ 17.84(f)

3. 50 CFR 17.84 is amended by adding new paragraph (f) as follows:

§ 17.84 Special rules—vertebrates.

* * * * *

(f) Guam Rail (*Rallus owstoni*).

(1) The Guam rail population identified in paragraph (f)(7) of this section is a nonessential experimental population.

(2) No person shall take this species, except:

(i) In accordance with a valid permit issued by the Service under § 17.32 for educational purposes, scientific purposes, the enhancement of propagation or survival of the species, zoological exhibition, and other conservation purposes consistent with the Act; or

(ii) As authorized by the laws and regulations of the Commonwealth of the Northern Mariana Islands, after the Service has made the determination that the experimental population has become well established and occupies all suitable habitat island-wide.

(3) Any employee of the Service, the Commonwealth of the Northern Mariana Islands Division of Fish and Wildlife, or the Guam Division of Aquatic and Wildlife Resources who is designated for such purposes, may, when acting in the course of official duties, take a Guam rail without a permit if such action is necessary to:

(i) Aid a sick, injured, or orphaned specimen;

(ii) Dispose of a dead specimen;

(iii) Salvage a dead specimen that may be useful for scientific study; or

(iv) Take an animal that is responsible for depredations to personal property if it has not been possible to otherwise eliminate such depredations and/or loss of personal property, provided that such taking must be done in a humane manner and may involve injuring or killing the bird only if it has not been possible to eliminate depredations by live capturing and releasing the specimen unharmed in other suitable habitats.

(4) Any violation of applicable commonwealth of the Northern Mariana Islands fish and wildlife conservation laws or regulations with respect to the taking of this species (other than taking as described in paragraph (f)(2)(ii) of this section) will also be a violation of the Endangered Species Act.

(5) No person shall possess, sell, deliver, carry, transport, ship, import, or export by any means whatsoever, any such species taken in violation of these regulations or in violation of applicable Commonwealth of the Northern Mariana Islands fish and wildlife laws or regulations or the Endangered Species Act.

(6) It is unlawful for any person to attempt to commit, solicit another to commit, or cause to be committed, any offense defined in paragraphs (f) (2) through (5) of this section.

(7) The sites for introduction of Guam rails on Rota, Commonwealth of the Northern Mariana Islands, are on an island separated from Guam by 50 kilometers of ocean. The last known observation of an individual of this species occurred near the northern tip of Guam, which is closest to the island of Rota. No intermingling of these populations will occur since this species has been extirpated in the wild on Guam. The Rota release sites are of necessity outside the historic range of the Guam rail, as described in this regulation, because its primary range has been unsuitably and irreversibly destroyed by the brown tree snake.

(8) The nonessential experimental population on Rota will be checked

BILLING CODE 4310-55-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 642

[Docket No. 90637-9166]

Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: The Secretary of Commerce (Secretary) closes the commercial fishery in the Exclusive Economic Zone for king mackerel from the western zone of the Gulf migratory group. The Secretary has determined that the commercial quota for Gulf group king mackerel from the western zone was reached on October 24, 1989. This closure is necessary to protect the overfished Gulf king mackerel resource.

EFFECTIVE DATE: Closure is effective at 12:01 a.m., local time, October 25, 1989, until 12:00 p.m. (midnight) local time, June 30, 1990.

FOR FURTHER INFORMATION CONTACT: Mark F. Godcharles, 813-893-3722.

SUPPLEMENTARY INFORMATION: The Fishery Management Plan for Coastal Migratory Pelagic Resources for the Gulf of Mexico and the South Atlantic, as amended, was developed by the South Atlantic and Gulf of Mexico Fishery Management Councils (Councils) under authority of the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, and is implemented by regulations at 50 CFR part 642. Regulations effective July 1, 1989, through June 30, 1990. Those regulations set the commercial allocation at 1.36 million pounds divided into quotas of 0.94 million pounds for the eastern zone and 0.42 million pounds for the western zone (54 FR 30554, July 21, 1989). The boundary between the eastern and western zones is a line directly south from the Florida/Alabama boundary (87°31'06" W. longitude) to the outer limit of the Exclusive Economic Zone.

Under § 642.22(a), the Secretary is required to close any segment of the king mackerel commercial fishery when its allocation or quota has been reached, or is projected to be reached, by publishing a notice in the **Federal Register**. The Secretary has determined that the commercial quota of 0.42 million pounds for the western zone of the Gulf migratory group king mackerel was reached on October 24, 1989. Hence, the commercial fishery of Gulf group king mackerel form the western zone is closed effective 12:01 a.m., October 25, 1989, through June 30, 1990, the end of the fishing year.

Except for a person on a charter vessel, during the closure, no person aboard a vessel permitted to fish under a commercial allocation may fish for, retain, or have in possession in the Exclusive Economic Zone king mackerel from the western zone. A person aboard a charter vessel may continue to fish for king mackerel in the western zone under the bag limit set forth in § 642.28(a)(1), provided the vessel is under charter, i.e., there are more than three persons aboard, including captain and crew. During the closure, king mackerel from the western zone taken in the Exclusive Economic Zone, including those harvested under the bag limit, may not be purchased, bartered, traded, or sold. This prohibition does not apply to trade in king mackerel from the western zone that were harvested, landed, and bartered, traded, or sold prior to the closure and held in cold storage by a dealer or processor.

Other Matters

This action is required by 50 CFR 642.22(2) and complies with Executive Order 12291.

Authority: 16 U.S.C. 1801 *et seq.*

Proposed Rules

Federal Register
Vol. 54, No. 208
Monday, October 30, 1989

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 89-ASW-38]

Proposed Revision of Transition Area; Clovis, NM

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposed to revise the transition area located at Clovis, NM. The development of a new standard instrument approach procedure (SIAP) to the new Portales Municipal Airport, utilizing the relocated Portales Nondirectional Radio Beacon (NDB), has made this proposal necessary. The intended effect of this proposal is to provide adequate controlled airspace for aircraft executing the new SIAP to the new Portales Municipal Airport. Coincident with this proposal would be the changing of the status of the new Portales Municipal Airport from visual flight rules (VFR) to instrument flight rules (IFR).

DATE: Comments must be received on or before December 22, 1989.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, System Management Branch, Air Traffic Division, Southwest Region, Docket No. 89-ASW-38, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193-0530.

The official docket may be examined in the Office of the Assistant Chief Counsel, Southwest Region, Federal Aviation Administraton, 4400 Blue Mound Road, Forth Worth, TX.

FOR FURTHER INFORMATION CONTACT: Bruce C. Beard, System Management Branch, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193-0530; telephone: (817) 624-5561.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 89-ASW-38." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the office of the Assistant Chief Counsel, 4400 Blue Mound Road, Fort Worth, TX, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Manager, System Management Branch, Department of Transportation, Federal Aviation Administration, Fort Worth, TX 76193-0530. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2A which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.181 of the Federal Aviation Regulations (14 CFR part 71) to revise the transition area located at Clovis, NM. The old Portales Airport has been closed and the existing Portales NDB relocated. The development of a new NDB RWY 1 SIAP to the new Portales Municipal Airport, utilizing the Portales NDB in its new location, has necessitated this proposal. The intended effect of this proposal is to provide adequate controlled airspace for aircraft executing the NDB RWY 1 SIAP to the new Portales Municipal Airport. Coincident with this proposal would be the changing of the status of the new Portales Municipal Airport from VFR to IFR. Secton 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6E dated January 3, 1989.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

VOL 54 ISS 208 OCT 30 1989 UMI

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Clovis, NM [Revised]

That airspace extended upward from 700 feet above the surface within a 23-mile radius of Cannon Air Force Base, Clovis, NM (latitude 34°23'01" N., longitude 103°18'58" W.); within 75 miles north and 2 miles south of the Texico VORTAC (latitude 34°29'42" N. longitude 102°50'21" W.) 254° and 074° radials, extending from the 23-mile radius area to 1.5 miles east of the Texico VORTAC; and within an 8-mile radius of the Portales Municipal Airport (latitude 34°08'44" N., longitude 103°24'36" W.), and within 3.5 miles each side of the 210° bearing of the Portales NDB (latitude 34°09'04" N., longitude 103°24'21" W.), extending from the 8-mile radius area to 11.5 miles southwest of the Portales Municipal Airport.

Issued in Fort Worth, TX on October 16, 1989.

Larry L. Craig,

Manager, Air Traffic Division, Southwest Region.

Federal Register

Vol. 54, No. 208

Monday, October 30, 1989

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

[Docket No. 7574S]

Closing Date for Applications for the Federal Crop Insurance Advisory Committee

The Federal Crop Insurance Corporation (FCIC) hereby serves notice to all interested parties of the closing date for accepting applications for membership on the Federal Crop Insurance Corporation Advisory Committee.

On Friday, September 22, 1989, FCIC published a notice in the **Federal Register**, at 54 FR 39024, of its intention to establish an Advisory Committee. FCIC herewith re-publishes the notice and provides that December 1, 1989, is the closing date for accepting applications.

The Committee will provide a forum for discussion of a wide variety of issues concerning the development and promotion of crop insurance protection offered by FCIC.

Under the authority contained in the Federal Crop Insurance Act (7 U.S.C. 1501 *et seq.*) (the Act), FCIC offers crop insurance protection to agricultural producers through a dual delivery system: direct delivery to the insured through private insurance company contractors under an Agency Sales and Service Contract and by reinsuring crop insurance policies sold by private insurance companies reinsured by the FCIC under the provisions of a Reinsurance Agreement.

The function of the Committee will be to bring together parties affected by, or interested in, issues concerning marketing, actuarial determinations, and claims associated with the crop insurance program.

The Committee will discuss new technologies, the upgrading of product design, marketing strategies, processing systems procedures, education, and actuarial determinations.

The Committee will not exceed 25 members, including a limited number of Department of Agriculture employees, with the remainder representing the insurance and agricultural industries. The Committee will meet four (4) times yearly.

Applications for membership consideration are being solicited by the FCIC until the close of business on December 1, 1989. Interested parties will be required to submit a background inforation Form AD-755 (OMB Approval No. 050-0001). Copies of an AD-755 may be secured by contacting the following individual: David W. Gabriel, Acting Deputy Manager, Federal Crop Insurance Corporation, Room 4096, South Building, U.S. Department of Agriculture, 14th and Independence Avenue, SW., Washington, DC 20250, Telephone (202) 447-6795.

The Department of Agriculture's programs are open to all individuals without regard to race, color, religion, sex, national origin, age, mental or physical handicap, or marital status.

Further, it is the Secretary of Agriculture's policy that membership on USDA Boards and committee's reflect, to the extent practicable, the diversity of individuals served by the programs.

Done in Washington, DC, on October 23, 1989.

John Marshall,

Manager, Federal Crop Insurance Corporation.

BILLING CODE 3410-08-M

DEPARTMENT OF COMMERCE

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census
Title: 1990 Coverage Followup Form
Form Number: D-1018A, D-1018B
Agency Approval Number: None
Type of Request: New collection
Burden: 32,248 hours
Number of Respondents: 193,490
Avg Hours per Response: 10 minutes
Needs and Uses: This survey is part of a research program that focuses on the use of sampling to improve coverage in a decennial census. During the 1990 census, interviewers will use this form in followup activities at a sample of nonrespondent households to ask a set of supplemental questions. Similarly, interviewers will ask these questions during telephone followup activities for a sample of respondents. Census Bureau analysis will focus on the feasibility of sampling in future censuses, in the event that a sample census is allowed by law
Affected Public: Individuals or households
Frequency: One time only
Respondent's Obligation: Mandatory
OMB Desk Officer: Don Arbuckle, 395-7340

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377-3271, Department of Commerce, Room H6622, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Don Arbuckle, OMB Desk Officer, Room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 24, 1989.

Edward Michals,

Departmental Clearance Officer, Office of Management and Organization.

BILLING CODE 3510-07-M

Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census
Title: Survey of Plant Capacity Utilization
Form Number: MQ-C1
Agency Approval Number: 0607-0175
Type of Request: Revision of a currently approved collection
Burden: 11,295 hours
Number of Respondents: 9,045

VOL 54 ISS 208 OCT 30 1989 UMI

Avg Hours per Response: 1 hour and 15 minutes
Needs and Uses: This survey provides information on use of industrial capacity by Standard Industrial Classification (SIC) for manufactured products and is the only statistical series that provides 4-digit SIC data for use in other Government economic series. Data are used by Government agencies, business firms, trade associations, and research organizations to measure inflationary pressures and capital flows, to understand productivity determinants, and to analyze and forecast economic and industrial trends
Affected Public: Businesses or other for-profit organizations
Frequency: Annually
Respondent's Obligation: Mandatory
OMB Desk Officer: Don Arbuckle, 395-7340

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377-3271, Department of Commerce, Room H6622, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Don Arbuckle, OMB Desk Officer, Room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 24, 1989.

BILLING CODE 3510-07-M

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Census
Title: Motor Freight Transportation and Warehousing Survey (WATS)
Form Number: B-514, B-515, B-524, B-525
Agency Approval Number: 0607-0510
Type of Request: Extension of the expiration date of a currently approved collection without any change in the substance or in the method of collection
Burden: 2,100 hours
Number of Respondents: 1,491
Avg Hours per Response: 1 hour and 25 minutes
Needs and Uses: The Census Bureau conducts the WATS annually to obtain financial information for for-hire trucking and warehousing services. This survey is part of a broad-based multi-year program to expand coverage and improve statistics for service-related industries and is the only annual source of data for the universe of employer firms providing for-hire trucking and warehousing services. Federal government agencies use the data for computations of the national accounts. The private sector uses the data for market analysis
Affected Public: Businesses and other for-profit organizations and small businesses or organizations
Frequency: Annually
Respondent's Obligation: Mandatory
OMB Desk Officer: Don Arbuckle, 395-7340

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377-3271, Department of Commerce, Room H6622, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Don Arbuckle, OMB Desk Officer, Room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 24, 1989.

BILLING CODE 3510-07-M

Bureau of Export Administration

[Docket Nos. 9103-01 and 9103-02]

Ruben Sanchez and Oficina Tecnica Ruben Sanchez CA, Respondents; Clarification of Order

On September 14, 1989, the Acting Under Secretary for Export Administration issued the Agency's Final Decision and Order in the above-captioned proceedings. In the Matter of Ruben Sanchez, individually and doing business as Oficina Tecnica Ruben Sanchez CA, 54 FR 39026 (Sept. 22, 1989). Because of an ambiguity in the Administrative Law Judge's Recommended Decision and Order, which the Acting Under Secretary affirmed, the Agency's Final Decision and Order must be clarified. The following clarifying statements are hereby added to that Final Decision and Order:

Delete from the second sentence of the section entitled "Summary" in the Agency's Final Decision and Order "Commencing one year from this date" and insert in lieu thereof: "While it is clear that the Administrative Law Judge intended that respondents' one-year denial period be suspended for one year beginning on the date of the entry of the Final Order, the ALJ's Recommended Order is unclear in that regard. To the extent that the ALJ's Recommended Order indicates that the denial period is not suspended until one year from the date of this Final Order, the language of that Recommended Order is hereby modified to comply with the ALJ's intent. Beginning on the date of this Final Order * * *."

Delete the period after the acronym "ALJ" in the third sentence in the first section entitled "Order" in the Agency's Final Decision and Order, and insert in lieu thereof: "except for the language of Paragraph II in the section of the ALJ's recommended Order entitled '*ORDER*' which indicates that the denial of respondents' export privileges will not be suspended until one year from the date of this Final Decision and Order. I order that respondents' denial period be suspended for a period of one year from the date of this Final Decision and Order, as was actually intended by the ALJ. All other terms concerning the conditions of that suspension and the termination of the denial period set forth in the ALJ's recommended Order are affirmed."

Dated: October 20, 1989.

Dennis E. Kloske,

Under Secretary for Export Administration.

Amendment of Decision and Order

This Amendment corrects an editorial error in the September 14, 1989 Order issued in this matter (54 FR 39026, Sept. 22, 1989). The purpose of that Order was to impose on Respondents a suspended one-year denial of U.S. export privileges. Because of two excess words in Paragraph II of the August 24, 1989 Order signed by the undersigned and affirmed by that September 14, 1989 Order, however, the period of suspension was scheduled to begin only after the end of the one-year denial period. This Amendment corrects that scheduling by providing that the one-year suspension shall begin simultaneously with the one year of denial, so that the denial is suspended from its outset.

Order

Paragraph II of the undersigned's August 24, 1989 Order, as affirmed by the Order of September 14, 1989, is amended by deleting from the first sentence its second and third words—"one year"—so that the sentence shall read as follows.

Commencing from the date of the final Agency action, the denial of export privileges set forth in Paragraph I above shall be suspended, in accordance with § 788.16 of the Regulations, for one year, and shall be terminated at the end of such year, provided that Respondents have committed no further violation of the Act, the Regulations, or the final Order entered in this proceeding.

All other terms and conditions of the August 24, 1989 Order, as affirmed by the Order of September 14, 1989, shall remain in full force and effect as originaly issued.

Dated: October 17, 1989.

Thomas W. Hoya,

Administrative Law Judge.

[FR Doc. 89-25435 Filed 10-27-89; 8:45 am]

BILLING CODE 3510-DT-M

[Docket No. 1613-01, 02, 03]

Action Affecting Export Privileges; Spawr Optical Research, Inc.

In the matter of: Walter J. Spawr, Frances A. Spawr, Spawr Optical Research, Inc. Respondents.

Summary

On August 29, 1989, the Administrative Law Judge (ALJ) entered a Recommended Decision and Order of Modification of the ALJ's Order of January 27, 1986, as affirmed by Secretarial Order on February 26, 1986 (51 FR 7477 *et seq.*, March 4, 1986). The Order of Modification was referred to me pursuant to the Export Administration Act of 1979, 50 U.S.C. app. 2401-2420 as amended, for final action. I concur with the Recommended Decision and affirm the Order of Modification. The Order of January 27, 1986, is hereby modified to suspend the last two years of the denial of export privileges of respondents Walter J. Spawr, Francis A. Spawr and Spawr Optical Research, Incorporated for six years. The respondents shall be on probation until their export privileges are restored on February 27, 1992.

Order

On August 29, 1989, the Administrative Law Judge entered his Recommended Decision and Order of Modification, a copy of which is attached hereto and made a part hereof, has been referred to me for final action. Having examined the record in this case, I hereby affirm the Recommended Decision and Order of Modification of the Administrative Law Judge.

This constitutes final agency action in this matter.

Dated: October 20, 1989.

Dennis E. Kloske,

Under Secretary for Export Administration.

ORDER ON MOTION

In the matter of: Walter J. Spawr, Frances A. Spawr, Spawr Optical Research, Inc., Respondents.

Appearance for Respondent: Steven R. Perles, Esq., Scot C. Whitney, Esq., 1629 K Street, NW., Suite 601, Washington, DC 20006.

Appearance for Agency: Thomas C. Barbour, Esq., Office of the Chief Counsel for Export Administration, U.S. Department of Commerce, Room H-3329, 14th & Constitution Ave., NW., Washington, DC 20230.

Preliminary Statement

On October 4, 1988, Respondent's filed a Motion to Amend Order Denying Export Privileges. The case has a long history which is detailed in the appended Decision and Order issued January 27, 1986, and confirmatory action of February 26, 1986 (51 FR 7477 et seq., March 4, 1986). The motion requests that the denial order be amended to terminate effective November 10, 1988.

Following the exchange of written submissions the matter was assigned to Administrative Law Judge Thomas W. Hoya on March 22, 1989. In response to a request that he disqualify himself, an Order of recusal was issued by Judge Hoya on April 10, 1989.

Discussion

In his filings Counsel represents that since Respondents have satisfied the criminal sanctions of the Federal District Court; have completed their probation and have been absolved from payment of the balance of the criminal penalty, favorable consideration should be given to remitting the balance of the period of the administrative denial of export privileges.

Agency Counsel opposes any mitigation arguing that the fulfillment or disposition of the federal criminal proceedings is not a grounds for modification of the denial order. He also contends that the action requested is a reopening of the proceedings, prohibited by § 788.18, footnote 2 of the Regulations, and that a document submitted with the request has not been shown to be relevant to the Motion.

Requests to modify, grant exceptions to, and/or render interpretations of, Denial Orders in Export compliance cases were commonplace and a substantial part of the practice before the Hearing Commissioner a decade ago and earlier. Since 1985, Exceptions, that is, requests to conduct a specified transaction or transactions by or with a denied party are subject to a reporting requirement to Congress under § 11.(c)(3) of the Export Adminstration Act. This office is not aware of any recent practice in that area. The procedure outlined in § 787.12 of the Regulations (15 CFR 787.12) may provide such mechanism. Interpretations, appear to be in a limbo status and without a system or method of promulgation. The third category, Modifications, which are

VOL 54 ISS 208 OCT 30 1989 UMI

at issue here, are involved when it is contemplated that the terms of a denial order published in the **Federal Register** will be altered. These warrant publication of the change to give notice to those in the public sector who are charged with the knowledge of, and adherence to the provisions of such orders. These too were frequent over a decade ago, but this process also appears to have fallen into disuse.

The objections and requests will be discussed seriatim.

A. Agency Counsel's Objection to Exhibit C and D—Operation Committee Document #5853 and Referral Form

These are very obviously documents from the Agency records made in 1976, at or about the time the license application was denied. It is my view that they have little bearing on the question for consideration here. The fact that some of those who participated in the license application consideration process viewed the request favorably, loses much significance, for the record reflects that the application was denied and this was conveyed to Respondents. Nevertheless, the items were exported without a license.

B. Authority to Modify Denial Orders

Agency Counsel's argument that the Secretary and his delegee lack authority to modify denial orders, misconstrues the nature of the relief requested and is erroneous. This is not a reopening as contemplated under § 788.18. So long as a denial continues to be published in the Table of Denial Orders (Supp. 1 to Part 788), the Secretarial delegee may act with respect to it. While it may be appropriate to establish a time, after which new evidence or a retrying of the case in chief will be barred, the Secretary through his delegee should and does retain the power to act with respect to outstanding sanctions. This is demonstrated by the recent action in Kubicek 54 FR 13716 et seq., April 5, 1989 where, almost 3 years after the initial action the final Agency action was unilaterally changed.

C. Satisfaction of the Federal Criminal Sanctions

Agency Counsel's representation is that the expiration or completion of the criminal sentence does not constitute a sufficient basis for reconsideration. On behalf of the Respondent's it is argued that the expiration of the 5-year probation period, the correspondence reflecting the good conduct and therefore the rehabilitation of Respondent's and the act of mitigating $18,800 of the criminal fine, in combination, reflect that Respondents have been restored and that favorable consideration should be given to remission of the remainder of the civil administrative sanctions as well.

The disposition of this request is a matter within the authority and sound discretion of the Secretarial delegee responsible for Administration of the Export Administration Act.

The background recited above, as well as the criminal conviction and administrative adjudication, attest to the seriousness of the violations. The export of controlled commodities to the Soviet Union after denial of license applications was and is a very serious matter. (See Findings pp 6 & 7 Decision and Order of January 27, 1986).

Nevertheless, the request for clemency following the termination of the opprobrious effect of the federal criminal sanctions is understandable and may be considered as an appropriate approach to restore this business and its owners to fully productive citizenship.

These compliance proceedings are not penal in nature. The criminal process, which included confinement, probation and a fine, addressed that aspect of the matter. In reviewing the available historic records relating to the purpose of these administrative proceedings it is repeatedly asserted that they are remedial not penal. The following notes, quoted from the Hearing Commissioners desk handbook, bear review and consideration.

SANCTIONS—Nature of

This is not a penal proceeding but rather it is a remedial proceeding to bring about effective enforcement or adherence to the law. A primary means for attaining that objective is the educational value which the denial of export privileges has on persons concerned with exportation of goods from the U.S.

Corrective and deterrent, normal objectives of remedial action.

The cases referenced under that note include the following:

The action finally taken in these compliance cases is not intended primarily to inflict a penalty. True, it may result in some financial impact. However, this has corrective and deterrent values, normal objectives of remedial action. In these cases the Bureau of Foreign Commerce carries out the mandate of the Congress, which is to effectuate the policies set forth in the Act and make regulations governing the participation in exports by any person "to the extent necessary to achieve effective enforcement of this Act." Bertling No. 261 Order of July 16, 1959.

and,

* * * this is not a penal proceeding, but rather a remedial proceeding intended to achieve more effective enforcement of the law. (See Country Garden Market vs. Bowles 1944, U.S.C.A.D.C., 78 U.S. App. D.C. 381, 141 F.2d 540, Cert. den. 322 U.S. 752; Di Melia vs. Bowles, 1945, C.C.A. Mass., 148 F.2d 725, Cert. den. 325 U.S. 866; Steuart & Bro. vs. Bowles, 1944, 78 U.S. App. D.C. 350, 140 F.2d 703).

Stemmler, Imex et al No. 1991 Order of Oct. 27, 1955.

Certainly when considered with the actions in other cases the period of actual administrative denial for over 8 years, since February 24, 1981, when the Temporary Denial Order issued, is substantial. In any event these respondents export privileges will be restored in February 1992 upon the expiration of the present denial order. A period of probation in preparation for that expiration and in recognition of the rehabilitation which has been acknowledged in the judicial process appears to be in order.

I believe that a suspension of the last two years of the current denial, starting February 27, 1990, would be appropriate and would aid in the patterned rehabilitation of these Respondent's.

The Motion to Amend is granted in part.

Order of Modification

The Order of January 27, 1986 as affirmed by Secretarial Order on February 26, 1986 (51 FR 7477 et seq., March 4, 1986) is hereby Modified to insert the following as Paragraph III:

III. Commencing four years from the date of the final Agency action, taken on February 26, 1986, the denial of export privileges set forth in Paragraph II above shall be suspended, in accordance with Section 788.16 of the Regulations, for the remaining two years of the six-year period set forth in Paragraph II above, and shall be terminated at the end of such six year period, provided that Respondents have committed no further violations of the Act, the Regulations, or the final Orders entered in this proceeding. During the two-year suspension period, Respondents may participate in transactions involving the export of U.S.-origin commodities or technical data from the United States or abroad in accordance with the requirements of the Act and the Regulations. The provisions of Paragraphs IV and V of this Order as amended shall also be suspended during such two-year period.

Paragraphs's III through V of the Order of January 27, 1986 as affirmed are hereby renumbered as IV through VI.

So ordered.

Dated: August 29, 1989.

Hugh J. Dolan,

Administrative Law Judge.

Cotton Shop Towels From Peru; Determination Not To Terminate Suspended Investigation

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of determination not to terminate suspended investigation.

SUMMARY: The Department of Commerce is notifying the public of its determination not to terminate the suspended countervailing duty investigation on cotton shop towels from Peru.

EFFECTIVE DATE: October 30, 1989.

FOR FURTHER INFORMATION CONTACT: Megan Pilaroscia or Linda Ludwig, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On September 15, 1989, the Department of Commerce ("the Department") published in the **Federal Register** (54 FR 38262) its intent to terminate the suspended countervailing duty investigation on cotton shop towels from Peru (September 12, 1984, 49 FR 35835). The Department may terminate a suspended investigation if the Secretary concludes that the agreement is no longer of interest to interested parties. The Department has not received a request to conduct an administrative review of the agreement suspending the countervailing duty investigation on cotton shop towels from Peru for four consecutive annual anniversary months.

On September 11, 1989, the petitioner, Milliken & Company, objected to the Department's intent to terminate this suspended investigation. Therefore, we no longer intend to terminate the suspended investigation.

This notice is in accordance with § 355.25(d)(4) of the Commerce Department's revised regulations published in the **Federal Register** of December 27, 1988 (53 FR 52306) (to be codified at 19 CFR 355.25)(d)(4).

Dated: October 20, 1989.

Lisa B. Barry,

Acting Assistant Secretary for Import Administration.

Standard Chrysanthemums From the Netherlands; Preliminary Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of preliminary results of countervailing duty administrative review.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on standard chrysanthemums from the Netherlands. We preliminarily determine the net subsidy to be 0.66 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.57 percent *ad valorem* for the period January 1, 1987 through December 31, 1987. We invite interested parties to comment on these preliminary results.

EFFECTIVE DATE: October 30, 1989.

FOR FURTHER INFORMATION CONTACT: Philip Pia or Paul McGarr, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On March 12, 1987, the Department of Commerce ("the Department") published in the **Federal Register** (52 FR 7646) a countervailing duty order on standard chrysanthemums from the Netherlands. On March 25, 1988, the respondent, the Association of Dutch Flower Auctions, requested that we conduct an administrative review of the order. We published the initiation on April 27, 1988 (53 FR 15083). The Department has now conducted that administrative review in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of Review

The United States, under the auspices of the Customs Cooperation Council, has developed a system of tariff classification based on the international harmonized system of Customs nomenclature. On January 1, 1989, the United States fully converted to the Harmonized Tariff Schedule (HTS), as provided for in section 1201 *et seq.* of the Omnibus Trade and Competitiveness Act of 1988. All merchandise entered, or withdrawn from warehouse, for consumption on or after that date is now classified solely according to the appropriate HTS item number(s).

Imports covered by this review are shipments of Dutch standard chrysanthemums. During the review period, such merchandise was classifiable under item 192.2120 of the Tariff Schedules of the United States Annotated. This merchandise is currently classifiable under HTS item 0603.10.70. The written description remains dispositive.

The review covers the period October 27, 1986 through December 31, 1987 and eight programs.

Analysis of Programs

(1) Natural Gas Provided at Preferential Rates

Natural gas in the Netherlands is sold directly to major customers by the N.V. Nederlandse Gasunie (Gasunie). The Agricultural Industrial Board, or "Landbouwschap," is a quasi-governmental body that negotiates with Gasunie to determine prices and general terms of gas delivery for Dutch greenhouse growers. Gasunie is 40 percent owned by DSM Aardgas (a company wholly-owned by the Government of the Netherlands), 10 percent by the Government of the Netherlands, 25 percent by Shell Nederland, and 25 percent by Esso Nederland N.V. While the Government of the Netherlands does not own a controlling interest in Gasunie, it plays a significant role in the setting of natural gas prices. The Minister of Economic Affairs reserves the right to approve selling prices and terms of delivery for supplies to public distributors in the Netherlands, large export contracts, and contracts between Gasunie and the Landbouwschap. In this respect, the Minister's approval is an important part of the system of controls normally applied to negotiated prices.

The Landbouwschap is a statutory trade organization created under the Industrial Organizations Act. Its chairman is approved by the Government of the Netherlands, and its purpose is to represent the economic and political interests of the agricultural sector in the Netherlands.

Natural gas prices are based on consumption levels which are broken down into five categories or "zones"—zones "a" through "e". Zone "a" users

VOL 54 ISS 208 OCT 30 1989 UMI

are small gas consumers, such as homeowners or small businesses, which use less than 170,000 cubic meters (m^3) of gas per year; zone "e" users are the largest consumers, such as industries, which use more than 50 million m^3 of gas per year. Zone "a" users pay the highest price per m^3; zone "e" the lowest.

Greenhouse growers, through the Landbouwschap, negotiated a contract in October 1984 with Gasunie for their natural gas. Under the contract, which was in effect from October 1, 1984 through October 1, 1985, greenhouse growers pay the zone "d" rate plus 0.5 guilder cents per m^3 of gas. Absent the contract, most greenhouse growers, given their individual consumption levels, would fall in zone "a" or zone "b", with a few falling in zone "c".

In the October 1984 contract negotiated with Gasunie by the Landbouwschap on behalf of greenhouse growers, a maximum ceiling price was established. In the Final Affirmative Countervailing Duty Determination: Certain Fresh Cut Flowers From the Netherlands (52 FR 3301, February 3, 1987) ("Netherlands Flowers"), we determined that the contract with the provision of a price ceiling constitutes preferential treatment because: (a) comparable users of natural gas enjoy no such price ceiling; (b) the contract constituted governmental provision of natural gas—the Dutch government owns 50 percent of Gasunie, the Minister of Economic Affairs must approve the contract between Gasunie and the Landbouwschap, and the Landbouwschap itself is a quasi-governmental organization; and (c) the contract involves the provision of natural gas to a specific industry (*i.e.*, greenhouse growers). Accordingly, in "Netherlands Flowers," we calculated the benefit to greenhouse growers based on the difference between the price of gas actually paid by greenhouse growers in 1985 and the zone "d" plus 0.5 guilder cents price they would have had to pay under the contract absent the ceiling price.

In June 1985, a contract was signed between the Landbouwschap and Gasunie that superseded the October 1984 contract. The June 1985 contract maintained the same zone "d" rate per m^3 of natural gas, but it established a higher ceiling price for the month of June 1985, 45 guilder cents per m^3, after which the ceiling reverted to the original 42.5 guilder cents per m^3. This contract was in effect from June 4, 1985 through October 1, 1987.

In September 1985, Gasunie informed the Landbouwschap that it was withdrawing the ceiling price from the contract. In its letter, Gasunie explained that it took this action to comply with the EC Commission's decision of January 13, 1985, which found the ceiling price in violation of Community statute. In "Netherlands Flowers", we stated that since the withdrawal of the ceiling price was a unilateral action contested by the Landbouwschap, and because no new contract had been signed between the parties agreeing to the withdrawal by the time of our final determination, the June 1985 contract technically still included the ceiling price. Therefore, we did not consider the unilateral withdrawal of the ceiling price as a verified program-wide change for purposes of calculating a separate deposit rate. In August 1987, a new contract was negotiated between the Landbouwschap and Gasunie for the period October 1, 1987 through October 1, 1989. The price of gas to greenhouse growers remained the zone "d" rate plus 0.5 guilder cents per m^3, but the contract contained no provision for a ceiling price.

Because we verified that the price of natural gas supplied to greenhouse growers for the period October 27, 1986 through September 30, 1987 was lower than the ceiling price, we preliminarily determine the net subsidy for this same period to be zero.

For the period October 1, 1987 through December 31, 1987, the contract in effect between Gasunie and the Landbouwschap contained no provision for a ceiling price. Therefore, we preliminarily determine that this contract does not confer a countervailable benefit.

(2) Aids for the Creation of Cooperative Organizations

Under European Community (EC) Regulation 355/77, the EC has provided grants to Dutch auction houses, which are flower grower cooperatives. These funds are provided by the EC through the Agricultural Guidance and Guarantee Fund with matching grant contributions from EC member states. The purpose of the program is to improve the processing, marketing and distribution of agricultural products in member states.

The Government of the Netherlands submitted a program proposal to the EC in 1979 for flower auctions. In 1980, the EC approved the program for a four-year duration. This program terminated at the end of 1984; however, project applications submitted to the EC by December 1984 were eligible for, and received, grant approval through June 1985. In February 1985, the Government of the Netherlands requested an extension of the flower auction program, but withdrew this request in March 1986. We verified that grants are still being disbursed under the flower auction program for investment projects approved through June 1985.

Because the Government of the Netherlands selects only certain activities and/or products within the agricultural sector for which it proposes a program to the EC for funding, and because we saw no evidence of standard criteria applied in the approval of programs by the EC, we determine that this grant program is administered in such a way as to be limited to a specific enterprise or industry, or group of enterprises or industries in the Netherlands and is, therefore, countervailable.

To calculate the benefit from this program, we used a declining balance grant methodology. We took the total value, in guilders, of grants given in each year to flower auction houses under this program and allocated these amounts over ten years, which is the average useful life of renewable physical assets in the agricultural sector as determined under the U.S. Internal Revenue Service's Asset Depreciation Range System. We used as the discount rate the average interest rate for long-term commercial loans published by the Netherlands Bank (the Central Bank), for each year in which grants were provided. We took the total of the benefits from these grants allocated to each year and divided the benefits by the f.o.b. value of total auction sales in that year. On this basis, we preliminarily determine the net subsidy to be 0.15 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.13 percent *ad valorem* for calendar year 1987.

(3) Glasshouse Enterprises Program

Under the Glasshouse Enterprises Program, the Ministry of Agriculture and Fisheries provided grants to greenhouse growers in order to stimulate private investment in energy saving methods in the horticulture industry. The program was scheduled to terminate in 1984; however, the fund was not fully used, and was extended for one year to June 1985. Grants for energy saving investment plans approved prior to the termination of the program were still being disbursed in 1986 and 1987.

Because this program was available only to greenhouses, we determine that it was limited to a specific enterprise or industry or group of enterprises or industries and provides a countervailable domestic subsidy.

To calculate the benefit from this program, we used a declining balance grant methodology. For each of the years 1982 to 1987, we took the total amount of grants provided to all Dutch greenhouse growers under this program and allocated these amounts over ten years, which is the average useful life of renewable physical assets in the agricultural sector. We used as the discount rate the average interest rate for long-term commercial loans published by the Netherlands Bank (the Central Bank), for each year in which grants were provided. We took the total of the benefits from these grants allocated to each year and divided the benefits by the f.o.b. value of total greenhouse sales in that year. On this basis, we preliminarily determine the net subsidy to be 0.50 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.44 percent *ad valorem* for calendar year 1987.

(4) Aids for the Reduction of Glass Surface

Under the Aids for the Reduction of Glass Surface program, the Ministry of Agriculture and Fisheries provided grants to greenhouse growers for the purpose of increasing the energy efficiency of greenhouses by dismantling existing glass and replacing it with modern energy-saving glass. The program was established in October 1982 and terminated in November 1984. However, grants approved prior to the termination of the program were still being disbursed in 1985.

Because this program was available only to greenhouses, we determine that it was limited to a specific enterprise or industry or group of enterprises or industries and provides a countervailable domestic subsidy.

To calculate the benefit from this program, we used a declining balance grant methodology. For each of the years 1983 to 1985, we took the total amount of grants provided to all Dutch greenhouse growers under this program and allocated these amounts over ten years, which is the average useful life of renewable physical assets in the agricultural sector. We used as the discount rate the average interest rate for long-term commercial loans published by the Netherlands Bank (the Central Bank), for each year in which grants were provided. We took the total of the benefits from these grants allocated to each year and divided the benefits by the f.o.b. value of total greenhouse sales in that year. On this basis, we preliminarily determine the net subsidy to be 0.006 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.005 percent *ad valorem* for calendar year 1987.

(5) Steam Drainage Systems

In January 1981, the Government of the Netherlands banned the use of methylbromide as a means of soil disinfection due to the potential health hazards caused by the chemical. In December 1981, the Ministry of Agriculture and Fisheries established a program making available cash grants to encourage the use of steam drainage as an alternative method of soil disinfection for greenhouses. The program was terminated in September 1984. However, some grants were disbursed in 1985 because of lags in processing the applications.

Because this program was only available to greenhouse growers, we determine it was limited to a specific enterprise or industry, or group of enterprises or industries and provides a countervailable domestic subsidy.

To calculate the benefit from this program, we used a declining balance grant methodology. For each of the years 1982 to 1985, we took the total amount of grants provided to all Dutch greenhouse growers under this program and allocated these amounts over ten years, which is the average useful life of renewable physical assets in the agricultural sector. We used as the discount rate the average interest rate for long-term commercial loans published by the Netherlands Bank (the Central Bank), for each year in which grants were provided. We took the total of the benefits from these grants allocated to each year and divided the benefits by the f.o.b. value of total greenhouse sales in that year. On this basis, we preliminarily determine the net subsidy to be 0.005 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.007 percent *ad valorem* for calendar year 1987.

(6) Guarantee Fund for Agriculture

The Stichting Borgstellingsfonds voor de Landbouw (Foundation Security Fund for Agriculture, or "the Fund") is used to guarantee the servicing and repayment of loans made by banks to farmers. The Fund acts as an institutional guarantor, not as a lender itself, providing guarantees only when the security offered by the farmer in question is inadequate for the total amount of the loan. Not until all of the farmer's own securities or collateral have been provided for the loan can an application be made to the Fund. If an application to the Fund is approved, the guarantee applies only to the portion of the loan not originally approved by the bank.

In "Netherlands Flowers", we found that horticulture received a disproportionate share of loan guarantees under this program. Our determination was based on a comparison of the relative shares of horticulture in total loan guarantees in each year from 1982 to 1984, and total agricultural production for 1985.

In addition, in "Netherlands Flowers," because we found that there are no commercial loan guarantees available in the Netherlands, we calculated the benefit from this program using the best information available at that time; *inter alia*, we multiplied the total outstanding value of guaranteed loans to horticulture in 1985 by the difference between the interest rate on the guaranteed loans and on loans secured by equipment and/or accounts receivable, as reported by the Rabobank Nederland.

In this review, however, we verified that all of the borrowing by greenhouse growers in 1986 and 1987, including the portions of the loans guaranteed by the Fund, was contracted at commercial interest rates. The greenhouse grower secured the greater portion of the loan with his own collateral. The interest rate was negotiated based on a normal credit analysis consistent with commercial considerations. In every case, the Fund guaranteed a small portion of the loan at the interest rate that was contracted between the greenhouse grower and a private bank before application to guarantee an incremental amount was made to the Fund. Therefore, because we find no difference between the commercial interest rate in the Netherlands and the rate charged by the Fund for its guarantees, we preliminarily determine the benefit from this program to be zero.

(7) Other Programs

We preliminarily determine that exporters or producers of standard chrysanthemums did not use the following programs during the review period:

a. Investment Incentive (WIR)—Regional Program; and

b. Loans at preferential interest rates.

Preliminary Results of Review

As a result of our review, we preliminarily determine the net subsidy to be 0.66 percent *ad valorem* for the period October 27, 1986 through December 31, 1986, and 0.57 percent *ad valorem* for the period January 1, 1987 through December 31, 1987.

In accordance with section 705(a)(1) of the Tariff Act, the final determination

VOL 54 ISS 208 OCT 30 1989 UMI

in this case was extended to coincide with the antidumping final determination on several cut flowers investigations. Because we cannot impose suspension of liquidation for more than 120 days without the issuance of a countervailing duty order, we terminated the suspension of liquidation for entries or withdrawals made on or after February 25, 1987 and before March 12, 1987, the date of publication of the countervailing duty order.

Therefore, the Department intends to instruct the Customs Service to assess countervailing duties of 0.66 percent of the f.o.b. invoice price on all shipments of Dutch standard chrysanthemums entered, or withdrawn from warehouse, for consumption on or after October 27, 1986 and exported on or before December 31, 1986. The Department also intends to instruct the Customs Service to assess countervailing duties of 0.57 percent of the f.o.b. invoice price on all shipments exported on or after January 1, 1987 and entered or withdrawn from warehouse, for consumption on or before February 24, 1987, and entered or withdrawn from warehouse, for consumption on or after March 12, 1987, and exported on or after December 31, 1987.

The Department intends to instruct the Customs Service to collect a cash deposit of estimated countervailing duties of 0.57 percent of the f.o.b. invoice price on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. This deposit requirement shall remain in effect until publication of the final results of the next administrative review.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days after the date of publication. Any hearing, if requested, will be held 44 days from the date of publication or the first workday thereafter. Rebuttal briefs and rebuttals to written comments, limited to issues in those comments, must be filed not later than 37 days after the date of publication. Any request for an administrative protective order must be made no later than five days after the date of publication. The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any such written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.22 of the Commerce Regulations published in the **Federal Register** on December 27, 1988 (53 FR 52306) (to be codified at 19 CFR 355.22).

Dated: October 20, 1989.

Lisa B. Barry,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of application for an amendment to an Export Trade Certificate of Review.

SUMMARY: The Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, has received an application for an amendment to an Export Trade Certificate of Review. This notice summarizes the amendment and requests comments relevant to whether the amended Certificate should be issued.

FOR FURTHER INFORMATION CONTACT: Douglas J. Aller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. A Certificate of Review protects the holder and the members identified in the Certificate from state and federal government antitrust actions and from private, treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Act and 15 CFR 325.6(a) require the Secretary to publish a notice in the **Federal Register** identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination of whether the Certificate should be amended. An original and five (5) copies should be submitted not later than 20 days after the date of this notice to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, Room 1223H, Washington, DC 20230. Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). Comments should refer to this application as "Export Trade Certificate of Review, application number 85-2A018."

OETCA has received the following application for an amendment to Export Trade Certificate of Review No. 85-00018, which was issued on June 3, 1986 (51 FR 20873, June 9, 1986).

Summary of Application

Applicant: U.S. Shippers Association ("USSA"), 1209 Orange Street, Wilmington, Delaware 19801, Contact: Richard G. Slattery, Legal Counsel, Telephone: 202/662/6000.

Application No.: 85-2A018.

Date Deemed Submitted: October 18, 1989.

Request For Amended Conduct: USSA seeks to amend its Certificate to:

1. Add each of the following companies as a "Member" within the meaning of § 325.2(1) of the Regulations (15 CFR 325.2 (1)): Air Products and Chemicals Inc., Allentown, Pennsylvania (no controlling entity); and Akzo Chemicals Inc., Chicago, Illinois (controlling entity: Akzo N.V., Arnhem, The Netherlands.)

2. Change the name of an existing "Member," "Stauffer Chemical Company," to "Rhone-Poulenc Basic Chemicals Co."

3. Amend the definition of "Products" in the Certificate to make the Certificate applicable to the export of all products.

4. Extend the protection of the Certificate to subsidiaries of Members, and the officers, directors and employees of such subsidiaries.

Dated: October 20, 1989.

Douglas J. Aller,

Director, Office of Export Trading, Company Affairs.

[FR Doc. 89-25417 Filed 10-27-89; 8:45 am]

BILLING CODE 3510-DR-M

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of issuance of an Export Trade Certificate of Review, application No. 89-00012.

SUMMARY: The Department of Commerce has issued an Export Trade Certificate of Review to Kentucky World Trade Center, Lexington, Inc. ("KWTCL"). This notice summarizes the conduct for which certification has been granted.

FOR FURTHER INFORMATION CONTACT: Douglas J. Aller, Director, Office of Export Trading Company Affairs, International Trade Administration, (202) 377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. The regulations implementing Title III are found at 15 CFR part 325 (50 FR 1804, January 11, 1985).

The Office of Export Trading Company Affairs is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a Certificate in the **Federal Register**. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Certified Conduct

Members (in addition to the applicant): None.

Export Trade:

1. *Products*
All products.
2. *Services*
All services.
3. *Export Trade Facilitation Services (as they relate to the export of Products and/or Services):* All Export Trade Facilitation Services, including, but not limited to, market research, financing (including joint funding on research, technical, and administrative costs), licensing, advertising, export documentation, transportation (including consolidation of shipments), and distribution services.

Export Markets:

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

Export Trade Activities and Methods of Operation:

1. On behalf of Suppliers and/or its Members, KWTCL may:

a. Provide and/or arrange for the provision of Export Trade Facilitation Services;

b. Enter into exclusive or nonexclusive distributorship agreements with Export Intermediaries to supply Products and Services to Export Markets; and

c. Determine and set the price of Products and Services for sale in Export Markets.

2. KWTCL may assist Suppliers and/or its Members, on an individual or joint basis, with the development of export plans to meet foreign buyer needs in Export Markets.

A copy of the certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Dated: October 18, 1989.

BILLING CODE 3510-DR-M

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of issuance of an amended Export Trade Certificate of Review, application No. 89-A0005.

SUMMARY: The Department of Commerce has issued an amended Export Trade Certificate of Review to the CherreX Corporation on October 18, 1989. The original Certificate was issued on May 26, 1989. Notice of issuance of the Certificate was published in the **Federal Register** on June 12, 1989 (54 FR 24928).

FOR FURTHER INFORMATION CONTACT: Douglas J. Aller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202-377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4011-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. The regulations implementing title III are found at 15 CFR part 325 (50 FR 1804, January 11, 1985).

The Office of Export Trading Company Affairs is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Secretary of Commerce to publish a summary of a Certificate in the **Federal Register**. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Amended Certificate

Export Trade Certificate of Review No. 89-00005 was issued to the CherreX Corporation on May 26, 1989. Notice of issuance of the Certificate was published in the **Federal Register** on June 12, 1989 (54 FR 24928).

The listing of "Members" named in CherreX's Export Trade Certificate of Review has been amended to incorporate the following changes:

1. Each of the following companies has been added as a "Member" of the Certificate: Chase Farms, Inc., Walkerville, MI; Larson-Seaquist Processing, Inc., Sister Bay, WI; Muir-Roberts Co., Inc., Salt Lake City, UT; Smeltzer Orchard Co., Frankfort, MI; and Utah Finer Fruits, Santaquin, UT.

2. Each of the following companies has been deleted as a "Member" of the Certificate: Comstock/Michigan Fruit Division, a division of Curtice Burns Foods, and Great Lakes International Trading, Inc.

Pursuant to section 304(a)(2) of the ETC Act, 15 U.S.C. section 4014(a)(2), and 15 CFR 325.7, the amended Certificate is effective from July 24, 1989, the date on which the application for an amendment was deemed submitted.

A copy of the amended Certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Dated: October 20, 1989.

Douglas J. Aller,

Director, Office of Export Trading Company Affairs.

BILLING CODE 3510-DR-M

VOL 54 ISS 208 OCT 30 1989 UMI

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. QF90-8-000]

Pinellas County Board of County Commissioners; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

October 23, 1989.

On October 12, 1989, Pinella County, Board of County Commissioners (Applicant), of 315 Court Street, Clearwater, Florida 34616, submitted fer filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located at 3001 110th Avenue North, St. Petersburg, Florida. The facility will consist of four waste fired boilers and two steam turbine generator sets. Applicant states that the primary energy source for the facility will be biomass in the form of municipal solid waste. The net electric power production capacity of the facility will be 70 MW.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 89-25432 Filed 10-27-89; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CS71-625-001 et al.]

UMC Petroleum Corp. et al.; Applications for Small Producer Certificates[1]

October 23, 1989.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the Commission's regulations thereunder for a small producer certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before November 9, 1989, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Lois D. Cashell,

Secretary.

Docket No.	Date filed	Applicant
CS71-625-001	[1] 9-29-89	UMC Petroleum Corporation, 1201 Louisiana, Suite 1000, Houston, TX 77002.
CS88-98-001	[2] 9-19-89	Universal Drilling Co., Inc., 200 Carondelet Street, 1500 American Bank Building, New Orleans, LA 70130.

BILLING CODE 6717-01-M

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket Nos. CP90-74-000, et al.]

United Gas Pipe Line Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. United Gas Pipe Line Company

[Docket No. CP90-74-000]

October 20, 1989.

Take notice that on October 18, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-74-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Phoenix Gas Pipeline Company (Phoenix), an intrastate pipeline company, under the blanket certificate issued in Docket No. CP88-6-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

United states that pursuant to a transportation agreement dated December 6, 1988, as amended on July 20, 1989, under its Rate Schedule ITS, it proposes to transport up to 103,000 MMBtu per day equivalent of natural gas for Phoenix. United states that it would transport the gas from multiple receipt points as shown in Exhibit "A" of the transportation agreement and would deliver the gas to multiple delivery points shown in Exhibit "B" of the agreement.

United advises that service under § 284.223(a) commenced August 14, 1989, as reported in Docket No. ST90-32-000 (filed October 3, 1989). United further advises that it would transport 103,000 MMBtu on an average day and 37,595,000 MMBtu annually.

Comment date: December 4, 1989, in accordance with Standard Paragraph G at the end of this notice.

2. Wyoming-California Pipeline Company

[Docket No. CP90-41-000]

October 23, 1989.

Take notice that on October 10, 1989, Wyoming-California Pipeline Company ("WyCal"), P.O. Box 1087, Colorado Springs, Colorado 80944, pursuant to section 7(c) of the Natural Gas Act, as amended, and subpart E of part 157 of the Regulations of the Federal Energy Regulatory Commission ("Commission"), filed in Docket No. CP90-41-000 an application for an optional expedited certificate of public convenience and necessity authorizing the acquisition, construction, and operation of facilities for the transportation of natural gas in interstate commerce for others. The proposed interstate pipeline system commences in southwestern Wyoming at Hams Fork and extends southwestward through a portion of Wyoming, Utah, and Nevada to a terminus near Bakersfield, California, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

WyCal states in its application that it has signed a settlement with Pacific Gas and Electric Company ("PG&E") that calls for offering transportation services utilizing capacity acquired by WyCal on certain PG&E facilities. In addition, WyCal states that it has executed a settlement agreement with Southern California Gas Company (SoCalGas) wherein SoCalGas agrees to facilitate downstream transportation of volumes of gas on behalf of WyCal shippers.

WyCal states that it has a certificate of public convenience and necessity issued in Docket No. CP87-480-000 pursuant to 18 CFR 284.221 authorizing blanket self-implementing transportation for others which it accepted by letter dated May 4, 1989.

WyCal states that because of certain developments in the market, and as a result of negotiations with potential shippers, it has determined that the market requires a range of configuration choices, in addition to and including the configuration approved by the optional expedited certificate issued in Docket No. CP87-479-000, from which to choose. WyCal states that it will retain its existing authorization in Docket No. CP87-479-000 as one of the configuration choices available to the market. WyCal states that the subject application seeks additional authorization and does not supplant, amend or otherwise modify WyCal's existing authorization granted in Docket No. CP87-479-000. WyCal filed in the subject application a Base Case, Alternative 1 and Alternative 2. WyCal states that the configurations will provide flexibility to all shippers who require transportation service, including heavy oil producers in Kern County, California.

WyCal states that the Base Case, Alternatives 1 and Alternative 2 configurations proposed provide for the transportation of 600 MMcf per day with 100 MMcf per day delivered to the Las Vegas, Nevada area (Southwest Gas Corporation) and 500 MMcf per day delivered into California. The pipeline route from Hams Fork, Wyoming to the California-Nevada border is the same for the three configurations.

WyCal's proposed route would essentially follow the route of its existing certificated configuration from the Rocky Mountain producing region to the Nevada-California border, according to WyCal. This includes the Wasatch Variation and the North Las Vegas Variation that was required by the Commission, as part of its certificate orders. However, although the configuration remains the same, the pipeline capacity of this segment up to the vicinity of Las Vegas, Nevada has been increased to 600 MMcf per day, WyCal states. As a result, WyCal would be required to construct three additional compressor stations, and to install additional compression at its previously authorized station locations.

WyCal's proposed configurations differ from WyCal's existing certificate authorizations in the following manner:

(1) The configurations are downsized to reflect a reduced level of demand for new capacity into southern California. Specifically, WyCal's design capacity under its existing authorization is set at 700 MMcf per day of transportation capacity into California; whereas, the proposed filing requests authorization for transportation of 500 MMcf per day into California.

(2) The route followed by the proposed configurations is a more direct route from Las Vegas, Nevada to Kramer Junction near Barstow, California.

(3) Under two of the proposed configurations deliveries in California may be effectuated through the faclities of local distribution companies.

The Base Case provides for an interconnection with PG&E's Line 300 near Kramer Junction, San Bernardino County, California and an approximately 18.2 mile lateral pipeline interconnecting with the facilities of SoCalGas near Newberry Springs, San Bernardino County, California ("Newberry Springs Lateral"). WyCal states that it will have an undivided interest in capacity on the PG&E pipeline system sufficient to provide firm transportation of 280 MMcf per day of natural gas from Kramer Junction to the Kern County area, and that the Newberry Springs Lateral can deliver 220 MMcf per day to SoCalGas.

Alternative 1 provides for the same interconnections with PG&E and SoCalGas; however, additional PG&E facilities would have sufficient capacity to provide up to 500 MMcf per day of firm transportation deliveries to the Kern County area. WyCal states that it

VOL 54 ISS 208 OCT 30 1989 UMI

will have an undivided interest in capacity on the PG&E pipeline system. Alternative 2 provides for WyCal only facilities sufficient to provide up to 500 MMcf per day to the Kern County area and 220 MMcf per day to SoCalGas.

The configurations for the Base Case, Alternative 1 and Alternative 2 are as follows, with all mileage being approximate:

The Base Case: (1) 5.9 miles of 24-inch outside diameter (O.D.) pipeline beginning at Hams Fork, Wyoming to the Round Mountain Compressor Station near Opal, Wyoming; (2) 730.2 miles of 30-inch O.D. pipeline from the Round Mountain Compressor Station and extending southwestward through Wyoming, Utah, and Nevada using the "Wasatch Variation" and the "North Las Vegas Variation" to a point near Kramer Junction, California, to interconnect with the facilities of PG&E; (3) the Newberry Springs Lateral; (4) 57.7 miles of 24-inch O.D. pipeline from the facilities of PG&E's Kern River Station to a point near Belridge, California to be known as the "Modified Taft Lateral"; and (5) capacity on PG&E facilities, including a new 30-inch O.D. pipeline loop 60.0 miles from Kramer Junction west along PG&E's Line 300, a new 11.0 miles of 30-inch O.D. pipeline loop west of Arvin in Kern County, and a new 4.4 miles of 16-inch O.D.pipeline loop along PG&E's Line 142N in Kern County. Other facilities include approximately 90,100 horsepower of compression at the six WyCal compressor stations and taps, valves, metering and other appurtenant facilities.

Alternative 1 has the same pipelines and compression facilities at the Base Case from Hams Fork, Wyoming to the interconnection with PG&E's facilities near Kramer Junction, California. From that point, the configuration includes: (1) The Newberry Springa Lateral; (2) the Modified Taft Lateral; (3) tap, valves, metering, and other appurtenant facilities; and (4) capacity on PG&E facilities comprising a new 102.7 miles of 30-inch O.D. pipeline along PG&E's Line 300 from Kramer Junction to Kern River Station and a new 4.4 miles of 16-inch O.D. pipeline loop on PG&E's Line 142N in Kern County, California.

Alternative 2 has the same pipeline and compression facilities as the Base Case and Alternative 1 from Hams Fork, Wyoming to Kramer Junction, California. From that point, the configuration includes: (1) 78.2 miles of 30-inch O.D. pipeline from Kramer Junction to a point near Arvin, California; (2) 27.9 miles of 20-inch O.D. pipeline from Arvin to a point near Bakersfield; (3) 73.1 miles of 24-inch O.D. pipeline from Arvin to a point near Belridge, California; (4) taps, valves, metering, and other appurtenant facilities, and (5) the Newberry Springs Lateral.

WyCal proposes transportation service only. WyCal proposes to transport gas for third party shippers, up to the full capacity of its proposed system, which is designed to be appoximately 600 MMcf per day to the Las Vegas, Nevada, area and 500 MMcf per day into California.

WyCal's proposed tariff incorporates two rate schedules which include a firm transportation service with a two-part rate, including a maximum reservation rate, and a one-part volumetric rate for interruptible service. All rates will be discountable between a maximum and minimum level.

The total direct and indirect capital cost of each of WyCal's configurations, including any additional PG&E facilities and line pack, is: (1) Base Case—$664,438,000; (2) Alternative 1—$686,212,000; and (3) Alternative 2—$686,994,000. The estimate is in 1991 dollars. WyCal proposes an initial capitalization ratio of 70 percent debt and 30 percent equity.

WyCal states that its proposed rates have been designed, and its proposed *pro forma* Tariff has been drafted, using the principles which the Commission established in its orders approving WyCal's certificated system. WyCal states that it is proposing firm and interruptible rates for each system configuration with separate zones for service within California and for service east of California. Such zoning for deliveries within California and for service east of California, WyCal states, is consistent with the Commission's recent Policy Statement in Docket No. PL89–2–000. WyCal states that the rates for the within California zone reflect an allocation of 500/600's of all the costs incurred from Wyoming to the Nevada-California border plus all of the costs in California, and the rates for the east of California zone reflect an allocation of 100/600's of all the costs incurred from Wyoming to the Nevada-California border. WyCal lists other significant factors as follows:

(1) WyCal has utilized a capitalization ratio of 70 percent debt and 30 percent equity, a 14 percent rate of return on equity and a 10.75 percent long term debt cost.

(2) WyCal has designed its rates using a throughput of 95 percent of design capacity.

(3) WyCal proposes to recover the cost of all of its facilities including its undivided interest in capacity on PG&E's facilities over a 25-year life. WyCal proposes to use a levelized rate concept whereby the cost of service remains essentially constant over the first 15 years of service.

(4) WyCal proposes a one-part volumetric rate for interruptible service, discountable between stated maximum and minimum levels. The maximum interruptible rate would be equivalent to the maximum commodity rate for firm service. WyCal proposes a two-part rate for firm service. WyCal states that its proposed Maximum Reservation Rate components recover all costs, other than variable O&M costs, return on equity and related taxes.

(5) WyCal states that it has modified its original open season in Article 3 of its General Terms and Conditions of its proposed Tariff to provide that its open season would commence 45 days after the effective date of the Commission's certificate order. Such open season, WyCal states, would apply only to capacity, if any, that remains uncommitted on WyCal's proposed system upon the commencement date of such open season.

With the exception of the three additional compressor stations proposed in the application and some additional compression at previously authorized stations, the configuration from Hams Fork, Wyoming, to Kramer Junction, California, has already been found by the Commission to be environmentally acceptable in the proceedings in Docket No. CP87–479–000, *et al.* The additional compressor stations, however, lie within the studied corridor. WyCal submitted an environmental report in its application to include facilities that will be constructed by PG&E as well as the limited WyCal facilities in California that have not previously been studied.

Comment date: November 13, 1989, in accordance with Standard Paragraph F at the end of this notice.

3. United Gas Pipe Line Company

[Docket No. CP90–85–000]

October 23, 1989.

Take notice that on October 20, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP90–85–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Graham Energy Marketing Corp. (Graham), a marketer, under the blanket certificate issued in Docket No. CP88–6–000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

United states that pursuant to a transportation agreement dated November 9, 1988, as amended on August 25, 1989, under its Rate Schedule ITS, it proposes to transport up to 123,600 MMBtu per day equivalent of natural gas for Graham. United states that it would transport the gas from multiple receipt points as shown in Exhibit "A" of the transportation agreement and would deliver the gas to multiple delivery points shown in Exhibit "B" of the agreement.

United advises that service under § 284.223(a) commenced September 14, 1989, as reported in Docket No. ST90–111 (filed October 11, 1989). United further advises that it would transport 123,600 MMBtu on an average day and 45,114,000 MMBtu annually.

Comment date: December 7, 1989, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP90–13–000]

Algonquin Gas Transmission Co.; Proposed Change in FERC Gas Tariff

October 23, 1989.

Take notice that Algonquin Gas Transmission Company ("Algonquin") on October 17, 1989, tendered for filing, to its FERC Gas Tariff, Second Revised Volume No. 1, the tariff sheet Fourth Revised Sheet No. 629.

Algonquin states that it is filing Fourth Revised Sheet No. 629 for the purpose of incorporating standby charges from its upstream pipelines into its Purchased Gas Adjustment Provision. Algonquin states that it is not proposing to change any of the procedures it has historically used in the tracking of purchased gas cost but is adding language for the sole purpose of including standby charges as a PGA trackable item. All the changes proposed by Algonquin are fully set forth in Algonquin's filing.

Algonquin notes that a copy of this filing was served upon each affected party and interested state commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed or or before October 30, 1989.

Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP90–11–000]

Seagull Interstate Corp.; Proposed Changes in FERC Gas Tariff

October 23, 1989.

Take notice that on October 16, 1989, Seagull Interstate Corporation ("Seagull"), 1001 Fannin, Suite 1700, Houston, Texas 77002, filed pursuant to § 284.305(e) of the Federal Energy Regulatory Commission's ("Commission") Regulations (18 CFR 284.305(e)), tariff sheets to Original Volume No. 1 of its FERC Gas Tariff. The tariff sheets filed by Seagull are:

To Be Effective April 1, 1989

Second Revised Sheet No. 5
Second Revised Sheet No. 11
Second Revised Sheet No. 54A
Second Revised Sheet No. 54B
Second Revised Sheet No. 54C
Original Sheet No. 54D

Seagull states that these tariff sheets are filed, as required by Order No. 509 issued December 9, 1988, as amended by Order No. 509–A issued February 21, 1989, to set forth the manner in which firm transportation capacity will be reallocated pursuant to § 284.304(c) of the Commission's Regulations (18 CFR 284.304(c)) in the event that more than one shipper requests firm transportation capacity. Seagull requests that the Commission grant any and all waivers necessary to permit tariff sheets to become effective April 1, 1989.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, on or before October 30, 1989, and in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person desiring to become a party must petition to intervene. Copies of this filing are on file

BILLING CODE 6717-01-M

[Docket No. RP89-114-004]

Trunkline Gas Co.; Proposed Changes in FERC Gas Tariff

October 23, 1989.

Take notice that Trunkline Gas Company (Trunkline), on October 17, 1989 tendered for filing the following proposed changes to its FERC Gas Tariff, Original Volume No. 1:

To Be Effective May 1, 1989

Revised Second Substitute Eleventh Revised Sheet No. 3-A.1
Second Substitute Original Sheet No. 9-JA
Revised Second Substitute Original Sheet No. 9-JC

To Be Effective October 1, 1989

First Substitute Twelfth Revised Sheet No. 3-A.1

Trunkline states that it is submitting these revised tariff sheets in compliance with the Letter Order issued September 26, 1989 in Docket No. RP89-114-003 to remove the Annual Charge Adjustment (ACA) Provision from its Stand Alone Storage Service Rate Schedule SAS.

Trunkline states that copies of this filing have been sent to its jurisdictional customers, applicable state regulatory agencies and all parties to this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 30, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-3676-2]

Agency Information Collection Activities Under Office of Management and Budget Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requests (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collection and their expected costs and burdens; where appropriate, they include the actual data collection instruments.

DATE: Comments must be submitted on or before November 29, 1989.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 382-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: Investigations into Possible Noncompliance of Motor Vehicles with Federal Emission Standards. (EPA ICR # 0222; OMB # 2060-0086). This is a renewal of a previously approved collection

Abstract: Owners of vehicles are asked to provide EPA with their name, address, telephone number, their vehicle make and model year, and the data needed to determine if the vehicle meets certain maintenance and use criteria. Based upon these responses, EPA selects vehicles for testing to ascertain manufacturers' compliance with federal emission standards. EPA needs these test results for its recall program

Burden Statement: The public reporting burden for this collection of information is estimated to average 0.2 hours per response. This estimate includes the time needed to review instructions, answer questions and complete forms

Respondents: Individual vehicle owners

Estimated No. of Respondents: 9850

Estimated Total Annual Burden on Respondents: 2060

Frequency of Collection: On occasion

Title: Pre-certification Exemption, Testing Exemption. (EPA ICR # 0095.03; OMB # 2060-0007). This is a renewal of a previously approved collection.

Abstract: To apply for pre-certification or testing exemptions, manufacturers of vehicles, engines, or parts must provide EPA with information demonstrating that the exempted items will be used primarily in product development, method assessment, market promotion, or research. EPA uses the information to guarantee that uncertified or untested vehicles, engines, or parts are not used commercially

Burden Statement: The public reporting burden for this collection of information is estimated to average 2.25 hours per response. This estimate includes the time needed to review instructions, search existing data sources, gather the data needed and complete and review the collection of information

Respondents: Manufacturers of new motor vehicles, engines, or engine parts; importers of vehicles, and fuel refiners

Estimated No. of Respondents: 85

Estimated Total Annual Burden on Respondents: 191 hours for reporting and 375 hours for recordkeeping

Frequency of collection: Annually and on occasion

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch, 401 M Street, SW., Washington, DC 20460, and

Nicolas Garcia, Office of Management and Budget, Office of Information and Regulatory Affairs, 726 Jackson Place, NW., Washington, DC 20530.

Dated: October 23, 1989.

Paul Lapsley,

Director, Information and Regulatory Systems Division.

[FR Doc. 89-25484 Filed 10-27-89; 8:45 am]

BILLING CODE 6560-50-M

[OPP-180821; FRL-3662-9]

Receipt of Application for Emergency Exemption to Use Metalaxyl; Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption request from the California Department of Food and Agriculture (hereafter referred to as the "Applicant") for use of the pesticide metalaxyl (CAS 57837-19-1) to control downy mildew, *Peronospora sparsa*, on 400 acres of caneberries in California. In accordance with 40 CFR 166.24, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

DATE: Comments must be received on or before November 14, 1989.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-180821," should be submitted by mail to:

Public Docket and Freedom of Information Section, Field Operations Division (H7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460

In person, bring comments to: Rm. 236, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information." Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain Confidential Business Information must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 236, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT:

By mail:

Susan Stanton, Registration Division (H7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460

Office location and telephone number: Rm. 716, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, (703-557-4360)

SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at his discretion, exempt a State agency from any registration provision of FIFRA if he determines that emergency conditions exist which require such exemption.

The Applicant has requested the Administrator to issue a specific exemption for the use of the fungicide, metalaxyl, available as Ridomil 2E (EPA Registration No. 100-607) from Ciba Geigy Corporation, to control downy mildew, caused by *Peronospora sparsa*, on 400 acres of caneberries in California.

Information in accordance with 40 CFR part 166 was submitted as part of this request. The Applicant indicates that this pathogen infects the plants during wet weather in the fall and overwinters in the roots. In the spring, the overwintering spores germinate and infect the growing canes and developing fruit. Warm, wet weather conditions are ideal for disease development. According to the Applicant, there are no pesticides currently registered for the control of downy mildew on caneberries, and without effective control, significant economic losses of thirty to fifty percent could result if mildew outbreaks occur this season. The potential dollar loss without metalaxyl for the 1989-1990 season is estimated to be over one half of a million dollars.

Metalaxyl will be applied at a maximum rate of 0.25 pounds of active ingredient per 1000 linear feet of plant row of 1.38 pounds of active ingredient per acre. Up to two applications may be made. A maximum of 1,104 pounds of active ingredient may be needed to treat a maximum of 400 acres. Applications will be completed by April 30, 1990.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require that the Agency publish notice of receipt in the **Federal Register** and solicit public comment on an application for a specific exemption that has been requested or granted for that use in any three previous years and a complete application for registration of the use and/or a petition for a tolerance for residues in or on the commodity has not been submitted to the Agency. Use of metalaxyl on caneberries was denied in 1983 and 1984 for lack of an adequate toxicological data base and was subsequently granted in 1987, 1988, and 1989. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the California Department of Food and Agriculture.

Dated: October 5, 1989.

Frank T. Sanders,

Acting Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 89-25489 Filed 10-27-89; 8:45 am]

BILLING CODE 6560-50-M

[FRL-3676-3]

Proposed Settlement Under the Comprehensive Environmental Response, Compensation, and Liability Act; Somersworth Sanitary Landfill Superfund Site; Somersworth, NH

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed administrative settlement and request for public comment.

SUMMARY: The U.S. Environmental Protection Agency is proposing to enter into an administrative settlement to address claims under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA), 42 U.S.C. 9601. Notice is being published to inform the public of the proposed settlement and of the opportunity to comment. This settlement is intended to address the liabilities of 32 parties for costs incurred by EPA in conducting response actions at the Somersworth Sanitary Landfill Superfund Site in Somersworth, New Hampshire.

DATE: Comments must be provided on or before November 29, 1989.

ADDRESSES: Comments should be addressed to the Regional Administrator's Office, U.S. Environmental Protection Agency, Region I, J.F.K. Federal Building, Boston, Massachusetts 02203, and should refer to: In the Matter of Somersworth Sanitary Landfill Superfund Site, Somersworth, New Hampshire, U.S. EPA Docket No. I-89-1021.

FOR FURTHER INFORMATION CONTACT: M. Gretchen Muench, U.S. Environmental Protection Agency, Office of Regional Counsel, RRC-2203, J.F.K. Federal Building, Room 2203, Boston, Massachusetts 02203, (617) 565-3455.

SUPPLEMENTARY INFORMATION: In accordance with section 122(i)(1) of CERCLA, 42 U.S.C. 9622(i)(1), notice is hereby given of a proposed administrative settlement concerning the Somersworth Sanitary Landfill Superfund Site in Somersworth, New Hampshire. Section 122(h) of CERCLA provides EPA with authority to consider, compromise and settle a claim for costs incurred by the United States if the claim has not been referred to the U.S. Department of Justice. The U.S. Department of Justice approved this settlement in writing on July 11, 1989. Below are the listed parties who have executed signature pages committing them to participate in this settlement.

A & G Tire Co.
Airex Corporation

Proposed Revision of Washington's National Pollutant Discharge Elimination System (NPDES) Program Memorandum of Agreement

AGENCY: Environmental Protection Agency.

ACTION: Notice of modification, public comment period.

SUMMARY: On November 21, 1988, the State of Washington submitted to EPA a request for modification of their National Pollutant Discharge Elimination System (NPDES) Program Memorandum of Agreement (MOA). The MOA serves to outline respective program responsibilities of EPA and the state. Document revision is necessary to ensure the continuing validity of EPA's approval of Washington's NPDES program.

Washington's submittal is complete and is now available for inspection and copying. EPA requests public comments and will hold a public hearing if sufficient public interest exists.

DATE: EPA must receive comments and requests for a public hearing on or before November 29, 1989.

ADDRESS: Address comments and requests for further information to Cecil Carroll, Washington Operations Office, Environmental Protection Agency, c/o Washington Department of Ecology, PV-11, Olympia, Washington 98504.

SUPPLEMENTARY INFORMATION: The original MOA for the National Pollutant Discharge Elimination System was entered into by EPA and Ecology on November 9, 1973. Ecology has been carrying out the NPDES program as a delegated State for the past 16 years.

Washington's MOA has been updated to reflect recent changes in the Federal Clean Water Act (CWA) and 40 CFR parts 122-125. This MOA includes a new section (Section XIV) which addresses Indian issues. This section makes clear that EPA is not delegating authority over Indian lands to the State of Washington. Additionally, the NPDES Program Description for the State of Washington was updated to reflect the revised MOA. Day to day operations under this MOA are delineated in a compliance assurance agreement.

After the close of the comment period, the Regional Administrator of EPA, with the concurrence of EPA Headquarters, will approve or disapprove this proposed modification. This decision will be based upon the contents of the submittal, all written comments received during the comment period and presented at the public hearing, if one is held, and upon meeting the requirements of 40 CFR part 123. If the modification is approved, the Regional Administrator will notify the state. Notice will be published in the Federal Register. If the Regional Administrator disapproves Washington's request for modification of the MOA, he will notify the state of the reasons for disapproval and of any revisions or modifications which are necessary to obtain approval.

The public may review Washington's application from 9 a.m. to 4 p.m., Monday through Friday, at the Environmental Protection Agency, Region 10, 1200 Sixth Avenue, 10th floor Library, Seattle, Washington 98101, or at the Washington Operations Office, St. Martins Campus on College and Sixth Street, Olympia, Washington 98504. Copies of the submission may also be obtained by contacting Ms. Andi Manzo at the Seattle address listed or at (206) 442-6399.

Review Under Executive Order 12291 and the Regulatory Flexibility Act

The Office of Management and Budget has exempted this rule from the review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Under the Regulatory Flexibility Act, EPA is required to prepare a Regulatory Flexibility Analysis for all rules which may have a significant impact on a substantial number of small entities. Revision of Washington's MOA would establish no new substantive requiremetns, nor would it alter the regulatory control over any municipal or industrial category. Because this notice does not have a significant impact on a substantial number of small entities, a Regulatory Flexibility Analysis is not necessary.

Dated: October 12, 1989.
Robie G. Russell,
Regional Administrator, EPA Region 10.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 89P-0402]

Sour Cream Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Meadow Gold Dairies, Inc., to market test a product designated as "lite sour cream" that deviates from the U.S. standard of identity for sour cream (21 CFR 131.160). The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Howard A. Anderson, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0119.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Meadow Gold Dairies, Inc., 180 East Broad St., Columbus, OH 43215.

The permit covers limited interstate marketing tests of a product that deviates from the U.S. standard of identity for sour cream in 21 CFR 131.160 in that: (1) The fat content of the product is reduced from 18 percent to no more than 9 percent, and (2) sufficient vitamin A palmitate is added in a suitable carrier to ensure that a 2-tablespoon serving (30 grams) provides 4 percent of the U.S. Recommended Daily Allowance for vitamin A. The product meets all requirements of the standard with the exception of these deviations. The purpose of the variation is to offer the consumer a product that is nutritionally equivalent to sour cream, but contains fewer calories and less fat.

For the purposes of this permit, the name of the product is "lite sour cream." The principal display panel of the label must include the statements "reduced calories" and "reduced fat" following the name. In addition, the label must bear the comparative statements "⅓ less calories" and "half the fat of regular sour cream." The product complies with the reduced calorie labeling requirements in 21 CFR 105.66(d). In accordance with FDA's current views, reduced fat food labeling is acceptable because there is 50 percent reduction in the fat content of the product. The information panel of the label will bear nutrition labeling in accordance with 21 CFR 101.9.

The permit provides for the temporary marketing of 750,000 quarts of the test product. The test product will be manufactured at Meadow Gold Dairies, Inc., Greeley, CO 80631; Champaign, IL 61820; New Bremen, OH 45869; Tulsa, OK 74101; and Salt Lake City, UT 84110. The product will be distributed in the States of Alabama, Arizona, Colorado, Georgia, Hawaii, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, Ohio, Oklahoma, South Carolina, Utah, Virginia, West Virginia, and Wisconsin.

Each of the ingredients used in the food is stated on the label as required by the applicable sections of 21 CFR part 101. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

Dated: October 19, 1989.
Richard J. Ronk,
Acting Director, Center for Food Safety and Applied Nutrition.

[Docket No. 89P-0403]

Sour Cream Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Crowley Foods, Inc., to market test a product designated as "lite sour cream" that deviates from the U.S. standard of identity for sour cream (21 CFR 131.160). The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Howard A. Anderson, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0119.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Crowley Foods, Inc., Metro Center, 49 Court St., P.O. Box 549, Binghamton, NY 13902.

The permit covers limited interstate marketing tests of a product that deviates from the U.S. standard of identity for sour cream in 21 CFR 131.160 in that: (1) The fat content of the product is reduced from 18 percent to 9 percent, and (2) sufficient vitamin A palmitate is added in a suitable carrier to ensure that a 2-tablespoon (1-ounce) serving of the product contains 4 percent of the U.S. Recommended Daily Allowance for vitamin A. The product meets all requirements of the standard with the exception of these deviations. The purpose of this variation is to offer the consumer a product that is nutritionally equivalent to sour cream but contains fewer calories and less fat.

For the purpose of this permit, the name of the product is "lite sour cream." The principal display panel of the label must include the statements "reduced calorie" and "reduced fat" following the name. In addition, the label must bear the comparative statements "40 percent fewer calories" and "50 percent less fat than sour cream."

The product complies with the reduced calorie labeling requirements in 21 CFR 105.66(d). In accordance with FDA's current views, reduced fat food labeling is acceptable because there is a 50-percent reduction in the fat content of the product. The information panel of the label will bear nutrition labeling in accordance with 21 CFR 101.9.

This permit provides for the temporary marketing of 1,700,000 quarts of the test product. The test product will

VOL 54 ISS 208 OCT 30 1989 UMI

be distributed in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia. The test product is to be manufactured at Crowley Foods, Inc., Theresa Rd., La Fargeville, NY 13656.

Each of the ingredients used in the food must be stated on the label as required by the applicable sections of 21 CFR part 101. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

Dated: October 19, 1989.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

[Docket No. 89P-0404]

Sour Cream Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Marigold Foods, Inc., to market test a product designated "lite sour cream" that deviates from the U.S. standard of identity for sour cream (21 CFR 131.160). The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Joanne Travers, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0324.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Marigold Foods, Inc., 2929 University Ave. SE., Minneapolis, MN 55415.

The permit covers limited interstate marketing tests of a product that deviates from the U.S. standard of identity for sour cream in 21 CFR 131.160 in that: (1) The fat content of the product is reduced from 18 percent to 7 percent and (2) sufficient vitamin A palmitate is added in a suitable carrier to ensure that a 2-tablespoon serving contains 4 percent of the U.S. Recommended Daily Allowance for vitamin A. The product meets all requirements of the standard with the exception of these deviations. The purpose of the variation is to offer consumers a product that is nutritionally equivalent to sour cream, but contains fewer calories and less fat.

For the purpose of this permit, the name of the product is "lite sour cream." The principal display panel of the label must include the statements "reduced calories" and "reduced fat." In addition, the label must bear the comparative statements "50 percent less calories" and "60 percent less fat than regular sour cream."

The product complies with the reduced calorie labeling requirements in 21 CFR 105.66(d). In accordance with FDA's current views, reduced fat food labeling is acceptable because there is at least a 50-percent reduction in the fat content of the product. The information panel of the label will bear nutrition labeling in accordance with 21 CFR 101.9.

This permit provides for the temporary marketing of 800,000 quarts of the test product. The test product will be manufactured at Marigold Foods, Inc., 15 Fourth St., Farmington, MN 55074, and distributed in Illinois, Iowa, Michigan, Minnesota, and Wisconsin.

Each of the ingredients used in the food is stated on the label as require by the applicable sections of 21 CFR part 101. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

Dated: October 19, 1989.

Sour Cream Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Borden, Inc., to market test a product designated as "lite sour cream" that deviates from the U.S. standard of identity for sour cream (21 CFR 131.160). The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Howard A. Anderson, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0119.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Borden, Inc., 180 East Broad St., Columbus, OH 43215.

The permit covers limited interstate marketing tests of a product that deviates from the U.S. standard of identity for sour cream in 21 CFR 131.160 in that: (1) The fat content of the product is reduced from 18 percent to not more than 9 percent; and (2) sufficient vitamin A palmitate is added in a suitable carrier to ensure that a 2-tablespoon serving (30 grams) of the product contains 4 percent of the U.S. Recommended Daily Allowance for vitamin A. The product meets all requirements of the standard with the exception of these deviations. The purpose of the variation is to offer the consumer a product that is nutritionally equivalent to sour cream but contains fewer calories and less fat.

For the purposes of this permit, the name of the product is "lite sour cream." The principal display panel of the label must include the statements "reduced calories" and "reduced fat" following the name. In addition, the label must bear the comparative statements "⅓ less calories" and "half the fat of regular sour cream."

The food complies with the reduced calorie labeling requirements in 21 CFR 105.66(d). In accordance with FDA's current views, reduced fat food labeling is acceptable because there is a 50 percent or more reduction in the fat content of the product. The information panel of the label will bear nutrition labeling in accordance with 21 CFR 101.9.

This permit provides for the temporary marketing of 750,000 quarts of the test product. The product will be distributed in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, South Carolina, Texas, Virginia, West Virginia, and Wisconsin.

The test product is to be manufactured at the Borden plants in Albuquerque, NM 87103; Detroit, MI 48068; Jackson, MS 39204; Milwaukee, WI 53214; New Bremen, OH 45869; Sulphur Springs, TX 75482; Tampa, FL 33630; Watertown, NY 13601; and Youngstown, OH 44512.

Each of the ingredients used in the food is stated on the label as required by the applicable sections of 21 CFR part 101. This permit is effective for 15 months, beginning on the date the food is introduced into interstate commerce, but not later than January 29, 1990.

Dated: October 19, 1989.

Sour Cream Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Friendship Dairies, Inc., to market test a product designated as "lite sour cream" that deviates from the U.S. standard of identity for sour cream (21 CFR 131.160). The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

FOR FURTHER INFORMATION CONTACT: Howard A. Anderson, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0119.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal, Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Friendship Dairies, Inc., 4900 Maspeth Ave., Maspeth, NY 11378.

The permit covers limited interstate marketing tests of a product that deviates from the U.S. standard of identity for sour cream in 21 CFR 131.160 in that: (1) The fat content of the product is reduced from 18 percent to 8 percent; and (2) sufficient vitamin A palmitate is added to ensure that a 2-tablespoon (1-ounce) serving of the product provides 4 percent of the U.S. Recommended Daily Allowance for vitamin A. The product meets all requirements of the standard with the exception of these deviations. The purpose of the variation is to offer consumers a product that is nutritionally equivalent to sour cream but contains fewer calories and less fat.

For the purpose of this permit, the name of the product is "lite sour cream." The principal display panel of the label must include the statements "reduced calories" and "reduced fat" following the name. In addition, the label must bear the comparative statements "35 percent fewer calories" and "less than half the fat of sour cream."

The product complies with the reduced calorie labeling requirements in 21 CFR 105.66(d). In accordance with FDA's current views, reduced fat food labeling is acceptable because there is a 50 percent or more reduction in the fat content of the product. The information panel of the label will bear nutrition labeling in accordance with 21 CFR 101.9

This permit provides for the temporary marketing of 43,000 cases of 12 1-pound containers of the test product. The test product will be manufactured at Friendship Dairies, Inc., Friendship, NY 14739, and distributed in California, Connecticut, Florida, Georgia, Illinois, Maryland, New Jersey, New York, Pennsylvania, Texas, Virginia, and in the District of Columbia.

Each of the ingredients used in the food must be stated on the label as required by the applicable sections of 21 CFR part 101. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than January 29, 1990.

Dated: October 19, 1989.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-M

[Docket No. 89M-0425]

Medtronic Blood Systems, Inc.; Premarket Approval of the Hancock® Porcine Bioprosthesis, Models 242, 342, 342R, and 342C

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by Medtronic Blood Systems, Inc., Minneapolis, MN, for premarket approval, under the Medical Device Amendments of 1976, of the HANCOCK® Porcine Bioprosthesis, Models 242, 342, 342R, and 342C. After reviewing the recommendation of the Circulatory System Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant, by letter of September 28, 1989, of the approval of the application.

DATES: Petitions for administrative review by November 29, 1989.

ADDRESSES: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Lisa M. Kennell, Center for Devices and Radiological Health (HFZ-450), Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, 301-427-1200.

SUPPLEMENTARY INFORMATION: On December 8, 1987, Medtronic Blood Systems, Inc., Minneapolis, MN 55432, submitted to CDRH an application for premarket approval of the HANCOCK® Porcine Bioprosthesis in response to the final rule of May 13, 1987 (52 FR 18162), requiring the submission of premarket approval applications for prosthetic heart valves in commercial distribution before May 28, 1976, or those found substantially equivalent and marketed after May 28, 1976. The HANCOCK® Porcine Bioprosthesis is a replacement heart valve (21 CFR 870.3925) for use in patients with diseased, damaged or malfunctioning aortic or mitral heart valves. It is a porcine bioprosthesis fixed in glutaraldehyde with a flexible polypropylene stent and a Stellite alloy ring in the stent for added support and radiopacity. The stent is covered with Dacron® cloth. The aortic Model 242 is available in sizes 19 millimeters (mm), 21mm, 23mm, 25mm, 27mm, 29mm, and 31mm. The mitral Models 342, 342R, and 342C are available in sizes 27mm, 29mm, 31mm, and 35mm, and Model 342 is also available in size 25mm.

VOL 54 ISS 208 OCT 30 1989 UMI

On September 15, 1988, the Circulatory System Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On September 28, 1989, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Lisa M. Kennell (HFZ–450), address above.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under part 12 (21 CFR part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before November 28, 1989, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h) (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: October 19, 1989.

John C. Villforth,

Director, Center for Devices and Radiological Health.

BILLING CODE 4210–32–M

Office of Environment and Energy

[Docket No. I–89–153]

Intended Environmental Impact Statement: Marina Redevelopment Project, Port Chester, NY

The Department of Housing and Urban Development gives notice that the Village of Port Chester, New York intends to prepare an Environmental Impact Statement (EIS) for the Marina Redevelopment Project located at Port Chester, New York as described in the appendix to this notice. This notice is in accordance with regulations of the Council on Environmental Quality under its rule (40 CFR part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, major issues and data which the EIS should consider, and recommended mitigating measures and alternatives associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

This notice shall be effective for one year. If one year after the publication of the notice in the **Federal Register** a Draft EIS has not been filed on a project, then the notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the notice in the **Federal Register** then a new and updated notice of intent will be published.

Dated: October 24, 1989.

Richard H. Broun,

Director, Office of Environment and Energy.

Appendix—EIS on Marina Redevelopment Project, Port Chester, NY

The Village of Port Chester, New York intends to prepare an Environmental Impact Statement (EIS) on the subject project and hereby solicits comments and information for consideration in this EIS.

Description

The site proposed for the project is located in the Port Chester central business district in an area bordered generally by North Main Street to the west, the Byram river to the east, Westchester Avenue to the South and Willett Avenue to the north. The project area encompasses approximately 17 acres.

The project as currently planned involves the construction of 165,000 sq. ft. of general retail space, 60,000 sq. ft. of office space, 30,000 sq. ft. of executive park, a 40,000 sq. ft. multiscreen cinema, 660 apartments, and parking for 1900 vehicles.

An Urban Development Action Grant (UDAG) of $4.7 million will help finance the project's infrastructures including a new bulkhead and public boat docks, riverfront promenade and public open space as well as drainage and sanitary sewer improvements.

This project will constitute an action with the potential of significantly affecting the environment.

Need

The principal benefits of the project are the strengthening of the economic and commercial potential of the area, the creation and retention of jobs through the expansion of existing facilities, the provision of new public open space and recreation facilities, and the generation of new tax revenues for the Village. The project involves a cooperative effort between the Village of Port Chester and the Robert Martin Company.

Alternatives

At this point the relevant alternatives may include: (1) Development of the project as preliminarily approved for an Urban Development Action Grant; (2) Development of the project with modification and mitigation measures; and (3) No action.

Scoping

This notice is part of the process of determining the scope of the issues to be addressed in the draft EIS, for identifying data and significant environmental issues related to the Project, and for identifying cooperating agencies. A public scoping meeting will be held at the court room, 10 Pearl Street, Port Chester, NY at 3:00 p.m. on November 9, 1989.

Comment

To assist in the preparation of the Environmental Impact Statement, Federal, State, and local agencies, and other interested persons and organizations are invited to participate in the scoping process by submitting comments on the project and its potential impacts. All comments received within 30 days of this invitation will be

VOL 54 ISS 208 OCT 30 1989 UMI

considered in the Environmental Impact Statement. Please submit all comments to: Village of Port Chester, c/o Office of Planning and Development, 125 North Main Street, Port Chester, NY 10573, Thomas J. Farrell, Director, 914-937-6425.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Cancellation of the Pacific Regional Technical Working Group Meeting

This notice is issued to cancel the Pacific Regional Technical Working Group meeting scheduled for November 2, 1989, at the Travelodge Hotel at Fisherman's Wharf in San Francisco, California. The meeting had previously been announced in the **Federal Register** of October 6, 1989.

Due to the recent earthquake and subsequent recovery efforts in San Francisco, the meeting has been canceled.

For more information, contact Public Affairs Officer Lorraine H. Lawrence at 213-894-3389.

Dated: October 24, 1989.

Robert G. Paul,

Acting Regional Director, Pacific OCS Region.

[FR Doc. 89-25452 Filed 10-27-89; 8:45 am]

BILLING CODE 4310-MR-M

Bureau of Reclamation

Quarterly Status Tabulation of Water Service and Repayment Contract Negotiations

AGENCY: Bureau of Reclamation, Department of the Interior.

ACTION: Notice of proposed contractual actions pending through December 1989.

Pursuant to section 226 of the Reclamation Reform Act of 1982 (96 Stat. 1273), and to § 426.20 of the rules and regulations published in the **Federal Register** dated December 6, 1983, Vol. 48, page 54785, the Bureau of Reclamation will publish notice of proposed or amendatory repayment contract actions or any contract for the delivery of water for irrigation or other uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. The Bureau of Reclamation announcements of repayment and water service contract actions will be published in newspapers of general circulation in the areas determined by the Bureau of Reclamation to be affected by the proposed action. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation requirements do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. The Secretary of the Interior or the district may invite the public to observe any contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act if the Bureau determines that the contract action may or will have "significant" environmental effects.

Pursuant to the "Final Revised Public Participation Procedures" for water service and repayment contract negotiations, published in the **Federal Register** dated February 22, 1982, Vol. 47, page 7763, a tabulation is provided below of all proposed contractual actions in each of the five Reclamation regions. Each proposed action listed is, or is expected to be, in some stage of the contract negotiation process during October, November, or December of 1989. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the Regional Directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved. The identity of the approving officer, and other information pertaining to a specific contract proposal, may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region.

This notice is one of a variety of means being used to inform the public about proposed contractual actions. Individual notices of intent to negotiate, and other appropriate announcements, are made in the **Federal Register** for those actions found to have widespread public interest. When this is the case, the date of publication is given.

Pacific Northwest Region

Bureau of Reclamation, 550 West Fort Street, Box 043, Boise, Idaho 83724-0043, telephone (208) 334-1894.

1. *Cascade Reservoir water users, Boise Project, Idaho:* Repayment contracts for irrigation and M&I water; 29,221 acre-feet of stored water in Cascade Reservoir.

2. *Brewster Flat ID, Chief Joseph Dam Project, Washington:* Amendatory repayment contract; land reclassification of approximately 360 acres to irrigable; repayment obligation to increase accordingly.

3. *Individual irrigators, M&I, and miscellaneous water users, Pacific Northwest Region, Idaho, Oregon, and Washington:* Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

4. *Rogue River Basin water users, Rogue River Basin Project, Oregon:* Water service contracts; $5 per acre-foot or $50 minimum per annum, terms up to 40 years.

5. *Willamette Basin water users, Willamette Basin Project, Oregon:* Water service contracts; $1.50 per acre-foot or $50 minimum per annum, terms up to 40 years.

6. *Irrigation districts and similar water user entities:* Amendatory repayment and water service contracts; purpose is to confirm to the Reclamation Reform act of 1982 (Pub. L. 97-293).

7. *Sixty Palisades Reservoir spaceholders, Minidoka Project, Idaho-Wyoming:* Contract amendments to extend term for which contract water may be subleased to other parties.

8. *City of Cle Elum, Yakima Project, Washington:* Amendatory or replacement M&I water service contract; 2,200 acre-feet (1,350 gallons per minute) annually for a term of up to 40 years.

9. *Three IDs, Flathead Indian Irrigation Project, Montana:* Repayment of costs associated with rehabilitation of irrigation facilities

10. *Baker Valley ID, Baker Project, Oregon:* Irrigation water service contract on a surplus interruptible basis to serve up to 13,000 acres; sale of excess capacity in Mason Reservoir (Phillips Lake) for a term of up to 40 years.

11. *Individual irrigators and the North Unit ID, Crooked River Project, Oregon:* Repayment or water service contracts for up to 25,000 acre-feet of storage space in Prineville Reservoir.

12. *Various Projects, Pacific Northwest Region:* R&B contracts for replacement of needle valves at storage dams.

13. *Palisades Water Users, Inc., Minidoka-Palisades Project, Idaho:* Repayment contract for an additional 500 acre-feet of storage in Palisades Reservoir.

14. *Individual irrigators, Willow Creek Project, Oregon:* Repayment or water service contracts for up to 3,500 acre-feet of storage space in Willow Creek Reservoir.

15. *Roza ID, Yakima Project, Washington:* Proposed supplementary deferment contract. Defer 1 year (2 installments) of construction payments because of cost incurred by the district to obtain additional water supplies in anticipation of drought.

16. *Vale Oregon ID, Vale Project, Oregon:* Supplementary deferment contract to defer the 1988 construction installment under authority of the Act of September 21, 1959. The district has experienced a significant reduction in water supply for the 1988 season.

17. *Five Project Spaceholders, Minidoka-Palisades Project, Idaho-Wyoming:* Contract amendments to provide for rental of water to other parties.

18. *Bridgeport ID, Chief Joseph Project, Washington:* Interim and long-term Warren Act contracts for the use of an irrigation outlet in Chief Joseph Dam.

19. *Five Irrigation Districts, Arrowrock Division, Boise Project, Idaho:* Repayment contract for Safety-of-Dams repair to Deer Flat Dam.

20. *State of Wyoming, Palisades Project, Idaho:* Repayment contract for the sale of 33,000 acre-feet of uncontracted space in Palisades Reservoir.

21. *Hermiston ID, Umatilla Project, Oregon:* Repayment contract for Safety-of-Dams repair to Cold Springs Dam.

22. *Ochoco ID and various individual spaceholders, Crooked River Project, Oregon:* Repayment contract for Safety-of-Dams repair to Arthur Bowman Dam.

23. *The Dalles ID, SRPA, Oregon:* Loan repayment contract for $2,000,000.

Mid-Pacific Region

Bureau of Reclamation, 2800 Cottage Way, Sacramento, California 95825-1898, telephone (916) 978-5030.

1. *Tuolumne Regional Water District, CVP, California:* Water service contract; up to 9,000 acre-feet from New Melones Reservoir.

2. *Calaveras County Water District, CVP, California:* Water service contract; up to 2,000 acre-feet from New Melones Reservoir; FR notice published February 5, 1982, Vol. 47, page 5473.

3. *Individual irrigators, M&I, and miscellaneous water users, Mid-Pacific Region, California, Oregon, and Nevada:* Temporary (interim) water service contracts for available project water for irrigation, M&I, or fish and wildlife purposes providing up to 10,000 acre-feet of water annually for terms up to 5 years; Temporary Warren Act contracts for use of project facilities for terms up to 1 year; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

Note: Copies of the standard form of temporary water service contracts for the various types of service are available, upon written request, from the Regional Director at the address shown above.

4. *Friant Unit Contractors, CVP, California:* Renewal of existing long-term water service contracts with numerous contractors on the Friant-Kern Canal whose contracts expire 1990-1995. Water quantities in existing conrtracts range from 1,200 to 175,440 acre-feet.

5. *San Luis Water District, CVP, California:* Amendatory water service contract providing for a change in point of delivery from Delta-Mendota Canal to the San Luis Canal.

6. *ID's and similar water user entities:* Amendatory repayment and water service contracts; purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97-293).

7. *State of California, CVP, California:* Contract(s) for (1) sale of interim water to the Department of Water Resources for use by the State Water Project Contractors, and (2) acquisition of conveyance capacity in the California Aqueduct for use by the CVP, as contemplated in the Coordinated Operation Agreement.

8. *Madera ID, Madera Canal, CVP, California:* Warren Act contract to convey and/or store nonproject Soquel water through project facilities.

9. *County of Tulare, CVP, California:* Amendatory water service contract, to provide an additional 1,908 acre-feet and reallocate 400 acre-feet of water from the Ducor ID for a total increase of 2,308 acre-feet.

10. *Shasta Dam Area Public Utilities District, CVP, California:* Renewal of M&I water supply contract. Less than 6,000 acre-feet.

11. *U.S. Fish and Wildlife Service, CVP, California:* Long-term contract for water supply for Federal refuge in Grasslands area of California.

12. *City of Redding, CVP, California:* Amendatory M&I water supply contract.

13. *North Kern Water Storage District, Buena Vista Water Storage District, Tulare Lake Basin Water Storage District, and Hacienda Water District, Kern River Project, California:* Amendatory contract to provide storage space for M&I water.

14. *Contra Costa Water District, CVP, California:* Amendatory water service contract to add an additional point of delivery to accommodate the district's proposed Los Vaqueros Project. Amendment will also conform contract to current water ratesetting policies.

15. *San Juan Suburban Water District, CVP, California:* Amend Contract No. 14-06-200-152A to provide for the current CVP water rates to conform the contract with the provisions of sections 105 and 106 of Pub. L. 99-546.

16. *Centerville Community Services District, CVP, California:* Water service contract for up to 1,580 acre-feet of M&I water annually.

17. *Shasta County Water Agency, CVP, California:* Amendatory water service contract to provide for reduction in annual entitlement.

18. *Central Valley Project, California:* Amendatory contract to include the provision of the Act of July 2, 1956 (70 Stat. 483) in existing water service contracts.

19. *California Department of Corrections, CVP, California:* Water service for up to 1,000 acre-feet of water annually to serve the Sierra Conservation Center (a State prison) near Jamestown, California.

20. *Beneficiaries of Link River Dam, Klamath Project, California/Oregon:* Contract to provide for repayment of reimbursable costs associated with Safety-of-Dam expenditures.

21. *Redwood Valley Water District, SRPA, California:* Amendatory SRPA loan repayment contract.

22. *Placer County Water Agency, CVP, California:* Amendatory Contract No. 14-06-200-5082A to provide for the current CVP water rates.

Lower Colorado Region

Bureau of Reclamation, P.O. Box 427 (Nevada Highway and Park Street), Boulder City, Nevada 89005, telephone (702) 293-8536.

1. *U.S. Army Yuma Proving Grounds, Yuma Project, Arizona:* Amendatory contract to increase the maximum amount of water delivered from 55 acre-feet to 975 acre-feet, pursuant to the recommendation of the Arizona Department of Water Resources.

2. *Agricultural and M&I water users, CAP, Arizona:* Water service subcontracts; a certain percent of available supply for irrigation entities and up to 640,000 acre-feet per year for M&I use.

VOL 54 ISS 208 OCT 30 1989 UMI

3. *Southern Arizona Water Rights Settlement Act:* Sale of up to 28,200 acre-feet per year of municipal effluent to the city of Tucson, Arizona.

4. *Contracts with five agricultural entities located near the Colorado River, BCP, Arizona:* Water service contracts for up to 1,920 acre-feet per year total.

5. *Gila River Indian Community, CAP, Arizona:* Water service contract for delivery of up to 173,000 acre-feet per year.

6. *ID's and similar water user entities:* Amendatory repayment and water service contracts; purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

7. *Indian and non-Indian agricultural and M&I water users, CAP, Arizona:* Contracts for repayment of Federal expenditures for construction of distribution systems.

8. *State of Arizona, BCP, Arizona:* Contract for an undetermined amount of Colorado River water for M&I use on State-owned land.

9. *State of Arizona, BCP, Arizona:* Contract for an undetermined amount of Colorado River water for agricultural use and related purposes on State-owned land.

10. Contract with four individual holders of miscellaneous present perfected rights to Colorado River water totalling 4.5 acre-feet, pursuant to the January 9, 1979, Supplemental Decree of the United States Supreme Court in *Arizona* v. *California* (439 U.S. 419).

11. Contracts for delivery of surplus water from the Colorado River, when available, with Emilio Soto and Sons, for 1,836 acre-feet per year; Kennedy Livestock, for 480 acre-feet per year.

12. *Imperial ID and/or the Coachella Valley Water District, BCP, California:* Contract providing for exchange of up to 10,000 acre-feet of water per year from a well field to be constructed adjacent to the All-American Canal (AAC) for an equivalent amount of Colorado River water and for O&M of the well field, Lower Colorado Water Supply Project, California.

13. *Lower Colorado Water Supply Project, California:* Water service and repayment contracts with nonagricultural users in California for consumptive use of up to 10,000 acre-feet of Colorado River water per year in exchange for an equivalent amount of water to be pumped into the AAC from a well field to be constructed adjacent to the canal.

14. Hutchison present perfected rights contract amendment to reflect the transfer of part of the right to Winterhaven, California, Supreme Court Decree in *Arizona* v. *California* and BCP.

15. Winterhaven present perfected rights contract for a portion of Hutchison Present Perfected Rights transfer to Winterhaven, Supreme Court Decree in *Arizona* v. *California* and BCP.

16. *County of San Bernardino, SRPA, California:* Repayment contract for a $28.6 million loan.

17. *Wellton-Mohawk IDD and Gold Dome Mining Corporation (Corporation), Gila Project, Arizona:* Contract for delivery of 6.14 acre-feet of water per year to the Corporation through Wellton-Mohawk Division facilities.

18. *Wellton-Mohawk IDD, Gila Project, Arizona:* Exchange agreement providing for a reduction in Wellton-Mohawk IDD's contractual right to consumptively use 22,000 acre-feet of Colorado River water per year, providing for discharge of the IDD's repayment obligation and exemption from the full-cost pricing and acreage limitation provisions of Federal Reclamation law; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

19. Water delivery contracts with seven Phoenix area cities providing for the delivery of up to 27,000 acre-feet per year through the CAP; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

20. Agreements with seven Phoenix area cities providing for the lease of the Salt River Pima-Maricopa Indian Community's CAP entitlement of 13,300 acre-feet per year to the cities; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

21. *Salt River Pima-Maricopa Indian Community, CAP, Arizona:* Amendatory CAP water delivery contract providing for extension of the contract term and authorizing the Community to lease its CAP water to the Phoenix area cities; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

22. *Salt River Pima-Maricopa Indian Community, Salt River Project, Arizona:* Amendatory agreement to increase the Community's allotment of Bartlett Dam water from the Salt River Project; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

23. *Roosevelt Water Conservation District, Salt River Project, Arizona:* Agreement assigning a portion of the District's CAP agricultural water to seven Phoenix area cities; Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988.

24. *Roosevelt Water Conservation District, Salt River Project, Arizona:* Agreement to extend the term of the District's water salvage contract; Salt River Pima-Maricopa Indian Water Rights Settlement Act of 1988.

25. *Tohono O'odham Nation, SRPA, Tucson, Arizona:* Repayment contract for an $8.2 millon loan to the Schuk Toak District.

26. *San Carlos IDD, San Carlos Project, Arizona:* Repayment contract for District's share of the Safety-of-Dams repair to Coolidge Dam.

27. *Gila River Indian Community, San Carlos Project, Arizona:* Repayment contract for Community's share of the Safety-of-Dams repair to Coolidge Dam.

28. *Sturges Trust, Gila Project, Arizona:* Contract for delivery of 6,500 acre-feet of Colorado River water per year for agricultural use as recommended by the State of Arizona and to recognize the present perfected right to the use of Colorado River water.

29. *Phoenix Area Cities, CAP, Arizona:* Amendment to the CAP Plan 6 Funding Agreement to extend the deadline to demand the return of funds contributed for the Cliff Dam alternative water supply.

30. *Fort Mohave Indian Reservation, BCP, Arizona/Nevada/California:* Contract for delivery of Colorado River water for their federal establishment present perfected right.

Upper Colorado Region

Bureau of Reclamation, P.O. Box 11568, 125 South State Street, Salt Lake City, Utah 84147, telephone (801) 524–5435.

1. *Individual irrigators, M&I, and miscellaneous water users, Utah, Wyoming, Colorado, and New Mexico:* Temporary (interim) water service contracts for surplus project water to provide up to 10,000 acre-feet of water annually for terms up to 5 years; long-term contracts for similar service for up to 1,000 acre-feet of water annually.

(a) *The Benevolent and Protective Order of the Elks, Lodge No. 1747, Navajo Reservoir, CRSP, New Mexico:* Water service contract; 20 acre-feet per year for municipal use; contract term for 40 years from execution.

(b) *Mt. Crested Butte Water and Sanitation District, Blue Mesa Reservoir, CRSP, Colorado:* Water service contract; 25 acre-feet per year to support present diversion rights for municipal use; contract term for 40 years from execution.

2. *San Juan Water Commission, Animas-La Plata Project, New Mexico:* Repayment contract; 30,800 acre-feet per year for M&I, terms consistent with binding cost-sharing agreement, dated June 30, 1986.

3. *Southern Ute Indian Tribe, Animas-La Plata Project, Colorado:* Repayment contract for 26,500 acre-feet per year for M&I use and 2,600 acre-feet per year for irrigation use in Phase One and 3,300 acre-feet in Phase Two. Contract terms to be consistent with binding cost-sharing agreement and water rights settlement agreement, in principle.

4. *Ute Mountain Ute Tribe, Animas-La Plata Project, Colorado and New Mexico:* Repayment contract for 6,000 acre-feet per year for M&I use in Colorado; 26,400 acre-feet per year for irrigation use in Colorado; and 900 acre-feet per year for irrigation use in New Mexico. Contract terms to be consistent with binding cost-sharing agreement and water rights settlement agreement.

5. *Navajo Indian Tribe, Animas-La Plata Project, New Mexico:* Repayment contract; 7,600 acre-feet per year for M&I use.

6. *State of Colorado, Animas-La Plata Project, Colorado:* Escrow Account Agreement.

7. *Uintah Water Conservancy District, Jensen Unit, CUP, Utah:* Amendatory repayment contract to reduce M&I water supply and repayment obligation.

8. *Vermejo Conservancy District, Vermejo Project, New Mexico:* Amendatory contract to relieve the district of further repayment obligation, presently exceeding $2 million, pursuant to Public Law 96–550.

9. *Conejos Water Conservancy District, San Luis Valley Project, Colorado:* Contract to place operation, maintenance, and replacement costs on a variable basis commensurate with the availability of project water.

10. *Weber Basin Water Conservancy District, Weber Basin Project, Utah:* Repayment contract for R&B of the A.V. Watkins Dike.

11. *Ogden River Water Users Association, Ogden River Project, Utah:* Repayment contract for R&B of portions of the Pineview Dam, Ogden Canyon Conduit, Ogden-Brigham Canal and South Ogden Highline Canal.

12. *South Cache Water User's Association, Hyrum Project, Utah:* Repayment contract for R&B of portion of Hyrum Dam, Hyrum/Mendon Canal, Hyrum Feeder Canal, Wellsville Canal, and other miscellaneous work.

13. *Miscellaneous M&I and irrigation water users in New Mexico, San Juan-Chama Project, New Mexico-Colorado:* Repayment contracts for remaining project water allocated in 1975 or before. Contract amounts vary from 60 to 3,000 acre-feet.

14. *Individual irrigators, M&I users, and miscellaneous water users, Dallas Creek Project, Wayne N. Aspinall Unit, CRSP, Colorado:* Drought relief pursuant to Disaster Assistance Act of 1988 for temporary water service contracts for surplus project water up to 10,000 acre-feet through 1989.

Great Plains Region

Bureau of Reclamation, P.O. Box 36900, Federal Building, 316 North 26th Street, Billings, Montana 59107–6900, telephone (406) 657–6413.

1. *Individual irrigators, M&I, and miscellaneous water users, Great Plains Region, Montana, Wyoming, North Dakota, South Dakota, Colorado, Kansas, Nebraska, Oklahoma, and Texas:* Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; long-term contracts for similar service for up to 1,000 acre-feet of water annually.

2. *Fort Shaw ID, Sun River Project, Montana:* R&B loan repayment contract.

3. Execution of loan contracts pursuant to the Disaster Assistance Act of 1988, to mitigate the effect of the 1988–1989 drought (Pub. L. 100–387).

4. *Owl Creek ID, Owl Creek Unit, P–SMBP, Wyoming:* Amendatory water service contract to reflect reduced water supply benefits being received from Anchor Reservoir.

5. *Green Mountain Reservoir, Colorado-Big Thompson Project, Colorado:* Water service contracts for the marketable yield to water users within the Colorado River Basin of Western Colorado.

6. *Colorado Water Conservation Board, Ruedi Reservoir, Fryingpan-Arkansas Project, Colorado:* Second round negotiations of a water service contract for sale of the regulatory capacity of Ruedi Reservoir up to 10,000 acre-feet of water annually for the protection of threatened and endangered fishes in the Upper Colorado River Basin.

7. *East Slope Storage System, Pueblo Reservoir, Twin Lakes, and Turquoise Reservoir, Fryingpan-Arkansas Project, Colorado:* Contract for temporary and long-term storage and exchange contracts.

8. *Cedar Bluff ID No. 6, Cedar Bluff Unit, P–SMBP, Kansas:* Amendatory repayment contract to relieve all contract obligations. The reservoir storage capacity has been sold to the State of Kansas for fish, wildlife, recreation, and other purposes.

9. *Mirage Flats ID and the Nebraska Game and Parks Commission, Mirage Flats Project, Nebraska:* Agreement to retain storage in Box Butts Reservoir for fish, wildlife and recreation purposes.

10. *Frenchman Valley Irrigation District, Frenchman Unit, P–SMBP, Nebraska:* Pending passage of legislation, renegotiate District's existing contract to reduce payments based on payment ability and reduced water supply.

11. *Northern Colorado Water Conservancy District and the Municipal Subdistrict, Colorado-Big Thompson Project, Colorado:* Contract for storage and conveyance of water for the Windy Gap Project: Amendatory contract to make administrative and technical revisions to conform the contract terms and conditions to the Windy Gap Project as actually constructed and operated.

12. *Department of Natural Resources and Conservation, SRPA, Montana:* Grant and loan contract for rehabilitation of Middle Creek Dam to meet required safety criteria and to increase reservoir storage capacity by 1,917 acre-feet which will be utilized for irrigation and municipal purposes.

13. *Garrison Diversion Conservancy District, Garrison Diversion Unit, P–SMBP, North Dakota:* Renegotiation of the master repayment contract to bring the terms in line with the Garrison Diversion Unit Reformulation Act of 1986. Negotiation of repayment contracts with irrigators and M&I users.

14. *Gray Goose ID, Gray Goose Unit, P–SMBP, South Dakota:* Contract negotiations to integrate Gray Goose ID into the P–SMBP as authorized pursuant to section 1120 of the Water Resource Development Act of January 21, 1986 (Pub. L. 99–662).

15. *Hilltop ID, Hilltop Unit, P–SMBP, South Dakota:* Contract negotiations to integrate Hilltop ID into the P–SMBP as authorized pursuant to section 1120 of the Water Resource Development Act of January 21, 1986 (Pub. L. 99–662).

16. *PacifiCorp, formerly Pacific Power and Light Company, Glendo Unit, P–SMBP, Wyoming:* Contract negotiations for renewal of water storage contract for 2,000 acre-feet of nonproject industrial water.

17. *Corn Creek ID, Glendo Unit, P–SMBP, Wyoming:* Repayment contract for 10,350 acre-feet of supplemental irrigation water from Glendo Reservoir.

18. *Hidalgo County ID No. 1, Lower Rio Grande Valley, Texas:* Supplemental SRPA loan contract for approximately $13,017,000 plus reimbursable interest.

19. *Foss Reservoir Master Conservancy District, Washita Basin Project, Oklahoma:* Amendatory repayment contract for remedial work.

20. *Arbuckle Master Conservancy District, Arbuckle Project, Oklahoma:* Contract for the repayment of costs incurred by the United States for the

VOL 54 ISS 208 OCT 30 1989 UMI

construction of the Sulphur, Oklahoma, pipeline and pumping plant.

21. *Arbuckle Master Conservancy District, Arbuckle Project, Oklahoma:* Amendatory contract for revised repayment schedule to reflect credit for project lands transferred to National Park Service under Public Law 94–235 for the Chickasaw National Recreation Area.

22. *Highland-Hanover ID, Boysen Unit, P–SMBP, Wyoming:* R&B loan repayment.

23. *Upper Bluff ID, Boysen Unit, P–SMBP, Wyoming:* R&B loan repayment.

24. *Board of Water Commissioners of the City and County of Denver,* the Colorado River Water Conservation District, and the Northern Colorado Water Conservancy District, Colorado-Big Thompson Project, Colorado: Operating agreement for substitution of water in the proposed Muddy Creek or Rock Creek Reservoir for Green Mountain Reservoir water.

25. *City of Dickinson, Heart River Unit, P–SMBP, North Dakota:* Renegotiate a M&I water service contract which expired September 24, 1980.

26. *Malta ID, Milk River Project, Montana:* R&B loan repayment.

27. *Glasgow ID, Milk River Project, Montana:* R&B loan repayment.

28. *Twin Loups ID, North Loup Project, P–SMBP, Nebraska:* Amendatory D&MC contract to increase ceiling from $500,000 to $2.5 million.

Opportunity for public participation and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

(1) Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

(2) Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of the Bureau of Reclamation.

(3) All written correspondence regarding proposed contracts will be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

(4) Written comments on proposed contract or contract action must be submitted to the appropriate Bureau of Reclamation officials at locations and within the time limits set forth in the advance public notices.

(5) All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

(6) Copies of specific proposed contracts may be obtained from the appropriate Regional Director or his designated public contact as they become available for review and comment.

(7) In the event modifications are made in the form of a proposed contract, the appropriate Regional Director shall determine whether republication of the notice and/or extension of the 60-day comment period is necessary.

Factors which shall be considered in making such a determination shall include, but are not limited to: (i) The significance of the impact(s) of the modification, and (ii) the public interest which has been expressed over the course of the negotiations. As a minimum, the Regional Director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.

Dated: October 20, 1989.

Joseph H. Hunter,

Acting Commissioner of Reclamation.

BILLING CODE 4310–09–M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 701–TA–299 (Final)]

Aluminum Sulfate From Venezuela

AGENCY: United States International Trade Commission.

ACTION: Institution of a final countervailing duty investigation and scheduling of a hearing to be held in connection with the investigation.

SUMMARY: The Commission hereby gives notice of the institution of final countervailing duty investigation No. 701–TA–299 (Final) under section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the act) to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Venezuela of aluminum sulfate, provided for in subheading 2833.22.00 of the Harmonized Tariff Schedule of the United States (previously reported under item 417.16 of the Tariff Schedules of the United States), that have been found by the Department of Commerce, in its final determination, to be subsidized by the Government of Venezuela. The Commission will make its final injury determination within 75 days after receipt of Commerce's notification of its final determination (see sections 705(a) and 705(b) of the act (19 U.S.C. 1671d(a) and 1671d(b))).

For further information concerning the conduct of this investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and C (19 CFR part 207, as amended, 53 FR 33034 (Aug. 29, 1988) and 54 FR 5220 (Feb. 2, 1989)), and part 201, subparts A through E (19 CFR part 201).

EFFECTIVE DATE: October 25, 1989.

FOR FURTHER INFORMATION CONTACT: Debra Baker (202–252–1180), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202–252–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–252–1000.

SUPPLEMENTARY INFORMATION:

Background

This investigation is being instituted as a result of a final affirmative determination by the Department of Commerce that certain benefits which constitute subsidies within the meaning of section 701 of the act (19 U.S.C. 1671) are being provided to manufacturers, producers, or exporters in Venezuela of aluminum sulfate. This investigation was requested in a petition filed on March 29, 1989 by General Chemical de Puerto Rico, Inc., Dorado, Puerto Rico. In response to that petition the Commission conducted a preliminary countervailing duty investigation and, on the basis of information developed during the course of that investigation, determined that there was a reasonable indication that an industry in the United States was materially injured by reason of imports on the subject merchandise (54 FR 22632, May 25, 1989).

Participation in the Investigation

Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's rules (19 CFR 201.11), not later than twenty-one (21) days after the publication of this notice in the **Federal Register.** Any entry of appearance filed after this date will be referred to the Chairman, who will determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Public Service List

Pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d)), the Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to this investigation upon the expiration of the period for filing entries of appearance. In accordance with § 201.16(c) and 207.3 of the rules (19 CFR 201.16(c) and 207.3), each public document filed by a party to the investigation must be served on all other parties to the investigation (as identified by the public service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service.

Limited Disclosure of Business Proprietary Information Under a Protective Order and Business Proprietary Information Service List

Pursuant to section 207.7(a) of the Commission's rules (19 CFR 207.7(a)), the Secretary will make available business proprietary information gathered in this final investigation to authorized applicants under a protective order, provided that the application be made not later than twenty-one (21) days after the publication of this notice in the **Federal Register.** A separate service list will be maintained by the Secretary for those parties authorized to receive business proprietary information under a protective order. The Secretary will not accept any submission by parties containing business proprietary information without a certificate of service indicating that it has been served on all the parties that are authorized to receive such information under a protective order.

Staff Report

A prehearing staff report applicable to this investigation was placed in the nonpublic record on October 13, 1989, and a public version was issued thereafter, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing

The Commission will hold a hearing on a related antidumping investigation, Aluminum Sulfate from Venezuela, inv. No. 731–TA–431 (Final), beginning at 9:30 a.m. on October 26, 1989, at the U.S. International Trade Commission Building, 500 E Street SW., Washington, DC. At that hearing, the Commission will hear testimony and receive evidence regarding the countervailing duty investigation instituted herein. (Requests for a separate hearing in separate hearing in this investigation for the limited purpose of supplementing the October 26, 1989, hearing record with testimony and evidence solely related to the countervailing duty investigation, should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on November 3, 1989. If such a hearing is requested, parties will be contacted regarding dates for the hearing and for the filing of briefs.)

Testimony at the public hearing is governed by § 207.23 of the Commission's rules (19 CFR 207.23). This rule requires that testimony be limited to a nonbusiness proprietary summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. Any written materials submitted at the hearing must be filed in accordance with the procedures described below and any business proprietary materials must be submitted at least three (3) working days prior to the hearing (see § 201.6(b)(2) of the Commission's rules (19 CFR 201.6(b)(2))).

Written Submission

Post hearing briefs submitted by parties must conform with the provisions of § 207.24 (19 CFR 207.24) and must be submitted not later than the close of business on November 2, 1989. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before November 2, 1989.

A signed original and fourteen (14) copies of each submission must be filed with the Secretary to the Commission in accordance with § 201.8 of the Commission's rules (19 CFR 201.8). All written submissions except for business proprietary data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any information for which business proprietary treatment is desired must be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Business Proprietary Information." Business proprietary submissions and requests for business proprietary treatment must conform with the requirements of §§ 201.6 and 207.7 of the Commission's rules (19 CFR 201.6 and 207.7).

Parties which obtain disclosure of business proprietary information pursuant to § 207.7(a) of the Commission's rules (19 CFR 207.7(a)) may comment on such information in their prehearing and posthearing briefs, and may also file additional written comments on such information no later than November 7, 1989. Such additional comments must be limited to comments on business proprietary information received in or after the posthearing briefs.

Authority: This investigation is being conducted under authority of the Tariff Act of 1930, title VII. This notice is published pursuant to 207.20 of the Commission's rules (19 CFR 207.20).

By order of the Commission.

Issued: October 25, 1989.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Agency Information Collection Under Office of Management and Budget Review

AGENCY: National Endowment for the Humanities.

ACTION: Notice.

SUMMARY: National Endowment for the Humanities (NEH) has sent to the Office of Management and Budget (OMB) a proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. 35).

DATE: Comments on this information collection must be submitted on or before November 29, 1989.

ADDRESSES: Send comments to Ms. Carol Gordon-Berry, Director, Office of Equal Opportunity, National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., Room 419, Washington, DC 20506 (202–786–0410) (TDD:786–0282) and Mr. Jim Houser, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, NW., Room 3208, Washington, DC 20503 (202–395–7316).

FOR FURTHER INFORMATION CONTACT: Ms. Carol Gordon-Berry, Director, Office of Equal Opportunity, National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., Room 419, Washington, DC 20506 (202–786–0410) from whom copies of forms and supporting documents are available.

SUPPLEMENTARY INFORMATION: All of the entities are grouped into new forms, revisions, or extensions. Each entry is issued by NEH and contains the following information: (1) The title of the form; (2) the agency form number, if

VOL 54 ISS 208 OCT 30 1989 UMI

applicable; (3) how often the form must be filled out; (4) who will be required or asked to report; (5) what form will be used for; (6) an estimate of the number of responses; (7) an estimate of the total number of hours needed to fill out the form. None of these entries are subject to 44 U.S.C. 3504(h). Recipients of National Endowment for the Humanities grants are required to complete an evaluation of their policies and practices with respect to the handicapped. This self-evaluation is retained by the grantee, made available for public inspection and provided to the Endowment upon request. The self-evaluation is required at 45 CFR 1170.53(c) pursuant to 29 U.S.C. 794.

Category: Extension

Title: Nondiscrimination on the Basis of Handicap in Federally Assisted Programs and Activities.
Form Number: Not applicable.
Frequency of Collection: Once.
Respondents: Grantees of the National Endowment for the Humanities with fifteen or more employees.
Use: Evaluation of grantee programs and policies with respect to the handicapped.
Estimated Number of Respondents: 750.
Frequency of Response: Once.
Estimated Hours of Respondents to Provide Information: 8 per respondent.
Estimated Total Annual Reporting and Recording Burden: 6,000 hours.

Thomas S. Kingston,
Assistant Chairman for Operations.

NATIONAL SCIENCE FOUNDATION

Meeting; Advisory Panel for Cell Biology Program

The National Science Foundation announces the following meeting:

Name: Advisory Panel for Cell Biology Program.
Date and Time: November 15-17, 1989, 8:30 a.m. to 5:00 p.m.
Place: Ambassador Room, State Plaza Hotel, 2116 F Street NW., Washington, DC 20550.
Type of Meeting: Part Open—Closed 11/15-8:30 a.m. to 5:00 p.m.; Open 11/16—12:00 p.m. to 1:30 p.m.; Closed 11/17—8:30 a.m. to 5:00 p.m.
All other times the meeting is closed
Contact Person: Dr. Maryanna P. Henkart, Program Director, Cell Biology Program, Room 321, National Science Foundation, Washington, DC 20550 Telephone 202/357-7474.
Purpose of Advisory Panel: To provide advice and recommendations concerning support for research in Cell Biology.
Agenda: Open—General discussion of the current status and future plans of the Cell Biology Program.
Closed—To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Subcommittee on General Electric Reactor Plants; Meeting

The ACRS Subcommittee on General Electric Reactor Plants will hold a meeting on November 14, 1989, Room P-110, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Tuesday, November 14, 1989—8:30 a.m. until the conclusion of business:

The Subcommittee will review the restart of Nine Mile Point Unit 1.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Herman Alderman (telephone 301/492-7750) between 7:30 a.m. and 4:15 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: October 23, 1989.

Gary R. Quittschreiber,
Chief, Project Review Branch No. 2

Advisory Committee on Reactor Safeguards Subcommittee on Regulatory Policies and Practices; Meeting

The ACRS Subcommittee on Regulatory Policies and Practices will hold a meeting on November 15, 1989, Room P-110, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, November 15, 1989—9:30 a.m. until the conclusion of business:

The Subcommittee will continue to discuss integration of the regulatory process.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hold discussions with representatives of the NRC and industry regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Gary Quittschreiber (telephone 301/492-9518) between 7:30 a.m. and 4:15 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: October 23, 1989.

Richard Savio,
Assistant Executive Director for Project Review.

OFFICE OF PERSONNEL MANAGEMENT

Proposed Extension of Forms for Office of Management and Budget Clearance

AGENCY: Office of Personnel Management.
ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980, (Title 44, U.S. Code, chapter 35), this notice announces a proposed extension of forms that collect information from the public. Executive Order 10450 requires that investigations be conducted on all persons entering the Federal Service. Optional Form 49 is a voucher sent to references and former employer/supervisors. The Optional Form 50 is a voucher form sent to educational

VOL 54 ISS 208 OCT 30 1989 UMI

institutions; and the Optional Form 51 is a voucher form sent to local law enforcement agencies in conducting National Agency Checks and Inquiries (NACI) in non-sensitive and noncritical-sensitive positions as prescribed in section 3(a) of Executive Order 10450. These checks are a part of the investigation conducted for determining suitability for Federal employment/security clearance. Approximately 172,097 individuals complete the OF 49 annually with reporting hours of 14,336; 15,735 individuals complete the OF 50 with reporting hours of 1,311 and 39,636 individuals complete the OF 51 with reporting hours of 3,302. Each of these forms takes approximately 5 minutes to complete. For copies of this proposal call Lawrence Dambrose, on (202) 632–0199.

DATES: Comments on this proposal should be received November 29, 1989.

ADDRESS: Send or deliver comments to: Joseph Lackey, Information Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building NW., Room 3235, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Peter Garcia, (202) 376–3800.

U.S. Office of Personnel Management.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for Office of Management and Budget Review

AGENCY: Railroad Retirement Board.

ACTION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget (OMB) for review and approval.

Summary of Proposal(s)

(1) *Collection title:* Application for Survivor Insurance Annuities.

(2) *Form(s) submitted:* AA–17, AA–17b, AA–18, AA–19, AA–19a, AA–19s, AA–20 and G–476c.

(3) *OMB Number:* 3220–0030.

(4) *Expiration date of current OMB clearance:* 11–30–89.

(5) *Type of request:* Revision of a currently approved collection.

(6) *Frequency of response:* On occasion.

(7) *Respondents:* Individuals or households.

(8) *Estimated annual number of respondents:* 18,410.

(9) *Total annual responses:* 18,410.

(10) *Average time per response:* .3304 hours.

(11) *Total annual reporting hours:* 6,083.

(12) *Collection description:* Under section 2(d) of the RRA, monthly survivor annuities are payable to surviving widow(er)s, parents, unmarried children and, in certain cases, divorced wives (husbands), mothers (fathers), remarried wido(er)s and grandchildren of deceased railroad employees. The collection obtains information needed by the Railroad Retirement Board for determining entitlement to and amount of annuity applied for.

Additional Information or Comments

Copies of the proposed forms and supporting documents can be obtained from Ronald J. Hodapp, the agency clearance officer (312–751–4692). Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 and the OMB reviewer, Justin Kopca (202–395–7316), Office of Management and Budget, Room 3002, New Executive Office Building, Washington, DC 20503.

Ronald J. Hodapp,

Director of Information Resources Management.

BILLING CODE 7905–01–M

DEPARTMENT OF TRANSPORTATION

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ended October 20, 1989

The following applications for certificates of public convenience and necessity and foreign air carrier permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et seq.). The due date for answers, conforming application, or motion to modify scope are set forth below for each application. Following the answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket No.: 46556.

Date filed: October 19, 1989.

Due date for answers, conforming applications, or motion to modify scope: November 16, 1989.

Description: Application of American Airlines, Inc. pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for a certificate of public convenience and necessity to authorize nonstop air service between Miami, Florida, and Guayaquil, Ecuador.

Docket No.: 46558.

Date filed: October 19, 1989.

Due date for answers, conforming applications, or motion to modify scope: November 16, 1989.

Description: Application of American Airlines, Inc. pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for a certificate of public convenience and necessity so as to authorize nonstop air service between Miami, Florida, and Buenos Aires, Argentina.

Docket No.: 46560.

Date filed: October 19, 1989.

Due date for answers, conforming applications, or motion to modify scope: November 16, 1989.

Description: Application of American Airlines, Inc. pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for a certificate of public convenience and necessity so as to authorize nonstop air service between Miami, Florida, and the co-terminal points Rio de Janeiro and Sao Paulo Brazil.

Docket No.: 46562.

Date filed: October 20, 1989.

Due date for answers, conforming applications, or motion to modify scope: November 17, 1989.

Description: Application of American Airlines, Inc. pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for a certificate of public convenience and necessity so as to authorize nonstop air service between Miami, Florida, and Madrid, Spain.

Docket No.: 46564.

Date filed: October 20, 1989.

Due date for answers, conforming applications, or motion to modify scope: November 17, 1989.

Description: Application of Ryan International Airlines, Inc., pursuant to sections 418 and 401(d)(3) of the Act and Subpart Q of the Regulations, for amendment of its certificate authority to permit Ryan to provide (1) subservice for Orion and Air Train and (2) direct service for Emery.

Phyllis T. Kaylor,

Chief, Documentary Services Division.

BILLING CODE 4910–62–M

Federal Aviation Administration

[Summary Notice No. PE–89–41]

Petition for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before:

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–10), Petition Docket No. ——, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–10), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on October 24, 1989.

Deborah Swantk,

Acting Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 23921.

Petitioner: FlightSafety International.

Regulations Affected: 14 CFR 61.57(a)(1), (c) and (d); 61.58(c)(1) and (d); 61.63(d) (2) and (3); 61.67(d)(2); 61.157(d) (1) and (2) and (e) (1) and (2); Part 61, Appendix A; Part 121, Appendix H.

Description of Relief Sought: To extend Exemption No. 4058D that allows petitioner to use the FAA-approved simulators to meet certain training and testing requirements of the FAR. Exemption No. 4058D will expire on February 28, 1990.

Docket No.: 24770.

Petitioner: FlightSafety International.

Sections of the FAR Affected: 14 CFR 61.57(a)(1) and 61.58(c).

Description of Relief Sought: To extend Exemption No. 4609B that allows petitioner to substitute an FAA-approved helicopter training program using petitioner's facilities for the S–76 and Bell 222 aircraft.

Docket No.: 25336.

Petitioner: United Airlines.

Regulations Affected: 14 CFR 121.697(a)(3) and 121.709(b)(3).

Description of Relief Sought/Disposition: To allow United to use a computer-printed name of a qualified person in lieu of their physical signature on the Maintenance Release portion of the aircraft Flight Log Book.

Docket No.: 25984.

Petitioner: United Express.

Sections of the FAR Affected: 14 CFR 135.181(a)(2).

Description of Relief Sought: To allow petitioner to use drift down performance on certain specified routes using the Jetstream 3100 and Jetstream 3200 series aircraaft.

Docket No.: 26006.

Petitioner: Beech Aircraft Corporation.

Sections of the FAR Affected: 14 CFR 47.69(b).

Description of Relief Sought: To allow use of a dealer's certificate outside the United States.

Docket No.: 25739.

Petitioner: Dorothy S. Blevins.

Regulations Affected: 14 CFR 141.35(e).

Description of Disposition: To allow petitioner to serve as a chief ground instructor in the Pro Business Services' Part 141 pilot ground school courses. Granted October 17, 1989. Exemption No. 5107.

BILLING CODE 4910–13–M

Flight Services Station at Greater Rockford Airport; Rockford, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of closing.

SUMMARY: Notice is hereby given that on October 3, 1989, the Flight Service Station (FSS) at Rockford, Illinois was closed. Services to the aviation public in the Rockford flight plan area, formerly provided by Rockford FSS, are being provided by the automated flight service station (AFSS) at Kankakee, Illinois. This information will be reflected in the FAA organization statement the next time it is reissued.

(Sec. 313 (a), 72 Stat. 752; 49 U.S.C. 1354.)

Teddy W. Burcham,

Acting Regional Administrator, Great Lakes Region.

[FR Doc. 89–25449 Filed 10–27–89; 8:45 am]

BILLING CODE 4910–13–M

Federal Highway Administration

Environmental Impact Statement; Guilford County, North Carolina

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for a proposed highway project in Guilford County, North Carolina.

FOR FURTHER INFORMATION CONTACT: Robert L. Lee, District Engineer, Federal Highway Administration, P.O. Box 26806, Raleigh, North Carolina 27611, Telephone: (919) 790–2856.

SUPPLEMENTARY INFORMATION: The FHWA, in corporation with the North Carolina Department of Transportation (NCDOT) and the City of Greensboro, will prepare an Environmental Impact Statement (EIS) on a proposed Greensboro Western Urban Loop in Guilford County. The proposed action would be the construction of a new 15-mile multi-lane divided facility from I–85 in the south, between Groometown Road (SR 1129) and Holden Road (SR 1117) to Lawndale Drive (SR 2303) in the north, between Lake Jeannette Road (SR 2352) and Lake Brandt Road (SR 2347).

The proposed project is needed to serve the existing and anticipated future traffic demand and to relieve congestion, delay, and inconvenience to motorists during crosstown trips.

Alternatives under consideration include the "no-build" and alternate corridors for construction of a new facility.

Letters describing the proposed action and soliciting comments are being sent to appropriate Federal, State and local agencies. A meeting with local officials and public meetings are planned in the study area as a part of the early studies.

VOL 54 ISS 208 OCT 30 1989 UMI

Public hearings will also be held. Information on the time and place of the public hearings will be provided in the local news media. The draft EIS will be available for public and agency review and comment at the time of the hearing. No formal scoping meeting is planned at this time.

To assure that the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action should be directed to the FHWA to the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulation implementing Executive Order 12372 regarding intergovernmental consolidation on Federal programs and activities apply to this program)

Robert L. Lee,

District Engineer, Raleigh, North Carolina.

DEPARTMENT OF THE TREASURY

Customs Service

[T.D. 89-93]

Extension of Analyses for Which Atlantic Petroleum Services, Inc., an Accredited Customs Laboratory, has been Accredited to Perform

AGENCY: U.S. Customs Service, Treasury.

ACTION: Notice of an additional analysis for which Atlantic Petroleum Services, Inc., a Customs accredited commercial laboratory, has been accredited to perform.

SUMMARY: Atlantic Petroleum Services, Inc., of Staten Island, New York, a Customs accredited commercial laboratory under § 151.13 of the Customs Regulations (19 CFR 151.13), has been given an extension of their commerical laboratory accreditation to include the following analysis: distillation characteristics.

SUPPLEMENTARY INFORMATION: Part 151 of the Customs Regulations provides for the acceptance at Customs Districts of laboratory analyses from Customs-accredited commercial laboratories for certain products. Atlantic Petroleum Services, Inc., which holds Customs accreditation in certain laboratory analyses has applied to Customs to extend its accreditation to the performance of an additional analysis. Review of Atlantic Petroleum Services, Incorporated, qualifications shows that the extension is warranted and accordingly, has been granted.

EFFECTIVE DATE: October 25, 1989.

FOR FURTHER INFORMATION CONTACT: Donald A. Cousins, Office of Laboratories and Scientific Services, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229 (202-566-2446).

Dated: October 24, 1989.

BILLING CODE 4820-86-M

[T.D. 89-92]

Approval of Tucker Inspections, Inc. as a Commercial Gauger

AGENCY: U.S. Customs Service, Treasury.

ACTION: Notice of Approval of Tucker Inspections, Incorporated, as a Commercial Gauger.

SUMMARY: Tucker Inspections, Incorporated, of Channelview, Texas, 77530, recently applied to Customs for approval to gauge imported petroleum, petroleum products, organic chemicals, and vegetable and animal oils under § 151.13 of the Customs Regulations (19 CFR 151.13). Customs has determined that Tucker Inspections, Inc., meets the requirements for approval.

Therefore, in accordance with § 151.13(c), Tucker Inspections, Incorporated, 519 Sheldon Road, Suite E, Channelview, Texas, 77530, is approved to gauge the products named above in all Customs districts.

EFFECTIVE DATE: October 25, 1989.

FOR FURTHER INFORMATION CONTACT: Donald A. Cousins, Office of Laboratories and Scientific Services, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229 (202-566-2446).

Dated: October 13, 1989.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552(b), notice is hereby given that at 2:12 p.m. on Tuesday, October 24, 1989, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider matters relating to: (1) The possible closing of an insured bank; and (2) an assistance agreement pursuant to section 13(c) of the Federal Deposit Insurance Act.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director Robert L. Clarke (Comptroller of the Currency), concurred in by Director M. Danny Wall (Director of the Office of Thrift Supervision), and Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(8), (c)(9)(A)(i), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(8), (c)(9)(A)(i), (c)(9)(A)(ii), and (c)(9)(B)).

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street NW., Washington, DC.

Dated: October 25, 1989.

Federal Deposit Insurance Corporation.

M. Jane Williamson,

Assistant Executive Secretary.

BILLING CODE 6714-01-M

NATIONAL COUNCIL ON THE HANDICAPPED

National Council on Disability; Quarterly Meeting

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Council on Disability. This notice also describes the functions of the Council. Notice of this meeting is required under section 522 (b) (10) of the "Government in Sunshine Act" (Pub. L. 94-409).

DATES: Oct 30, 1989, 9:00 a.m. to 5:00 p.m., Oct. 31, 1989, 9:00 a.m. to 5:00 p.m., Nov. 1, 1989, 9:00 a.m. to 1:00 p.m.

LOCATION: Hyatt Regency-Austin, Austin, Texas.

FOR FURTHER INFORMATION CONTACT: National Council on Disability, 800 Independence Avenue, SW., Suite 814, Washington, DC 20591, (202) 267-3846, TDD: (202) 267-3232.

The National Council on Disability is an independent Federal agency comprised of 15 members appointed by the President of the United States and confirmed by the Senate. Established by the 95th Congress in Title IV of the Rehabilitation Act of 1973 (as amended by Public Law No. 95-602 in 1978), the Council was initially an advisory board within the Department of Education. In 1984, however, the Council was transformed into an independent agency by the Rehabilitation Act Amendments of 1984 (Public Law No. 98-221).

The Council is charged with reviewing all laws, programs, and policies of the Federal Government affecting disabled individuals and making such recommendations as it deems necessary to the President, the Congress, the Secretary of the Department of Education, the Commissioner of the Rehabilitation Services Administration, and the Director of the National Institute on Disability and Rehabilitation Research (NIDRR).

The meeting of the Council shall be open to the Public. The proposed agenda includes:

Report from the Chairperson and Executive Committee
Update on Prevention
Update on IOM Study
Update on NIDRR
Discussion of PCEPD Workplans
NCD Planning Session
Committee Meetings
Health Insurance
Personal Assistance
Employment

VOL 54 ISS 208 OCT 30 1989 UMI

NIDRR
Discussion of NCD Awards Program
Committee Reports
Open Forum on Social Security
Unfinished Business
New Business
Announcements

Records shall be kept of all Council proceedings and shall be available after the meeting for public inspection at the National Council on Disability.

Signed at Washington, DC, on July 31, 1989.

Ethel D. Briggs,

Deputy Director.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meeting

AGENCY: Institute of Museum Services.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the agenda of a forthcoming meeting of the National Museum Services Board. This notice also describes the functions of the Board. Notice of this meeting is required under the Government in the Sunshine Act (Public Law 94-409) and regulations of the Institute of Museum Services, 45 CFR 1180.84.

TIME AND DATE: 09:00 a.m., Friday, November 17th, 1989.

STATUS: Open.

ADDRESS: The Old Post Office Pavilion, 1100 Pennsylvania Avenue, NW., Main Floor, Room M07, Washington, DC 20506, (202) 786-0536.

FOR FURTHER INFORMATION CONTACT: William Laney, Executive Assistant to the National Museum Services Board, Room 510, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, (202) 786-0536.

SUPPLEMENTARY INFORMATION:

The National Museum Services Board is established under the Museum Services Act, Title II of the Arts, Humanities, and Cultural Affairs Act of 1976, Public Law 94-462. The Board has responsibility for the general policies with respect to the powers, duties, and authorities vested in the Institute under the Museum Services Act.

The meeting of November 17th, 1989 will be open to the public.

If you need special accommodations due to a disability, please contact: Institute of Museum Services, Room 510—1100 Pennsylvania Avenue, NW., Washington, D.C. 20506, (202) 786-0536, TDD (202) 786-0136 at least seven (7) days prior to the meeting.

Agenda

I. NMSB Chairman's Report and Approval of Minutes of July 21, 1989 Meeting
II. IMS Director's Report, NMSB Lunch Break
III. IMS Program Report
IV. General Board Discussion

Dated: October 25, 1989.

Daphne Wood Murray,

Director, Institute of Museum Services.

RESOLUTION TRUST CORPORATION

Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:20 p.m. on Tuesday, October 24, 1989, the Board of Directors of the Resolution Trust Corporation met in closed session to consider matters relating to delegations of authority.

In calling the meeting, the Board determined, on motion of Director C. C. Hope, Jr. (Appointive), seconded by Director Robert L. Clarke (Comptroller of the Currency), concurred in by Director M. Danny Wall (Director of the Office of Thrift Supervision), and Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2) and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(9)(B)).

The meeting was held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, NW., Washington, DC.

Dated: October 25, 1989.

Resolution Trust Corporation.

John M. Buckley, Jr.,

Executive Secretary.

LIST OF PUBLIC LAWS

Last List October 27, 1989

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

H.J. Res. 392/Pub. L. 101–126

Designating October 1989 as "Italian-American Heritage and Culture Month". (Oct. 25, 1989; 103 Stat. 773; 1 page) Price: $1.00

H.J. Res. 401/Pub. L. 101–129

To designate the month of October 1989 as "Country Music Month". (Oct. 25, 1989; 103 Stat. 774; 1 page) Price: $1.00

H.J. Res. 423/Pub. L. 101–130

Making further continuing appropriations for the fiscal year 1990, and for other purposes. (Oct. 26, 1989; 103 Stat. 775; 2 pages) Price: $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783–3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

Regulatory Information Service Center

Introduction to the Unified Agenda of Federal Regulations

VOL 54 ISS 208 OCT 30 1989 UMI

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry and publication in a uniform format. In addition, the Office of Federal Procurement Policy Act Amendments of 1988 (41 U.S.C. 402) require the development and semiannual publication of a report on procurement regulations. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this **Unified Agenda of Federal Regulations.**

The following separate parts in this issue of the **Federal Register** are the agency agendas, which together comprise the October 1989 edition of the semiannual **Unified Agenda of Federal Regulations.**

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 725 Seventeenth Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory actions, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the **Unified Agenda of Federal Regulations**, contact: Mark G. Schoenberg, Executive Director, Regulatory Information Service Center, Room 5216, New Executive Office Building, 725 Seventeenth Street NW., Washington, DC 20503; (202) 395-6993.

INTRODUCTION TO THE UNIFIED AGENDA OF FEDERAL REGULATIONS

About the Unified Agenda

The Regulatory Information Service Center (the Center) compiles the **Unified Agenda of Federal Regulations** for the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing Executive Orders 12291 "Federal Regulation" (46 FR 13193; 3 CFR 1981 Comp., p. 127) and 12498 "Regulatory Planning Process" (50 FR 1036; 3 CFR 1985 Comp., p. 323). Under E.O. 12498, OMB publishes the **Regulatory Program of the United States Government** each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Unified Agenda differ in several ways. The Unified Agenda includes more regulatory actions because it covers all Federal agencies that issue regulations and includes almost all the rulemakings they have under development. The 1989 Regulatory Program covers only 25 of the major Federal regulatory agencies and includes only the most significant of all the regulatory actions that each agency plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

The regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government. This edition of the Unified Agenda includes 56 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. Agencies of the United States Congress are not included.

Beginning with this edition, the Agenda helps fulfill the statutory requirement that the Office of Federal Procurement Policy (OFPP) publish a **Procurement Regulatory Activity Report** as required by the Office of Federal Procurement Policy Act Amendments of 1988 (102 Stat. 4055; 41 U.S.C. 402). In their agendas, agencies indicate which regulatory actions are procurement-related, as well as whether or not there is a statutory requirement or a paperwork burden associated with the procurement-related actions. Many of the procurement-related actions are included in the Unified Agenda for the first time. This procurement information will be used by OFPP to produce its report.

The Unified Agenda is produced through a computer system designed and maintained by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use. In order to further facilitate producing the Agenda, many agencies currently use computer terminals at their offices to enter agenda information into the Center's computer system.

The Agenda contains a Subject Index to help readers locate entries from various agencies that may affect a particular area of interest. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For those agencies that requested it, the Center provided a computer-produced Table of Contents that appears after the preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, legal deadline, abstract, timetable, small entities affected, government levels affected, agency contact, and Regulation Identifier Number. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

Dated: October 1, 1989.

Mark G. Schoenberg,

Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate part in this edition of the **Federal Register.** The parts are organized alphabetically in four groups: Cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency lists its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking and may include Advance Notices of Proposed Rulemaking and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a Notice of Proposed Rulemaking (NPRM) as the next step in their rulemaking process or for which the closing date of the NPRM Comment Period is the next step.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or an interim final rule or to take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under E.O. 12291, such as those concerning military or foreign affairs functions and regulations related to internal agency management.

Entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the regulation.
- Significance -- an indication of the significance of the entry that appears when:

VOL
54
ISS
208
OC
30
1989
UMI

a. The action is included in the Regulatory Program of the United States Government for the 1989 program year, or
b. the agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (U.S.C.) or Public Law (P.L.) or the Executive order (E.O.) that authorize(s) the regulatory action (agencies may provide common name references to laws in addition to U.S.C. or P.L. references).
- CFR Citation -- the section(s) of the Code of Federal Regulations that affects or will be affected by the action.
- Legal Deadline -- an indication of whether the rule is subject to a statutory or judicial deadline, the date of that deadline, and whether the deadline pertains to an NPRM, a Final Action, or some "Other" action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 04/00/89 means the agency can predict the month and year the action will take place but not the day it will occur.
- Small Entities Affected -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601) and, if so, whether the small entities are businesses, governmental jurisdictions, and/or organizations.
- Government Levels Affected -- indicates whether the rule is expected to affect levels of government and, if so, whether the governments are local, State, and/or Federal.
- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.
- Procurement-Related Actions -- in the Additional Information section, a statement identifying procurement-related actions and indicating whether there is a statutory requirement for the action and whether or not there is a paperwork burden associated with the action.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed.

The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of August 25, 1989, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles. Where applicable, individual actions will be subject to review for compliance with Executive Order 12291, the Regulatory Flexibility Act, the OFPP Act, and the Paperwork Reduction Act at appropriate points in the regulatory process.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule. The ANPRM describes the general area that may be subject to regulation and usually asks for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a notice of proposed rulemaking.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the Federal Register by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area subject to Federal regulation. The CFR is keyed to and kept up-to-date by the daily issues of the Federal Register.

EO -- An Executive order is a directive from the President to an executive agency, issued under constitutional or statutory authority. Executive orders are published in the Federal Register and in title 3 of the Code of Federal Regulations.

FR -- The Federal Register is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents issued by Federal departments and agencies.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the Federal Register that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- a reference to the legal authority under which the rule is proposed; and
- either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the two-year life of each Congress; for example, P.L. 97-17 would be the 17th public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities, as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM, and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by E.O. 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of section 2 of E.O. 12291, namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- not be undertaken unless the potential benefits outweigh the potential costs to society;
- maximize net benefits to society;
- entail the least net cost to society of the alternatives considered; and
- take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulation Identifier Number is assigned by the Regulatory Information Service Center to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The U.S.C. is divided into 50 titles and each title covers a broad area of Federal law.

Information About Additional Copies

Additional copies of this edition of the Federal Register are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402; (202) 783-3238.

Copies of individual agency agendas may be available directly from the agency. Please contact the particular agency for further information.

Semiannual Regulatory Agenda; Fall 1989.

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and nonmajor regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291 "Federal Regulation." The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication, except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

ADDRESSES: Requests for copies of the agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 147-E, Administration Building, U.S. Department of Agriculture, Washington, DC 20250, (202) 382-1272.

Dated: September 13, 1989.

Jacquelyn C. Patterson,

Chief, Regulatory & Legislative Staff.

6. PROPOSED NEW MILK MARKETING ORDER FOR NORTH CAROLINA AND SOUTH CAROLINA

Significance: Agency Priority

Legal Authority: 7 USC 601 to 674 Agricultural Marketing Agreement Act

CFR Citation: 7 CFR 1005 (New)

Legal Deadline: None

Abstract: To establish minimum uniform classified use prices to processors for raw milk received from producers and marketed in the current of interstate commerce. The States do not have authority to price the milk originating from out-of-State sources. The producer grouped in the Carolinas request that a Federal order be established to provide minimum prices to all dairy farmers whose milk is marketed in the Carolinas.

7. PROPOSED NEW MARKETING AGREEMENT AND ORDER FOR SEEDLESS EUROPEAN CUCUMBERS

Significance: Agency Priority

Legal Authority: 7 USC 601 to 674, Agricultural Marketing Agreement Act of 1937

CFR Citation: 7 CFR 968 (New)

Legal Deadline: None

Abstract: To establish minimum quality standards, container requirements and market promotion. The proposal was submitted by the Greenhouse Vegetable Growers Association. The proposed agreement and order would promote the quality and pack of seedless European cucumbers in the marketplace. In addition, it would enable the establishment of production research and marketing research and development activities to improve production practices and increase the consumption of seedless European cucumbers. The program would be financed by assessments levied on seedless European cucumber handlers. The assessment rate would be recommended by the committee and approved by the Secretary.

8. PROPOSED MARKETING ORDER FOR VIDALIA ONIONS GROWN IN GEORGIA

Significance: Agency Priority

Legal Authority: 7 USC 601 to 674, Agricultural Marketing Agreement Act of 1937

CFR Citation: 7 CFR 955 (New)

Legal Deadline: None

Abstract: To authorize production and marketing research and promotion projects including paid advertising for Vidalia onions. The primary objective of this program would be to improve grower returns by strengthening consumer demand through various promotion activities and by reducing costs through production and marketing research. The program would be financed by assessments on handlers.

11. 1990 EXTRA LONG STAPLE (ELS) COTTON PROGRAM

Legal Authority: 7 USC 1444(h); Agricultural Act of 1949, as amended, Sec 103(h)

CFR Citation: 7 CFR 1427

Legal Deadline: Final, Statutory, December 1, 1989.

Abstract: To assure sufficient supplies of cotton for domestic and export use, maintain adequate carryover stocks, support farm income, combat inflation, conserve natural resources, hold down Federal costs, and comply with statutory requirements. Primary determinations to be made are (1) loan rate--not less than 85% of average market price over previous 5 years excluding the high and low prices, (2) target price--120% of the loan level, and (3) acreage reduction--to be set at such a level as to assure that total supplies will not be excessive. Decisions also to be made on whether or not to implement paid land diversion or advance deficiency payments. The cost to USDA will likely range from $0 to $1.0 million.

support farm income, combat inflation, hold down Government costs, conserve natural resources, and comply with statutory requirements. Primary determinations to be made are (1) loan and purchase rates—85 percent of the previous 5-year average, excluding the high and low years, but cannot be reduced more than 5 percent from previous year's level nor be lower than $6.50/cwt, (2) target price—no lower than $10.71/cwt, (3) acreage limitation—no more than 35 percent, with a target carryover level of 30 million cwt. Determinations are also to be made on (1) a land diversion program, (2) advance deficiency/diversion payments, (3) purchase of marketing certificates under marketing loan, (4) loan deficiency payments, (5) inventory reduction program (half-ARP), and (6) loan rate adjustments (loan differentials). The expected cost to USDA will likely range from $0.6 to $1.1 billion.

13. 1990 WOOL AND MOHAIR PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1782 et seq; National Wool Act of 1954, as amended, Sec 201

CFR Citation: 7 CFR 1466; 7 CFR 1472

Legal Deadline: None

Abstract: To encourage the continued domestic production of wool at prices fair to both producers and consumers, in a manner which will ensure a viable domestic wool industry in the future, by supporting the price of wool and mohair by means of loans, purchases, payments, or other operations. The support level for wool is set by statutory formula. Determination is to be made on the support level for mohair, which may not be more than 15 percent above or below the comparable percentage of parity at which shorn wool is supported. The cost to USDA will likely range from $0.1 to $0.2 billion.

14. 1990-CROP HONEY PRICE SUPPORT PROGRAM

Significance: Agency Priority

Legal Authority: 7 USC 1446(b); The Agricultural Act of 1949, as amended, Sec 201(b)

CFR Citation: 7 CFR 1434.26; 7 CFR 1434.27.

Legal Deadline: None

Abstract: Legislation requires that 1990-crop honey be supported at 95 percent of the 1989 level, or $0.5402 per pound. This price support level must be further reduced by $0.0025 per pound under the provisions of the Omnibus Budget Reconciliation Act of 1987. Legislation also provides the Secretary with the discretion to allow loan repayment at a rate below the support level. The objective of a lower repayment rate is to (1) minimize loan forfeitures, (2) avoid excessive stocks, (3) reduce Federal storage costs, and (4) maintain the competitiveness of U.S. honey in domestic and export markets. Determinations to be made are (1) the type of support to offer (loans, purchases, or loans and purchases), and (2) implementation of the lower repayment provision. Federal outlays are expected to be less than $60 million if the lower repayment provision is adopted.

15. 1990 PRICE SUPPORT LEVELS FOR FIVE KINDS OF TOBACCO

Legal Authority: 7 USC 1445; The Agricultural Act of 1949, Sec 106, as amended

CFR Citation: None

Legal Deadline: None

Abstract: To stabilize prices for five kinds of tobacco and comply with statutory requirements, price support levels are set by statutory formula, based on a prices paid index. The Secretary may lower the price support level at the request of producer associations. Increases may be limited to 65 percent of the formula increase. This price support program is expected to result in net Federal receipts of approximately $16 million in FY 1990.

18. PEANUT WAREHOUSE STORAGE LOANS AND HANDLER OPERATIONS FOR THE 1986 THROUGH 1990 CROPS (AMENDMENT 1)

Legal Authority: 15 USC 714b and 714c; 7 USC 1441 et seq; 7 USC 1358; 7 USC 1375

CFR Citation: 7 CFR 1446

Legal Deadline: None

Abstract: This action would amend the regulations to allow export credits for crushing sound mature kernels (SMK) and sound split (SS) kernels. This action is needed because current regulations do not provide non-physically supervised handlers an alternative market for SMK and SS kernels other than the export market. An alternative market is needed when the export market is lost or when the peanuts become ineligible for export due to aflatoxin contamination.

Alternatives considered are: (1) Permit a one-time switch to physically supervised crushing of SMK and SS peanuts, regardless of quality, (2) permit prorated credit (based on ratio of contract additional peanuts purchased to total peanuts purchased) for peanuts crushed due to aflatoxin contamination, (3) permit a one-time switch to physically supervised crushing of peanuts that meet edible export standards. No cost to Government is expected.

20. 1990-CROP PEANUTS NATIONAL POUNDAGE QUOTA

Significance: Agency Priority

Legal Authority: 7 USC 1358; The Agricultural Adjustment Act of 1938, Sec 358, as amended

CFR Citation: None

Legal Deadline: Final, Statutory, December 15, 1989.

Abstract: The objective of this action is to balance supply with demand at levels that assure stable supplies for domestic use and assure producers a stable income. This action is required by legislation, which provides a formula for computing the national quota. The quota must equal the amount estimated to be devoted to domestic edible, seed, and related uses, and may not be less than 1.1 million tons. A net cost of $1 million is expected.

22. 1990 FEED GRAIN PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1444e; 7 USC 1421; The Agricultural Act of 1949, as amended, Sec 105c and 110

CFR Citation: 7 CFR 707; 7 CFR 709; 7 CFR 713; 7 CFR 718; 7 CFR 719; 7 CFR 792; 7 CFR 794; 7 CFR 795; 7 CFR 796; 7 CFR 1421.734

Legal Deadline: Final, Statutory, September 30, 1989.

Abstract: To provide an adequate feed grain supply for domestic and foreign utilization, support farm income, combat inflation, hold down Federal costs, conserve natural resources, and comply with statutory requirements. Primary determinations to be made are (1) loan and purchase rates--probable range of $1.57-$1.96/bu for corn, with rates for other feed grains set in relation to that for corn, (2) target prices--not less than $2.75/bu for corn, with rates for other feed grains set in relation to that for corn, and (3) acreage adjustment--not less than 12.5% nor more than 20%, if corn carryin is projected to exceed 2 billion bu. Decisions also to be made on whether to implement (1) a paid land diversion, (2) a marketing loan, (3) a half-compliance program, (4) incentives for farmers to participate in the FOR, and (5) price support for corn silage. The cost to USDA will likely range from $6.0-$8.0 billion.

23. 1990 MILK PRICE SUPPORT PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1430; The Agricultural Act of 1949, Sec 201, as amended

CFR Citation: 7 CFR 1430

Legal Deadline: Final, Statutory, January 1, 1990.

Abstract: The objective of this action is to support farm income and stabilize prices. Legislation requires that if estimated price support purchases of dairy products for 1990 exceed 5 billion pounds (milk equivalent), the Secretary of Agriculture shall reduce the milk support price by 50 cents per hundredweight on January 1, 1990, and, if estimated purchases for 1990 are less than 2.5 billion pounds (milk equivalent), the Secretary shall increase the support price by 50 cents per hundredweight. Federal outlays for the 1990 Milk Price Support Program are expected to be approximately $600 million in FY 1990.

24. 1990-CROP BURLEY TOBACCO MARKETING QUOTAS AND PRICE SUPPORT LEVEL

Significance: Agency Priority

Legal Authority: 7 USC 1314; The Agricultural Act of 1938, as amended, Sec 314; 7 USC 1445; The Agricultural Adjustment Act of 1949, as amended, Sec 106

CFR Citation: None

Legal Deadline: Final, Statutory, February 1, 1990.

Abstract: Burley marketing quotas and price support are required by legislation. The purpose of quotas and price support is to balance supply with demand at levels assuring stable supplies for domestic and export use at prices that are fair to producers. The national quota is based on manufacturers' intentions, 3-year average exports, an adjustment to maintain loan stocks, and a discretionary adjustment of plus or minus 3 percent. The price support level is based on a formula that weighs average market prices (2/3) and a cost index (1/3), with discretion to limit any increase to 65 percent of the formula increase. The 1990-crop flue-cured tobacco program is expected to result in net Federal receipts of approximately $80 million in FY 1990.

RIN: 0560–AB66

29. ● 1990 SOYBEAN PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1446; The Agricultural Act of 1949 as amended, Sec.201

CFR Citation: 7 CFR 1421.365-374

Legal Deadline: Final, Statutory, October 1, 1990.

Abstract: To assure sufficient supplies of soybeans for domestic and export use, support farm income, combat inflation, hold down Federal costs, and comply with statutory requirements. Determinations to be made are (1) loan and purchase rate, and (2) whether to implement a marketing loan program. The cost to USDA will likely range from $0.1 to $0.2 billion.

RIN: 0560–AB67

30. ● 1990-CROP SUGAR BEET AND SUGARCANE PRICE SUPPORT LOAN RATES

Significance: Regulatory Program

Legal Authority: 7 USC 1421; 7 USC 1446; The Agricultural Act of 1949, as amended, Sec.201 and 401

CFR Citation: 7 CFR 1435

Legal Deadline: None

Abstract: To set forth (1) loan rates applicable to 1990-crop sugar beets and sugarcane, and (2) the 1990-crop minimum price support levels processors are required to pay growers. The minimum national average loan rate is set by statue at $0.18/lb. for sugarcane with the rate for sugar beets set at such level as the Secretary determines is fair and reasonable in relation to that for sugarcane. No impact on Government outlays is expected. However, the cost to consumers and other users of sugar will likely exceed $2 billion.

31. ● 1990 CCC COTTON LOAN PROGRAM REGULATIONS—BALE PACKAGING MATERIALS

Legal Authority: 15 USC 714b and c; Commodity Credit Corporation Charter Act, Sec. 4 and 5

CFR Citation: 7 CFR 1427

Legal Deadline: None

Abstract: This action will incorporate by reference the specifications for bale packaging materials used in wrapping cotton for 1990 that are approved by the Joint Cotton Industry Bale Packaging Committee and that are acceptable to CCC. No cost to Government is expected.

32. ● 1990 MARKETING YEAR PENALTY RATES FOR ALL KINDS OF TOBACCO SUBJECT TO QUOTAS (EXCEPT PUERTO-RICAN CIGAR FILLER)

Legal Authority: 7 USC 1314; The Agricultural Act of 1938, as amended, Sec. 314

CFR Citation: None

Legal Deadline: None

Abstract: This action announces the penalty rates for all kinds of tobacco subject to quotas (except Puerto-Rican Cigar Filler) for the 1990 marketing year. Legislation provides that the penalty shall be 75 percent of the previous year's average marketing price. Tobacco producers, warehousemen, and dealers need to be advised of the penalty rates prior to the beginning of the marketing year (July 1, 1990 for flue-cured).

33. ● 1989 MARKETING YEAR PENALTY RATE FOR PUERTO-RICAN CIGAR-FILLER TOBACCO

Legal Authority: 7 USC 1314; The Agricultural Act of 1938, as amended, Sec.314

CFR Citation: None

Legal Deadline: None

Abstract: This action announces the penalty rate for Puerto-Rican Cigar-Filler Tobacco for the 1989 marketing year. Legislation provides that the penalty shall be 75 pecent of the previous year's average market price. Tobacco producers and dealers need to be advised of the penalty rate prior to the beginning of the marketing year (October 1, 1989).

34. ● CROP YEARS 1989 AND 1990 SHRINK ADJUSTMENT FOR ADDITIONAL PEANUTS

Legal Authority: 7 USC 1359; The Agricultural Act of 1938, as amended, Sec. 359

CFR Citation: 7 CFR 1446

Legal Deadline: None

Abstract: This action is needed to provide a fair and equitable shrink adjustment for use in determining export obligations for contract additional peanuts purchased by peanut handlers who have chosen to operate under nonphysical supervision. Shrink adjustments less than actual shrinkage can result in handlers being required to purchase quota peanuts to make up the differences, while adjustments in excess of actual shrinkage can result in higher Government outlays through increased quantities of peanuts being placed under loan.

CFR Citation: 9 CFR 54

Legal Deadline: None

Abstract: Under the Scrapie Eradication Program and the regulations in 9 CFR Part 54, indemnity for an animal destroyed because of scrapie, a highly transmissible and fatal disease of the central nervous system of sheep and goats, is paid to its owner at fair market value, not to exceed $300 per head. Under the present program, indemnities are paid for affected and bloodline animals only. There is no diagnostic test for the disease and no treatment. The existing Scrapie Eradication Program is not federally mandated and depends upon state efforts and funds, industry cooperation, and reporting by flock owners. APHIS is considering the regulatory option of negotiated rulemaking in order to develop a program which will satisfy animal health needs, industry needs, and State and Federal governmental needs.

56. IMPORTATION OF NURSERY STOCK, PLANTS, ROOTS, BULBS, SEEDS, AND OTHER PLANT PRODUCTS

Significance: Agency Priority

Legal Authority: 7 USC 150dd to 150ff; 7 USC 151 to 167

CFR Citation: 7 CFR 319.37

Legal Deadline: None

Abstract: To prevent the introduction of plant pests and diseases, Plant Protection and Quarantine (PPQ) prohibits or restricts the importation of living plants, roots, bulbs, seeds, and related articles. PPQ is updating the lists of prohibited and restricted articles and is revising the regulatory requirements for importation of various articles. These revisions will allow the importation of certain living plants and related articles under appropriate regulatory controls, and will prohibit

VOL 54 ISS 208 OC 30 1989 UMI

the importation of other living plants and related articles.

CFR Citation: 9 CFR 82; 7 CFR 2.17; 7 CFR 2.51; 7 CFR 371.2(d)

Legal Deadline: None

Abstract: Exotic Newcastle Disease (also known as viscerotropic velogenic Newcastle disease and as VVND) and pscittacosis or ornithosis (now generally referred to as chlamydiosis) are communicable diseases of birds and poultry. The spread of these diseases in the United States could have serious consequences for the United States poultry industry. A review of the Department's regulations to prevent the interstate spread of these diseases indicates the need for a complete revision to make the regulations more effective and to increase compliance with them.

CFR Citation: 7 CFR 319.56; 7 CFR 2.17; 7 CFR 2.51; 7 CFR 371.2(c)

Legal Deadline: None

Abstract: An increased number of exotic pests have been introduced recently into the United States. Some of these pests may have arrived on importations of fruits and vegetables. Since these pests are capable of causing extensive economic damage, APHIS is considering the development of an improved system for determining the entry status of agricultural products, particularly fruits and vegetables.

CFR Citation: 7 CFR 301

Legal Deadline: None

Abstract: The Department is proposing to revise "Subpart–Imported Fire Ant," which contains quarantine and interstate movement regulations for the containment and control of this destructive plant pest. Executive Order 12291 and Department Regulation 1512-1 require that agencies initiate reviews of currently effective rules to bring about the goal of reduction of regulatory burdens and to minimize impacts on small entities. The proposed rule is part of the scheduled review of "Subpart–Imported Fire Ant" to meet regulatory review requirements. Revising the regulations would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the interstate spread of the imported fire ant.

60. ● PROCEDURES FOR IMPORTING ANIMALS THROUGH THE HARRY S TRUMAN ANIMAL IMPORT CENTER; APPROVAL OF EMBARKATION QUARANTINE FACILITIES

Significance: Agency Priority

Legal Authority: 7 USC 1622; 19 USC 1396; 21 USC 102 to 105; 21 USC 111; 21 USC 134a; 21 USC 134b; 21 USC 134c; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92; 7 CFR 2.17; 7 CFR 2.51; 7 CFR 371.2(d)

Legal Deadline: None

Abstract: 1. Animals imported from countries know or believed to be affected with certain exotic diseases must be quarantined in the Harry S Truman Animal Import Center (HSTAIC). This facility cannot accommodate all requested importations per calendar year. The Department is proposing to establish a lottery system whereby importers would be selected to be granted exclusive use of HSTAIC. This lottery system would establish an equitable and orderly means of allotting space at HSTAIC. 2. Animals imported through HSTAIC must first be quarantined in an embarkation quarantine facility (EQF) in the country of origin. Currently the Department approves only one EQF per continent. The Department is proposing to provide for approval of a separate EQF per importation, and to establish standards for approval of EQF's. This change would reduce the logistical complexities of exporting animals from their country of origin.

61. ● SWINE IDENTIFICATION

Significance: Agency Priority

Legal Authority: 21 USC 111 to 113; 21 USC 114a; 21 USC 114a-1; 21 USC 114g; 21 USC 115 to 117; 21 USC 120 to 126; 21 USC 134b; 21 USC 134f

CFR Citation: 9 CFR 71; 9 CFR 78; 7 CFR 2.17; 7 CFR 2.51; 7 CFR 371.2(d)

Legal Deadline: None

Abstract: Swine moving in interstate commerce may be adulterated with drug and other chemical residue levels higher than the allowed tolerance and may be spreading diseases. Mandatory identification of swine allows APHIS to locate sources of infection in order to eradicate and contain disease and allows the Food Safety Inspection Service (FSIS) to more easily determine the source of adulterated meat and prevent its consumption. The current regulations require identification of swine when entered into interstate commerce. The Department is proposing to amend the regulations to allow this identification to be carried out at various specified points in marketing channels. This amendment would allow for effective traceback of diseased or contaminated swine without unnecessarily disrupting standard marketing procedures.

Abstract: In 1985 Congress amended the Animal Welfare Act, 7 USC 2131 et seq., and required the Secretary of Agriculture to promulgate regulations and standards governing the humane handling, housing, care, treatment, and transportation of certain animals by dealers, research facilities, operators of auction sales, carriers, and intermediate handlers. The standards and regulations will provide minimum requirements with respect to handling, housing, feeding, sanitation, veterinary care, and other related matters. APHIS is proposing to amend, revise, and expand the "Standards" relating to dogs and cats, guinea pigs and hamsters, and nonhuman primates, and will include provisions for exercise of dogs and for promoting the psychological well-being of primates.

Government Levels Affected: Undetermined

Additional Information: ADDITIONAL ABSTRACT: The research guidance will be published as a notice in the Federal Register rather than as a proposed rule. The notice will contain research guidance consisting of general guideline principles for field testing biotechnology-modified organisms.

USDA research agencies plan to promote adherence to the biotechnology research guidelines by announcing that it is their policy that researchers employed or funded by USDA adhere to the guidelines.

Agricultural field tests of biotechnology modified organisms may have potential impacts on the environment. Therefore, USDA plans to prepare an Environmental Impact Statement (EIS) for the guidelines. Public hearings and document availabilities related to the EIS will be announced in the Federal Register.

65. RECAPTURE OF SECTION 502 RURAL HOUSING SUBSIDY

Significance: Agency Priority

Legal Authority: 42 USC 1490; 5 USC 301; 7 CFR 2.23; 7 CFR 2.70

CFR Citation: 7 CFR 2.23; 7 CFR 2.70

Legal Deadline: None

Abstract: The Farmers Home Administration (FmHA) proposes to revise the regulation for the recapture of subsidy granted on Section 502 Rural Housing Loans. This action is necessary because of an accounting system change resulting from the September 1987 congressionally mandated rural housing asset sale. The intended effect of this action is to adjust the formula to coincide with the revised method of applying monthly subsidy to interest credit accounts. In addition, this action will also shorten and simplify the recapture process.

68. PROPERTY MANAGEMENT

Legal Authority: 7 USC 1989; 42 USC 1480; 5 USC 301; 7 CFR 2.23; 7 CFR 2.70

CFR Citation: 7 CFR 1955

Legal Deadline: None

Abstract: Create a new Subpart D to cover liquidation of Single Family Housing (SFH) loans, and management and sale of SFH inventory property; and revise existing Subparts A, B, and C to have them apply to all programs other than SFH. Costs to create new subpart and revise and/or amend existing ones is minimal and would enhance all programs' ability to revise and/or amend the regulations with reduced clearances and provide personnel with clearer and simpler regulations to follow and implement. Will avoid "tie-up" of the regulations for one program subject to changes mandated by legislation or court order for another program, such as SFH changes being held up subject to Farmer Program changes being completed as has frequently been the case.

71. SECURITY SERVICING FOR MULTIPLE HOUSING LOANS

Legal Authority: 42 USC 1480

CFR Citation: 7 CFR 1930; 7 CFR 1944; 7 CFR 1965

Legal Deadline: None

Abstract: This regulation is being revised to provide clarification on the processing differences between membership changes and transfers, to broaden the ability to consolidate and reamortize loans, to clarify actions to be taken during a bankruptcy, and to clarify and discuss the classification of problem loans and their resolution, along with other minor revisions. These revisions are needed so as to provide more complete guidance to field staff and borrowers on the topics discussed above. Potential costs consist of administrative time involved with Agency personnel drafting and completing regulation. No alternatives were identified as being appropriate to address the several problems being corrected with this regulation.

80. SECONDARY MARKET FOR FARMER PROGRAM LOANS

Significance: Regulatory Program

Legal Authority: 7 USC 1988 Consolidated Farm and Rural Devel. Act (amendment); PL 100-233, Sec 711 Agricultural Credit Act of 1987

CFR Citation: 7 CFR 1980

Legal Deadline: Final, Statutory, July 6, 1988.
PL 100-233, Sec 711, states: "Within 180 days after the date of the enactment of this Act, the Secretary shall develop and promulgate final regulations to implement this section (cont)

Abstract: Legislation mandates that the Secretary develop procedures to facilitate, administrate and promote secondary market operations for FmHA guaranteed farm loans. It is suggested that the Secretary, directly or through a market maker, provide for the pooling of guaranteed loans and the issuance and sale of certificates backed by those loan pools. Through this procedure, secondary market activities could be promoted and expanded, thereby increasing the supply of loan money in rural areas – allowing rural banks to increase their lending activity to farmers, rural businessmen and residents. Obtaining the services of a private agent to act as a central registry and fiscal agent – coordinating fund flows from lenders to pool investors; handling pool formations and executions, issuance and ownership of pool shares, and monitoring of loan payments – is the favored alternative expected to successfully meet the legislative mandate. FmHA would act as the facilitator, arranging for the creation of this private market activity, (cont)

81. FARM LABOR HOUSING LOAN AND GRANT POLICIES, PROCEDURES, AND AUTHORIZATIONS

Legal Authority: 42 USC 1484; 42 USC 1486

CFR Citation: 7 CFR 1950 Subpart C

Legal Deadline: None

Abstract: The Farmers Home Administration (FmHA) proposes to amend its Farm Labor Housing regulations. This action is in response to the general public and FmHA staff requests for clarification of the Farm Labor Housing regulations. The intended effect is to provide more comprehensive guidance to applicants when applying for farm labor housing loans and grants: (1) make certain paragraphs consistent with other related parts and other housing regulations; (2) redefine terminology to ensure appropriate implementation of program eligibility standards; (3) incorporate provision of the Housing and Urban Recovery Act of 1983; housing amendments of 1984, 85 and 86; and (4) provide direction to FmHA State and District Office personnel through separate processing instructions.

82. PROCESSING AND SERVICING FMHA ASSISTANCE TO EMPLOYEES, RELATIVES AND ASSOCIATES

Legal Authority: 7 USC 1988, Sec 336b

CFR Citation: 7 CFR 1900 Subpart D

Legal Deadline: None

Abstract: FmHA Instruction 2045-BB, Employee Responsibilities and Conduct (available in any FmHA office), requires the maintenance of high standards of honesty, integrity, and impartiality by employees. Within the limitations of that instruction and specific program restrictions, FmHA employees, family members, close relatives and other associates are eligible to receive certain types of FmHA loan and grant assistance. To assure that employee conduct is above reproach, any processing, approval, servicing or review activity is conducted only by authorized FmHA employees who (1) are not themselves the recipient; (2) are not family members or close relatives of the recipient; (3) do not have an immediate working relationship with the recipient, the employee related to the recipient, or the employee who would normally conduct the activity; or (4) do have a business or close personal relationship with the recipient, the employee related to the recipient or the employee who would normally conduct the activity. Nothing in this instruction takes precedence over individual program requirements or restrictions.

91. FARM LABOR LOAN AND GRANT POLICIES, PROCEDURES, AND AUTHORIZATION

Legal Authority: 42 USC 1484; 42 USC 1486

CFR Citation: 7 CFR 1930 Subpart C; 7 CFR 1944 Subpart D

Legal Deadline: None

Abstract: Revision to incorporate provisions of Housing and Community Development Act of 1987 (PL 100-242) regarding the definition of "Domestic Farmworker," that determine the eligibility of such farmworkers to occupy housing financed under the Farm Labor Housing Program. Revisions also incorporate provisions of Omnibus McKinney Homeless Assistance Act of 1988 (PL 100-628) to permit other than farmworker occupancy when no demand by such persons.

93. DROUGHT AND DISASTER GUARANTEED LOANS

Significance: Agency Priority

Legal Authority: 7 USC 1988 Consolidated Farm and Rural Development Act; PL 100-387 Disaster Assistance Act of 1988, Sec 331

USDA—FmHA — Final Rule Stage

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: Sec. 331 of the Disaster Assistance Act of 1988 mandated that the Secretary of Agriculture guarantee loans made by private sector lenders to rural business entities which experienced losses or financial distress as the direct or indirect result of drought, hail, excessive moisture or related condition in 1988. The refinancing of existing loans is specified as an eligible purpose of such guaranteed loans. Farmers Home Administration modified its existing Business and Industrial (B&I) guaranteed loan program to implement the program mandated by the Disaster Assistance Act of 1988, using B&I rules as to eligibility, application, loan making, and loan servicing except where the statute requires otherwise.

95. ● ADVERSE DECISIONS AND ADMINISTRATIVE APPEALS FMHA INSTRUCTION 1900-B

Significance: Agency Priority

Legal Authority: 7 USC 1989; 42 USC 1480; 5 USC 301; 7 CFR 270

CFR Citation: 7 CFR 1900 Subpart B

Legal Deadline: Final, Statutory, July 1, 1987.
The Agency was required to implement the Act within 150 days of f its enactment on January 6, 1988.

Abstract: The Agency proposes to amend FmHA Instruction 1900-B, "Adverse Decisions and Administrative Appeals" to provide for multi-party appeal hearings for denials of leaseback/ buyback and homestead protection rights and the sale of suitable farmland to eligible applicants. No other alternatives are available since this action is necessary as a result of Section 611 of the Agricultural Credit Act of 1987, and will be published as an interim rule with comment period.

Federal Grain Inspection Service (FGIS) — Proposed Rule Stage

100. ● REGULATIONS UNDER THE UNITED STATES GRAIN STANDARDS ACT; REG. REVIEW

Legal Authority: 7 USC 71 to 87

CFR Citation: 7 CFR 800

Legal Deadline: None

Abstract: Under the requirements of Executive Order 12291 to periodically review all existing regulations, and USDA Departmental Regulation 1512-1 to conduct each such review within a five year timeframe, the Federal Grain Inspection Service will review its General Regulations under the United States Grain Standards Act. To simplify and promote a better understanding of policies and procedures, FGIS will be proposing changes to the regulations. Alternatives will be considered after receipt of public comments.

102. ● UNITED STATES STANDARDS FOR RICE

Legal Authority: 7 USC 1621 to 1627

CFR Citation: 7 CFR 68.201 to 68.316

Legal Deadline: None

Abstract: Waxy varieties of rice being grown in the United States are being downgraded under current rice standards because of their chalky characteristic. In the current market for this rice, the chalky characteristic is not a detriment. The Federal Grain Inspection Service will propose establishment of a subclass for this short grain rice to facilitate its marketing. Alternatives will be considered after receipt of public comments.

Legal Deadline: NPRM, Statutory, October 1, 1988.

BEST COPY AVAILABLE

VOL 54 ISS 208 OCT 30 1989 UMI

Retroactive for Fiscal Year 1985 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) revised the Food Stamp Act of 1977, as amended, specifying that Food Stamp Program quality control (QC) payment error rate (PER) liability appeals by State agencies be conducted by Administrative Law Judges. The use of Administrative Law Judges replaces the current appeal process which is conducted by the State Food Stamp Appeals Board. This regulation will delineate the procedures to be followed in these QC appeals. (88-011)

107. MISCELLANEOUS QC PROVISIONS OF HUNGER PREVENTION ACT OF 1988

Significance: Agency Priority

Legal Authority: PL 100-435, Sec 602; PL 100-435, Sec 604(1)

CFR Citation: 7 CFR 275

Legal Deadline: NPRM, Statutory, October 1, 1985.
Most of the changes are retroactive for Fiscal Year 1985 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) modified the Food Stamp Program quality control (QC) system provisions of the Food Stamp Act of 1977, as amended. Section 602 requires that State agencies be charged interest on unpaid QC payment error rate (PER) liability claims from the date the billing is received by the State agency, unless the State agency appeals the billing. If the State agency appeals, interest will begin to accrue from the date of the appeal decision or 2 years from the date the billing is received by the State agency, whichever is earlier. Section 604 revised the provisions for paying State agencies enhanced administrative funds for low PERs. It also revises the threshold for State agencies' liabilities for excessive payment error rates. Finally, it provides that PER liability claims will be assessed based on a State agency's total allotments issued, rather than as a percentage of administrative costs. (89-001)

108. ● SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN (WIC): FOOD DELIVERY SYSTEMS

Significance: Agency Priority

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 246

Legal Deadline: None

Abstract: The proposed food delivery regulations will strengthen and improve vendor management and food instrument accountability. Vendor management areas addressed include: selection,training, high-risk identification and monitoring, sanctions, and appeals. Among the additional areas covered are: dual participation, food instrument reconciliation, and food instrument security. The proposed changes are being made in response to a recent audit by the Office of the Inspector General, and program deficiencies identified through management evaluations and ongoing contact with State agencies. This regulation will control potential program vendor and participant abuse and result in more efficient use of program funds.

CFR Citation: 7 CFR 250

Legal Deadline: None

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule outlines the responsibilities of the Food and

Nutrition Service and State agencies concerning the distribution of USDA-donated foods acquired under various legislative authorities. The rule prescribes the terms and conditions under which donated foods may be obtained through distributing agencies for use in schools, child care institutions, nonprofit summer camps for children, charitable institutions, nutrition programs for the elderly, and otherwise in the assistance of needy persons. A number of provisions to strengthen and improve the State Processing Program were separated and published in a final rule July 1, 1986. (51 FR 23719) (FNS 84-513)

112. EMPLOYMENT AND TRAINING REQUIREMENTS TECHNICAL CORRECTIONS PROPOSED RULE

Significance: Regulatory Program

Legal Authority: The Food Stamp Act of 1977, as amended; 7 USC 2011 to 2029

CFR Citation: 7 CFR 273.1; 7 CFR 273.7

Legal Deadline: None

Abstract: The proposed rule will clarify several aspects of the Food Stamp Program Employment and Training Rule published December 31, 1986, and will accomplish minor corrections in other portions of this rule. The clarifications and corrections are the result of program experience gained through the initial operations of a program component entirely new to the Food Stamp Program as a whole.

The Department is concerned that current regulations may be inequitable to State by mandating that they use the full October 1988 count of mandatory E&T participants in computing the base on which the Fiscal Year 1989 first reporting period 35 percent E&T placement standard will be applied. This procedure inflates State placement obligations for this period and makes it difficult for them to meet these obligations. The Department is also concerned that current regulations permit States agencies some latitude in counting individuals as "placed" in E&T programs for performance measurement purposes. This results in individuals being counted as "placed" in E&T programs more than once and inflates State placement success rates. This proposed rule implements (cont)

113. SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENTS

Significance: Regulatory Program

Legal Authority: PL 99-603; Immigration Reform and Control Act (IRCA) of 1986 (Section 121)

CFR Citation: 7 CFR 271; 7 CFR 272; 7 CFR 273; 7 CFR 275; 7 CFR 277

Legal Deadline: Other, Statutory, October 1, 1988.
Deadline for interim final rule

Abstract: This rule establishes procedures for State agencies to use to participate in the Systematic Alien Verification for Entitlements (SAVE) system. As required by IRCA, the Immigration and Naturalization Service (INS) implemented this system. IRCA requires the Food Stamp Program (FSP) and certain other entitlement programs to use SAVE to verify the immigration status of aliens applying for benefits. Such use is mandatory by October 1, 1988, and this addresses use during that period. The rule also provides guidelines for Federal reimbursement of administrative costs. In addition the rule implements nondiscretionary provisions of IRCA requiring all household members to attest to their citizenship or alien statusand certain requirements relating to documentation of alien status. 114. CHILD CARE FOOD PROGRAM - ADULT DAY CARE PROVISION

Significance: Agency Priority

Legal Authority: 42 USC 1758; 42 USC 1759a; 42 USC 1762a; 42 USC 1765; 42 USC 1766

CFR Citation: 7 CFR 226

Legal Deadline: None

Abstract: The rule amends the Child Care Food Program (CCFP) regulations by providing Program eligibility for certain adult day care centers. It implements a provision of the Older Americans Act (OAA) Amendments of 1987, which allows these centers to receive cash and commodity assistance available unde- the CCFP for meals served to eligible enrolled individuals and a provision of the Rural Development, Agriculture and Related Agencies Appropriations Act of 1988, which provides categorical eligibility for free meals for participants of these centers who receive assistance under Title XVI or XIX in the Social Security Act or are members of a household receiving assistance under the Food Stamp Act and defines the income to be included in determining eligibility for free and reduced-price meal benefits. 115. ● EMPLOYMENT AND TRAINING REQUIREMENTS - NONDISCRETIONARY PROVISIONS FROM THE HUNGER PREVENTION ACT OF 1988

Significance: Agency Priority

Legal Authority: PL 100-435

CFR Citation: 7 CFR 272; 7 CFR 273

Legal Deadline: Other, Statutory. Sec. 404(c) of PL 100-435 is effective July 1, 1989. The Remaining provisions are effective October 1, 1988.

Abstract: This interim rule amends Food Stamp Program regulations to implement certain provisions of the Hunger Prevention Act of 1988, Public Law 100-435, 102 Stat.1645 (1988). These provisions are intended to improve the operation of the Food Stamp Employment and Training (E&T) Program by: (1) a clarification that educational programs or activities to improve basic skills or employability are allowable food stamp E&T activities; (2) the establishment of a conciliation procedure to resolve disputes involving participation in the E&T Program; (3) increasing the reimbursement for dependent care costs under the E&T Program to up to $160 per dependent per month; (4) the exclusion of any payment made to and E&T participant for work related expenses or for dependent care from consideration as income under the Food Stamp Program; (5) a clarification that Federal funds made available to a State agency for an educational component cannot be used to supplant non-Federal funds for existing services and activities that promote the purposes of that component;(cont)

126. CERTAIN PRODUCTS WITH MEAT INGREDIENTS – EXEMPTIONS FROM DEFINITION OF A "MEAT FOOD PRODUCT"

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 301; 9 CFR 303

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to exclude specific products and classes of products containing meat, meat byproducts, and/or meat food products from the definition "meat food product" and thereby would exempt these products from Federal inspection. The proposal identifies two broad conditions for exemption: (1) products containing 3 percent or less of raw meat or other portion of any carcass, or less than 2 percent of cooked meat or other portion of any carcass, and (2) products that historically have not been considered by consumers as products of the meat food industry. This proposal would replace current informal standards for exemptions with formal, codified exemptions.

127. ADDITIONAL TRICHINA DETECTION METHODS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This proposed rule would amend the regulations to permit use of an approved method for examining swine for evidence of trichinosis. The Food Safety and Inspection Service (FSIS) has been petitioned by a manufacturer of serological tests to amend the Federal meat inspection regulations to approve the use of immunoassays for the examination of swine for evidence of trichinosis infection. FSIS has reviewed the performance of the petitioner's assay in a laboratory where sera prepared by the Agency were tested by a precisely defined procedure and has concluded that immunoassays can effectively detect evidence of trichinosis in swine.

130. REQUIREMENTS FOR THE PRODUCTION OF FERMENTED SAUSAGE

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to establish specific requirements concerning processing procedures used in the production of semi-dry and dry fermented sausages. Currently, the Agency has only general requirements concerning the processing procedures for these products. This proposal will provide that a manufacturer of semi-dry and/or dry fermented sausages use either a model good manufacturing practice (GMP) procedure with specified or described critical control points, process control limits, and monitoring activities; or an approved processing procedure from a processing authority who would define the critical control points, process control limits, and monitoring activities for each processing procedure. In addition, the proposal requires that all processes for semi-dry and/or dry fermented sausages comply with a set of validation criteria to assure the product is not adulterated. The proposed rule provides the necessary processing requirements to assure that the production of fermented meat food products does not result in adulterated products.

138. LABELING OF FRANKFURTERS AND SIMILAR PRODUCTS CONTAINING BINDERS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 319; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to remove labeling requirements and use limitations required for certain binders in sausage, breakfast sausage, frankfurters, cheesefurters, bockwurst, similar products, and poultry rolls. This

VOL 54 ISS 208 OCT 30 1989 UMI

proposed rule would also request information from interested persons as to whether granting the petition would result in false or misleading labeling or permit the use of binders in excess of what is needed to "bind" the products.

139. SUBSTANCES APPROVED FOR USE IN MEAT PRODUCTS – REVISION OF LISTINGS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to reorganize the table of approved substances in an alphabetical order by the substance name rather than by class of substance, to include substance approvals not listed as well as amend individual product standards, and separate those substances approved for use as processing aids into a second chart. This proposed rule will assist the user in locating a substance more quickly and provide more consistency in using the table, update the regulations to reflect existing policies and current industry practices, and provide clarity to the chart of substances.

140. IMPORTED PRODUCT; MOVEMENT PRIOR TO REINSPECTION

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations by restricting the movement of imported product to within one of five geographical port areas where the product is unloaded. FSIS is also proposing to amend the regulations to require that such imported product be transported directly to an import inspection establishment from the place that the product is unloaded and that such product be reinspected within 30 days of its arrival in the United States. These actions are expected to increase FSIS's ability to gain and maintain control over imported meat and poultry products prior to their reinspection by FSIS.

141. REVISION OF REQUIREMENTS FOR FINISHED PRODUCT INSPECTION

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to permit early shipment of shelf-stable products subject to incubation and to reduce the sampling frequency for product processed in continuous-type processing systems. There actions are a result of petitions submitted by the National Food Processors Association, Washington, DC.

142. REVIEW OF RETAIL STORE INSPECTION EXEMPTIONS

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 303; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to remove all provisions relating to sales of retail-prepared products to hotels, restaurants, and institutions, but allow unlimited resale of federally inspected product that has not undergone further processing; redefine "consumer" as a household consumer only; limit retail store operations to specific processes and products associated with minimal health risks; remove restrictions on the quantity of sales to consumers; allow unlimited product distribution by a retail store to other retail stores of the same ownership; require that distribution of products be made by employees of the retail store without any intervening transfer or storage of such products; and require that an exempted retail area be physically separated from an official establishment or, if within the confines of an official establishment, the retail area shall be separated completely from the official establishment by full height floor-to-ceiling walls. A task force reviewed the exemption provisions of the Federal Meat and Poultry Products Inspection Acts as a result of a District Court (cont)

143. PROCESSING REQUIREMENTS FOR DRIED READY-TO-EAT MEAT AND POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to require establishments to treat certain dried, ready-to-eat meat and poultry products to eliminate microbial contamination. Past food-poisoning outbreaks from dried meat products confirm that present processing requirements do not assure that the finished product is free from contamination by salmonellae. Treatment would assure the destruction of infectious disease bacteria, such as Salmonella, often present on the raw ingredients. The proposed rule would cover all dried ready-to-eat meat and poultry products except fermented sausages and dry cured hams and pork shoulders treated by one of the processing methods in section 318.10(c)(3) (ii), (iii), or (iv) of the Federal meat inspection regulations. The required treatment would either be a lethal heating step, a combination curing and heating process, or an alternate processing method which establishments have shown to be effective. The proposed rule would also contain provisions to prevent contamination of treated product by direct or indirect contact with untreated product.

144. ANTE-MORTEM INSPECTION OF DISABLED ANIMALS ON TRANSPORT VEHICLES

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 309; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to permit an alternate method of ante-mortem inspection of disabled animals. This method would allow a transport vehicle to be an extension of an official establishment's premises for purposes of ante-mortem inspection of disabled animal(s) that are within the vehicle. FSIS received a request from the Western States Meat Association, Oakland, California, to allow ante-mortem inspection of disabled animals to be performed on a transport vehicle. This proposed rule would (1) specify establishment responsibilities for maintaining control over the transport vehicle, for providing proper ante-mortem inspection facilities, for complying with the veterinary disposition, and for providing assistance to the veterinary Medical Officer when performing the ante-mortem inspection; (2) prescribe the facility requirements needed for safe ante-mortem inspection of disabled animals; and (3) provide the requirements for the written request for this inspection.

145. JAR CLOSURE REQUIREMENTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to revoke the requirements for vacuum packaged meat and poultry products in glass containers. FSIS was petitioned by the National Food Processors Association, Washington, DC, to revoke jar closure regulations that are no longer necessary to prevent contamination of products packed in glass containers. This action would be consistent with the requirements of the Food and Drug Administration for nonmeat products.

146. EXEMPTION FROM "EQUAL TO" REQUIREMENTS

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide administrative procedures whereby a foreign country may petition FSIS to be exempted from certain specified inspection requirements. FSIS has received several requests for exemption from specific regulations and procedures to assure that the foreign inspection program will maintain its eligibility to export product to the United States. Present meat and poultry products inspection regulations do not contain a procedure that advises how such requests should be made. Exemption requests are received in various forms and with a variety of information included, and as a result unnecessary time and effort is expended to develop an exemption request in the proper form for consideration. This action will provide a procedure for the submission of exemption requests from countries exporting product to the United States and to permit a timely Agency response.

147. FOOD ADDITIVES AND GRAS SUBSTANCES USED AS INGREDIENTS IN MEAT FOOD AND POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to simplify the procedures by which FSIS approves food additives and Generally Recognized as Safe (GRAS) substances to be used as ingredients in meat food products and poultry products. The proposed rule will be developed in cooperation with the Food and Drug Administration to make the Federal regulation of food additives and other substances that may be used as ingredients in meat food and poultry products more efficient and uniform.

148. STREAMLINED INSPECTION SYSTEMS WITH CARCASS AND GIBLET FINISHED PRODUCT STANDARDS (POULTRY)

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the poultry products inspection regulations to merge the requirements for the new turkey inspection system, new line speed inspection system, streamlined inspection system and traditional inspection into two mandatory methods to be known as streamlined inspection system-poultry and streamlined inspection system/partial quality control-poultry. The finished product standards for carcasses and giblets would be amended to include all classes of poultry. This proposal would describe the facility requirements necessary to implement this new system nationally, and would establish national presentation standards and line speeds for each class of poultry.

149. EXPORT CERTIFICATION PROCEDURES

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 322

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to provide export certification of all meat and poultry products exported to foreign countries. Domestic inspectors certify that the product is USDA inspected and passed, and that all foreign requirements have been met. In 1988, the Agency conducted a pilot test to determine the feasibility of streamlining export certification procedures by centralizing control; utilizing contemporary communications technology; establishing plant review criteria; and modifying stamping requirements. The export certification project, of which the pilot was a part, will continue in 1989. FSIS will review the current regulations and determine what, if any, changes should be considered from the outcome of this project.

150. ● ADDITIONAL SUBSTANCES FOR USE IN THE PREPARATION OF MEAT AND/OR POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to permit the use of sodium octyl sulfate, potassium hydroxide, sodium 2-ethylhexyl sulfate, sodium acid pyrophosphate, urea, carboxylmethylcellulose, sodium metasilicate, and triethanolamine dodecylbenzene sulfate in the preparation of meat and/or poultry products. FSIS received petitions from Packer's Chemical Company, Jefferson City, MO; Unytex Research Corporation, Rochester, NY; Birko Corporation, Westminister, CO; and Middle East/African Press (Chemica Industriale, Italy), to allow the use of those substances not presently covered for use during hog scalding, poultry scalding, or in tripe processing operations.

151. ● PEST CONTROL IN OFFICIAL ESTABLISHMENTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 308; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide consistency of existing provisions and ensure enforceability of the requirements for controlling pests such as flies, rodents, insects, and vermin in official establishments. In the past, establishments used pesticides as the primary means of controlling pests. Presently, establishments rely on the use of primary controls to prevent pests from entering an establishment; that is, they use such techniques as preventive construction, maintenance and sanitation. This action would also provide uniform requirements for both meat and poultry products regarding the use of the words "pesticides" and "poison," and the use of other chemical compounds as a means for eliminating or controlling pests in official establishments.

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 329; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to issue new procedures for preparing and processing the Agency's "Preliminary Notice of Detention" Form MP-479 and to revise the form numbers for the detention tags and reports. Currently, upon detention of any article, FSIS provides oral notification and a Preliminary Notice to the owner of the detained article. Preliminary notice would be eliminated but, if the detention is to continue after 48 hours, written notification would be furnished to the owner in the form of a completed "Notice of Detention," FSIS Form 8080-1 (MP-484).

158. ● IMPORTED PRODUCT; WITHDRAWAL OF PANAMA FROM THE LIST OF COUNTRIES ELIGIBLE FOR IMPORTATION OF MEAT PRODUCTS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 327

Legal Deadline: None

Abstract: This rule will amend the Federal meat inspection regulations to withdraw the country of Panama from the list of countries eligible to import meat products such as cattle, sheep, swine, and goats into the United States. This action is necessary since Panama did not certify that any plants met U.S. standards in 1988; it has not conducted any residue testing and therefore did not receive residue certification in 1988, and reliance cannot be placed upon the certifications required of Panamanian authorities under the Federal Meat Inspection Act. Therefore, Panama's inspection system cannot be considered "equal to" the U.S. inspection system and FSIS is obliged to withdraw the country of Panama from the list of countries eligible for importation of its products into the United States.

160. CATTLE POST-MORTEM INSPECTION PROCEDURES AND STAFFING PROCEDURES

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 307; 9 CFR 310

Legal Deadline: None

Abstract: This rule will improve post-mortem inspection procedures for cattle which will result in maximum inspection efficiency and increased productivity. By modernizing cattle inspection procedures, FSIS would increase its inspection productivity while assuring that only wholesome meat enters domestic commerce.

It is anticipated that the meat industry will experience a net gain if this system of inspection is implemented in spite of the initial costs of facility modifications which may be necessary in some establishments. Savings to the industry as a whole should occur because of increased productivity and reduced overtime.

162. INGREDIENTS THAT MAY BE IDENTIFIED AS FLAVORS OR NATURAL FLAVORS WHEN USED IN MEAT AND POULTRY PRODUCTS

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations to better define which substances should be permitted to be labeled as "flavors," "natural flavors," or "spices" on packages of meat and poultry products. This rule addresses the use of substances which are often added to products for the purpose of serving as flavor enhancers, emulsifiers, stabilizers, binders, extenders, and as nutrients. Most of the substances that would be affected by the proposed rule are proteinaceous materials, having nutritional value, and which may be considered foods, in their own right. This rule will require that these substances be identified by their common or usual names, thereby informing consumers of the origin of these materials including the species and specific animal tissues from which they are derived, if animal in origin. The rule is designed in part to address the personal, cultural, and religious

concerns of consumers, as well as the allergies or sensitivities some consumers may have to some of the substances.

163. REQUIREMENTS FOR FOREIGN COUNTRY IMPORT CERTIFICATION AND LIVE ANIMAL IMPORTATION

Legal Authority: PL 99-198

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will respond to amendments made to the Federal Meat Inspection Act by the Food Security Act of 1985. The amendments require that FSIS periodically certify residue control programs submitted by foreign countries desiring to export meat products to the United States. The amendments also provide the Secretary with the authority to issue an order prohibiting the importation of livestock for immediate slaughter that have been administered a drug or antibiotic banned for use in the United States.

164. TRICHINA CONTROL REQUIREMENTS FOR DRY-CURED HAM

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations by incorporating the dry-cured ham research study findings. This study evaluated the efficiency of present procedures in the commercial production of dry-cured hams and determined the combinations of curing time, temperature, salt concentration, and water activity necessary to inactivate t. spiralis.

165. ● REQUIREMENTS FOR IMPORTED POULTRY PRODUCTS

Significance: Agency Priority

Legal Authority: PL 99-198

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This rule will respond to an amendment made to the Poultry Products Inspection Act by Food Security Act of 1985. Amendment requires that all poultry or poultry products intended for export to the United States be subject to the same standards as domestic poultry products; it also requires that foreign countries implement species and residue testing programs at the point of slaughter for poultry and poultry products intended for export to the United States.

166. SULFONAMIDE AND ANTIBIOTIC RESIDUES IN YOUNG VEAL CALVES; CERTIFICATION REQUIREMENTS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 309; 9 CFR 310

Legal Deadline: None

Abstract: This rule will require specific certification language, advise certifying parties of the consequences of false statements, and include custodians as well as producers as parties to certification. These changes will improve the effectiveness of the voluntary certifications by providing uniformity to certifications and warnings about false statements. Because of increasing high levels of antibiotic and sulfonamide residues found in young veal calves, the Food Safety and Inspection Service in 1984 initiated intensified inplant testing procedures to prevent adulterated meat from entering consumer channels. These procedures provide for a voluntary written certification program that allows for less intense testing of calves certified as not having been treated with drugs, or if so, that prescribed label directions were followed. More recently the Office of the Inspector General recommended that the Agency develop a standard form for the certified calf program.

167. USE OF CERTAIN BINDERS IN MEAT AND POULTRY PRODUCTS AND TRANSFER OF BINDERS IN TEXT TO THE TABLES OF APPROVED SUBSTANCES

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq

CFR Citation: 9 CFR 318; 9 CFR 319; 9 CFR 381

Legal Deadline: None

Abstract: This rule will permit the use of wheat gluten, tapioca dextrin, whey protein concentrate, and sodium caseinate as binders in various meat and poultry products. This action responds to petitions submitted by several companies requesting that the Food Safety and Inspection Service permit these substances in various meat and poultry products to improve the texture of the products.

168. IMMERSION CURED AND DRY CURED BACON

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This rule will limit nitrate to 120 parts per million (ppm) going into immersion cured bacon bellies and to 200 ppm going into dry cured bacon bellies. The principal effect of this rule would be to reduce the formation of nitrosamines in bacon by prohibiting the use of nitrate in the production of immersion cured and dry cured bacon.

170. NET WEIGHT

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This rule will make Federal and State weights and measures procedures and techniques more consistent, objective and equitable. USDA will adopt the National Bureau of Standards Handbooks 133 and 44 as its standards. This amendment will recognize a fixed amount of acceptable moisture loss by product. This will replace the term "reasonable variation." Moreover the amendment will grant concurrent jurisdiction to State and local authorities to enforce net weight labeling of federally inspected meat and poultry products within their geographic area. The amendment will promote uniform treatment of moisture loss and weights and measures standards as well as encourage and enable greater State and local participation.

171. LABELING OF MEAT FOOD PRODUCTS THAT CONTAIN MECHANICALLY SEPARATED (SPECIES) UNDER CERTAIN CIRCUMSTANCES

Significance: Agency Priority

VOL 54 ISS 208 OCT 30 1989 UMI

USDA—FSIS

Final Rule Stage

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 317

Legal Deadline: None

Abstract: This rule will add a new exception to the requirement that the list of ingredients on the labels of meat food products shall show the common or usual names of the ingredients. The exception would apply to the use of Mechanically Separated (Species) (MS(S)), at levels no greater than ten percent of the livestock and poultry product portion of a meat food product, providing that the labeling of such product bear a calcium content declaration in accordance with section 317.2(j)(13)(ii) of the Federal meat inspection regulations (9 CFR 317.2(j)(13) (ii)). This action is the result of a petition submitted to the Food Safety and Inspection Service by several members of the meat industry to amend the labeling requirements for meat food products containing MS(S).

172. BINDER CONSISTING OF SODIUM ALGINATE, CALCIUM CARBONATE, LACTIC ACID AND CALCIUM LACTATE IN GROUND AND FORMED POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This final rule will amend the poultry products inspection regulations to permit the use of a binder matrix in ground and formed poultry products. The matrix consists of a dry mixture of sodium alginate, calcium carbonate, calcium lactate and lactic acid and has been previously approved for use in meat products. FSIS has been petitioned by the Colorado State University Research Foundation, Fort Collins, Colorado, to approve these substances as ingredients which, in combination at specific ratios, have the technical effect of binding ground poultry pieces together to produce formed poultry products. FSIS is amending the regulations to add these substances to the table of approved substances as requested by the petitioner.

173. PROCESSING PROCEDURES AND COOKING INSTRUCTIONS FOR COOKED, UNCURED MEAT PATTIES

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This rule will provide processors of fully and partially cooked, and char-marked, uncured meat patties with specific manufacturing, handling, and labeling requirements for these products to reduce the potential for incidents of food-borne, pathogen-caused illness from consumption of inadequately cooked, uncured meat patties. This rule will also establish (1) holding temperature and time requirements for raw meat used for cooked, uncured meat patties; (2) internal temperature and time combination processing requirements for fully and partially-cooked, uncured meat patties which are char-marked with heat but remain raw; (3) a requirement that a cooking instruction be placed on the label of partially-cooked and char-marked, uncured patties, instructing the final preparer to cook the patties to a well done state (a minimum internal meat temperature of 160 degrees Fahrenheit); and (4) requirements to assure that fully-cooked, uncured meat patties are not contaminated after cooking. This action will prevent instances of illness from the consumption of such patties.

175. PFF FOR TURKEY HAM

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the poultry products inspection regulations to permit the use of added water in turkey ham. The new standard provides for several categories of products that are delineated according to the protein content on a fat-free basis. FSIS was petitioned by the National Turkey Federation, Reston, Virginia, to establish protein fat-free values for turkey ham to promote product standardization and permit producers of turkey ham to compete more equitably with pork producers. This rule will replace the current provision which limits the amount of added water and other substances contained in turkey ham products by requiring the weight of the finished product to be no more than the original weight of the turkey thigh meat used prior to curing.

176. IMPORTATION OF LIVESTOCK CARCASSES WITH TISSUES REMOVED

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 327

Legal Deadline: None

Abstract: This rule will amend the Federal meat inspection regulations to remove the requirements prohibiting the importation into the United States of carcasses or parts of carcasses of livestock from which the pleura, peritoneum, body or portal lymph nodes are removed. These carcasses or parts would be imported based on the eligibility of the exporting countries, and whether they are wholesome, not adulterated and properly marked and/or labeled. This action is in response to a petition submitted by Cloverdale Foods Company, Minot, North Dakota.

178. DEFINITION OF TERMS — "IMPORTATION" AND "ENTRY"

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations to define the terms "importation" and "entry" to clarify when imported product becomes subject to U.S. requirements. Once product offered for importation has been reinspected by FSIS inspectors and the official mark of inspection has been applied, FSIS considers that such product has been entered into the U.S. and is the regulatory equivalent of domestic product. This action is a result of recent litigation which indicated the need for clarification of terms with respect to USDA's interpretation of provisions of the Federal Meat Inspection Act and the regulations thereunder concerning at what point FSIS considers imported products to be domestic products.

179. IMPORTED CANADIAN PRODUCT; PROVISION FOR "STREAMLINED" INSPECTION PROCEDURES; EXEMPTION FROM OFFICIAL MARK OF INSPECTION

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations to provide "streamlined" inspection procedures for the reinspection of Canadian meat and poultry products and by exempting Canadian meat and poultry products offered for importation from the requirement that such product and/or containers of product be marked with the official mark of inspection once they are passed for entry into the United States. These actions stemmed from the Canada-United States Free Trade Agreement Implementation Act of 1988, Pub. L. 100-449. These actions specifically responded to one goal of the Agreement whereby both countries are charged with liberalizing agriculture trade practices by seeking ways to eliminate technical or procedural requirements which now may serve to impede trade in agricultural products.

187. WHISKEYTOWN-SHASTA-TRINITY NATIONAL RECREATION AREA

Legal Authority: 16 USC 472; 16 USC 551

CFR Citation: 36 CFR 292, Subpart B

Legal Deadline: None

Abstract: The rules at 36 CFR 292, Subpart B govern joint administration of the Shasta and Clair Engle-Lewiston units of the National Recreation Area by the Forest Service and the Bureau of Reclamation. The rules also set forth standards for defining compatible private land uses within the National Recreation Area to govern decisions by local zoning authorities, or in the absence of such authorities, decisions on land uses by the Secretary of Agriculture. The review will focus on experience under the rules and whether they still serve the public interest in ensuring that development and management of the NRA meet Congressional intent.

Legal Authority: Sec 1, 30 Stat 35; Sec 1, 33 Stat 628; Sec 1, 39 Stat 476; 16 USC 472, 551, 683

CFR Citation: 36 CFR 241

Legal Deadline: None

Abstract: This rule is being reviewed as required by USDA Departmental Regulation 1512-1.

36 CFR 241.1 describes Forest Service cooperation with State, County and Federal officials in the enforcement of all laws and regulations for the protection of wildlife. Forest Service employees may be appointed as deputy game wardens with full power to enforce State laws and regulations.

36 CFR 241.2 describes how Forest Service cooperates with States in developing plans for securing and maintaining desirable populations of wildlife species including entry into cooperative agreements for such purposes.

36 CFR 241.3 regulates hunting of game or non-game animals on Forest Service lands not managed cooperatively with States. Persons desiring to hunt on this land must procure a permit. The Forest Service will cooperate with persons, firms, corporations and county and State officials in the management of animals on national forest lands not having cooperative agreements for wildlife management with States. The Forest Service may sell or exchange or accept donations of animals in (cont)

189. ISOLATED CABIN POLICY

Significance: Agency Priority

Legal Authority: 16 USC 551; 16 USC 497

CFR Citation: None

Legal Deadline: None

Abstract: Agency policy is to terminate isolated cabin authorizations on National Forest System land that were constructed without advance authorization and subsequently authorized by special use permit. These cabins are used for part- or full-time occupancy. These cabins differ from recreation residences which were established in tracts specific for this purpose and built with Agency approval and supervision. Isolated cabins originated in several ways, including encroachment and mining claims. They restrict management of the surrounding National Forest land and deprive the public from the use and enjoyment of the land actually occupied and the surrounding area. The action proposed is to seek input from the public as to whether the present policy should be continued, or whether it should be revised so as to examine each isolated occupancy and determine whether, in the interests of fairness and equity, the cabin should be converted to a recreation residence. (cont)

Additional Information: ABSTRACT CONT: This proposal to revise current policy was originally included in proposed policy on recreation residences (52 FR 206-208). Public comments and continuing discussions with recreation residence permittees on that policy revealed widely divergent views on the Agency's policy, strongly suggesting that isolated cabins be treated separately from recreation residences. Therefore, so as not to delay implementation of final policy on recreation residences, a decision was made to seek additional public comment on the isolated cabin policy before a decision is made to revise the policy.

192. SPECIAL AREAS

Legal Authority: Sec. 1, 30 Stat 35, as amended; 62 Stat 100; Sec. 1, 33 Stat 628; 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 294.1

Legal Deadline: None

Abstract: The agency will undertake a review of its existing regulations at 36 CFR 294.1 that provide for the setting aside of areas of National Forests, other than Wilderness or wild areas, which should be managed principally for recreation. The rule establishes size classes for areas that may or may not be designated by the Chief of the Forest Service and the Secretary of Agriculture; describes examples of the types of areas that might be set aside, and provides for clearly marking these areas on the ground. Areas classified under this section are set apart and reserved for public recreation use and such classification constitutes a formal closing of the area to any use or occupancy inconsistent with the classification.

193. ● RECREATION RESIDENCE AUTHORIZATION POLICY

Significance: Agency Priority

Legal Authority: 16 USC 497

CFR Citation: 36 CFR 251

Legal Deadline: None

Abstract: The policy for administering recreation residences on National Forest lands was adopted August 16, 1988 (53 FR 30924) and subsequently appealed under the administrative appeal process (36 CFR 211.18). In rendering his decision on the appeal the Assistant Secretary of Agriculture for Natural Resources and Environment suspended certain provisions related to tenure and the offering of in-lieu sites; designated the remaining features interim policy; and directed the Chief of the Forest Service to review and reconsider the entire policy (54 FR 23499: June 1, 1989). The policy is being reconsidered and alternatives are being developed. The purpose of the policy is to improve the administration of recreation residence permits and implement a revised fee schedule that obtains fair market value for the use. The policy affects about 15,600 permittees.

194. SUSPENSION AND DEBARMENT OF TIMBER PURCHASERS, 36 CFR 223, SUBPART C

Significance: Agency Priority

Legal Authority: PL 94-588, Sec 14; 16 USC 472a

CFR Citation: 36 CFR 223, Subpart C

Legal Deadline: None

Abstract: Currently, suspension and debarment of timber purchasers means the debarred entity is prevented from bidding or being awarded Forest Service timber sale contracts. Recently, suspended and/or debarred purchasers have been serving as subcontractors on Forest Service timber sale contracts, or acting as purchaser's representatives to receive notices and to take action on contracts. This has the effect of negating the suspension/debarment action, which is to protect the Government. The rule will be revised to prevent suspended and/or debarred purchasers from serving as subcontractors or purchaser representatives.

195. FINANCIAL SECURITY OF NATIONAL FOREST SYSTEM TIMBER SALE CONTRACTS

Legal Authority: 16 USC 472a; 16 USC 616

CFR Citation: 36 CFR 223.52; 36 CFR 223.50

Legal Deadline: None

Abstract: The Federal Timber Sale Contract Payment Modification Act directs the Forest Service to require purchasers to make down payments and periodic payments on timber sales. The objective of these requirements is to discourage speculative bidding on National Forest System timber sales. A rule published 10/11/85 at 50 FR 41496 requires cash down payments and a midpoint payment. However, to fully comply with the Act, additional rules are required. This rule will identify the requirements for down payments, periodic payments, and market-related contract term additions. This rule will eliminate discounting and the requirement to hold a down payment until the last timber is removed. Based on comments received the agency has decided to issue a new proposed rule. In addition, the Government's position with respect to performance bonds will be strengthened by elimination of the $500,000 ceiling; providing for two-track bonding procedures, i.e. 20 percent upfront bond with reduction in amount as purchaser harvests; increasing the bid guarantee to 10 percent of the advertised value; assessing damages in the amount of bid guarantee or the difference between bid (cont)

Legal Authority: 7 USC 1011; 16 USC 472; 16 USC 551; 16 USC 572; 16 USC 580g; 16 USC 580h; 16 USC 580l; 16 USC 1600 et seq; 31 USC 9701; 43 USC 1901 to 1908; 43 USC 1751; 43 USC 1752

CFR Citation: 36 CFR 222, Subpart A

Legal Deadline: None

Abstract: Minor amendments to 36 CFR 222, Subpart A are under consideration to eliminate unnecessary sections, include currently used policies and procedures, and revise the remaining regulations making them clearer and easier for the public and Agency personnel to use. The proposed regulations (1) clarify the definitions of excess livestock and unauthorized use rate; (2) remove the rule for grazing advisory boards; (3) establish requirements or procedures for minimum permit size, eligibility related to compliance with permit terms, permits for livestock use in vegetation management, valuing range improvements when livestock grazing is eliminated, charging a fee for processing actions initiated or caused by a permittee or applicant, and association meeting frequency of a least 1 every 12 months; (4) authorize, in the Eastern States, crediting permittees for specified range improvements when determining grazing fees and a waiver of base property and livestock ownership requirements on developing ranges; (5) incorporate currently used policies and procedures for escrow waivers, association member grievances, permit cancellation or (cont)

Additional Information: ABSTRACT CONT: suspension for excess use, charges for excess use, requests for information for evaluating grazing applications and action on apparent violations of permit terms.

On August 16, 1988, a proposed rule was published in 53 FR 30954. In response to comments received a second proposed rule is being issued. The dates projected are for proposed and final rules revising 36 CFR 222, Subpart A-grazing and livestock use. No further rulemaking activity is planned on Subpart B. The review of Subpart B pursuant to EO 12291 concluded that there was no need to revise these rules (See Timetable).

197. SPECIAL-USE APPLICATIONS AND ADMINISTRATION OF SPECIAL-USE AUTHORIZATIONS

Significance: Regulatory Program

Legal Authority: 43 USC 1764; 31 USC 483a; 30 USC 181 Mineral Leasing Act; 16 USC 551

CFR Citation: 36 CFR 251, Subpart B

Legal Deadline: None

Abstract: The objective of this rulemaking is to conform the rule to the requirements of 3 laws approved since the regulation was revised in 1980. These laws include special provisions for authorizing irrigation and livestock watering facilities constructed prior to

1976, electrical and telephone facilities financed pursuant to the Rural Electrification Act of 1936, and special uses in Alaska. In addition, the proposed rulemaking will clarify applicant responsibilities for providing data and studies needed to process a special use application and will provide for the advanced payment of land use rental fees for longer time periods, including the life of the special use authorization. That portion of this action relating to collection of reimbursable costs for processing special use applications is being deferred and will be addressed as a new action in a future agenda. For other changes affecting special use applications and authorization of special uses, see Agenda entry # (RIN 0596-AA20).

198. PROHIBITION ON MECHANICAL TRANSPORT AND OTHER ACTIVITIES IN WILDERNESS

Legal Authority: 16 USC 113 to 136; 16 USC 528 to 531; 16 USC 577 to 577c; 16 USC 1133

CFR Citation: 36 CFR 293.6(a); 36 CFR 261

Legal Deadline: None

Abstract: Except where specifically provided for, the Wilderness Act (16 USC 1133) prohibits both motorized equipment and mechanical transport. Mechanical transport includes devices such as bicycles, hang gliders, wheeled carts, and other items designed to carry people or supplies and powered by either "non living" or "living" power sources. The objective of this action is to clarify the definition of mechanical transport in 36 CFR 293.6(a) and to make corollary revisions in the prohibitions applicable to wilderness use, including prohibiting competitive events and expanding the definition of aircraft to include hang gliders, parachutes and parasail (FS 86-009)

200. SMALL BUSINESS TIMBER SALE SET ASIDE PROGRAM

Significance: Regulatory Program

Legal Authority: 15 USC 631

CFR Citation: Not applicable

Legal Deadline: None

Abstract: The policy is designed to ensure that small business purchasers have the opportunity to purchase a fair proportion of National Forest Timber. Based on comments received in response to the 9/25/87 proposal, review of market data and Congressional direction, the agency is withdrawing its 1987 proposal and offering a new proposal.

The proposed policy will be consistent with the current standards and establish procedures for determining what share of timber volume small business will have the opportunity to bid on without competition from large business.

201. REVISION OF TIMBER SALE CONTRACT FORMS FS-2400-6 AND FS-2400-6T

Significance: Regulatory Program

VOL 54 ISS 208 OCT 30 1989 UMI

Legal Authority: 16 USC 535; 16 USC 551; 16 USC 472a; 16 USC 607A; 16 USC 618; 42 USC 4461

CFR Citation: None

Legal Deadline: None

Abstract: The present timber sale contract Form FS-2400-6 was developed in September 1973, and the Form FS-2400-6T was developed in October 1973. Since these dates several Acts, Laws, and policy changes have necessitated deletion of existing provisions and inserting supplemental provisions. The need to revise these documents has been recognized since the late 1970's. The revision will provide for clarification of provisions to reduce the potential for disputes between purchasers and the Forest Service. There will be no changes in the basic contract concepts except those dictated by law, regulation, and related policy. Comments from interested individuals and organizations will be utilized, as appropriate, in the formulation of the provision language.

202. LEASABLE MINERALS OTHER THAN OIL AND GAS

Significance: Regulatory Program

Legal Authority: 16 USC 473 to 475; 16 USC 477 to 482; 16 USC 551; 16 USC 528 to 531; 90 Stat. 2949 as amended

CFR Citation: 36 CFR 228, Subparts F to H (New)

Legal Deadline: None

Abstract: These subparts will set forth the rules by which the Forest Service will process and respond to proposals received from the Department of the Interior (DOI) for the issuance of mineral licenses, prospecting permits and leases, and for the approval of operating plans. The Forest Service has no regulations at this time which have resulted in inconsistent and untimely responses to the DOI. The only other alternative considered is not to promulgate regulations. Public costs are insignificant but public benefits could be substantial in that proposals should be processed more efficiently.

203. APPLICATION PROCEDURES AND FEES FOR HYDROELECTRIC USES ON NATIONAL FOREST SYSTEM LANDS

Legal Authority: 16 USC 551; 43 USC 1761

CFR Citation: 36 CFR 251.54; 36 CFR 251.57

Legal Deadline: None

Abstract: Regulations are needed to reduce confusion regarding the role of the Forest Service in permitting hydroelectric uses on National Forest System lands. The objective of the rules will be to establish procedures, compatible with the procedures of the Federal Energy Regulatory Commission (FERC) for obtaining various approvals and involvement of the Forest Service in a timely manner.

In addition, the rules will establish a fee system for hydroelectric uses as required by Title V, Section 501 of the Federal Land Policy and Management Act of 1976. A Notice of Proposed Policy was published 6/8/84 and comments were received. The proposed rule will take those comments into account.

204. LOCATABLE MINERALS

Significance: Agency Priority

Legal Authority: 16 USC 478; 16 USC 551; 43 USC 1701 et seq; 94 Stat 2400

CFR Citation: 36 CFR 228, Subpart A

Legal Deadline: None

Abstract: To facilitate the orderly development of locatable minerals on the National Forest System public domain in an environmentally sound manner. Since the regulations were promulgated in 1974, certain legal requirements have changed due to the provisions of the Wilderness Act and recent court decisions; some sections of the regulations no longer apply and revisions and updating are necessary. Major changes proposed will specifically address the requirements for wilderness operations and, secondly, will clarify the mechanism for administering locatable mineral activities not conducted on mining claims but which are nevertheless authorized by the 1872 mining law.

Legal Deadline: None

Abstract: These rules declare the range of unacceptable public behavior when visiting or using National Forest System lands. Among topics covered are prohibitions on setting campfires in certain areas, unlawful cutting of trees, and other unlawful uses of resources and property of the National Forest System. Violations of these prohibitions carry legal penalties.

Review has examined the adequacy of the rules for administration of the National Forest System and whether changes in conditions, laws, or other factors require revision. The agency has completed its review and is now preparing a proposed rule to revise the prohibitions.

207. REVISE SMALL TRACTS ACT REGULATIONS

Significance: Agency Priority

Legal Authority: 16 USC 521c-i

CFR Citation: 36 CFR 254, "Subpart C"

Legal Deadline: None

Abstract: Implementation of the agency's Small Tracts regulations has revealed an inadvertent inconsistency between the regulations at 36 CFR 254.35(f) and 254.41(a) and the legislative history of the Small Tracts Act of January 12, 1983. The regulations imply that the disposal of mineral fractions by sale can only be made in response to an application from an abutting landowner, thus discouraging the conveyance by sale to the public. The Act clearly authorizes sale of mineral fractions to the public through public sale, as well as individual applications, provided that certain conditions are met. The revisions will clarify the application of the Act to ensure that both individual applications and public sale are permissible means of disposing of qualifying tracts.

208. REVISE RULES GOVERNING SPECIAL USES OF NATIONAL FOREST SYSTEM LANDS AND RESOURCES AT 36 CFR 251 TO REMOVE AMBIGUITIES REGARDING FIRST AMENDMENT RIGHTS

Significance: Agency Priority

Legal Authority: 16 USC 472, 551, 1134, 3210; 30 USC 185; 43 USC 1740, 1761 to 1771

CFR Citation: 36 CFR 251 Subpart A; 36 CFR 251 Subpart B; 36 CFR 251 Subpart E (New); 36 CFR 251 Subpart F (New)

Legal Deadline: None

Abstract: A Federal District Court has ruled that existing regulations discriminate against groups who wish to gather on National Forests to exercise their first amendment rights of assembly and free speech. The proposed rule will seek to remove ambiguities regarding these first amendment rights.

The agency is reviewing the rules of other Federal land managing agencies for possible approaches and is considering establishing separate rules for authorizing short-term, noncommercial uses of National Forests.

There will be no additional costs as a result of the proposed rule change. The benefit will be that the Forest Service will be able to adequately regulate large group use on the National Forests in a manner that ensures protection of the public health and safety and National Forest resources.

209. HELL'S CANYON NATIONAL RECREATION AREA - PRIVATE LANDS

Legal Authority: PL 94-199, sec 10a

CFR Citation: 36 CFR 292, Subpart E (New)

Legal Deadline: None

Abstract: The Forest Service proposes to issue regulations concerning use of private lands in the Hell's Canyon National Recreation Area (HCNRA) on the Oregon - Idaho border, as required in PL 94-199. The intended effect of this action is to establish standards for use and development of privately owned lands within the HCNRA.

The standards are intended to achieve the following management objectives for the Recreation Area: (1) The conservation and continuance of forest land for forest uses and farm land for farm uses; (2) The maintenance and protection of the free flowing nature of rivers within the HCNRA; (3) Conservation of scenic, wilderness, cultural, scientific, and other values contributing to the public benefit; (4) Preservation, especially in the area generally known as Hell's Canyon, of all features and peculiarities believed to be biologically unique; (5) Protection and maintenance of fish and wildlife habitat; (6) Protection of archaeological and paleontological sites; (7) Preservation of historic sites associated with and typifying the economic and social history of the region (cont)

210. SOLID WASTE DISPOSAL POLICY

Significance: Agency Priority

Legal Authority: 16 USC 497; 43 USC 931c

CFR Citation: None

Legal Deadline: None

Abstract: Solid waste disposal sites (sanitary landfills) on National Forest System lands present the potential for resource degradation, hazardous waste dumping, and future liability. A proposal for solid waste disposal is being developed to reflect changes which have occurred as a result of the Resource and Conservation Recovery Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and an increased knowledge of solid waste disposal. The proposal would prohibit the authorization of new sites and provide for the phase out of existing sites. During the phase out period, authorizations would be amended to provide resource protection and limit the Government's potential liability. In situations where National Forest System lands provide the best location for solid waste disposal, land exchange and/or purchase will be considered. Adoption of this policy would reduce administrative costs associated with administration of solid waste disposal sites, limit future liability, and protect the resources on National Forest System lands. The proposal would impact 110 sites currently authorized.

211. IRREVOCABLE LETTER OF CREDIT

Significance: Agency Priority

Legal Authority: 16 USC 472a; 16 USC 528 to 531; 16 USC 1600 et seq; 12 USC 1 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In a 1987 court decision, a letter of credit issued in lieu of surety bond was found to be unenforceable because the person who signed the letter of credit did not have authority to do so and because the bank had violated State law in regard to limits of liability. Others were invalid because they exceeded the expiration date. To remedy this problem, the Forest Service is proposing to issue Handbook directions that will require the bank president to certify as to the authority of the person signing the letter of credit and the conformance with State and Federal statutes. An automatic extension of the expiration date would also be required.

212. RESERVED AND OUTSTANDING MINERAL RIGHTS

Significance: Regulatory Program

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 228, Subpart B

Legal Deadline: None

Abstract: Substantial acreage of National Forest System land is underlain by privately owned mineral deposits. During extraction of the mineral resources, the mineral owner is required to take measures to protect Federal surface resource values. The Forest Service must analyze the effects of the proposed mineral extraction and determine what mitigation measures should be specified. Currently, there are no regulations describing the process to be followed by the Forest Service or the private mineral owner.

The regulatory approach has not yet been determined. A working group will be formed in February 1989 to determine the scope, form, and details to be included in a proposed rule.

214. DISPOSAL OF QUARTZ MINERAL ON THE OUACHITA NATIONAL FOREST

Legal Authority: PL 100-446, Sec 323; 30 USC 601, 603

CFR Citation: 36 CFR 228 Subparts C to D

Legal Deadline: None

Abstract: This regulation is a direct response to the direction in Section 323 of Public Law 100-446 which classified quartz mineral on the Ouachita National Forest in Arkansas as no longer subject to location under the General Mining Law of 1872. These materials are now to be managed in the same manner as common varieties of mineral materials under regulations prescribed by the Secretary of Agriculture.

215. FEDERAL CAVE RESOURCES PROTECTION

Significance: Agency Priority

Legal Authority: PL 100-691

CFR Citation: 36 CFR 290 Subpart A (New)

Legal Deadline: Final, Statutory, August 18, 1989.

Abstract: These regulations will implement the Federal Cave Resources Protection Act of 1988, which requires that the rules define what is a significant cave for purposes of this Act. The Act also requires that the rules address an inventory of cave resources, provide for confidentiality of information concerning the nature and location of caves on Federal land, and permits for collection and removal of cave resources. The regulations are being developed in concert with agencies of the U.S. Department of the Interior as required by the act.

216. PRE-AWARD INFORMATION REQUIREMENTS

Legal Authority: 16 USC 472(a); 16 USC 618

CFR Citation: 36 CFR 223.101

Legal Deadline: None

Abstract: Recently, as the number of timber sale defaults have increased, the number of debarred purchasers have increased, and the Government has initiated a policy of only doing business with responsible parties, it is becoming commonplace for bidders to form new

VOL 54 ISS 208 OCT 30 1989 UMI

affiliates in order to continue to be awarded Forest Service timber sale contracts. Unless the bidder voluntarily identifies affiliates, the Agency must make the determination through a time consuming process prior to award, prior to determining if double downpayment rules apply, and prior to taking debarment action. This rule would require bidders to disclose, prior to award of sales, all affiliates, and to certify that none are suspended or debarred. Filing false claims would be cause for contract cancellation and debarment action.

217. ● FOREST SERVICE WILDERNESS MANAGEMENT POLICY

Significance: Agency Priority

Legal Authority: 16 USC 1121(note); 16 USC 1131 to 1136 (Wilderness Act)

CFR Citation: None

Legal Deadline: None

Abstract: Revisions to Chapter 2320, Forest Service Manual (FSM), are proposed to remove barriers to implementation of the National Recreation Strategy. Also includes revisions needed to be consistent with 36 CFR 261, 293 (see RIN 0596-1139). Changes will include guidance on access by people with disabilities, expanded policy on controlling insect and disease outbreaks, amending prohibited activities to include competitive events and use of hang gliders, parachutes and parasails as aircraft. The policy will include text of Congressional Grazing Guidelines and more specific direction for wildlife and fish management and will also include guidance on structures, cultural resources, research and law enforcement.

219. ● FEE POLICY FOR RESERVOIRS

Significance: Agency Priority

Legal Authority: 43 USC 1764 Federal Land Policy and Management Act

CFR Citation: 36 CFR 251.57

Legal Deadline: None

Abstract: The Forest Service proposes to change the policy and procedure for determining the land use rental fees for dams and reservoirs located on National Forests lands that are authorized by special use authorizations. This would eliminate the need for individual appraisals of reservoir areas and would reduce the cost of administering the special use permits. The fees would be comparable to the fees charged by the Federal Energy Regulatory Commission for reservoirs on Federal lands. There would be no change in the fee waiver policy for reservoirs. Reservoirs that are currently exempt by law from payment of land use rental fees would not be affected by the proposed change in policy.

220. ● IMPLEMENTATION OF NATIONAL FOREST LAND AND RESOURCE MANAGEMENT PLANS

Significance: Agency Priority

Legal Authority: 16 USC 1604; 16 USC 1613

CFR Citation: 36 CFR 219

Legal Deadline: None

Abstract: The agency's current rules governing implementation of forest plans (36 CFR 219) are not very precise and the relationship of plan implementation to National Environmental Policy Act compliance is not well understood by the public. Additionally appeal decisions made by the Chief of the Forest Service and recent Court decisions indicate that more site specificity is needed in project-level plans. The objective of this rule is to establish through rulemaking a precise and coherent policy about the relationship of the forest plan implementation process to NEPA documentation, so that forest planners, decision makers, and the public will know and understand the nature of decisions being made as forest plans are implemented through on-the-ground projects. This rulemaking is potentially being considered as a negotiated rulemaking.

223. MODIFY THE GENERAL PROHIBITION AGAINST USE OF VEHICLES IN EXCESS OF 40 INCHES IN WIDTH ON TRAILS

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261.12(e)

Legal Deadline: None

Abstract: The objective of this action is to permit Forest officers more discretion for controlling off-road vehicle use. Three factors have created the need to modify this regulation: (1) the general prohibition at 36 CFR 261.12(e) controls trail use by width of vehicle. Originally developed to control four-wheel-drive vehicles on trails, this method uses a fairly arbitrary device (width) to control use; (2) off-road vehicle plans (36 CFR 295) use vehicle types to prescribe the vehicles that are permitted to use forest trails; (3) some recent models of trail vehicles (all terrain vehicles and snowmobiles) exceed the forty inch rule by one to five inches. The combination of the two methods of control with the larger model sizes has created confusion among users about ORV plan direction and created law enforcement difficulties. The proposed action would clarify the regulations and still maintain the tools necessary to control off-road vehicle use. (FS 86-007)

224. CONSERVATION OF FISH, WILDLIFE, AND THEIR HABITATS CHUGACH NATIONAL FOREST, ALASKA

Legal Authority: PL 96-487, Title V

VOL 54 ISS 208 OCT 30 1989 UMI

USDA—FS

Final Rule Stage

CFR Citation: 36 CFR 241, Subpart B (New)

Legal Deadline: None

Abstract: December 2, 1980, the Alaska National Interest Lands Conservation Act was signed into law. Section 501 (b) of the law requires that the Secretary of Agriculture promulgate regulations for the conservation of fish and wildlife and their habitats on the Chugach National Forest. The general National Forest System regulations and other existing laws governing management of National Forest System lands are applicable except as supplemented by these regulations or amended by the ANILCA, August 17, 1984. The new Chugach National Forest land management plan was appealed by 17 appellants. The settlement agreement specifies that subject to valid existing rights, the Forest Service will not allow timber harvest, road construction, surface occupancy for mineral leasing prior to publication of final regulations or completion of management area analysis for the Copper River Management Area. There are no alternatives to development of these regulations.

225. DEFINITION OF COMMON VARIETY MINERAL MATERIALS

Legal Authority: 30 USC 601 to 604; 16 USC 477; 16 USC 520; 7 USC 1010; 30 USC 192c; 16 USC 508b; 66 Stat. 285; 16 USC 521a; 75 Stat. 206; 23 USC 101 et seq; 16 USC 539a; Sec 502

CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None

Abstract: Whether a mineral deposit is a "common variety" determines whether or not it can be disposed of or sold by the Government under the 1947 Mineral Materials Act. Judicial and administrative interpretations defining common variety characterization determinations can only be made in court. Rulings in common variety cases are generally unpredictable, and the costs to both the Government and miner are high.

After a review of the legislative history of the 1955 Surface Resources Act, which defined common varieties, we believe that Congress did not intend for certain minerals to be locatable under the Mining Laws; however, a failure to explicitly define the "common variety" term has led to misinterpretation and actions contrary to the original intent of the law. It is proposed that 36 CFR 228 Subpart C be amended to clarify this confusing classification situation. We believe PL 167 expressly provides for this action as it allows the Secretary of Agriculture to dispose of mineral materials "under such rules and regulations as he may prescribe."

226. INDIAN ALLOTMENTS ON NATIONAL FOREST SYSTEM LANDS

Significance: Agency Priority

Legal Authority: 16 USC 472; 16 USC 551; 16 USC 1609; 43 USC 1740; 25 USC 337

CFR Citation: 36 CFR 254, Subpart D (New)

Legal Deadline: None

Abstract: Objectives are to set forth Forest Service procedures and role in the regulation of Indian allotments on National Forest System land. The Indian Allotment Act of 2/8/87, as amended by Section 31, Act of 6/25/10 authorizes the Secretary of the Interior to make allotments of National Forest System lands to Indians for homesteading and agricultural and grazing purposes. The Forest Service has relied upon USDI rules and procedures at 43 CFR 2533 to govern its involvement in Indian allotment cases. Recent litigation and a decision by the Interior Board of Land Appeals indicate the need for the Forest Service to set forth its own regulations when the Forest Service determines that lands are not chiefly valuable for agricultural and grazing purposes. The only alternative is not to issue regulations. This is unacceptable since it leaves the Agency vulnerable to future IBLA appeals cases as well as future litigation.

227. GRAZING FEES; EASTERN AND SOUTHERN REGIONS

Significance: Regulatory Program

Legal Authority: 16 USC 551; 31 USC 483a; 43 USC 1901

CFR Citation: 36 CFR 222.53, 222.54

Legal Deadline: None

Abstract: Different grazing fee systems are used in the Eastern and Southern Regions of the Forest Service. The current system in the Eastern Region is market driven. The system in the Southern Region is based on a cost-of-livestock-production/ability-to-pay methodology which currently results in below market fees.

This rulemaking seeks to improve uniformity of grazing fee systems on National Forest System Lands in the East, update fees to current market values, and provide incentives to achieve needed range improvements.

228. PROHIBITIONS; FOSSIL COLLECTING

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261

Legal Deadline: None

Abstract: In response to comments from the scientific and academic communities and in keeping with the recommendations of the National Academy of Sciences "Report on Guidelines for Paleontological Collecting," the Forest Service is clarifying its regulations concerning fossil collecting on National Forest System lands. The language on "paleontological resources" is being moved to a separate paragraph and the requirement for permits is being limited specifically to quarrying for fossils and for commercial activities. The no-action alternative would be to leave the regulation of paleontological resources the same as for archeological resources, with permits needed for all activities. Since there is no evidence of widespread problems, the permit process imposes unnecessary burdens on the casual collector and creates added paperwork for the Forest officer to manage.

229. OIL AND GAS RESOURCES

Significance: Regulatory Program

Legal Authority: 16 USC 478; 16 USC 551; 30 USC 226, 352

CFR Citation: 36 CFR 228, Subpart E

Legal Deadline: None

Abstract: This final rule will set forth the procedures by which the Forest Service would carry out its statutory responsibilities for management of oil and gas leasing and attendant surface disturbing activities conducted on leaseholds on National Forest System lands. In the past, the Forest Service has relied on Bureau of Land Management procedures and regulations. However, the Federal courts have ruled that the Forest Service must promulgate its own procedures and regulations. Additionally, the Federal Onshore Oil and Gas Leasing Reform Act of 1987 expanded the authority of the Secretary of Agriculture in the management of oil and gas resources on National Forest System lands and directed the Secretary to issue rules on bonding and reclamation standards. The intent of these rules is to satisfy both judicial direction and the new statute; to coordinate Forest Service oil and gas resource management procedures with those of the Bureau of Land Management, and to promote cooperation among the Agency, the oil and gas industry, and other publics interested in the management of oil and gas resources of National Forest (cont)

230. SURETY BOND FORM REVISION

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309; 31 USC 223 to 225

CFR Citation: None

Legal Deadline: None

Abstract: Following a period of high-priced timber sales bid prior to 1982, the Forest Service experienced a number of contract defaults on these sales. Subsequently, the Forest Service has had difficulty collecting from some sureties on the bonds guaranteeing performance on these sales. As part of a financial security initiative affecting future sales, the Forest Service is proposing to revise the payment and performance bonds to clarify surety's obligation in regard to what is being guaranteed, when payment is due in case of default, what additional charges will be assessed if payment is not made when due and when collection action may be suspended. Other alternatives include eliminating surety bonds as a form of security, reducing surety guarantee to mid-point and periodic payment and retention of current bond forms. Upon adoption the final revised bond forms will be issued for use by Forest Service Contracting and Fiscal Officers for future timber sale contracts.

231. ● HELLS CANYON NATIONAL RECREATION AREA-USE OF NATIONAL FOREST LANDS

Significance: Agency Priority

Legal Authority: 16 USC 460gg Hells Canyon National Recreation Area

CFR Citation: 36 CFR 292 F (New)

Legal Deadline: None

Abstract: In Oregon Natural Resource Council v Lyng, the 9th Circuit Court of Appeals ruled that the Secretary must promulgate regulations as required by the Hells Canyon National Recreation Act (HCNRA) governing federal and private land uses in the HCNRA. The Department had argued that such rules were discretionary and the agency's comprehensive management plan for the NRA, which was prepared as required by the Act, was sufficient to guide management of the area. As a result of the court's ruling, the risk of litigation to halt ongoing activities, particularly timber sales, is high. Accordingly, there is an urgent need to promulgate an interim rule governing management of the federal lands in the HCNRA. While many existing regulations governing National Forest System lands, remain applicable to the Hell's Canyon NRA, pending projects and plans are vulnerable to continued litigation until final rules are effective. An interim rule is the most expeditious way to effect rules. Public comment will be invited on the interim rule and will be considered in development of the final rule.

Action	Date	FR Cite
Interim Final Rule	10/05/89	54 FR 41089
Interim Final Rule Comment Period End	12/04/89	

Small Entities Affected: None

Government Levels Affected: None

Additional Information: The only alternative to the court ruling to promulgate rules is to publish a proposed rule rather then interim rules. This is unacceptable because of the potential for disruption to management of the area and the regulatory void that would be created by the longer time frames involved in going through a Notice of Proposed Rulemaking.

232. ● GIVING NOTICE OF DECISIONS SUBJECT TO APPEAL

Significance: Agency Priority

Legal Authority: 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 217

Legal Deadline: None

Abstract: The current appeal rule at 36 CFR Part 217 requires the Deciding Officer to mail a plan or project decision to those who have, in writing, requested it and to those known to have participated in the decisionmaking process. In addition, the rule prohibits extension of the time period for filing an appeal. The administrative process of producing letters notifying the public of decisions delays notice and is shortening the period available to appeal a decision. This interim rule would require Deciding Officers to give notice of decisions in newspapers of general circulation or, in some cases, the Federal Register. The appeal filing period would begin the day after the notice is published. Because of infrequency frequency of appeals over filing periods, it is necessary to make the rule effective upon publication to bring order and consistency to the agency's appeal process. The rulemaking would also clarify grounds for dismissal of an appeal without a decision on the merits, make clear that dismissal decisions are subject to discretionary review at a higher level, and require appellants to submit 2 copies of a notice of appeal when the notice is 10 pages or longer.

248. ● REA BULLETIN 50-6 (D-806), SPECIFICATION AND DRAWINGS FOR UNDERGROUND ELECTRIC DISTRIBUTION

Significance: Agency Priority

Legal Authority: 7 USC 901 et seq; 7 USC 1921 et seq

CFR Citation: 7 CFR 1736.97

Legal Deadline: None

Abstract: REA Bulletin 50-6 (D-806), Specifications and Drawings for Underground Electric Distribution, provides standard underground electric system construction drawings and specifications that REA Electric borrowers may use without REA review of each specific project. Bulletin 50-6 (D-806) was last revised in 1975. In the intervening years, many dramatic changes have been made in the material, equipment, and construction methods used in the underground electric distribution industry. The proposed changes in the bulletin would be accomplished by adding several new construction drawings, revising some drawings included in the present edition of the bulletin, and deleting some present drawings. The resulting bulletin would be a complete

VOL 54 ISS 208 OCT 30 1989 UMI

256. FARMLAND PROTECTION POLICY ACT

Significance: Agency Priority

Legal Authority: 7 USC 4201

CFR Citation: 7 CFR 658

Legal Deadline: None

Abstract: The United States Department of Agriculture amends its rule for implementing the Farmland Protection Policy Act to require progress reports, enable governors to bring action to enforce the requirements of the Act, include a section omitted by clerical error, revise how Federal agencies apply the Act, and revise the definition of farmland. These amendments are necessary in order to comply with amendments to the Farmland Protection Policy Act (FPPA) made by Title XII of the Food Security Act of 1985, PL 99-198, December 23, 1985, and to clarify several provisions of the existing rule. This rule will revise Part 658 of Title 7 of the Code of Federal Regulations.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: October 1989 regulatory agenda.

SUMMARY: In compliance with Executive Order (E.O.) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Public Law 96-354), the Department of Commerce in April and October of each year publishes in the **Federal Register** an agenda of the rulemaking actions covered by section 1 of E.O. 12291 that the Department plans to conduct or review over the next twelve months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, and rulemaking actions completed since the April 1989 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department's October 1989 regulatory agenda includes regulatory activities that are expected to be conducted during the period October 1, 1989, through September 30, 1990.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230, Telephone: (202) 377-8843.

SUPPLEMENTARY INFORMATION: Executive Order 12291 requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this Order. Office of Management and Budget (OMB) Bulletin No. 89-12, issued July 5, 1989, establishes guidelines and procedures for the preparation and publication of the October 1989 Unified Agenda of Federal Regulations for all Federal departments and agencies. E.O. 12291 and the OMB Bulletin require that each agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the twelve-month period succeeding publication: The title of the regulation; the name, title, address, and phone number of an agency person who is knowledgeable about the regulation; whether the action is expected to have a significant economic impact on a substantial number of small entities and whether it will affect levels of government; the section(s) of the Code of Federal Regulations which will affect or be affected by the action; the section of the United States Code, Public Law, or Executive order that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; legal deadline, if any; and a timetable of dates and, if available, **Federal Register** citations for past stages of the action. In addition, the Bulletin requires that procurement-related regulatory actions include additional information on all actions that are covered by section 22 of the Office of Federal Procurement Policy Act Amendments of 1988 and all other actions that will result in a change or addition to the Federal Acquisition Regulation System. This procurement-related information is listed under Additional Information and will be used by the Office of Federal Procurement Policy in preparing the "Procurement Regulatory Activity Report."

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis where there is a positive finding that a rule will have a significant economic impact on a substantial number of small entities. E.O. 12291 requires agencies to prepare a regulatory impact analysis for any regulation considered to be a "major rule" as defined in the Order.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units such as the Economic Development Administration, the Bureau of Export Administration, the International Trade Administration, the National Institute of Standards and Technology (NIST), the National Oceanic and Atmospheric Administration (NOAA), and the Patent and Trademark Office issue the greatest share of the Department's regulations.

A large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS) issued by NIST under Public Law 100-235. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines and in providing technical guidance and coordination to Federal agencies, NIST works closely with private industry standard-setting organizations.

Another large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (Act) (16 U.S.C. 1801 *et seq.*) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery for which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently, NMFS does not have specific plan objectives or alternatives for management since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

The DOC October 1989 regulatory agenda follows.

Dated: August 28, 1989.

Michael A. Levitt,

Acting General Counsel.

Office of the Secretary—Proposed Rule Stage

DEPARTMENT OF COMMERCE (DOC)
Office of the Secretary (OS)

Proposed Rule Stage

258. CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned Departmentwide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

259. SOURCE EVALUATION PROCEDURES AND MISCELLANEOUS REVISIONS TO THE COMMERCE ACQUISITION REGULATION

Legal Authority: 41 USC 251 et seq

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Department of Commerce has no formal uniform source evaluation procedures applicable to its procurement activities. Standardization of source evaluation procedures will alleviate potential inconsistencies among procurement professionals as well as potential Department contractors relative to evaluation of proposals.

261. BENCHMARK SURVEY OF U.S. DIRECT INVESTMENT ABROAD - 1989

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will replace the existing rule 15 CFR 806.16 with a new rule to provide for the conduct of the BE-10, Benchmark Survey of U.S. Direct Investment Abroad--1989, as required by the International Investment and Trade in Services Survey Act, 22 USC 3101 to 3108 (see especially Sec. 4(b) of the Act). The existing rule covers a similar survey for 1982, which has been completed and which the 1989 survey will update.

262. ● INCREASE IN EXEMPTION LEVEL OF THE BE-11, ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD

Legal Authority: 22 USC 3101 to 3108; Int'l Investment & Trade in Svcs. Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will raise the overall exemption level for the BE-11 Annual Survey of U.S. Direct Investment Abroad, and for reporting individual foreign affiliates on Forms BE-11B and BE-11C in that survey, from $10 million to $15 million. The purpose of the action is to bring the exemption level into conformance with that for Form BE-10B(LF) for reporting foreign affiliates in the Benchmark Survey of U.S. Direct Investment Abroad--1989. In addition, the action will require filing, in one or more annual surveys between benchmark surveys, Form BE-11C for nonbank foreign affiliates owned at least 10 percent, but less than 20 percent, by the U.S. reporter and for which total assets, sales, or net income exceeds $100 million. Some reporting between benchmark surveys by large, 10-20 percent-owned foreign affiliates is needed to support reliable estimates for the universe of all foreign affiliates.

263. CHANGE IN REPORTING REQUIREMENTS OF THE BE-15, ANNUAL SURVEY OF FOREIGN DIRECT INVESTMENT IN THE UNITED STATES

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action institutes a short form in the BE-15, Annual Survey of Foreign Direct Investment in the United States, for reporting by U.S. affiliates with assets, sales, or net income greater than the $10 million exemption level but with no one of the three items greater than $20 million. In its notice of proposed rulemaking of September 20, 1988, BEA proposed raising the BE-15 exemption level from $10 to $20 million. After careful consideration of public comments received, however, BEA decided to leave the exemption level at $10 million to maintain the quality of the data in those few country, industry, and State cells in which small investments account for a significant share of the total. The short form is instituted in an effort to keep the reporting burden to a minimum.

264. FOREIGN TRADE STATISTICS REGULATIONS

Significance: Regulatory Program

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.92

Legal Deadline: None

Abstract: Review of 15 CFR 30 for changes to conform with the new statistical classification (harmonized) system for imports and exports. This review will combine elements of housekeeping changes, updating obsolete information, clarification, bringing the system into line with harmonization (including metric measurements) and conformance of reporting with current practices. There should be no added burden or cost placed on the public because no

DOC—CENSUS — **Proposed Rule Stage**

additional information is required, nor new reporting requirements.

The benefits of these changes will be: allowing direct comparisons between U.S. imports and exports, enabling comparisons between trade balances of the United States and of our major trading partners.

With the passage of the Omnibus Trade and Competitiveness Act of 1988 there is no alternative to making these changes in order to conform to the legislation.

Additionally, Section 30.24 will be revised to be consistent with Customs Regulations by eliminating the "four-day rule" regarding submission of "Shipper Export Declarations."

265. ● FOREIGN TRADE STATISTICS REGULATIONS (FTSR)

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.58

Legal Deadline: None

Abstract: We propose to amend the Foreign Trade Statistics Regulations (FTSR) to raise the present exemption for filing Shipper's Export Declarations (SEDs) (except for shipments requiring a validated export license) from $1500 to $2500. The exemption for shipments through the U.S. Postal Service will remain at $500. Raising the value exemption for filing SEDs to $2500 will relieve the burden of documentation. The benefits accruing to both the public and the Census Bureau by the reduction in the number of SEDs required to be filed and processed outweigh the anticipated loss in statistical detail.

We propose also to amend the FTSR to eliminate the requirements for SEDs for direct exports (except for shipments requiring a validated export license) where the country of ultimate destination is Canada. This change will cause a significant reduction in paperwork and costs to U.S. exporters Federal Government. The Assistant Commissioner for Commercial for Commercial Operations, U.S. Customs Service, concurs with this proposal.

276. AREA DESIGNATION - SPECIAL IMPACT AREAS

Legal Authority: 42 USC 3211; Department of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 302

Legal Deadline: None

Abstract: EDA is deleting its 12-month annual average unemployment rate based upon the calendar year, for Special Impact Area (SIA) designation. Under the current calendar year qualifier, it would be possible that an area's qualifying calendar 1987 average rate could be used in support of its SIA designation as late as February 1989 regardless of a subsequently available, non-qualifying 12-month (non-calendar) rate. This could happen since 1988 calendar year average rates for areas will not be computed by state employment security agencies until February 1989, and EDA will not receive such data until March 1989.

285. GENERAL REGULATIONS GOVERNING FOREIGN TRADE ZONES IN THE UNITED STATES, WITH RULES OF PROCEDURES

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Legal Deadline: None

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

287. ALLOCATION OF APPAREL TARIFF-RATE QUOTA UNDER THE U.S.-CANADA FREE TRADE AGREEMENT

Significance: Regulatory Program

Legal Authority: PL 100-449, Section 202(g); U.S.-Canada Free Trade Agreement Implementation Act of 1988

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The U.S.-Canada FTA reduces tariffs on textile and apparel products considered to be of U.S. or Canadian origin under the "rules of origin" established by the Agreement. Generally, apparel made in the U.S. or Canada from fabric sourced in a third country will not be considered to be of U.S. or Canadian origin for FTA purposes. Goods which do not qualify for the FTA rate will be subject to the regular most-favored-nation (MFN) rate. However, the FTA also establishes an annual tariff-rate quota (TRQ) under which a limited quantity of apparel products that do not meet the FTA's rules of origin will still be entitled to the FTA duty. As Canadian tariffs on U.S. apparel exports decline, U.S. apparel firms should have a growing incentive to export to Canada, but will need some predictability as to which duty their goods will be subject to. Unless the Department implements an allocation system, we may find that U.S. firms will either face the chaos of an annual rush to the border to ensure their share of the TRQ or will ignore a lucrative export market to avoid the uncertainties of the TRQ.

288. ANTIDUMPING DUTIES; COUNTERVAILING DUTIES

Significance: Regulatory Program

Legal Authority: 19 USC 1671 et seq; 19 USC 1673 et seq

CFR Citation: 19 CFR 300 to 399

Legal Deadline: None

Abstract: Revisions to the current antidumping duty and countervailing duty regulations are needed on an expedited basis in order to conform those regulations to certain statutory amendments made by the Omnibus Trade and Competitiveness Act of 1988. Those amendments deal with (1) downstream product monitoring; (2) consultations with the International Trade Commission on certain scope rulings; (3) procedures for administrative protective orders; (4) correction of ministerial errors; and (5) effective dates. The revisions will enable the Department to apply the new statutory provisions in an orderly and efficient basis.

291. PROCEDURES AND RULES FOR IMPLEMENTING ARTICLE 1904 OF THE UNITED STATES-CANADA FREE TRADE AGREEMENT

Significance: Regulatory Program

Legal Authority: 19 USC 1516a; 19 USC 1677f(d); PL 100-449, Title IV

CFR Citation: 19 CFR 356

Legal Deadline: None

Abstract: Chapter 19 of the U.S.-Canada Free Trade Agreement established a system under which final antidumping and countervailing duty determinations of both the United States and Canada are subject to review by independent binational panels. The legislation implementing the Agreement authorized the Department to issue regulations necessary to implement Chapter 19. Regulations are necessary to establish procedures concerning notice of intent to seek judicial review, requests for panel review, notice of receipt by Canada of class or kind determinations, continued suspension of liquidation pending panel review, release of business proprietary and privileged information under protective order during a panel review, and sanctions for violations of such protective orders. The interim rule became effective January 1, 1989, the date the Agreement entered into force.

292. DEFENSE PRIORITIES AND ALLOCATIONS SYSTEM (DPAS)

Legal Authority: 50 USC 2061 et seq; EO 10480

CFR Citation: 15 CFR 350

Legal Deadline: None

Abstract: The Defense Priorities and Allocations System (DPAS) implements the priorities and allocations authority of Title I of the Defense Production Act of 1950, as amended. The DPAS was published as a final rule on July 30, 1984. Based on the findings and recommendations of an interagency sponsored study concerning the controlled materials program, and comments from both defense agency and industry users, this proposed rule would amend the DPAS to remove the controlled materials provisions and make certain revisions to its procedural requirements. These amendments will have no costs associated with them, would reduce the regulatory and information reporting burden on industry and make the DPAS more effective and efficient, and would result in cost savings for defense contractors.

293. ● DEFINITION OF SUPERCOMPUTER

Legal Authority: 50 USC app 2401; PL 96-72; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: NPRM, Statutory, November 21, 1989.

Abstract: This proposed rule amends the EAR to provide a definition for the term "supercomputer." Section 5(a)(6) of the Export Administration Act, as amended by the 1988 Trade Act, requires that a definition be included in the EAR. An earlier proposed rule on this subject was published in the Federal Register on 12/5/88. Due to the variety of comments received on the definition, BXA developed a revised definition and is reissuing the rule in proposed form with request for comments. The revised definition contains two significant features. First, a supercomputer is defined as any computer having a theoretical peak performance capability equal to or greater than 100 MFLOPS (million floating point operations per second). Second, the revised definition establishes two threshold levels - 150 MFLOPS and 200 MFLOPS - for the imposition of security safeguards. The level to be applied will depend on the country of destination (e.g., CoCom/5(k) countries).

295. ● DECONTROL OF MEDICAL EQUIPMENT AND GOODS CONTAINING CONTROLLED PARTS AND COMPONENTS

Significance: Regulatory Program

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 100-418; PL 99-64; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: None

Abstract: Section 5(c)(5)(A)(ii) of the OTCA requires the decontrol of medical equipment consistent with section 5(m) of the Export Administration Act (EAA). Section 5(m) was amended by the OTCA to prohibit national security controls under the EAA or any other law on goods solely because they contain controlled parts and components. This regulation will implement this provision of the OTCA. The Bureau of Export Administration is currently preparing a draft of this regulation that will encompass the congressional intent, while protecting our national security interests, and abiding by our CoCom agreements.

296. ● REVISION OF FOREIGN AVAILABILITY REGULATIONS

Significance: Regulatory Program

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 791

Legal Deadline: None

Abstract: Part 791 of the Export Administration Regulations (EAR) establishes the procedures and criteria for initiating and reviewing claims of foreign availability on items controlled for national security purposes. With this notice the Department is proposing to revise Part 791 of the EAR. The revision of the foreign availability regulations is necessary because of legislative changes to the program by the "Trade Act" of 1988, and OFA's own experiences with the program. It is expected that this revision will improve the Foreign Availability process and the effectiveness of the program thereby enhancing national security and improving U.S. competitiveness.

297. ● REVISION OF FOREIGN BOYCOTT PROVISIONS OF EXPORT ADMINISTRATION REGULATIONS

Legal Authority: 50 USC app 2401 et seq; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 769

Legal Deadline: None

Abstract: The Department proposes to revise the foreign boycott provisions of the Export Administration Regulations. The revisions would clarify the application of: (1) the intent provision to the reporting requirement; (2) the jurisdictional requirements relating to the implementation of letters of credit; (3) the furnishing information prohibitions to information about the nationality of directors and about blacklisted persons; (4) the shipping requirement exception to refusals to use blacklisted vessels; and (5) the import and shipping document exception to information about the nationality of carriers and residence of manufacturers or suppliers. The revisions are intended to clarify areas of confusion. In addition, the proposal would remove many references and provisions dealing with effective dates and grace periods that are no longer applicable.

Legal Deadline: None

Abstract: General License GTE authorizes temporary exports for certain purposes such as exhibition, demonstration, inspection and testing, and requires prompt return to the country of export. This proposed rule would redesignate that license as General License G-TEMP and amend it by removing the registration requirement and by establishing guidelines for the use of the general license. One effect of removing the registration requirement would be that parties abroad who were not eligible to register under the former General License GTE would be able to use G-TEMP as authorization for a permissive reexport in accordance with the appropriate provisions of the regulations.

Final Rule Stage

299. REVISIONS TO SHORT SUPPLY REGULATIONS

Legal Authority: 50 USC app 2401 et seq; PL 99-64; 42 USC app 2401 et seq; 10 USC 7420 et seq; 43 USC 1354; 30 USC 185; EO 11912; EO 12214; EO 12002; PL 100-418; EO effective December 28, 1988

CFR Citation: 15 CFR 771; 15 CFR 777; 15 CFR 799

Legal Deadline: None

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA).

Certain changes were made to the Short Supply provisions of Section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 377) and related licensing requirements (15 CFR 371 and 399) of the Export Administration Regulations (15 CFR 368-399) is necessary. An interim final rule was issued which included (1)

elimination of the validated licensing requirement for exports of refined petroleum products so as to permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no costs associated with this action which would promote the export of decontrolled products. The Export Administration was made a Bureau in October 1987. The Export Administration Regulations were thereby transferred from 15 CFR 368-399 to 15 CFR 768-799. Furthermore, the Export Administration Act of 1979 was amended on August 23, 1988 by the Omnibus Trade and Competitiveness (cont)

300. ● AMENDMENT OF VALIDATED LICENSE CONTROLS ON MAGNETICALLY ENHANCED SPUTTERING EQUIPMENT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 100-418; PL 99-64; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: On June 24, 1987 the President issued a national security override for a finding of foreign availability for certain types of sputtering equipment controlled under ECCN 1355A of the Commodity Control List. As a result of this override, export controls on the equipment were maintained pending the conclusion of negotiations with the source country to eliminate the foreign availability. The statutorily authorized 18-month negotiating period expired on December 24, 1988, with the source country agreeing to eliminate foreign availability for sputtering equipment until May 31, 1990. The source country has since agreed to eliminate foreign availability for certain types of sputtering equipment for an additional period. This rule amends ECCN 1355A by decontrolling to free world destinations that sputtering equipment that the source country has not agreed to control, and by maintaining controls on that equipment for which foreign availability has been eliminated.

301. ● EXPORTS FROM ABROAD OF FOREIGN PRODUCTS INCORPORATING U.S. ORIGIN PARTS AND COMPONENTS

Significance: Regulatory Program

Legal Authority: 50 USC app 2401; PL 96-72; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: None

Abstract: In accordance with section 5(a) (A) of the EAA, as amended by the 1988 Trade Act, this rule revises section 776.12 of the EAR to reduce export and reexport controls on U.S.-origin parts and components incorporated in foreign-made products. Under section 776.12 prior authorization is not required when U.S.-origin content comprises 25 percent or less and the foreign-made product is exported to a country listed in Supplements 2 and 3 to Part 773, i.e., countries cooperating in nuclear non-proliferation policy. This interim rule revises section 776.12 to apply the 25 percent exemption to all destinations, except the embargoed countries. The 10 percent exemption, but not the dollar value limitation, is continued for these proscribed destinations. The rule also exempts from control foreign-made products incorporating U.S.-origin content consisting of low level technology specifically designated on the Commodity Control list.

302. ● REEXPORTS FROM COCOM COUNTRIES

Legal Authority: 50 USC app. 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 774

Legal Deadline: None

Abstract: Section 774.3(e) of the Export Administration Regulations provides that "separate specific reexport authorization by the Office of Export Licensing is not required" for reexports of U.S.-origin goods from CoCom countries to the Soviet Bloc if certain conditions are met. One of these conditions is that the "reexport receive unanimous approval from CoCom." Section 774.3(e) allows reexports of General-Exception level U.S. commodities from CoCom countries to the Soviet Bloc without a separate U.S. reexport authorization because the U.S. has an opportunity to review (and object to) these transactions in CoCom. Reexports of U.S. goods eligible for Administrative Exception treatment require a separate U.S. reexport authorization because the U.S. does not have an opportunity to review these cases in CoCom. Consistent with streamlining this regulation the agency

303. ● SHIPPER'S EXPORT DECLARATION: REMOVAL OF REQUIREMENT THAT SEPARATE DECLARATIONS MUST BE FILED FOR GENERAL LICENSE AND VALIDATED LICENSE COMMODITIES IN THE SAME SHIPMENT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 786

Legal Deadline: None

Abstract: Section 786.3(h) of the Export Administration Regulations contains certain requirements for listing commodities on the Shipper's Export Declaration (SED). Previously, section 786.3(h)(1) contained a general prohibition against combining general license commodities with validated license commodities on the same SED. This interim rule will amend section 786.3(h) to permit general license commodities and validated license commodities to be listed on the SED. The rule also will revise section 786.3(h) to clarify that the commodities that may be listed on the same SED must be included in one shipment on board a single carrier and must be from the same exporter to the same consignee.

304. ● REVISIONS TO THE EXPORT ADMINISTRATION REGULATIONS BASED ON COCOM REVIEW

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 773; 15 CFR 799

Legal Deadline: None

Abstract: The Bureau of Export Administration maintains the Commodity Control List (CCL) which identifies those items subject to Department of Commerce export controls. This rule amends a number of List entries in the categories of general industrial equipment and electronics and precision instruments. Amendments to the multilaterally controlled entries on the CCL (specifically, those Export Control Commodity Numbers (ECCNs) that end with "A") have resulted from a review of strategic controls maintained by the U.S. and certain allied countries through the Coordinating Committee (CoCom). Such multilateral controls restrict the availability of strategic items to controlled countries. With the concurrence of the Department of Defense, the Department of Commerce has determined that these revisions to the CCL are necessary to protect U.S. national security interests. In addition, this rule amends a listing (in Supplement No. 1 to Part 773 of the Export Administration Regulations) of commodities excluded from special export licensing procedures. These amendments reflect commodity decontrols based on previous reviews of (cont)

Legal Deadline: None

Abstract: On Friday, May 16, 1986, a notice of proposed rulemaking was published in the Federal Register (51 FR 17986). It sought to provide clarified guidelines for the use of Export Administration Regulation section 779.3, General License GTDA, and invited comments from the public. This final rule will include some of the suggestions made in the public comments on that proposed rule, that generally recognized that the guidelines clarified certain ambiguities in the regulations, and yet will conform with existing Commerce Department interpretations.

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-145; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 771

Legal Deadline: None

Abstract: The Bureau of Export Administration is revising section 771.18 of the Export Administration Regulations (15 CFR Parts Section 768-799), which contains provisions on the applicability of General License GIFT

DOC—BXA

Final Rule Stage

for exports from the United States. General License GIFT authorizes export of parcels from U.S. individuals or charitable organizations overseas. General License GIFT is modified to allow no more than one gift parcel from the same donor to the same donee in any one month. Currently, one parcel may be shipped each week. This change is intended to assure that the license is utilized in conformity with its intended purpose, namely the donative provision of gifts between individuals. Specific authorization to exceed this limit may be granted on a case-by-case basis to meet compelling humanitarian concerns (e.g., gifts of medicine to relatives). The Bureau of Export Administration will grant case-by-case exemptions through issuance of a validated license. For clarity, new text is added on appropriateness of items as gifts.

307. ● DECONTROL OF CERTAIN PERSONAL COMPUTERS

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: The interim rule removed the validated license requirement for exports of certain personal computers to Free World destinations, for reasons of foreign availability. The subject computers required a validated license to all destinations under ECCN 1565A of the Commodity Control List. The D.A.S. for Export Administration's determination that foreign availability exists for the subject computers was published concurrently with the rule at 54 FR 30103. The final rule removed national security-based validated licensing requirements on exports of certain personal computers to all destinations and supersedes the interim rule published July 18, 1989.

308. ● HONG KONG IMPORT CERTIFICATE; REPLACING HONG KONG IMPORT LICENSE AS REQUIRED SUPPORT DOCUMENT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 99-64; PL 100-418; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 775; 15 CFR 773

Legal Deadline: None

Abstract: Section 775.3 of the Export Administration Regulations (EAR) currently requires that applicants obtain the official duplicate copy of Form 3, Hong Kong Import License, in support of an individual validated license application (Form BXA-622P) for the export to Hong Kong of commodities identified by the code letter "A" following the Export Control Commodity Number. This final rule changes that requirement by instructing exporters to obtain the Hong Kong Import Certificate instead of the Hong Kong Import License. This rule also changes the name and address of the Hong Kong authorities responsible for administering the Hong Kong Import Certificate/Delivery Verification procedure.

Consistent with the grace period provided in section 775.9(b)(2) of the EAR, applicants for export licenses to Hong Kong may continue to use the Hong Kong Import License in support of their applications through July 27, 1989. (54 FR 24888)

309. ● REMOVAL OF "ADVICE OF THE MANUFACTURER" PROVISION

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 778

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations by removing reserving section 778.6, "Advice of the Manufacturer." This section had required exporters of goods capable of sensitive nuclear uses to request a written statement from the manufacturer specifying whether a validated license is required for export. The Department has determined that the practical utility of the letter of inquiry and the manufacturer's advice was minimal because section 778.6 stated that "notwithstanding the advice provided by the manufacturer, the exporter remains responsible for filing

VOL 54 ISS 208 OCT 30 1989 UMI

an export license application for any export subject to section 778.3." Section 778.3 contains provisions on licensing requirements for export of commodities and technical data with sensitive end-uses.

310. ● EXPORT LICENSES; REVISION TO INSTRUCTIONS FOR FORM BXA-622P

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 99-64; PL 100-418; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 773

Legal Deadline: None

Abstract: On February 14, 1989 (54 FR 6643), the Bureau of Export Administration published a final rule that revised the forms necessary to apply for export licenses (BXA-622P, BXA-622P-A, BXA-622P-B, formerly ITA-622P). The new forms allow use of Optical Character Recognition (OCR) for direct recording of export license information into the Commerce Department computer data base, thus eliminating the need for manual entry.

This rule amends Supplement No. 5 to Part 773, establishing new instructions for Distribution License applicants when completing the new Form BXA-622P (54 FR 31812).

312. ● GENERAL LICENSE G-COCOM

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 771; 15 CFR 774; 15 CFR 786

Legal Deadline: None

Abstract: The Omnibus Trade and Competitiveness Act (OTCA) Amended section 5(b)(2) of the Export Administration Act of 1979 (EAA) to allow commodities described in the Advisory Notes for the People's Republic of China to be exported without a license to CoCom participating countries and countries determined to be CoCom comparable. This final rule creates a new general license designated G-COCOM designed for exports to CoCom countries and countries determined to have sufficient export control systems to warrant this benefit under section 5(k) of the EAA. Commodities that may be exported under General License G-COCOM are those described in Supplement No. 2 to Part 771, and those commodities eligible for General License G-COM or GFW. Supplement No. 2 to Part 771 lists commodities that could have been exported to the People's Republic of China with only notification to other CoCom governments as of the date of enactment of the Trade Act.

Some commodities are ineligible for General License G-COCOM because they are controlled for other than national security reasons or because their export requires more than mere (cont)

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 774

Legal Deadline: None

Abstract: The Omnibus Trade and Competitiveness Act (OTCA), signed by the President on August 23, 1988, amended section 5(a)(4) of the Export Administration Act of 1979 (EAA) to require the removal of controls on most reexports to CoCom and countries qualifying for full benefits under section 5(k) of the EAA. This final rule expands the permissive reexport provisions of 774.2 of the Export Administration Regulations (EAR) (15 CFR 774.2) to allow reexports of U.S. commodities to and among CoCom participating countries, Finland, and Switzerland, without prior U.S. authorization. Certain limited exceptions, e.g., supercomputers, are specified (54 FR 28665).

316. ● CARBON THERMAL INSULATING MATERIAL ECCN 1734A; DECONTROL TO COUNTRY GROUPS T AND V

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; EO 12525; EO 12532; PL 99-440; EO 12571

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: This rule amends the validated license controls on exports of carbon thermal insulating materials controlled under ECCN 1734A on the CCL. Exports of such material no longer require a validated license for exports to Country Groups T and V, except the People's Republic of China and Afghanistan. Previously, these items could be exported under General License GFW to all countries listed in Supplement Nos. 2 and 3 to Part 773 of the Export Administration Regulations. This rule allows exports of these items to all Free World countries under General License G-DEST. This action is intended to streamline U.S. export control requirements without injuring national security interests and make U.S. controls more comparable to those of other suppliers.

317. FIPS FOR C PROGRAMMING LANGUAGE

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: None

Legal Deadline: None

Abstract: This standard will adopt an American National Standard (currently draft proposed standard) which defines the syntax of the C programming language and the semantics for its interpretation. The standard will be used by implementors as the reference authority in developing compilers, interpreters or forms of high level language-processors and by other computer professionals who need to know the precise syntactic and semantic rules of the standard. Use of this standard will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff training and skills.

321. FIPS FOR ELECTRONIC BUSINESS DATA EXCHANGE

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: None

Legal Deadline: None

Abstract: A group of voluntary industry standards that will facilitate computer-to-computer interchange of procurement data will be adopted as FIPS. Developed by Accredited Standards Committee X12, the standards will provide standard data elements, formats, and contents of electronic messages containing procurement-related information. These standards will reduce paperwork, improve productivity, and enable more effective information and inventory management.

322. FIPS FOR APPLICATIONS PORTABILITY PROFILE

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This FIPS will provide an architectural approach to applications portability, and will include standard elements that can be used to develop and maintain portable applications. Components of the profile will include database management, data interchange, network services, user interfaces, and programming languages.

325. REVISION OF FIPS 146, GOVERNMENT OPEN SYSTEMS INTERCONNECTION PROFILE (GOSIP)

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This revision of FIPS 146 will add new protocols to the Government OSI Profile for virtual terminal, end-system to intermediate-system, connection-oriented network service, office document architecture, connectionless transport, and Integrated Services Digital Network (ISDN) technology. The specification addresses needs to acquire multivendor systems using available or soon-to-be-available standard products.

326. FIPS FOR POSIX SYSTEM ADMINISTRATION

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This standard will adopt a set of specifications on an interim basis to provide functional system administration requirements for POSIX operating system implementations. Actual utility names and options for system administration will be specified in a future revision to this FIPS. This standard will facilitate the interchange of computer programs among different vendor systems and architectures.

334. EXTENSIONS TO FIPS 127, DATABASE LANGUAGE SQL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: None

Legal Deadline: None

Abstract: The proposed extensions will adopt American National Standards (both currently draft standards) to the SQL language for relational databases. One proposal (Draft Addendum ISO 9075/DAD 1) provides features for assuring the correctness of data that is organized in SQL databases. The other proposal specifies interfaces between SQL and other programming languages including Ada, C, COBOL, FORTRAN, PASCAL, and PL/I. Use of these extensions will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff skills and training.

NATIONAL MARINE FISHERIES SERVICE

340. MARINE FISHERY USER FEES

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: A marine fishery user fee system will provide a substantial and stable source of revenue to partially offset Federal fishery expenditures and information needed for effective fishery management. Fees would be collected from the sale of marine fish conservation emblems and licenses, and from an assessment on landing or delivery of fish for commercial purposes. Administration costs are estimated to be $6 million annually, with net Federal revenues of approximately $80 million. A bill entitled "The Exclusive Economic Zone Revenue Raising Act of 1988" (HR 5580) was introduced on October 21, 1988. The Administration has not taken any action to have the bill reintroduced in the current session of Congress.

341. AMENDMENT 8 TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SURF CLAM AND OCEAN QUAHOG FISHERIES

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 652

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Mid-Atlantic Fishery Management Council.

Abstract: Amendment 8 would address current regulatory restraints on industry designed to conserve the resource. The FMP objectives would be modified to promote economic stability, simplify regulations, and to allow more operational flexibility for the industry. Long-term management alternatives to be considered include an Individual Transferable Quota System and other limited effort vessel allocation schemes.

342. AMENDMENT 4 TO THE PACIFIC COAST GROUNDFISH FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 663; 50 CFR 611.70

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Pacific Fishery Management Council.

Abstract: Amendment 4 will restructure and update the Pacific Coast Groundfish FMP to make it a more useful and timely document. It also will consider providing the flexibility to address a wider range of problems. The major issues in Amendment 4 will examine quota management, the application of "optimum yield," the ability to impose management measures for social and economic reasons (as long as the resource will not be jeopardized), deletion of the 30 percent lid on annual inseason increases to ABC and OY, ways to expedite the experimental fishing permit process, and the review and adoption of state regulations.

344. ● BLUE MUSSEL FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: Not yet determined

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 30 days and final action within such time as the Secretary deems appropriate.

Abstract: Secretarial Fishery Management Plan on blue mussels to address the problem of periodic contamination of blue mussels with paralytic shellfish poisoning (PSP), particularly in the Nantucket Shoals area of the EEZ. Monitoring had been provided by the National Shellfish Sanitation Program whose jurisdiction does not extend to the EEZ. Because of cost this effort has become too burdensome and has been discontinued. Factors to be considered are: definition of the management unit, interrelationship of the stock with other managed shellfish stocks in the EEZ and PSP monitoring procedures.

346. ● DEPLETION OF THE COASTAL-MIGRATORY STOCK OF BOTTLENOSE DOLPHINS IN THE U.S. MID-ATLANTIC

Significance: Agency Priority

Legal Authority: 16 USC 1361 et seq. Marine Mammal Protection Act; 16 USC 1383b

CFR Citation: 50 CFR 216.15

Legal Deadline: None

Abstract: Based on a review of the best available information on the status to the coastal-migratory stock of bottlenose dolphins in the U.S. mid-Atlantic, the National Marine Fisheries Service (NOAA Fisheries) is considering the publication of a proposed rule designating this population stock as depleted under the Marine Mammal Protection Act (MMPA). This action is required by the MMPA when a species or population stock falls below its optimum sustainable population (OSP). If this population stock is designated as depleted, the MMPA requires the application of certain additional restrictions on taking and importation, and the preparation and implementation of a conservation plan to restore the stock to OSP. NOAA Fisheries is also requesting any additional scientific information on this action that may be available from interested parties, as required by the MMPA Amendments of 1988.

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Legal Deadline: None

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1326. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the Coastal Zone Management Act of 1972, as amended (CZMA), and therefore, that a consistency determination is not required under that section before such sales may be made. Section 307(c)(1) required that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities in a manner which is consistent to the maximum extent practicable with federally approved state coastal zone management programs. NOAA engaged in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA removed those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

Decision Whether To Proceed With Rulemaking	10/31/90	

Small Entities Affected: None

Government Levels Affected: None

Sectors Affected: Multiple

Additional Information: NOAA issued a final rule August 31, 1985 making the changes required by the Supreme Court decision, and decided to undertake a comprehensive study of the Federal consistency process. The Draft Study issued April 1986 will assist NOAA in evaluating the need for and consequences of further revision of the Federal consistency regulations. Further revision has been deferred pending review of public comment on the April study, and amendments to the CZMA enacted in 1986. In addition, the CZMA will be reauthorized soon, and amendments to the CZMA may result which would require further regulatory revision. Based on this review, NOAA will evaluate the need for, and consequences of further revision of the regulations.

348. PROCESSED FISHERY PRODUCTS, PROCESSED PRODUCTS THEREOF & CERTAIN OTHER PROCESSED FOOD PRODUCTS: U.S. STANDARDS FOR GRADES OF FROZEN FISH BLOCKS & PRODUCTS MADE THEREFROM ETC

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 264A

Legal Deadline: None

Abstract: The revised rule will expand the coverage of established voluntary standards for grades of fishery products to include new products made from fish blocks. The standards will take into account new technology and equipment. These standards will be used in a voluntary program of fishery products inspection and certification by the NMFS. Industry has shown a high level of interest and support for the revisions.

349. U.S. GENERAL STANDARDS FOR GRADES OF SHRIMP

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into categories – U.S. Grades A, B and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as

VOL 54 ISS 208 OCT 30 1989 UMI

consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards.

350. REGULATIONS ON STRIPED BASS IN EXCLUSIVE ECONOMIC ZONE OFF NORTH EAST ATLANTIC COAST

Legal Authority: PL 100-589; 16 USC 1801 et seq; 16 USC 1851

CFR Citation: 50 CFR 656

Legal Deadline: None

Abstract: The Secretary of Commerce, after consultation with other Federal agencies, state agencies, and interested persons will implement regulations to prohibit catching and retaining striped bass in the Exclusive Economic Zone off North Carolina through Maine. This is being done in response to a Congressional directive contained in the Atlantic Striped Bass Conservation Act, and is consistent with the National Standards of the Magnuson Act. These regulations conform to and complement the Atlantic Striped Bass Plan developed by the Atlantic States Marine Fisheries Commission and approved by its member states. Alternatives considered are no action, requiring those fisheries in the EEZ to conform to state regulations, and establishing a Federal Bag limit on catching striped bass in the EEZ. The cost of the preferred alternative is nominal, and appreciable benefits accrue to the migratory striped bass stocks.

351. ENDANGERED FISH OR WILDLIFE; PERMITS FOR THE INCIDENTAL TAKING OF ENDANGERED MARINE SPECIES

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222

Legal Deadline: None

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal provides, under limited circumstances, for issuance of permits allowing the incidental taking of endangered species. The proposal applies to certain Federal permit or license holders and to private entities or State or local governments whose actions are not otherwise subject to Federal involvement or control. Prior to the 1982 amendments to the ESA, the taking of endangered species was prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under the proposed regulations would allow permit holders to conduct their activities without risk of prosecution for the incidental take of species authorized by such permits.

353. AMENDMENT 1 TO THE SWORDFISH FMP

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 630

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: Amendment 1 will reflect concern for status of swordfish stocks based on recent stock assessments. The U.S. longline fishery now targets tunas and small swordfish in nearshore waters and seeks larger, more valuable swordfish in more distant waters. In an attempt to reduce the fishing mortality of small billfish in the exclusive economic zone, the South Atlantic Council's Amendment 1 would adopt an objective of achieving a specific and reduced fishing mortality rate for swordfish by establishing an overall harvest quota for the entire stock. North-South sub-quotas, vessel permit restrictions, minimum fish sizes and limitations on swordfish incidental catch in the tuna fishery are being considered by the Council.

355. AMENDMENT 1 GULF OF MEXICO REEF FISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 641

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: Amendment 1 will attempt to rebuild declining reef fish stocks, especially red snapper. A primary objective of the amendment will be to reduce red snapper harvest by 24 percent the first year through the use of a commercial quota of 3.1 million pounds, by the establishment of a 13-inch minimum fish for commercial and recreational fisheries taking red snapper, and by establishing a 7-fish red snapper bag limit per person in the recreational sector. The amendment will also protect other species of reef fish, as well as red snapper by proposing to (1) reduce use of fish traps from 200 to 100 per vessel and expand the stressed area off Texas and Louisiana; (2) prohibit the use of bottom long lines shoreward of the 50-fathom curve; and (3) prohibit use of entanglement nets west of Cape San Blas, Florida, and shoreward of the 20-fathom curve east of Cape San Blas, Florida. Several additional species will be included in the management unit, and additional conservation measures will be forthcoming.

359. REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SWORDFISH FISHERY

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 630

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This regulatory amendment will modify the present data collection system to require 100 percent mandatory dealer reporting of landings and value, for swordfish and incidental species caught in the domestic swordfish fishery. This information is required to determine total fishery landings, fishing effort, and biological data (e.g., size of population, age classes) for stock assessment purposes. The regulatory amendment also will (1) clarify the scope of the regulations; (2) modify the requirements and procedures for obtaining a vessel permit; and (3) modify procedures for submitting daily fishing records. The amendment is intended to (1) obtain more timely and accurate data on swordfish (and incidentally caught species) landings, value and size composition of the catch; (2) improve stock assessment capabilities; (3) ensure accountability for information submitted on permit applications; and (4) ensure timeliness of information submitted on fishing records.

366. REGULATIONS GOVERNING THE TAKING OF SMALL NUMBERS OF MARINE MAMMALS INCIDENTALLY TO OIL AND GAS EXPLORATION IN THE BEAUFORT AND CHUKCHI SEAS

Legal Authority: 16 USC 1371(a)(5)

CFR Citation: 50 CFR 238.3

Legal Deadline: None

Abstract: Section 101(a)(5) of the Marine Mammal Protection Act directs the Secretary to allow, on request by U.S. citizens who engage in a specified activity (other than commercial fishing) in a specified geographical region, the incidental take of small numbers of marine mammals. The agency must find that the taking will have a negligible impact on the species or stocks, and will not have an unmitigable adverse impact on the availability of the species for subsistence uses. The Service received a request from 6 oil companies for a take of marine mammals incidental to oil exploration in the Beaufort and Chukchi Seas. These regulations allow a take if certain conditions are met including requirements for monitoring and reporting and a prohibition on taking in the spring lead system used by bowhead whales in the Chukchi Sea. These regulations allow the oil companies to proceed with energy exploration while protecting marine mammals.

Legal Deadline: None

Abstract:

(A) Incorporate into existing regulations for the part of the Capital Construction Fund administered for fishermen new requirements imposed by the Tax Reform Act of 1986.

(B) Incorporate into existing regulations, clarification of existing restraints on the use of the Capital Construction Fund by fishermen.

(C) Incorporate into existing regulations, assessment of user fees for Capital Construction Fund benefits provided fishermen.

Timetable:

Action	Date	FR Cite
NPRM	10/00/89	

Small Entities Affected: Businesses

Government Levels Affected: None

Additional Information: (A) Under existing regulations, at 50 CFR, Part 259, the acquisition of a qualified vessel is not interpreted to include the lease of a qualified vessel. The legislative history of the Tax Reform Act, 1986, indicates Congressional intent to consider lease hire payments from the CCF to be considered qualified withdrawals, if such payments are used for the acquisition of a qualified vessel through lease for a period of five years or more. The proposed rules would allow for payments from the CCF for such purpose. (B) Under existing conditions at 50 CFR Part 259, CCF benefits for fishermen are restricted in accordance with Part 251 of 50 CFR. The proposed rule would allow for either the moderation or lifting of these restrictions. (C) The proposed rules would add to 59 CFR Part 3 provisions for the assessment of user fee charges to fund operating costs for that portion of the CCF administered for fishermen.

369. AMENDMENT 18 TO THE FMP FOR GROUNDFISH OF THE GULF OF ALASKA AND AMENDMENT 13 TO THE FMP FOR GROUNDFISH OF THE BERING SEA/ ALEUTIAN ISLANDS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq; Magnuson Fishery Conservation and Management Act

CFR Citation: 50 CFR 672; 50 CFR 611

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days after receipt and final action 110 days after receipt from the fishery management council.

Abstract: The rule provides for a reporting system for groundfish catch and production; observer program; allocation of sablefish; area closures to protect king crab and walrus; establishment of Shelik of strait as a management area for Pollock; and flexibility for setting fishing seasons.

371. AMENDMENT 5 TO THE FISHERY MANAGEMENT PLAN FOR COASTAL MIGRATORY PELAGIC RESOURCES

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 642

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days after receipt and final action 110 days after receipt from the fishery management council.

Abstract: Actions which may be considered for inclusion in amendment are: (1) subdivide the recreational allocation for king and Spanish mackerel by area and time; (2) prohibit sale of king mackerel taken under a bag limit; (3) establish subquotas for king mackerel by gear type in the commercial fishery; and (4) adjust qualifications for commercial permits to require that fishermen who seek commercial permits must have derived 50 percent of their earned income from the sale of one's catch or for-hire chartering activities.

372. AMENDMENT 19 TO THE FMP FOR GROUNDFISH OF THE GULF OF ALASKA AND AMENDMENT 14 TO THE FMP FOR GROUNDFISH OF THE BERING SEA AND ALEUTIAN ISLANDS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 672; 50 CFR 611

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: The NPFMC combined its Gulf of Alaska and Bering Sea/Aleutian Islands groundfish plans to provide for one final rule governing these fisheries. The action makes adjustments in the regulatory system to account for inconsistencies in management approach. The result is a uniform regulation applicable to an increasingly large and mobile fleet that operates in both areas.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 644

Legal Deadline: None

Abstract: This regulatory amendment will change the regulations implementing the Fishery Management Plan for Atlantic Billfish (FMP) to: (1) broaden the definitions of "dealer" and "billfish" for the limited purposes of ascertaining the eligibility for sale of a billfish possessed by a dealer or processor; (2) clarify the scope of the regulations; and (3) prohibit the removal at sea of the head, fins or bill from a billfish. Purposes of the regulatory amendment are to: (1) ensure that a billfish from its management unit is not purchased, bartered, traded or sold in any state; (2) express clearly the FMP's intent; and (3) enhance enforceability of the regulations.

378. ● AMENDMENT 6 TO THE NORTHERN ANCHOVY FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 801 et seq

CFR Citation: 50 CFR 662

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Fishery Management Council.

Abstract: The Pacific Fishery Management Council will amend the Fishery Management Plan for Northern Anchovy to modify establishment of quotas from a spawning stock biomass basis to a total standing stock biomass basis. Because unusual environmental conditions can result in large standing stocks with low recruitment/spawning, the reduction fishery can be shut down in the midst of abundant standing stocks. In order to account for such situations, the Council will amend the procedures for determination of harvest allocations

380. ● REGULATORY AMENDMENT TO ESTABLISH A SPECIAL MANAGEMENT ZONE (SMZ) IN DADE COUNTY, FLORIDA

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 646

Legal Deadline: None

Abstract: This regulatory Amendment would establish a Special Management Zone (SMZ) as allowed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic. The SMZ would likely preclude use of certain gear types in a zone surrounding an artificial reef(s) in Dade County, Florida, to maintain reef fish populations for recreational or other purposes.

397. NATIONAL SEA GRANT PROGRAM FUNDING REGULATIONS

Legal Authority: 33 USC 1123 (d)(7); 33 USC 1125; 33 USC 1127

CFR Citation: 15 CFR 917.2 (Revision); 15 CFR 917.11 (Revision); 15 CFR 917.20 (Revision); 15 CFR 917.21 (Revision); 15 CFR 917.22 (Revision); 15 CFR 917.30 (Revision)

Legal Deadline: Final, Statutory, December 28, 1988.
Applies only to revision of 15 CFR 917.20 - 917.22.

Abstract: Amendments to the Sea Grant Act require updating of implementing regulations to include:

Replace the "National Needs" program with a "strategic research program," essentially to focus on a more limited number of priority research areas;

Include two types of fellowships not previously recognized by statute and set forth selection procedures;

To update the international program in view of the broader geographic areas and activities authorized;

To provide more specific support for graduate education and interdisciplinary research in marine affairs.

There are no alternatives. Statutory amendments explicitly or implicitly require conforming amendments to the funding regulations. There are no costs involved.

398. LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

Significance: Regulatory Program

Legal Authority: 15 USC 4244

CFR Citation: 15 CFR 960

Legal Deadline: None

Abstract: NOAA has agreed to amend its regulations for licensing private remote sensing space systems in response to a petition by news organizations. Petitioners seek clearer definition of when a license might be restricted because of national security. NOAA will consider ways to provide clarity to reassure potential applicants but will not consider the specific standard proposed by the media, which was rejected during the original rulemaking.

400. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; IMPORTATION OF YELLOWFIN TUNA

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Legal Deadline: None

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas other nations fishing in a similar manner that export tuna to the U.S. often do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna, to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to the U.S. These regulations will implement this requirement.

401. ENDANGERED FISH AND WILDLIFE; APPROACHING HUMPBACK WHALES IN HAWAIIAN WATERS

Legal Authority: 16 USC 1382(a); 16 USC 1540(f)

CFR Citation: 50 CFR 222.31

Legal Deadline: None

Abstract: This rule will establish as regulation a previously published Notice of Interpretation regarding minimum distances that should be maintained in the presence of humpback whales in Hawaii. Establishing a 100 yard perimeter around any of the whales while in the Hawaiian Exclusive Zone as a regulation is considered necessary given a large increase in vessel traffic and other water use activities in areas where this species historically occurs. In response to comments received in the public record, NOAA is defining two specific sites as cow/calf areas in which an approach closer than 300 yds is prohibited. This addition creates a new subsection to the rule.

402. U.S. STANDARDS FOR GRADES OF FISH FILLETS

Significance: Agency Priority

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 263A; 50 CFR 263B; 50 CFR 263C; 50 CFR 263D; 50 CFR 263E; 50 CFR 267

Legal Deadline: None

Abstract: This revised rule will expand the coverage of established voluntary standards for grades of fish fillets to include a new market form or style of fillet whereby bones are not removed. This style of fillet has become more familiar in the marketplace, resulting in the industry requesting the amendment. Responses to a previous request for comments indicate a national interest in this style of presentation. The amendment will allow this market form, bearing FDA's recommended labeling, to be inspected and reflect the U.S. Grade A mark.

404. FISH AND SEAFOOD PROMOTION

Significance: Regulatory Program

Legal Authority: 16 USC 4001 to 4017 Fish & Seafood Promotion Act of 1986 (FSPA)

CFR Citation: 50 CFR 270, (new)

Legal Deadline: None

Abstract: The proposed rule describes the conditions under which seafood marketing councils for one or more species of fish or fish products authorized under the FSPA may be established and operated. The councils will be funded through self-assessment by segments of the industry represented on the council and are established through (1) application of particular sector(s) of industry to the Secretary of Commerce; (2) favorable Secretarial review of the application and (3) passage of a referendum conducted by the Secretary among sector participants. The Secretary appoints members to the councils from lists of nominees supplied by the industry. Councils will submit annual plans and budgets for species-specific marketing and promotion, including consumer education, research, and other activities. Costs to the Federal Government are estimated to range from $100,000 to $200,000 for program start-up and other initial costs to establish one council. Annual costs will vary and depend upon the number of applications received and the number of referenda conducted. Benefits to the industry may be substantial.

406. INTERIM EXEMPTION GOVERNING THE INCIDENTAL TAKING OF MARINE MAMMALS DURING COMMERCIAL FISHING OPERATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216

Legal Deadline: NPRM, Statutory, March 23, 1989. Final, Statutory, July 21, 1989. Other, Statutory, January 20, 1989. ANPRM legal deadline was January 20, 1989.

Abstract: 1988 Amendments to Marine Mammal Protection Act direct Secretary of Commerce to establish within 240 days, a 5-year program for exempting commercial fishing operations within the U.S. exclusive economic zone from the Act's prohibition on taking marine mammals. The exemption will require registration of vessels with the National Marine Fisheries Service, reports on interactions with marine mammals and taking Government observers if required.

409. ● PACIFIC COAST GROUNDFISH FISHERY - REGULATORY AMENDMENT TO FACILITATE ENFORCEMENT

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 663

Legal Deadline: None

Abstract: Two changes to the regulations implementing the fishery management plan for Pacific coast groundfish fisheries in the exclusive economic zone off the coasts of Washington, Oregon, and California are proposed. The first change would require certain commercially caught groundfish species to be sorted prior to the first weighing after offloading. The second change would prohibit possession of unauthorized fixed gear on a fishing vessel. These changes would improve efficiency in enforcing fishing restrictions.

413. SAFETY OF UNITED STATES OBSERVERS ABOARD FOREIGN FISHING VESSELS

Significance: Regulatory Program

Legal Authority: PL 99-659

CFR Citation: 50 CFR 611.8

Legal Deadline: None

Abstract: United States observers are required aboard foreign vessels permitted to fish in the U.S. Exclusive Economic Zone (EEZ). Conditions aboard these vessels can be hazardous to the safety of observers. To prevent injury to observers, the Department of Commerce intends to publish minimum safety standards that must be maintained aboard foreign fishing vessels before they will be permitted to fish in the U.S. EEZ.

The alternative to establishing U.S. standards is to accept flag-state standards as adequate. This solution will probably not be feasible because there is a wide variation in foreign safety standards and differing degrees of compliance with standards. In some cases, foreign fishing vessels meeting existing flag-state standards would not be suitable for U.S. observers.

Costs of this action will be borne by the owners of foreign fishing vessels. This action is beneficial in that it may prevent serious injury, including death, to observers during the performance of their duty.

417. AMENDMENT 17 TO THE FMP FOR GROUNDFISH OF THE GULF OF ALASKA

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 672; 50 CFR 611

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: The amendment would require floating processors receiving fish caught in Federal waters to hold a Federal permit, and make weekly reports on catch.

418. AMENDMENT 3 TO THE FISHERY MANAGEMENT PLAN FOR ATLANTIC SEA SCALLOPS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 650

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will involve a major revision of the management plan with the purpose of replacing a management program based on a meat count standard measure with some other management approach of equal or greater effectiveness in meeting the plan's objectives. The Council is considering optional means of effort control, which would have industry support, as a basis for a new management program.

419. AMENDMENT 9 TO THE FISHERY MANAGEMENT PLAN FOR COMMERCIAL AND RECREATIONAL SALMON FISHERIES OFF THE COASTS OF WASHINGTON, OREGON, AND CALIFORNIA

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 661

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment (1) replaces the long-term spawning escapement goal and rebuilding schedule for Klamath River fall chinook salmon with fixed annual spawning escapement and harvest rates and a minimum escapement floor for naturally spawning adults, (2) modifies the ocean harvest allocation of coho and chinook salmon between non-Indian fisheries north of Cape Falcon, Oregon, (3) revises coastwide notice procedures for inseason management action, (4) conforms Federal and State regulations regarding the incidental harvest of steelhead by recreational fishermen, (5) authorizes inseason reporting requirements for commercial fishermen to provide timely accounting of catches from any regulatory area subject to quota management, and (6) removes the limitations on commercial and recreational season beginning and ending dates.

423. REGULATORY AMENDMENT TO CLARIFY TRIP LIMIT REGULATIONS FOR THE PACIFIC COAST GROUNDFISH AND SALMON FISHERIES

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 663; 50 CFR 661

Legal Deadline: None

Abstract: The regulatory amendment would clarify trip limit restrictions in the groundfish and salmon fisheries off the coasts of Washington, Oregon, and California. The definitions of "land or landing" and "fishing trip" are modified to clarify trip limit restrictions, to provide consistent regulations in the two fisheries, and to facilitate enforcement.

Significance: Agency Priority

Legal Authority: 35 USC 6; PL 100-418, Sec 9101(c)

CFR Citation: 37 CFR 5.14; 37 CFR 5.15; 37 CFR 5.25

Legal Deadline: None

Abstract: Amends regulations to conform with changes made in Trade Bill (Public Law 100-418) Section 9101 which amended Title 35, United States Code sections 184, 185 and 186. The legislation deleted "inadvertently" in view of narrow interpretation by the Courts. "Inadvertently" was replaced with "through error and without deceptive intent." The change would permit additional subject matter in foreign applications if it does not change the nature of the invention or disclose national security information.

Legal Deadline: None

Abstract: The rules of practice in trademark cases are proposed to be amended to revise, simplify, clarify, or delete existing rules or to codify in rules certain practices which are currently in effect. The rules involved are those relating to the requirements for concurrent use applications; abandonment of trademark applications; appeals to the TTAB from the final refusal of registration in ex parte cases; the institution and conduct of interference, concurrent use, opposition, and cancellation proceedings before the TTAB; review by civil action of a decision of the TTAB; and allowing an assignee to take action with respect to the assigned application or registration. The proposed amendments will assist the orderly and prompt resolution of issues in proceedings before the TTAB.

439. AMENDMENTS OF THE TRADEMARK RULES TO IMPLEMENT THE TRADEMARK LAW REVISION ACT AND THE "CROCKER" DECISION AND MISCELLANEOUS TRADEMARK RULE AMENDMENTS

Significance: Regulatory Program

Legal Authority: 15 USC 1123; PL 100-667

CFR Citation: 37 CFR 2.21; 37 CFR 2.33; 37 CFR 2.51; 37 CFR 2.61; 37 CFR 2.64; 37 CFR 2.71; 37 CFR 2.76, (New); 37 CFR 2.77, (New); 37 CFR 2.81, (New); 37 CFR 2.87; 37 CFR 2.88, (New); 37 CFR 2.89, (New); 37 CFR 2.129; 37 CFR 2.133; 37 CFR 2.161; ...

Legal Deadline: Final, Statutory, November 16, 1989.
The effective date of the Trademark Revision Act of 1988 (P.L. 100-667) is November 16, 1989, by which date implementing rules must be final.

Abstract: The rules of practice in trademark cases are proposed to be amended to implement the provisions of the Trademark Law Revision Act of 1988 (P.L. 100-667), to codify changes in practice resulting from a certain Trademark Trial and Appeal Board decision commonly known as the "Crocker" decision (relating to requirements for foreign applicants seeking to register trademarks in the United States), and to otherwise clarify and revise procedures for the examination of applications. The rules involved are those relating to applications for registration of trademarks based on (1) use of a mark in commerce, (2) a bona fide intention to use a mark in commerce, and (3) ownership of a foreign registration. The rules involved relate also to post-registration procedures and to ex parte appeals and inter partes proceedings before the Trademark Trial and Appeal Board.

442. ADMINISTRATION OF A UNIFORM PATENT POLICY WITH RESPECT TO DOMESTIC RIGHTS IN INVENTIONS MADE BY GOVERNMENT EMPLOYEES

Significance: Agency Priority

Legal Authority: EO 10096; EO 10930; 35 USC 207 to 208; 15 USC 3701 et seq

CFR Citation: 37 CFR 100

Legal Deadline: None

Abstract: PL 99-502 amended the Stevenson-Wydler Innovation Act of 1980 by establishing a number of procedures to encourage the development of technologies by laboratories owned or operated by the Federal Government, to facilitate the transfer of such technologies to the public, and to promote cooperation between these laboratories and the private sector.

Executive Order 10096 would be amended with regard to the government's rights to ownership of inventions created in laboratories owned or operated by the Federal Government. A revised version of the Executive order might be prepared and regulations would be developed to implement the amendments effected by PL 99-502.

This action will not increase Federal costs. In the short run it will encourage private sector collaboration to assist work done in Federal laboratories by appropriated funds, and in the long run increased commercialization of patents and inventions will increase tax revenues.

443. LICENSING OF GOVERNMENT-OWNED INVENTIONS

Legal Authority: 35 USC 208

CFR Citation: 37 CFR 404

Legal Deadline: None

Abstract: This action will revise 37 CFR 404 to simplify the process by which U.S. industry can obtain license to patented inventions owned by the Government. PL 99-502 is expected to increase industry interest in licensing inventions from Federal laboratories. The existing regulation was written by GSA on the basis of 1980 legislation. It may be possible to remove some of the difficulties that potential licensees must overcome.

grants and other business-related activities, and the impact on State and local governments and the private sector of this transition. No alternatives are being considered.

The costs to the Federal Government cannot be accurately estimated, but will include the cost of redoing some regulations and publications, costs associated with orienting employees and contractors to use of the metric system and some share of contractor costs for converting. The benefits will be the greater marketability of U.S. products which will improve our competitive posture in world markets and thereby improve U.S. trade balances.

445. TRAVEL PROMOTION FEE

Significance: Regulatory Program

Legal Authority: Not yet enacted

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: USTTA has primary Federal responsibility for stimulating U.S. export earnings through trade in tourism. Trade development coordination and other related services are currently provided without charge; however, various public and private sector partners do support USTTA cooperative programs at a level nearly equal the funding provided the agency by Congress. The Administration has directed USTTA to undertake efforts to replace funding it receives from general Treasury revenue with monies raised by assessing a facilitation fee derived from the economic activities of the American travel industry and its consumers. Upon enactment of this legislation USTTA will issue implementing regulations.

Department of Defense

Semiannual Regulatory Agenda

VOL 54 ISS 208 OCT 30 1989 UMI

DEPARTMENT OF DEFENSE (DOD)

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, DoD.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents, including those that are procurement-related for public information and comments under E.O. 12291 "Federal Regulation" and the Office of Federal Procurement Policy Act of 1988 (102 Stat. 4055; 41 U.S.C. 402). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12291, the Federal Procurement Policy Act, and other regulatory programs. It contains DoD issuances initiated by DoD Components that may have economic and environmental impact on state, local, public, or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on April 24, 1989, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items, included in this publication, will also be used by the Office of Federal Procurement Policy to publish a "Procurement Regulatory Activity Report" as required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in April 1990. In addition to this agenda, DoD Components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information, contact Mrs. Pearl Rascoe-Harrison, telephone 202-746-0933, or write to Directorate for Information Operations and Reports, Washington Headquarters Services, 1215 Jefferson Davis Highway, Suite 1204, Arlington, Virginia 22202-4302.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact the Office of the General Counsel, DoD, Washington, DC 20301, or call 202-697-2714.

For general information on Office of the Secretary regulations, contact Mrs. Patricia H. Means, Directives Division, Correspondence and Directives, Directorate, Washington Headquarters Services, telephone 202-697-4111. For general information on the procurement-related agenda items, contact Mr. Owen L. Green III, telephone 202-697-7266, or write to the Defense Acquisition Regulatory System, Pentagon, Room 3D139, Washington, DC 20301-3062.

For general information on Department of the Army regulations, contact Mr. Kenneth L. Denton, telephone 202-325-6297, or write to Commander, U.S. Army Publications and Printing Command, ATTN: ASQZ-SPP, Room 1420, Hoffman I, Alexandria, Virginia 22331-0302.

For general information on Department of the Navy regulations, contact Ms. Alcinda P. Wenberg, telephone 202-697-7216, or write to Department of the Navy, Information Resources Management, IRM(C), Washington, DC 20350-1000.

For general information on Department of the Air Force regulations, contact Ms. Patsy J. Conner, telephone 202-694-3527, or write to Department of the Air Force, SAF/AADA, Pentagon, Washington, DC 20330-1000.

For specific agenda items, contact the appropriate individual indicated in each DoD Component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports, including procurement-related regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements, with follow-on reporting actions taken, as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD Components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes Component level of authority and type of issuance in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle, which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD Components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act;

b. Paperwork Reduction Act;

c. GATT International Trade Agreement; and

d. Office of Federal Procurement Policy Act Amendments of 1988.

These DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce the economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD Component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, the Department of Defense reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

DOD

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in title 5, section 553 and section 1 of E.O. 12291.

D. O. Cooke,

Director, Administration and Management.

453. ● MILITARY WHISTLEBLOWER PROTECTION (DOD DIRECTIVE 7050.XX)

Legal Authority: 10 USC 1034

CFR Citation: 32 CFR 98a

Legal Deadline: None

Abstract: This part proposes to provide policy and implements the military whistleblower protection provisions contained in Public Law 100-456. It applies to all DoD components and personnel and establishes responsibilities, authorities, and operating procedures to ensure that military members of the Armed Forces are protected from reprisal for making lawful communication with a member of Congress or an Inspector General in which the member makes a complaint or discloses information that the member reasonably believes evidence a violation of law or regulation; mismanagement, a gross waste of funds, and abuse of authority, or a substantial and specific danger to public safety.

476. ● FINANCIAL INSTITUTIONS ON DOD INSTALLATIONS (DOD DIRECTIVE 1000.11)

Legal Authority: 10 USC 136

CFR Citation: 32 CFR 231

Legal Deadline: None

Abstract: This revised rule accepts clarifying and editorial changes suggested in response to the proposed rule published in the Federal Register on February 22, 1989 (54 FR 7558). In addition, this rule cites a new DoD policy that encourages the installation of automated teller machines on DoD installations that are connected to national automatic teller machines networks and provides guidance supporting that policy.
